Chapter 119: Don't Intend to Keep Their Pride

"Impossible! That's impossible!"

It was not only Gerry who was unwilling to believe in the test result, even the others did not want to believe what they heard.

However, the examination process was transparent and the medical personnel were all authoritative figures in the capital's medical field.

Even if they are distrustful, they could do nothing to Zi Yi.

However, when they thought about that racing car of hers...

"How is that possible! How can someone drive a racing car to such an extreme speed!"

"That's right. The fastest speed a racing car can achieve now is 400 km per hour. I was driving at the maximum speed during the competition. Unless she drove at a thousand km per hour."

"Impossible. How can a racing car drive at such an extreme speed?"

Zi Yi smiled as she looked at those racers who were unwilling to accept reality. Her smile was extremely irritating to the eye.

"Oh well, my racing car has been specially modified. If you're capable, you should do it too."

"No way. Based on the current technology in the racing industry, such a speed is unachievable!"

Someone had retorted like this. However, under the gaze of Zi Yi's cold eyes, he could not utter a single word after that.

Zi Yi glanced at them and curled her lips. "You all will have to work harder in the next segment. I'll treat you to dinner later... as a celebration for my win."

Having said that, she headed towards her racing car.

The few racers looked at her back and wished they could eat her alive.

They felt that she was humiliating them.

When they recalled the feeling they experienced when Zi Yi had overlapped them by 6 laps, their expression instantly turned bad.

"This is unfair!" Yadles finally shouted out loud. "We want to request a change in racing cars!"

Yadles' words immediately reminded the few others.

"That's right. We want to request a change in cars!"

"Everyone shall change. We will change to a car prepared by the organizing committee!"

At that moment, the few men had no care for their pride.

All of them strongly requested a change.

Zi Yi was found to not have consumed any illegal drugs and they felt that for her to be capable of winning the first segment, it must be due to the racing car.

Their requests immediately spread across the racetrack. The organizing committee was still in a discussion when those wealthy people who placed a bet had sent for the request to change cars.

There was a wealthy individual from the capital who even promised to send seven racing cars at once.

With numerous forceful requests and the wealthy individuals who pressured the organizing committee, they had agreed to the change after a few minutes of discussions.

However, the organizing committee had racing cars and so there was no need for anyone to specially send any over.

Seven brand new racing cars were sent to the racetrack, where each individual's station was at.

Gerry sneered and said, "I don't believe you can still win the second segment without the advantage of your racing car."

With a gentle smile, Gerwin said some threatening words, "I had the honor of driving on the Capital's mountain twice. It was a really dangerous experience. Therefore, Miss Zi. You must pay attention to your safety later."

Gerry's eyes sparkled at Gerwin's words.

If two racing cars were to accidentally collide during the race shortly...

With that thought, he stared at Zi Yi with an evil look.

At the same time, she looked at him with a cold gaze.

The commentator's voice sounded once again. "Ladies and gentlemen, the second exciting individual competition is about to begin. With all seven racing cars replaced, let us look forward to seeing who will win the championships in the individual competition!"

After the staff had undergone safety tests on the seven cars, all seven contestants simultaneously got in their respective cars.

This time around, it was not only the organizing committee but also a few large organizations that had sent out several drones.

These unmanned aerial drones could capture the whole racing process of the seven racers from all directions without any dead angles.

The seven cars roared out and headed for the mountain racetrack that had been blocked off for this competition.
