Chapter 105: The Masked Man Who Suddenly Appeared and Disappeared

Zi Yi turned towards the woman standing by her car who had a murderous expression.

As it turned out, she was the wanted criminal who had killed the men Li Peirong had sent over.

“Open the door and bring your phone with you.”

The woman’s voice was cold without the slightest hint of warmth.

Zi Yi stared at the weapon. After she detected where the other party was, she pushed the door open with her phone in hand.

The woman’s gun was on the verge of pressing against Zi Yi’s head when she suddenly spoke.

Her tone was that of indifference. “You’d better not press that against my head, otherwise, I may not be able to cooperate with you.”

The woman’s expression turned colder and she pressed the gun against Zi Yi’s temple.

“How dare you threaten me. Do you believe I can’t end your life in one shot...? Hurry and contact Lu Jingye. Make sure he comes alone.”

Zi Yi’s gaze stayed on the woman’s hand that had the gun against her temple. She tightened her grip on her phone and said with a solemn tone, “Take that thing away.”

The woman threatened her again. “Call him, or else I’ll shoot you!”

Bam!

Zi Yi suddenly attacked and landed a punch on the woman’s stomach, before she had any chance to react.

The woman flew away from here and crashed heavily onto the ground.

Zi Yi looked at the woman holding her stomach writhing in pain. With an indifferent expression, she said, “I warned you earlier. Don’t put such a thing against my forehead. You were the one who didn’t listen.”

Having said that, she approached her.

Just then, the sound of a sharp weapon piercing through the air could be heard from the side.

When she was about to evade, an even faster whistling sound could be heard. A whip curled around her waist and a masked man descended from the skies as he quickly brought her a few meters away.

Zi Yi was a little surprised when she tilted her head and saw the masked man.

With a deep voice, he said, “Go to the backyard.”

Having said that, his whip flung out and knocked away the other weapon that appeared in the woman’s hands.

When Zi Yi saw the other weapon that fell on the ground, she pondered for a second and decided to retreat.

After she left, the whip in the masked man's hands swung at the woman again.

"Ugh..."

After the whip struck its target, the man who hid in the dark finally revealed himself.

Instantly, they got into a fight.

The whistling sounds of a whip together with gunshots would cause anyone to be struck with horror.

Zi Yi stood behind her two robots as they fought.

Those two criminals could intrude into her house because her security facilities were not good enough.

She then decided, after entering Metropolis University, the first thing to do was head to a lab to produce a batch of invisible robots and better X-Ray protection nets.

The masked man was indeed skilled. Even though he was using a whip, he could deal with the weapon in that man's hands.

Just then, Zi Yi discovered that the woman on the ground suddenly arched her back and a glowing blue weapon appeared in her hand.

"Careful!"

Pa! Ding!

Zi Yi saw the sharp weapon flung away by the whip. She turned towards the woman and met her poisonous gaze.

Zi Yi curled her lips and released her mental force. In an instant, the woman lost consciousness.

Bam!

"Urgh..."

The masked man sent the other man flying with his whip very soon. He then looked at the duo who were incapable of fighting back.

Just as Zi Yi was about to walk over, the masked man unexpectedly beat her to it and lifted the duo, one in each hand, before he headed for the gate.

"Hey!" Zi Yi hastily called out to him. *Why did he leave like that?* "Wait."

The masked man merely paused for a second. He left with the duo and ignored her.
