

Chapter 257 She Couldn't Die

Forrest had been extremely occupied lately with various personal, familial, and professional matters demanding his attention. As a result, he has been unable to catch up with Isaac.

As a result, he was unaware of any information regarding Greta.

Camila glanced at Isaac and thought of something.

Based on his character, she concluded that he would not disclose his personal matters to others.

She then stated to Forrest, "This patient happens to be Isaac's mother."

"What?!" Forrest was completely shocked. He came close to uttering a curse in his shock.

He couldn't believe it.

It was utterly astounding that the woman who had passed away over a decade ago was now alive in this world.

This would come as a complete surprise to everyone.

Camila confirmed, "Yes, that's right. We have no knowledge about how she was saved and managed to survive."

Forrest required a considerable amount of time to process the news.

It was almost beyond belief!

While he had not been aware of Isaac's recent activities, he was well aware of the situation at the Paramount Corporation before.

He was now a businessman, after all.

He finally understood the reason why Isaac had relinquished Travis and the control of the Paramount Corporation. "Is that why you decided to

let go of Travis and the Paramount Corporation?" Forrest was speculating, but he felt quite certain about his deduction. He recalled how Travis had been ensnared by Isaac's trap and how as long as Isaac didn't release his grip, Travis and Paramount Corporation would have been doomed.

However, Isaac had abruptly decided to release the Johnston family.

Forrest was left baffled at the time.

Now he realized that it was the crucial factor.

Isaac gave Forrest a glance, but remained silent before departing with Camila.

As they left the hospital, Isaac released Camila's hand and informed her, "You can head back now. I have some unfinished business to attend to."

Camila was aware of what he intended to do and asked, "You're going to see Nelson, aren't you?"

The situation with Greta could not be postponed any longer.

Isaac remained silent, tacitly agreeing with her assumption.

Camila tidied up his crumpled collar and said, "I will back you up no matter what you choose to do. I'll always be by your side."

Isaac held Camila's hand firmly and she smiled brightly at him.

"You can be on your way already. I won't be working today. I will stay home and cook while I wait for you."

"Alright," Isaac said and nodded in agreement.

Camila watched as Isaac drove away.

She stood on the steps, watching the car until it disappeared from her sight. Then she went down the stairs where she could hail a taxi from the roadside.

All of a sudden, she heard her phone ring.

Camila picked it up and heard Josiah's voice from the other end.

He sounded very anxious, urging her to come to the hospital as quickly as possible.

"What happened? Has anything gone wrong?" Camila asked in a concerned tone.

"Yes! Please come over here as quick as you can," Josiah urged over the phone.

"Okay, I will be there right away."

She couldn't banish Josiah's urgings to hurry up from her head.

Worried about the urgency in his voice, she became increasingly anxious when she couldn't find a taxi.

She had never heard Josiah so upset like that before, so she suspected that something really serious must have occurred.

Luckily, she didn't have to wait too long before finding a taxi.

Half an hour later, she arrived at the hospital.

Upon her arrival, a nurse approached her and said, "Mr. Singh requested for me to escort you to the operating room."

"Operating room? What is he doing there now? Is there an impromptu surgery today?"

"Yes. It is an emergency case and a very dangerous one. Mr. Singh will be performing the surgery himself."

Camila suddenly grasped the gravity of the situation and quickly washed up, got disinfected and changed her clothes before entering the operating room.

"Mr. Singh," she called him immediately she got to the entrance of the operating room. She quickly walked towards him.

Seeing her, Josiah immediately called her over.

As she approached, Camila realized that it wasn't a heart operation as she had earlier suspected, but a craniotomy.

It seemed like a trance to her as she looked to see the patient's face.

As soon as Camila saw the patient's face and realized it was Greta, she went pale with shock and fright.

Josiah explained that Greta had fainted suddenly and was brought to the hospital by Nelson. After an X-ray, they found that she had a cerebral hemorrhage and her condition was critical. That was why he had to perform the emergency craniotomy to save her life.

But Camila was in too much shock upon realizing that the patient was Greta that she couldn't hear his explanation.

Her only thought was that Greta couldn't die.

She just couldn't, especially since Isaac had just found her.

She hadn't even regained her memories yet.

She thought that Greta couldn't die no matter what.

Suddenly, the heart monitor began beeping loudly.

It was an indication that her blood pressure had dropped sharply.

Her protein levels were also declining rapidly.

Everything seemed to be going awry.

"Damn it!" Josiah swore out loud. He had never been so restless while performing a surgery before.

"Extracorporeal circulation," Camila said in a shaky voice.

The medical team scrambled to address the crisis. All of the assisting doctors worked together and gave their best effort to save Greta's life.

Josiah had handed the scalpel to Camila, telling her to perform a part of the operation.

Camila was wide-eyed and overwhelmed, as she had never performed a brain operation before, let alone one as critical as that.

Chapter 257 She Couldn't Die

Suddenly, the line on the heart monitor turned flat.
