Chapter 1818 Whose Car Did She Take

Lenard stared at the direction Trevor and Luisa had just gone, feeling very angry.

Why was life like this? Why couldn't any beautiful woman like him? Nola didn't like him, and Luisa didn't liked him either.

Why?

Collen was not reconciled either. He stepped forward and said comfortingly, "Lenard, don't give up. Luisa might not just recognize you. I think you should tell her who you are first."

Hearing Collen's words, Lenard tried to calm down and thought for a while.

He thought that Luisa was just a materialistic girl and she had chosen Trevor only because he was the young master of the Sanderson family.

She might not care about Trevor at all.

Maybe once she knew who Lenard was, she would choose him instead and come to him on her own.

Thinking about this, Lenard's mood greatly improved and he became happier. Luisa was so beautiful and it would be a shame if he let her go so easily. So, he immediately chased after her.

Meanwhile, Trevor had led Luisa to the underground parking lot.

He asked Luisa to wait for him at the entrance to the parking lot while he drove the car out.

While Trevor went to get the car, Lenard and Collen also arrived at the underground parking lot.

Lenard intended to impress Luisa with his riches as he had thought earlier, so he immediately pressed the button of his car key. The next second, the latest Aston Martin was opened.

Lenard stared at Luisa intently, hoping that she would change her mind when she found out that he was a rich man.

As far as he was concerned, Trevor didn't deserve Luisa at all. In fact, he believed Trevor couldn't be trusted.

Before Luisa or Lenard could say anything, Collen said firmly, "Only such a luxurious sports car is suitable for a beauty like you. How can you sit in that lousy car? Raven only drives a second-hand car!"

However, Luisa's reaction was nothing like what they expected. To Lenard's and Collen's disappointment, she said curtly, "No, thanks."

Luisa cast a sidelong glance at the two men as she spoke.

She knew that they must have tricked her to come to Zayden.

Because of that, she felt even more disgusted with the two.

By this time, Trevor had already stopped the car in front of Luisa. He ignored the two men and waved at her.

"Get in the car. I'll take you to find Trevor!"

Lenard was seething with anger, and he gnashed his teeth, glaring at Trevor. However, he didn't dare to provoke Trevor because he was scared of Trevor's identity as a killer of Mobius.

Collen, on the other hand, couldn't care less.

He walked straight to Trevor and said mockingly, "What a shabby car! How dare you come to pick up a beauty with such a car? I feel so much second hand embarrassment!"

Trevor didn't say anything and just smiled, completely ignoring Lenard and Collen. He turned to Luisa and asked, "Why are you still dawdling? You don't want anything to happen to Trevor, do you?"

As soon as Trevor said that, Luisa dared not to waste any more time and she immediately rushed into the car.
If she didn't get in the car right away, she would definitely burst out laughing.

The next second, the car engine roared.

Trevor drove off and gradually disappeared from Lenard's and Collen's view.

Lenard, who had been depressed all this while, couldn't bear it anymore and cursed, "Damn Raven! What a despicable man you are! Damn it! Luisa is mine!"

Collen's reaction, on the other hand, was completely different. He looked at Lenard with a strange expression on his face.

Noticing the weird look in Collen's eyes, Lenard questioned angrily, "Why are you looking at me like that? It's all your fault! You are so useless. All you can do is to send fake messages!"

Collen was annoyed by Lenard's words and a deep frown appeared on his face. He muttered, "Why are you so angry to see another man take Luisa away? I suspect that you are Trevor."
