

## Chapter 746

Just as they were fighting, a dozen figures came running in from the bronze gate.

Aaron looked back and saw more than a dozen figures. Those were Wade and others who had just run out. Helen was also one of them, and there were several strangers from the underground forces.

Aaron's face lit up with joy, and he said, "Little girl, hurry up, attack the four of them!"

The appearance of Future and others could help break this intense tie.

At this moment, Barry and other three Punishment Messengers were exerting all of their strength in restraining Aaron. If they were attacked, they would not be able to resist at all. Once they tried to resist, Aaron would naturally be able to escape.

"Uncle, I'm afraid it's not..." Future had just finished her sentence when a violent blast of Qi interrupted her and sent her flying.

A powerful wave of Qi swept over from outside the bronze door. A figure wearing a black robe appeared in front of everyone. The powerful aura that the person in black carried caused everyone to be shocked.

Barry, who originally looked a little pale because of the appearance of Future, showed a surprised look at the sight of the man in black. "Prison Guard!"

Prison Guard!

Barry's way of addressing this man in black was clearly heard by Aaron and the members of the three clans.

The Recluse Association had prison guards. Those who could become prison guards were powerful people. However, those people, who could become the prison guard, were much stronger than Punishment Messengers.

At this moment, the appearance of the prison guard was like a big stone, pressing on the hearts of everyone.

"Prison guard, kill Aaron quickly. The clans are going to rebel." Barry shouted excitedly. He was not surprised by the appearance of the prison guard. When they were on the way to open Justus's tomb, he had already told the prison guard this news.

With the arrival of the prison guard, all the things here would belong to them!

When the three clans who were fighting heard this, they subconsciously stopped their actions and stopped fighting. They all

looked at the man in black as if they were facing a formidable enemy. Who would have thought that the man in black would not stop at all. He quickly passed by Barry and rushed to the door of a stone room. Barry and the others were stunned by the man's actions.

"Prison Guard, kill these people first. All the things here are going to be ours. Ants who have left early are not too far." Barry said in a hurry. He thought that the prison guard went to the room because of the Spiritual Stones, so he didn't have time to kill people.

Right at this moment, a dark golden sword flew out of the bronze door like a bolt of lightning towards the man in black.

The man exerted all his strength, dodging the dark sword.

The Qi emanating from the sword once again caused everyone in the cave to be shocked. The owner of the sword was definitely a powerful expert who wasn't weaker than the prison guard.

The man in black turned around. Only then did everyone notice that there was a shocking wound on the chest of the man in black.

Who was it?! Who could hurt the prison guard?

The man in black gasped and looked at the direction of the bronze door. "Henry Zhang, do you really want to kill me? Are you going to be the enemy of the Recluse Association?!"

"What?"

Barry and the other three people, including Wade, exclaimed at the same time.

"If I kill you here, I won't be the enemy of the Recluse Association." A voice gently sounded outside the bronze door.

As soon as they heard the voice, the faces of Wade and the others froze, and a look of pleasant surprise appeared on their faces. They were absolutely certain that the voice belonged to Henry.

The eyes of Barry and the other three were full of horror. They couldn't understand why Henry could appear here and why he was still trying to kill the prison guard.

Aaron burst into laughter. "Ha, ha, ha! The Recluse Association is just a joke."

The man in black swallowed and took a deep breath. "Henry Zhang, this time, it's not me who wants to hurt you. It's none of my business."

"Cut the cr\*p!" Another dark golden sword shot towards the man in black from outside the bronze door. The speed of this sword was so fast that the man was pushed into a corner. There was no way for him to avoid it. He could only shout loudly and pulled over a Punishment Messenger in front of him to protect himself.

The Punishment Messenger, who had been drawn over by the man in black, didn't even have the time to react. His chest was pierced through by the dark golden sword.

A figure gradually walked out from the bronze gate and appeared in front of everyone's eyes.

"Boss!" The moment Future saw the figure, she let out a cry of surprise and rushed toward Henry.

Henry had disappeared without any trace for over a month. It was said that Henry was dead. Even Future and others believed that Henry had been killed. How could she not be excited to see Henry again?

Henry smiled and rubbed Future's head. "You girl, you are finally willing to practice seriously. It seems that you are almost in the Transformation realm."

Helen, who was in the crowd, also looked at Henry excitedly.

On the day that Radiant Island was destroyed, Helen had a feeling that the sky was falling. From that day on, she began to make a revenge plan. She knew that she was weak, so she chose an extreme way. Even if she was going to die, she had to take the murderers who killed Henry with her.

"Boss, that lady over there is also your friend. She almost blew up the whole cave for you." Future pointed to Helen.

Henry looked over and saw the detonator on Helen's body at a glance. At this moment, a strong sense of guilt welled up in Henry's heart.

Henry's feelings for Helen had always been kind of inexplicable. It was an accident for them to be together. Even Henry didn't expect that Helen would do such an extreme thing.

"Helen." Henry grinned, but didn't know what to say.

"Everything is okay as long as you're not dead. I thought you were dead." Helen suppressed the excitement in her eyes and pretended to be indifferent. But her trembling body showed how excited she was at the moment.

One of the Punishment Messengers was dead, and the blue threads that filled the sky no longer existed.

The white-eyed tiger in front of Aaron roared.

"Impossible! It's impossible!" Barry shook his head. "I put you in the Hell by myself. How did you get out? It's impossible!"

"Junior brother, have you really been put into the Hell?" Aaron asked.

"We'll talk about it later." Henry smiled slightly. "Let's solve the problem now. Who can tell me who are these people?"

"Boss, those are three clans, Zhu, Xiao, Su. The Su clan has already

replaced the Su Family!" Wade said, "Sister-in-law... no, Sister Lin was also controlled by them before."

"Oh, members of the clan." Henry nodded. He glanced at the other side and said, "Let me count. There are five people from the Recluse Association and eight people from the clans, a total of thirteen people in Qi-concentrating realm. The rest are not included."

"Are you Henry Zhang?" Freud asked. "The Su clan doesn't have any conflict with you."

"My Xiao clan also thinks that there is no conflict with your Radiant Island." Dylan also spoke.

A man who was able to hunt and kill the prison guard made them feel great pressure.

Henry did not speak. Behind him, 13 dark golden long swords slowly formed.

## Chapter 747

The 13 dark golden longswords gathered behind Henry and aimed at the eight members of the clans as well as the five Qi-concentrating realm experts from the Recluse Association.

One person had locked on to a total of thirteen Qi-concentrating realm experts! What was mightiness? This was strength!

13 dark golden long swords were encircling Henry. Although he did not say a word, his movement was mixed with aggressiveness, and everyone could feel it.

Wade and the others felt an inexplicable pressure just by looking at these dark golden longswords.

"I thought I was about to catch up with Big Boss, but it turns out that I'm still too weak." Wade shook his head.

Aaron looked at the swords around Henry and showed a gratified look.

The members of the clans and the people from the Recluse Association all looked at Henry with a heavy face. They all felt a kind of momentum that made their heart palpitate from those longswords.

"Henry, my Su clan has never provoked you. I don't know what you mean!" Freud softened his tone. It was not difficult for a person who could kill a prison guard to kill him.

Henry smiled slightly and said, "It's true. You shouldn't have come into the world. Ancient martial arts world has its rules. Your existence is too much."

Henry stretched out his hand and snapped his fingers. At this moment, the thirteen dark golden longswords shot toward the Qi-concentrating masters in front of him.

The Punishment Messenger, who had been used as a shield by the man in black and was pierced through by the sword, was once again pierced through by the dark golden sword almost without any resistance. He spat out a mouthful of blood and his pupils were scattered.

A master of the Qi-concentrating realm was killed by Henry just like that.

The other 12 people respectively resisted the dark golden swords in front of them. Although Henry's attack integrated thirteen swords, each expert had to try his best to block the attack.

Seeing the Punishment Messenger fall in front of them, both Freud and Dylan's faces darkened.

"Henry Zhang, don't push it too far!" Freud shouted.

"So what if I'm pushing too far? If you don't accept it, then you should be stronger than me."

Henry clenched his fists with one hand. An overwhelming amount of dark gold longswords formed behind him, and then they chopped at the remaining 12 Qi-controlling masters.

Faced with the countless dark golden swords, all of the Qi-concentrating experts felt a sense of despair. Each and every one of these long swords gave them an intense sense of crisis.

As the long swords fell, the clan members who stood behind the Qi-concentrating masters all died. Even if they were in the Transformation Realm, they would not be able to hold on for two seconds.

In this world, what decided whether a person was a friend or an enemy, were different benefits.

A mature man knew what he wanted.

A decisive person knew what he wanted and he would quickly take action.

Obviously, Henry was a mature and decisive person. What he was going to do now was very simple. He wanted to make sure that there was no one in the Qi-concentrating realm alive.

The three big clans, since they wanted to be the leaders, should also be well-prepared for being the leader.

"Henry, we, the Recluse Association, will never let you go! Never!" Barry let out a shrill scream. He was nailed to the stone wall by a long sword. Before he could make any move, more than a dozen long swords attacked him, and he was covered with them.

With a "pu pu" sound of flesh, he was nailed to the stone wall and blood flowed down from the stone wall. Not only Barry but also other members of the Recluse Association and the clans were nailed to the wall.

Joshua of the Zhu clan, Freud Su, and Dylan Xiao were all nailed to the wall.

Overwhelming!

Absolute crushing.

Henry didn't even move. He easily killed the thirteen Qi-concentrating masters only by relying on his Qi.

This made all the people present who saw this scene have a strong sense of unreality.

When the clans first appeared, they were so strong. They stood in the

air like gods. When the Recluse Association showed up, they were so domineering that they wanted to destroy Radiant Island. However, now, they were easily nailed to the stone wall.

Only a few people from the underground forces were still in the hall of the cave. They were drooling and looking at Henry with a fever of passion in their eyes.

The Emperor of Hell, in the end, had always been that the Emperor of Hell. Powerful and invincible!

Wade and the others opened their mouths wide. They had fought against the people of the Recluse Association and knew how strong these people were. If they forced themselves to use the Spiritual Stones to improve their strength, they could only tie with these people from the Recluse Association. Such experts were actually killed by Henry with one move.

Not to mention Wade and others, even Aaron was very surprised.

Aaron was a strong man who had stepped into the Divine Realm with one foot. He could feel very clearly that Henry's strength was only in the Qi-concentrating realm, but he could crush strong people of the same level so easily. Even Aaron himself could not produce an attack of that intensity.

What Aaron didn't know was that Henry, who had been trained by Silas and others, was absolutely invincible among the same level now. Facing the opponents at the same level, he could completely seckill them. In addition, Henry himself cultivated the World Destruction Technique, so Henry could have a chance even against the opponent from the Divine realm.

Now, Henry's combat power could no longer be judged based on the strength of the Spiritual Qi.

The powerful experts had turned into corpses. The members of the major clans, apart from those who had run out before, had all died here.

Henry turned around and looked at the underground forces standing beside Wade and others.

These members of the underground forces were all very capable. When they saw Henry looking at them, they quickly got down on one knee and didn't dare to look up.

"Future, you deal with them." Henry said to Future.

Future nodded, took out a tube of medicine from her clothes, and said to the underground forces, "Take this medicine. I will arrange someone to bring the antidote to you every half month. After three years, it will be completely removed from your body. You should be very clear about what you can say and what you can't say."

"Understood! Understood!" Several people from the underground forces were willing to take the medicine. They did not dare to have any extra thoughts. Moreover, they also understood in their hearts that taking out these medicines from Future would give them a chance to live. Otherwise, if they really wanted to wipe them out, it would be a piece of cake for Radiant Island to do so.

After taking the medicine, several people from the underground forces ran out of the cave without turning their heads. They told themselves in their hearts that they should not tell anyone what had happened in the cave in their lifetime.

After the people from the major forces left, there were only a few people from Radiant Island, as well as Aaron and Helen in the cave.

Henry turned around and said to Aaron, "Senior brother, long time no see. I was wondering who came to open the tomb of the old man."

"Haha!" Aaron laughed and patted Henry on the shoulder. "Junior brother, I'm relieved to see you again. By the way, were you really sent to the Hell? It's impossible for people who entered there to escape."

Aaron was very confused about what had happened during this period of time.
