

# God, the Real Miss Hated Everyone Equally

Chapter 16

## Chapter 16

Brielle did not know what had happened to them, and she was not interested. She took the rabbit to the river to deal with it.

Pearl picked up a stone and smashed it hard at Brielle.

Brielle nimbly dodged.

But the stone hit the water, and the water splashed on her body.

Brielle had never been one to suffer a loss.

She immediately picked up a stone and returned it to Pearl.

"Ah...!"

The stone hit Pearl's wrist, and a terrible pain came, causing Pearl's swollen face to twist.

She glared angrily at Brielle and screamed, "Brielle, you actually hit me with a rock? You are too vicious! You will die a horrible death!"

Brielle sneered, "You were the one who attacked first. You provoked me first, so be prepared to be counterattacked."

Pearl said angrily, "I didn't success to hit you, but you hit my hand. My hand is in so much pain that I can't move!"

Brielle said, "You didn't hit me because I dodged. You targeted on me at the beginning; but you didn't dodge, it is because you are useless. You deserve to be hit."

Pearl trembled with anger and glared at her. "I just smashed you. But I failed, and now you are fine! Who make us so miserable now!"

"You offended those monkeys and they came to take revenge on us. They scratched and smashed us with things. My hair was also torn off. This is all your fault!"

Although the others did not speak, they looked at her with bad expressions.

If they didn't know her combat ability, they would probably blame her like Pearl did.

Brielle was stunned.

They were in such a sorry state. Was it those monkeys?

Well done!

Brielle said with a forced smile, "So why don't you beat Monkey? Trash, you deserve to be beaten by Monkey."

"You..." Pearl was so angry that her chest heaved violently.

Brielle looked at her coldly. "If you continue to blabber, I will lure those monkeys over again."

Pearl did not dare to speak.

The group of monkeys beating people up, it was too painful, and they were even ganging up on them. She did not want to meet monkeys in this life!

After dealing with the rabbit meat, Brielle began to pick up wood to start a fire, and then began to roast the rabbit meat.

The other five people looked at it with their stomachs rumbling with hunger, but they did not dare to go forward to snatch

They could not snatch it, and they had to be beaten.

They had already made two mistakes, and would not make a third mistake in the same thing.

Pearl kept hitting Jordan with her elbow and said to him with grievance, "Brother, I am really hungry. Go and talk to Brielle and ask her to give us something to eat. I can't stand it anymore..."

Jordan smiled bitterly and said weakly, "It's useless, she won't give us, cough cough..."

Pearl smelled the fragrance in the air and swallowed her saliva. Her tone became more and more bitter, "If third brother could make it yourself, I wouldn't be so miserable..."

Jordan lay on the ground and looked at the sky in a daze, his expression somewhat numb.

When they met the monkey group, Pearl pulled him in front of her and even took off his clothes to cover her head.

He had no protection, so it was more convenient for the monkeys to scratch him.

His body was covered in blood.

However, Pearl did not care about him after that. She just kept scolding Brielle, blaming Brielle for offending the monkey group and causing them to be attacked by the monkey group.

She did not realize that it was wrong for her to use him as a shield, take off his clothes, and let him be attacked by the monkey group better.

He felt dizzy now. He didn't know whether he was hungry or infected by the monkey's attack.

He was no longer in the mood to think so much.

He only felt so tired that he could not think.

Pearl did not notice Jordan's abnormality at all.

The other three people also did not notice.

Their attention was all on Brielle's food.

When Brielle was eating barbecue, Pearl watched Brielle chew on the barbecue and could not help but start to chew as well.

Maybe it was because the sound of Pearl smacking her lips was too loud, Brielle stopped, looked over, and then sneered. "Is the air delicious?"

Pearl was so embarrassed that her face turned green and then red. She gnashed her teeth and said, "Don't be too arrogant. After we leave this place, I will teach you a lesson!"

She

put

down some harsh words and suddenly stood up, ready to leave so that she would not continue to be seen as a joke.

Because she had not eaten for a long time, and she got up too fiercely, her eyes turned black and she fell back.

She only recovered after a long while.

She became even angrier. She gritted her teeth and forced herself to stand up. She turned around angrily and left.

Jaxson, Austin, and Quinn also got up and prepared to leave this place.

It was too painful to watch others eat, but she couldn't eat.

If they couldn't smell the fragrance and couldn't see other people eating, they wouldn't feel so uncomfortable.

However, if they could see and smell it, but they wouldn't be able to eat it, so they would be tortured miserably.

It was better to stay away from it and not make themselves suffer.

They might have been dizzy from hunger, but no one found that Jordan was still lying on the ground.

Brielle found Jordan, but she did not take it seriously and continued to eat the barbecue.

[Jordan won't die, right? Is the program team playing so big? Jordan is already in this state, why aren't they sending people to rescue him?]

[Although Jordan is brain-dead, he shouldn't be punished to death, right?]

I Jordan is seriously injured, and he was also injured by a wild monkey. Who knows if he was infected with any bacteria or virus? The program team, quickly go save him!]

[Pearl is really vicious. Jordan's injury is so serious that it can't be unrelated to her. ]

[ Jordan deserves it. He has no brain to protect Pearl. He raised an ingrate. He deserves it!]

[It's a good thing that the one being harmed isn't anyone else. Jordan deserved it!]

[ Don't die in front of Sister E! Unlucky! ]

At this time, the director was also frowning behind the camera.

The deputy director asked nervously, "Director Newman, Jordan looks like he has a fever. Why don't you let someone take him away? If someone dies, it won't end well..."

Director Newman frowned, "He can't be so weak, right? Those monkeys have been tested. They don't carry viruses and lethal bacteria with them, so they were let down the mountain. They won't die from being scratched."

The deputy director said, "But the wound is not properly treated. It will be infected with inflammation and cause heat. He hasn't eaten for such a long time. His body is weak and his immunity is low. He can't deal with inflammation. It is very easy for him to get into trouble."

Director Newman was silent for a long time and finally made up his mind. He said, "Inform the people hiding in the forest. to get close to Jordan first. They will wait nearby and wait for Brielle to leave. Then they will quietly take Jordan away, pretending that he was kidnapped by a beast. The filming continues."

The deputy director nodded. "Okay, I will arrange it right away!"

Galley family.

Sarah, Brooks, Roman, and Robert were all watching the live broadcast.

When they saw Jordan's condition in the live broadcast room, they were all very anxious.

Sarah was so anxious that she kept shedding tears.

"This is 100 much. The program team is too much. Jordan is injured to such an extent. Why haven't they sent people to take Jordan away for treatment? Are they trying to watch Jordan die of illness? If anything happens to Jordan, I will definitely bury the entire program team with him!"

"Pearl has gone a little too far this time. She pulled Third Brother as a human shield and even tore off his clothes. Originally, Third Brother should not have been so badly injured."

Robert's face was full of indignation. "The one who went even further was Brielle. She provoked the monkey group. The monkey group couldn't beat her, so they went to take revenge on third brother and the others. However, she was still so selfish and not gave anything to third brother. When she saw third brother lying there and not caring about anything, she was too cold-blooded and heartless! Pearl was frightened and panicked, so she pulled third brother as a shield!"

Roman looked at Robert and said, "When she met the monkey group, it could be said that she was frightened, but when she saw third brother injured afterwards, she didn't say a word of concern. When she walked out of the forest, third brother

couldn't walk steadily. She didn't even help him, and it was Quinn who helped third brother out. Just now, she left by herself, and she didn't care about third brother. How should she explain this?"

Robert was speechless.

He couldn't find a reason to excuse Pearl's actions...

Brooks shouted with a sullen face, "Alright, stop arguing!"

"Pearl only suffered too much and couldn't come back to her senses. That's why she behaved like that. As her older brother, you should feel sorry and understand your younger sister's difficulties. You shouldn't blame her here!"

Roman pursed his lips and didn't say anything to refute.

Brooks looked at Brielle's cold and indifferent appearance in the broadcast room with a gloomy expression. He was furious. "This unfilial daughter, her own brother is ill and can not be saved. How can this kind of heartless thing compare with Pearl?"

He took a deep breath and suppressed his anger. He ordered Roman, "Continue to think of a way to contact the program team and ask them to send someone to save Jordan. Don't let anything happen to Jordan!"

Roman nodded. "Alright, I'll go and think of a way immediately."

In the forest.

Brielle finished eating and burned the bone dregs into the fire.

When she finished dealing with the scene, Jordan still lay motionless in the same place.

She frowned.

He wouldn't die, right?

After hesitating for a moment, she got up and walked in front of Jordan, kicking him with her foot. "Hey, are you still alive?"

Jordan did not move at all. There was no reaction at all.

Brielle squatted down, opened his eyelids with her hand, and glanced at his eyes.

His pupils had not yet dispersed.

Not died.

Brielle reached out and grabbed his wrist, quietly feeling his pulse.

After a while, she let go of his hand, pushed aside his clothes, and looked at the injuries on his body.

"Tsk, so troublesome."

Seeing so many injuries on his body, it was very troublesome to deal with them.

She took out a small medical kit from her backpack.

Fortunately, she had prepared everything and brought some anti-poison and medicine. These things were not damaged by the splashing monkey.

However, with Jordan's current situation, the things in her medicine bag could only be used for iodine. His wound had been inflamed, and the medicine she brought was not very useful.

Brielle took out a flashlight, held a folding knife and a climbing staff, and walked into the forest.

After a while, she came out of the forest and held a fresh and tender herb in her hand.

She used the pot she brought with her to smash the herbs.

Then, she walked back to Jordan, tore off his clothes, and simply sterilized the wound with iodine. Then, she smeared the herbs on it.

After doing all this, she let Jordan continue to lie in the same place and ignored him. She ran to the distance to take a shower.

The monkey group attacked Jordan and the others. There was more or less some reason for her, but it could not be blamed on her. She had already done her best for this. It was impossible for her to help him further.

[Damn, Sister E also knows medicine? She even knows wild herbs? Isn't Sister E too amazing? I love her!]

[I didn't expect that the last one to act was Sister E. Sister E is really generous. ]

[If Jordan helps Pearl to target Brielle in the future, then Brielle really saved a white-eyed wolf!]

[ Everyone, don't shout too early. Brielle may not know medicine. What if Jordan is killed by her? If you want to brag about her, wait for Jordan to recover and then brag!]

[Everyone, don't be fooled by Brielle's water army. Brielle is selfish. She only cares about herself and doesn't care about the team. This kind of person is best at betrayal and backstabbing. It is best to stay away from this kind of person and not be close!]

[Pearl's reaction is real. A young miss who grew up in a greenhouse encountered hardships in the wild and was forced to lose her mind. She doesn't know what she is doing. You can't blame her. I

[Fuck! What's going on? Why are there so many comments about Brielle? Galley family is starting to make a move?]

[Anyone with a discerning eye can see that those are the water army that Galley family bought for Pearl. I advise Galley family not to waste money. Everyone has eyes and brains. We will not believe you. ]

[What kind of bewitching drug did Pearl feed Galley family and the others? She's already like that, yet she still caused so much harm to Jordan. Is Galley family still protecting her?]

[I beg Pearl to write a book. I really want to learn!]

Those people were indeed hired by Roman.

Unfortunately, things had developed to this extent, and it wasn't like the water army could change the trend.

In particular, Pearl continued to play tricks in the live broadcast room.

This time, they couldn't help Pearl!

When the director behind the scenes saw that Brielle had treated Jordan, he hurriedly contacted the staff in the forest to tell them not to be in a hurry to take Jordan away and to observe the situation in secret.

If Brielle's treatment was effective, and Jordan's condition improved, then do not take him away.

If Jordan was still lying down and not moving, then he would find an opportunity to take him away quietly, but he must avoid everyone.

In the forest.

After Brielle took a bath, she found a place far away from Jordan to sleep. She would not be annoyed if she did not see him.

Jordan was lying alone in the same place.

The rise and fall of his chest gradually increased, and his breathing slowly became stronger.

## Chapter 16

The staff who were secretly observing could see that his situation was beginning to improve, so they did not appear and continued to hide in the dark to protect and observe.

Pearl did not come to find Jordan for the whole night.

It was not until dawn the next day that Pearl came to find Jordan with an unhappy face.

She looked at Jordan who was still sleeping on the ground and pushed him hard.

"Brother, why are you still sleeping? Get up quickly. Austin and the others have gone to find food. You should also find something to eat. If I don't eat, I will really starve to death!"

Jordan woke up from being pushed.

He opened his eyes in a daze and sat up from the grass.

The clothes on his body were gone, and there was something green on his body, which looked like herbs.

Before he fell asleep, he had a high fever, and he was in pain and had no strength. Now, those feelings had disappeared, and he was back to normal.

It seemed that it was because of the herbs on his body that his inflamed wound had subsided and his high fever had faded.

Who helped him apply these herbs?

If he didn't have these herbs, he would probably have died here.

"Pearl, who found the herbs last night to help me apply them?" Jordan looked at Pearl and asked.

Pearl was stunned. She looked down and found that Jordan was covered with herbs.

Last night, she was not far from Austin and the others. She did not see them leave. These herbs could not have been found by them to apply to Jordan. Moreover, they did not know medicine..

Then only Brielle...

Looking at Jordan's bright eyes and expectant face, she could see that Jordan was very grateful to the man.

If Jordan found out that the person who saved him was Brielle, he would definitely side with Brielle in the future!

She could not let this happen!

Pearl bit her lips and said faintly, "Brother, what are you saying? Other than me, who else would save you?"
