

Spoiled by Mr. Russell Chapter 1004

"Yes, but this person has great ambitions. She was behind what happened to the Lodge family back then."

"You mean...the Light-Shadow Killers?"

Lily frowned as the memories from the past came rushing in.

Although Henry was filled with wishful thinking and had many things planned, Lily had always felt that someone was always controlling him from behind the scenes. She had told Justin about this back then, and he said that he would look into it.

Later, he became so occupied that he pushed this matter aside, and she did not pursue it any further.

Now, she found out that Heather was behind the Light-Shadow Killers!

"That means she manipulated Henry into trying to take over the Lodge family and make him her puppet?" Alexander nodded.

"I supposed that was her plan, but who would've thought that even someone like Henry couldn't be so easily manipulated? While she was using him to gain the power of the Lodge family, he was also using her to seize power. Their only downfall was that they had miscalculated and underestimated your and Justin's strength."

Lily's face turned hot when she heard this.

"I didn't even do anything."
