

Mr Conrad 1281

Chapter 1281-Two days later, Nathan and Jane Yi arrived in Riverside City.

During this time, Grace has been very good and cooperative with her treatment.

Vincent also drops her off at the lab early in the morning and picks her up again in the evening, just like he did before.

Jane Yi stood in front of Grace and greeted her, "Grace, do you remember me."

Grace nodded heavily, "I remember, sister doctor."

Jane Yi smiles and gives her a gentle hug.

Archer came over and said to Nathan, "When are you guys leaving?"

Nathan said, "The flight is tomorrow morning."

"Okay, I have some more medicine that I can't get ready until the evening, so I'll send it to you tomorrow morning."

Archer looked at the time: "Today's treatment is over, you guys take her back first."

Grace turned her head and looked at him with big eyes.

Archer understood what she meant and coughed, "I don't know."

Grace hung her head.

Nathan's face was full of questions, "What are you talking about?"

Archer said, "It's nothing, it won't take you long to understand."

Nathan said nothing more, and Jane Yi took Grace out of the lab.

Once outside, Grace stood under a tree and looked around.

Jane Yi asked, "Grace, are you looking for something?"

Grace clutched the doll in her arms and nodded, then shook her head in quick succession.

Jane Yi looks to Nathan.

Nathan was silent and spoke tentatively, "Are you looking for Vincent?"

A few lights appeared in Grace's eyes.

Nathan said, "I'll give him a call."

Two minutes later, Nathan returns with his phone and Jane Yi and Grace look at him at the same time.

Jane Yi said, "How's it going?"

Nathan shook his head and then said to Grace, "Vincent he's got something going on and won't be here for a while."

Grace didn't seem surprised by the answer, just hung her head, hugged her doll, and obediently followed them to the car.

Grace was quiet all the way to the plane back to City N.

She looked out the window at the clouds and wondered what she was thinking.

Jane Yi turned her head and spoke in a whisper, "Is it really okay for her to go back like this."

Regarding Grace's situation here with Vincent, Nathan asked Archer about it this morning and can only say that it's hard to say.

He said, "It should be fine, go back and take another look."

After getting off the plane, they went straight to the Conrad Family.

When we got to Justin's room, Grace turned to Nathan: "Can you tell me about my brother's past."

"Previously ..."

Nathan was speechless for a moment, what to say about this?

Grace sat on the couch, holding her doll, listening intently with her face full.

Nathan coughed and sat across from her, "Your brother he ... had an accident when he was a kid, so he's been in a wheelchair ever since ..."

Grace cocked her head: "But Vincent's brother said that he was trying to help the grandmother cross the street, so he had an accident."

Nathan: "..."

He can't really do this job.

It's still Vincent who has to believe in such things.

Jane Yi came forward and said, "Grace, how about my sister taking you for a walk in the garden, look at the beautiful flowers blooming down there."

Grace remembered that Nathan had said before that all the flowers here were previously pruned by Justin, and nodded in agreement.

After they left, Nathan exhaled and called Clarence to report on the events of the past two days.

Clarence said, "Vincent is doing something right now."

Nathan said, "I went drinking with friends last night, and I think I'm still awake."

Clarence was silent for two seconds, "I got it, you check on Grace first, I'll call Vincent."
