

## Multi skilled 321

### Chapter 321: This Human is Cheating! We Clearly Agreed to Rely on Our Abilities, But She Actually Complained

Zi Yi took a step to the side when the military dogs pounced in her direction. At the same time, she grabbed one of the dog's paws and flung it away.

BAM!

"Wuuu..."

Zi Yi stood there while remaining calm. She narrowed her eyes and swept her gaze towards the 'unruly kids' that seemed as if they were about to help the other dog. A trace of cunningness flashed through her eyes and she suddenly shouted out loud, "Instructor Li, they're bullying me!"

With her shout, the group of military dogs was stunned.

This human is cheating! We clearly agreed to rely on our abilities and yet, she actually complained!

All of them acted as if nothing had happened and dispersed.

It was only some time later did they realize they had fallen for her tricks and were just about to surround her once again.

Zi Yi slowly said, "Instructor Li has tasked me to collect food for you in the following days. Say, if I were to add something in the food, would you be in a miserable state?"

All their footsteps suddenly stopped.

Immediately after, they acted as if nothing had happened and continued to run about and play.

The corner of her lips curled up and she continued to look after them.

After Instructor Li had cleaned and disinfected the place where the military dogs lived in, he came over to where they were and even praised them. "It's great that you're all able to live in peace with Student Zi."

The group of military dogs wagged their tails from the praise.

Zi Yi narrowed her eyes and said, "They were all very obedient."

Instructor Li nodded. "That's right. They're a group of obedient kids."

Having said that, he blew the whistle twice.

The next moment, the group of military dogs ran towards their accommodation.

Zi Yi and Instructor Li headed towards the building in front.

As soon as they walked to the entrance, the scent of food could be smelt.

The two of them subconsciously increased their pace.

The place was a courtyard surrounded by buildings on all four sides. There were many dog toys inside and Zi Yi asked out of curiosity. "Military dogs still play with toys?"

"These are for the young military dogs." Instructor Li said, "Young military dogs would not receive much training in the first three months. The most important thing is to foster their feelings with the trainers, so we have prepared plenty of toys."

He then added on. "The previous batch of young military dogs are now all grown up. They are the ones you have seen today, which have been slightly naughty. The next batch would only be sent here a month later."

Zi Yi nodded at his explanations.

They continued to head inside. When they walked into the hall, Li Xia had walked out with a big dish pot of food in her hands.

The moment Instructor Li saw the dish Li Xia had brought out, he said, "It's been a long time since I've had a big pot of stew."

Li Xia stood there and smiled. "I'm used to cooking stew. But if you're not used to eating it, I can do a stir-fry tomorrow."

Instructor Li did not have much of an opinion. "I can eat anything."

Zi Yi was also very adaptable to the surroundings and felt that everything's good as long as there was someone that cooked.

The three of them sat down and started to eat.

After dinner, Instructor Li said to both of them, "I will be taking the military dogs outside for a patrol at 6 a.m tomorrow. Don't force yourself if you can't get up."

Li Xia hastily said, "I can wake up."

Zi Yi nodded. "Me too."

"Alright then, meet me at the main entrance at 6 a.m tomorrow. Don't force yourself if you are really unable to wake up. You should go to bed early tonight."

Having said that, he headed somewhere else.

After Instructor Li left, Li Xia and Zi Yi met gazes.

Li Xia was a little surprised. "A day passed by just like that."

Zi Yi planned to go to bed early tonight and said, "If you can't sleep, you can think about how you're going to get along with the military dogs tomorrow so that you don't get pounced on again."

Li Xia revealed a foolish giggle. "What you said makes sense. But I don't understand anything. Why are those military dogs so fond of pouncing on me and not you?"

"Perhaps... you're easier to approach."

Zi Yi headed towards her room after she said that.

In the middle of the night.

There was a huge commotion outside.

Zi Yi and Li Xia woke up at the same time.

Li Xia went to switch on the lights and they both got dressed before heading outside.

The noise was even louder when they came out.

“It’s the voices of the military dogs.”

Zi Yi hastened her footsteps and walked out.

Li Xia had immediately followed suit.

Just as they arrived at the hall, they were welcomed with Instructor Li rushing in from the outside. Instructor Li said to them, “Don’t come out. I don’t know what happened to the military dogs, but they are a little aggressive tonight, so it’s best to stay inside lest you get hurt.”

“What about you?” Zi Yi asked, “Instructor Li, do you have a way to control their aggressive behavior?”

“I’ll give a call to the higher-ups first. They’re currently very unstable right now. It’s still alright for me to get in contact with them, but you two shouldn’t go. It’s going to be very dangerous.”

He then headed towards the courtyard to make a phone call.

Zi Yi and Li Xia stood on the spot without moving.

Li Xia said out of worry, “What should we do? The situation sounds very dangerous. Zi Yi, we should listen to Instructor Li and head inside right now.”

“It’s too late.”

Just as she said that, she pushed the door open and walked out the gate, not forgetting to shout at Li Xia, “Quick, close the door.”

Woof! Woof! Woof!

Li Xia paled from fright. The moment she heard what Zi Yi said, she subconsciously closed the door.

But the next second, she shouted out loud while feeling regret, “Zi Yi, come in quickly!”

Woof! Woof! Woof!

“It’s too late. I’ll distract them away first.”

She quickly ran towards one direction after she said that.

The aggressive military dogs had immediately chased in her direction.

After she ran for some time, Zi Yi spoke to the air. “Shadow, take their blood for testing.”

Having said that, she increased her running speed.

The group of aggressive dogs continued chasing her. The scene was something that would cause anyone to break out in cold sweat.

Zi Yi's mind was very clear at that moment. She quickly thought through the possible reason for their aggressive behavior.

Just then, a mechanical voice sounded in her ears. It was Shadow who reported to her about the test results.

Zi Yi furrowed her brows after hearing what Shadow said. "Go and find these few medicinal ingredients for me at once."

Shadow left and Zi Yi continued to run.

As she ran and ran, she soon arrived at the fence.

The fence here was at least three to four meters high and there were barbs on the top of it. Zi Yi thought about it for a moment and ran in that direction.

Soon, she arrived at the fence and started climbing upwards.

While climbing, she was thinking deep down, *"Me, a person from the interstellar era. To think there would be a day where I will climb a fence due to getting chased by a group of dogs."*

She had managed to climb up to the top easily.

Soon, those military dogs had caught up to her.

Seeing that they were about to pounce over, fortunately, Instructor Li had arrived in time.

Instructor Li shouted at the top of his lungs as he ran, "All of you, stop!"

Zi Yi saw Instructor Li running over at fast speed and shouted, "Instructor Li, don't come over. They're unable to think straight and they will attack you."

Instructor Li's mind was occupied by anxiousness and how could he possibly have heard Zi Yi's shouts? On the contrary, he had increased his pace.

The moment the group of military dogs saw someone running over, they turned around and dashed forward fiercely.

Zi Yi's heart skipped a beat and she was about to jump down. Just then, Shadow's voice sounded in her ears. "Master. The medicinal ingredients are here."

Zi Yi stopped and hastily said, "Mix them all together and sprinkle it directly over their heads."

### **Chapter 322: Lu Jingye said, I'm Here to See You**

When the military dogs started to bite Instructor Li, the medicine was sprinkled over the top of their heads.

Instructor Li desperately blew the whistle at them and his eyes turned red from anxiousness and cold sweat trickled down.

Just then, the rioting dogs finally calmed down.

They acted as if they had just recovered from a trance and even looked at each other. They had whined for quite some time before they looked towards Instructor Li with an innocent gaze.

Instructor Li raised his hand and wiped away the cold sweat that had trickled down. He smelled the scent of medicine in the air and subconsciously looked at Zi Yi who was still on the railings.

Zi Yi pointed at them and said, "Instructor Li, please check to see if there are any other problems with them first?"

Instructor Li was also in a hurry. After he heard what she had said, he swiftly gave them a check.

He did not manage to identify anything on the surface. He stroked one of the military dog's heads, which had currently rubbed its head against his trousers and said, "Don't worry. The higher-ups will be sending a doctor to check on you guys."

After that, he said to the group. "Everyone, sit."

All the military dogs immediately heeded his commands and sat down.

Only then did Instructor Li speak to Zi Yi. "Student Zi, you can get down now."

Yet, Zi Yi furrowed her brows. She had climbed up in a hurry and not to mention there was a cut on her palms, one of her sleeves was hooked on the barb. She could not move around at all.

Moreover, Instructor Li was present and she could not possibly ask Shadow for help.

Zi Yi thought for a moment and decided to save herself.

She turned around and pulled on the sleeve that got caught on the barb.

At the same time, several cars drove past from a distance. After the car parked at the main gates, several individuals with strong auras swiftly alighted. It was evident that they were the higher-ups that Instructor Li mentioned. There was also another group of doctors that alighted from the car at the back.

After they had alighted, they strode over in large steps.

Zi Yi subconsciously turned her head in that direction to take a look.

However, she did not expect for her sleeve hanging on the barb to get torn. Her hand that grabbed onto the iron railing had trembled for a second and loosened. The next second, she was headed for the ground.

"Uk-..."

"Student Zi, be careful!"

Everyone got frightened at the sight of Zi Yi who was about to fall down.

Yet, a figure quickly dashed over at that moment. His knees bent down the second before Zi Yi fell to the ground and grabbed onto her firmly.

Zi Yi glanced at the person who caught her. It was an unfamiliar face, but his pair of eyes were ones that she had been the most familiar with.

Zi Yi opened her mouth with the intention to call out his name.

The man put her on the ground and asked, "Are you alright?"

Zi Yi stared at his face and shook her head.

The man saw her injured hand and turned to speak to the group of people who made their way over. "Her hand is injured. It needs to be taken care of."

One of the men who appeared to be the leader nodded. "You, go and take care of her wound."

Immediately after, he led the group of people towards Instructor Li.

Among the group of people, a few of them were higher-ups and there were also several doctors.

They did a swift examination for the military dogs.

Zi Yi looked at the man before her and spoke in a volume only the two of them could hear. "Ah Jing?"

Lu Jingye nodded at her in an unnoticeable way. His voice was filled with undisguised concern and heartache. "Show me your injured hand."

Zi Yi stretched out her hand. There was a cut across her palms and it had supposedly stopped bleeding. However, when she opened her palm, the wound was reopened and it started to bleed again.

Lu Jingye's eyes slightly dimmed and he said, "Wait a moment, I'll go and get you some medicine."

He turned around after he said that and quickly headed towards one of the cars parked outside.

Zi Yi watched Lu Jingye who departed quickly and made his way back just as quickly as before. The corner of her lips could not help but curl up. She honestly very much wanted to ask why he came here. In the end, she held herself back from asking.

Lu Jingye carefully applied medicine to her wound and bandaged it. They did not converse at all in that period of time.

After he was done with taking care of her wound, he looked up and said to her, "I'm here to see you."

With just a single sentence from him, Zi Yi could identify how much he had longed for her.

Due to the excessive longing, he had deliberately used a disguise to transform into another person's appearance, just to come over and take a look at her.

"I'll come to see you again when everyone leaves."

Zi Yi's lips slightly curled up. The moment he took back his hands, she held onto them for a moment.

Just then, Lu Jingye spoke in a normal volume. "Your wound is not considered too deep. But you should not touch water in the following days."

Zi Yi heard the sound of footsteps from behind her and nodded her head as she turned around.

The person who walked over was Doctor Zhang.

Doctor Zhang asked Lu Jingye, "Doctor Chen, have you taken care of Student Zi's wounds?"

"Yes."

Lu Jingye took the leftover medicine and bandages after that and turned around as he headed towards the car parked outside.

Doctor Zhang did not doubt him at all. She walked over and glanced at Zi Yi's bandaged hand and asked in concern, "Student Zi, hopefully, those military dogs did not frighten you?"

Zi Yi originally planned to shake her head in disagreement but she suddenly changed her mind and nodded. "They frightened me."

"Student Zi, do you know exactly what happened? Why did those military dogs suddenly turn aggressive?"

"I don't know."

Zi Yi looked up at the group of people who were currently in a conversation and said to Doctor Zhang, "Doctor Zhang, we should make our way over too."

Doctor Zhang nodded and both of them walked over there.

At that moment, Instructor Li was explaining the whole process of the sudden aggressive behavior of the military dogs.

"At that time, I heard something amiss and so, I went to check on the place they were resting at. I did not expect them to break through the fence and run out. They kept barking at the sight of me and wanted to dash outside. I nearly could not stop them at that time."

He then looked at Zi Yi who made her way over and added, "Fortunately, Student Zi distracted them away and prevented them from dashing into our living accommodations."

Everyone looked towards Zi Yi.

Zi Yi spoke up with a calm expression. "In order to attract them and prevent them from running amok, I ran for nearly ten minutes. In the end, my stamina and legs could not take it and so, I climbed up the railing."

Even though the situation she encountered back then seemed to be very serious, when everyone imagined the scene, they could not help but feel like laughing.

But fortunately, everyone had endured.

One of the middle-aged higher-ups said to her, "Student Zi, you've worked hard."

Just then, several doctors made their way over after they were done with the examination. One of them said, "They should have consumed something by mistake earlier, which led to their aggressive behavior. However, what they ate by mistake had been detoxified afterwards."

One of the middle-aged higher-ups asked in a stern voice. "Who was responsible for bringing their food?"

"It's me and my classmate." Zi Yi recounted the whole process of when she went to collect the dog food.

Doctor Zhang testified for her.

The middle-aged man remained silent for a period of time before he said to another person, "Go and check at once!"

"Yes!"

After the person left, the middle-aged man asked again, "Who gave them the antidote?"

Instructor Li looked puzzled. "I don't know either. When Little Zi climbed up the railing, they dashed towards my direction when I came closer. I didn't expect to smell a medicine scent in the air when I was about to get close to them. Following that, all of them seemed to have woken up."

Instructor Li's explanation caused the higher-ups to look at each other, as if they had thought of something. They then said to Instructor Li, "Since the military dogs have calmed down, wait for the doctors to examine their living areas first. You can take them elsewhere to take a rest."

"Yes!" Instructor Li whistled at the military dogs and led them away.

The middle-aged man looked at Zi Yi while his eyes sized her up. A few seconds later, he said, "Student Zi, go and take a rest first. Thank you for your hard work tonight. If your hand hurts tomorrow, take a day off."

Zi Yi nodded and turned to walk inside.

### **Chapter 323: Lu Jingye Said, I'll Take You to Celebrate Your Birthday in Advance**

Li Xia had been waiting for Zi Yi inside their rooms. The moment she saw that she had walked in, she hastily walked up and asked anxiously, "Zi Yi, what is going on right now outside? Are you alright?"

"I'm fine."

"There are many higher-ups and doctors outside. They will resolve the following issues. We should sleep first."

Li Xia wanted to go out and check out the situation, but she dared not do so. In the end, she followed Zi Yi and fell asleep.

Zi Yi continued to lie down and wait.

Sometime later, there were no longer any movements outside. Li Xia who repeatedly claimed that she could not fall asleep had also started to snore.

Just then, a slight movement sound was heard from the window.

Zi Yi quickly flipped her quilt away and got down from the bed as she ran towards the window.

She saw the man who stood outside as she pulled the curtains to one side. The corner of her lips could not help but curl up.

Lu Jingye looked at Zi Yi who was in her pajamas and his voice slightly dimmed. "Go and grab a coat. I'll bring you outside."

Zi Yi nodded. She turned around and found a coat to wear and put on her shoes before she walked to the window and climbed up with the help of a chair.

Lu Jingye caught her from outside the window. He did not release her and instead carried her as he headed in a direction, taking large strides.

Zi Yi hugged his neck and stared at his face. The depths of her eyes revealed flickers of glimmers.

While Lu Jingye carried her in his arms, he arrived at a remote corner and put her down.

Zi Yi had her back against the wall while her hands remained on his neck and stared at him with that beautiful pair of eyes of hers.

How could Lu Jingye possibly endure such a gaze? He lowered his head and kissed her lips.

The passionate kiss seemed to be able to instantly melt both of them into puddles.

Both of them missed each other very much and as they had not seen each other for half a month, the kiss intensified to the extent that it was about to become uncontrollable.

The fire inside their bodies was ignited.

Lu Jingye held onto her tightly as if he wished he could press her into his body. The next second before he was about to lose control, he used his strong willpower to put on the brakes.

The both of them were out of breath after the kiss.

Zi Yi leaned her head on his chest and listened to his strong heartbeat while she gasped for air.

After they remained in that position for quite some time, Zi Yi asked, "Ah Jing, how's your younger brother?"

His hand on her hand tightened and there was a slight tension in his voice. "Not too good."

Zi Yi looked up into his eyes and just so happened to see the trace of a sad glint in his eyes.

She stood on tiptoe and kissed him on the lips and asked, "Is your younger brother brain dead?"

Lu Jingye looked at her and traces of surprise flashed past his eyes.

Zi Yi leaned her head on his chest again and said, "I saw you offering a high reward for those medicinal ingredients in the underground black market."

She rubbed her cheeks on his clothes and said in a whisper, "Those medicinal ingredients are indeed good, but the present medical devices are incapable of extracting all the essence from inside. Therefore, even if it is used to treat someone, the efficiency would not be all that great."

Lu Jingye's heart rate unconsciously increased as he heard what the young lady said. He controlled his voice and asked, "Yiyi, do you know how to create those machines that can process those medicinal ingredients?"

"Yes. But those medicinal equipment would require some special materials."

"Just say it. No matter what material you require, I can get them."

Zi Yi gave him a list of materials that she required.

Lu Jingye's heartbeat sped up. He was someone who would stay calm and collected no matter what situation or event he encountered. Yet, at that moment, he was so excited that he could not control himself.

What has he ever done to have found a treasure like her?

What was his baby incapable of?

Lu Jingye suddenly buried his head into the curve of Zi Yi's shoulders.

His hoarse voice sounded only after quite some time. "Ok. I will gather all those materials during this period while you're in military training."

Zi Yi rubbed her cheek against his and the next second, a kiss landed on her cheeks.

At the same time, a deeper voice sounded. "Yiyi, I love you."

Zi Yi's heart trembled and the next second, her lips curled up uncontrollably. "I love you too."

Immediately after, she asked, "Then when will you marry me?"

Lu Jingye felt warm deep down. He pressed her head against his heart and said, "I will marry you whenever you wish to marry me."

Zi Yi was delighted. "Then... let's wait until your younger brother regains consciousness."

"Why?"

"I hope that the people you care about would give us their blessings."

Lu Jingye controlled his surge of emotions. He only responded with an ok after quite some time.

He released his grip on her and pulled onto her hand.

Zi Yi thought he was about to send her back and tightened her grip on his hand. There were traces of grievance in her voice. "I don't want to go back."

Lu Jingye turned and looked at her, before he simply picked her up and said, "I'll take you to celebrate your birthday in advance."

"Ah?"

"There's a few days before your birthday. I might not be able to come over that day, so I'll celebrate your birthday with you in advance tonight."

Zi Yi was elated. "Where are we going?"

"I borrowed a room."

He carried her and walked in large strides after that.

Soon, they arrived at the side door of the residence where Zi Yi was staying in the military dog training camp. They went out and there was a car parked there.

After they got in the car, Zi Yi looked at him and asked curiously, "How did you get in here?"

"I'm familiar with the higher-ups here."

Zi Yi nodded and did not continue to ask.

Lu Jingye drove the car out.

Zi Yi thought back to the aggressive behavior of the military dogs tonight and said, "Ah Jing, pass me your phone for a while."

She wanted to investigate what had happened tonight.

Lu Jingye guessed her intentions and stopped her. "They will investigate this incident. There should have been a result and it's not suitable for you to step in."

Zi Yi thought for a moment and mentioned the incident where her suitcase was taken away.

Lu Jingye remained silent for a period of time before he said with certainty, "Yesterday's situation should be because they were testing you. When you came here, the M.Uni higher-ups should have mentioned you to them."

"What's there to test? Could it be that they want me to do something for them?"

When she said that, Zi Yi turned silent.

The possibility was very high.

However, it just so happened that someone drugged the military dogs tonight.

"This is too much of a coincidence."

Zi Yi looked towards Lu Jingye and noticed his heavy expression. "Ah Jing, don't worry. If someone wants to hurt me, I will make them regret having that thought."

Lu Jingye did not speak, but his grip on the steering wheel was very tight.

Soon, the car stopped in front of a building.

There was a guard outside the gates. The guard merely glanced at the car and allowed them entry.

Lu Jingye parked the car inside and led Zi Yi inside the building.

The area was very quiet. It was already 1 a.m in the morning now and the people who lived here were either asleep or similar to the group of higher-ups earlier and had yet to return.

They headed towards one of the rooms and stopped.

Lu Jingye took out the key to open the door and held Zi Yi's hand as they walked in.

Zi Yi's eyes brightened at the sight of the cake inside the room.

There was also a large bouquet of flowers placed beside the cake, and a small box beside the flowers.

Zi Yi quickly walked to the table and looked at the three items.

Lu Jingye walked over and stood behind her. His long limbs stretched out to grab the small box and opened it. It was unexpectedly a ring.

The design was very simple, but the workmanship was very delicate. In particular, the crushed diamonds inlaid on it. She loved it so much even at first glance.

Zi Yi took it out for a look and found a row of letters carved inside the ring.

She rubbed her fingers across it. When she realized what the letters were, she turned around and looked at Lu Jingye.

Lu Jingye took the ring from her hands and placed it on the middle finger of her right hand with a serious face.

"In this case, everyone will know you're someone with a boyfriend."

On the surface, Lu Jingye appeared to be gentle and polite. However, he was not a romantic person and his thoughts were also rather old-fashioned.

Yet, he had done such a romantic thing today and said such romantic words. Zi Yi felt sweetness spreading in her heart.

Chapter 324: As Long as You Take Care of Her For Me

They remained in the room for an hour or so. After Zi Yi finished the cake, he sent her back to her room.

Before they parted, Lu Jingye said, "I will try my best to rush over on your birthday."

"Okay!" Zi Yi's lips could not help but curl up. She stood up on tiptoe and kissed him on the lips, before she returned to her room through the window.

After Lu Jingye sent her back, he went to see the highest-positioned leader in this camp.

The leader revealed a smile at the sight of him. "Little Lu, I've let you meet your sweetheart. So when can you deliver what you promised?"

Lu Jingye said, "I will send someone to transport all the equipment after I return."

The leader's smile deepened. He stood up and walked over to him and patted him on the shoulder as he sighed. "You youngsters know how to do romance better. If I could think of these tricks when I was chasing my wife, she wouldn't be complaining about how I'm cow dung and a fresh flower like her had been poisoned by me."

The corner of Lu Jingye's lips curled up. His eyes revealed gentleness and even the leader was speechless at the sight of him.

"It seems like that beauty has walked into your heart. However, does the old man know about her?"

"He knows, but ideological work still needs to be done on Grandfather's side."

The leader nodded in understanding and advised. "The old man has a bad temper and is used to having the final say. However, he has your best interest at heart. Even though you might not necessarily want that... but don't cause the situation to be too irrecoverable.

"I know. Therefore, I hope that Uncle Zhang won't inform my Grandfather about how I came here."

1

"Do I seem like someone who does that?" Leader Zhang laughed and said, "As long as your equipment is in place, not to mention coming over once to sneak a peek at her, dozens of times is also not a problem."

The Lu Group supplies more than half of the capital's military supplies. Conventional supplies were available everywhere, but those equipment that required cutting-edge technology to produce were rare. If they wanted to obtain them, they had to send an application report several months in advance. Not to mention, it might not necessarily be available.

Leader Zhang felt that it was a waste not to make use of such a great opportunity.

Lu Jingye smiled too. His smile was modest and polite. "Uncle Zhang, you can rest assured. I will deliver what I promised you, as long as you take care of her for me."

"Hahaha... I like your straightforwardness! Don't worry, I will definitely help you take care of her!"

"However, since this is a transactional relationship, I also hope that Uncle Zhang can find out those who are having ill intentions towards her in the dark."

Both of their expressions became serious on this topic.

"Little Lu, you can rest assured. The incident last night did not only affect that little girl. The military dogs are our comrades-in-arms and I won't allow anyone to make use of them!"

"Speaking of this." Leader Zhang suddenly asked Lu Jingye, "Did that little young lady of yours bring some cutting-edge technology inside that we were unable to detect? I sent someone to hide her luggage away the previous morning but she somehow managed to locate them soon after. Moreover, the antidote that the military dogs received last night was definitely done by her!"

Lu Jingye looked at Leader Zhang's excited expression and said with a serious face, "Uncle Zhang, this is only your guess."

How could Leader Zhang not know of his thoughts? He revealed a crafty expression as he said, "It doesn't matter if you don't admit it. After all, I can make that little young lady reveal it herself."

Lu Jingye pressed his lips tightly together.

Obviously, Leader Zhang would not provoke Lu Jingye for real. "Don't worry. I have a sense of propriety. Moreover, the leaders of M.Uni have mentioned her great skills when she first arrived. I only wish to have the little young lady's help with some upgrading here and there, and changing the old equipment. This isn't too much to ask, is it?"

Lu Jingye lowered his eyes and thought for a moment. If Zi Yi was unwilling to do anything, no one could force her. Only then, did he nod his head.

...

When Zi Yi woke up the next morning, Li Xia had already gotten out of bed before her.

She went out after she washed up and just so happened to hear the sound of chopping from the kitchen.

Zi Yi turned around and walked to the kitchen and asked Li Xia, "What are we having for breakfast?"

Li Xia turned to look at Zi Yi as she smiled and said, "Zi Yi, you're up. Instructor Li and I were talking about letting you sleep for a while more. Today's patrolling plans were canceled and Instructor Li said that there's no need to get up so early."

"I'm preparing dumplings... Do you like them steamed or boiled?"

"I'm fine with both." Zi Yi then said, "Thank you."

"Hehe, you're welcome."

Zi Yi turned around and left the kitchen. Just as she arrived at the outside yard, she saw Instructor Li walking in from the outside with a bucket in hand.

"Instructor Li."

Instructor Li nodded at her and his sharp eyes saw the ring on her fingers. He merely paused for a second and kindly reminded her. "Student Zi, it's better to put away the ring on your hand. Accessories are not allowed in this camp and moreover, it's easy to spoil them during the training of the military dogs."

Zi Yi nodded and headed back to the room.

She took the ring off and called for Shadow before she passed it to him. "Help me keep it safe."

1

After Shadow kept the ring, Zi Yi walked out one again.

Coincidentally, Instructor Li was also headed outside.

Thus, Zi Yi followed beside him.

As they walked side by side, Zi Yi asked Instructor Li, "Instructor Li, have you identified the person who drugged the military dogs?"

“We’ve found the culprit. One of the staff members who manages dog food had made a mistake in the formula and blended in ingredients that would cause them to become excited.”

“What Instructor Li means is that the dog food that they ate would not actually cause any harm to their bodies?”

“Yes. That staff member has also been punished.”

Zi Yi felt that things were not as simple as they seemed.

However, she did not comment on the incident any further.

They soon arrived at the training ground. The military dogs were all full of energy now and they had been training independently on the training grounds.

The moment they saw Zi Yi and Instructor Li, a few of them ran in their direction.

They ran around Zi Yi and Instructor Li twice before they made their way back to train.

Zi Yi and Instructor Li revealed a smile at the same time.

Shortly after, they went to bring over the dog food he had collected in the morning.

The moment the group of military dogs saw there was food, they immediately happily fetched their bowls and lined them up side by side.

After their food was distributed, Li Xia just so happened to call them for breakfast on her end.

However, just as they sat down, they heard someone calling for them from outside.

“Is Instructor Li here?”

Instructor Li stood up and headed outside.

Li Xia said to Zi Yi, “This voice sounds familiar. Could it be that Doctor Zhang is here?”

Zi Yi nodded. “Yes.”

Li Xia smiled and said, “This Doctor Zhang seems like a nice person. She’s gentle and generous. Most importantly, she’s also very enthusiastic.”

Soon, Instructor Li came in with Doctor Zhang behind him.

When Doctor Zhang saw that they were just about to have breakfast, she said in slight embarrassment, “It seems like I have come at a bad time.”

“Doctor Zhang, have you eaten?” Before Instructor Li spoke, Li Xia had enthusiastically asked.

Doctor Zhang said with a smile, “I’ve eaten already.”

She smelled the fragrance in the air and said in envy, “It smells good. Are those dumplings? Did you wrap them yourself?”

“Yes.”

“Wow! We also have a kitchen on our side, but everyone’s too busy to cook.”

### **Chapter 325: The Leader Called For Zi Yi**

When Doctor Zhang knew it was Li Xia who made the breakfast, she nearly praised her to the skies.

Li Xia was so happy that words could not describe how she felt. She said with great enthusiasm, “If Doctor Zhang likes it, I can prepare more and send you a portion.”

Zi Yi and Instructor Li looked towards her at the same time.

Doctor Zhang shook her head. “It’s too much trouble for you. I think it’s best to forget about it.”

Just as Li Xia wanted to say it was not too much trouble, Zi Yi nudged her under the table.

Li Xia suddenly recalled that they were in a training camp and she was merely a student participating in the military training camp. She seemed to be too enthusiastic and so, she shut her mouth.

Doctor Zhang looked towards Zi Yi and smiled as she said, “You guys eat first. I’ll wait for you outside.”

She left after saying that.

When Doctor Zhang left, Zi Yi asked, “Instructor Li, why is Doctor Zhang here?”

“She was sent over here to observe the military dog’s training for an hour to see if there are any negative effects.”

When the three of them finished their meals and walked out, Doctor Zhang had been standing at a corner in the courtyard as she looked at the toys piled up there. She walked over the moment she saw them.

The four of them went outside together and Instructor Li conversed with Doctor Zhang about some matters related to the military dogs.

When they arrived at the training grounds. A group of military dogs who were moving about freely had dashed in their direction at the sight of them.

As Li Xia had been pounced on several times by them yesterday, she thought that they were about to do the same and subconsciously cried out. “Ah!”

“Fengling, Heihu, Feihu, Shandian! Return to your spots!”

With Instructor Li’s shout, several military dogs immediately stopped when they were about three meters away. In the end, they reluctantly ran back.

However, while they ran back to the group, they did not forget to bark in their direction.

Instructor Li said apologetically to Doctor Zhang, “These few military dogs only just reached adulthood and so, they are slightly more naughty. Doctor Zhang, don’t mind them.”

“It’s fine, I’m relieved to see that they are full of energy.”

Instructor Li did not say anything else. He said some things to Zi Yi and Li Xia, before he led the group of military dogs to begin today’s training.

As usual, it was Instructor Li who brought them around to train, while Zi Yi and Li Xia acted as support.

The third time after Li Xia was pounced on till she fell to the ground, Doctor Zhang walked to Zi Yi's side and asked in surprise, "Student Zi, why does your classmate get pounced on repeatedly?"

Zi Yi said affirmatively, "They like her."

Doctor Zhang could not help but reveal a smile at her words.

"Then why do they seem to be a little afraid of you?"

Zi Yi tilted her head and glanced at her for a moment before she looked away and shifted her gaze to those military dogs. In all seriousness, she said, "Perhaps they can't bear to pounce on me because I am good looking."

She just so happened to meet gazes with Feihu (the one who used a snake to frighten her). The corner of her lips curled up and Feihu gave her a contemptuous look before it turned and ran away.

Doctor Zhang left after an hour.

Before she left, she said to Zi Yi and Li Xia, "You can come over and play if you are free."

Li Xia looked at Doctor Zhang who had walked far away and could not help but lament. "Doctor Zhang must be the ideal woman that men would like to marry home. She's so gentle."

Zi Yi did not express an opinion.

Li Xia was a natural socializer. She saw that Zi Yi remained silent and specially went to ask Instructor Li, "Instructor Li, Doctor Zhang is very beautiful. Does she have many pursuers in the camp?"

Instructor Li shook his head. "Doctor Zhang only came here recently and I'm not sure about this."

Moreover, he was not fond of paying attention to such stuff.

Li Xia was a little surprised. "Could it be that Instructor Li does not like Doctor Zhang?"

Instructor Li's expression turned serious. "Student Li Xia, I already have someone I like. Don't make random guesses."

Li Xia pouted. "Oh..."

However, Zi Yi fell into silence. She suddenly had a strange feeling.

Before she could think about it further, a car horn could be heard from outside the training ground.

Instructor Li hastily went to open the gates.

Before long, Instructor Li came in with another man.

"Student Zi, come with me for a moment."

Zi Yi walked over and Instructor Li first introduced the man to her. "This is someone from Leader Zhang's side. His name is Wang Tong and he wishes to talk to you about something."

Wang Tong said to Zi Yi, "Leader Zhang has invited you over and he has some things to ask you."

Zi Yi knew what Leader Zhang wanted to ask and she did not appear to be too surprised.

However, Instructor Li was a little worried but it was not appropriate for him to ask too much. "Student Zi, go and come back early."

Zi Yi nodded and left with Wang Tong.

The car drove Zi Yi into a heavily guarded building. They both alighted and Wang Tong led her towards the main entrance.

At the gate, two armed guards had stopped her.

"Apologies, please undergo a check first."

Wang Tong explained to Zi Yi. "This is an important area where the leaders work. For safety reasons, people who come in from outside have to undergo a check."

Zi Yi nodded and asked, "How is the check going to take place?"

One of the armed guards took out a scanner and quickly checked her figure.

After the check, he nodded and said, "You can enter."

Wang Tong led Zi Yi to the hall.

There were several people walking around and when Zi Yi walked in, they even took an additional second to look in her direction.

Wang Tong led Zi Yi to one of the offices on the third level before he stopped.

He first knocked on the door. After the individual inside responded, he pushed the door open and said to Zi Yi, "Student Zi, you can enter now."

Zi Yi walked inside and the door behind her was closed shut.

Zi Yi was not surprised either. She looked at the middle-aged man who stood at his desk as he repaired a piece of equipment.

The middle-aged man turned and looked at Zi Yi before he said to her, "Student Zi, hold on for a minute. I'll be done soon."

Zi Yi walked over and identified what Leader Zhang was working on in a glance.

She did not speak and merely watched him fiddle around.

However, she could not endure it anymore, the longer she spectated. Leader Zhang was obviously messing around and while he waited for her to speak. She did not intend to go around in circles with him and reached out to point somewhere. "This is installed wrongly. It needs to..."

When Zi Yi was done with her explanation, she had already helped Leader Zhang install the whole equipment on his behalf.

Leader Zhang looked at the equipment in his hands and his originally serious expression had intensified.

“The Director Qin of M.Uni, has mentioned to Lu Changcheng about your situation before and he said that you are very good in mechanics.”

Zi Yi knew he had yet to finish his sentence and did not immediately speak.

As expected, Leader Zhang continued. “I feel that we have some misunderstanding about how good you were when Director Qin recommended you. Student Zi, I think you’re more capable than that?”

Leader Zhang’s expression suddenly became stern.

“The morning of the day before yesterday. How did Student Zi retrieve yours and your classmate’s luggage?”

Zi Yi looked at Leader Zhang and did not know what his intentions were. She planned to wait and see. Thus, she looked at him with an innocent expression. “Leader Zhang, what are you talking about? No one took our luggages.”

Since she refused to admit it, he could do nothing with her.

After Zi Yi said that, their eyes were locked onto each other.

### **Chapter 326: When Experts Exchange Moves, A Victor Will Ultimately Emerge**

When experts exchange moves, there will definitely be an ultimate victor...

Leader Zhang who was used to being strict in the camp had naturally exuded a powerful momentum, which could usually suppress and curb his men.

However, he felt that he had miscalculated today.

He looked at Zi Yi who was undeterred by his powerful aura and he thought in an untimely manner, “As expected of someone who is fancied by that guy.”

He admired her courage.

“It doesn’t matter if Student Zi does not admit this.” Leader Zhang suddenly said, “But you can’t possibly deny that you had gone on a date with someone in the middle of the night?”

Zi Yi looked at Leader Zhang and a glimmer of light flashed past her eyes. She asked instead of replying, “Isn’t it possible due to Leader Zhang opening the back door for us?”

Leader Zhang suddenly lost his momentum from her words and started to laugh out loud.

After he finished laughing he said, “That’s right. I have a good personal relationship with Little Lu. Before he left, I even promised him I would take good care of you.”

Speaking of this, he then changed the subject. “Therefore, I think it’s not too much for me to request Little Zi to help me?”

Zi Yi lowered her eyes, as if she was in deep thought.

Leader Zhang did not speak and allowed her to ponder as she liked.

After a period of time, Zi Yi looked up at him. "I can help this training base reinforce their security defense system."

Leader Zhang was a little surprised. "Little Zi, are you capable of doing this?"

Wasn't it said that she was skilled in mechanics?

Strengthening the defense system seemed to be beyond the scope of the mechanical field!

"Yes."

Leader Zhang looked at Zi Yi and after a while, he headed towards the door. "Let's go, I'll bring you somewhere?"

As for whether she was truly capable of such a feat, it was not something that would end just by boasting about it.

Leader Zhang did not lead her to the military stronghold's defense center. Instead, he brought her to the junction of the training ground and the forest.

After they alighted, he brought Zi Yi to the edge of the fence and pointed at the defensive net above. He intended to purposely make things difficult for her. "Since you said you are capable of reinforcing the defense system, then you can start with the hardware first."

The fence had two different parts. The bottom two-meter tall cement wall and above it were high-voltage iron wires that were at least one meter high, along with some special defensive nets.

Zi Yi surveyed the surroundings for a moment and said, "Can you give me a tablet or a laptop?"

Leader Zhang said to Wang Tong, who tagged along, "Go and get her a laptop."

Soon, Wang Tong passed Zi Yi a laptop.

Zi Yi took the laptop, found a place to lean against, and started to tap on the keys.

Leader Zhang stood by the side and watched the screen.

When he saw a 3D image of the whole training base appear on the screen, he suddenly narrowed his eyes.

"You broke through the defense network of our base?"

Zi Yi calmly replied with a yes.

She then pointed at the image and explained to him the areas that had a weaker defense and which area's surveillance cameras placements were lacking.

The more Leader Zhang heard, the more frightened he became.

After Zi Yi was finally done, he hastily asked, "Little Zi, is there any way to resolve the problems?"

"There are many places where the defense network has to be reinstalled."

"It can be done. Just tell me outright what you need."

Just like this, Zi Yi went out early in the morning and came back late at night. She had been called over by Leader Zhang to transform the existing defense of the entire camp. At the same time, she had upgraded the defense systems.

It was already a few days later when everything was done.

When everything had been done, a downpour started.

It rained extremely heavily and the downpour covered a large area. It was as if heaven and earth were shrouded by rainwater.

The downpour did not stop even after the second day.

Due to the continuous heavy rain, the whole training base had entered a state of combat readiness.

Instructor Li stood under the eaves and looked worried.

Zi Yi asked, "It has been raining for two days without stopping. Would there be mudslides from the mountains?"

Instructor Li shook his head. "This was taken into account when the camp was built. The mudslide would not cause any damage or effect to this camp."

"Then what is Instructor Li worried about?"

"There are many wild animals in the mountains. If there is a mudslide, it would destroy their homes and that would result in them rushing over to the camp.

Instructor Li continued to speak, "The military dogs would be dispatched when the time comes and I'm worried something might happen.

On the contrary, Zi Yi was not worried in the slightest.

"Instructor Li, don't worry. The defense system in the camp is very strong. Those animals cannot break through the defenses."

"I hope so."

What Instructor Li was worried about did not happen. However, on the second day, Instructor Li was called over by the higher-ups.

When he returned, Zi Yi and Li Xia saw his somewhat heavy expression and Li Xia immediately asked, "Instructor Li, what's wrong?"

"The higher-ups suddenly want to recruit some military dogs to provide reinforcements to the nearest Y base."

"Y Base?"

Zi Yi's eyelids jumped when she heard of the base.

Y Base was only 200 kilometers away from XX Base and both of them were located in the mountains.

There was no upgraded defensive system that Zi Yi had done, like in this base, and thus, they were attacked by wild animals. Moreover, some students had been frightened and ran away. Several teachers went out to find them and they were trapped in the mountains.

More importantly, Zi Yi's cousin had gone to Y Base.

Zi Yi asked in concern. "Did they say who was trapped in the mountains?"

"They didn't mention that."

After Instructor Li said that, he walked towards the training grounds with an umbrella.

Zi Yi and Li Xia quickly followed suit.

The three of them arrived at the place the military dogs stayed in. Instructor Li selected a few of them and said, "You shall follow me to rescue people trapped in the mountains. You have to remember to protect yourselves."

The military dogs seemed to have understood his words and all of them whined and responded to him.

Instructor Li then turned to Zi Yi and Li Xia. "You shall stay here and look after the military dogs. I should be able to return by tomorrow."

Li Xia hastily asked, "Instructor Li, you're planning to lead them yourself?"

"That's right. I have a tacit understanding with the military dogs and I will be able to cooperate with them better in such a situation."

Zi Yi thought for a moment and said, "Instructor Li, let me take them there."

Instructor Li furrowed his brows and reprimanded her. "What nonsense! How can a student like you get involved in such a dangerous situation."

Zi Yi looked at Instructor Li and knew that it was useless to debate with him. She then said, "Then I'll tag along with you to talk to Leader Zhang."

Instructor Li suddenly did not believe in her.

"My cousin is a teacher and she had led the group to Y Base this time around. I'm worried something might have happened to her. I only wish to speak a few words with Leader Zhang."

Instructor Li thought about it for a moment and agreed to it in the end.

Zi Yi followed Instructor Li and went to the area where the rescue team was gathered.

At that moment, Leader Zhang was giving them orders.

Zi Yi directly made her way over.

Leader Zhang was surprised to see Zi Yi. "Little Zi, why are you here?"

Just as Instructor Li was about to speak, Zi Yi said with a serious expression, "Leader Zhang, I wish to tag along."

Leader Zhang furrowed his brows.

Zi Yi looked him in the eye and said, "Don't you wish to know how I got our luggage back? If you allow me to tag along, I will tell you."

Leader Zhang furrowed his brows and he exuded a powerful and sharp aura.

How dare the young lady before him negotiate with him?

### **Chapter 327: Student Zi, Please Tell The Truth!**

Leader Zhang's aura had instantly pressurized everyone in the vicinity.

All of them could not help but think deep down, "*The courage of this student from M.Uni is commendable.*"

Everyone was waiting for the moment where she cried from fright.

However, no matter how long they waited, Zi Yi did not cry. Instead, Leader Zhang suddenly said to her, "Follow me."

Immediately after, he led Zi Yi somewhere else.

Everyone craned their necks and only stopped after they had walked far away.

"Say, what will Student Zi say to our leader?"

"I'm not sure what they would talk about, but I am sure of one thing. Student Zi is not afraid of our leader."

"This is the first time I've seen a girl other than sister-in-law who is not fearful of the powerful aura leader deliberately releases. What kind of background do you think that Student Zi has?"

"She's from the capital and perhaps she has a powerful backing."

The several subordinates whispered and Instructor Li who was standing by the side would look in that direction from time to time in worry. Deep down, he thought that she was indeed an ignorant and fearless student and he wondered if she would annoy Leader Zhang instead.

Just then, a voice sounded from behind him.

"Instructor Li."

Instructor Li turned around and saw Doctor Zhang with a medical supply box in her hand. He asked in surprise, "Doctor Zhang, you're following us?"

Doctor Zhang nodded. "That's right."

Instructor Li felt that it had not been long since Doctor Zhang joined the camp and she had not experienced many things yet and so, it was very dangerous for her to tag along.

However, they were currently in the camp, and thus, he did not express his thoughts openly.

Doctor Zhang checked the surroundings and just so happened to see Zi Yi and Leader Zhang conversing at a distance and she asked in surprise, "Why is Student Zi here? Could she be thinking of coming with us?"

Instructor Li felt like sighing at her words. "Student Zi said her cousin is at Y Base and she's worried about her. So she wishes to tag along."

Doctor Zhang nodded in understanding. "It's understandable. The ones that have gone missing were several students and teachers. Perhaps her cousin is among them and it's normal for her to be worried."

"Sigh..."

Zi Yi followed Leader Zhang and walked to an area where no one could listen in on their conversation, before they stopped.

Leader Zhang was slightly excited and his expression had become sterner.

The corner of her lips curled up at the sight of his expression. "I brought a robot that is capable of invisibility."

Leader Zhang subconsciously found it hard to believe her words. He furrowed his brow and said in a stern voice, "Student Zi, please speak the truth!"

Zi Yi clicked her tongue and said, "I'm telling the truth." If it were not because Ah Jing had said that this person was trustworthy, she would not have even bothered to explain to him.

The frown on Leader Zhang's face had deepened and his voice deepened. "Do you honestly think this training camp is a place where a young girl like you can bring in anything you want?"

Zi Yi glanced at him.

Leader Zhang's face had a tight frown, but he was shocked deep down. Could it be the truth? If it's true, that this young lady is too capable.

Should I capture her and make her work for the training camp?

The more he thought, the more excited he got. However, he suddenly thought of what Lu Jingye said to him in the past.

Leader Zhang weighed the choices. If he were to capture this young lady and make her work for the camp, he would be turning against Lu Jingye.

*If I don't, I can try to reason with her and move her by using emotions to make her work at the camp.*

At the same time, he can conquer Lu Jingye and make that little god of wealth send some good items over.

No matter how he weighed the two options, he felt that the latter was better.

"Cough cough..."

Leader Zhang cleared his throat and said, "How about this. Call out your robot and let me take a look."

Having said that, he led her away and they continued to walk further away.

He only stopped when they arrived at an area where no one could see them.

Zi Yi called out towards the air. "Shadow."

A robot surfaced in view of Leader Zhang's widened eyes.

Leader Zhang looked at the robot that appeared before him and his heart rate suddenly accelerated. He was so excited to the extent his face flushed red.

"T-t-this... is too advanced!"

He had seen robots made with cutting edge technology in the past, but this was the first time he had seen such a high-class and advanced robot. Moreover... "Why was your robot able to avoid all the special scanning equipment in the camp?!"

"He has special stealth equipment installed."

Leader Zhang was even more excited. If their camp could have a few of these types of stealth robots...

Zi Yi saw through Leader Zhang's thoughts and said, "The materials used to make this robot are very special and expensive."

Leader Zhang noticed how Zi Yi deliberately added a little weight to the word, expensive and he subconsciously asked, "How expensive?"

He did not believe that the funds of the camp could not afford to make the robot.

"A few billion."

"...What?!" Leader Zhang's voice slightly raised.

"Leader Zhang, don't get excited."

Leader Zhang: "..."

*How can I not get excited? It was a few billion for goodness sake. It was a sum of money that they could not gather even if they sold everyone in the camp!*

The way Leader Zhang looked at Zi Yi was also different.

Could this young lady who was standing before him also be a little god of wealth?

Or did the money come from Little Lu?

As he thought of this, Leader Zhang's expression suddenly became gentler. "Little Zi, actually it's not impossible for you to tag along."

Zi Yi looked at him.

He was suddenly at a loss for words. After all, a few billion was an astronomical figure, and if he asked for it, wouldn't it make him seem too much?

Zi Yi spoke up instead. "Even if I agree to make this type of stealth robot for XX Base, the materials are not easily accessible. If Leader Zhang is alright with it, I can give you a few robots that are more ordinary instead."

"How ordinary?"

"Uh... well, they can't turn invisible and can only be used for patrolling, detecting the dangers in the radius of dozens of miles, predicting nearby geological disasters, driving away poisonous snakes and animals with sound waves..."

Zi Yi suddenly paused.

However, Leader Zhang's heart rate had accelerated with every feature she said.

Zi Yi suddenly said in a vexed manner, "I still have to research sound waves that do not affect military dogs."

Leader Zhang was shocked and speechless.

After she finished speaking, she asked, "Is this type of robot alright?"

Leader Zhang opened his mouth and pinched his thigh with his hands that were hanging by his sides, before he said in a particularly loud voice, "This is... extremely okay!"

Zi Yi smiled in satisfaction. "That's great. I'll make them when I return. I'll get Ah Jing to send someone to deliver them to you when I'm done."

"No need for that. Just give me a call at that time and I'll come to pick them up personally."

Leader Zhang could only rest assured if he personally came to get those robots in person.

Zi Yi nodded and they suddenly smiled at each other.

Thus, they had reached a happy agreement.

Leader Zhang led her back and said to Instructor Li, "Let Little Zi tag along."

Instructor Li: "..."

Everyone had soon set off after that.

Since Zi Yi was going, Instructor Li did not tag along.

Looking at the particularly well-behaved military dogs led by Zi Yi, Leader Zhang praised with a loud laugh. "Little Zi is indeed capable. To think you were able to build such a good relationship with the dogs in such a short period of time."

Zi Yi subconsciously glanced at them and just so happened to meet gazes with Feihu. The human and dog had shifted their gaze away arrogantly at the same time.

### **Chapter 328: Are You Itching For a Fight?**

Doctor Zhang had also sat in the same car as them.

The moment Doctor Zhang heard what Leader Zhang said, she smiled and said, "Little Zi is so capable. Training military dogs is hard work itself. When I saw her for the first time, I even thought that she might not be able to handle the training intensity. I didn't expect her to adapt so well."

Zi Yi and a few military dogs turned to look at Doctor Zhang at the same time.

Doctor Zhang smiled in return.

Zi Yi said nothing and silently looked away.

The few military dogs had also silently withdrawn their gazes as they obediently stayed crouched.

Doctor Zhang found them too adorable and so, she asked, "Can I touch them?"

"You can try asking them."

Thus, Doctor Zhang asked one of the military dogs, "Can I touch you?"

The dog she asked just so happened to be Feihu.

Feihu rudely barked at her.

"It says no."

Doctor Zhang awkwardly laughed and did not continue to talk about wanting to touch them.

A while later, Doctor Zhang asked again, "Little Zi, have you done any preparations? It's definitely going to be very dangerous when we arrive in the mountains."

Speaking of this, she added, "I'll prepare more antidotes for you then. A landslide just happened and there would definitely be many poisonous animals around."

In fact, that was the most dangerous aspect. For people in the training camps, a landslide was not considered very scary. What's scarier was to get bitten by a poisonous animal when they head inside, and they did not have an antidote with them. It was not easy to find medicinal ingredients to detoxify the poison and they could only wait for death.

The moment Doctor Zhang mentioned this, everyone in the car became serious.

XX Base was not far from Y Base. However, they could not take the mountain road in such weather and the car could only take a detour while they traveled on foot for three hours before they arrived at their destination.

When Leader Zhang alighted, he went to shake hands with a middle-aged man who had been waiting for their arrival.

The two of them exchanged greetings.

The surname of the leader of the Y Base was Tang.

Leader Tang was surprised when he saw Zi Yi. "Leader Zhang, why did you bring a student with you?"

After that, he said disapprovingly, "This is a dangerous situation and isn't it simply making things worse by bringing a student here?"

After Leader Zhang personally saw Zi Yi's stealth robot, he felt that she was omnipotent.

However, obviously, he would not reveal this to Leader Tang.

Moreover, he did not intend to let anyone know about Zi Yi promising him to make a few robots for their camp.

He merely said to Leader Tang and guaranteed, "Old Tang, you can rest assured. I have my own plans. At that time, she will only be responsible for leading a few military dogs to search for the survivors. We will also protect her and it will be fine."

When Leader Tang wanted to continue to say something, Leader Zhang took the initiative and said in a serious voice, "Every second counts right now and we should stop discussing such an unimportant thing. It's more urgent to enter the mountains and save people."

Leader Tang's expression changed when he heard what Leader Zhang said. "How can bringing a student into the mountains be an unimportant thing? If something were to happen..."

"Old Tang, don't worry about it. I have my own plans."

When Leader Tang saw how obstinate Leader Zhang was, he thought deep down, *"In any case, it's not a student in my camp. Just do whatever you like! Hmph!"*

He informed everyone about the whole incident and where the students had run out from along with how they went missing.

"There was a heavy downpour that night and a few male students went downstairs to wash their clothes. They just so happened to meet a blind bear who broke inside. They were frightened and ran out.

Leader Zhang furrowed his brows. "Why didn't they run in the direction of the dormitory?"

Leader Zhang was also depressed. "The psychological mentality of these students is too lacking. At that time, perhaps someone had taken the lead and ran away and the rest had also followed suit and ran outside."

"We had sent people to chase them at that time and teachers from M.Uni had also followed over. However, we didn't expect them to meet a group of wild animals the moment they went out. Our men and the teachers were separated from each other."

Hearing this, Zi Yi hastily asked, "Was there a teacher named Dou Xiangling who had gone out to chase them?"

"Yes." Leader Tang nodded affirmatively. Dou Xiangling had a beautiful appearance and she also radiated an aura as if she was brought up in a good family. She was the focus of attention everywhere she went.

Zi Yi's heart clenched tightly and even her expression turned ugly.

Leader Zhang consoled her. "Little Zi, don't be anxious. Leader Tang has dispatched so many people but they have yet to locate them. They must have found a safe place to hide in."

Zi Yi did not get consoled by his words. Instead, she became even more worried.

“I need a laptop.”

Leader Tang revealed a confused expression. “Why do you need a laptop?”

“Old Tang, why are you talking so much nonsense? Just bring it.”

“Heh! Old Zhang, is your skin feeling itchy? Are you itching for a fight?!”

Seeing that they were about to start a fight, Zi Yi reminded them. “We are pressing for time. Are you sure you want to continue wasting time?”

Old Zhang and Old Tang: “...”

Were they getting lectured by a young lady?

Doctor Zhang, who had been spectating the scene from the side, walked over and asked, “Leaders, when will we be setting off?”

Only then did Old Zhang and Old Tang give up the debate while Old Tang said, “Immediately.”

Old Zhang added, “Bring the laptop first.”

Old Tang glared at him and ended up having his subordinate fetch a laptop.

Zi Yi took it and quickly started to tap on the keyboard.

Old Tang was anxious. “Old Zhang, what are you planning to do? It’s fine that you brought a student here, but are you sure we should be wasting time here?”

“We are not wasting time.”

Old Zhang motioned to him. “Take a look first.”

Old Zhang and Old Tang each stood at either side of Zi Yi. Doctor Zhang was also standing near them and watching the laptop in her hands.

When an image appeared on the screen Old Tang exclaimed. “Why do I find the image familiar?”

Before Old Zhang managed to speak, Doctor Zhang cried out in surprise, “Student Zi has actually connected to all the satellites located in the mountains near Y Base and created a 3D image!”

Old Tang: “...!”

After a while, Zi Yi pointed to an area and said, “We’ll look for them in these two areas.”

Zi Yi circled two small areas. “According to the trajectory of the landslides and flow of debris in the mountains, the wild animals will escape in this direction. It is certain that the students and teachers were chased and thus, they will run in these two directions.”

Zi Yi’s analysis made Old Zhang and Old Tang speechless, as they could not find any fault.

After she said that, Zi Yi looked towards the two of them.

Old Zhang and Old Tang looked at each other and Old Zhang pointed at the screen and said, "Our men shall look in this area."

Old Tang said, "Then my men will take this area."

After it was decided, they both left to give out orders to their men.

Doctor Zhang looked at Zi Yi with a surprised expression. "Student Zi, I didn't expect you to be so good at programming too."

Zi Yi pursed her lips and modestly said, "I'm not that great."

Doctor Zhang smiled and said, "Now that two areas have been identified, it'll be easier to search. In this case, there's no need for the group to be too scattered."

Zi Yi merely continued to nod.

Just then, Leader Zhang called for both of them and pointed at a young man and said, "He's your leader, Yang Jiangbo."

After the introduction, he said to Yang Jiangbo in a serious manner, "Take good care of these two ladies. If they lose a single strand of hair from their heads, I will take care of you when you return."

Yang Jiangbo immediately stood at attention and said while he guaranteed, "I promise not to let them lose a single strand of hair from their heads!"

### **Chapter 329: I Have a Boyfriend**

Leader Zhang nodded in satisfaction and said to Zi Yi, "Little Zi, protect yourself well. I will wait for your safe return here. Remember, if something that you are unable to resolve happens, you must find a way to seek help."

"Okay."

Everyone wore a raincoat and carried a backpack before they set off at once.

There were many traps outside the camp to prevent wild animals from entering. Coupled with the landslide and debris caused by the heavy rain during the past two days, along with the footprints of large animals, it made traversing even more difficult.

When they walked into the jungle, what surrounded them were trees, grass thorns, and mud. The places they stepped on were also uneven and they could not increase their speed at all.

Zi Yi led two military dogs while Doctor Zhang carried a medical box and they walked together.

Just then, someone asked Doctor Zhang, "Do you need me to carry your bag for you?"

Doctor Zhang shook her head and politely rejected. "There's no need. You still need the energy to rescue people later. Don't waste your energy on something small like this."

That person did not give up. "We still have to travel a long road ahead and the path is uneven. If you're tired, just pass it to me and I'll carry it for you."

“Alright then, thank you.”

“You’re welcome.” That man walked ahead of them while feeling embarrassed.

Just then, Doctor Zhang smiled and asked Zi Yi, “Student Zi, you’re so pretty and I believe you must have plenty of guys chasing you?”

Zi Yi tilted her head and looked at her. “I have a boyfriend. Others do not have the opportunity.”

Doctor Zhang was momentarily surprised at her words before she softly chuckled.

Her laughter was masked by the sound of rain hitting against the leaves and could not be heard clearly. However, it gave Zi Yi a strange feeling.

Doctor Zhang spoke up again. “Student Zi’s boyfriend must be a handsome guy.”

Zi Yi tilted her head again and looked at her.

Doctor Zhang had unexpectedly explained herself. “You’re so pretty and your boyfriend must also be a handsome guy.”

Zi Yi nodded in all seriousness. “Yes, he’s very handsome.”

Doctor Zhang seemed to want to say something.

Just then, Yang Jiangbo’s voice sounded from the front. “Everyone, be careful. We have reached the area where traps are concentrated. Be careful not to step into the traps.”

Everyone immediately increased their vigilance.

Doctor Zhang did not continue the conversation after that.

The area had been trampled on very heavily and there were broken branches and weeds all around. The path beneath their feet was even harder to see.

Yang Jiangbo got someone to get two branches for them to be used as a walking stick.

In fact, Zi Yi did not require it. However, she still took it in the end.

The military dogs were at the front leading the way and this had also allowed them to avoid the majority of the traps.

When they walked out of the trap area, what was ahead of them was a denser jungle. The skies were already dark due to the rain and they could only travel forward with the help of torchlights.

It was not known how long they had walked when a large landslide suddenly happened in front.

The military dogs leading the way had stopped and barked at that area.

The men Yang Jiangbo sent out to scout the terrain in front, just so happened to return and report. “The landslide is still ongoing ahead.”

Yang Jiangbo got everyone to stop. He turned around and said to Zi Yi and the group, “We can only take a detour. However, we have to climb a slope. Are you all alright?”

Zi Yi said, "It's not a problem for me."

Doctor Zhang said the same thing. "It's not a problem for me either."

Yang Jiangbo nodded. Just as he was about to get everyone to continue walking, thunder sounded in the skies.

Immediately after, a bolt of lightning descended from the skies and it just so happened to strike somewhere nearby in front of them.

Everyone was frightened.

"Why is there thunder and lightning? Can we continue to head forward like this?"

Everyone knew that one should avoid traveling in the jungle during a thunderstorm, or else they would be in deep trouble.

Even the military dogs were a little cranky.

Before Yang Jiangbo set off, Leader Zhang had specifically informed him to ask Zi Yi if she could resolve the problem if they were to encounter any issues.

Even though he felt that it was unnecessary to ask, he still asked for her opinion, "Student Zi, do you have any methods?"

Zi Yi nodded. "This is a small matter... I have a lightning conductor with me. It will be alright as long as everyone stands closer to me."

Yang Jiangbo was surprised. The thought of Leader Zhang repeatedly reminding him to ask her, crossed his mind again, and he then shouted to everyone, "Everyone, come closer. We will continue to walk forward."

Everyone walked closer in Zi Yi's direction.

Sure enough, a flash of lightning soon struck down.

Looking at the glistening lightning, everyone's complexion paled from fear. The next second, the lightning seemed to be intercepted by something by the tree above them and disappeared without a trace.

"What happened?"

"Isn't it too amazing?"

Everyone looked upwards at the tree and was stunned.

Yang Jiangbo looked at Zi Yi with a shocked gaze.

Doctor Zhang looked up at the intercepted lightning and was also amazed. "Little Zi, how did you manage to intercept the lightning?"

Zi Yi mentioned it casually. "A self-made lightning conductor."

Doctor Zhang somewhat did not believe what she said.

Since the lightning could be intercepted, everyone continued to travel forward.

After walking for another two hours or so, everyone was somewhat tired.

Yang Jiangbo got everyone to stop and ordered two people. "Check the vicinity to see if there are any shelters we can use to avoid the rain. Let's have a short rest first."

The two men quickly went to survey the area and made their way back very soon.

"Report. There's a tree hole ahead and we can shelter there from the rain."

The area they were in was a primeval forest and there were trees that were as large as a few people or dozens of people. Therefore, it was normal to have large tree holes.

Everyone finally felt assured and they were not afraid of getting struck by lightning in the tree hole.

When they entered the tree hole, the group of people sat down to replenish their fluids and ate some dry rations.

Just as Zi Yi finished drinking, Doctor Zhang, who was sitting down beside her, suddenly asked in a soft voice, "Student Zi, do you want to go to the toilet?"

Zi Yi looked at her.

Doctor Zhang was somewhat embarrassed. "I want to go to the toilet, but I'm afraid of going alone. Why don't we go together?"

Zi Yi thought for a moment and nodded. She informed Yang Jiangbo who had looked in their direction. "We'll be going out for a moment."

Yang Jiangbo nodded in understanding and said, "Don't walk too far. You can go to the back of the tree. We won't go out."

"Okay."

They wore their raincoats and headed outside. Feihu who was crouching on the ground had suddenly leaped up and followed them.

When Zi Yi saw Feihu following them, she even asked, "Feihu, could it be that you're here to protect us?"

Feihu turned his head to the side, and looked proud.

The corner of her lips twitched.

Doctor Zhang who was walking beside her could not help but laugh. "It seems like Feihu likes you a lot."

Zi Yi nodded. "Indeed."

Feihu: \*Whine\*

*Who likes you?!*

They walked around to the back of the tree, but Doctor Zhang still felt a little uneasy and headed towards another tree.

While they walked, she said, "Little Zi, if you don't plan on relieving yourself, there's no need to follow me. I'll be back soon."

Zi Yi responded with an ok and did not continue to follow. Feihu had also stood beside her and remained there.

However, after they waited for a while, Feihu suddenly barked in that direction.

What followed after was Doctor Zhang's scream and there was no other sound that followed.

### **Chapter 330: Doctor Zhang and Feihu Have Gone Missing**

"Doctor Zhang."

Zi Yi called out. She always felt that Doctor Zhang was strange and so she hesitated for a moment and did not head over at once.

Woof woof woof!

However, Feihu barked and dashed over. He went behind the tree and repeatedly barked.

Zi Yi thought for a moment and decided to call for Yang Jiangbo and the rest.

Yet, Feihu had unexpectedly chased over and the sound of its barking got further and further away.

"Feihu, come back!"

When she ran to where the tree was, Feihu had already disappeared.

Zi Yi stood there and narrowed her eyes as she said to Shadow, "Search."

She then turned around and ran back to the tree hole to inform Yang Jiangbo. "Doctor Zhang and Feihu have gone missing."

Yang Jiangbo and the group of people had stood up at once.

Yang Jiangbo wore his raincoat and asked, "What exactly happened?"

Zi Yi explained the whole situation that transpired earlier and in the end said, "When Feihu sensed something wrong, he had rushed over. But when I started to chase him, Doctor Zhang and Feihu had both gone missing."

Yang Jiangbo furrowed his brow and felt that the incident was slightly odd. "Did Doctor Zhang call for help then?"

"She did. When Feihu rushed out, she only called for help once."

Yang Jiangbo calmly analyzed. "It is possible that Doctor Zhang had encountered a large animal. Moreover, that animal had been hiding behind the tree in advance... If any large animal had been lurking nearby, their scent would have been washed away due to the downpour. Feihu would not be able to

detect it by scent if it does not move. The moment Feihu dashed over must be the time where the wild animal took Doctor Zhang and moved about.”

Even though Yang Jiangbo’s analysis was reasonable, Zi Yi still found it somewhat weird and strange.

Just then, a subtle mechanical voice sounded in Zi Yi’s ears. “Master.”

Zi Yi hastily asked, “What’s the matter?”

Yang Jianbo looked at Zi Yi in surprise when he heard what she said. His gaze constantly looked around her surroundings as he wanted to find out who she was talking to.

Zi Yi merely gave him a glance and did not provide him with any explanation. After she listened to Shadow’s report, she said, “A gorilla about the size of a bear had taken Doctor Zhang away.”

Yang Jiangbo furrowed his brows upon hearing what she said. Even though he was surprised as to how Zi Yi knew about this, he still explained, “There’s indeed a type of gorilla here that is extremely large in size. Its weight is similar to that of a bear and they are also intelligent. They would usually move in a pack and as long as one appears, there would certainly be several others in the vicinity.”

Just as Yang Jiangbo said that, the military dogs standing outside the tree hole started to bark aggressively.

At the same time, the roar of gorillas could be heard outside.

Everyone’s expression stiffened.

Yang Jiangbo said to everyone, “Follow me.”

After he said that, he turned around and walked two steps before he seemed to have thought of something. He stopped and said to Zi Yi, “Student Zi, don’t come out. I’ll bring my men to chase them away first.”

“Wai—”

Zi Yi did not manage to stop them in time when the group of men had already strode out in large strides.

Zi Yi got Shadow to pass her a few circular balls and she put them in her pocket, before she followed the group outside.

There was a small area of flat land beside the tree hole and at that moment, the group of men were fighting against three adult gorillas.

These gorillas were large in size, strong and their skin was thick. Besides, they belonged to the group of wild animals that belonged to the wild animals’ protection act and so, the group could not possibly kill them. Yang Jiangbo could only try to fight with it.

Zi Yi glanced over and threw a ball in their direction.

Just then, Shadow informed her. “Master, there’s a gorilla approaching you from the tree behind.”

Zi Yi made a quick run to the side.

A loud landing sound and heavy footsteps could be heard from behind.

She did not stop moving and continued to run. After she ran a certain distance away, she loudly said to Shadow, "Stop that gorilla!"

Shadow appeared and started to fight against the gorilla.

Zi Yi stopped running and loudly shouted at Shadow. "Electrocute it."

Electrical current surfaced from Shadow's body and it had soon electrocuted the gorilla.

Zi Yi went over to check on the gorilla that had lost its consciousness. Just as she planned to make her way back, she suddenly heard the sounds of someone running over.

Shadow spoke up at that time. "It's that military dog."

It turned invisible after saying that.

Feihu was obviously in a hurry when he arrived next to Zi Yi. It first gave her a few barks before grabbing her by the leg of her trousers and pulled her aside.

Zi Yi asked, "Feihu, did you discover something?"

"Wuuu..."

Feihu responded while pulling her.

Zi Yi thought for a moment and followed Feihu as they ran in a direction.

She ran with Feihu for a while and the road was honestly too hard for her to run about. She simply got Shadow to lift her up.

One human, a military dog, and a robot were traveling forward in one direction at a very fast speed.

After they ran for almost ten minutes or so, Zi Yi saw Doctor Zhang lying by a tree.

Zi Yi thought that the military dog wanted to take her to Doctor Zhang. However, it made a detour and ran in another direction.

She was slightly surprised and followed Feihu.

The military dog brought Zi Yi to a slope before it stopped. Thus, one human and one military dog stood beneath the trunk of a large tree. The trunk had just so happened to shelter them from the rain and Zi Yi asked in surprise, "Feihu, why did you bring me here?"

Feihu raised one of its front paws and pointed at the place Doctor Zhang lay.

Zi Yi glanced over and she saw Doctor Zhang standing up. She swiftly took out a bottle from the medical supply box and scattered it in her surroundings.

Zi Yi's eyes narrowed. Her intuition was telling her that there was a problem with what Doctor Zhang scattered around her.

She stood there and thought for a moment as she intended to adopt a wait-and-see approach.

After ten minutes or so, a terrifying scene happened at Doctor Zhang's side. A large group of poisonous animals appeared and encircled around her.

Doctor Zhang screamed in fear.

Before Zi Yi could figure out what was happening, she saw a group of military dogs running over, followed by Yang Jiangbo and his team.

However, the poisonous animals kept gathering and it had reached a terrifying amount.

Feihu standing next to Zi Yi continuously barked in that direction and wanted to dash over.

"Feihu, don't move!"

Zi Yi was even more suspicious and she said to Shadow, "Go and grab the medicine supply box. Don't let Doctor Zhang find out."

Zi Yi waited for a while and Shadow brought her the medicine box. She opened it in haste.

There were many different types of medicine bottles neatly arranged inside.

Zi Yi took out a few bottles and took a sniff. When she was smelling one of the bottles, she suddenly covered it.

"It's actually mixed with poisonous animal attracting drugs?"

Woof! Woof! Woof!

"Master, be careful."

At the same time Feihu and Shadow reminded her, a voice sounded from behind. "Sure enough, you're skilled."

Zi Yi turned around and saw a woman in tight, black leather pants. She radiated a cold aura as she stood there.

Zi Yi narrowed her eyes as she stared at her. "Who are you?"

"I'm someone here to take you away."

After the woman said that, a gun appeared in her hands and pointed in her direction.

Feihu and the robot stood in front of her at the same time.

The woman suddenly burst out laughing and motioned with the gun. "Take a look in that direction."

When Zi Yi looked in Doctor Zhang's direction, her pupils suddenly shrank.
