

Spoiled by Mr. Russell Chapter 660

Lily could already guess what was inside the envelope without even looking at it. It was a set up all along, and the contents provided the necessary evidence to support their claims.

However, she decided to play along and opened the envelope.

Sitting inside were two sets of reports.

One was the autopsy report of her grandfather's death which stated that the cause of death was heart failure due to toxicity.

There was also a report detailing the candle she had created for her grandfather, with the contents that could cause heart failure highlighted in red.

These two reports informed everyone in the room that Lily was the murderer! Many of those present looked distressed after reading the reports.
