Chapter 157: Didn't You Say You Would Wait Three Months?

Zi Yi intended to transform the bar and the racing club to be fully automated by an AI (Artificial Intelligence) service system.

After dinner, she headed for the bedroom and researched more about the best enterprises in the high-tech industry on her laptop.

Only then, did she realize that the Lu Group also dealt within the high-tech industry.

“Lu Group covers a wide range of fields.” Zi Yi recalled Lu Jingye’s meddling and unconsciously smiled. “With so many tasks on hand, it still can’t stop you from being a busybody. Could it be that you’ve fallen in love with me at first sight?”

Thinking of this, she subconsciously glanced at her phone. She originally intended to send him a message. The moment her hands reached out, she gave up on that thought.

“Forget it. You’ll start meddling if I contact you.”

She then continued typing on her keyboard at a fast speed.

Strings of codes were generated and Zi Yi easily broke into the core technology of these big enterprises. She took a look around and compared them against each other before she placed an order.

After everything was completed, the billions in her bank account were gone.

“Seems like it is time to earn money again.”

She entered the hacking platform and checked out the recent large orders. She randomly selected two and spent some time on them before she continued to place orders once she received the money.

After she purchased all the necessary parts and materials, Zi Yi went to the worldwide underground black market to take a look.

She was surprised from the first glance. “Eh? The second most in demand products are medicinal ingredients?”

“Who has so much money to have offered such a large amount of money for these ingredients? Moreover, these are all to treat brain dead patients.”

Zi Yi thought for a moment and did not track the person behind the request. After all, she was not very interested in such information.

She merely lamented. “With the current medical technology, it is impossible to cure brain death. These medicinal ingredients can only be wasted.”

Following which, she logged out of the black market platform.

Early the next morning, Zi Yi returned to her villa.

She sent half of the robots to the racing club. Those items she ordered would also be delivered there when the time comes.

She headed downstairs to check up on the progress of the basement renovation. Just as she was about to return to Lu Jingye's residence, her phone rang.

Unexpectedly, it was He Fei.

He sounded in a hurry over the phone. "Yiyi, are you alright?"

Zi Yi was puzzled by his question. "What could possibly have happened to me?"

He Fei breathed a sigh of relief. "I heard that you caused Ah Ming to be hospitalized. He's a treasure in the Ouyang family and they will not let you off easily. You had better be careful."

Even though Zi Yi did not suffer in the slightest, she still thanked him. "Thanks, I will pay attention."

After that, she prepared to hang up the call. "If there's nothing else, I'll be hanging up."

"Uhm, wait a minute." He Fei remained silent for some time before he suddenly asked, "Yiyi, I heard that you have been rather close with Second Brother these days. What have you done to him?"

Zi Yi's lips curled up. "I intend to make him my boyfriend."

"What?" He Fei's voice suddenly rose. "Didn't you say you would wait three months for me!" That tone of his seemed to be saying that Zi Yi was a cheater.

Zi Yi was baffled. "When did I say that?"

She clearly said that he would not win against her no matter how long he trained.

He Fei panted out of anxiety. "No way. I came to Second Brother's place to train in martial arts to defeat you. Yet, you went to flirt with him! I can't accept this!"

After he said his piece, he hung up the phone.

Zi Yi glanced at the disconnected call and put away her phone with an inexplicable expression.
