

## CHAPTER 51:

Such a lavish gesture instantly attracted a lot of visitors. In just ten minutes, the number of people in the live broadcast room had reached 20,000.

For a new host to be able to reach such a high level without advertising and promotion was truly amazing.

As the popularity rose, more and more people recognized Huang Lan and confirmed that the woman on the live broadcast was the singer Huang Lan.

One by one, they began to brush up on planes, ships, and super rockets, and for a moment, the broadcast room was full of presents.

If it were any other streamer, they would have already thanked him profusely in joy upon seeing so many gifts.

However, Huang Lan was no ordinary anchorwoman. Her expression was calm when faced with so many gifts. She merely sang in a serious manner, not saying anything from the beginning till the end.

This matter quickly alarmed the authorities. Many of the overseers entered the live broadcast room to check the situation, and then reported to their superiors.

Even the super experts weren't sure of Huang Lan's identity. They also didn't know if this

woman in front of them was really Huang Lan.

Just when Wu Tian was enjoying the live broadcast, his phone rang. It was Sunn Sheng.

"Huang Lan ..." Huang Lan is on our platform... "The broadcast is starting..."

As soon as the call connected, Sunn Sheng's extremely excited voice could be heard. Maybe it was due to him being out of breath, but a messy echo came from the phone.

"I know!" Wu Tian was not surprised by Sunn Sheng's reaction.

For a famous singer like Huang Lan to be able to live broadcast on a small platform like seafood TV, anyone would be shocked.

"Boss Wu, is it really you? Was it really you who invited Huang Lan over?" On the phone, Sunn Sheng's tone of voice sounded very urgent.

"Right."

"Oh my god, aren't you too amazing?" Sunn Sheng couldn't hide his admiration and said excitedly, "To be able to invite such a famous celebrity to our platform for a live broadcast, what a god!"

Previously, he thought that Wu Tian would not invite Huang Lan.

Only now did he realize that Wu Tian was a hundred times more unlucky than he thought.

After all, not just anyone could hire a celebrity like Huang Lan. Even the boss of the other platforms would be envious of her.

"CEO Sun, you said before that you would believe me when I invited Huang Lan to the live broadcast, is that true?" Wu Tian joked into his phone.

"Yes, you can call me Wu Sheng from now on, hahaha ..."

"Hahaha ..."

Wu Tian also smiled into the phone. Both of them could feel each other's happy smiles across their phones.

After a round of laughter, Sunn Sheng could not help but ask, "Boss Wu, how much is the contract fee for you to get Huang Lan to stay for the live broadcast this time?"

"Not a penny."

"Don't tease me, how can I not want money?"

"We really don't want money. We will split the presents equally."

"What the f \* ck!" On the other end of the phone, Sunn Sheng was so excited that he swore.

With a trembling voice, he said, "You ... Aren't you too amazing? You've signed such a big celebrity, and you actually ... Not spending a single cent? "

"I was just lucky."

"Admirable." Sunn Sheng said in a loud voice, "I've never admired anyone in my life. You've really convinced me."

Even through the microphone, one could feel Sunn Sheng's admiration for Wu Tian.

"I originally wanted to pay Huang Lan 50 million to sign the contract, but this woman didn't get a single cent. I was also surprised."

"I admire you, others can't even hire Huang Lan to pay for her. You did well, you even managed to get a superstar to stay on stage and broadcast on our platform without spending a single cent of your money." After saying that, Sunn Sheng changed his tone, "Tell me honestly, what is your relationship with Huang Lan?"

"It doesn't matter, I'm her fan."

"No, it must be related. Otherwise, she wouldn't have withered down to help you."

"It really doesn't matter."

"If you don't want to say it, I won't force you." Sunn Sheng thought of something and

suggested: "If you can help the platform get a celebrity like Huang Lan to be broadcast for free, I have to express myself. How about this, I'll bring up your TV-share in seafood to 49%."

Wu Steel took the initiative to increase Wu Tian's stake in seafood TV.

Firstly, Wu Tian had at least a hundred million resources for the Tv this time. This could be considered a form of gratitude.

Secondly, he suspected that Wu Tian had a close relationship with Huang Lan. As long as he kept Wu Tian tied up tightly, he would be able to use Huang Lan to drain the water from the platform.

Of course, there was a third reason. Through this incident, he felt that Wu Tian was extraordinary and that his character was also not bad.

In order for the seafood Tv to truly grow, he must establish a cooperative relationship with Wu Tian in good faith. Only then could the two of them win together.

"Thank you, CEO Sun, then I won't be polite." Wu Tian did not argue and accepted the offer.

He also secretly admired Sunn Sheng in his heart. This man has a foresight that doesn't care about what he sees, he's a pretty good partner.

"In another day, let's change the contract. From today onwards, seafood dishes will take up half of the space between us." Sunn Sheng laughed heartily.

"Let's talk about the contract another day." Wu Tian wasn't worried about that. Instead, he said, "Right now, the most important thing is to sign the contract with Huang Lan. Then, help

her spread the news and borrow her to help drain our platform."

"Leave this to me."

"Can it attract traffic?"

"With Huang Lan as my trump card, if I still can't attract any more traffic, I'll f \* cking quit the live broadcast world." Sunn Sheng immediately put down his words.

"That's good."

That was what Wu Tian wanted.

He had long seen that Sunn Sheng was a capable business elite and had hopes of establishing a world in the live broadcast room.

The two chatted about some details before hanging up.

When Wu Tian turned on Huang Lan's live broadcast room again, he found that the popularity inside had soared to 100,000.

In just half an hour, she had been promoted from a new streamer to a streamer. She was as popular as an anchorwoman on a seafood platform.

It was no wonder that this woman was so attractive.

Not only was she beautiful, but her temperament was also good. Even her singing was captivating.

After the tourists came in, they would be deeply attracted and become fans, not wanting to leave for a short period of time.

Wu Tian was reluctant to quit as he listened to the song.

As he watched the live broadcast with relish, the phone rang.

Seeing that it was Liu Jun, Wu Tian quickly picked up the call and asked, "Uncle Liu, you're looking for me?"

"En, it's like this. There's an investment union in the clouds and water, do you want to come with me?"

"I ..."

Wu Tian wanted to refuse, but when he thought of how his grandpa urged him to earn money as soon as possible, he immediately changed his mind.

Since he had nothing to do in the afternoon, he might as well follow Liu Jun and have a look. Perhaps, he might be able to find a suitable investment project.

Thinking about this, he said into the phone, "Okay, I will go with Uncle Liu to find an investment."

"Alright, then I'll wait for you in the cloud and water."

"OK, I'll be right over." Wu Tian hung up the phone, changed his clothes at random, and asked Liu Fugui to send him to the cloud and water.

In the midst of the clouds and water was the tallest teahouse by the sea.

After the simple decorations, it has now become the sixteenth world of business and investment conference venue.

There were a lot of people inside, and the rich merchants were all looking for business opportunities here, seeking to co-operate and win.

Soon, he saw Liu Jun in the lobby. He was wearing an orthodox suit and looked to be in high spirits.

CHAPTER 52:

"Uncle Liu." Wu Tian quickly walked over and said to Liu Jun with a smile, "You are getting younger and more handsome now."

"Hahaha ..."

Liu Jun was so happy that he couldn't even close his mouth.

"Kid, your mouth is getting sweeter and sweeter." After Liu Jun said this, he couldn't help but to ask with concern, "You look a little tired. Is it because your private life has been exhausting recently?"

"No way. I've been cultivating during the day and studying at night, so I don't even have the time to find a girlfriend."

"Is there no time or haven't you met the right girl?"

"For both reasons."

"Speaking of girlfriends, what do you think about our Yueyao?"

"Ugh ..."

Wu Tian did not expect Uncle Liu to start faking him and his daughter again.

Embarrassed, he scratched his head and changed the topic: "Right, Uncle Liu, is there anything suitable for the investment conference?"

"There are a lot of good projects. Come, let me show you." When it came to investing, Liu Jun immediately forgot about his daughter.

He brought Wu Tian in front of the booth, pointed at the bustling display area and introduced: "This is a new energy project. The prospects are good, are you interested?"

"Let me see." Wu Tian didn't give the answer immediately. Instead, he walked closer to the project's introduction area and carefully looked around.

This was an urban solar project. With the support and subsidies from above, it was indeed very profitable.

However, the investment threshold for this type of project was very high. In addition, the competition was very high. Many rich merchants were fighting for the opportunity to invest, thus raising the investment limit.

With Wu Tian's current strength, if he invested in a project like this, he could only follow the bosses to drink the soup.

"Don't worry, there are still other big projects. Let's go and take a look." Liu Jun saw that Wu Tian was not interested in the project, so he led him to another exhibition area.

Most of the conference was devoted to new energy and new industries.

Wu Tian is not interested in these industries because they have a large investment, a long cycle, and a low rate of return in a short period of time.

After circling around, Wu Tian suddenly noticed the exhibition area in the corner.

This was a set of Technology Company. Through the detailed introduction on the display board, he found out that this company was developing a homemade operating system.

Next to the display board stood a middle-aged man wearing glasses. His face carried an innate confidence in himself.

All the other exhibitions were packed with rich merchants, except for this one, which was empty.

Evidently, everyone was not optimistic about this tiny Technology Company, as no one was willing to spend all their money on it.

Wu Tian stared at the detailed planning of the operating system, then his gaze landed on the glasses man, "Hello, you are the company's manager?"

"Yes, I'm Lee Mu, the creator of Tianmu Technology." As the bespectacled man answered, he took out a name card and handed it over.

"Tian Mu?"

Hearing this name, Wu Tian felt a sense of warmth in his heart.

He took the business card and glanced at it, then his gaze fell onto the display board, "Your company wants to develop its own operating system?"

"Right, we already have a complete plan. We can develop a new operating system in two or three years." Lee Mu had been very confident since the beginning.

"Developing an operating system isn't difficult, what's difficult is ..."

"Ecology."

"Then do you know how difficult it is to build an ecology?"

"It's as difficult as the vast universe."

"You know it's difficult, but you still need to develop the distribution system?"

"No matter how hard it is, someone has to do it." Lee Mu adjusted his glasses and said confidently, "We are confident that we can develop a new system and build a perfect ecosystem."

"Alright."

After asking these questions, Wu Tian was very satisfied with Lee Mu's answer. He immediately made a decision: "I plan to invest in your company."

"Cough, cough!"

Liu Jun, who was standing at the back, coughed twice. He pulled Wu Tian to the side and whispered, "Tian, this is just a small-scale Technology Company with no prospects of development. Investing in this kind of company is equivalent to wasting money."

"I think highly of this Technology Company, they have a lot of strength."

"You didn't even go to the company to investigate, and only chatted with the person in charge for a bit. How do you know they're strong?"

"If they don't have the ability, then they wouldn't dare to develop the operating system. Since they dare to develop the operating system, it means that their company's technology is too strong."

"Even if they have the skills, they won't be able to do it."

"They have strength, dreams, and perseverance. I believe they can do it."

"But the risk of such an investment is huge." Liu Jun advised kindly, he really didn't want Wu Tian to waste money.

"The risk is directly proportional to the profit." After Wu Tian said this, his tone changed, "Uncle Liu, I know you are doing this for my sake, but I have already decided to invest in this company."

"You ... "Sigh!"

Seeing Wu Tian's determination, Liu Jun did not continue to persuade him.

Wu Tian pursed his lips and smiled. He walked to the display area again and said to Lee Mu with a smile, "I plan to invest in your company."

"I can only say that you have good eyes. I promise you that every single cent you invest will not

be wasted." Lee Mu promised with a face full of confidence.

"Alright, we will sign the investment agreement now. We will sign an official contract after visiting your company."

"Alright!" Lee Mu quickly took out his investment letter of intent and the two of them signed a memorandum of cooperation on the spot.

This kind of agreement didn't have any legal effect, it was just an agreement between the two sides, and could be considered as self-discipline in the industry.

Originally, there was no one at Tianmu Technology company's exhibition area. Seeing that someone had signed the agreement, many big shots had gathered around.

It wasn't because of Tian Mu, but rather, it was a joke.

Everyone thought that Wu Tian was a silly young man, a fuerdai who didn't know how to invest, yet he would actually sign a contract with such a small, hopeless company.

The crowd burst into laughter.

Even Liu Jun couldn't help but sigh secretly. He felt that Wu Tian could only buy a lesson this time after spending all his money.

After the two of them signed the agreement, they agreed to go to Tianmu Technology another day and look into it in detail before signing an official contract.

Without waiting for the investment meeting to end, Liu Jun and Wu Tian left the water cloud together.

"Uncle Liu!"

Walking out of the door, Wu Tian couldn't help but express his gratitude: "Thank you for bringing me to the investment club and helping me find a suitable investment project."

"You brat, you won't say that when you lose money." Liu Jun shook his head with a bitter smile.

From his point of view, Wu Tian's investment this time was definitely going to be a loss. This was a very unprofitable venture.

"Don't worry, I'll definitely think of a way to earn money for Tian Mu."

"The ideal is very full, the reality is very cruel." Liu Jun sighed again and advised, "Just treat it as playing if you don't have to invest much in this company!"

"I want control."

"Brat, you're crazy." Hearing that, Liu Jun became excited.

Originally, he thought that this brat wanted to borrow the Technology Company to test the waters.

But what he did not expect, was that this brat wanted to play big, and actually wanted to take control of this Technology Company.

This little brat, does money have shit?

"Believe me, time will prove everything." Wu Tian pursed his lips and smiled. The smile on his face was extremely confident.

CHAPTER 53:

"You ... "Sigh!"

Liu Jun flung his sleeves and quickly left with a face full of disappointment.

He really regretted bringing Wu Tian to invest in the club.

"Hu!"

Wu Tian let out a sigh and looked up at the sky. His eyes were extremely bright, as if he could see through everything.

After a long time, he retracted his gaze, pursed his lips into a smile, and quickly left.

He knew that Uncle Liu was doing this for his own good, because he was worried that he would lose so much money.

However, since it was an investment, there would be risks. He did not dare guarantee that he could definitely earn money, but he had a seventy percent guarantee that the Technology

Company that he thought highly of would definitely not lose.

From Lee Mu's plan for the development of the system, it seemed that this company had countless experts and stored a very strong technical backbone at the bottom layer.

Lee Mu's ability to organize and develop new systems by discovering the core of these technologies is a testament to his strong organizational and managerial skills.

The only drawback is that Lee Mu chose the development system as the cut-in point, which is very unfavorable for the company's development.

Development of the system was a sore spot in China. This had to be done, but only by making the company big and strong could they have the power to develop a domestic system.

This was a process, a very difficult process. This was one of the reasons why Wu Tian chose to invest in Tianmu Technology.

When Wu Tian returned home, the sky had already darkened.

Just as he was about to go to the bathroom to take a bath, he received a call from Sunn Sheng. He said that Huang Lan's live broadcast room was full of traffic and was so excited that he was at a loss for words.

Wu Tian opened the live broadcast room and took a look. Huang Lan's live broadcast room was more than a million people, so countless tycoons gave her presents as rewards.

In less than a day, Huang Lan had become the most popular female broadcaster in seafood. Her flow of traffic and heat surpassed other anchors, and the presents she received left the other anchors a few streets behind.

It seemed that Huang Lan's drainage effect was very obvious. At this rate, the flow of water on the platform would steadily increase.

Wu Tian was lying on the sofa watching the live broadcast. He only took out his phone to call Huang Lan after the broadcast had ended.

"Miss Huang, thank you so much." When they got through, Wu Tian directly thanked his phone, "I didn't expect to be able to drain millions of our platform in just half a day."

"Then how are you going to thank me?" Huang Lan's gentle laughter came from the phone.

"Choose a place, I'll treat you to a meal."

"Fuyuan Restaurant."

"Huh?" Wu Tian didn't expect Huang Lan to choose his own restaurant.

"What is it? "You don't want to?"

"I'm willing, of course I'm willing." Wu Tian came back to his senses and answered the phone, "Where are you, I'll come pick you up right now."

"You little brat, you want to get an older sister's address, right?"

"I didn't mean that."

"Hua Zhou Tian City 5th building 1002, hurry."

"Alright, I'll be right there." Wu Tian hung up the phone and asked Uncle Fugui to drive to the Heaven City first.

When Wu Tian saw Huang Lan going downstairs, his eyes lit up and he felt as if the blood in his body was boiling.

Beautiful, too beautiful.

This woman was wearing a skimpy dress tonight, and her body was wrapped up in an extremely domineering manner. Her beauty and arrogance were faintly discernible, and her charm was extreme.

"Kid, have you seen enough?" Huang Lan walked towards Wu Tian with her long legs and asked in a gentle tone.

"Enough... That's enough. " Wu Tian quickly looked away with an awkward expression.

I've watched Huang Lan on TV and in media magazines before, but I've never seen her wear something so cool.

Even a man wouldn't be able to stand wearing these clothes tonight.

"Big sis doesn't like this answer, you should say that you haven't seen enough." Huang Lan leaned close to Wu Tian and joked with him.

Wu Tian became even more excited as he smelled a fragrant wind at a close distance.

In order to avoid embarrassment, he hurriedly changed the topic, "Come, let's get in the car. I'll treat you to a meal."

"Cluck, cluck, cluck ..."

Huang Lan giggled. She walked over, opened the door, put on her sunglasses and got into the back seat.

"Hu!"

Wu Tian secretly let out a sigh of relief, and followed him into the driver's seat. He instructed Liu Fugui: "Uncle Fugui, drive the car. Let's go to Fuyuan Restaurant."

Liu Fugui didn't say anything. He glanced at Wu Tian meaningfully, then started the car and drove away.

Very quickly, the car arrived at Fuyuan Restaurant.

After getting off the car, Wu Tian walked in with Huang Lan.

The two of them found a corner and sat down. Huang Lan, wearing sunglasses, leaned back in her chair. Her body emitted a domineering aura with a fragrant scent.

Wu Tian only glanced at her and quickly retracted his gaze, "Miss Huang, what do you want to eat?"

"I heard that there's a chef called Shen Xue in this restaurant. Her cooking taste is very unique." When Huang Lan wasn't smiling, she appeared to be very cold and aloof, as if she was rejecting everyone by a thousand miles.

"Then I'll get Shen Xue to make us a set meal."

"No, I want to customize it."

"Custom?"

"Right."

"Ugh ..." Wu Tian scratched his head. He didn't expect Huang Lan to come here to eat Shen Xue's customized meal.

The so-called custom-made meal is just a gimmick. If you want to eat it, you need to make an appointment half a month in advance, and you can only make one a month at most.

Ordinary people wouldn't be able to eat it at all. Even the most unsavory of individuals would need to book it in advance. This was a rule.

Actually, Wu Tian had also heard of ordered meals before, but after taking over the Fuyuan Restaurant, he had never eaten one before.

"Aren't you very capable? It can't be that you can't even make such a request!" Huang Lan said in a mocking tone, her chin slightly tilted upwards.

When she thought about Wu Tian's stubborn look when he asked her to be on TV, she was secretly angry, which was why she had such a difficult problem.

To eat Shen Xue's customized meal, even a celebrity like her needed to make an appointment in advance, not to mention this guy in front of her.

"You really want to eat it?" Wu Tian knew that this woman was deliberately making things difficult for him, wanting him to lower his head in front of her.

"Right, I want to eat it."

"Wait." Wu Tian smiled mysteriously before turning around and entering the kitchen.

"Foolish brat, I want to see how long you can continue to act." Huang Lan crossed her arms across her chest, as if she was waiting to see a good show.

After waiting for nearly half an hour, they finally saw Wu Tian pushing a small cart with a golden cover.

"Miss Huang, here's the ordered meal you asked for." Wu Tian walked over with the cart and removed the golden cover.

Beneath the cover, six unique looking dishes could be seen. They were exquisite in their workmanship and beautiful in their beauty. A rich fragrance assaulted his nostrils.

"Custom dishes!"

Upon clearly seeing the six dishes, Huang Lan couldn't help but exclaim.

The six dishes in front of him were the most famous custom dishes of Fuyuan Restaurant. They came from the meticulous carving of the head chef Shen Xue.

She'd had a customized meal twice before, but she always had to make an appointment more than half a month in advance.

He just didn't expect Wu Tian to go straight to the kitchen and ask Shen Xue to make the order without an appointment.

It seems like Wu Tian has a lot of face!

"Eat while it's hot!" Wu Tian placed the six dishes on the table and sat opposite Huang Lan.

He had coaxed Shen Xue for quite a while before he finally got her to cook these dishes.

"If you didn't make an appointment, why would they help you prepare a customized meal?"

Huang Lan couldn't help but be curious in her heart, eager to know the answer.

#### CHAPTER 54:

"In my capacity, I don't need an appointment to eat here." After Wu Tian said this, he picked up his chopsticks and started tasting.

Just as he finished his first mouthful, he was already full of praise. "Shen Xue's culinary skills are truly worthy of being called good. Delicious."

With that, he began to wolf down his food.

The dishes cooked this time had special flavors and were even more delicious than the last time. No wonder the customized dishes were so famous.

"Then what is your true identity?" Huang Lan couldn't help but ask curiously.

Before Wu Tian could reply, Lobby Manager rushed over eagerly, "Boss, I was busy just now. I didn't see you."

"Boss?"

Hearing this address, Huang Lan's expression was a little stunned.

Lobby Manager raised his head, looked at the woman in shades, and pointed at Wu Tian as he introduced: "Don't you know, Mr Wu is our Fuyuan Restaurant's big boss."

"Ugh ..."

Huang Lan froze on the spot, astonishment written all over her face.

He didn't expect Wu Tian to be the owner of this restaurant. No wonder he could eat the ordered dishes without an appointment.

"You can leave first." Wu Tian put Lobby Manager aside, pointed at the delicious food on the table and said to Huang Lan, "Eat quickly, it won't be good if it gets cold."

"Since you're the boss of Fuyuan Restaurant, why didn't you say so earlier?" Huang Lan rolled her eyes with hidden bitterness. She picked up her chopsticks and ate while saying, "From now on, I will come here every day to eat a customized meal."

"Are you trying to tire my cook to death?"

"Just kidding. Look at how scared you are." Huang Lan stuffed a pair of chopsticks into her mouth and teased, "Eat every day. Big sis should be fat to death. When no one marries me, you should take responsibility."

"Alright, I'll help you pick a boyfriend when the time comes."

"Normally, big sis doesn't like men, but big sis likes people like you."

"Ugh ..."

Even though he knew it was a joke, Wu Tian still felt embarrassed.

He didn't know why, but he couldn't let go of his idol.

He changed the topic and said, "Miss Huang ..."

"Stop, don't call me Miss Huang from now on."

"Big Sis?"

"Scram!" Huang Lan rolled her eyes in annoyance and said with a straight face, "Call me Elder Sister Lan from now on."

"Elder Sister Lan!"

Wu Tian shouted obediently, then poured two glasses of red wine and pushed one of them over, "Elder Sister Lan, thank you for staying in our seafood restaurant to start the live broadcast. I toast you."

"Cheers!"

After Huang Lan clinked her glass, she finished the red wine in it in one gulp.

It was obvious that this woman drank a lot, and her alcohol capacity was quite good.

After drinking a glass of wine, Wu Tian couldn't help but ask, "Huang ..." Elder Sister Lan, why did you help me? "

"Big Sis likes you."

"Huh?"

"Ah what?" Huang Lan took a sip of red wine and said with a serious expression, "Big Sis likes guys like you very much. You're different from other men. You look at me with admiration and respect from the bottom of your heart."

"Elder Sister Lan, I'm afraid most men would covet a woman as beautiful as you."

"I didn't notice, but you can speak flowery words too."

"Hehe!" Wu Tian laughed dryly.

Usually, he would coax girls to be happy, but in front of his idol, he just couldn't let it go.

"In addition, I feel relaxed with you. I feel free to enjoy myself and be carefree." Huang Lan took another big gulp of red wine.

"Elder Sister Lan, drink slowly. Don't get drunk."

"What's there to be afraid of? Come, let's drink." Huang Lan touched the glass with her own and gulped down the rest of the red wine.

If she was with another man, she wouldn't dare drink so much.

Although she had only known Wu Tian for a few days, she was very trusting of the boy and wasn't very cautious.

While the two of them were drinking and chatting, Shen Xue walked over from the kitchen with a plate of pastries.

When she saw Wu Tian chatting affectionately with other women, she felt a sudden burst of grief in her heart.

He clenched his fists and walked over to place the pastries on the table with all his might, cursing under his breath, "Shameless."

"Snowy, the food you made is so delicious. Sit down and eat together!" Wu Tian naturally did not hear the scolding and even smilingly invited Shen Xue to have a meal with him.

"Eat slowly, I still have things to do." Shen Xue rolled her eyes at Wu Tian and turned to leave.

Before leaving, he couldn't help but glance at the sunglasses-wearing woman.

Seeing the sunglasses-wearing woman looking so charming, she couldn't help but inwardly curse a few times in her heart before stomping her feet and leaving in a huff.

"Hey, Little Snow ..."

Wu Tian wanted to ask her to stay, but found out that she had gone to the kitchen.

Seeing Shen Xue's back disappear before his eyes, he couldn't help but laugh bitterly to himself. "Why is this girl so angry for no reason?"

"Idiot, that girl likes you. Seeing you together with another woman, she's obviously jealous." Huang Lan couldn't help but remind him.

"I've only known her for a short while. We're just ordinary friends."

"It's hard for a man to guess a girl's thoughts." Huang Lan pursed her lips into a smile as she looked outside the window, deep in thought.

After the two of them finished dinner, Wu Tian drove Huang Lan to the Heaven City.

After getting off the car, Huang Lan looked back at Wu Tian, "Silly boy, do you want to go to elder sister's house?"

"It's so late, I won't be going." Wu Tian tactfully refused.

"Are you afraid that I'll eat you?"

"I just don't think it's convenient."

"Silly boy, how many men want to come to my house? I won't give them a chance!" Huang Lan rolled her eyes and walked towards the elevator angrily.

"Elder Sister Lan, slow down. I'll treat you to a meal another day." Wu Tian said to Huang Lan's back and let Uncle Fugui drive. The two of them then went back to their living quarters.

After returning home, Wu Tian first went to the bathroom to take a shower. He then took out his phone to flip open the novel by the Blue Bird and found that the book had been updated a lot faster recently.

What made him even more pleasantly surprised was that this book had actually made the list of new books and was ranked tenth on the list.

Opening the comments section, he found that there was a reader named Diamond Old Wang crazily swearing at the author, Bluebird.

One could understand the reason behind the old diamond king's curses just by looking at the whole review.

The old Diamond King was a fan of another book. The book he liked was pushed down the list by the Bluebird, so he decided to vent his anger on the bluebird.

Soon, he saw Old Wang Diamond's latest message in the comments section. He threatened to reward the book with four hundred thousand yuan and squeeze out the Bluebird book.

Wu Tian originally thought that this reader was just shouting twice to vent his anger.

When he refreshed his website again, he found that there were changes on the new book rankings.

The book that was filmed in tenth place was pushed off the list and replaced by another book with fewer words.

When he opened the book, he found that there was indeed a reward of 500,000 yuan from Old Wang.

Diamond Old Wang's message quickly appeared in the comments section. He was flaunting his wealth and was relying on his own strength to make his favorite book appear on the leaderboard again.

After reading these comments, Wu Tian just smiled and gave the Bluebird book a reward of one million yuan.

This one million immediately made Bluebird's book return to the leaderboard and directly jump to ninth place. The commentator stands also became lively.

CHAPTER 55:

A lot of readers have left messages in the Bluebird comments section, including Aittiange.

"This is so f \* cking big boss, I'll give you a million yuan in one go."

"The rich are generous when they make a move."

"Admirable!"

"This is the true love of the bluebird giant. We have this sort of wealthy book friend, he really makes us proud."

Everyone was full of admiration for Brother Tian, as all sorts of flattering comments filled the entire comments section.

A tycoon like Wu Tian might not even be able to find a second one on the website, which is why it caused such a sensation.

In addition to the flattering, there were also some readers who left messages for Diamond Old Wang.

"Brother Tian is giving us a million bounty, do you have to keep up?"

"Weren't you cheating just now? Why are you mute now?"

"He doesn't even dare to speak, looks like he's been terrified."

At the beginning, the old diamond king did not appear. Perhaps it was because of Ace's annoyance, but he had no choice but to reply in the comments section: You're too harsh, I admit defeat.

Seeing this message, the comments section exploded again:

"He really is a coward."

"You cowardly bastard, what qualifications do you have to fight with Brother Tian?"

"I'm sorry about your name."

In the comments section, a large wave of mocking and ridicule erupted. Everyone was laughing at the old diamond king, belittling him as worthless.

Looking at these messages, Wu Tian seemed to be very calm, with no changes in his heart.

Just as he was about to log off, he received a private message from the author, Bluebird.

He opened the mailbox and saw a private message from Bluebird: "Brother Tian, why are you giving me so much money?"

Wu Tian replied, "This is an acknowledgement of your book. This is an encouragement to you."

Bluebird: Oh my god, one million! This is way too much!

Wu Tian: Your book is worth this money, your potential is priceless, you just need to write a good book.

Bluebird: Brother Tian, thank you for your encouragement and help, but you really don't need to spend that much money on me. I feel like I owe you too much.

Wu Tian: If you want to repay me, write a good book and present the best story to me and all my fans.

Bluebird: Thank you. Thank you so much.

Wu Tian: "Rest early, don't stay up late. Bye bye!"

Wu Tian left the website after sending the private message. He was busy reading and studying before he went to sleep very late.

On the second day at seven o'clock, he got up to train. He had always been very diligent in his training and studying, never slacking off.

"Boss." Just as he was training hard, the Azure Dragon walked over and gave him a deep bow. "I admire your perseverance and determination in training."

"Stop flattering me." Wu Tian wiped off the sweat on his forehead and continued practicing

martial arts.

These were the moves and techniques that the Azure Dragon had taught him a while ago. They seemed simple, but if he wanted to truly comprehend them, it wouldn't be easy. He would need to spend a long time and effort to do so.

"Boss, I'm not flattering you. Your perseverance is truly admirable." The Azure Dragon said seriously, "I originally thought that you would give up after learning for a few days on a whim. I didn't expect that you would become more violent the more you train."

All this time, he felt that rich people like Wu Tian only knew how to live like a prince, how would they desperately practice their martial arts.

However, after he got to know Wu Tian, he realized that this boss was different from the others. He practiced hard during the day and even stayed up late at night to study.

He felt extremely fortunate to have followed such a boss.

"When my strength isn't good enough for my ambition, I can only study as hard as I can." Wu Tian stopped his training, turned around and said to the green dragon: "Come, test me."

"Alright!" The green dragon also wanted to probe Wu Tian's recent cultivation situation, so he swung his fist towards him.

Seeing that the fist was coming at him, Wu Tian quickly dodged to the side and kicked towards the lower half of the Azure Dragon.

The Azure Dragon reacted very quickly. He lifted his leg and struck back with all his strength.

"Bam!"

With a dull thud, Wu Tian was forced to retreat repeatedly and finally collapsed powerlessly onto the ground.

The Azure Dragon quickly went up and helped Wu Tian up from the ground. He asked with concern, "Boss, are you alright?"

"I'm fine." Wu Tian shook his fist in disappointment and sighed, "It seems like he is still far from you."

"The boss has already made great progress. I only reached this level after training for more than 20 years."

"One day I will surpass you." Wu Tian gritted his teeth and continued to cultivate.

Halfway through practice, the phone rang. It was Lee Mu calling, asking him to go inspect Tianmu Technology and discuss the specific timing of the investment.

Wu Tian took a shower, then got Uncle Fugui to drive him to Tianmu Technology.

The company is located in the hi-tech area, the office area is a very unique U-shaped building, asymmetrical and warm color decorations make the company look young and fashionable.

Wu Tian first took a walk around the company and found that the employees were all very casual, but they didn't laze around either. They were all busy with their jobs.

He walked around and knocked on the general manager's office.

When he walked into the office, he saw Lee Mu sitting at his desk, organizing the documents.

"Hello, Boss Wu." Lee Mu stood up and greeted, at the same time, he handed over the documents in his hand, "This is our company's details, including various businesses and profits."

"Alright, I'll take a look first." Wu Tian took the documents and sat in front of the sofa as he looked through them seriously.

Through these information, he found out that Tianmu Technology's management was a little messy, and currently, the main way to do business was to make money from the city's web. The profits were also very low, barely maintaining the company's operations.

After understanding the general situation of the company, Wu Tian raised his head and looked at Lee Mu, "So far, your company is much worse than I imagined."

"If it had gone well, I wouldn't have gone to attract investment at all." Lee Mu replied noncommittally.

"Alright, I appreciate your honesty." Wu Tian stood up and walked in front of the desk and stretched out a finger, "I plan to invest one hundred and fifty million."

"One hundred and fifty million yuan?"

Lee Mu instantly beamed when he heard the amount of investment.

The company was in need of nothing but money.

As long as his boss was willing to invest money, he had the confidence to turn that money into a steady stream of profits.

"I want forty-nine percent of the shares in Tianmu Technology." Wu Tian added.

These words were like a bucket of cold water, instantly extinguishing the smile on Lee Mu's face.

Lee Mu adjusted his glasses and reminded him, "We have 10 shares for staff. If you want 49 shares, that would be equivalent to holding the company."

"I know, I just want to control it."

"This... "Impossible." Lee Mu refused decisively.

The Tianmu Technology that he had painstakingly built up was naturally not willing to be controlled by others.

"I'm in control. The management power is yours. I don't have any direct management power over the company. What do you think?" Wu Tian made a concession.

At the moment, he was only a learner, so he did not have the ability to manage a whole Technology Company.

"But ..."

Lee Mu wanted to refuse, but was interrupted by Wu Tian before he could finish, "I have a lot of resources. If we cooperate, it would be beneficial to Tian Mu."

CHAPTER56:

"What resources do you have?" Lee Mu was skeptical.

He had been investigated previously but did not find Wu Tian's real identity. All he knew was that Wu Tian owned two good restaurants.

How much resources could the restaurant owner have? How could it help his Technology Company?

"Just now, looking at the information, I found out that your company has a dispute with the Heavenly Note Conglomerate. The other party is suing you for infringement right?" Wu Tian asked with a smile.

"Yes sir!" When Lee Mu mentioned this, he felt a bit dejected.

The lawsuit against the Heavenly Note Conglomerate had dragged down Tianmu Technology, leaving the entire company powerless to develop its dominant business.

If the lawsuit is not handled well, it will be extremely unfavorable for the company's future

development.

"I can use my resources to settle this dispute for you." Wu Tian had a face full of confidence.

The reason why he was so confident was because the Heavenly Note Group was a subsidiary of the Wu Family. This matter could be settled with just a phone call.

"Boss Wu, the Heavenly Note Conglomerate is a large company. How are you going to deal with it?" Lee Mu expressed doubts.

The Heavenly Note Conglomerate was a giant corporation, it never took Technology Company like them seriously.

The Tianmu Technology had not been used up for half a year, how much ability could a restaurant owner like Wu Tian have?

"I have my resources. One phone call is enough." Wu Tian shook his phone and said with a smile.

"Then I would like to see for myself." Lee Mu adjusted his glasses and said in a provocative tone, "If you can settle this dispute, I'll let you take control."

He didn't think Wu Tian had the power to settle this dispute.

"Wait." Wu Tian took out his phone to call his secretary Loong Yun. He only said a few words into the phone before hanging up.

To the Wu Family, such a small matter wasn't even worth mentioning.

With Secretary Loong's efficiency, she would be able to solve the problem perfectly in less than half an hour.

After only 20 minutes, Lee Mu received a call. He was overjoyed after saying just a few words.

"Great! The Heavenly Note Conglomerate has withdrawn its lawsuit. It has finally withdrawn its lawsuit." After hanging up, Lee Mu shouted excitedly.

Just now, the legal department had called to tell them that the Heavenly Note Group had withdrawn from the lawsuit and promised that they would no longer hold Tianmu Technology accountable in the future.

Needless to say, it was all Wu Tian's doing.

After being excited for a long time, he slowly raised his head and looked at Wu Tian, "I really didn't expect that you could solve the problem that was troubling our company for half a year with just a phone call."

"I only borrowed resources."

"It looks like I underestimated you earlier. Your energy is indeed astonishing." Lee Mu couldn't

hide his excitement as he looked at Wu Tian with an astonished expression.

The fact that this brat in front of him was able to settle the Heavenly Note Group's dispute with a single phone call showed how much power and resources the group had behind them.

Wu Tian went straight to the point. "Then what about the investment?"

"I'll keep my word. You invest one hundred and fifty million, so that's forty-nine percent of it." Lee Mu gritted his teeth and immediately decided.

Although he felt bad about handing over the controlling share to Wu Tian.

However, the resources and strength behind Wu Tian was of great help to Tianmu Technology. This kind of resources were more important than money.

"Happy cooperation!" Wu Tian smiled and took the initiative to extend his right hand.

"Happy cooperation!" Lee Mu reached out his hand to shake Wu Tian's, and the two of them smiled at each other in tacit understanding.

In just half an hour, the two of them reached an agreement.

Next, Wu Tian and Lee Mu officially signed a contract and signed a share transfer agreement.

After signing the contract, Wu Tian transferred the first 50 million yuan into the company's account.

After investing in the account, Lee Mu brought Wu Tian and introduced him to the staff: "This is Wu Tian, Mr Wu. From today onwards, he will be the big boss behind our Tianmu Technology. Let us give him a round of applause."

"Pa Pa Pa ..."

Under Lee Mu's lead, the office burst into applause, which was obviously perfunctory.

Lee Mu pressed his hand down, signaling everyone to be quiet. He turned around and said to Wu Tie, "Boss Wu, say a few words to us all!"

"Alright!"

Wu Tian glanced at the employee and said, "I'll personally take out five hundred thousand as a greeting gift for everyone."

"Pa Pa Pa ..."

The moment he said that, the office burst into thunderous applause.

If the applause from before had been a perfunctory one, then this time, everyone wholeheartedly applauded the new boss.

"I hope to unite with everyone and work together to build up the company. As long as the company earns money, I guarantee that I won't treat everyone unfairly." Wu Tian said passionately like a general.

"Alright, pa pa pa pa ..."

The staff applauded again.

After the applause, everyone expressed their opinions:

"Thank you, Boss Wu, for sending us red packets. We will not disappoint you."

"Boss Wu is truly open-minded. With such a generous boss, we'll definitely work hard."

"Right, we have to follow Boss Wu and expand the company."

"It's our fortune to have a boss as good as Boss Wu."

"..."

All the employees were motivated by passion. They praised Wu Tian as a good boss and expressed that they would follow Boss Wu and do a good job.

"Alright, everyone go to work first. I'll split the five hundred thousand with everyone." Wu Tian was very happy to see his employees being so passionate.

He used five hundred thousand to buy the employees' hearts.

As long as he could win over the employees, he would be able to earn benefits for the company.

The employees returned to their positions and continued working, while Wu led Wu Tian around the company.

As he passed the rest area, he noticed that one of the employees was playing a game he had never seen before.

Standing behind and watching the employee play for a while, he thought it was quite interesting and seemed quite novel.

Only after the first round did the employees come to their senses.

Seeing Wu Tian and Liu Mu standing behind him, he quickly put away his phone and greeted them: "Hello, CEO Boss Wu."

"What's your name?" Wu Tian asked the staff who were playing the game in a friendly tone.

"Zhou Cheng." The staff looked worried, afraid of being punished and scolded.

"What game were you playing?"

"It's my newly developed hand swim."

"You developed it yourself?"

"Right." Zhou Cheng nodded heavily and explained, "I was bored a while ago and developed a game. If I have nothing to do, I'll just try it out."

"You independently developed it?"

"Yes."

"Play a bit more, let me see." Wu Tian instructed.

"This ..." Zhou Cheng hesitated for a few seconds and finally nodded his head. He took out his phone and started to play the game again.

Wu Tian stood at the back and watched carefully. His eyes stared at the screen without blinking as if he was mesmerized.

Only when Zhou Cheng finished playing the game did he come back to his senses and nod in satisfaction: "Not bad, this game is very interesting."

"Then I'll go to work first." After saying that, Zhou Cheng turned around and walked into the office.

Watching Zhou Cheng's back as he left, Wu Tian couldn't help but say to Lee Mu, "This kid is a talent."

CHAPTER 57:

"We still have a lot of people like Zhou Cheng." Lee Mu raised his head with some pride.

All the programmers in the company had been carefully selected by him and had been supported on a high salary.

"Then has our company ever done games before?" Wu Tian pinched his chin and asked thoughtfully.

"Yes."

Lee Mu nodded and said dejectedly, "Our company expended a lot of effort to create this game in the past, but it didn't pay off in the end, so we temporarily ran aground."

"That's because you didn't find the right entry point. The game that Zhou Cheng played just now was not bad. If you put it into the market, it would definitely be beneficial."

"That game?" Lee Mu was quite surprised. He didn't expect Wu Tian to be interested in Zhou Cheng's game.

"I used to be a game mystery too. From my point of view, his game definitely has a market."

"Are you sure?"

"Of course I'm sure." Wu Tian thought for a moment and suggested, "How about this? You let Zhou Cheng and a few programmers form a team to focus on this game. What do you think?"

"I can give it a try!" Although Lee Mu didn't think highly of this game, he dared to try it and wasn't worried about failure.

Tianmu Technology already had a fault-tolerant mechanism, and could constantly explore and innovate within the limits of one's ability, learning from one's failures.

"Okay, go get Zhou Cheng to his office. I need to talk to him." After saying that, Wu Tian turned around and walked into the office.

After sitting in front of the sofa for a while, he saw Lee Mu and Zhou Cheng enter.

Zhou Cheng was a bright and handsome boy in his twenties.

"Sit down!"

Wu Tian pointed at the sofa and asked Zhou Cheng to sit down. He personally poured a cup of coffee and handed it over, "Here, have a cup of coffee."

"Thank you, Boss Wu." Zhou Cheng quickly stood up and received the coffee cup with both hands, feeling flattered.

"Sit!"

Wu Tian sat opposite Zhou Cheng and asked with a smile, "Do you want to sell your game?"

"Yes, even in my dreams." Zhou Cheng developed this game to enter the market.

However, during the internal audit, Zhao Yiming, the vice president of the company, firmly objected.

As such, his game had yet to be tested and he was already dead.

However, he was still unwilling. Every day, he still desperately tested the game, trying to improve it so that he could have the chance to enter the market by himself.

"The company intends to market your game ..."

Before Wu Tie could finish his sentence, Zhou Cheng stood up and said excitedly, "Boss Wu, are you serious?"

"Really."

"Boss Wu, you really are my benefactor. Thank you, thank you." Zhou Cheng bowed over and over to express his gratitude. He was so excited that tears were flowing out of his eyes.

"Don't be happy too early." Wu Tian poured cold water on them and smiled, "Your game is still incomplete, so you need to optimize every aspect of it. How about this, I'll give you two people as the team leader. Bring them along to develop the game."

"Thank you, Boss Wu."

"I'll give you guys a week to optimize the game and conduct an internal test."

"Don't worry, I promise I won't let you down." Zhou Cheng raised his right hand above his head and guaranteed with a firm tone.

"In addition, after this game enters the market, I will give you 2% of the profits as a share, and the bonus will also be counted separately."

"Thank you, Boss Wu." Zhou Cheng bowed once again to express his gratitude. At this moment, he felt full of energy. There was a surge of primordial energy in his body that could explode at any time.

With Boss Wu's support and his own strength, he could completely make the game profitable in the market.

But when he thought of the vice president, Zhao Yiming, the smile on his face instantly sank, "Boss Wu, I'm afraid that President Zhao will not agree to this game."

It was precisely because of Zhao Yiming's obstruction that the game's internal test was run aground.

"The President Zhao you're talking about is ...?" Wu Tian was at a loss.

He didn't have a complete understanding of the company's structure. All he knew was that Lee

Mu had led a few people to establish the company together.

"President Zhao's name is Zhao Yiming."

Lee Mu quickly interrupted, "He's the same as me, he's one of the founders of the company."

"He doesn't agree to develop this game?"

"Yes sir!" Lee Mu nodded and instructed Zhou Cheng, "You can go back to your work. We will take care of President Zhao's matters."

"Alright!"

Zhou Cheng answered and left the office.

Lee Mu poured a cup of boiling water and passed it to Wu Tian, then continued, "Zhao Yiming strongly opposes this game. Previously, it was because of President Zhao's obstruction that the game didn't go through an internal test."

"Why is Zhao Yiming opposed to this?"

"The main reason is still because I'm afraid of failure."

"Is that so?"

"In recent years, Zhao Yiming and I have had a great deal of differences. Their management

methods and philosophy are different, and we often quarrel over matters regarding the company."

"Where is he?"

"Out on business." Liu Mu glanced at the time, "He might be back soon."

"Then I'll wait for him here." Wu Tian would like to see this Zhao Yiming, if necessary, help Lee Mu to regain management authority.

This kind of Technology Company is most afraid of the power dispersion, the executive disagreements, this is very unfavorable to the company development.

"Boss Wu, why don't we go eat first and wait while we eat?" Lee Mu suggested.

"No need, you go ahead." Wu Tian sat down on the sofa and picked up the magazine on the shelf and started reading it.

After waiting for an hour, Vice President Zhao Yiming returned to the company.

Zhao Yiming was a bit old and bald in his forties. He looked a bit old and decrepit.

After Zhao Yiming returned to the company, he rushed to the office of the general manager, "Lee Mu, I heard you brought a powerful investor to our company."

"This is Wu Tian." Lee Mu pointed at Wu Tian and introduced, "He has extraordinary strength and resources. He invested 150 million into our company and became our controlling

shareholder."

"Hello, Boss Wu."

After hearing the introductions, Zhao Yiming hurried forward to shake hands with Wu Tian and greeted, "I heard that you helped our company resolve the dispute with the Heavenly Note Conglomerate?"

"It was nothing."

"I'm impressed, I didn't expect that the moment you arrived at the company, you would help us solve such a big problem."

"Right now, there is no longer a difference between us. I am also a part of the Tianmu Technology." Wu Tian reminded him with a smile.

"Right, right!"

Zhao Yiming smacked his forehead, "In order to welcome Boss Wu to our company, I'm going out to eat."

"No need." Wu Tian waved his hand, "I was waiting for President Zhao to come back to discuss the company's new project."

"What new project?"

"I plan to launch Zhou Cheng's new game."

"No." Hearing this, Zhao Yiming's face instantly collapsed. He said with a determined tone, "I don't agree to the development of that new game."

"Why not?"

"I just don't agree."

"It seems that your Tianmu Technology is not up to you to decide, right?" Seeing Zhao Yiming be so rude, Wu Tian's tone also became tough.

His attitude towards others depended on the attitude of the other party. This was called mutual respect.

CHAPTER58:

"I am the founder of Tianmu Technology, and I have the authority to speak up for the company." Zhao Yiming held his head up high and was full of tenacity.

"The decision is in Lee Mu's hands."

"That's right." Zhao Yiming nodded and changed his tone, "Boss Wu, even though your investment company has a controlling stake, it doesn't mean that you can directly interfere with the company's business."

"I want to make money for the company."

"You're just messing around." Zhao Yiming was very angry, even his teeth were chattering when

he spoke.

"Cough, cough!"

Seeing that the two were about to argue, Lee Mu quickly went up and reminded Zhao Yiming, "President Zhao, don't forget your identity."

"So what if he's an investor? I'm the company's founder. According to the contract, he has no right to fire me." Zhao Yiming was extremely arrogant and did not put Wu Tian in his eyes at all.

"President Zhao, don't go too far. Wu Tian is the investor and he's our boss." Lee Mu cleared his throat and warned.

Zhao Yiming was becoming more and more arrogant, arrogant, arrogant, and arrogant. He was no longer as humble as he was when he founded Tianmu.

"Cut the crap. With me here, none of you should even think about playing that game." Zhao Yiming directly said those harsh words.

"You ..." Lee Mu was speechless.

It wasn't easy to get Wu Tian to invest in him, but Zhao Yiming's words were like a slap to his face.

Neither of them spoke.

The atmosphere in the office was clearly tense.

If it had been any other investor, they would have been enraged by this and withdrawn their money and left.

Wu Tian didn't get angry. After thinking for a moment, he said to Zhao Yiming, "There's no use arguing here. How about this, Zhou Cheng's game is developed by me, if you earn money then it belongs to the company, but if you lose money then it's mine too."

"Are you sure?"

"I'm sure."

"Alright, I have no objections." Zhao Yiming agreed decisively.

The reason why he didn't want to play the game was because he was worried about the company losing money.

"Don't be happy yet, I still have conditions." Wu Tian's tone changed: "If I can't make money from this game, I won't be involved in the company's business in the future. On the contrary, if I can make 30 million from this game, you will lose the authority to manage the company in the future, what do you say?"

"This ..."

"Scared?"

"Alright, I agree to your condition." Zhao Yiming thought for a while and agreed.

He had already seen Zhou Cheng's game before, that kind of game was impossible to earn money from, only losing money.

"Deal!" The corner of Wu Tian's mouth raised into a pleased smile: "Then I'll sign an agreement so that you won't regret it."

Under the witness of Lee Mu and the company's legal department, the two of them immediately signed the agreement.

According to the agreement, if Zhao Yiming was able to earn more than 30 million in profit after entering the market in half a month, he would no longer have the right to manage the company.

On the other hand, if the game does not earn 30 million within the allotted time, Wu Tian will no longer interfere with the company.

This was a wager agreement on the fight for power.

After the signing of the contract, Wu Tian assigned two assistants to Zhou Cheng. He had the three of them form a game attack team and specifically optimize and test the game.

Wu Tian also stayed in the company, keeping track of the game's progress and progress, while arranging for people to prepare before entering the market.

After working hard for several days, Zhou Cheng and the other two finally managed to optimize the game's effects and achieve first-rate experience.

The game is then tested within the company.

Including Wu Tian, Lee Mu and all employees of the company, everyone began to play this game of reasoning.

Everyone's job was to find flaws and loopholes. Whoever found a loophole would receive a bonus of two thousand to motivate the employees.

After the internal test and optimization, the game was almost complete, and a brand-new mobile phone inference game was finally completed.

The game was named Zhou Cheng's Hand Tour and he began to push it into the market for public testing.

Whether a game can succeed or not, the promotion and promotion of the early stage is very important.

However, Tianmu Technology resources were limited, and in the early stages, they could only be promoted on the official account, from the media, and the flow of traffic was limited.

If you want more people to know about the game, you need a bigger platform to promote it.

At present, seafood TV was a good way to break through.

After discussing it with Sunn Sheng, he decided to advertise Zhou Cheng's hand tour on a seafood banner.

After talking about the commercial, Wu Tian dialed Huang Lan's number, "Elder Sister Lan, do you have time tonight? I'll treat you to a meal."

"If you don't have anything to offer, then be a thief or a scoundrel." Huang Lan saw through Wu Tian's playfulness instantly, "Say it, is there something you want to ask me for?"

"Not only is Elder Sister Lan beautiful, she's also quite intelligent."

"Beautiful words, hurry up and say it, what exactly is going on?"

"It's like this. I recently developed a weekly hand tour. I want you to help me promote it. Look ..."

"No way!" Without waiting for Wu Tian to finish, Huang Lan decisively refused: "I'm a singer and promoting a hand swim is not in line with my position."

"Why don't you play that game first?"

"That's fine."

"I'll send you the link. Download it yourself." Wu Tian hung up the phone and sent the download address over.

After sending the address, he opened the seafood TV and entered Huang Lan's live broadcast room.

He discovered that she was broadcasting. On the home page was the downloading address of Zhou's Hand-to-hand tour, while she herself was promoting Zhou's Hand-to-hand tour in the live broadcast room.

This girl, even though she said she wouldn't help, she used actual actions to help him promote and promote Zhou Jiuyou.

Wu Tian watched the live broadcast for a while before he started to play games.

To be honest, this game of reasoning was really quite good. He was soon attracted by the game and enjoyed playing it.

Even though he was playing, he didn't forget to do something important.

After playing a few games, he began to practice martial arts and study. He was extremely busy.

When he went to school the next day, he was criticized by Teacher Mu Rann once again.

"Classmate Wu, why did you skip classes these few days?" Mu Rann scolded with a stern face,

her beautiful face full of anger.

"Teacher Mu."

Wu Tian scratched his head in embarrassment and explained: "I've been doing some small business recently, so I can be considered to be learning how to use it. Besides, I also study at home and haven't missed my homework."

"You are studying at home?"

"Right."

"Then what have you learned recently?"

"Management and finance courses."

"That's right." Upon hearing this, the anger on Mu Rann's face dissipated a little and she spoke sincerely, "The classes you've studied at home are not bad, but you still have to take them."

Every time he questioned Wu Tian before, he found that the boy could answer him fluently.

Even what he didn't teach in the classroom, he was proficient in it. He was worthy of praise for being able to surpass his peers in it.

"Teacher, I understand." Wu Tian looked up at Mu Rann and obediently lowered his head.

When he looked down, he noticed that Mu Rann's dress was torn. He wanted to remind Teacher Mu, but felt embarrassed.

CHAPTER 59:

"Classmate Wu, I heard that your house has been demolished recently to make a lot of money?" Mu Rann didn't even notice that her skirt had cracked. She crossed her arms over her chest and asked.

"En!"

Wu Tian nodded absentmindedly, then shook his head again and again: "No, the house hasn't been demolished."

"Then he won the lottery?"

"Not really."

"I don't care how much you've improved, but you must attend this school." Mu Rann stroked her hair and warned, "If you don't study hard, you won't be able to keep your fortune, understand?"

"Understood!"

"No matter the time, you must never relax and study."

"Yes sir!"

"Wu Tian, why are you so red?"

"I ..."

"Where are you looking?" Only then did Mu Rann notice Wu Tian's gaze glancing at her skirt from time to time.

Looking down, he noticed that her skirt had cracked at some point.

Her pretty face suddenly flushed red and she quickly used her hand to suppress her skirt and scolded, "Wu Tian, you are really shameless."

Having said so, she turned around in a panic and prepared to leave.

After walking a few steps, he turned around and instructed, "Wu Tian, watch your mouth and don't speak carelessly."

"Yes sir!"

Wu Tian nodded obediently. At this moment, he noticed that Teacher Mu Rann's face was red like blood and her expression was extremely embarrassed.

"Cough!"

Mu Rann coughed lightly and left quickly with an embarrassed expression.

The male lead smiled wryly before turning around and returning to the classroom to continue his lesson.

During this time, he turned on the seafood TV and entered the live broadcast room of Huang Lan. He found out that she was currently playing a game live, which was driving her fans to download the weekly event.

After school in the afternoon, Wu Tian wanted to go to Tianmu Technology company to take a look at the situation.

As soon as he walked out of the north gate of the school, he collided with a powerful man.

Not only did the man not apologize, he even pointed at Wu Tian's nose and cursed: "Idiot brat, you were blind, you f \* cking bumped into me."

"Obviously it was you who bumped into me." Wu Tian originally did not want to argue with him, but when he saw the man being so cocky, he was secretly angered.

"What's wrong with laozi hitting you? Hurry up and apologize to laozi."

"Do you think you're a cheat?"

"Of course I'm cheating." The powerful man shook his arm and hooted, "Do you believe that I won't knock you out with a single slap?"

"I don't believe it!"

"How dare you talk back?" The powerful man had a fiery temper. He raised his fist and was ready to attack.

Wu Tian was surprised at first, but when he thought about the hard training he had with the Azure Dragon in the past few days, he secretly felt reassured in his heart.

He tilted his head and dodged the attack. At the same time, he raised his leg and ruthlessly kicked the fierce-looking man's butt, forcing him to retreat a few steps.

The powerful man stood up straight and looked at Wu Tian with a strange expression. He didn't expect that this weak and foolish brat in front of him would know two moves.

"It seems that I have underestimated you." The powerful man shook his arm and prepared to attack again.

He had underestimated this brat's strength, so he decided to teach him a good lesson.

"If you leave now, I'll pretend nothing happened." Wu Tian said coldly as he rubbed his nose.

"Go your head, let's see how laozi will torture you today!" After saying this, the fierce-looking

man swung his fist and charged forward again.

Wu Tian clenched his fists tightly as he secretly raised his guard in his heart.

When the man got close, he suddenly threw a horizontal kick and knocked the man over. Then, he punched and kicked the man.

"Ah ..."

Soon after, the fierce-looking man let out a series of miserable shrieks. He didn't expect the brat in front of him to be so cruel. He hurriedly begged for mercy. "Stop hitting me, I was wrong ..."

"I gave you a chance, but you didn't treasure it." Wu Tian continued to punch and kick the fierce-looking man until his head was bleeding.

"Ah, hiss ..."

The fierce-looking man struggled for a long time before finally getting up from the ground, grimacing in pain.

When he raised his head and looked Wu Tian in the eye, he was so scared that his neck shrunk and he retreated a few steps.

Honestly speaking, never in his wildest dreams did he imagine that the kid in front of him was so strong that he looked like tender skin and flesh. He didn't think that he would be so good at fighting.

What was even worse was that this brat was so vicious at such a young age, he almost took his life.

"Next time, you'd better stay away from me." Wu Tian shook his fist as a warning, then turned around and quickly left.

It seemed like his hard work and training during this period was not in vain. Under the guidance of the Azure Dragon, his skills improved by leaps and bounds, and he was dozens of times stronger than before.

If this was in the past, he would not have been a match for them.

He took a taxi to Tianmu Technology.

As soon as he entered the company, Lee Mu was extremely excited, "Boss Wu, that's great. The number of downloads for our game skyrocketed the moment it went on the market."

"That's right." Wu Tian was very satisfied with this result.

"Let's go, I'll take you to see the background data." Lee Mu couldn't hide his excitement as he brought Wu Tian to the computer.

After Zhou Cheng greeted them, he quickly opened up the game's background data.

The data is very stable and the download volume is rising in a straight line.

At this rate, in less than half a month, the number of downloads for this new game would

exceed a million.

"Well done." After looking at the data backstage, Wu Tian couldn't help but give Zhou Cheng a thumbs up, "You contributed the most in this game."

"Boss Wu is smart. I only did what Boss Wu told me to do." Zhou Cheng smiled humbly.

That was the truth.

If it weren't for Wu Tian's support, this game wouldn't have even made it to the market, much less becoming popular.

"The development of the game was good, the optimization was perfect, and the promotion was in place. That's how you get such good results." Wu Tian briefly summarized the game's success rate.

"Speaking of promotions, there's one person who has done a great job."

"Who?"

"To become a popular singer, Huang Lan."

"Is that so?" Wu Tian smiled without saying a word.

"I've checked, more than 40% of the food in the game was drained by Huang Lan alone."

"So many?" Wu Tian was a bit surprised, he didn't expect Huang Lan to account for less than half of the total.

It looked like Huang Lan's star power was indeed very beneficial and had a huge siphon effect on the flow of traffic.

"Yeah, I didn't expect that either." Lee Mu nodded. He frowned and said, "I don't understand. Our company didn't ask for Huang Lan's help. Why would she help our company promote the game for free?"

"I personally asked him to help promote it."

"You're the one who invited Huang Lan?"

"Right."

"Boss Wu, your reputation is truly not small. Could you help us promote a celebrity like Huang Lan for free?" Lee Mu couldn't help but exclaim.

He was now more and more impressed by Wu Tian. Not only did he have a lot of resources and power in the business world, he also had such a wide network of connections in the entertainment circle.

Even the staff were secretly surprised, they did not expect Boss Wu to have a good relationship with Huang Lan.

"I will continue to follow up on the promotion. Don't you guys relax too much. Zhou Cheng, do some good planning for the game. When the time comes, let Director Li publicize it well." Wu

Tian instructed with a smile.

"Alright, I'll do it right away." Zhou Cheng immediately brought his men into the work. He was full of passion.

#### CHAPTER 60:

After arranging everything related to planning and promotion, Wu Tian called Huang Lan and asked her out for a meal.

According to Huang Lan's request, the two of them made an appointment at Fuyuan Restaurant.

This time, he did not ask for a customized meal. He merely ordered a few dishes and then began to eat and chat.

"Elder Sister Lan, thank you for helping me promote the game. Let me toast you." Wu Tian raised his glass and said gratefully.

It was really unexpected. From Huang Lan's tone, he thought that she wouldn't help promote the game.

He didn't expect this woman to put in so much effort to help him drain more than 40% of the water.

"Sis just thinks that your game is pretty fun, so she also recommends it to the fans." Huang Lan smiled indifferently.

"No matter what, I still have to thank you. Come, drink up." In order to express his gratitude, Wu Tian finished the liquor in one gulp.

Huang Lan took a sip of the brandy and said with a charming smile, "Brat, you want to make me drunk by drinking this strong liquor?"

"Don't misunderstand, I just think that these dishes are better with strong wine."

"Later, when Big Sis is drunk, you must carry Big Sis back." Huang Lan deliberately twisted her body, looking as gentle as a water snake.

Looking at Huang Lan's slightly exposed shoulders, Wu Tian silently swallowed his saliva.

Beautiful, too beautiful.

This woman was truly a demoness, she was simply going to kill someone with her charm.

"Right."

After staring at it for a while, Wu Tian quickly changed the subject: "Elder Sister Lan, your

singing is so nice. Have you ever thought about making your own album?"

"Of course, even in my dreams." Huang Lan retracted her seductive posture and put on a serious expression.

She had a reputation in the entertainment industry for her singing skills and strength, but she had never made an album before.

Every singer dreams of having his or her own album, but it's a tough one, and the agency has high requirements for artists.

Before, she almost got the unwritten rule of HSBC Media, which resulted in a violent resistance from her, and the album was put on hold for an indefinite period.

"How about I put in some money and help you release your album?" Wu Tian tried to share his thoughts.

Huang Lan pursed her lips into a smile and said sarcastically, "How can a restaurant owner like you be so capable?"

"I'm not just running a restaurant."

"Oh yeah, there's also seafood dishes, but as far as I know, your live broadcast platform isn't that profitable."

"No need to doubt my strength." Wu Tian leaned his body against the chair and slightly raised

his chin. "As long as you can think of an album, I think I can help you achieve it."

"Why are you helping me?"

"You helped me so much unconditionally, I just want to repay you."

"Others are helping me for my body. Don't you think so?" Huang Lan deliberately lowered her body, her tone dubious.

Wu Tian glanced at his collar and scratched his head awkwardly. "I ..." "No such idea."

"Really?"

"Really."

"Big sister doesn't believe it." Huang Lan suddenly grabbed Wu Tian's collar and insolently leaned close to Wu Tian. "To be honest, is elder sister pretty?"

"Beautiful."

"Don't tell me you don't have any thoughts towards elder sister?"

"I ..."

"Bo!"

While Wu Tian was hesitating to reply, Huang Lan leaned over and kissed his face.

The kiss was gone, but Wu Tian's heart was beating wildly. He froze on the spot as though he was petrified.

"Hey!"

As if nothing had happened, Huang Lan stretched out her hand and waved it in front of Wu Tian's eyes, "Did you become an idiot after being kissed by sister?"

"Cough, cough!"

Wu Tian coughed dryly and said, "I just didn't expect ..." You... "So ..."

"Raggy?"

"Don't misunderstand, that's not what I meant."

"Actually, I'm only being presumptuous in front of you. In front of other men, I don't even want to say anything." Huang Lan put away her smile and returned to her usual aloof attitude.

"Is that so?" Wu Tian didn't know whether to believe her or not.

The longer they got to know each other, the more he realized that he didn't understand this woman at all. He couldn't figure out what Huang Lan was thinking.

"Believe it or not." Huang Lan shrugged her shoulders nonchalantly and reminded him, "I already gave you my kiss, but you can't go back on your promise about the album."

"Don't worry, I've said that I will definitely fulfill my promise if I help you release the album."

"That's good." When Huang Lan looked up, she noticed a pair of eyes in the direction of the kitchen. She quickly said to Wu Tian, "Your chef seems to be stealing glances at us."

"Shen Xue?"

Wu Tian turned around abruptly and found that Shen Xue was hiding behind the kitchen door. She seemed to be very angry and her face was filled with resentment.

He quickly stood up and waved at Shen Xue. "Xiao Xue, long time no see. Come and eat with me."

"Eat, eat, eat. Sooner or later, you will die from eating." Shen Xue cursed angrily.

When she saw Wu Tian kissing other women just now, she was especially annoyed and wanted to pounce on him and strangle him to death.

She didn't know what was going on, but she felt sad when she saw that Wu Tian wasn't on good terms with other women.

"Xiao Xue, how have you been recently?" Wu Tian was a bit confused by Shen Xue's recent performance.

"Nothing. I just feel bored when I see you." Shen Xue huffed and puffed before she turned around and walked into the kitchen.

"Little Snow, I ..."

Wu Tian still wanted to be concerned about something, but before he could finish, his phone rang.

He took it out and saw that it was Lee Mu calling.

He quickly picked up the phone and asked anxiously, "Boss Li, did something happen at the company?"

"Boss Wu, about your weekly tour, one piece of good news and one piece of bad news. Which one do you want to hear first?" Lee Mu began to put on airs.

"Good news."

"The good news is that Zhou Shanyun's Person Aura has already exceeded 20 million."

"Soaring so fast?" Wu Tian was even more surprised.

When he left the company, his popularity was only at a few million. He didn't expect it to reach 20 million so quickly.

"But there's one more piece of bad news." Very soon, Wu Tian splashed a bucket of cold water

and said dejectedly, "Our new game has been pirated, and a lot of people have been attracted from us."

"Who's pirating?"

"Fate Technology Company."

"How preposterous." Hearing that the game that he painstakingly developed had been pirated, Wu Tian was especially angry, "Other than Fate Technology, are there any other pirated games?"

"Not yet."

"That's good. I'll go meet with the CEO of this Destiny's Science and Technology department." Wu Tian hung up after saying that.

He said to Huang Lan, who was eating, "Elder Sister Lan, I have some urgent matters to take care of right now. I'm really sorry but I can't continue to accompany you to eat."

"Then accompany me tonight."

"Huh?"

"Don't let your imagination run wild, I just want you to accompany me for dinner tonight." Huang Lan elegantly pulled up her long hair. Her gaze was as gentle as water.

Obviously, she was teasing Wu Tian on purpose.

"I'm sorry, but I might not have the time tonight. Maybe another day!" Wu Tian smiled embarrassedly as he turned around and left.

Huang Lan sat on the spot and watched Wu Tian's back as he left. She pursed her lips and smiled as she muttered to herself, "This silly kid is really different from the masses."
