" Baby, why haven't you rejected that human yet? or are you having second thoughts ? " oh yeah I totally forgot beside me only sara knows about the mate thing with that prick.

" don't worry I'll reject her in front of your eyes, after that I'll mark you at my ceremony " I finished my words with a smirk.

" oh baby " she throws herself on me and begin to kiss me passionately , my hands in her top rubbing her breast, pinching her already hard nipples.a moan left her throat.i rip her clothes in a tug.she was drawing circles on my chest, she knows how to please me.i pushed her on my bed, and pull her skirt and adjusted myself in between her legs and thrust my d***k in one go she was shivering from our rough make out session, we didn't stop until it's dawn.

Lucy

At the dinner table a sudden pain in my heart makes me winch.

" Aaaaaahhhhhh" every one is looking at me. "What happened, Lucy? " my mom and grandma said in unison.

I couldn't talk it's like someone ripping my heart and choking me. beads of sweat started to form on my forehead. ad

soon as I stood up I felt I losing my consciousness.

I was falling as fair of hands hold me that was the last thing I know before darkness consumed me.

' I was walking in a forest. It was dark, but I heard something like someone singing a song. I followed the source of the

voice and ended up beside a lake. I remember this lake from my dream. Then I saw her again, that beautiful lady I had dreamed of since my childhood. Before I could go to her she disappeared and everything went blank.

lucy...

lucy...

" who is this "

lucy...

lucy.....

" I said who is this, show yourself "

there was two red lights,i was trying to see clearly and then I saw it was not a light it's a pair of eyes.

I covered my mouth with both of my hands and gasped. it was staring at me.

Lucy

" I'm coming for you my lucy "

" you finally came , my love "

" I'll not let you go I'm coming to get you "

" no one can stop me,"

" I'm going to make you mine, my love "

then it disappeared, tears rolled down from my cheeks.

he was talking to me , he even knows my.

What is happening? Why is this even happening to me?

I shot my eyes open, and I realised I was in my room. It's 5 in the morning. I was sobbing slightly as I touched my face. It was wet, and I was crying.

Then I remember a shiver run down through my spine.

Who was he? Why is he coming for me? Why did he call me love?

I texted Gini to meet me at my house as she is probably sleeping.

Gini

I checked my phone and saw Lucy texted me.at 5 in the morning I frowned. she won't text me at that time unless it's something grave.

I got up and got dressed, grabbed my keys and hopped in my car.

I hope everything is alright.

I knocked on the door Thomas welcomed me the a tired and confused face.

I met Lucy's family, they were talking about something but they stopped as soon as they sensed me ' ok now what is happening' I thought in my mind.

"Hello everyone. I came for the books that Lucy borrowed from me " I made a lame excuse.

" She is in her room, sweetie, " her mother said. "ok then " I made my way to her room and opened the door without knocking, and saw her sitting by the window.

ok now they are making me afraid.

" Hey girl what happened " as soon as I finished I saw her eyes it's dull.

I sat down on her bed. She came to me and sat in front of me.

" now explain what is going on, why is everyone behaving suspiciously " hearing my words her eyes shot up to me.

" and who is behaving suspiciously " she said, I have to tell her now or else she is not going to let me go.

I sighed " your family , they are talking about something but as soon as they sensed me they all stopped at once " .

hearing my explanation she nods.

" I think they are hiding something from me, but I couldn't figure out what. They have been behaving strangely since I turned 16.

and I'm having those dreams about that lady "

I laughed hearing her again about that mysterious lady.

but hearing the next part my eyes widened as my jaw dropped.

" I read about this before, it's a black magic called shadow walker, but it forbidden now "

Lucy

I explained everything that had happened at first she laughed hearing me but as soon as I finished her jaw dropped.

" shadow walker " how come I didn't hear anything about this I told her.

" because it's forbidden now " she shrugged.

" but we have to find out who was that person using something that's forbidden, why is he coming for me " hearing my own words a shiver run through my spine.

I looked at her and saw she was thinking about something.

" I have a plan " she said loudly making me flinch " but for that we have to include some one in our plan , who is not from your family " she stopped hearing someone's foot steps.
