871 Strange Data

She really wanted to tell Xiao Shi that she didn't want to return to Hai Cheng at all. She just wanted to stay in An City and marry Gu Zhou.

However, she knew in her heart that Xiao Shi's emotions were very fragile now and she would break down easily. If she said such things again, Xiao Shi might take things too hard.

But now, Xiao Shi's survival was the most important. If Xiao Shi was gone, all her plans would be useless.

Song Man reached out and held Xiao Shi's hand, comforting her gently. "Xiao Shi, Mommy already understands what you mean. Mommy will never force you again!"

Xiao Shi's eyes gradually lit up. Mommy actually listened to her.

"Actually, Mommy didn't give you the sleeping pills to do anything to you. It's not that I don't like you. I just hope you can sleep well. All these years, you've been painstakingly taking care of Mommy. That's why Mommy asked you to sleep well!"

Xiao Shi knew in her heart that her mommy was lying to her. Her mommy probably wanted to use her to be with her daddy, but she was afraid that she would say something inappropriate beside her so she gave her sleeping pills to make her sleep.

After Song Man finished speaking, she recalled how Xiao Shi had always mocked herself for being a burden. She frowned and continued, "Also, you're not a burden. You're Mommy's only daughter. Mommy cares about you the most. Have you ever thought about how Mommy will live if you're no longer around? Mommy won't want to live at all!"

When she heard Song Man's words, the sadness in her heart instantly disappeared.

She didn't know if her mommy was lying to her, but she was willing to trust her mommy again.

"No matter what happens in the future, don't think about committing suicide. Xiao Shi, you have to live well!" Song Man said earnestly.

Xiao Shi's gaze landed on Song Man's face and she nodded obediently.

Mommy really cared about her.

She had to work hard to earn money in the future and let her mommy live a better life.

"You just came out of the operating theater. Rest well now!"

Xiao Shi nodded and closed her eyes.

Song Man sat beside Xiao Shi and looked at her with her eyes closed. Her heart was in a mess.

Xiao Shi's morals were too strong. Even with their blood ties, Xiao Shi would not help her at all. She could only think of other ways.

...

At this moment, in the appraisal room.

Chen Qing followed Gu Zhou's instructions and followed closely behind Doctor Xu. He was afraid that something would go wrong with the sample, and that there would be other problems when Doctor Xu did the DNA test. He stared unblinkingly at Doctor Xu.

Doctor Xu looked up at the time on the wall clock. It was about time to take out the test report.

This machine had been imported from overseas. Not only could it be used for DNA testing, but it could also be used for more subtle examinations of blood.

Initially, the person who developed this machine wanted to examine the genetic diseases of everyone who did a DNA test. Later on, many people were willing to buy this machine mainly because they wanted to take the opportunity to see if there were any lesions in their blood. Then, they would do a paternity test and blood test openly.

Doctor Xu took out the test report. He glanced at the contents and frowned slightly.

This was the first time he had seen such a test.

Doctor Xu hesitated for a moment. He turned to look at Chen Qing and asked, "This examination report is a little strange. I wonder if the owner of the DNA sample has had a blood-type illness before?"

When Chen Qing heard Doctor Xu's words, he frowned. "I'm not sure about this. I'll investigate."

When Doctor Xu heard Chen Qing's words, he understood. He didn't want to participate in this matter, but this blood was a little strange. If he didn't raise this question, the Gu family might really take this report seriously.

Doctor Xu handed the report to Chen Qing and said, "It's possible for human blood to change!"

With that, Doctor Xu smiled and said, "I have other things to do now. Please pass this test report to Young Master Gu."

Chen Qing nodded. He had seen Doctor Xu's every move just now. This report was also typed by Doctor Xu. It was indeed Song Man and Xiao Shi's DNA paternity test.

872 Biological Relationship

Chen Qing put the test report into a folder. Without looking at the results, he walked straight to Xiao Shi's ward.

Outside the ward.

Song Man continued to accompany Xiao Shi in the ward.

Gu Zhou and Qiao Nian sat on the chairs in the corridor. Gu Zhou didn't look well.

Qiao Nian held Gu Zhou's hand tightly and comforted him softly. "Xiao Shi is still young. Don't scare her!"

Gu Zhou had a headache.

Seeing how dependent Xiao Shi was on Song Man, he felt that his previous plan might have been a little rash.

If he forcefully took Xiao Shi away from Song Man, she might be frightened.

Could he really only let Song Man be by Xiao Shi's side?

Song Man was a very scheming woman. He was very sure that the woman from five years ago was not Song Man. How did Song Man chance upon Xiao Shi?

What if he found out in the future that Song Man was not the woman from five years ago and could not accept it?

He had to think of a way to take Xiao Shi away from Song Man.

"Looks like we should investigate Song Man properly!" Gu Zhou said with a dark expression.

"Yes." Qiao Nian didn't think about this. She was worried that Xiao Shi wouldn't be able to accept the truth.

At this moment, footsteps came from afar.

Chen Qing walked over with a folder.

Gu Zhou and Qiao Nian looked up. When they saw the folder in Chen Qing's hand, their expressions turned serious.

Qiao Nian had already done many DNA tests on Song Man, but the results were that Song Man and Xiao Shi were mother and child.

She was nervous but looked forward to it.

She hoped that there was a mistake with the machine at her appraisal center.

If only Xiao Shi and Song Man were not mother and daughter...

Chen Qing handed the report to Gu Zhou.

“Second Young Master, the results of the appraisal are out. I didn’t read the contents.”

Gu Zhou took the document from Chen Qing and opened it. He was not a medical student and did not understand the data, so he flipped to the last page.

The results of the appraisal were that they were biologically related.

Gu Zhou frowned. He still felt that Song Man was not like the woman from five years ago, but the appraisal report showed that Song Man and Xiao Shi were related by blood.

Gu Zhou’s expression darkened. His voice was low and hoarse, with a trace of disbelief. “Is there a mistake with the appraisal results?”

When Qiao Nian heard Gu Zhou’s question, she knew what the results were.

She frowned slightly. Although she was unwilling to believe that Song Man was Xiao Shi’s biological mother, the truth was right in front of her. She had no choice but to believe it.

Moreover, she had done many paternity tests in the past, and there had never been any mistakes.

Qiao Nian took the report from Gu Zhou and examined it carefully.

She wanted to see the comparison of every value.

Qiao Nian read it very carefully. This report was written very clearly and analyzed more thoroughly. She could even see the contents of the trace elements in her blood.

Qiao Nian's gaze moved down. When she saw the percentage of white blood cells, she frowned slightly.

Strange, why was the percentage of white blood cells so high?

Not only that, but the percentage of platelet data was also very high.

Qiao Nian clenched her fists involuntarily.

She looked up at Chen Qing and asked impatiently, "Chen Qing, when Doctor Xu saw the blood report just now, did he say anything?"

"Yes." When Chen Qing first went from the appraisal room to the small ward, his mind was filled with thoughts of protecting the documents. However, Doctor Xu's question was thrown to the back of his mind. "At that time, he did say some strange things."

"What?" Qiao Nian asked anxiously, wanting to confirm her suspicions.

"He asked me if the owner of the blood had any blood disease." Chen Qing recalled what Doctor Xu had said.

When Qiao Nian heard Chen Qing's words, her breathing quickened.

That's right. That had to be it.

Previously, she had seen that the data on white blood cells and platelets was wrong.

Doctor Xu was a professional appraisal doctor. If he had such a question in his heart, it meant that her guess was not wrong.

Qiao Nian's expression darkened. She said calmly, "Song Man is indeed not Xiao Shi's mother."

873 Bone Marrow Transplant

With that, Qiao Nian looked up at Gu Zhou and saw him looking at her, as if waiting for her to continue.

When Chen Qing heard Qiao Nian's words, a trace of confusion flashed across his face. Puzzled, he asked, "Didn't the results say that the two of them were biologically related?"

"A bone marrow transplant can change a person's blood. By transfusing a normal person's bone marrow into the patient's bone marrow, it replaces the patient's bone marrow and reconstructs the patient's hematopoietic and immune functions. That way, the patient will survive." Qiao Nian paused for a moment and continued, "But the values of the white blood cells and platelets of patients with bone marrow transplants are wrong. They have to take medicine continuously to be like ordinary people!"

When Chen Qing heard Qiao Nian's words, he was stunned. He stammered, "Are you saying that she is relying on Xiao Shi's bone marrow to survive?"

When Qiao Nian heard Chen Qing's words, she shook her head gently and said, "She shouldn't have used Xiao Shi's bone marrow. If she really used Xiao Shi's bone marrow, the values in the two test reports should be identical."

Chen Qing was a smart person. When he heard Qiao Nian's words, he immediately understood. He said, "Could it be that she's been using her mother's bone marrow?"

Qiao Nian's expression darkened. She nodded.

"Medically speaking, Song Man's blood now is the blood made from Xiao Shi's mother's bone marrow. This is why the two appear to be biologically related because Song Man's blood has already been changed. Song Man should know this too, which is why she pretended to be her mother."

Where had her mother gone that time? Qiao Nian's heart really ached for her mother.

Five years ago, she had been framed and lost her innocence.

Now, Xiao Shi was being taken care of by Song Man, who had a bone marrow transplant. Song Man had brought Xiao Shi here to replace her biological mother.

Gu Zhou understood what Qiao Nian was saying. His eyes darkened and his thin lips parted slightly. "If her hematopoietic system has been changed, then the skin on her body shouldn't have changed."

When Qiao Nian heard Gu Zhou's words, she nodded. "That's right. Her hair and nails belong to her. We can take Song Man's hair and Xiao Shi's DNA for a paternity test. We should be able to get the most accurate result. Previously, we were able to conclude that they were mother and daughter because we used her blood for the paternity test."

Gu Zhou's expression instantly turned cold. "Then take her hair for another paternity test."

Qiao Nian thought so too. As long as she used Song Man's hair for a paternity test, she could completely confirm if Song Man was Xiao Shi's mother.

Qiao Nian glanced at Gu Zhou, then walked into the ward.

When she entered the ward, she could hear Xiao Shi's happy laughter from afar.

Song Man was sitting by Xiao Shi's bed, talking gently to her.

Xiao Shi smiled happily and looked at Song Man with sparkling eyes.

When Qiao Nian saw the smile on Xiao Shi's face, she felt a little depressed and sad.

If she knew that Song Man was not her mother, how sad she would be.

In her heart, Song Man was her entire world!

Even though the truth was cruel, Qiao Nian felt that it was necessary to tell Xiao Shi the truth.

When Song Man saw Qiao Nian approaching, the smile on her face gradually disappeared. She pursed her lips and asked unhappily, “Miss Qiao, what are you doing here?”

Qiao Nian walked up to Song Man. She didn’t speak. Under Song Man’s puzzled gaze, she grabbed a small strand of Song Man’s hair and pulled it off.

Song Man screamed in pain, her eyes red-rimmed. She looked at Qiao Nian angrily. “What are you doing!”

Xiao Shi, who was lying on the bed, was also shocked. She looked at Qiao Nian in surprise and called out in a low voice, “Auntie Nian Nian?”

When Qiao Nian heard Xiao Shi’s voice, she knew that she shocked. She looked at Xiao Shi gently and said, “I’m fine. Don’t worry, rest well!”

With that, Qiao Nian’s gaze fell on Song Man’s face. Her eyes gradually turned cold. Suppressing the anger in her chest, she said, “I’m sorry, your sample was shattered by the doctor. The doctor asked me to come over and take another sample. This time, I’ll take your hair and do a paternity test for you.”

874 Testing Her Hair

As soon as Qiao Nian finished speaking, Song Man’s expression changed.

If she used her hair for a DNA paternity test, her future wealth would no longer exist.

With this thought in mind, Song Man reached out to snatch her hair from Qiao Nian’s hand.

Qiao Nian turned around and avoided Song Man’s snatch.

Qiao Nian handed Song Man's hair to Chen Qing behind her and said, "Use this to test. Go!"

Chen Qing nodded and walked out with his hair.

At this moment, Song Man's expression had also changed, and her eyes were filled with panic. She looked at Qiao Nian angrily, forgetting to hide her gaze.

Gu Zhou walked in with an indifferent expression. When he saw Song Man's pale face, he understood. It seemed that their guess outside was right.

Song Man was indeed not the girl from five years ago, nor was she the mother of the two children.

Xiao Shi looked at everyone in confusion. Her gaze finally landed on Qiao Nian's face and she asked in confusion, "Auntie Nian Nian, what happened? Why did you ask Mommy to do a paternity test? Mommy gave birth to me. This can't be wrong!"

Qiao Nian's gaze fell on Xiao Shi's face, and her eyes were filled with a smile. She said gently, "Some things will come to fruition later. Xiao Shi, Auntie Nian Nian will tell you the reason later, okay?"

When Song Man heard Qiao Nian's words, she swallowed and asked in fear, "Qiao Nian, are you trying to harm me?"

"Miss Song, what are you saying? Why would I harm you?" Qiao Nian looked at Song Man coldly and asked.

Was Song Man delusional about being persecuted? Or was she pretending to be pitiful in front of Xiao Shi?

"Are you trying to sow discord between me and Xiao Shi because you're afraid that I'll become Madam Gu?" Song Man asked, pretending to be calm. She knew that what she was saying now looked very strange to others.

She told Xiao Shi that Qiao Nian was jealous of her, so she lied.

In that case, no matter what Qiao Nian said, she would be suspicious.

Even if Qiao Nian told Xiao Shi that she wasn't her biological mother, Xiao Shi wouldn't believe her.

Qiao Nian was so angry that she laughed. She said coldly, "Do you think it's appropriate for you to say this in front of the child now? Alright, come out with me now. Let's go outside and make things clear!"

Xiao Shi sat on the bed, her gaze sizing up Song Man and Qiao Nian. In the end, she looked at Song Man worriedly.

Song Man clenched her fists tightly, her nails digging into her palms.

Qiao Nian was simply too arrogant.

She knew very well that if the results of the appraisal were out, everything she wanted would be gone. She could only escape like a stray dog.

She wasn't sure if the doctor had really accidentally knocked over her blood sample just now, or if Qiao Nian had deliberately found an excuse to appraise her DNA using her hair.

Song Man lowered her gaze.

Could it be that Qiao Nian had seen through her blood test?

This was unlikely.

Previously, she had used her own blood and Xiao Shi's blood for a paternity test. At that time, the results were that they were mother and daughter, and there was nothing strange about the data.

Could it be that Qiao Nian had just been testing her?

That's right. Qiao Nian must have been testing her just now, but her first reaction had already betrayed her.

At that time, she acted like she was guilty.

Qiao Nian must have seen that she was feeling guilty. That was why she was certain that she wasn't Xiao Shi's biological mother.

Suddenly, an idea flashed across Song Man's mind.

Had Qiao Nian discovered what had happened more than twenty years ago?

Song Man pursed her lips.

Not many people knew that Qiao Nian was the eldest daughter of the Lu family.

Back then, in order to fake Qiao Nian's death, she had used her broken arm and faked that it was Qiao Nian's arm.

No!

Qiao Nian shouldn't know about this.

If Qiao Nian had known about this long ago, she would definitely have stood in front of her and said all of this arrogantly.

It seemed that Qiao Nian hadn't found out what had happened back then.

875 Lying

If her matter was exposed today, Qiao Nian might notice what had happened more than twenty years ago.

It seemed that she could not return to the Lu family now. All her plans had been ruined.

Song Man's gaze landed on Xiao Shi's face and met her confused eyes.

Xiao Shi was everything to her now. Only Xiao Shi could protect her. She had to hold on to her tightly.

With this thought in mind, Song Man sat back down beside Xiao Shi and said coldly to Qiao Nian, "I have to accompany Xiao Shi now. Xiao Shi needs me too. If you still want to say anything, we'll talk about it in the future!"

Xiao Shi looked at Song Man in confusion, not understanding what had happened.

Gu Zhou looked at Xiao Shi and recalled how she had just woken up to look for Song Man. He tried hard to suppress his anger and said in a low voice, "Song Man, I'll give you one last chance. If you're willing to confess everything, I'll let bygones be bygones!"

Song Man raised her eyebrows slightly and looked up at Gu Zhou. She asked, "What do you want me to say? That I'm not Xiao Shi's mother?"

When she heard Song Man's words, she grabbed her hand and looked at Gu Zhou anxiously. She said firmly, "Daddy, she's my mommy!"

When Gu Zhou heard Xiao Shi's words, he pursed his lips slightly and his expression darkened.

Song Man naturally knew what Gu Zhou wanted her to say, but she refused to say it. As long as she had Xiao Shi to protect her, she was not afraid of anything.

Gu Zhou's expression darkened. "Don't go too far!"

Song Man's gaze fell on Gu Zhou's face. In the end, she lowered her gaze. When she looked at Xiao Shi again, her eyes were filled with tears, and there was a trace of hurt in her voice. "Xiao Shi, he's the father you've always wanted to protect. They want to force me now into a corner. What have I done wrong? Just because I raised you alone, they're going to suspect me?"

Xiao Shi looked at Song Man's face, her eyes filled with confusion. Puzzled, she asked. "Mommy, is there anything you haven't told us? If you tell us clearly, won't everyone not misunderstand?"

When Song Man heard her question, she was stunned.

At this moment, she clearly realized that although Xiao Shi was on her side and she was only related to her by blood, she would still believe Gu Zhou without thinking.

Song Man slowly lowered her gaze, hiding the sadness in her eyes.

Qiao Nian stood at the side and looked at Song Man, her eyes filled with coldness. "Song Man, this is between us adults. Don't use Xiao Shi as a shield. She loves you so much, but you're using her! You're not her mommy. How can you lie to her?"

Xiao Shi's eyes turned red. At this moment, she didn't know who to listen to.

Song Man glanced at Xiao Shi and saw that she was a little sad. Actually, she still had a trace of regret. If she was still in Hai Cheng...

How could she give up her rich life for Xiao Shi?

She had given so much. She deserved so much.

Song Man's eyes gradually hardened. Her gaze fell on Qiao Nian's face. She didn't know how much Qiao Nian had investigated.

"Miss Qiao, what exactly are you thinking? Why are you saying that I'm not Xiao Shi's biological mother? Or do you think my appearance threatens your status? You're were never willing to believe that I'm Xiao Shi's biological mother!" Song Man stared unblinkingly at Qiao Nian's face, not missing a single movement.

When she heard Song Man's words, she was stunned. Her eyes widened in disbelief.

Was she hallucinating?

Why did Auntie Nian Nian say that Mommy wasn't her mommy?

Mommy was clearly her mommy!

Mommy had brought her up since she was young. She had lived with Mommy for more than five years.

Mommy was the person who understood her the best in the world. Mommy was also the person she relied on the most in the world.

When Qiao Nian heard Song Man's words, she sneered. Song Man really wouldn't shed a tear until she saw her coffin!

"Of course it's because I'm a doctor. A fake is ultimately a fake. Even if I didn't discover it the first time, I'll still discover it in the future, because what is fake can't be real. What is real can't be fake."
