### Chapter 118: Lu Jingye, Just Wait and See Me Win

When Zi Yi walked out of the examination room, there was already a crowd standing outside.

There were inspectors sent from above, organizing committee personnel, Ouyang Ming and Lu Jingye.

Zi Yi was a little surprised when she saw him.

Lu Jingye was currently talking with the inspectors sent from above. His expression was calm and restrained. Even though he was calm, he still gave off the aura where others would be fearful. Those inspectors conversing with him also spoke rather respectfully.

Just then, he suddenly turned to look at Zi Yi.

Ouyang Ming strode over first and sized her up from top to bottom and asked, "What was detected?"

Zi Yi sneered, "What do you wish to have been detected?"

Ouyang Ming's expression darkened. Before he could speak, a doctor walked out.

The doctor said to everyone present, "Several medical examination reports of Miss Zi have reflected that she is in normal health condition and there are no signs of drugs being taken."

After the doctor finished talking, he handed the medical examination report to the personnel of the organizing committee.

Zi Yi turned to ask them. "Can I continue participating in the competition?"

Just as they wanted to speak, Lu Jingye spoke in advance. "Since nothing was detected, the organizing committee cannot stop you from competing."

The organizing committee personnel felt their hearts skip a beat and hastily nodded in favor of his statement. "That's right, we'll immediately head back and release the medical examination results. Miss Zi, you can return to the race track."

After they said that, they went to inform the higher-ups of the results.

When Ouyang Ming thought of how fast she had finished the ten laps, he felt upset. She had already won the first segment and he would lose if she won the second one.

He cannot afford to lose!

Therefore, he had to do something.

Just then, a warning gaze was directed at him.

Lu Jingye said, "Give it your all in the competition. I don't want to lose."

The meaning behind his words was obvious.

Ouyang Ming suddenly widened his eyes. "S-second Brother. That 10 billion bet was yours."

"Yes."

Lu Jingye's answer made Ouyang Ming feel as if the sky had collapsed.

His complexion instantly paled as his mind buzzed.

Never in his wildest dreams did he expect Second Brother to be the anonymous person who betted on Zi Yi.

Lu Jingye added. "I don't wish for there to be any unfairness in the following segment Zi Yi is about to take part in."

Lu Jingye's tone was calm when he said that. However, Ouyang Ming had identified the warning behind his words.

His body shuddered.

After Lu Jingye said his piece, he headed towards the competition venue together with Zi Yi.

While they walked, Zi Yi asked, "Why are you here?"

"Lu Group is the biggest sponsor for this competition. I'm here to check things out."

Zi Yi never expected such a reason from him. Her lips curved, she tilted her head and said, "Rest assured, I won't make you lose your money."

"Hm."

Lu Jingye gave her a rundown of the dangerous turning points on the mountain track and he only stopped talking after he sent her to the entrance of the venue.

Zi Yi waved at him. "Lu Jingye, just wait for my victory."

Having said that, she walked in with confidence.

When Zi Yi walked to the edge of the racetrack, she saw several racers surrounded by their managers and psychological counselors. Evidently, they were providing them counseling.

When Zi Yi walked over, their expressions immediately turned ugly.

They looked at her as if they wanted to eat her alive.

Zi Yi did not spare them a single glance and walked over to Chang Teng. "When is the second segment starting?"

Before Chang Teng could answer her, Gerry jumped up and asked, "What qualifications does a person who consumed illegal drugs have to compete with us? You..."

"Ladies and gentlemen, No.6 racer's medical examination results are out. It shows that all signs are normal."

After listening to the announcement, Zi Yi looked at Gerry whose expression had greatly changed, and asked, "What were you trying to say?"
