

## Multi skilled 145

### Chapter 145: Lu Jingye, What a Coincidence

Looking at them fleeing, Zi Yi did not say anything when Qin Yuqiao spoke in a skeptical tone.

“Those two girls are making a fuss. We’re still so far away from the high-tech building and even if there is a robot running around and injuring people, it is impossible for it to come here. Besides... if something really happened, the robot would have been captured before it managed to run too far.”

Zi Yi tilted her head and looked at her. She did not miss that sharp glint in her eyes.

She suddenly became interested to know what ulterior motives she had.

“You’re right.”

Qin Yuqiao immediately smiled and asked, “Which school would you like to visit first?”

“Erm...” Zi Yi pretended to think for a while. “Let’s head to the high-tech building they were talking about. We can check out the robot too.”

“This... what if there is really a robot that ran out?”

“Weren’t you saying that it would be captured quickly? Could it be that the school can’t even control a robot?”

Zi Yi’s words aligned with Qin Yuqiao’s intention. Obviously, she would not say anything else and they headed towards the building.

When they were in the vicinity, the road was empty.

Qin Yuqiao curiously said, “Why isn’t there anyone here?”

Zi Yi turned, softly smiled, and said, “Perhaps all of them went to check out the commotion.”

Having said that, she increased her pace as she walked forward.

Qin Yuqiao hastily followed her. After they walked along another stretch of road, there was a sudden scream from a nearby road. “Quick, hide! The robot is coming out!”

Zi Yi stopped.

Qin Yuqiao looked around and asked, “Who’s talking?”

The moment she finished asking that question, she saw a rampaging robot running over from another road. Behind it were dozens of male students chasing it.

When they saw two individuals standing in the middle of the road, they shouted, “Students, move away quickly!”

Zi Yi noticed Qin Yuqiao grabbing onto her arm and she was about to fling her hand away.

Just then, Qin Yuqiao said, “Yiyi, don’t be afraid. I will protect you.”

Zi Yi immediately changed her mind and responded with a hum.

Since she wanted to protect her, go ahead then.

The robot running over was simply a lump of iron in Zi Yi's point of view. It could not even be considered a semi-finished product. She had identified the problem in a single glance.

It was true that the program had been changed. Moreover, it was changed skillfully. Even though it appeared as if one part had been changed, other parts had also been altered. Those students chasing the robot obviously had no way to deal with it.

Qin Yuqiao appeared to be greatly frightened on the surface, but she was confident deep down. In a while, she would block the robot for Zi Yi, get slightly pushed away, and pretend to be seriously injured. All to make Zi Yi feel moved.

Seeing the robot approaching the two girls, the other group of students were so anxious that they yelled with all their might.

"Students, quick! Dodge!"

The two individuals standing in the middle of the road did not move.

Bam!

"Ahh..."

When Qin Yuqiao was sent flying, Zi Yi quickly stepped up and hit a few spots on the robot before retreating.

However, a broad and powerful hand grabbed her wrist

Zi Yi realized that she nearly fell down the steps behind her.

At the same time, a large group of people came over. There were both young and old people. The young ones were clearly students, whereas the old ones were teachers and professors.

They quickly got the robot under control. Many people surrounded Qin Yuqiao to check on how she was doing.

Only then did Zi Yi check out the person who pulled her. With a curve of her lips, she said, "Lu Jingye, what a coincidence."
