Chapter 144: Yiyi, Would You Like to Try out Endorsements?

Zi Yi walked out after she said her point. In fact, she was rather fond of paintings on ancient Earth. However, she did not like these types of paintings that were at the beginner level.

Qin Yuqiao hastily rushed over when she saw her leaving. "Why are you leaving?"

"I want to check out the art gallery."

As she said that, Zi Yi took out her phone and sent Dou Xiangling a message.

Afterwhich, she put away her phone and asked Qin Yuqiao, "Are there any museums that contain famed works in the academy?"

"There is." Qin Yuqiao thought to herself, *"You don't even know anything. Can you understand those paintings in the museum?"*

She felt that Zi Yi was talking nonsense when she commented on that painting earlier on.

However, she did not make her thoughts obvious. She then informed her where the museum was located, and Zi Yi headed there.

When Qin Yuqiao wanted to tag along, her phone suddenly rang.

The call was from Qin Yi. Qin Yuqiao glanced at Zi Yi who walked ahead and did not follow her. Instead, she stepped aside to answer the phone.

Zi Yi only discovered Qin Yuqiao had not tagged along after she walked for a while. She paid no attention to it and took out her phone to check the museum's location.

The museum was not far from her, but she still had to take several turns.

Just as she took a turn, she overheard two students' conversation. "I didn't expect the museum to be closed today. I originally wanted to check out XX's painting. I would always make a visit whenever I lack inspiration."

"It can't be helped. Every month, the museum had to be closed for two days for maintenance."

As they talked, they turned and headed somewhere else.

Zi Yi stopped when she heard the contents of their conversation.

However, she did not wish to return to the exhibition. Using her phone, she checked for the way to the School of Mechanical Engineering.

Just as she was about to leave the Academy of Fine Arts, Qin Yuqiao's voice sounded from behind her. "Yiyi."

Zi Yi stopped and looked back at her.

"Aren't you going to the museum to look at the famous paintings? Why are you headed in that direction?"

“The museum is closed today.”

Zi Yi said that and walked away.

Qin Yuqiao hastily said, “Then let’s go back to the exhibition hall. Otherwise, Dou Xiangling will be going around looking for us.”

“You can give her a call. I wish to check out the other schools.”

A trace of displeasure flashed through her eyes. Qin Yuqiao did not wish to walk around on such a hot day. She would rather find a sheltered spot and take a seat.

Zi Yi glanced at her. “If you don’t want to tag along, you can go back. After my cousin is done, just give me a call.”

How could Qin Yuqiao allow Zi Yi to take a stroll alone? She immediately revealed a smile and said, “How could I possibly not want to tag along with you? I just thought that the university is too big and you might complain of being tired later.”

“I won’t.”

Since Zi Yi had said so, Qin Yuqiao could only follow along.

The two of them walked out of the Academy of Fine Arts and walked towards the main road.

On the way, there weren’t that many people around. But whenever they saw Zi Yi, they would reveal a stunned expression.

Following that, they would softly discuss which school she was from.

After a while, Qin Yuqiao could not help but laugh as she said, “If you were to study here, you would definitely be the campus belle.”

Whereas deep down, she thought to herself, *“Unfortunately, you will never get a chance to study here.”*

Zi Yi could not even be bothered to spare her a glance. Both of them walked for some time and Qin Yuqiao finally asked in a casual tone, “Yiyi, you’ve won the championships in the racing competition. Have you ever thought of taking up an endorsement?”

“I don’t want to.”

“Why not? You would definitely earn a lot of money if you were to take up endorsements.”

“I am not short of money.”

Just as Qin Yuqiao wanted to persuade her, she heard panting breaths beside her. “My boyfriend said that the robot programming of a robot at the high-tech laboratory building has an error and it ran out and injured people.”

“Gosh, then isn’t it dangerous for the people outside?”

“That’s right. We should hurry and head to the classroom lest we encounter it.”
