

## Chapter 816

"Honey, let me introduce you. This is Dr. Yvonne Mei." Sylvia made a gesture to the 30-year-old woman.

"Hello." Henry nodded to the other party.

"Hi." The woman who was referred to as Dr. Yvonne replied with a bland tone.

Henry frowned slightly and did not speak.

Sylvia did not notice these details and introduced another person to Henry, "This is Professor Frederic Qiu."

"Hello." Henry nodded to the other side again.

But this time, Frederic did not even respond. He directly looked at Sylvia and said, "President Lin, which security company is your husband in charge of?"

"Collier Security," Sylvia replied directly. Although she had only been to Henry's company once, she remembered it clearly in her heart.

"Collier Security?"

Yvonne and Frederic burst into laughter when they heard the name.

"President Lin, are you serious? Collier Security?"

"Are you kidding?"

Sylvia frowned and glanced at Henry, who was standing beside her. She then opened her mouth and said, "Sorry, I don't understand what you mean."

"President Lin, take a good look at the comments about the security of Yinzhou's Collier Security Company on social apps."

Frederic took out his mobile phone, opened a web page and put it on the table in front of him.

Sylvia glanced at it and clearly saw what was written on Frederic's mobile phone.

Frederic opened a company evaluation app, which was full of negative comments regarding Yinzhou's Collier Security Company. Some said that Collier Security Company security was not good at all, while others said that Collier Security Company security was not capable of doing anything. Anyway, there were all kinds of comments. In terms of grading, if one didn't have to make at least one star at least, Collier Security might not have even half of it.

Sylvia looked at Henry doubtfully. As far as her understanding of Henry, with Henry's identity, if he started a security company, even if it was a casual thing, it would be one of the best in the world.

Henry shrugged indifferently. Alvis thought the tasks were simple and should not be done. It would be impossible to have positive comments on apps. However, Henry did not care about this. The staff of the Collier Security was not available for most of the people.

"President Lin, let's forget it. Although the Lins Group invited us this time, we'd better find a security company by ourselves." Frederic said and put away his mobile phone at the same time.

"Yes." Yvonne also said, "In this case, your Lins Group have to find a way to explain it to the Research Association. We will hand over the work of security to others."

After saying that, they looked at each other, stood up directly and walked out of the door. When they were about to reach the door, Frederic suddenly turned around and said to Sylvia, "By the way, President Lin, you should arrange the place for us as soon as possible. Our team will arrive tonight."

After saying that, Frederic left with Yvonne, leaving Sylvia standing in the office with a pale face.

"Dear, what's the background of these two people?" Henry went over to close the office door and asked.

Sylvia took a deep breath and said, "Didn't the authorities plan to build a residential area for trial? Thanks to you, Lins Group has won the bid and the government has arranged a scientific research team to come over."

Henry understood as soon as he heard this. "So, these people are arranged by the authorities. No wonder they looked unhappy when they saw me. It seems that the officials have approved a lot of security funds this time."

Henry stretched out his hand and touched his chin. He had been running around for so many years. What did the two people mean just now? He could see clearly.

Sylvia smiled bitterly, "There are indeed too many situations like this."

"My dear wife, do you want to explain it to the authorities?"

"How to explain it?" Sylvia pouted and said, "They were specially approved by the government. Even if we are not responsible for the security, once something goes wrong, the government will blame us. To put it bluntly, our work could be for nothing. Husband, I have to ask

you to arrange for people to protect them secretly."

In the past, when Sylvia encountered this kind of situation, it was always the staff of Lins Group's complaints and she had solved it with her tough attitude.

But now, Sylvia had changed from a tough person to a calm and gentle person. It was not because she had become spoiled, but because she had found a person she could rely on.

Henry looked at Sylvia, who looked like a teenage girl, and stretched out his hand to brush the woman's tall nose. "Don't worry, honey, this matter should be handed over to me. Anyway, on the day of the opening, you have called so many people to attend the opening ceremony."

Sylvia couldn't help but laugh. "If you put it this way, it can be considered as good karma, right?"

"Good karma?" Because of these words, Henry couldn't help but be stunned. He recalled that in that winter, Sylvia came out from Nelson's car and handed him a cotton-padded jacket. Was this good karma?

"No." Henry shook his head and grabbed Sylvia's small hand. "My dear wife, I believe that there is something more than karma. Your kindness is the greatest blessing in my life. My dear wife, thank you for being kind and appearing in my life."

Sylvia was confused by Henry's sudden words. She didn't understand why Henry would say that.

"Dear, do you believe that I have fallen in love with you a long time ago?" Henry put his hand on Sylvia's shoulders and looked at her with his eyes.

Sylvia was actually a little intoxicated as she looked at the deep star-like eyes in front of her. A bright redness surfaced on her pretty face.

Their breaths became heavier and heavier, and the distance between them became shorter and shorter.

Sylvia could smell the man's scent, and her body trembled slightly. Her large eyes blinked slightly, and her long eyelashes curled up. There was also a hint of anticipation in her beautiful eyes.

Knock. Knock.

There was a knock on the door, which was uncomfortable at this moment.

The two people inside were like two frightened rabbits. They quickly separated and looked at the door.

If people who knew their relationship saw this, they would definitely laugh out loud. In fact, they had been married, but they still behaved like a timid young couple during their first love. However, they never thought that when they were ignorant. Love was the purest feeling without any impurities. What the two of them wanted was nothing more than seeing each other. That was all.

Sylvia tidied up her shirt, even though it was very neat.

"Come in."

When the door of the office opened, Cathy, the secretary, stood in front of the door and said anxiously, "President Lin, the Research Association just called. They asked us to explain the security problems, including the security funds, that was taken away by Dr. Frederic."

Sylvia and Henry had just thought of what the secretary said.

"You don't have to worry about this matter. Go and arrange for their accommodation." Sylvia instructed.
