

# 《Medical road》

## Chapter 47

Zhang Fan, who was hit by double buttons, had dry hair. The three old women were either beauty or health preservation. He kept shrinking his mouth.

Tang Jingjing and Li Xiao's assistant are drinking tea outside the box, and Zhang Fan plays cards with them. He and Dong Hua are at home. They can win cards, but they lose. Zhang Fan knows that Dong Hua releases water at a glance. He is even more bored. Li Xiao and Wang Qian used to work together. Dong Hua is an expert, especially good at remembering cards, and Zhang Fan is not bad. Although Dong Hua releases water, he can't let go of the cards.

After all, it was the first time we met. What Wang Qian meant was to let them know each other first and didn't talk deeply. I played with him for more than three hours. If Li Xiaoyao hadn't recovered, I don't know how long it would take. Before leaving, Li Xiao gave Dong Hua her business card. Dong Hua smiled and took Wang Qian for beauty.

Lao Huang will arrive at the station at the end of the year. The old doctor who has struggled in the medical system for more than 30 years is about to retire. All the people in the hospital are guessing who will become the new president. Ouyang Hong, vice president and director of internal medicine, has the highest voice. She is an old Frontier. Her ancestors entered Xinjiang with Zuo Zongtang's troops. There is also Jiang Xingping, the director of the vice president of general foreign studies, who has cultivated the tea vegetable city for many years and knows many leaders.

Lao Huang hasn't left yet. It's snowing. The municipal Party committee learned from the lack of medical treatment in counties and townships after the heavy snow closed roads last year, and organized the backbone of urban hospitals to go to the countryside. Let doctors from county hospitals go to the countryside.

The city hospital is gloomy. No one wants to go to the countryside. It's inconvenient to go home in winter. Moreover, if the road is closed by heavy snow, it's normal that you can't come back in ten days and a half months. No one with a family wants to go. After the hospital mobilization meeting, few people signed up automatically. Lao Huang was not in a hurry. He directly assigned the task to the director of the Department and let these directors worry.

Surgery Xue Fei, Zhou Chengfu and Cui Pingjun don't want to go, but Lao Li and Zhang Fan don't care. The income of going to the county will certainly be discounted,

so no one is willing to take the initiative. Lao Gao talked to everyone in private. Finally, Lao Li said that he would go, and there was no need to arrange for others. Lao Li, Zhang Fan and Wang Yanan all went, and there was no need to look for someone.

As soon as they left, the people on duty in the Department couldn't turn around. Lao Huang exercised the power of the president for the last time and fixed all the transferred subjects last year. Wang Yanan finally officially became a member of the first Department of orthopedics and three people were assigned. But at this time, Zhang Fan and they had gone to the county.

The staff is Lao Gaoding. The place they want to go is left to Zhang Fan. They choose the four affiliated counties. Lao Li doesn't care. Let Zhang Fan and Wang Yanan decide. Finally, Zhang Fan decides to go to Quark county. He hasn't been back for half a year. It's strange to miss him.

If you want to go to the county, you have to tell Wang Qian and explain it to Li Xiao. After all, you have taken other people's money. At present, Li Xiao's one course of treatment has been completed. Because it is lumbar bulging, it's best to do three courses in a row.

I called Wang Qian first, but she was with Li Xiao.

"Are you going to the county? You don't have to go. I'll call your Dean. "

Zhang Fan quickly stopped and said, "Sister Li, I just went to work, and the list is out. You say hello ~ ~" Zhang Fan didn't say anything. Zhang Fan is actually willing to go down. The surgery in the Department is too single.

"Well." Li Xiao also understands Zhang Fan. When you work in a unit, you must at least give face to your superiors. When things are settled, you go to someone to say hello. The leaders will think you are not sensible. You don't want to find someone early. If you have to come down with the list and the leaders have approved it, don't you make people change their personnel again. After thinking for a while, he asked, "which county are you going to? How long will it take? "

"Quark county hospital. It's estimated to take a month. "

"It's not very far. In this way, I'll ask the driver to pick you up every day and send you back after treatment. Do you think so? "

"It's not troublesome enough. You find a car and give it to Zhang Fan. He comes at noon and goes back after treatment in the afternoon. Anyway, it's winter. Your

business has entered the off-season, and there are not many patients in the county hospital Zhang Fan goes to. Besides, Dong Hua is in charge of culture, education and health. " Wang Qian interrupted them and said.

Li Xiao looked at Wang Qian and said to Zhang Fan, "that's OK. Doctor Zhang is a little tired."

Zhang Fan quickly waved his hand and said, "no trouble, I just like driving. I've been a car addict. " The driver goes to the hospital every day, and Zhang Fan is also uncomfortable. It's much freer to drive by yourself.

"Well, what kind of car does Dr. Zhang need? There are several top billing cars in our company, which are put in the garage. Is Mercedes OK? "

Even if I don't know anything about cars, Mercedes Benz has heard of it. It's too famous. Zhang Fan shook his head directly: "where not, ordinary cars will do."

"Just get an off-road car. Zhang Fan's Mercedes Benz is not good for others. The road is slippery in winter, so it's safer to drive off-road. What was the name of the car you drove before? " Wang Qian and Li Xiao are very familiar and don't be polite.

"That's a drug dealer's bully." Zhang Fan explained that don't let Li Xiao think he has a car and ask her for a car.

Li Xiao stood up, stretched his waist and said to her secretary, "does Toyota have it?" Her secretary came up and said, "Toyota doesn't have a car."

"What kind of off-road vehicles are there."

"There is a 90% new Grand Cherokee, which has run less than 500 kilometers. Qinghua pays the bill."

Li Xiao turned to Zhang Fan and asked, "Dr. Zhang, can Grand Cherokee do?"

"OK, just have a car."

"You'll be tired of that doctor."

The next day, the doctors of the municipal hospital were divided into four groups. They went to four counties respectively. Three people went to surgery in Quark County, two people in internal medicine, one in respiratory department and the other in cardiology department. The county hospitals in all counties sent cars to pick them up. Quark county is the office. Wang Hongmei and the driver Lao Zhou came to pick them up.

Zhang Fan looked at Wang Yanan with two boxes and said in surprise, "what are you doing, moving?" He himself brought a few changed clothes and toiletries, and one bag was enough.

"I can't carry it without your help." Wang Yanan put down the box and couldn't carry it. Zhang Fan has put Lao Li's bag on Cherokee. Cherokee's trunk is big enough to put Wang Yanan's two big boxes. There's no problem at all.

Seeing that Zhang Fan put the box on a Cherokee, Wang Yanan trotted to Zhang Fan and said, "it's not bad that you came from your mother's family, and even the grade of the car has been improved. The 120 in other counties is the same, but you still have a big face." The surgical life for more than half a year made the originally cold girl cheerful.

Wang Hongmei was very polite to Zhang Fan. Before she came, Zou Pingshan specially explained and greeted Zhang Fan. And she was not surprised that Zhang Fan drove to quark County by himself. Zhang Fan was driving overbearing when he was in the county. There were six doctors in the city who went to the county. Zhang fanla was no one. He simply explained to Lao Li and prepared to drive back to quark County alone.

When Wang Yanan learned that Zhang Fan had left by himself, he could put an egg in his mouth“ The bastard was so selfish that he drove away alone? ”

"He has some private affairs to deal with. Let's go first and come back later." Lao Li specially explained this to the two physicians. Don't let the two physicians feel that there is no one in Zhang Fanmu.

There are not many private cars in the tea vegetable market in 2009. Later, I didn't know that year. It seemed that everyone began to buy private cars overnight. The city began to block up!
