

## Multi skilled 311

### Chapter 311: Someone Took Mrs. Lu's Phone to Send a Message to Zi Yi

The skills Zi Yi displayed had thoroughly conquered all the Ph.D. students.

After Professor Dou finally calmed down, he said, "As punishment, all of you will work overtime and make a new robot."

"Huhh~"

A few male students started whining and Professor Dou ignored them as he said to Zi Yi, "Little Zi, let's head for dinner."

Liu Kai hastily asked, "Professor Dou, what about us? Why don't we tag along? The meal is on me."

The other students were busy nodding.

Professor Dou gave them a stern gaze and said, "You still want to eat with us? Go and eat in the 4th canteen. You are not allowed to leave before you produce the robot I that I asked you for."

"Huhh~"

Dou Xiaoyong ignored their whining and left with Zi Yi.

A few male students' voices sounded right after.

"Junior sister, what are you majoring in? We'll come to find you to play when the semester starts?"

"Junior sister, you're welcome to come and guide us anytime you fancy."

"Junior sister, when are you free? This senior will treat you to a meal."

...

Zi Yi and Dou Xiaoyong soon walked very far away and those voices were trapped inside the room.

Only then, did Dou Xiaoyong praise Zi Yi. "You've done well."

Zi Yi tilted her head and looked at him.

She suddenly understood that he deliberately left the room for an hour. The corner of her lips curled up and she asked, "Second Uncle, have you been monitoring the situation through the surveillance camera?"

"That's right. This group of monkeys' hearts are loftier than the skies and think that they are great. Therefore, I got you to teach them a lesson to know who and what is actually considered a mechanical genius."

He could not resist the curving of his lips when he said that.

The both of them walked down the stairs as they conversed.

When they crossed the lobby on the first floor, Zi Yi was surprised to see so many people standing around.

However, when they saw her coming downstairs, they were all secretly photographing her with their phones.

Dou Xiaoyong noticed it at once. He used his stern gaze and swept across the crowd and everyone hid their phones behind in guilt.

When the both of them walked out of the building, the whole lobby had exploded.

“Did you guys get a clear shot? My hand trembled out of nervousness earlier and did not manage to get a good shot.”

“Oh no... I forgot to press the shutter!”

“Hehe, I got a clear picture.”

“Beautiful, she’s too beautiful. Our School of Mechanical Engineering can finally stand out proudly! Hahaha...”

“Quick, upload it to the forum and let other students from the other seven schools get envious of us.”

Soon, the school forum exploded once again.

“F\*ck! What a beautiful female student!”

“I wonder if she has a boyfriend?”

“Eh~? Why does she seem so familiar?”

“This female student went to the School of Chinese Language today and she was personally brought over by Director Huang.”

“So... that brother from the School of Mechanical Engineering. Are you sure this junior sister belongs to your school?”

...

No matter how noisy the forum was, the freshmen of M.Uni have yet to join and so, they did not know of this discussion.

What the freshmen were most concerned about was:

“Which school did the top scorer enroll in?”

“I wonder if the schedule of the first semester would be tightly packed?”

“Where will the military training be held?”

“Can I get the scholarship?”

...

Dou Xiaoyong brought Zi Yi to a restaurant outside the school for dinner.

During the meal, they had discussed stuff on producing robots.

The more they conversed, the more Dou Xiaoyong was shocked at Zi Yi's capabilities.

In the end, he simply took out his notebook and pen and started to take notes.

It was already 9 p.m when they finally finished the meal.

Dou Xiaoyong asked, "Where do you live?"

She told him of her address and Dou Xiaoyong nodded. "Let's go, I'll send you home."

They did not pay much attention to their niece in the past and he felt somewhat guilty and wanted to check out her living situation.

Zi Yi looked at Dou Xiaoyong in slight surprise. She opened her mouth but did not say anything.

When Dou Xiaoyong sent her home, he was surprised. "This is your house?"

"Yep."

Dou Xiaoyong suddenly recalled what Dou Zerui and Dou Xiangling told him in the past about Zi Yi competing in a racing competition.

Dou Xiaoyong nodded. "It's pretty good. Relying on your skills to purchase such a place is part of your capabilities."

Zi Yi smiled. After she alighted, she invited him. "Second Uncle, do you want to take a look inside?"

Dou Xiaoyong still had to make a trip to the hospital tonight and so, he waved his hand. "Maybe not. I'll come over again when I have time.

Before your military training starts, take time out to visit your grandfather."

Zi Yi nodded and said, "Okay."

Dou Xiaoyong drove away shortly after.

Zi Yi looked on at the car driving further away. Just as she was about to turn around and head inside, her phone suddenly rang.

She took a glance and saw Mrs. Lu sending her a message.

The message wrote: Little Zi, I'm currently at the temple and I got you a protective talisman today. There will be a temple fair in the following days and I won't be able to make it back. Why don't you come and take it tomorrow?"

Mrs. Lu did indeed tell Zi Yi that she was going to ask for a protective talisman for her and so, she did not suspect anything as she replied: I'll come over tomorrow afternoon.

On the other side...

Inside the temple.

Mrs. Lu looked through the room and asked in confusion. "Eh? Where is my phone?"

She could not find it anywhere in the room. Mrs. Lu thought back to where she had been earlier and walked out of the room as she planned to look for it.

Just then, the First and Third Madam just happen to walk over.

The Third Madam asked, "What's wrong? You seem to be in a hurry."

"I misplaced my phone and I was about to look for it."

The Third Madam enthusiastically said, "I'll help you."

The First Madam added, "Let's search for it together. You had only gone to a few places earlier and it should be easy to find."

Thus, the three of them headed outside.

They had gone to the meditation room to listen to monks chanting sutras earlier and so, they made their way to the meditation room.

The monks were still in the room and the three of them went over to ask.

None of the monks had seen her phone.

Mrs. Lu was a little anxious. "I clearly brought my phone along with me throughout so how did it get lost?"

"Calm down, perhaps you had accidentally left it somewhere else. Why don't we get the bodyguards to search?"

"I guess that's the only way."

Mrs. Lu called for the bodyguards and informed them of the places she had been to.

The efficiency rate of the bodyguards was high. Not long later, they had found her phone.

Mrs. Lu took the phone and asked, "Where was it found?"

The bodyguard mentioned the location to her.

Mrs. Lu slapped her forehead. "I see! I remember I went to wash my hands. I was worried about my phone falling into the sink and so, I took it out and placed it aside."

The Third Madam smiled and said, "It's good that you've found it."

The First Madam added. "It's getting late. Let's go and take a rest. We still have to wake up early tomorrow."

Thus, the three of them went to their rooms.

### **Chapter 312: Second Young Master Lu, Miss Zi Said This Soup Would Be More Effective if Consumed While it's Hot**

At the thought of Lu Jingye's busy schedule, Zi Yi headed to the kitchen to prepare soup for him the next morning.

The housekeeper stood beside her and looked pleased.

Miss Zi was so concerned about the Second Young Master's body. Is she preparing to give birth to a fair and chubby little baby when she marries him?

The housekeeper was considering whether he should enroll in lessons to take care of pregnant ladies.

Just then, Zi Yi said to him, "I have to make a trip to the temple in the afternoon. If I don't have time to deliver the soup to Ah Jing, please send it on my behalf."

The housekeeper hastily replied. "Sure, Miss Zi."

Zi Yi added two more Chinese herbal medicinal ingredients to the tonic soup. While stirring the soup, she said, "I cultivated some Blood Lotus with the one Ah Jing had brought back previously and it has germinated these few days. Get someone to make a snow-capped mountain at the rockery area and I will transplant it over."

The housekeeper rejoiced. "Miss Zi has actually cultivated the Blood Lotus!"

Following that, he asked in a vexed voice. "How is a snow mountain possible here?"

The temperature in the capital was too warm and even if they installed cooling equipment on the rockery, it could not resist the hot sun.

Zi Yi also felt that this was indeed making things difficult for the housekeeper and so, she said, "Then prepare some materials for me. I'll use them when I come back."

"I understand."

When Zi Yi finished preparing the soup, it was already 1 p.m.

After lunch, she gave Lu Jingye a call.

Lu Jingye answered after several seconds and the sounds of typing on a keyboard could be heard first, before Lu Jingye's gentle voice sounded. "Yiyi."

The corner of her lips unconsciously curled up. "Ah Jing, I prepared some tonic soup for you and I was planning to deliver it before lunch. But I didn't expect to finish preparing it only now. I'll get the housekeeper to deliver it to your office. You have to drink it."

Lu Jingye remained silent for a few seconds and he asked in a strange tone, "Yiyi, what did you add in the tonic soup today?"

Zi Yi briefly mentioned the medicinal ingredients she had used.

Lu Jingye was silent for another few seconds before he changed the topic. "Where are you going in the afternoon?"

"Auntie said she had asked for a protective talisman on my behalf and asked me to take it from her."

Lu Jingye's voice contained traces of a smile upon hearing that. "If it's getting late when you return, give me a call. I'll come over and fetch you."

“Okay.”

Zi Yi grabbed her belongings and left after she ended the call.

Not long after Zi Yi left, the housekeeper delivered the tonic soup.

“Second Young Master, Miss Zi said that this soup would be more effective if consumed while it’s hot.

Lu Jingye looked at the thermal flask and said with a calm expression, “Ok, put it there.”

The housekeeper left after he delivered the soup.

Lu Jingye sat there as he stared at the thermal flask and thought of what would happen in the afternoon if he drank the tonic soup with the medicinal ingredients the young lady had added inside.

The man who devised strategies in the business world was somehow feeling vexed over this right now.

Just then, his phone rang.

The other party seemed to have said something and Lu Jingye’s eyes narrowed as he said, “I’ll be there at once.”

He hung up the phone call and headed outside the office.

Shao Hua just happened to walk in with a document in hand when Lu Jingye came out.

Lu Jingye said, “Leave the documents for tomorrow. If someone asks where I am, hoodwink them.”

Shao Hua did not ask the reason and replied, “I understand.”

Unexpectedly, Lu Jingye added another sentence. “Look after the thermal flask in my office. I will drink it when I return.”

“...I understand.”

Lu Jingye headed to the rooftop to board the helicopter.

...

Zi Yi’s racing car drove on the road towards the mountains.

A while later, she found the situation unusual. “Since there’s a temple fair today, why are there no cars on the road?”

Speaking of here, she subconsciously slowed down and turned on the radar.

Soon, she discovered an ambush a few kilometers ahead.

A sharp glint flashed through her eyes and she parked her car by the roadside as she took out her phone and hacked into Mrs. Lu’s phone. She quickly rummaged through the phone records and sure enough, the record of her calling yesterday had been deleted.

She had already guessed what was going on. She did not call Mrs. Lu and alighted with a backpack. At the same time, she switched on the auto navigation of her car, and the car continued to drive forward at fast speeds.

Zi Yi scanned her surroundings and took out a circular ball and threw it in the skies. It transformed into a detector. Only then, did she walk away from the road and hide behind a large tree. She opened her backpack, took out several tools inside, and quickly assembled it together.

After which, she took out her tablet and connected it to her racing car.

The car had arrived at the ambush area very soon. She saw the ambushers shooting the tires with a gun.

However, they did not reveal themselves but instead, retreated.

Zi Yi walked for a while and found it strange. Just then, she heard the sound of a car driving past.

“What a coincidence.”

She held the tablet and quickly scanned through the car.

There were three people sitting inside.

A driver, a bodyguard, and Lu Zhiheng.

At the sight of this, Zi Yi snorted.

The car had arrived beside her racing car very soon and it stopped there as per her expectation.

Lu Zhiheng first got the bodyguard to alight and check it out.

The bodyguard walked over and did not find anyone. He immediately turned around and informed Lu Zhiheng.

Zi Yi saw the change in his expression. He seemed to have pondered for a few seconds and a glint flashed through his eyes as he immediately took out his phone and made a call.

“Second Brother, I saw your girlfriend’s car parked at the side of Panshan Road towards the temple. My bodyguard went to check and found it empty. The tires were busted by bullets.”

Lu Jingye said something and the corner of Lu Zhiheng’s lips curled up. “Alright, I’ll get the bodyguard to search for her too.”

He hung up the phone immediately after.

Zi Yi switched off the monitoring and gave Lu Jingye a call.

The call was connected very soon and his dimmed voice sounded. “Yiyi, where are you right now?”

Zi Yi was a little surprised when she heard the noise in his surroundings. “You’re on a helicopter?”

In fact, the helicopter was soundproof, but Zi Yi’s ears were very sensitive and had identified the sound at once.

Lu Jingye responded and said, “I had something to attend to on my side and I received a call from my eldest cousin. I was just planning to make my way over.”

“Go ahead and attend to your matters,” Zi Yi said. “I am currently standing behind a large tree 3 kilometers from the entrance of the mountains. I sent Little Loli a message earlier to get her to pick me up.”

“Something happened to my younger brother and I have to make a trip there right now. Protect yourself. Go ahead and take care of them if you want. I’ll take care of it.”

Zi Yi’s lips curved up when she heard his words and happily responded. “Okay.”

### **Chapter 313: It’s Indeed Very Coincidental**

While she was waiting for Little Loli, several cars drove past one after another.

Their speed was rather slow and they were obviously searching for someone.

As for who they were searching for, there was not even a need for her to think about it.

She climbed on a tree branch, sat down, and swiped her tablet as she looked at those cars driving by.

She received an unknown caller and it contained a tracking program.

Zi Yi retaliated and traced to the source of the caller and conveniently inserted a small virus.

Just then, the small tracking device she assembled that was tracking the ambushers had stopped at a location.

Zi Yi checked out the location and snorted.

Little Loli only arrived half an hour later.

“Master.”

Zi Yi saw Little Loli who flew towards her and asked, “Where’s the car I got you to drive over?”

Little Loli giggled and said, “There are tons of people keeping guard below. I parked the car in a hidden place.”

Zi Yinodded and jumped down from the tree branch.

Little Loli followed suit and descended to the ground. She asked in excitement, “Master, what are we going to do now?”

Zi Yi showed her the tablet. “Go and take care of these people... Let them lose an arm, or even a leg will do.”

“Alright~” Little Loli’s mechanical finger tapped on the tablet and after she received the transmission of the exact coordinates, her body leaped forth and flew far away.

Zi Yi put the tablet away in her bag and slowly made her way back on the road.

As expected, a car drove past after she merely walked for a short period.

The car did not stop, but Lu Zhiheng’s car had arrived shortly afterwards.

“Miss Zi, what a coincidence.”

Zi Yi coldly looked at Lu Zhiheng and said, "Indeed, what a coincidence."

Zi Yi had the same cold expression the previous time he met her and so, he did not think much of it. Instead, he got the driver to stop the car and he smiled while asking. "Miss Zi, why are you here? Also... why didn't you drive?"

Zi Yi stopped and glanced at him. Instead of answering, she asked, "Didn't you see my car on the way up the hill? The tires burst."

Lu Zhiheng revealed an expression as if saying: Oh so that's your car. "I found the car somewhat familiar when I passed by earlier and didn't expect it was really yours. I even dispatched bodyguards to look for you. Why are you here?"

Zi Yi looked at his expression and said in a serious tone, "I saw rabbits in the mountain, so I stopped by to catch some."

Lu Zhiheng: "..."

He decided to change the topic and asked, "Miss Zi, are you planning to head to the temple? Why don't I send you there?"

"No need. Since my tires burst on the road, it proves that someone wishes to harm me. I have to find these people, else I'll be bringing danger to the temple."

Lu Zhiheng revealed a surprised look. "Someone wishes to harm you? Who could they possibly be?"

Then, it's definitely unsafe here. Why don't I send you home first? I'll send people to investigate after."

"No need. Ah Jing has already dispatched his men."

Lu Zhiheng did not continue to persuade her. Instead, he alighted from the car.

After he walked to Zi Yi's side, he said, "Then I'll accompany you and wait."

He acted as if he was a gentleman.

Zi Yi did not comment on his actions and took out her phone.

Lu Zhiheng motioned for the bodyguard after he stood there for some time. "Grab two bottles of water."

The bodyguard hastily went to fetch them.

"Miss Zi, the weather is warm. Drink some water to keep yourself hydrated."

"Thanks, but I'm not thirsty."

Zi Yi did not take the bottle.

Lu Zhiheng did not force her either. He passed one bottle to the bodyguard while twisting the bottle cap of another as he took several gulps.

After he finished drinking, he asked in a casual tone, "The matter I had discussed with Miss Zi previously, I wonder if Miss Zi has considered it?"

Zi Yi shifted her gaze from her phone towards him.

Lu Zhiheng had a slight smile on his face. "I've mentioned it before. I only want those two technologies from Miss Zi. If you agree, my mother will definitely try her best to persuade my grandfather."

"What if your grandfather still disagrees? Won't I suffer a great loss if I gave you the technology?"

Lu Zhiheng was stunned momentarily and started to paint a picture. "Miss Zi, you must believe me. My mother has been taking care of my grandfather and praising you before my grandfather is something within her means.

My grandfather values a person's character the most. As long as he has a good impression of you, it's only a matter of time whether he accepts you or not."

The corner of her lips curled up and she looked back at her phone without saying anything.

Zi Yi looked towards him and asked, "I remember I've answered this question before?"

Lu Zhiheng did not expect Zi Yi to remain unmoved and felt unhappy deep down. "Based on Miss Zi's background and reputation, it's impossible for you to enter the Lu Family. I've given you an opportunity and since you do not cherish it, then I can only feel regret for you.

Also, perhaps Miss Zi is still in the dark, but my grandfather has been asking my mother to introduce women to my Second Brother. My grandfather is basically in charge of all the marriages in our families."

Lu Zhiheng did not continue to speak after he said that, as if he meant it as a warning reminder to her.

However, Zi Yi narrowed her eyes and asked, "Your grandfather asked your mother to introduce women to Ah Jing?"

"That's right."

"Who has she selected?"

Lu Zhiheng looked at Zi Yi and smiled. "Quite a few. At that time as long as she brings them to grandfather to take a look, and grandfather finds them alright, they'll let them get in touch with Second Brother."

"Hmph!" Zi Yi released a snort and continued to ask, "Where's your mother right now?"

Lu Zhiheng was a little surprised. "Miss Zi, what do you intend to do?"

"Nothing much." She merely wanted to prevent his mother from bringing over those women.

At the thought of this, she lowered her head and continued to play around with her phone.

Lu Zhiheng suddenly felt that talking with Zi Yi was very tiring. A trace of ruthlessness flashed through his eyes and he thought, "*It seems like I have to give this woman a lesson.*"

Just then, thunder sounded from the skies and black clouds gathered very quickly.

Lu Zhiheng's phone rang at that moment.

Lu Zhiheng took out his phone and took a glance. His expression sank for a second and he turned to look at Zi Yi while he thought, *"This woman definitely does not have the capabilities to find those people."*

At the thought of this, he fell into a state of confusion.

Could it be that Second Brother's men are here?

Lu Zhiheng was prepared to leave. He put away his phone and said to Zi Yi, "Miss Zi, it's about to rain soon. I wonder if you intend to wait for Second Brother's men or would you like to take my car to the temple?"

"I'll wait for them to fetch me."

Lu Zhiheng did not bother to say anything else as he sat in the car and left.

The moment the car drove away, Little Loli came out from the woods.

### **Chapter 314: Attracting Thunder and Lightning**

"Master, I have already broken one hand of every person."

Zi Yi looked towards the winding road as she thought of how she could make it so that Lu Zhiheng and his mother had no time to plot against Ah Jing, before she returned from the military training.

Soon, thunder and lightning came as the rain intensified and the wind blew past strongly.

The skies had darkened in an instant.

A flash of an idea surfaced in her mind and the corner of her lips unconsciously curled up.

She took out a circular ball from her bag and passed it to Little Loli. "Take this ball and follow behind Lu Zhiheng's car. Don't stay too close to them. As long as you can get the lightning to brush past the car, you can return after their car flips over or crashes."

The material used to build Little Loli could guard against lightning and it was even capable of converting it into energy if struck. Therefore, Zi Yi was not worried about her in the slightest.

When Lu Zhiheng's car suffers from a natural disaster, he will be admitted to the hospital for several months. In that case, no one would be able to identify her as the culprit.

"Also, don't let them discover you."

Little Loli took the circular ball and guaranteed as she said, "Master, rest assured. I guarantee that I will not let them discover me."

"Okay, go and come back quickly."

Little Loli jumped forward and flew away.

A short while later, a shocking scene appeared. Countless loud and thunderous lightning bolts were all attracted to a certain area and the scene was similar to those of fantasy films of ancient times, where a cultivator undergoes a lightning tribulation.

Even those people from the temple, located at the top of the mountain, had witnessed the scene.

The Third Madam pointed in that direction and exclaimed. "If that hits someone, it wouldn't surprise me if the person instantly turns into ashes. It looks really scary."

Other than the Third Madam, the other visitors of the temple had also looked in that direction as they continuously pointed over there.

The First Madam did not look surprised as she said, "It's merely a wonder of nature. It's not the first time such wonders have appeared, what's there to be surprised about."

Mrs. Lu looked in that direction and thought that the plan of heading back home today had fallen through again.

The First Madam and Third Madam were the ones who invited her on this trip. Mrs. Lu agreed because of the fact that Zi Yi was heading for her military training soon. Therefore, she planned to ask for a protective talisman on her behalf, so that she could rest assured.

Just as the voices of discussion became louder, the abbot suddenly came out and clasped his hand together as he called out, "Amitabha Buddha." He then spoke to the two monks following behind him. "Go over there and take a look. Remember not to get too close."

The Third Madam hastily tried to dissuade him. "Abbot, it's so dangerous over there. It's better not to let them head over."

The abbot said to the Third Madam, "This monk has a feeling that someone is in a predicament over there."

Everyone started to discuss after hearing what the abbot said.

"Who would be coming to the temple at this time? The temple fair is almost over too."

"That's right. Moreover, it's very dangerous to head into the mountains in such weather. It's easiest to get into an accident when thunder and lightning strikes."

"If someone really gets struck with lightning, I wonder if they would be dead or alive."

The two monks hastily headed outside the temple.

Everyone was still curious about who the unlucky person was. Some of the madams had sent out their bodyguards to tag along.

Even the Third Madam said, "Let's get a bodyguard to go and have a look."

The First Madam said, "What's there to look at? This is heaven's will. It's impossible to go against it."

Mrs. Lu was a little worried for the person and said to the Third Madam, "I think taking a look is good too. Perhaps it's someone from a family who came here to pick up their family members."

...

A short while later, it began to rain again, extremely heavily, but the thunder and lightning did not gather in that area anymore.

Everyone continued to wait.

Another half an hour or so, the Third Madam's phone suddenly rang.

"Who's calling me at this time?"

When she took out her phone, she said in surprise, "It's the bodyguard that I sent over to check out the situation."

She immediately answered the call. When she heard what the bodyguard said, she cried out in alarm.

Following that, she anxiously said to the First Madam, "Sister-in-law, something happened to Zhiheng!"

The First Madam's heart clenched tightly and her head was in a buzz. Out of subconsciousness, she did not believe it to be true. "What are you saying? How is it possible that Zhiheng was the one struck by lightning!"

"Sister-in-law, are you alright?"

The First Madam only saw darkness and nearly lost consciousness. The next second, she screamed, "My dear son!"

Following that, she ran into the pouring rain without a care for her surroundings.

"Sister! Sister!"

Mrs. Lu and the Third Madam yelled, but the First Madam did not seem to have heard them.

The Third Madam grabbed onto Mrs. Lu's arm and asked anxiously, "What should we do now? Zhiheng was struck by lightning!"

Mrs. Lu was comparatively calmer. She hastily called for the bodyguards and gave them an order. "Quick, go over to the site and save Zhiheng!"

She then said to the Third Madam. "Let's go and pack all our belongings first."

"Oh... okay, yes."

The two of them hastily headed to their rooms.

The lightning did not directly strike Lu Zhiheng's car. However, the electrical force it released was considerably powerful and it had directly overturned his car into the shallow ditch beside the road.

When the car overturned, Lu Zhiheng's waist had absorbed the force as the car hit against a hard object and he broke his back.

The Lu Family's bodyguards rescued him whilst the First Madam wailed and whined and hastily sent him to the hospital.

As for what happened after, that was none of Zi Yi's concern.

She had left the site with Little Loli, while driving the racing car Little Loli had driven over.

The next day, the accident was all over the news.

Some people had joked about the incident. "I wonder how much evil the Lu Family has committed for them to be struck by so many bolts of lightning."

The three-day registration time was soon over.

Zi Yi did not appear again in M.Uni during those few days, but there were quite a number of posts related to her on the school's forum.

When the senior students finally found out what major she had enrolled in, everyone was surprised.

"The pretty girl has unexpectedly enrolled in Archaeology!!"

"For real? There are so many popular majors under the School of Chinese Language so why did she choose Archaeology?"

"Perhaps the admission score is lower."

"Do you know that pretty girl's admission score? She ranked first in the independent enrollment and obtained a score of 750. She did not even lose a single mark, so how could she possibly have to worry about not meeting the minimum scores?"

A stone had stirred up a thousand waves and the discussion about her on the school's forum had reached a boiling point.

When Hua Xiaoli, who heard of other people's discussion, knew about this, she specially went to inform Zi Xuan. Zi Xuan, who was originally reading a book, had furrowed her eyebrows in displeasure.

"It's only someone with the same name as her. I wonder why you insist on telling me about this."

Hua Xiaoli opened her mouth as she had the urge to refute her.

Zi Xuan did not bother to argue as she directly opened her tablet and brought up the college entrance examination results ranking.

"Look, even though her name is also Zi Yi, she was recommended by the Capital's No.8 High School. I have already specially checked this. It is a famous aristocratic school in the Capital and those who can enter are all from high-society. Do you think my sister has the capabilities to be recommended by such a high school to take the independent enrollment exam?"

### **Chapter 315: Being Rich is Indeed Different**

Hua Xiaoli simply could not understand why Zi Xuan did not believe that the person was Zi Yi.

It was similar to how Zi Xuan did not understand why Hua Xiaoli insisted on saying that an exemplary scholar was that idiotic sister of hers.

In order to convince Zi Xuan, she even said, "There's a photo of her on M.Uni's forum. We are unable to log in since we do not have our student ID yet. If we can log in, I will immediately show you the evidence."

Zi Xuan maintained her incredulous expression. "Then we'll talk after you have the photos."

Hua Xiaoli looked at Zi Xuan for several seconds and in the end, she could only say out of helplessness, "Sigh, alright then. I know you won't believe it unless you see her yourself. If I had not seen her personally that day, I would not believe it too. I hope you won't be too surprised when you see her."

Speaking of this, she suddenly lowered her voice and said, "I heard that... perhaps it's that triad boss who arranged that independent enrollment examination for her."

Zi Xuan's expression sank. "Where do you think M.Uni is? If that's the case, do you think it's safe for us to even study here?"

Hua Xiaoli did not expect to be told off by Zi Xuan and felt unhappy deep down. Her eyes kept checking out Zi Xuan's apartment and in the end, she said with an envious expression, "Being rich is indeed different. Zi Xuan, you must have spent quite the sum for this apartment?"

"It's alright I guess." At the thought of how many racing cars Zi Yi bought in a year, the money she spent, compared to her, was considered very little.

Hua Xiaoli was even more envious.

It would be great if she could live in such a high-class apartment.

Thinking of this, the way she looked at Zi Xuan had changed.

...

On the 27th, all the freshmen received the class they were allocated to and the arrangement of the military training.

The School of Chinese Language and School of Information Technology would be conducting their military training together.

On the 28th there was heavy rain.

The meeting before the students headed to the various sites was being held in the auditorium. Shortly after, all of them boarded the coaches and left.

They were accompanied by the Directors and Teachers from their respective schools.

In the coach for the School of Chinese Language, Director Huang and Director Qin sat beside Zi Yi. The group of students who were excited to have a chance to talk with Zi Yi, could only obediently stay in their respective seats.

Director Qin said to everyone, "We are headed to XX camp for our military training and the conditions there are considerably tougher. Moreover, behind the location is a primitive forest and it is also surrounded by mountains. Do not cause trouble when you arrive there. Especially keep in mind that you are not allowed to leave the marked out locations to wander around. Otherwise, no one can save you if you encounter poisonous snakes or animals."

The students' expressions looked bad after hearing what Direction Qin said.

They never expected for M.Uni's military training to be so terrifying.

Director Huang and Director Qin met gazes.

Director Huang then spoke up. "Don't worry, the training camp is very safe with guards in the surroundings. Your military training would not be too harsh. Having you here to participate in this military training is to let you know what kind of conditions the people who protect us live in."

The two directors took turns feeding chicken soup for the soul. In the end, everyone had a sense of pride for those individuals that protected the country.

It took nearly six hours of traveling before they arrived at the destination. It was not raining here, but the site was surrounded by fog.

The fog was rather light and it shrouded the mountains, revealing a beautiful scenery.

When they arrived, there were people there to welcome them.

The two directors talked to them, while the thousand plus students had been led inside.

"It's rather late today. Have a good rest today and the military training will start at 6 a.m tomorrow."

The male students were particularly excited as they looked at the buildings, but the majority of the female students revealed a sullen expression.

Director Qin deliberately pulled the officer aside and suggested. "You can try to take special care of Student Zi Yi."

Lu Changcheng was surprised to hear that and he revealed a stern expression. "Director Qin, this is a training camp and we treat all students equally."

"Officer Lu, I don't think you quite understand what I meant."

Director Qin whispered a few words in Lu Changcheng's ear.

Lu Changcheng was surprised. "Is she that good?"

"That's right." Director Qin pointed at the girl who stood within the crowd, not conversing with anyone. Even though she wore a simple T-shirt and jeans, she still gave off a feeling where she stood out from the crowd. "The first person that catches your eye is Zi Yi."

When Lu Changcheng saw the students gathering earlier, he had indeed seen Zi Yi at first glance. However, he did not know her name before.

Now that Director Qin had pointed her out, his first reaction was disbelief. "Director Qin, are you sure that she's the genius you spoke of?"

Director Qin revealed a smug smile and did not bother to explain much. "If you don't believe me, you can observe her yourself."

Lu Changcheng nodded.

In order to welcome the students, the training camp had specially set aside two dormitories for them.

Each building was for male students and female students respectively.

There were fewer female students in the School of Information Technology while the School of Chinese Language had fewer male students. Therefore, the ratio of male and female students when the schools were combined was very even.

However, when they walked into the dormitories, some female students directly complained out loud.

“Oh heavens, a single room has twelve beds? Not to mention, it’s bunk beds? How are we supposed to sleep?”

Zi Yi took a glance at the room and headed to one of the beds with her backpack.

She threw it on the bed and asked the person who led them here, “Where’s the canteen?”

A group of students looked at Zi Yi with bright eyes and they were surprised.

When they had come in together, all of them felt that the first person who would complain should be her.

However, why was the situation so different from what they had expected?

The staff nodded deep down and said to everyone, “Choose your beds first, I’ll bring you down to the canteen shortly.”

No matter how much they had grumbled deep down, they unexpectedly had the urge to compete with Zi Yi.

Since she could endure it, why can’t they?

When everyone had chosen their beds, they headed for the canteen.

The staff informed them of the rules and regulations as they walked. “The canteen here serves food at 7 a.m, 12 p.m and 7 p.m. You’d better eat as much as you can, as the meals here are only served during these times and there’s also a limited amount. If you don’t eat enough, you’ll be the one to suffer from hunger.

Also, after you’re done with your meal, the admin soldiers will come and take away all your electronic gadgets and snacks. They are not allowed here.”

Several female students were on the verge of crying upon hearing that.

Especially, when they arrived at the canteen, everyone discovered that the conditions here were really tough.

The canteen was very big and the male students were already there. They were currently listening to the explanation of the rules and regulations in the camp.

After dinner, all of their electronic gadgets and snacks were confiscated when they returned to the dormitory.

A group of girls who were used to being pampered at home could not stand it and started to cry.

“How am I supposed to sleep in such a bed?”

“How can I sleep with so many people in the room?!”

...

“Hello.”

Zi Yi looked towards the female student located opposite her bed.

The female student immediately revealed a bright smile.

She had dark skin and her eyes were very bright. Her facial features were, in fact, very pretty. However, due to her darker skin tone, many people overlooked her appearance because of their own bias, but she actually belonged to the type that was easy on the eye.

She asked in a soft voice, “Are you Zi Yi who scored full marks in the independent enrollment examinations?”

### **Chapter 316: I Usually Take Care of Someone Like You Physically**

Zi Yi responded with a yes.

The female student was excited and hastily introduced herself. “My name is Li Xia and I come from Dongbei H Province. I had also applied for the archaeology major and they only recruited 30 students this year. We are the only two girls and we’ll be classmates in the future.”

She continued to speak with great enthusiasm. “I believe you are also uncomfortable in such an environment. I’ll take care of the menial tasks like fetching water for you in the future.”

Zi Yi was a little surprised and asked, “How did you know I am not used to such an environment?”

There would be times where her spaceship ran out of fuel in space and she would have to land on a random planet.

She could live on a planet with harsh conditions for many days just to recharge the spaceship, so how could she possibly not get used to this training camp?”

Unexpectedly, Li Xia scratched her head and said with a smile, “Your skin is very fair and you also have a beautiful appearance.”

When she mentioned the word beautiful, she emphasized on it. “You’re the most beautiful girl I’ve ever seen and you’re much prettier than those celebrities. I think someone like you should be staying in a princess room instead.”

Zi Yi was amused by her words, but she still spoke up. “Thanks.”

Li Xia’s eyes widened at the sight of Zi Yi and she even blushed. “You look better when you smile.”

Just then, an unhappy voice sounded from below Li Xia’s bed. “You at the top, can you lower your voice? You are disturbing me from my sleep.”

Li Xia furrowed her brows and stretched out her head as she said unhappily, “Classmate, everyone in the whole dormitory is talking. My voice is already very soft.”

The female student was very unreasonable. "You are closest to me and all I can hear is your voice."

Li Xia did not expect to be sleeping above such a person. She took a deep breath and decided to ignore the rude student.

Wang Ying, who had taken the bed below Li Xia sneered in her heart. So what if you came first? In the end, you still chose the most unpopular major.

Li Xia was about to talk to Zi Yi again when Zi Yi did a hush movement.

Immediately after, they heard a loud female voice from the door. "Everyone, keep quiet. Anyone who talks will be sent downstairs to run a few rounds."

Those who were speaking were immediately frightened as they shut their mouths.

Following that, no one else dared to speak.

...

In the Capital, within the study room of a mansion.

The subordinate spoke to the middle-aged man who was currently browsing through the accounting books. "Third Master, Zi Yi has gone to XX training camp."

The middle-aged man did not even bother to lift his head and spoke in a cold voice. "Find a way to resolve her at that place."

"Yes."

The subordinate left immediately after.

A while later, the door was pushed open and a beautiful young woman, who had a particularly gentle and demure appearance, came in. "Father."

Only then, did the middle-aged man look up.

"I wish to make a trip to XX training camp."

The middle-aged man frowned. "Why?"

"It was because of me which resulted in my younger sister being blamed by everyone. I want to meet with that woman."

"You..."

"Father, I studied medicine." The woman had a plan in mind. "Instead of getting other people to resolve her, I think my methods would be better."

The middle-aged man fell into deep thought. After a period of time, he said, "That woman can't be underestimated."

"I know, I will outwit her. And besides... in the following month, there will be many who set their eyes on that bar and racing club of hers. Instead of robbing her and leaving behind a weakness, it's better to let her sign the transfer agreement willingly."

The middle-aged man smiled with satisfaction. "It's a good idea, but you have to be careful when you arrive there."

"Father, you can rest assured that I will be careful."

...

Dou Family.

Dou Jingning had summoned all his brothers to the study room.

He first asked the three of them, "Did Little Zi tell any of you to help her watch her bar and racing club before she left?"

The three of them shook their heads.

Dou Jingning sighed. "This lass is still too young. The bar under her has now become a pie in everyone's eyes. If someone wants to forcefully occupy it while she's away, there's no way she could get it back after she returns."

On the contrary, Dou Xiaoyong was confident in Zi Yi. "The robots in her bar are personally designed by her and without her permission, no one can take them away. However, I'm worried that someone might cause trouble in her bar during this period of time."

The four of them furrowed their brows at the same time.

A while later, Dou Zhiyuan spoke up. "We are all staying in the capital during this period of time. Why don't we take turns to keep watch? I'd like to see if anyone dares to have designs on the bar and racing club right in front of us."

Dou Jingtong said, "We don't know where the documents for the bar and club are kept. If we knew, we could make some preparations in advance. Even if someone has designs, we can punish them by law."

Dou Zhiyuan said, "We can ask Zerui about this. He's rather close with Little Zi and perhaps she had informed him of this."

Having said that, he gave Zerui a call.

Dou Zerui had rushed back very soon. "Cousin's bar and the racing club have administrative robots. They should know about it."

Dou Jingning stood up and said, "Then let's check out the bar first."

The four Dou Family's masters headed to Zi Yi's bar in a high-profile manner and this news was soon spread throughout the whole circle in the capital.

...

Training camp.

Early in the morning, when the students were still in their dreamland, an ear-piercing whistle sounded.

Li Xia, who was sleeping in the bed next to Zi Yi, had immediately sat up straight. Just as she planned to wake Zi Yi up, she discovered that she was already awake. She then smiled and said, "Let's hurry up. I heard that this place is very strict."

Zi Yi nodded and the both of them quickly got dressed.

Just then, loud knocking sounds could be heard from the door and a shout followed soon after. "Everyone must get up and gather in the field downstairs in ten minutes. The classes that did not gather by then would be punished with ten laps around the field."

Those female students who were reluctant to get up at first had immediately climbed out of bed upon hearing that.

Li Xia and Zi Yi had already gotten out of bed at that time and they were about to head to the public sink outside to wash up. At that moment, an unhappy voice came from behind them. "Some people are really selfish, so selfish that they don't even bother to call everyone else when they wake up."

Li Xia was about to argue with her when Zi Yi pressed her shoulders and said, "If you argue with her, the whole dormitory will suffer later. Don't bark back just because a dog barks."

"Who are you saying is a dog!" Wang Ying was infuriated and wanted to step forward and push Zi Yi.

However, just as she stood up, Zi Yi went over and lifted her up by her collar with one hand.

"Ah— what are you doing?" Wang Ying's expression turned pale in an instant.

Everyone was stunned by her strength.

Why did such a beautiful female student have such great strength?

This wasn't scientific!

Zi Yi simply threw her on the bed and said coldly, "I usually take care of someone like you using physical means. Therefore, you better not give me the chance to do so."

Having said that, she grabbed her toiletries and said to Li Xia, "Let's go, or we'll be late."

### **Chapter 317: Could She Have Kicked that Kettle on Purpose?**

Everyone only managed to come back to their senses after Zi Yi and Li Xia left the room.

They looked at Wang Ying, whose face was distorted by anger, with a strange gaze, and hastily went out the door with their toiletries.

Wang Ying looked at everyone who had ignored her. She clenched her teeth hard while her chest undulated greatly from her heavy breathing. She glanced at her surroundings and saw a kettle next to her. If her memory served her right, that kettle belonged to Zi Yi. And so, she went over and gave it a kick.

BAM!

"AHHH—"

When everyone ran back because they heard the screaming sounds, what they were met with was a tragic scene.

An exploded kettle, where the shards were scattered everywhere and the steaming hot water was spilled on the floor, along with a large red patch on Wang Ying's left leg.

Currently, Wang Ying was sobbing as she cried due to the pain.

"Could she have kicked that kettle on purpose and caused it to explode?"

"It's obvious that's what happened. This person is so scary to have done this even before the military training started."

"The instructor is here, let's go."

Just after someone reminded them, a loud shout sounded from behind. "What's going on? It's going to be ten minutes soon and could it be that all of you want to run ten laps?"

The crowd hastily scattered like birds.

The instructor entered the dormitory upon hearing sobbing sounds.

Following that, the female students tried eavesdropping and heard the instructor's stern inquiry. "What happened?!"

The sobbing Wang Ying said, "I don't know who placed that kettle in the middle of the room. I accidentally kicked it and it exploded."

"Ho, what the hell?" Upon hearing this, Li Xia immediately burst out. She rolled up her sleeve and strode over in large steps.

Zi Yi had followed behind her.

Li Xia rushed to the door and said in a loud voice, "Reporting to the instructor..."

She then informed the instructor of what had happened earlier.

The instructor had a stern expression and shifted her gaze to Zi Yi who stood behind Li Xia, "You, explain. What happened?"

"It's as what Li Xia has said." Zi Yi pointed to the kettle with a calm expression. "That's mine, and it was placed in the designated place along with everyone else's. Instructor, you can call in everyone in this dorm to verify the authenticity of my words."

The instructor looked at Wang Ying with a harsher expression. "Student Wang Ying, please tell the truth."

"I- I..." Wang Ying's face paled from fright. She suddenly realized that she was scalded by boiling water and started to burst into tears. "My leg hurts."

A chilly intent flashed through Zi Yi's eyes as she stared at Wang Ying.

The instructor could not possibly do anything to the student and so, she said, "I'll bring you to the military doctor to take a look. Can you walk?"

Wang Ying glanced at Zi Yi and Li Xia standing by the door and the sobbing had intensified. "I— I can't walk. My leg was scalded and I definitely can't participate in the military training anymore... Sob~"

Li Xia softly muttered, "Could she have deliberately caused trouble just to avoid military training and we just so happen to be the unlucky ones?"

Zi Yi looked at the instructor's solemn expression and said to Li Xia, "Let's go."

They turned around to leave.

As for Wang Ying, she did not return to the dormitory after this.

The strength Zi Yi revealed in the morning had frightened others in the dormitory and no one else dared to cause trouble with her for no reason.

When the military training started, everyone was fully engrossed.

Even though it was tiring and harsh, the training could forge and cultivate everyone's team spirit.

A week later, all the male and female students were tanned, and only Zi Yi remained fair.

Zi Yi was already very eye-catching to the point where everyone would try to sneak a peek in her direction. Right now, everyone's gaze would subconsciously shift towards her.

A few instructors were simply angry and vexed and they discussed this privately.

"If this continues, the students we teach will definitely be the worst amongst the other teams."

They did try to stop this from happening. However, not to mention the students who would subconsciously turn in her direction, even the instructors had done the same, even though Zi Yi merely stood there without moving.

"Say, how did this student grow up? Isn't she too beautiful?"

"Why don't we bring her to other places to train instead?"

"Where can she go? It's all guys here and she can't possibly follow them to train?"

"Why don't we move her to the military dog training camp? There's only Old Li there and he's patient and gentle. This wouldn't be too awkward for her too."

"I think it's feasible. Having her train the military dogs is not any easier compared to the military training."

"But... what if she gets afraid?"

"Why don't we let her bring someone with her? With two girls together, they can take care of each other too."

"I think it's feasible."

When Zi Yi's instructor called her over to inform her of this, Zi Yi was only stunned for a moment before she nodded and said, "Okay."

The instructor breathed a sigh of relief and said, "You can bring a female student along with you. As for who to bring, you can ask around."

Zi Yi nodded and asked, "When do I report there?"

"Tomorrow."

"Okay."

After the training ended for the day, the group of female students did not feel like moving after they returned to the dormitory.

Li Xia said to Zi Yi, "Student Zi, you can take a rest first. I'll go and fetch water for you."

Zi Yi stood up and said, "I'll go with you."

The place to fetch water was located next to the guard room on the first floor. When they came down, the whole building was filled with voices of tired shouts and laughing sounds.

Li Xia asked, "Student Zi, why aren't you tanned despite standing under the sun for several days?"

Zi Yi thought of the scene where Mrs. Lu specially delivered sunscreens for her before she left for military training and the corner of her lips curled up. "I used sunscreen."

"The others had also used sunscreen too... It must be because you're too pretty and even the sun is kinder to you."

Zi Yi: "..."

Li Xia was amused by her own reasoning and burst into laughter.

After she finished laughing, Zi Yi asked, "The instructor asked me to head over to the military dog training camp. Do you want to go with me?"

"Ah?" Li Xia only managed to react two seconds later and she asked in confusion, "Why?"

"I don't know, you only have to answer if you'd like to go."

"Of course I want to. After all, there are only us two in the archaeology major. I will definitely follow you wherever you go."

Zi Yi nodded and said, "Okay, we'll be heading there tomorrow."

"Will we still be staying here?"

"We'll stay over there."

"Okay. Speaking of which, I have been fond of military dogs since I was a child."

When everyone gathered the next morning their gaze subconsciously turned to where Zi Yi stood, they were surprised to see Zi Yi absent.

“Why isn’t Zi Yi here today?”

“Could she have fallen sick?”

“Is she fine?”

...

Zi Yi and Li Xia were already standing in front of the military dog training camp at that time.

The person who sent them there had said, “Wait here for a moment. Someone will come to fetch you within ten minutes.”

The person left after he said that.

The two of them placed their luggage on the ground. Li Xia looked in the direction of the iron railing and sighed. “It looks pretty big here.”

Zi Yi checked out her surroundings and just as she was about to look away, she saw a woman wearing a white doctor’s uniform coming over from one side.

### **Chapter 318: Luggage Disappeared**

The woman also saw them and she increased her pace as she approached them. She looked at both of them and asked, “You must be students? How did you come over here?”

Zi Yi did not speak, but Li Xia immediately replied, “We were arranged here to train the military dogs!”

The woman revealed a surprised expression at her words. “Oh? It’s my first time hearing of such an arrangement for the students to train military dogs for the training camp.”

Having said that, she looked at Zi Yi and deliberately asked with a smile, “Could it be that this female student’s appearance is too eye-catching and in order to avoid her affecting the other students’ training progress, you were both specially sent here?”

Li Xia was shocked. “How did you know?”

The woman could not help but laugh. “This student’s appearance is truly beautiful.”

She then said to them, “Then I’m afraid you might have to wait a while. Instructor Li is currently on patrol with a group of military dogs. Perhaps it might take up to half an hour.”

“Ah? The instructor who led us here said that we would only have to wait for 10 minutes at most.”

“Haha... the instructor might have informed you of an approximate timing. I met Instructor Li on my way earlier and had a short conversation with him. He personally informed me of this.”

Li Xiao looked at Zi Yi with a distressed expression. “Zi Yi, what now? Should we go and look for Instructor Li?”

“It’s best that you don’t wander around. This place is near the edge of the training camp and the primeval forest is just right outside. You’ll be in trouble if you encounter any poisonous snakes.”

Just as Li Xia was about to say something, the woman spoke up. "Why don't you follow me to the infirmary? It's almost time for mealtime and you'll definitely starve if you don't head to the canteen now."

Li Xia was slightly moved and she glanced towards Zi Yi.

Zi Yi thought for a moment and said, "Since we're here to report, let's wait for Instructor Li to arrive first. It's not good to leave all of a sudden."

Li Xia agreed with her reasoning and hastily nodded.

The woman did not force them and merely said, "My surname is Zhang. You can come to the infirmary to look for me if you need anything. The infirmary is not far from here. You'll find it by following down this road and turning left."

"Okay."

Li Xia sighed as she looked at Doctor Zhang leaving. "I didn't expect to see such a beautiful female doctor in the training camp."

She then looked at Zi Yi and added, "But she's not as pretty as you."

Zi Yi did not express an opinion.

After they stood there and waited for a while, Li Xia's stomach grumbled and Zi Yi said, "You can head to the canteen first."

"What about you?"

"Just bring me two steamed buns, that will do."

The breakfast they served here basically consists of porridge, steamed buns, and boiled eggs.

However, they did not know if they could pack them for takeaway. Li Xia thought for a moment and said, "Why don't you go first? I'm able to resist hunger and I can still endure until noon without food."

Zi Yi wanted to check the safety net by herself over here and so, she insisted. "You go ahead first. Or else it'll be bad if both of us go hungry."

Li Xia was a little moved by Zi Yi's words. She felt that Zi Yi had deliberately said so to let her go first.

"Alright then, I'll return with food!"

"Okay."

The moment Li Xia left, Zi Yi checked her surroundings and ensured that there was no one in the vicinity, before she slowly walked around the fence.

On the surface, the iron nets here were used to prevent the military dogs from running about. But in fact, a special material was used on the surface of it and it could guard against things coming in from the outside.

Zi Yi took a short walk and felt that she had seen enough and she made her way back.

However, just as she came closer to the gates, she felt a trace of amiss. Their luggage had disappeared, but the gates remained closed. Therefore, it was definitely not because someone had helped them carry their luggage inside but instead, someone had taken it away.

Zi Yi stood there with a cold expression. She thought about it for a moment and turned around to head to a relatively remote corner before she spoke to the air. "Who took our luggage?"

Shadow appeared before Zi Yi.

His mechanical arm stretched out and a 5D image surfaced.

The culprit was a man whose appearance could not be identified due to the cap he wore.

Zi Yi sneered and said to Shadow, "Go and get our luggage back."

Shadow immediately disappeared from the spot.

After Zi Yi stood at the original spot for a while more, she heard cheerful running steps approaching from a distance.

Soon, a group of military dogs ran to the door and they were waiting on the spot for the person behind them.

The moment she stepped out, the group of military dogs looked in her direction and ran over to her concurrently.

A sharp whistle sounded.

What followed after was an angry shout. "Everybody, sit!"

However, the man's shout was a step late. A few military dogs who rushed forward had directly pounced on Zi Yi.

It was her first time encountering such a situation and she was momentarily stunned. However, she did not panic in the slightest. She released her powerful mental energy and targeted it against the few military dogs.

The next second, several military dogs stopped right in front of her and groaned as they circled around her.

The man ran over in large strides and said to the few military dogs, "All of you, go back."

The few military dogs obediently ran towards the gate.

The man asked, "Student, are you frightened?"

"No."

"That's great. You must be Zi Yi? Your instructor came over and informed me of the arrangement last night. You and another student will be staying here to train the military dogs with me for the remaining period of time."

He looked around in surprise after he said that. "Where's your classmate?"

“I asked her to head over to the canteen first to get food.”

Instructor Li nodded and led her inside.

While he walked, he explained to her. “I have a small kitchen here and if you can cook, you can prepare food yourself in the following days.”

Zi Yi did not answer.

To her, she would rather eat in the canteen rather than make her own food.

Instructor Li thought that she could not cook and so, he did not say anything else.

When he reached the gates, he asked again, “You didn’t bring over your luggage? It’s a little far over here from your previous dormitory and it’s more convenient for you to live here.”

“We took them with us.” Zi Yi pointed to a corner in the distance. “I placed the luggage in the corner over there.”

Instructor Li thought of the fact that Zi Yi was standing at that corner earlier and he chuckled. “Let’s go then. I’ll help you carry them inside.”

Zi Yi responded and the both of them made their way back. As expected, there were two suitcases placed in a hidden corner.

Instructor Li simply carried one luggage in each hand and walked towards the entrance with Zi Yi.

All the military dogs were very obedient when they looked at Zi Yi. In particular, those few who had pounced in her direction earlier. They had even subconsciously whined.

Instructor Li was somewhat surprised.

He felt that their behavior was due to their fondness for Zi Yi.

However, after the two of them headed inside, the group of military dogs lowered their heads as if whispering to each other and they would whine from time to time.

After Instructor Li led Zi Yi to their rooms, he headed to the gate to wait for Li Xia.

Zi Yi sat on the bed and asked, “Who’s that person?”

### **Chapter 319: Getting Pounced On**

The robot replied. “A person sent by the higher-ups.”

Zi Yi was a little surprised. “Then was there anyone when you took away the luggage? Was there any surveillance in the surroundings?”

“There is. I had blocked the transmissions of the surveillance cameras.”

Zi Yi held her chin and thought for a moment but still could not figure out what was going on. However, she was certain that the person who took their luggage away did not really intend for them to be left without anything.

Before Zi Yi had managed to figure out what was going on, Instructor Li and Li Xia's footsteps and voices could be heard outside the door.

Their footsteps stopped outside the door and Instructor Li said, "There's a vegetable field not far from here. If either of you can cook, you can go there to harvest some vegetables directly. I will bring back the meat and eggs for you."

Li Xia's voice sounded particularly excited. "Yes, sure! Then I'll have to trouble you, Instructor Li. I'll take care of all three of our meals in the future."

"Alright. I'll go and get some meat in the afternoon and show you the way to the vegetable field later," Instructor Li said and left.

Li Xia pushed open the door and saw Zi Yi sitting inside. She walked over with the steamed bun and eggs in her hand.

Zi Yi stood up and took the breakfast from her and said, "Thanks."

Li Xia smiled in response. "I told the chef in the canteen about the situation and I didn't expect him to be so nice, and he even added an extra egg for you."

In fact, Zi Yi was not fond of boiled eggs. She looked at the three eggs in the bag and only took one before she passed the remaining two to Li Xia. "You can have these two."

"I just ate mine earlier. These two are for you."

"One is enough for me."

Zi Yi put the two eggs aside and said, "You can eat them when you're hungry later."

Li Xia had a tall physique and a big appetite. For the past several days, Zi Yi could hear her stomach growling in the middle of the night.

"You can cook more when you're preparing food in the future. Don't starve yourself."

Li Xia nodded at her words.

After Zi Yi finished breakfast, they headed outside together.

The instructor was currently standing outside waiting for the two of them. When he saw them walking over, he explained to them what their job entailed during this period of time.

"For the first week, you can try to familiarize yourself with the military dogs."

Li Xia immediately asked, "How? Are we to accompany them and train?"

Hearing this, Instructor Li suddenly glanced at her and asked, "The training with them can be delayed awhile. During this period of time, you can watch how I bring them for training, prepare some food and drinks and help me wash and bathe them."

Li Xia asked another question. "Then do you need us to clean the place they stay in?"

Her question caused Zi Yi and Instructor Li to look at her with an intense gaze.

Instructor Li sighed deep down as he thought, *“As expected of an ignorant and fearless student.”*

Zi Yi asked, “Who cleans the place where military dogs live?”

“I’m the one doing the cleaning. But you two don’t have to do so. That type of labor is not something girls should do.”

“Why can’t we do it? I can!”

Zi Yi looked at the sincere young lady once again.

Instructor Li smiled and said nothing as he then changed the subject. “Let’s go. I’ll show you around the vicinity and tell you places you can go and places you are forbidden from entering.”

The three of them walked out together and Instructor Li brought them to tour around the training base. The place was really big and it took them at least thirty minutes to finish the tour.

Instructor Li said, “The military dogs would usually train in the military base, but I will take them around to patrol once every few days. It’s mostly to see if there are any poisonous snakes or animals who lurk inside.”

Li Xia hastily asked, “What if they discover any poisonous snakes?”

Instructor Li smiled and responded, “Don’t underestimate any single one of the military dogs.”

There were several buildings near the military training camp. Instructor Li pointed to those buildings and said, “You are forbidden from approaching those buildings.”

“That area is close to the primeval forest and you shouldn’t head outside too.”

“That’s the vegetable field and there are plenty of seasonal vegetables grown. However, only pick the amount you intend to eat. Don’t over harvest and cause waste.”

“Across the vegetable farm is the pig farm. All our meat is from there.”

...

After Instructor Li finished his explanation, Zi Yi suddenly asked, “Instructor Li, where’s the infirmary here?”

Li Xia looked at Zi Yi with an odd gaze.

Didn’t Doctor Zhang inform them where the infirmary was earlier?

Instructor Li gave them the directions.

Zi Yi asked another question, “If we were to accidentally get bitten by poisonous animals, is there any medicine in the infirmary?”

“There’s definitely medicine available, but these come in small quantities. Therefore, it’s better to be careful instead.”

Zi Yi nodded and did not continue to ask.

The three of them returned to the camp after the tour and Instructor Li brought them to the training ground behind the building.

The training ground was rather large and there were all sorts of different training equipment inside. When they entered the training ground, the group of military dogs was locked inside a big fence.

The military dogs were obviously happy at the sight of Instructor Li and all of them barked at him.

Li Xia was shocked to see so many military dogs. "Instructor Li, are you able to take care of so many military dogs by yourself?"

"I'm not the only caretaker here. I have two colleagues with me, but they all went home to visit their parents. Therefore, I'm the only one left these days."

Speaking up to here, Instructor Li smiled and said, "It just so happens that you two were sent over to help."

Even though he felt that it was possible that it was better than training a bunch of rowdy kids, he still had to take care of two young ladies.

Of course, Instructor Li would not say that out loud.

He reminded both of them. "Don't be afraid when the military dogs come out later. Don't get nervous too. They won't bite, just that..."

Instructor Li suddenly glanced at Zi Y. He recalled the situation in the morning and thought that it should not be a huge problem. "Some military dogs who just matured might be a little naughty and like to pounce on people. Just pay attention to this."

He then got them to stand aside for a while as he opened the fence.

Li Xia stared at the military dogs and said excitedly, "Zi Yi, this is my first time seeing so many military dogs. I love watching movies about military dogs and they are really awesome."

Zi Yi was also staring at those military dogs and she reminded Li Xia out of kindness. "When they pounce over later, be sure to stand your ground."

"Ah... Oh!" Li Xia felt that she would definitely be alright.

Zi Yi kept her gaze on the fence. The instant Instructor Li opened the fence, a few military dogs rushed over and she said, "They're coming."

Woof woof woof!

Ahwooo~

Li Xia looked at the group of military dogs rushing over in their direction and her eyes subconsciously widened.

The next second.

BAM!

Zi Yi looked at Li Xia who was starry-eyed after getting pushed to the ground by several enthusiastic military dogs. Immediately after, she glanced at several other dogs who were eager to rush in her direction. The corner of her lips curled up and the few military dogs subconsciously took a step back.

Instructor Li's helpless shout sounded. "Lingfei, Chilong, Feihu, Flash, Overlord, Maide, all of you, come back!"

Only then, did the group of military dogs turn around and run towards Instructor Li.

Zi Yi looked at the starry-eyed Li Xia and asked, "Are you alright?"

Li Xia got up from the ground and nodded. "Yeah, I'm alright."

### **Chapter 320: Is that It? You're Thinking of Scaring Me With This?**

Instructor Li reprimanded the few of them. "They will be accompanying you for training in the following days and you're not allowed to pounce on them."

The several military dogs stiffened for a second and stood rooted obediently, while they whined as if they were begging for mercy.

Instructor Li was a little soft-hearted from their behavior and stopped reprimanding them and introduced them to the two female students.

All the military dogs had names and they sounded majestic.

Following this, he had the two of them spectate while he brought them around for training.

The training intensity was very high and there were all sorts of special training too.

Zi Yi and Li Xia stood by and watched while heading over to help him from time to time.

An hour or two later, perhaps the military dogs were now accustomed to the two of them, as there would occasionally be one or two lively ones who ran around them during the gap between each training session.

Li Xia would reach out to touch them, but her hand ended up getting pushed away each time.

Zi Yi did not know if she should feel bad for her every time it happened.

A day passed by and the two of them became familiar with the military dogs.

In the evening, they went to get food for the military dogs.

The place to retrieve dog food was not far from here and Li Xia happily spoke as she walked. "These military dogs are too adorable when facing the trainers. I hope that I can join in and interact with them soon."

They were tasked with menial jobs these two days and Instructor Li did not allow them to join the training.

Zi Yi glanced at Li Xia who had been pounced on several times today and she honestly suspected who would be the one training the other when the time comes.

When they were about to reach the warehouse where the dog food was kept, they just so happened to encounter Doctor Zhang coming over from the other side with a bucket in her hand.

Li Xia hastily called out to her. "Doctor Zhang."

She stopped and looked at both of them. While she revealed a smile, she asked, "You're here to collect the dog food?"

Li Xia nodded and looked at the bucket in her hands. "Doctor Zhang, what about you?"

She pointed at the bucket in her hand. There were many medicine packs inside. "I'm sending these medicine packs to the military dog's training camp. The place where they stay should be disinfected and sterilized once every two days."

Having said that, she smiled and said, "Go and collect the food, I'll wait for you here."

"Okay."

Zi Yi and Li Xia came out very soon after collecting the dog food.

The three of them headed to the camp together.

While walking, Doctor Zhang asked, "How do you feel? Do you get scared from interacting with the group of military dogs?"

Li Xia immediately answered. "Not at all. Just that the military dogs are a little too enthusiastic. Haha."

Doctor Zhang smiled and looked towards Zi Yi.

"It's not bad."

"That's good to hear. In fact, training military dogs is hard work. You can talk to Instructor Li if you are unable to take it. He's a very easy-going person."

The three of them arrived at the camp soon while they chatted casually on the way.

Instructor Li came over and greeted them.

Doctor Zhang spoke up. "Doctor Wu has something on today, so she got me to deliver these medicine packs for you today."

Instructor Li thanked her and the four of them headed towards the fence where the military dogs were resting.

After the intensive training, the military dogs were all standing by the fence and looking outside. Obviously, they were waiting for dinner.

However, all of them started barking at the sight of Doctor Zhang.

Instructor Li said to her, "Doctor Zhang, you can stand here and wait. The military dogs have not seen you before and they like to bark at strangers."

Doctor Zhang stopped at where she stood and looked on as the three of them fed the military dogs.

When Zi Yi and Li Xia walked out, she even complimented them. "It seems like you have adapted well. The military dogs seem to like you too."

Li Xia happily smiled.

Whereas Zi Yi merely responded with an acknowledgment.

Doctor Zhang did not leave at once. Instead, she specially asked in a kind manner, "Where are you staying tonight? If it's inconvenient for you to stay here, you can come to my side."

Li Xia pointed to the building on the other side and said, "We're staying there. The room's pretty good and we're alright with it. Moreover, there are many military dogs here and it's safe to live here."

Zi Yi specially glanced at her after hearing what she said.

Doctor Zhang smiled and said, "Alright then, then I'll leave first."

"Goodbye Doctor Zhang."

After Doctor Zhang left, Zi Yi asked Li Xia, "Why do you think it's safe to live here?"

"Military dogs are very capable. They can detect danger and I think staying here is the safest."

Zi Yi nodded and asked, "Are you cooking tonight?"

They were all busy in the afternoon and Li Xia did not have time to cook.

Li Xia nodded and said, "I'll go and pick some vegetables."

Having said that, she left after informing Instructor Li.

Zi Yi walked to the fence and stood beside Instructor Li as they watched the military dogs eat.

After looking on for a while, Zi Yi asked, "Instructor Li, when will you be spraying the disinfectant?"

"I'll spray it later. It just so happens that they will be going out for a walk later, so I'll spray the disinfectant after I clean up the place."

Zi Yi did not comment any further.

After the military dogs finished their meal, Instructor Li asked, "Student Zi, do you mind watching them for a while?"

He then added, "You can stay at the training range. Just make sure they don't run about."

Zi Yi nodded and said, "Okay."

In fact, Instructor Li was not worried at all. After all, the military dogs were very obedient and he said to the dogs, "Don't run about and don't bully the newbie."

Following that, he released them outside.

Zi Yi led the group of military dogs to the training range.

They did not have to undergo training and all of them were playing around like unruly children.

Whereas Zi Yi leaned against a pillar and watched them.

A while later, Zi Yi saw two military dogs running towards a corner, but she did not pay them much attention. Two minutes later, the two dogs ran towards her.

The dog in front just so happens to block the head of the dog behind.

Zi Yi narrowed her eyes.

Don't think that she does not know that the dog behind was biting onto something just because one had blocked the other.

When the two dogs arrived by her side, the dog running behind had thrown something against her legs.

It was a cauliflower snake

It then retreated a few meters behind and stopped to look at Zi Yi.

Their appearance was as if waiting for Zi Yi to panic.

Zi Yi calmly looked at the struggling cauliflower snake by her leg, then at the two military dogs before she raised her leg and kicked it towards them.

Whoosh~pa!

The cauliflower snake hung on one of their heads. The two military dogs were dumbfounded. Zi Yi quirked her eyebrow and the corner of her lips curled up. "Is that it? You're thinking of scaring me with this?"

...

The two military dogs retreated silently.

Zi Yi continued to lean against the pillar and surveyed her surroundings.

Just then, one of the military dogs suddenly sprawled out on the ground and continuously twitched, while it even whimpered in pain. Its behavior was as if it was going to die.

Soon, the other military dogs surrounded it and released whining sounds at the same time.

Zi Yi's forehead twitched twice and she made her way over.

When they saw her coming over, they got out of the way.

Zi Yi came to the military dog's side and half-squatted down. "Are you alright?"

Just then, the military dog suddenly jumped up and pounced towards her.
