Chapter 501: Say, Which Base Do You Think the Second Young Master and Zi Yi Are at?

It was already 4 p.m in the afternoon by the time Zi Yi and Lu Jingye arrived at the secret base.

The managers of the secret base and Elder Hu all came out to welcome their arrival.

As soon as Elder Hu saw Zi Yi, he had a wide smile on his face and he pulled Zi Yi towards the lab. "Little Zi, you're finally here. Come, let's work on some experiments together."

Lu Jingye looked at the two distant figures. It took him a few seconds before he shifted his gaze away and looked at the five managers, who were craning their necks to look in the same direction.

The five of them immediately stood upright after noticing Lu Jingye's gaze on them.

Lu Jingye said to them, "Let's go to the conference room."

He headed towards one of the buildings after saying that.

Ji Dekun winked at the others and whispered, "Say, which base do you think the Second Young Master and Zi Yi are at?"

Wang Biao replied, "Instead of being concerned about this, shouldn't you be worried about how you have treated Miss Zi in the past, and thinking about whether the Second Young Master would make things difficult for you or not?"

Ji Dekun's expression changed and he immediately revealed a bitter expression.

Zhang Hongliang joined in and said, "You better keep your curious thoughts at bay. Be careful as the Second Young Master might just teach you a lesson."

Tian Dongquan poured salt on Ji Dekun's wound and said, "You're single yourself, so why are you so concerned about this type of thing? Aren't thoughts like this just taking a knife and stabbing your sore spot?"

Ji Dekun felt like blowing up in anger and just when he was about to speak, Lu Yi glanced at him and said, "It's boring."

The four of them left after they had said their piece.

Ji Dekun's expression changed several times before he grinned. "What's wrong with liking some gossip? You guys are the ones who are boring."

Zi Yi and Elder Hu directly made their way to the lab.

While they walked, Elder Hu said in an excited tone of voice, "I've done many experiments with the cell regeneration liquid and the results are all very successful."

He then told her about the reactions of those successful experiments at the later stages.

Elder Hu excitedly said, after he finished informing her of the results, "I feel that it will be fine even if we immediately started experimenting on a human body."

“It doesn’t work this way.” Zi Yi said, “There’s still a big difference between humans and experimental bodies. When the cell regeneration liquid flows into Yunxiao’s brain, there are numerous possibilities, so we have to make additional preparations in advance.”

“What kind of preparations?”

Zi Yi told him what preparations were required and after that, she said, “I will prepare some medicine and it would be best if we don’t directly operate on Yunxiao. We’ll let him enter a special container that is filled with the nutrient solution liquid that his body needs. In the end, we’ll inject the cell regeneration liquid into his brain.”

Elder Hu looked at Zi Yi in amazement after hearing what she had to say.

“Little Zi, how did you come up with such a treatment method?”

Disregarding whether this method was feasible or not, just the concept of it alone sounded far better than the best treatment method available now.

Zi Yi answered with a serious expression, “I thought of it by combining my knowledge from various medical books.”

Elder Hu: “...”

Why does he feel that the little girl in front of him was speaking nonsense?

Elder Hu thought for a moment. He did not wish to dampen her spirits, but he still ended up saying, “This idea of yours is good, but how do you intend to create the nutrient solution you mentioned? Are you able to create it in such a short period of time?”

“Yes, I can.”

Zi Yi then said, “The majority of the medicinal ingredients that Ah Jing collected previously can be used. We’ll just have to buy a few more medicinal ingredients from the market and then I’ll be able to create it.”

“But we don’t have the formula for that.”

This type of nutrient solution was unheard of to Elder Hu.

“I have it.” Zi Yi knew that Elder Hu would not believe her. When they arrived at the lab, she took out a pen and notebook from one of the drawers and sat down. She then started to fill the pages with words.

Elder Hu stood behind her and looked at the names of the medicinal ingredients she had written.

Zi Yi had written on a total of forty to fifty pages.

Looking at the thick list of medicinal ingredients, Elder Hu was so shocked that his eyes were wide open.

The names of the medicinal ingredients that Zi Yi had written down were all familiar to him. There were some which he did not even know could be paired together.

After Zi Yi finished writing out all the medicinal ingredients, his expression was rather solemn.

He originally wanted to say something, but Lu Jingye made his way in at that moment.

When Zi Yi saw Lu Jingye coming in, she passed him the list of medicinal ingredients she had written. "Ah Jing, this is the nutrient solution's prescription for Yunxiao."

Lu Jingye took the prescription and nodded his head. "Alright, I'll get someone to prepare them right away."

"Mr. Lu." Elder Hu could not hold back anymore and asked, "Do you really believe in this prescription?"

Lu Jingye nodded his head. "Since I've asked you two over to help treat Yunxiao, I will certainly have faith in you."

Elder Hu was still a little worried.

Zi Yi could more or less make out what he was worried about. She smiled and said, "Elder Hu, don't you worry. Yunxiao is my brother-in-law and I've said this to Ah Jing before. I will only marry him after Yunxiao regains consciousness. In order to marry Ah Jing without a hitch, I am also hoping to have Yunxiao wake up as soon as possible."

Elder Hu looked at Lu Jingye with an expression of surprise.

Lu Jingye raised his hand and stroked her head. "So that I can marry you, Yunxiao will also do his best to recover."

Zi Yi laughed at that.

Elder Hu was speechless...

Zi Yi and Lu Jingye had partaken in an extremely long journey to arrive here today and Lu Jingye did not allow her to continue with the experiments. After they went to check up on Lu Yunxiao, they returned to their place of residence.

Lu Jingye had a separate small yard of his own.

Around the fence of the yard was a tangerine tree and it was the season for tangerine trees to be ripe and in full blossom.

Zi Yi directly made her way over to the tree when she entered the courtyard and saw the tree.

Lu Jingye walked over to her, raised his hand, and picked a tangerine that was located in a slightly higher place for her.

"Now that it's winter, there are more foggy days than sunny days and so, the tangerines are juicy and sweet."

Zi Yi started peeling the skin off of the tangerine and sure enough, it was sweet and juicy.

Zi Yi peeled another piece and fed it to Lu Jingye.

Lu Jingye ate the tangerine that was placed on his lips.

The corner of her lips curled up and Zi Yi said, "This tangerine is so sweet and it seems like during this period of time where I'll be staying here, I won't have to worry about not having fruits to eat."

Having said that, she continued eating.

"There are also other fruits available here."

"Hmm?"

"Grapefruits, sugarcane, apples... besides these few, there are many wild fruits in the mountains."

Zi Yi's eyes brightened as Lu Jingye listed the fruits available here. "Let's have a walk in the mountains when we have time!"

"Okay."

They entered the room and Lu Jingye suddenly thought of something. "I don't have an air conditioning unit installed here. Would you prefer to install air conditioning or just have floor heating?"

Zi Yi checked out the room and continued walking inside.

Lu Jingye tagged along.

After Zi Yi finished checking out the master bedroom, she said, "I feel that there's no need to install anything."

"It's very cold here at night during winter."

"Hehe, it's better when it's cold. We'll be able to hug each other for warmth when the time comes."

"..."

Lu Jingye suddenly felt like grabbing the young lady and doing something to her.

At the thought of this, he also decided to act on it.

Their lips met each other and their surrounding temperature slowly warmed up. Gradually, the entire room seemed to be as warm as springtime when flowers are blooming.

The situation was so intense that Lu Jingye's fingers seemed to have a mind of their own, as they snaked their way into her clothes while caressing her waist.

As he listened to the young lady's charming moans, Lu Jingye only managed to separate himself from her after exerting great efforts to restrain himself.

Zi Yi hugged his waist in discontentment. As she gasped for air, she muttered in a soft voice, "You're so old-fashioned! I really wouldn't be surprised if you become sick from restraining yourself too much and because of you, we won't have a happy life in the future anymore.."

Chapter 502: Since You're so Worried That I Can't Do it, You Better Not Regret it When it Happens

Lu Jingye's heart trembled from the young lady's teasing.

He hugged her tightly once again and allowed her to feel his urges directed towards her. While whispering in her ears with a hot breath, he said, "Naughty girl. Since you're so worried that I can't do it, you better not regret it when it happens."

Lu Jingye radiated a strong and dangerous aura as he said those words. Zi Yi blushed in response and her heart sped up for no reason.

She put her arm around his waist and buried her head into his embrace while imagining such a scene and the corner of her lips unconsciously curved up.

Lu Jingye finally had the chance to see a 'slightly' embarrassed young lady and he felt a little comforted.

The both of them continued hugging for a while, before they respectively went to take a shower.

In the following days, Zi Yi and Elder Hu were cooped up in the laboratory, while Lu Jingye controlled the development in the outside world from a distance.

The robots disguised as Zi Yi and Lu Jingye had arrived in S City and those people from the capital had secretly sent groups of men to deal with him.

All of them were taken care of one by one.

As for Zi Yi's side.

Ever since Zi Xu learned of the news that his favorite daughter had been pushed off of a building by Li Peirong, he had been heartbroken. But he had also managed to think things through very quickly and started to shift his attention to Zi Yi.

Sure enough, like what the Dou Family had imagined, he started to play the family card with Zi Yi.

However, as soon as he had that thought in mind, it was crushed into ashes by Dou Jingning.

Dou Jingning had directly stayed in their house, so that he could keep an eye on his every move.

Zi Xu was angry, but he had no means to deal with that brother-in-law of his. Right now, even at the sight of him, he would get irritated.

At this moment, the people sent from the various large families in the capital had secretly gotten into contact with him.

They had booked a room and met with him in a private restaurant. Zi Xu was no fool but he pretended to be a fool when he arrived there.

The people who invited him to the meeting were also smart people. From the very beginning of the meeting they talked about his recent troubles.

"We are deeply saddened by the fact that such an incident happened in Mr. Zi's family. However, the dead are gone but the living still have to look ahead."

"That's right. We have also understood about Mr. Zi and your eldest daughter's situation. From how the Dou Family is keeping a close eye on Miss Zi and preventing her from approaching you, coupled with the fact that you had previously notarized a will to transfer all your assets to your younger daughter, which

had resulted in a rift between you and your eldest daughter... Mr. Zi, have you ever thought that it would not be so easy to amend the relationship between you and your eldest daughter?"

"Your eldest daughter is currently in a relationship with the Second Young Master Lu. Mr. Zi, I'm not trying to gossip here, but the Second Young Master Lu has been chased out of the Lu Family by Patriarch Lu and he also left the family without a single penny. He is without authority and wealth right now. If your eldest daughter were to follow him, she would only suffer in the future. Perhaps instead of helping you, it might even cause you tons of trouble in the future."

"Second Young Master Lu has offended plenty of people in the business industry and there are many people keeping an eye on him right now. They would never give him the chance to make a comeback. If your daughter were to marry him, your company would be his in the future. At that time, wouldn't everyone unite to deal with your company?"

The more Zi Xu listened, the colder he felt and his expression looked heavy.

If Li Peirong had not pushed his youngest daughter off of the building, he would not have had to worry over such problems right now.

At the thought of this, he really hated Li Peirong who was recently admitted into Qian Shan Mental Hospital.

He must have been blind to have fallen for a woman like her in the past.

To think that she was so vicious!

Zi Xu became increasingly irritable. In addition, they kept talking about how his company would be ruined by Lu Jingye in the future.

Zi Xu started to drown himself in alcohol.

When the rest saw his reaction, they made eye contact and started to bring up suggestions for him.

"Mr. Zi, I feel that in this type of situation, you should eradicate the problem from its root."

"How so?" Zi Xu's expression was heavy and he drank another sip of alcohol.

"Mr. Zi, why don't you find someone in private and marry off your eldest daughter, since she has yet to officially get married to Second Young Master Lu?"

Zi Xu's expression stiffened. Ever since he returned from abroad and saw his eldest daughter's current appearance and mannerisms, he felt that she should get married into a rich family.

"To tell you the truth, I am from the Qin Family. Our Family's Eldest Young Master has taken a fancy to Zi Yi. If you agree to it, you can marry your daughter to my Eldest Young Master."

"Mr. Zi, my family's Fourth Young Master has been pining over Miss Zi and you can also take him into consideration." This was said by someone from the He Family.

Zi Xu did not expect that two young masters from two major families would vie for his daughter. His agitated emotions disappeared without a trace and instead, his heartbeat sped up out of excitement.

However, he tried his best to suppress the excitement, clenched his wine glass, and pretended to be aloof as he asked, "Do you mean what you've just said?"

"How could we possibly joke on this matter. Mr. Zi, if you are unable to trust us, we can call our family members and you can speak to them personally."

While they said that, they had unexpectedly made a call. When the other party answered the phone, they started chatting with Zi Xu.

The more he conversed with the other party, the more excited he became. In particular, at the thought that two young masters from these major families wanted to marry his daughter, he felt an indescribable sense of accomplishment.

However, he did not respond out of impulse. Instead, he told them that he would go back and think about their offer.

He planned to get someone to investigate the Qin and He Family to see which had more power. At that time, he would marry Zi Yi to the more powerful side.

Inside the secret base.

The five managers felt a chill down their backs and they carefully sat there as they looked at the Second Young Master who clearly showed no change in expression, but the aura he radiated was exceedingly cold. They were thinking to themselves, "*What could possibly cause him to get so angry?*"

Lu Jingye made eye contact with them and said, "Zhang Hongliang, Tian Dongquan, and Lu Yi shall immediately head out to purchase these medicinal ingredients. I hope that you can gather everything listed within a week's time."

The three of them immediately stood up and answered in unison, "Yes, Second Young Master."

Following that, they left the conference room and went to prepare the medicinal ingredients.

Wang Biao and Ji Dekun were still inside the room.

Wang Biao sat there with a straight posture as he waited for Lu Jingye's commands.

However, Ji Dekun could not sit still and tried to ask, "Second Young Master, do you have any work where you need to beat someone up? Why don't you send me out to assist you on that?"

Wang Biao glanced at him from the corner of his eyes. *You're just a technician in charge of managing other technicians... How powerful can your fists possibly be?*

If there was a job that required them to beat someone up, it would be better to send him instead.

Lu Jingye glanced at the both of them and said, "Your task is to ensure the safety and security of the base. You can leave."

Ji Dekun wanted to say something else, but he was pulled out of the conference room by Wang Biao.

When they were dozens of meters away from the conference room, Ji Dekun looked at Wang Biao in discontentment. "Old Wang, why did you pull me away? Didn't you see that Second Young Master was obviously angry and wanted to kill someone?"

Wang Biao rolled his eyes and said, "Second Young Master must be angry about something in the outside world and what could you possibly do about it?"

He left after he said that, leaving behind Ji Dekun who was scratching his head.

"So what is the problem of having me head outside to do things? I've never lost to anyone in terms of beating someone up."

Inside the conference room.

After everyone left, Lu Jingye took out the phone which Zi Yi had helped him modify, and gave Mrs. Lu a call.

As soon as Mrs. Lu answered the call, Lu Jingye said, "Mother, the Qin Family, and He Family have designs on Yiyi. They are trying to persuade Zi Xu to marry Yiyi into either of their families.."

Chapter 503: In His Dreams! He Can Marry Over Himself if He Wants to Marry

Mrs. Lu was extremely angry when she heard the news. "Zi Xu is simply not a human being. You and Zi Yi are clearly together and he's still acting like that. What does he think of the Lu Family as?"

Lu Jingye reminded her. "I've already been chased out of the Lu Family."

Mrs. Lu got even angrier. "Your grandfather was muddle-headed to have chased you out of the Lu Family. No matter what, you're still mine and Jianlin's son. Whoever dares to bully my son, I'll make them regret it!"

Lu Jingye responded with a sigh and suggested to her. "Mother, Yiyi has secretly transferred her name from off of the family register in the past. You can have a discussion with the Dou Family on this. If they give their approval, Zi Yi and I shall get our marriage certificate first and have the wedding after as per what you've mentioned previously."

Mrs. Lu sighed and said, "I guess that's the only way. Little Zi would have to suffer a slight grievance, but it's better than allowing Zi Xu's and those crafty people's schemes to succeed."

Speaking of this, she asked, "Does Little Zi know of this matter?"

Lu Jingye said, "I've yet to inform her."

Mrs. Lu replied, "Then you better have a talk with her. As long as she agrees to this, I'll immediately visit the Dou Family and have a chat with them. After that, we'll get the marriage certificate done."

Lu Jingye agreed with her. "Okay."

Lu Jingye headed to the laboratory after he hung up the phone.

He looked at the young lady working on her experiments with a serious expression and he withdrew all the killing intent in his eyes. Instead, he looked at her with a gentle gaze.

Zi Yi seemed to have sensed his gaze and when she turned around, she saw Lu Jingye standing outside looking at her.

Zi Yi motioned through the glass window for him to come in.

Lu Jingye made his way inside.

Zi Yi smiled and said, "Ah Jing, I plan to start working on the medical equipment you had acquired previously."

Lu Jingye also revealed a smile. "Okay."

Zi Yi looked away and continued working on the experiment. While she worked with her hands, she explained to him why she had to modify the medical equipment.

"Many of them are unable to meet my requirements, but some of the components inside are pretty good. I will use those components to assemble several other medical equipment."

Lu Jingye asked, "Is there anything I can help with?"

Zi Yi tilted her head and looked in his direction and thought for a moment. "I'll tell you how to assemble the new equipment, and you can help by handing me the tools."

"Okay."

Lu Jingye waited until Zi Yi finished with the experiment. The two of them went out of the lab and he told her about what happened.

Zi Yi coldly snorted at the news. "In his dreams! He can marry over himself if he wants to."

Lu Jingye grabbed her hand and said, "I'll get my Mother to discuss with the Dou Family. After that, we'll get our marriage certificate first."

Zi Yi was delighted at his words. The corner of her lips curled up and she nodded in agreement. "I love this idea."

She took out her phone, switched to the front facing camera, and aimed it at both of them. "We need a photo for the certificate. Let's take a picture first and send it to Auntie Lu."

Both their heads slightly tilted towards each other and they revealed a smile at the same time.

Zi Yi pressed the button and their photos were taken.

Zi Yi edited the background and said with extreme satisfaction. "Our photos are really beautiful."

Lu Jingye lightly smiled and waited for her to put away her phone before holding her hand as they walked towards the canteen.

"What do you want to eat tonight?" Lu Jingye asked. Zi Yi suddenly thought of the barbecue she had previously. "I want to eat barbecue."

Zi Yi suddenly thought of the alcohol Wang Biao had treated her to and she started hatching a plan. She came closer to Lu Jingye and deliberately lowered her voice and whispered in his ear, "Ah Jing, Wang Biao has some fruit wine stored at his place. Why don't we borrow some?"

Lu Jingye looked at her.

Zi Yi winked at him and said, "You're not allowed to punish Wang Biao. He made the alcohol only to have a sniff and he hasn't drunk from them... You better act like you don't know of this."

Lu Jingye: "..."

So why did you tell me this?

Zi Yi started laughing as she said, "Let's quietly grab a few bottles to have a drink. In this case, he won't have any psychological burden."

Lu Jingye could not help but laugh and raised his hand to stroke her head while asking, "Do you know where he hid the alcohol?"

"I don't know, but Shadow does! Shadow can scan for them."

Lu Jingye thought for a moment, took out the internal communication device and called out to Wang Biao and Ji Dekun. "Go prepare some barbecue ingredients. Yiyi and I will come over shortly."

He turned off the communication device and while Zi Yi was staring at him expectantly, he asked, "When do you plan to drink after taking the alcohol?"

"We'll wait for Wang Biao and Ji Dekun to finish barbecuing the food and take some back to our rooms to eat. In that case, we'll be able to drink freely."

"Okay."

The two of them took a detour and headed to the building where Wang Biao was staying.

Zi Yi got Shadow to enter his room and grab two bottles to send back to their rooms. Following that, the two of them made their way to the canteen.

Wang Biao and Ji Dekun were currently setting up the barbecue equipment and preparing the food.

Elder Hu was sitting at the side as he watched them get busy.

Zi Yi walked over and sat beside Elder Hu.

Lu Jingye took off his outerwear, passed it to Zi Yi, and headed over to the barbecue equipment.

Elder Hu looked at Lu Jingye who was busy barbecuing and said, "The impression the Second Young Master gave me was that he was a Prince that lived in luxury. I didn't expect that he would be so down to earth."

Zi Yi was also looking at Lu Jingye who seemed to be experienced in cooking and knew what he was doing. She giggled and said, "Ah Jing knows tons of things, it's just that he rarely has the chance to showcase them."

“Haha... you’re right.”

After Lu Jingye went over, Wang Biao and Ji Dekun could only stand by the side and watch him.

As they looked at Lu Jingye who was grilling the lamb chops, Ji Dekun quietly whispered to Wang Biao, “I bet that Second Young Master is grilling those lamb chops for Miss Zi.”

Wang Biao looked at him. “Isn’t that obvious?”

Ji Dekun touched his chin and asked, “Say, do you think Miss Zi will ask us to bring over some rice wine later?”

Wang Biao thought for a second and suggested. “You can ask Miss Zi.”

Ji Dekun had actually asked out loud. “Miss Zi, do you want some rice wine?”

Zi Yi put on airs and replied, “Nope.” She already had two bottles of fruit wine and so how could she want rice wine?

“Hm? Miss Zi doesn’t want to drink?” Ji Dekun was somewhat surprised. “Old Wang, do you think Miss Zi is pretending to be feminine in front of the Second Young Master?”

Wang Biao could not stand him and said, “They are lovers so what’s wrong with trying to pretend a little? This is called spicing up one’s life. What does a single dog like you possibly understand?”

“...Hey Old Wang, you’ve gone too far. Stop calling me a single dog as and when you like it! If we are really going to delve into this topic, you’re in the same situation as me!”

“I am, but I have not fallen to the extent that I’m now a gossipmonger.”

“Hey! This is a personal attack!”

Ji Dekun was enraged and he unconsciously increased his volume.

Just then, Lu Jingye said, “Help me look for a basket and plates. Place a layer of insulation at the bottom.”

Wang Biao and Ji Dekun looked at each other and Wang Biao immediately turned around to search for the items.

Ji Dekun could not control his curiosity and so he asked, “Second Young Master, you and Miss Zi don’t intend to eat here?”

“No we don’t.”

Ji Dekun opened his mouth, and wanted to say that it’s more fun with everyone gathered together.

However, he dared not say that out loud.

After Wang Biao found those items, Lu Jingye placed the lamb chops he had barbecued inside the basket. He carried it and said to Zi Yi, who was chatting with Elder Hu, “Yiyi, it’s time to go back.”

Zi Yi stood up and said, “Elder Hu, we’ll be leaving now.”

“Go, go. Sigh, you young people nowadays like having alone time together... don’t get up too late tomorrow.”

“Got it.”

Zi Yi left together with Lu Jingye.

Ji Dekun looked at the two of them who left together and muttered, “Doesn’t barbeque taste best when it’s just been barbecued? Isn’t the Second Young Master and Miss Zi worried that it might get cold if they bring it back? Also, the smell of mutton will be quite strong if it cools down.”

Chapter 504: Bad Girl, Who Told You to Wear My Clothes?

Wang Biao glanced at Ji Dekun and subconsciously moved two steps to the side.

It was said that being a gossipmonger was contagious and he did not wish to get infected.

However, Ji Dekun did not know when to stop. “Based on how Miss Zi drank alcohol the previous time she had a barbeque with us, it is really a surprise that she doesn’t want to drink.”

Wang Biao could not take it anymore and said, “There’s no alcohol here, how is Miss Zi supposed to drink?”

“You have alcohol.”

Wang Biao gave him a warning look and started to roast the mutton for himself and Elder Hu, and he decided to ignore Ji Dekun.

However, Ji Dekun seemed to have a problem controlling his mouth today. After they finished the meat and headed to their dormitories, he said to Wang Biao. “Old Wang, why don’t you go and check up on those bottles of alcohol you have kept hidden? In the event Miss Zi was to let the cat out the bag, you’ll be dead meat if Second Young Master knows of this.”

Wang Biao shot him a glare and got angry. “Go! Go, get lost. Stop cursing me. Miss Zi is not someone like that.”

Ji Dekun clicked his tongue and said, “Miss Zi is a crafty fox. Perhaps she might have had the urge to drink and told the Second Young Master about how you had hidden the alcohol. In that case, the Second Young Master will confiscate all your alcohol and even punish you.”

Wang Biao’s complexion darkened upon hearing his words.

He felt that Ji Dekun was cursing him.

However, he still decided to check out the place where he had hidden the alcohol.

He was stunned on the spot after he checked the place.

“Why? What’s wrong?”

Ji Dekun looked at the bottles of alcohol over his shoulders and started counting. "One, two, three, four, five, seventeen, eighteen."

"Old Wang, you're good. You gave Miss Zi a few bottles back then and yet you still have eighteen... Hey! Why are you hitting me!"

Wang Biao was furious. "You and your f*cking mouth! I am missing two bottles of alcohol!"

"Erm..."

The both of them shivered in fear at the same time.

"Then what should we do? Second Young Master did say that we are not allowed to drink here. You're committing a crime knowingly and that's even worse!"

Wang Biao covered his face. "What else could I possibly do? I'll take the initiative to admit my mistake and receive punishment tomorrow."

"Sigh... I don't think you need to do that first. I feel that you can visit Miss Zi and try to get some information from her. Perhaps the situation is not that serious."

Obviously, Wang Biao hoped that the situation was not as serious. Getting punished was nothing to him, he was just afraid that the Second Young Master would forbid him from making alcohol in the future. He would definitely have to suffer then.

...

After Zi Yi and Lu Jingye returned to their residence, Lu Jingye put the basket on the table of the living room

Zi Yi went to grab the alcohol and a bowl as she said, "Wang Biao's skill of brewing the fruit wine is extremely good. The scent of the alcohol can even be smelled outside our courtyard. Say, when he discovers that two bottles are missing, would he get frightened to death?"

"He won't," Lu Jingye said with certainty. "He should be asking you about this in private tomorrow."

"Is that so?" Zi Yi's eyes brightened and she said with a smile, "Then I'll tell him that you're unaware of it and I was the one who took it elsewhere to drink. At that time, I'll ask him to give me two more bottles as a bribe."

Lu Jingye could only helplessly smile at that.

The two of them sat down and Zi Yi poured the alcohol into two bowls. She then lifted them up and said, "Ah Jing, come, let's have a toast to wish that Yunxiao's treatment will progress smoothly and his operation will be successful."

Lu Jingye raised the bowl and made a toast.

Zi Yi drank the entire bowl of alcohol in one breath.

Lu Jingye merely took a sip. When he saw how fast she was drinking, he said disapprovingly, "Don't drink in such a hurry. Else you will get drunk later."

Zi Yi originally wanted to say that she had a good drinking capacity and so how could she possibly get drunk. However, when the words came to her lips, an idea surfaced in her mind. She then revealed a smile and nodded her head. Following that, she poured another bowl for herself and the both of them drank while eating the lamb chops.

An entire bottle of alcohol had more or less entered Zi Yi's stomach. However, when she wanted to open the second bottle, Lu Jingye stopped her. "Let's stop for today. You can drink this bottle another day."

Zi Yi propped her head up with her hand and grumbled. "I want to drink but you're not allowing me to. Hmph! You will definitely treat me badly in the future."

Lu Jingye stretched out his arm and lifted her into his lap as he whispered in her ears, "Yiyi, you're drunk."

"I'm not drunk."

As soon as she said that, she took a whiff of his body and revealed a disgusted expression. "You smell like mutton, it stinks."

Lu Jingye said, "I'll go and take a shower later."

"I want to take a shower too, no... I want to soak in a bath." Zi Yi had her arm around his neck. Even though she complained about the mutton smell on him, her head leaned against his shoulders and she rubbed his face with her delicate face.

"There's no bathtub here." Lu Jingye held her waist and touched her delicate and charming face that was flushed red due to the alcohol. "If you really want to soak in a bath, I'll have someone make a wooden tub tomorrow. You'll be able to have a soak every day..."

Zi Yi tilted her head to think for a moment and nodded her head in agreement.

Zi Yi went to take a shower first while Lu Jingye cleaned up the rubbish on the table.

When Zi Yi entered the bathroom, she even deliberately hid behind the door and looked at Lu Jingye who was headed outside with a trash bag filled with the leftovers. The corner of her lips curled up and she strode towards the wardrobe and pulled out Lu Jingye's luggage. Upon opening it, she grabbed one of his white shirts and headed to the bathroom.

When Lu Jingye returned after throwing away the trash, he saw that Zi Yi was taking a shower and so, he grabbed his notebook and sat by the bedside, and his fingers quickly tapped on the keyboard of his laptop.

Around fifteen minutes or so later, there were the sounds of movement coming from the bathroom.

Lu Jingye subconsciously raised his head and looked over.

However, his eyes instantly darkened at the sight.

The young lady standing near the door was only wearing a white shirt that reached her thighs. Her exposed skin looked extremely tender and it seemed as if it could bruise at the slightest touch.

With her long, snow-white legs and the undergarment that one could vaguely see under the shirt, along with the white shirt that slightly clung to her damp skin, the beauty she gave off was simply irresistible.

Lu Jingye felt his blood vessels expanding and his Adam's apple unconsciously bobbed up and down.

Immediately, he had a bodily reaction.

In particular, Zi Yi even purposely licked her lips at that moment.

That kind of seduction was simply fatal.

Lu Jingye put his laptop to the side, grabbed the quilt from the bed, and strode over to Zi Yi. He then opened the quilt and wrapped it around her before carrying her to the bed and putting her down. He then spoke in a hoarse voice. "Bad girl, who told you to wear my clothes?"

Zi Yi struggled in the quilt with a flushed complexion but did not manage to get out of her predicament. In the end, she looked at him with those watery eyes of hers and said, "I like to wear what's yours."

That appearance of hers made one feel like committing a crime.

Lu Jingye took a deep breath. He released her and stood up as he headed towards the bathroom.

Only then did Zi Yi manage to get out of the quilt and she said, "Ah Jing, hurry up with your shower. I'll help you warm the bed."

Lu Jingye almost lost his footing and what answered her was the sound of the door closing.

Soon, the sounds of water flowing could be heard from the bathroom.

Zi Yi revealed a smile and took her phone out to play. Just then, Lu Jingye's phone rang.

She took his phone and took a glance, only to see that the caller ID was 'Mother'.

She then answered it on his behalf. "Auntie Lu, Ah Jing has gone to take a shower. Do you need something?"

Mrs. Lu's tone of voice revealed traces of a smile as soon as she heard Zi Yi's voice.. "It's the same if I speak to you."

Chapter 505: Madam, Please Take Care of Me For the Rest of My Life

Zi Yi giggled in response.

"Auntie Lu, why are you looking for us?"

"Oh, I'm calling to tell you the result of the discussion that Jingye's father, your Dou Family and I have had." Mrs. Lu was worried that any undue delay might bring about trouble and immediately made an appointment with the Dou Family for dinner after she ended the call with Lu Jingye.

Zi Yi, who was originally seated on the bed, had laid down on the duvet and swung her feet around happily. "Auntie Lu, what are the results of your discussion? Can Ah Jing and I get the marriage certificate immediately?"

Mrs. Lu smiled happily over the phone. "That's right. To prevent trouble due to undue delay, Jianlin will complete the procedures for your marriage certificate tomorrow. Therefore, you can't call me Auntie Lu in the future anymore. You have to change the way you call me."

Zi Yi was extremely tactful. "Mom~"

Mrs. Lu felt her heart melting and her eyes were even somewhat moist. In the end, her voice was somewhat slightly trembling. "Good child, I'll be your mother in the future and whoever dares to bully you, I will fight it out with them with everything I've got!"

Zi Yi's lips curved up uncontrollably. "Okay!"

Mrs. Lu then started telling her about what she and Lu Jianlin had discussed with the Dou Family. "We will be discussing your wedding day in the following days. There's no need for you to do anything. The both of you will only have to wait to be the bride and groom."

"Okay~" Zi Yi's voice lilted as she spoke. She rolled around the bed a few more times out of happiness.

When Lu Jingye had barely managed to suppress the raging fire within by taking a cold shower, he nearly had a nosebleed by the fiery scene in front of him.

The young lady rolled around on the bed while she was on the phone and she was originally only wearing a white formal shirt of his. Right now, the shirt came up to her navel and a few of the buttons had even loosened due to how she had rolled about. Only a single button was left done up.

With her current appearance, there was no difference as to if she was naked or not.

When Zi Yi felt a burning gaze looking in her direction, she made eye contact with Lu Jingye's eyes which were a much deeper color than usual.

She somehow felt her throat going dry.

She then asked Mrs. Lu, "Mom, Ah Jing has come out of the shower. Do you want to talk to him?"

Mrs. Lu smiled and said, "No need. You can tell him the general gist of our intentions, and that will do."

She even added and said, "I don't mind being a grandmother next year. You two can work hard!"

Zi Yi responded loudly. "Okay."

The call was disconnected the next second.

Zi Yi looked at Lu Jingye and he asked in a hoarse voice, "Mom? Hmm?"

Zi Yi felt her heart trembling because of his deep voice and said with a smile, "We will be getting our marriage certificate tomorrow. What should I call her if not Mom?"

"Tomorrow?"

"That's right. Dad and Mom have already discussed it with my Grandfather and Uncles. They will help us get our marriage certificate tomorrow and discuss the dates for our wedding."

The way Zi Yi called his Mother and Father 'Mom' and 'Dad' was extremely natural.

Lu Jingye lowered his eyes and the next second when he looked up, there was a burning light in his eyes.

He strode towards Zi Yi and his fingers slowly reached for the button on his shirt. He then gently undid the single remaining button with his slender and nice-looking fingers.

Zi Yi's face turned red as she saw his actions.

Lu Jingye walked to the bedside and looked at her. "Yiyi, haven't you always doubted if my body can do it or not, right ? I'll let you check it out tonight."

He pulled her towards him and his lips covered hers.

The base in the winter was indeed foggy and it was only 11 p.m at night when the fog had already spread out all around.

In the end, it had covered the whole yard and there were faint voices that would arouse one's imagination coming out from the room.

...

Zi Yi inevitably woke up late the next day.

Her mind was in a blank state the second she opened her eyes and it was then followed by the sensation she felt from her body.

She buried her head into the quilt and her lips curved up uncontrollably.

She did not wish to move at all, but her stomach had been very honest, as it started to grumble.

Zi Yi clicked her tongue and just as she planned to let her stomach suffer, the sounds of the door opening could be heard.

She tilted her head and glanced over and was overwhelmed with how handsome Lu Jingye was.

Zi Yi felt that Lu Jingye seemed to be radiating light today and was Nth times more handsome than he usually was.

Lu Jingye was holding onto a thermos flask in his hand. He walked over when he saw that she had woken up.

"Yiyi, are you hungry?"

Lu Jingye was smiling as he said that and he looked as if he was refreshed and in a good mood. He walked over and placed the flask on the bedside table, sat on the edge of the bed, and reached out to touch her face. "Does your body still hurt?"

Zi Yi immediately started grumbling as she heard his question. "You're a big baddie."

Lu Jingye admitted it at once. "Yes, I'm a big baddie."

Lu Jingye's attitude of admitting his mistake was good.

However, Zi Yi's anger had yet to be appeased. "You look like a weak scholar on usual days..."

Before she could say something that would arouse his instincts, Lu Jingye lowered his head and sealed her lips.

After Zi Yi swallowed the words she wanted to say, Lu Jingye picked her up, together with the quilt, and put her on his lap. He then whispered in her ears in a dangerous tone of voice, "I've been vegetarian for 26 years and I'm pretty energetic. Don't say these words so easily, otherwise..."

His voice became softer at the end and Zi Yi's face turned red from his words. She shrunk her neck and snorted. "I feel uncomfortable."

Lu Jingye saw that she was really feeling uncomfortable and so, he said, "Have some porridge first and then go back to sleep later."

"I have no strength."

"I'll feed you."

Lu Jingye held her with one arm and stretched out his other arm to open the thermos flask and put it by the side as he scooped the porridge and fed Zi Yi.

It was preserved egg and lean meat porridge. After Zi Yi had her fill, Lu Jingye put the lid back on the thermos flask.

Zi Yi regained some strength after filling her stomach and she stopped him from putting her down. She sat on his lap and asked, "Has Dad gotten our marriage certificate yet?"

"Yep, it's done. I got my men to send it over today."

Zi Yi was delighted. "You're my husband from now on."

"Yes." Lu Jingye's lips slightly curved up and he gave her a peck on her slightly bruised lips. "Madam, please take care of me for the rest of my life."

Zi Yi looked at him with a sparkle in her eyes. She had also raised her head and kissed him on the lips. "Same to you too."

...

By the time Zi Yi walked out of the courtyard where they stayed, it was already 2 p.m in the afternoon.

When she arrived at the laboratory, she was greeted by Elder Hu's gaze. "You youngsters like sleeping in late every day."

Zi Yi was not embarrassed at all and she replied with a giggle, "Young people should sleep more when they are sleepy. Otherwise, when we reach Elder Hu's age, we won't be able to sleep even if we want to, and can then only stay envious."

Elder Hu who was poked in his sore spot said, "...You stinky brat!"

Chapter 506: Little Zi, What Did You Do Yesterday?

The day flew by in a flash.

When Zi Yi and Elder Hu came out from the laboratory, they were met with a person walking back and forth.

Elder Hu looked at Wang Biao and asked Zi Yi, "Little Zi, what did you do yesterday to make Little Wang look so uneasy today? I saw that he had also come here at noontime, but he left after seeing that you were not around. I didn't expect he would be hanging around here again."

Zi Yi smiled and her eyes curved into crescent moons as she said in all seriousness, "I guess that he should have something important to ask, but he can't let Ah Jing know of it. That's why he's pacing back and forth here, waiting to ask for my help."

Lu Jingye had to take care of things in the outside world and he would usually be at the office building.

"Haha... is that so? I'll head over to the canteen first then. Else that little guy would be embarrassed to mention what he needs from you if I stay here."

Elder Hu left after that.

As soon as Elder Lu walked away, Wang Biao strode over in her direction.

Wang Biao was from Northeast China and he was tall, burly, and square-faced. He was the type that looked like he would have a tough and straightforward personality.

However, this tough guy was currently struggling, as he did not know how to ask the question.

Zi Yi did not wish to make things difficult for him either and said, "I was the one who took your alcohol."

Wang Biao's heart clenched tightly. He was not angry at the fact that Zi Yi took his alcohol, he was just worried that the Second Young Master might know of it.

"However, I didn't let Ah Jing know of it."

Wang Biao breathed a sigh of relief, but he still asked with uneasiness, "If Miss Zi were to bring out the alcohol to drink, the Second Young Master would know of it though."

"You seem to be rather worried that Ah Jing might know of it?"

"The Second Young Master has set a rule that drinking is forbidden in the secret base."

"Oh~ So you're committing a crime knowingly."

"I didn't drink any."

Wang Biao felt extremely depressed. He should not have told Zi Yi about the existence of those bottles of alcohol.

Zi Yi smiled and said, "Don't worry, I won't tell Ah Jing. If he were to discover it, I'll tell him that I was the one who got my robots to buy them at the Y training base."

Wang Biao said in surprise, "Really?"

Zi Yi then negotiated with him. "If you give me a few more bottles, then that is what's going to happen."

Wang Biao was elated. In any case, he only needed the bottles of alcohol to take a sniff and he did not need so many bottles. Therefore, he nodded and said, "It's not a problem. It's alright even if I give you ten bottles, just as long as you don't tell the Second Young Master that you got them from me."

"Okay, that's a deal."

The two of them smiled in satisfaction.

On the way to the canteen, Zi Yi asked, "If you leave here, would you be able to drink?"

"Yes, as long as I don't have a mission on hand."

Wang Biao was fond of drinking, but he was able to control himself. "I usually drink a little during the new year or holidays."

Zi Yi suddenly looked at him in a different light. "To think that you can control yourself so well."

Wang Biao unexpectedly stopped talking, but his expression revealed the impression that he had a story behind his ability to control himself.

Zi Yi did pry further and said, "Everyone would be able to head out soon and you'll be able to drink again during New Year's."

Wang Biao nodded his head. "I hope that Miss Zi and Elder Hu will be able to cure the Third Young Master before New Year's."

As they arrived at the canteen, Zi Yi saw Lu Jingye standing outside the door, clearly waiting for her. She quickened her footsteps and made her way over.

"Ah Jing, I wish to eat apples after dinner."

"Okay, we'll go harvest some after this."

While they chatted with each other, they headed inside the canteen side by side.

Wang Biao looked at the both of them walking together. Even if there was no physical contact between them, they gave off an intimate feeling and he somehow started to feel envious.

After dinner, Lu Jingye grabbed a basket and a bottle of water and headed out to harvest apples together with Zi Yi.

The apple tree was just right behind the canteen where the land cleared up and there were many different seasonal vegetables planted there.

The apple tree was located right at the edge of the vegetable field. The fruits had matured well and the trees were dotted with red fruits. Just the sight of it made one have the urge to harvest some and take a bite.

Lu Jingye put the basket on the ground and washed the first apple he harvested before handing it to Zi Yi.

Zi Yi took the fruit and immediately took a bite. "It's sweet. So sweet and crispy!"

She even moved the apple to Lu Jingye's lips after that.

After Lu Jingye took a bite of the apple, she said, "Harvest a few more. We can send it to Elder Hu and the rest."

"Okay."

Lu Jingye harvested half a basket before stopping and they made their way back. "Tell me whenever you feel like eating them. I'll come over to harvest them."

After Zi Yi took another bite of the apple she responded with an 'ok'.

The two of them sent the apples to where Elder Hu was staying. Currently, he was taking a stroll around his yard, and at the sight of Lu Jingye and Zi Yi delivering the apples, he accepted them with a smile.

He then invited them into the living room and chatted for a while.

Following that, they headed to the laboratory and Elder Hu left at 10 p.m. Zi Yi and Lu Jingye then went to check up on Lu Yunxiao.

"Yunxiao's body condition is pretty good. After all the medicinal ingredients are gathered, we will be able to start the treatment."

Lu Jingye looked at Lu Yunxiao lying there and asked, "Do you need to experiment on a real person first?"

Even though he had faith in Zi Yi and Elder Hu, there were risks involved in all operations. Lu Jingye obviously wished for a one-time success.

Zi Yi knew of his thoughts and nodded her head. "If you can find someone who is in the same situation as Yunxiao that would be ideal, it's fine even if you find one or two people."

Even though Zi Yi felt that the risks involved in the operation were not much of a concern, it was normal for Lu Jingye, someone from ancient Earth to feel uneasy.

Lu Jingye said, "I'll send someone to find some individuals to take part in the experiment tomorrow."

"The person that harmed your younger brother would definitely be paying attention to people with the same conditions. You have to be careful."

"Ok."

Since they were about to experiment on a human, Zi Yi and Elder Hu started their preparatory work.

Everything was going well inside the base.

Outside the secret base.

After two days of investigation and consideration, Zi Xu ended up choosing the Qin Family.

The Qin Family's influence was similar compared to the He Family. However, the He Family had treated them with disregard in the past and he was someone who had pride. Therefore, he would definitely choose the Qin Family in this situation.

After he made an arrangement with the Qin Family for a meeting location, Zi Xu turned around and went to search for the household registration book.

However, just as he arrived at the staircase, he saw Dou Jingning, Zi Yi and Lu Jingye standing downstairs together.

Zi Xu felt guilty for a second but following that, he thought to himself and convinced himself that he was doing this for the sake of Zi Yi. As her father, what was wrong in wanting his daughter to marry into a good family? Therefore, he confidently came down the stairs and said, "I have something to do outside and I won't come back for lunch."

He turned with the intention to leave.

"Zi Xu, stay right there."

As soon as Dou Jingning called out to him, he stood up and walked over.

Traces of displeasure flashed past his eyes and he turned around while asking in a grumpy tone, "What's the matter?"

Dou Jingning revealed an angry expression. "Zi Xu, you only have Yiyi, your daughter with you now."

"I know that. Therefore, I hope that she can live the best life she could possibly have."

He even looked at Lu Jingye with an expression of disgust.

However, Lu Jingye's deep-set eyes seemed as if they could see through his thoughts and his heart somehow clenched tightly.

Could it be that he knows what he was planning to do?

Zi Xu subconsciously reached into his pocket and touched the household registration book.

At the thought that he would be able to have the Qin Family as his relatives, he made up his mind.

He was doing this for the good of his daughter and he was not doing anything wrong.

Chapter 507: Lu Jingye Getting Angry

"Ha!" Zi Yi sneered. "You're really a 'good' father. Aren't you planning to marry me off without even asking for my opinion?"

"I'm doing this for your own good." Zi Xu pointed at Lu Jingye who was standing there and said, "You won't have the slightest future if you stay with him and you would even bring trouble to yourself and our Zi Family. If you have the slightest bit of conscience, you shouldn't be staying together with him."

"Conscience?!"

Dou Jingning revealed an angry smile and the anger he had accumulated all these years had finally exploded. He pointed at Zi Xu's nose and said, "Zi Xu, you still know of the word conscience? When Yiyi

was two years old, you brought back Zi Xuan, who was one year younger than her. By the looks of it, when Nuannuan had just passed away, you had a relationship with Li Peirong! You sure are capable!

All these years, you've used the Dou Family's name to pull in customers openly and also behind our backs. We've always turned a blind eye to it and even when you had committed a big mistake, it was also the Dou Family that helped you smooth it out at the expense of our reputation. How did you make that guarantee before Zi Yi's grandfather again? You said that no matter if there is a second wife or child, you would treat Zi Yi the best."

Zi Xu originally could not find any words to refute him, but when he heard what Dou Jingning said at the end, he found something to say. "When have I treated her badly all these years? I've given her the best of everything! When she wanted to buy luxury cars worth millions of dollars, I've not uttered a single word and bought two to three of them in a single year. I've allowed her to do whatever she wanted and have never restricted her in any way..."

"Zi Xu, you still have the cheek to mention this? If not for you, would Yiyi have been the joke of the whole of S City?"

Zi Xu was also angry and he yelled at Dou Jingning, "Why was she laughed at? How is it that I've never heard of it before?"

"Never heard of it before? Where would you possibly hear it from? Li Peirong?" Dou Jingning's expression became increasingly ugly. "Do you know what Li Peirong has done to Zi Yi all these years?"

Zi Yi answered on his behalf, "When I skipped lessons, she covered for me. When I hit people, she apologized on my behalf. When I visited bars, she would give me the money."

Zi Yi said a dozen of things and at the mention of each thing, Dou Jingning's expression would darken another shade.

Zi Xu had never expected Li Peirong to have done this behind his back. He only knew that she was very protective of Zi Yi.

After he heard what Zi Yi had to say, he finally realized something was amiss and his expression had also darkened.

He then looked at Zi Yi with an expression of regret. "Yiyi, I didn't know that..."

"Of course you wouldn't have known of it. At first, you only knew how to make me get benefits for you at Grandfather's place. After that, when they became disappointed with me, you left me unattended. How could you have possibly known?"

Zi Xu did not expect Zi Yi to be so rude and rebuke him. He felt that his majesty as a father had been provoked and he got a little angry.

However, at the thought that he only had Yiyi as his daughter right now, and that he still had to count on her in the future, he revealed a regretful expression. "Yiyi, I'm sorry. I've always thought that Li Peirong treated you very well."

Speaking of this, he suddenly became confident. "It's all because of Li Peirong, that poisonous woman! I was blind to have fallen for her."

He then thought of Zi Xuan who was pushed off of the building by Li Peirong and he pushed all the blame onto Li Peirong.

“She pretended to be nice to you in front of me and the helpers at home had also said the same thing. It was only because of that, did I concentrate on my work with ease. I only had the thought of earning more money so that you could live a luxurious life. How could I have known that...”

He covered his face and had an expression of remorse and grief on his face.

Dou Jingning looked at Zi Xu’s current appearance and wished that he could walk over and give him two tight slaps across the face.

“Zi Xu, stop playing the emotion card in front of Zi Yi. If you are really regretful, you should not be making Zi Yi marry someone she doesn’t like.”

Zi Xu suddenly put down his hands and said in anger, “I’m doing this for the sake of Yiyi.”

Why doesn’t the Dou Family and Yiyi understand his good intentions?

He pointed at Lu Jingye and said, “He doesn’t deserve my daughter at all.”

“Zi Xu!” Dou Jingning simply flew into a rage. “Little Lu is so much better than those people you randomly found for Yiyi!”

Just then, Lu Jingye, who had remained silent since the beginning, moved. He came closer to Zi Yi and his aura had instantly stumped Zi Xu.

While approaching Zi Xu, he said, “You’re Yiyi’s father, so I respect you. But if you truly intend to marry Yiyi to someone else, I will make you regret your decision.”

“You...” Zi Xu stared at him in disbelief. “How dare you threaten me?”

“This is not a threat, but a warning. If you really try and do it, I will make it so that you can never return to the capital.”

Lu Jingye’s tone of voice was very calm as he said this, but it contained an invisible pressure and Zi Xu almost could not breathe.

By the time he recovered his senses, a powerful surge of anger rushed to his brain.

“Do you still think of yourself as the Second Young Master of the Lu Family? You’re merely a useless person chased out from the Lu Family. What rights do you have to marry my daughter? My daughter will only marry the best.”

“The best?” Zi Yi moved closer to Lu Jingye’s side and said in a mocking tone, “You mean the one that can bring you the best benefits?”

Zi Xu looked at Zi Yi, who insisted on opposing him, with a livid expression. He tried his best to stop himself from flaring up at her. “I only have you as my daughter right now. Obviously, I’m doing this for...”

Zi Yi interrupted him. “You can find someone else and have another child.”

“...” Zi Xu’s expression changed several times. If he could give birth to another child, would he be talking so much nonsense to a lass that insists on singing the opposite tune?!

However, it was obvious that he would not say that out loud. With how three people were blocking him, he knew that the Dou Family and Lu Jingye would definitely get angry if he were to forcibly leave to meet the Qin Family. It would be best for him to wait for them to shift their attention away and privately meet the Qin Family.

Thinking of this, he removed all expressions from his face and pretended to compromise. “If you don’t want to marry into the Qin Family, you don’t have to. But you cannot marry him. As long as you agree to this, I won’t meet the Qin Family.”

“Zi Xu, you...”

“Then let’s see if Uncle can get what he wants.”

“How dare you threaten me!” Zi Xu was angered by Lu Jingye’s words and he turned around to leave.

Just then, Lu Jingye’s frosty voice sounded from behind. “Look after him well.”

As soon as he said that, two skilled bodyguards appeared outside the door.

Zi Xu’s path was blocked by the two of them and he shouted at them, “Get out of the way!”

The two bodyguards remained unmoved.

Zi Xu turned around and shouted in anger, “Zi Yi, look at the fine man you’ve found yourself. How dare he stop me?!”

“If he doesn’t stop you, wouldn’t you be on your way to meet the Qin Family to collude with them and discuss how much I am worth?”

Zi Yi’s expression sank after she said that. “Knock him out.”

As soon as she said that, before Zi Xu managed to react, he was knocked unconscious.

Lu Jingye motioned for the two bodyguards. “Send him to his room.”

Dou Jingning looked at Zi Xu who was being carried upstairs and said with a worried expression, “This person is too stubborn and we have to find another way to make him incapable of interfering with Yiyi’s marriage.”

Lu Jingye looked at Dou Jingning and said, “Eldest Uncle, I will take care of this matter.. Please don’t worry about it.”

Chapter 508: Zi Xu’s Ending

Secret Base.

Lu Jingye looked up from the laptop screen, grabbed his phone and dialed a number with a cold expression on his face.

As soon as the other party answered his call, he said, "Let Zi Xu and the Qin Family meet. Bring him away after the meeting... and send him to an obscure country. Let him stay there for the rest of his life."

After hanging up the call, Lu Jingye made another call.

The other party answered and he said, "Let's make a deal. What do you think?"

"What kind of a deal?"

Lu Jingye answered, "You'll play, and I'll be the ringmaster."

"Who do you want to deal with?"

Lu Jingye said, "The Qin and He Family."

"The Qin and He Family in the capital?"

Lu Jingye replied, "That's right."

The other party pondered over it for two seconds and then agreed. "I want 70% of the bounty."

Lu Jingye didn't hesitate. "Ok."

In the next two days, many influential figures detected something brewing, and all of them found themselves in danger.

During such a situation, the Qin Family and He Family's businesses had suffered and dropped to an unprecedented level. All of the smaller shareholders scrambled to sell their shares away and various partners came knocking on their doors to terminate the projects.

The Qin Family and He Family fell into a panic.

At the same time, they all knew that Lu Jingye was behind this.

The Qin Family tried contacting Zi Xu on a more frequent basis and wanted to meet with him.

Zi Xu's whereabouts had been tightly kept watch of these days. During one of the days, he headed to his company and pretended to make a trip to the washroom when he arrived at the office. He then made use of the chance to ditch Lu Jingye's bodyguards and went to the location he had arranged to meet the Qin Family.

For the past few days, Zi Xu could not shake off the bodyguards Lu Jingye had sent over to watch him, and he had accumulated bucketfuls of anger. Therefore, he was even more determined to marry Zi Yi into the Qin Family. In that case, he would be able to get them to deal with Lu Jingye.

"I've already bought the household register with me. As long as you can take care of Lu Jingye, I'll immediately let Yiyi sign her marriage certificate with Young Master Qin."

The person the Qin Family had sent over was also rather straightforward. "Okay. We've already devised a plan and we guarantee that he will never dare to appear before you and Miss Zi again in the future."

The Qin Family then explained their plan to him.

Their plan was extremely devious, and they had basically planned to force Lu Jingye to his end.

Zi Xu was satisfied after hearing their plans and immediately agreed to register the marriage certificate.

The Qin Family immediately brought him to the Civil Affairs Bureau.

However, when Zi Xu passed the household registration book to the clerk, and the clerk entered the information into the computer, he informed them: "Zi Yi's name has been transferred out several months ago and all the information on this household register is invalid."

"How can that be?!" Zi Xu raised his voice in shock. "She's my daughter and without my approval, how could she possibly have transferred her name out?"

The people on the Qin Family's side had dark expressions on their faces and they immediately ordered the clerk. "Even if her name has been transferred out, you still have to register our Young Master's and Zi Yi's marriage certificate today!"

The clerk's complexion paled and he nervously said, "This is illegal."

"Do you think the law can stop whatever the Qin Family plans to do?"

When the clerk knew what they were here to do today, he appeared respectful on the surface but in fact, he felt disdain towards them deep down inside.

Obviously, it was a scene of selling one's daughter for money and fame.

Hearing what the people from the Qin Family said, he wished that he could expose them immediately, but he did not have the guts to do so. In the end, he hastily said, "How about this? I'll go and get my supervisor."

He immediately stood up and went to get his supervisor.

When the supervisor saw the Qin Family, he first shook hands with them enthusiastically before he started bootlicking them. "My employees here are not sensible, please hold on a moment. I'll get him to process it right away."

He then hastily motioned to the clerk. "Hurry and do what the Qin Family requests!"

"But..."

"Get it done now."

Under his supervisor's stare, the clerk could only quickly search and find where Zi Yi's name was registered under.

However, his eyes widened in fright after he got the results.

The clerk shouted in a loud voice, "Supervisor! Miss Zi, and Young Master Qin cannot register for a marriage certificate!"

"What nonsense are you spouting!" The supervisor stood behind him and stretched his neck to take a look.

When he saw where Zi Yi's name was registered under, he had also widened his eyes in shock.

Zi Xu and the Qin Family looked at them inexplicably.

The Qin Family's side was a little annoyed and their tone of voice sounded threatening. "What's going on? Why can't you get something so simple done? If you don't have the ability, shouldn't you be on your way out?"

The supervisor looked up at the Qin Family and said in a weird tone, "Miss Zi's name is registered under Second Young Master Lu's household register. Moreover, she has already gotten a marriage certificate with him."

"What?!"

Zi Xu and the Qin Family raised their voices at the same time.

"It's the truth."

The supervisor shifted the screen to them and said, "You can take a look if you don't believe me."

When Zi Xu and the Qin Family saw what was displayed on the screen, their expressions turned ashen at the same time.

It was not known how Zi Xu walked out of the Civil Affairs Bureau, especially when he thought of what the Qin Family said to him before they left.

Now that Zi Yi and Lu Jingye have gotten married, the entire Zi Family will suffer together with him and he can just wait to experience a life where he has to constantly be dodging bullets for as long as he lived!

It was simply like lightning striking down from the skies.

Just then, two people walked over from the side.

"Mr. Zi."

Zi Xu suddenly recovered his senses after hearing his name. He looked at the two individuals and instinctively wanted to run away.

Yet, a cloth that was mixed with chloroform was held over his mouth and nose.

He swiftly lost consciousness.

By the time Zi Xu regained consciousness, he was in a wooden room on top of a bed and the space seemed to be swaying left and right.

He suddenly got down from the bed in utter shock and ran towards the door.

When he came out of the room, he was met with a dimly lit aisle.

Both sides were doors that led to other rooms.

He quickly ran towards the end of the corridor.

When he arrived at the end and opened the door before him, it turned out to be a door to a ladder. He quickly climbed up and when he saw the scenery of a vast sea in front of him, he was dumbfounded.

Just then, a burly man, who had his muscular arms exposed, walked over.

Zi Xu hastily stopped him and asked incoherently, “Where’s your captain? Where is this ship headed to? Immediately get your captain to turn back the ship, I want to alight. Otherwise, I’ll sue you for abduction!”

The burly man looked at him with an expression of disdain. He crossed his arms and said, “Sue? Hahaha... this is a boat headed to Mauritania. Instead of thinking how to sue the captain, I’d advise you to think how you are going to survive when you reach there.”

He turned to leave after saying that.

Zi Xu’s mind was in a daze as he heard what the man said and he became anxious. “What do you mean by that?”

“What do I mean?” The burly man explained to him in a ‘kindhearted’ manner. “Those on this boat are all unregistered residents and they are headed to the mines. They can only stay there for the rest of their lives.”

Zi Xu felt like an entire ocean was crashing down on him.

“How is that possible?!”

Zi Xu’s body went soft and he fell to the ground.

The burly man looked at him and snorted. He seemed to have suddenly thought of something and took out a crumpled piece of paper from his trousers and threw it at him.

“The man who sent you onboard asked me to give this to you and that you had better take a look at it, or else you will regret it.”

He left after saying that.

Zi Xu thought that the piece of paper was something that could save his life and so he rushed to pick it up.

However, what he saw was irrefutable evidence that Zi Xuan was his brother’s child. Moreover, the reason for his later infertility was that Li Peirong had fed him drugs that caused him to be permanently infertile.

Zi Xu’s eyes rolled up. He could not bear the blow and he spat out a mouthful of blood before he fainted.

Chapter 509: I Don’t Feel Wronged. Father, Mother, and Ah Jing Like Me a Lot

When the Qin Family learned that Zi Yi and Lu Jingye had registered for their marriage certificate, before they could do anything, something big happened to the company.

And besides their family, it was also the same situation for the He Family.

How could the two families still have the spare time to care about Lu Jingye and Zi Yi’s matters? All their attention was shifted to their companies.

Inside the secret base.

A few days later, the medicinal ingredients Zi Yi had asked for had arrived.

Zi Yi started to immerse herself in the laboratory for the entire day.

Two days later.

The patient that was going to participate in the experiment had arrived.

Zi Yi and Elder Hu started to experiment on the patient.

Looking at the patient submerged in the liquid, Elder Hu checked the changes happening to him without even blinking his eyes.

Zi Yi stood at the medical apparatus dashboard and continuously adjusted the data.

Lu Jingye was standing next to her and acted as her assistant.

“Little Zi, are you done yet?”

Elder Hu would ask from time to time. He was curious and excited about the new treatment method and at the same time, he was also nervous.

“What kind of visible change would there be for the patient while he is submerged inside the liquid?”

“There won’t be much of a change. It’s just that when his body is absorbing the contents of the liquid, he might experience red spots all over his body due to allergies to some medicinal ingredients.”

“How are we going to solve the problem if that happens?”

“There’s no need to solve it. He will recover after half an hour.”

As soon as Zi Yi said that, Elder Hu reminded her. “There are red spots appearing on the patient’s skin.”

Zi Yi quickly adjusted the machine and they waited for half an hour. Sure enough, the red spots had disappeared.

Elder Hu looked at the red spots disappearing rapidly and asked, “When are we going to inject the cell regeneration fluid into his brain?”

“After twelve hours. We’ll let his body heal first.”

As soon as she said that, she looked at Lu Jingye and said, “Yunxiao’s body condition is in the best state and the cell regeneration liquid can be immediately injected.”

Since the patient has started the treatment, they could not leave the operation room unmonitored.

Elder Hu said, “During this period, Little Zi, you shall stay here during the day while I’ll keep guard at night.”

Zi Yi shook her head and said, “No need for that. “We’ll both stay here during the day and I can just get the robot to take over at night.”

She then called out Shadow. “Show me your control panel.”

Shadow opened his hand and a virtual screen appeared before them.

Zi Yi was standing at the opposite end and she quickly inputted instructions on his control panel.

"I've already inputted the relevant instructions into Shadow. When the time comes, he will adjust the controls based on the patient's condition. There's no need for us to worry."

Elder Hu looked at the robot and lamented. "Sure enough, you young people who are knowledgeable about many things are amazing. To think you can create such a powerful robot."

Zi Yi smiled in response.

After she input the relevant instructions into Shadow's control panel, Shadow turned invisible.

The three of them started to wait for the patient to be submerged for twelve hours.

At around 4 p.m, Lu Jingye's phone rang. He went out to answer the call and when he returned, he said, "My grandfather already knows about us."

What he meant was about the two of them getting their marriage certificate.

The corner of her lips curved up. It did not matter to her at all. "So what if he knows? Don't tell me he can still oppose it?"

When Patriarch Lu got to know of this, he had indeed exploded in anger. He even called Lu Jianlin and Mrs. Lu back to the main residence to give them a scolding.

Mrs. Lu could only hold back her anger and when she returned, she immediately called Lu Jingye and told him about this. She felt extremely wronged while she complained to her son. "If not for the fact that I can find out if those people from the Lu Family are plotting anything by staying here, I honestly wish that I can leave here and stay with you two instead."

Lu Jingye only managed to calm her down after persuading her for a long time.

Elder Hu learned of it the second day after they got their marriage certificate. Now that he heard what Lu Jingye said, he knew what had happened. "Based on your grandfather's temper, he definitely feels that Miss Zi is unworthy to be married into the Lu Family."

Zi Yi nodded her head and said, "That's right."

"Sigh... His train of thoughts are still stuck in the old days. In particular, Little Zi, it doesn't help that you are the Dou Family's granddaughter. Jingye's grandfather had been deceived by some educated people when he was younger and it can be considered as implicating you as a result." Elder Hu was Patriarch Lu's military doctor back in those days and he more or less knew of his temper.

"He always had a bad temper and not to mention, he's used to having the final say. In the past, many scholars called him a tyrant."

Zi Yi nodded her head in agreement. "He is indeed a tyrant. Even his grandson's marriage has to be arranged by him. We are not even in the new era and yet, his mindset is still stuck in the ancient monarchy era."

Zi Yi looked towards Lu Jingye who remained silent and pulled his hand as she asked, "Are you angry that I'm badmouthing your grandfather?"

Lu Jingye tightened his grip but did not answer. However, from the looks of his expression, he did not seem to have gotten angry.

How could he possibly be angry at her?

Elder Hu looked at their interaction and said, "I think if Jingye's grandfather knows of the Third Young Master's situation, he will definitely regret treating Little Zi like this."

He then asked, "Have you not told your grandfather about what happened to the Third Young Master?"

Elder Hu managed to guess some things from their conversation and asked another question, "Could it be that you've not found the person who injured him?"

"Not only that, but we don't even have a clue on where to begin!"

"Why do you say that?"

"The first thing Yunxiao did after he got injured was to look for Ah Jing. He lost consciousness after telling him not to tell anyone that he was injured."

Elder Hu was silent after hearing what she said.

Sometime later, he spoke up. "What you did is right. Perhaps the culprit is lurking just right beside Jingye's grandfather.

But Little Zi, you'll suffer from this. You are clearly a good child but yet, Patriarch Lu is treating you like this."

"I don't feel wronged. In any case, Mother, Father, and Ah Jing like me very much."

Elder Hu smiled at her response. "It's good that you have such a mindset."

Lu Jingye had also tightened his grip on her hand.

She would always do things that made him want to treat her even better.

The three of them waited for twelve hours to pass and finally, the most important moment had arrived.

Zi Yi inserted the cell regeneration fluid into the syringe and passed it to Elder Hu.

Instead of taking the syringe from her, he motioned for her to come over. "Little Zi, you do it."

Zi Yi called Shadow out and said, "I'll get Shadow to do it instead."

Elder Hu glared at her. "You lass. I told you to do it, not for you to call your robot to come over and do it."

Zi Yi pouted and said, "I'm not good at these things."

As someone from the interstellar era, everything was left up to the robots and there was no need for her to personally do it.

Moreover, it was easy for there to be deviations if she were to do it manually.

Elder Hu was insistent. "No, you do it."

After interacting with her during this period of time, Elder Hu noticed that Zi Yi was good in all aspects of medicine, with the exception of operations that require hands-on work.

He felt that it wasn't because she did not know how to do it. Instead, she was just lazy.

He then said, "What if you were to encounter a patient without your robots with you? As a doctor, you must be skilled in the hands-on aspect."

Zi Yi wanted to refute that it was impossible that she would not have her robots around her.

However, with Elder Hu staring at her, she could only swallow the words she wanted to say.

"Alright then..."

She held the syringe and walked over to the machine.

Lu Jingye who was standing next to her said, "You can treat this patient as an experimental body similar to when you do experiments."

Chapter 510: Elder Hu, Don't Hit Me. Otherwise, My Ah Jing Will Feel Worried

Zi Yi was the only one who felt that there would be deviation if she were to do it herself. In fact, injecting the cell regeneration liquid into the patient's brain was only a small matter to her.

She located the place for the injection, raised her hand, and emptied the contents in the syringe

She then announced to the two of them. "It's done."

Elder Hu, who was surprised by Zi Yi's swift movements that were without any hesitation, said, "...You stinky lass. Did you tell me you were bad with hands-on application?"

Zi Yi replied innocently, "I'm really bad at it."

Elder Hu suddenly felt his hand twitching and he had the urge to beat the young woman in front of him up.

Zi Yi seemed to have noticed his train of thoughts and directly hid behind Lu Jingye while she said with a giggle, "Elder Hu, don't hit me. Otherwise, my Ah Jing will feel worried."

Elder Hu: "..."

Never in his life has he seen such a thick-skinned lass before!

After the cell regeneration liquid was injected, what remained was for them to wait.

"How long do we need to wait for?" Lu Jingye looked at the patient submerged in the nutrient solution and thought of his younger brother, which made him ask that question. He hoped that Yunxiao could regain consciousness as soon as possible.

“This depends on the patient’s survival instinct and physical condition.”

If the patient’s survival instinct was very strong, the cell regeneration would react well with his brain and start to reinvigorate his dead brain cells. Otherwise, it would be the opposite.

If their physical condition was bad, it was the same situation too.

“We’ve nurtured Yunxiao’s physical condition, so that he is now at his best condition, and I believe his survival instincts are also very strong. Perhaps he will be able to regain consciousness very soon.”

Lu Jingye also believed in his younger brother and nodded his head in agreement.

Zi Yi and Elder Hu could not possibly wait for the patient they experimented on to regain consciousness before they started the treatment for Lu Yunxiao.

They only observed the reaction of the cell regeneration liquid in the patient’s brain for two to three days. After making sure that there were no problems, they started preparing to operate on Lu Yunxiao.

On the day of Lu Yunxiao’s operation, snowflakes started descending from the skies and the temperature was freezing cold. The temperature around the secret base was already originally colder when compared to the city.

After Zi Yi got up from bed, she leaned against the windows and watched the snow falling for some time. Following that, she said to Lu Jingye, who had just come out from the washroom, “Ah Jing, look. There’s a thick layer of snow outside.”

Lu Jingye took out a thick cloak from the closet and draped it over her. “It’s cold outside. You should wear more layers.”

Zi Yi turned around and allowed him to help her wear the outerwear.

Lu Jingye was someone who did everything swiftly and without hesitation. However, his speed when tying Zi Yi’s cloak had slowed down considerably.

Zi Yi also knew of the thoughts he had deep down. She grabbed his large palms and assured him. “Ah Jing, don’t worry. With me around, nothing will happen to Yunxiao.”

After Lu Jingye finished tying the belt of her outerwear, he pulled her into his embrace.

“I know. I’m not worried.”

He was only feeling a little excited. If one had not personally experienced the change from despair to being hopeful, they would not understand how he felt.

Zi Yi rubbed her cheeks on his neck and ended up raising her head to kiss his jaw. She then spoke coquettishly. “I wish to eat apples before starting the operation for Yunxiao.”

“Alright. I’ll immediately go pick some for you.”

As soon as he said that, he released his grip on her as he planned to head out alone.

Zi Yi grabbed his hand and said, “Let’s go together.”

There were not many people who resided in the secret base. In order to keep the place fully confidential, those who were selected to come here were his subordinates that he trusted the most.

The two of them walked around the base and the scenery was entirely covered in white snow. Two rows of footprints slowly made their way towards a certain direction.

When they arrived at the back of the canteen, there were no longer any apples on the apple trees.

Zi Yi made a guess and said, "Someone must have picked them because otherwise the apples would freeze and spoil during the snow."

Lu Jingye took out his phone. "I'll ask who picked the apples and get them to send them over."

"Okay."

Sure enough, the apples were picked by the kitchen staff. Not long after Lu Jingye finished making the call, they saw someone hugging a large carton and running out of the kitchen.

"Second Young Master, Second Young Madam."

The kitchen staff said, "I saw that the weather had turned chilly these days and so, I harvested all the apples and kept them in the cellar. Second Young Madam, are these enough? If not, I'll go down and grab more for you."

"This is enough."

Lu Jingye took the carton and they headed to grab breakfast together. After the meal, they left for the laboratory.

Unexpectedly, not only was Elder Hu present. Even the five managers of the base were already waiting outside the room.

"Second Young Master, Second Young Madam."

The five of them were obviously tough men, but they were all extremely nervous right now.

Zi Yi looked at them and turned around to grab a few apples from the carton Lu Jingye was carrying, and handed them out to everyone as she said, "There's no need to worry. Have an apple and calm down your emotions. Yunxiao will definitely be safe and sound."

Originally, the five of them were wondering how on earth could they possibly be able to digest the apples at this point in time. However, after hearing the end of her sentence, all of them grabbed an apple.

Elder Hu held an apple and said, "Even our experimental patient has met with success. The Third Young Master's physical condition is far better than the patient and so why are you so worried?"

The five of them held the apples and remained silent. They knew that they should have faith in Zi Yi and Elder Hu. However, the concern and worry stemmed from their hearts and unless the Third Young Master really regained consciousness, they would always feel worried.

Lu Jingye swept his gaze across the five of them and said, "Do your job well first. There is Elder Hu and Zi Yi here. I don't wish for there to be the slightest mistake inside the secret base."

The five of them immediately stood at attention and answered, "Yes!"

Zi Yi, Elder Hu, and Lu Jingye headed inside the laboratory.

The five of them saw the doors of the laboratory open, then close, and they remained standing there for some time before they took their leave.

As soon as the three of them made their way inside, Lu Jingye connected to Lu Jianlin via a video call.

His parents were obviously waiting in Lu Jianlin's study room in advance and as soon as the call connected, they just so happened to hear Mrs. Lu saying to Lu Jianlin, "Don't show any bad expressions when you see Yiyi later."

"Father, Mother."

Zi Yi and Lu Jingye greeted the two of them.

"Yiyi." Mrs. Lu quickly put away her serious expression and carefully sized her up and down. In the end, she said out of concern, "You've lost weight."

She then started to nag Lu Jingye. "Jingye, did you not take care of our Yiyi?"

Lu Jingye pursed his lips and remained silent.

"Mom, I didn't lose weight. Don't blame Ah Jing." Zi Yi immediately became protective of Lu Jingye.

Her response elicited a smile on Mrs. Lu's lips. "It's good that you've not lost weight. You have to eat more while you're there. Only then will your body be healthy."

"Okay."

Mrs. Lu quietly pulled on Lu Jianlin's sleeve at that moment.

Lu Jianlin tried to make himself look less stern as he said, "If you need anything, get Jingye to send someone out to get it."

Zi Yi smiled and nodded. "I will!"

Lu Jianlin nodded and looked towards Elder Hu.

Elder Hu subconsciously straightened his back and gave Lu Jianlin a salute.

After Lu Jianlin returned his salute, he said, "Elder Hu, please don't take it to heart that we took you to the secret base before informing you in advance."

Elder Hu answered in a loud voice, "Don't say that. The Third Young Master's condition needs to be kept a secret and it's good for everyone that I wasn't aware of it beforehand."

Elder Hu was not the type of person who was inflexible. If he were to know of this matter in advance, no matter where the news of the Third Young Master was leaked out from, it would only implicate him and

his family.. In fact, when the Lu Family chose not to tell him at the very start, they were protecting his family and he understood why they had done so.
