

More Than Lust - 33) Fun!

Grace's pov

I slowly opened my eyes and looked at him, he was looking at me with blank face. No anger, no lust or no annoyance. He gently released my hand and I quickly stood up from his lap.

He got up from the chair and walked inside.

I tried to calm my breathing, this man has given me another definition of fear. I never thought that i will be scared of another human being like this.

I picked up the sunscreen bottle and sat on the sofa while applying it on my body. He came back and sat on the chair.

Suddenly i heard wierd noises and looked around.

"Dolphins"

I screamed in excitement and stood up.

Wow! So beautiful. It looks like they are dancing in groups.

Chief came forward with the bucket which has fishes in it and sat on the small opening which wasn't there before.

I stood there as he fed one dolphin. They are so cute, i want to feed them too. It will be incredible experience. I don't think he will allow me after whatever happened before. It's okay, i will enjoy from here.

He looked at me and gestured me to come closer. I walked towards him and he made me sit in front of him.

"Don't lean forward"

He warned and handed me small fish.

I waved it and one dolphin grabbed it in it's mouth. I laughed and patted it's head. When I laughed i felt him going still on my back. I turned around and looked at him confused.

He looked at me with blank face but did I saw a hint of guilt in his eyes?

He got up and walked towards his chair. What's wrong with him?

I shrugged it off and started feeding dolphins while he was doing something on his phone. After so many months i am finally laughing with my heart. Well, at least something good happened in this vacation.

These dolphins looks familiar to human touch.

I looked ahead and saw small island. Where are we?

After few minutes, dolphins disappeared. I walked back and he stood up.

I stood there and he came back with two small tanks.

Are we going for a scuba diving? My smile widened and i literally jumped in happiness.

Wow! This is the best day.

I stopped smiling and stood straight when he looked at me with amusement. He pulled his shirt over my head leaving me in blue bikini.

He tied the oxygen tank on my back and did the same with himself.
After wearing masks We walked towards the edge and he jumped first. I
sat on the edge and carefully entered the water.

Fuck it's deep and heavy oxygen tank is making me sink. Chief grabbed
me by arms and held up.

"Go down and breath"

He ordered.

I went down in the water and tried to breath but couldn't. I panicked and
came out panting.

"I can't..."

I removed the pipe from my mouth and coughed.

He fixed my mask.

"Take deep breaths not small... Don't panick'

He instructed.

I nodded and went down again, this time I took Deep breaths and it worked. Till now i have only swam in pools, swimming in deep ocean is quite scary.

I came out and told him that I am ready. He didn't look irritated by me, he was calm.

He told me not to move in water and led me deep inside the ocean by holding my arm.

For a second i panicked when we left the surface but he gestured me to relax and i followed his directions.

It's thrilling!

After few minutes I relaxed and started enjoying. May be he sensed it and released my arm.

I played with small group of fishes, they looked like Angel fish. I also found one sea shell but it was alive so I put it back. I don't want to get bitten by wierd sea creatures.

I was so lost that i didn't realise he is watching me. I was playing like a small kid but i can't help it. This experience is so beautiful, i don't know if i can do it again or not. If I have got the chance to smile in this messed up life then i should use it.

For a minute I totally forgot about my situation and enjoyed myself.

I didn't see what he was doing but he was definitely doing something with camera. May be clicking pictures of aquatic plants and corals.

After scuba diving we went back to the yacht, i wanted to spend more time there.

I wore my shirt when he stopped the yacht on island. I can see villa from here.

He got off first and took me down like i a small kid. How can he lift me so easily by my arms. Well, those muscles aren't joke. I am hardly 50 kg, it's nothing for him.

I fixed my shirt and looked ahead. There is whole line of guards which looks like robots.

He held my hand and i looked at him. What are we, a fucking couple?

Stop it Grace, he can clearly read your face. I should be careful if i don't want to turn this happening vacation in nightmare.

I let him hold my hand not like i can do anything. He led me towards the villa which is full of security. It wasn't unexpected, afterall he is mafia. I am uncomfortable in these men but surprisingly not even one single man glanced at me.

I followed him like a lost kid. He let go my hand when we entered inside the house.

He left me alone to roam around and walked away from me.

I talked to maids, wondered around the beach and villa. I was in dilemmas thinking how much it has cost him but then i realised it's nothing because this whole Island belongs to him.

Great! This man has born with gold in both of his hands.

I finally got tired after roaming around and went towards our room. It was empty when i entered but he came shortly after me.

It was a good day, except morning. I wonder why he didn't punish me for that.

He stood behind me and turned me around.

"Had fun?..."

He Smirked.

"Now it's time for punishment."

His words send shivers in my body.

My eyes blurred and breathing Quickened when those memories flashed in front of me. He almost whipped me that day.

I stepped back in fear but he grabbed my arms and jerked me forward.

I closed my eyes tightly, i don't want him to beat me.
