Chapter 199: Don't You Think This is a Scam She Set Up?

"Use her ID number and log in to the Independent Enrollment website of Metropolis University and check if she has been admitted!"

Li Peirong suddenly raised her voice. "What did you say?"

Zi Xu suppressed his excitement and said eagerly, "Forget it, immediately recite her ID number and I will check instead."

Boom!

Li Peirong felt a thundering explosion in her brain and her ears buzzed. Her expression instantly turned ashen, while her hand that was holding on to the phone trembled. The phone subsequently dropped .

Zi Xu frowned in displeasure when he heard the sounds on the opposite end.

He stood up and walked out of the office.

He then informed his secretary. "Cancel my whole schedule for the day."

"President Zi..."

Before the secretary could say anything, Zi Xu had disappeared into the elevator.

Zi Xu returned to the villa. Before he even entered, he eagerly shouted, "Peirong, take out the household register."

Ever since answering the call, Li Peirong had been standing there without moving and had only recovered her senses at hearing Zi Xu's voice.

She quickly readjusted her facial expression when Zi Xu walked in. "Ah Xu, is what you said real? Yiyi really participated in the Metropolis University's Independent Enrollment examination and obtained first place?"

Zi Xu controlled his internal joy and said, "The teacher from the Admission Office called me personally. How could it possibly be fake?"

"But..." Li Peirong's internal thoughts were dark and twisted.

She was well aware of that sl*t's capabilities, so how could she get admitted into Metropolis University!?

They must have made a mistake!

Zi Xu simply headed upstairs when he saw that Li Peirong remained unmoved.

Li Peirong then hastily followed him from behind.

When they arrived at the second floor, Zi Xuan was standing in the corridor while her expression was mocking.

When Zi Xu headed upstairs, she called out, "Dad."

"I checked it. The Metropolis University has a high threshold for its Independent Enrollment and with Zi Yi's capabilities in her studies, she is not even qualified to take the exam at all."

Zi Xu suddenly stopped walking when he heard her. His excitement finally slightly subsided. He turned around and faced his second daughter.

Zi Xuan continued speaking, "Don't you know her capabilities? She's merely an idiot, so how could she be admitted to Metropolis University!"

When Zi Xuan heard that Zi Yi was admitted into Metropolis University, she felt that it was the biggest joke ever.

Zi Yi was an idiot, how could she ever be admitted?

She specially went upstairs to check and discovered the high threshold of the Independent Enrollment Examination.

Thinking of this, she suddenly sneered. "Don't you think this is a scam she set up? First, she got you all excited so that you would publicize this everywhere. But in the end, this was not the case at all. In the end, you would end up losing all your dignity."

After Zi Xuan said her piece, she headed for her room.

Li Peirong was elated deep down inside. She looked at Zi Xu's livid expression and said, "Ah Xu, what Xuanxuan said made sense. We all know how capable Yiyi is. She's not fit for studying."

Zi Xu was so angry his face turned purplish.

"How dare she deceive me with this! Does she honestly think I am helpless against her?"

Zi Xu gnashed his teeth and said to Li Peirong, "Increase the scale of tomorrow's dinner celebration. I will announce something to everyone."

He was going to hand all his assets to Xuanxuan, and let that unfilial child of his not get a single cent!

Li Peirong guessed his intentions and was delighted. "Okay, I'll make preparations at once."
