Chapter 195: Eat It Together

Several people exclaimed in surprise.

“Professor Dou and his team had already started developing this chip since March last year!”

After the recording ended, snowflakes suddenly appeared on the big screen. Immediately after, the recording of a conversation between the senior executives of Y Group and Zhang Zhirui was played out. In addition, in the bank account of Zhang Zhirui’s daughter, who resided in F Country, the transaction of transferred tens of millions was displayed. The money has been transferred through someone else that the senior executives had found.

Unexpectedly, there were even phone records.

The truth was fully revealed piece by piece, like peeling an onion.

Everyone was stunned.

Even Professor Dou asked Lu Jingye secretly. “Little Lu, did you get someone to do this?”

Lu Jingye was looking at the screen. Even though his expression appeared as per normal, he had many doubts in his heart.

He could confirm that the employees in his companies did not have such capabilities.

So, who was the one helping the Professor and his team?

Somehow, Lu Jingye had the urge to locate Zi Yi.

However, when he scanned through the crowd quietly, he discovered that she was nowhere to be seen.

Could it have been done by that young lady?

Lu Jingye said, “I can’t confirm for now.”

Shortly after, he reminded Professor Dou. “No matter who it is, since the facts are all revealed, you should unleash your anger at being falsely accused this whole time.”

Professor Dou remained silent for several seconds and nodded. He then turned to the Y Group senior executives on the screen.

...

The following matters were beautifully resolved.

When Professor Dou started to retaliate against Y Group, Zi Yi glanced at the reporter who wanted to sneak away and directly revealed all his misdeeds to the public.

“Since you like to exert cyber violence on others, then I’ll let you have a taste yourself.”

After she was done with everything, she put away her laptop, glanced at the time, and walked towards the door.

However, when she had just arrived in the underground parking lot, there was a wave of steady and powerful footsteps behind her.

She subconsciously turned around and smiled when she saw who the other party was.

At the same time, she stopped and waited for him.

Lu Jingye walked over to her, looked at the young lady wearing a hat, and asked, "Were you the one who helped Professor Dou and his team?"

Zi Yi smiled but did not answer. Instead, she asked, "Aren't you afraid others might be looking for you?"

"My secretary is there in my place."

Zi Yi took off her hat and fiddled with it in her hands. "As the President of a large corporation, you're chasing a beautiful girl right now. If the paparazzi photographs this scene, then your image would be ruined.

Lu Jingye pursed his lips and stared at her.

Zi Yi liked his serious appearance. She giggled and headed for her car. "Lu Jingye, I won't answer the question you asked. You can take a guess."

Lu Jingye looked at her departing back. Since the young lady has said so, she was indirectly admitting to it.

In that case, what else was she capable of?

"Yiyi," He suddenly called out.

Zi Yi stopped and turned around to look at him.

Unexpectedly, Lu Jingye took out some sweets from his suit pocket and passed them to her. "Wedding candies distributed by a director of the company. I heard it's delicious."

When the director was distributing the candies, he subconsciously thought that she would like it and so, kept some in his pocket.

Zi Yi stared at him fervently for a little while, before she took the sweets. First, she unwrapped the wrapper and ate one.

Indeed, it was delicious.

She then narrowed her eyes and smiled at him. "It's sweet."

After which, she unwrapped another one and fed it to his mouth. "Since it's wedding candies, let's eat it together."

Lu Jingye subconsciously pursed his lips and stared at her.

Zi Yi did not take back her hand and wore a determined expression.
