

Chapter 819

Sackcloth Visitor's answer made Henry twitch his mouth.

"The way the Recluse Association deals with the problem is really casual. You only deal with it when something goes wrong."

"Haha." The man chuckled. "Don't forget that you're also a member of the Recluse Association."

"Hmph." Henry rolled his eyes, sent out the pictures that had just been taken, and turned to leave.

Henry had just left the old site of the welfare house when he received a call from Sylvia.

Sylvia told Henry that this area had already become a private area, and no one else could go in and out at will.

After confirming this information, Henry felt much more at ease. Regarding the use of this Spirit Gathering Formation, Henry was also not clear about it. However, he had a feeling that this was definitely not a good thing. If someone were to randomly enter, there might very well be a big problem.

Henry planned today's schedule. After such a long time, he didn't spend much time with Lisa. The plan Henry had for today was to play with Lisa. However, the plan couldn't keep up with the changes.

Before Henry arrived home, he received a phone call.

"Mr. Zhang, we haven't been in touch for a long time. Do you still remember me?" A middle-aged man's voice sounded on the phone. His voice was very magnetic, giving people a feeling of comfort like a spring breeze.

Henry listened to this voice and was silent for two seconds. Suddenly, he smiled and said, "The news said

that you were so busy but you still took the initiative to call me on your own."

The other side sighed and said, "No matter how busy I am, it can't compare with the turmoil of the underground world during these days. What happened in China has been spread all over the world."

"Haha." Henry got straight to the point. "It's not a trivial matter since you took the initiative to contact me, is it?"

The other party replied, "To you, it's probably just a small matter. It's just that it's a matter of whether you're willing to do it or not."

Henry replied, "I am too tired of running around the world. I don't want to run around anymore. I just want to accompany my wife at home."

"This is a matter connected to Yinzhou. It's neither too big nor too small."

"Tell me about it. Does it have anything to do with recent events?" Henry said. He had already thought that since the other party could call him directly, it was definitely not a whim.

"Sort of." The other party replied, "The Sharp Knife reported some information regarding the Nobel Berserkers to us. There are some secrets hidden in your northwest region. Section Nine would not casually appear. You know, there are many types of balance in the world, and not anyone can break them."

Henry immediately understood what he meant. "Do you want me to do it or assist you?"

"That desolate land is worth exploring. This time, there will be a small team that will go over. Section Nine will arrange for people to protect it, but they won't have too many people. They have received news that the Nobel Berserkers will also arrive in Yinzhou in the next few

days. All you need to do is to take action at the crucial moment."

The corners of Henry's mouth suddenly curled into a playful smile. "The people of the Nobel Berserkers are coming. I don't think I'll have enough people to deal with them."

"I understand what you mean," the other party said. "This time, I will give you ten slots, which can stay there long-term."

Henry narrowed his eyes.

The meaning of this so-called ten slots meant that Henry could bring his own people to China.

In this world, many underground forces were constrained. There were agreements between countries. Some strong people were not allowed to live together for a long time. This was why a lot of people regarded Radiant Island as a holy place.

Many people, when they were young, had too many feuds. When one was dying, enemies would come to him. At that time, they would not be able to get protection, and the government would not stir up too many disputes because of the personal feud of the underground forces. Therefore, Radiant Island became a holy place.

Now that Henry had obtained these ten slots, it meant that in the future, when one of the ten slots encountered danger one day, Chinese authority would stand out.

What was the concept of the authority of a nation? China had a large nation! It was obvious that the government wanted to fully accept Radiant Island! In other words, they wanted to form an alliance!

The matter this time was said to have Henry secretly take care of it, but in reality, it was just a trigger. The

meaning could be analyzed clearly: The two sides would unite and fight against the Nobel Berserkers together.

The other side specifically mentioned that there would be a probing team this time, which meant that he would share the resources with Henry!

Henry knew very well why the authorities suddenly made such a decision. The authorities had witnessed what happened to the clans some time ago.

The other side saw Henry remain silent for a long time, and once again said, "How about it? Think about it. This should not be difficult for you."

Henry held the phone on his ear and stood on the street. Looking at the endless stream of cars, he took a deep breath and said, "Okay, when will your team arrive?"

"In about an hour, they will arrive at the Yinzhou Airport. I will tell Silver Visitor to contact you. It will be better for you to communicate with him. I wish that we would cooperate happily."

A busy tone came from the phone.

Henry put away the phone and smiled.

For Henry, this alliance was also a good thing.

Currently, the whole underground world was in chaos. Now, Henry only contacted some underground forces related to China. It should be known that the world was very big, and the other major countries also had those powerful figures hidden in the dark.

Now that Radiant Island was in the limelight, it was easy to be targeted. An alliance like this could bring no harm to the island at all.

It should be known that China had thousands of years of history. In the countries with the longest history in the world, there was no country's foundation, which was deeper than in China.

Henry still remembered the description Master Lu gave about China. China was a sleeping dragon. Once it woke up, the whole world would be turned upside down!

Henry gave up the plan to accompany Lisa today. He stopped the car directly and went straight to the airport.

On the way, Silver Visitor called Henry on his own initiative.

"Martial Uncle, the higher-ups just sent me a message and told me to contact you."

"Yeah. Are you going to participate in this operation?" Henry asked.

"I won't participate." Silver Visitor replied very decisively.

"Martial Uncle, you should know that I will represent Section Nine. However, I am under the control of the Committee. We can't participate at will. This time, the participants are all newcomers who have just joined Section Nine. These people...how should I put it, they are a little arrogant." 

"It doesn't matter. I've seen many arrogant people. The reality will give them a slap," Henry said indifferently, "let's talk about this matter. What should we do?"

"I don't know the details. I heard that it was a relic of the Antiquity Country that caused a lot of trouble. Now all the forces from all over the country are preparing to get it."

Henry sighed and said, "The Antiquity Country is known as the birthplace of Western civilization. It's not easy to get relics from there."
