

# God, the Real Miss Hated Everyone Equally

Chapter 126

## Chapter 126

The steel needle pierced into the water outlet of the water pipe.

“Ah=”

Cozi let out a sharp scream, his face twisted, and he struggled violently, but he could not break free no matter how hard he struggled.

Pain!

It was as painful as if it was going to split open!

Countless spikes were constantly stimulating inside, and pain existed all the time, as if it would never disappear.

When the others saw this, they also followed suit and used the same method to treat John and Toofucker.

After a while, the screams of John. Toofucker, and Cozi rang out one after another. Their screams were really louder.

They pulled out more steel nails and inserted them one by one, turning that thing into a hornet’s nest.

Brielle watched this scene with great interest but she had no intention of stopping it.

“Ah... Brielle, quickly stop them! You said that you wanted the three of us to deal with them. Now they are attacking us, stop them quickly!”

John screamed at Brielle, trying to hope her help him.

Cozi: “Brielle, please save us. They have gone too far. They actually ignored your orders. They are looking down on you. Quickly kill them!”

Toofucker: “Save us... Brielle, you can’t let them provoke your dignity. Quickly give the order to kill them!”

Brielle said simperingly, “I gave you a chance, but you are too useless. You can’t subdue them, so the opportunity fell into their hands.”

“In this world, the strong prey on the weak. The opportunity you can’t grasp is taken away by them. Now it is reasonable to be tortured by them. Don’t always think about letting others help you.”

“If you have the ability, resist yourself.”

John roared, “They have a lot of people!”

Brielle laughed. “When we were in the forest, you arranged so many people to target me. Didn’t I still subdue them all? I, a woman, can achieve victory with fewer people. You three men can’t do it. Is it too unreasonably, right?”

John’s face twisted fiercely.

How could this be compared?

Brielle was not a normal person at all! They could not be compared at all!

At this time, when the group of people who resisted heard Brielle’s words, they were ecstatic.

Brielle said that they had seized the opportunity. Did it mean that as long as they dealt with John and the other two and satisfied Brielle, they would have a chance of survival?

Instantly, they were full of energy and tortured John, Cozi, and Toofucker even more fiercely.

There were no tools in their hands, so they used the steel needles to poke holes in their bodies. They wished these three

## Chapter 126

people could be pierced into sieves, and they even used the barbs on the steel needles to scrape their flesh and scrape off their flesh.

John, Cozi, and Toofucker screamed continuously, their voices breaking.

During this time, the three of them fainted because they could not stand it anymore. Brielle kindly asked someone to send medicine to them, so that they could wake up and stay awake at any time.

They were in so much pain like they were tearing their hearts and lungs apart, constantly cursing at Brielle, calling her a heartless person, a beast.

Fleo listened to their curses, and his eyes gradually became gloomy.

He sent some props up for those people to use on John and the others. He also ordered them to play for a long time and not kill people too quickly

Not long after the props went up, the curses of John and the others disappeared, leaving only the cries and pleas for mercy.

“Brielle, please let me go...

“I can’t take it anymore... Just kill me...”

“Brielle, please be kind and give me a quick death. I will be your slave in my next life..

Brielle lowered her eyes and calmly took a sip of tea. Then, she faised her eyes and smiled. ‘Don’t be like this. I don’t like do these terrible things. Don’t always beg me to kill you. It is immoral to force others to commit crimes.”

They were so angry that their faces were red and their necks were thick. Their bodies trembled violently, but they did not have the strength to retort

She did not like do terrible things?

Did she forget the animals she killed in the forest and the players she killed?

Brielle watched for a while and could not sit still. She stood up and said to Fleo, I’m going to take a walk for a while. You can stay here and watch. Just record their torture and let me see. I won’t stay here to watch.”

Fleo also stood up. Tll accompany you for a walk. Let East and the others take photos.”

Brielle glanced at him indifferently. ‘Don’t follow me. I want to be alone and quiet. During this period of time, I saw you asa soon as I woke up. It’s very annoying.

Fleo’s eyes instantly dimmed.

Brielle reached out and touched his head, a faint smile on her face. “Be obedient.”

After that, she rode on the big white tiger and commanded it to leave.

Fleo looked at Brielle’s back with deep eyes until he could no longer see her back. Then, he retracted his down on the chair.

gaze

and sat back

He looked at the three people below the stage coldly and instructed North.

North nodded and immediately walked down the stage. He went up and gave a few instructions to the twelve people.

The four people who held Toofucker down immediately took a mouse and put it in his body... and blocked it

After that, he took a mouse and placed it on Toofucker’s belly. He used an iron basin to cover his belly and trapped the

mouse inside.

Then, he asked someone to heat up the iron basin.

After the iron basin became hot, the temperature in the interior rose. The mouse became restless and drilled into the navel. If it couldn’t get in, it would use the ability to dig a hole.

And the mouse in the inner side would also move uneasily after sensing the restlessness in the outside.

The mice in his body kept scratching and biting, giving off an indescribable pain.

Toofucker struggled violently, but no matter what, he could not break free, only howling in pain.

The mouse’s ability to dig holes was very strong, and the places they drilled were soft and easy to dig holes. The mouse quickly bit out a hole, drilling into his abdomen.

The temperature on the outside was getting higher and higher. Even if the mouse drilled in, it still felt hot, continuing to crawl around, trying to find a place with a lower temperature to hide.

The one that was originally inside also made a hole and drilled into it.

The two mice met and started fighting inside.

“Ah... I can’t take it anymore... It hurts! Kill me, please kill me! I don’t want to live anymore!”

Toofucker was in so much pain that he wanted to die. His heart was filled with fear. His face was filled with despair as he cried and begged, hoping to be freed quickly.

He never knew that people could be in such pain and despair...

That Oscusian was too terrifying.

How could he think of such a vicious method to torture him?

At this moment, he regretted. He regretted that ten years ago, for the sake of his desire, for the sake of money, he bullied and tortured that girl called Nyla together with John.

For the sake of his fucking desire, for that little bit of benefit, now that his entire family was killed with him, and he still had to endure such a painful torment, this was not worth it at all!

Now, even if he wanted to die quickly, he couldn’t do it!
