Chapter 591: Chase Out This Man and Everyone Who Came With Him

Even though Dou Yue'er felt refreshed at the sight of her cousin-in-law giving that pervert a kick, she was still a little worried and whispered to Zi Yi, "Cousin, what if this person sues you?"

"Sues me? The person who I hit is someone who came to cause trouble in my bar." When Zi Yi said that, her gaze swept across the crowd and she continued talking. "Everyone who verifies their identity before entering my bar has already signed an agreement that they would not mess around inside the bar. Since this person dared to take advantage of you, he has violated the agreement.

Now that you mention it, I feel that I should sue him instead."

As soon as Zi Yi said that, she motioned for the manager robot. "Go and hire a lawyer right away."

The crowd subconsciously looked at the unconscious man sprawled on the ground.

"Yes, Master."

Their hearts could not help but feel sympathy for him.

Zi Yi continued to speak. "This person and whoever has the slightest relationship with him are forbidden from my bar in the future."

Upon hearing her words, the few people who came with him could not maintain their silence any longer.

"Boss Zi, Xue Ping did this alone and we are merely ordinary friends with him."

"That's right, he was lustful and that has nothing to do with us."

Zi Yi's eyes coldly swept past them and they got a fright.

One of them could not take it lying down and boldly said in a gruff voice, "Your bar will close down sooner or later if you do business like this. We are customers. If you really forbid us from entering in the future and this was to spread out, I'd like to see who will visit your bar."

"Ha!"

Zi Yi snorted and said to the manager robot, "Chase out this man and everyone who came with him."

Just as those people were about to get angry, several bodyguard robots swiftly appeared around them.

These bodyguard robots looked like real humans, but all of them looked as if they had been trained to kill before. Their expressions were extremely cruel and cold while radiating a murderous aura.

They were not from the capital and after hearing about the bar, they finally decided to come and take a look. When they saw so many robots who looked like killers surrounding them, all of them were instantly afraid.

Soon, the robots lifted these people with a single hand and chased them out of the bar.

Those who were still intoxicated had also been thrown out.

Their minds finally cleared up after getting thrown out and they started clamoring, saying that they wanted to sue Zi Yi and her bar.

However, they did not manage to clamor for a long time and were taken away by the police who rushed here.

Within the bar.

After what had happened earlier, everyone was even more fearful of Zi Yi.

However, Zi Yi did not care about other people's thoughts about her in the slightest.

She turned to Dou Yue'er and said, "I'll send you home."

Dou Yue'er was not in the mood to continue playing here and nodded.

She then turned around and faced her classmates.

As soon as her classmates who had been standing rooted to the ground sensed her gaze, they immediately recovered their senses. At the same time, they walked over and greeted Zi Yi enthusiastically.

"Hello."

They clearly had the thought of wanting to fawn over Zi Yi.

They first introduced themselves and started praising Zi Yi.

However, Zi Yi gave them an indifferent look and one of the girls whispered to Dou Yue'er, "Yue'er, does your cousin dislike us?"

"How is that possible? She must still be angry about that person earlier."

"Is that so? Then are you really going to go back now? We just arrived not long ago. Also... why didn't you tell us that your cousin owned this bar?"

Her words clearly carried an air of complaint.

Dou Yue'er opened her mouth. She wanted to say that the bar was her cousin's and not hers. What was there to tell them about?

"With our student cards, the entrance fee is half price, and what's the difference between telling you or not?"

"How can there be no difference? If you told us, perhaps the entrance fee would have been waived."

Zi Yi looked at Dou Yue'er and her classmates who were whispering among themselves and called out to her.

Dou Yue'er hastily replied, "Cousin."

Zi Yi said. "Let's go."

Lu Jingye had already informed the police about the incident and there was no need for her to come forward.

Dou Yue'er nodded and bid goodbye to her classmates. After that, she followed Zi Yi and headed out of the bar.

Since Lu Jingye and Zi Yi were leaving, Ian and Wei An were not in the mood to continue lingering around.

When they were walking out of the bar, Ian, who finally knew that this bar belonged to Zi Yi, could not help but praise her. "Zi, your bar is so advanced."

Zi Yi tilted her head and looked at him but did not respond.

Ian continued to speak. "I think that I will have a place to visit for the following period of time."

There were too many high-tech gadgets in the bar and he wanted to visit often to test them out.

Zi Yi nodded and said, "You need to make a reservation one week in advance to enter my bar. I'll give you the permission to come whenever you like."

Ian's lips curved up. "Thanks! I won't forget to spend more money here."

Zi Yi looked at him with a gaze as if saying: "Isn't that a given?"

She then turned around and looked at Dou Yue'er who was obediently seated by the side.

The moment she sensed Zi Yi's gaze, she gave her a pleasing smile.

Zi Yi asked, "Why did you come to the bar?"

"Several classmates of mine and I wanted to widen our outlook and see the high-tech gadgets in the bar."

There were more and more reservations for Zi Yi's bar and most of them had wanted to check out the technology inside.

There were even institutions of higher learning who specially contacted her and expressed their interest in bringing students to visit during the day.

Zi Yi touched Dou Yue'er's head and said, "Tell me in the future if you're coming. I'll get the robots to protect you."

Dou Yue'er smiled and her eyes curved into crescent moons. She hugged Zi Yi's arm and said, "You're the best."

Zi Yi and the group sent Dou Yue'er back to the Dou Family.

It was around 9 p.m by the time they reached.

It has been several days since she returned and so, Zi Yi and Lu Jingye had been persuaded by the Dou Family to stay for the night.

Since Ian had tagged along, he was also invited to stay the night.

Dou Yue'er told her family about what happened in the bar.

The Fourth Madam felt lingering fear after hearing the story. "Fortunately Little Lu and Zi Yi went to the bar. Otherwise you definitely would have suffered."

The Third Madam also said, "How can you secretly visit a bar with some classmates? Even if you wanted to go, you should have asked a male cousin to tag along."

"Mom, Third Aunt, I know my mistake."

Dou Yue'er admitted her mistake with a good attitude. The others merely lightly chided her and allowed her to return to her room to rest.

The First Madam and Second Madam served tea and the men sat together as they chatted.

Zi Yi did not see Dou Xiangling around and asked the Third Madam, "Third Aunt, where's Xiangling?"

"She said that she changed classes with one of her colleagues and she now has a morning class, so she went to rest."

"Has she recovered from her cold?"

"She has recovered," the Third Madam said, "Xiangling's health deteriorated because she had overworked herself some time back... As for you... I heard from Lingluo that you do experiments for several hours every day after you reach home. You shouldn't ignore your health just because you think you are young right now."

As soon as the Third Madam started, the other three had also started their nagging.

Zi Yi could only obediently sit down and listen to them.

Chapter 592: The Higher-Ups Came Looking For Zi Yi and Lu Jingye

The next day, Zi Yi originally planned to head to school. However, after they finished breakfast, Lu Jingye received Leader Tang's phone call for them to make a trip down to visit him.

When they arrived at the office building, they just so happened to bump into Lu Jianlin.

"Father."

Lu Jianlin saw how they had come hand in hand and he had a stern expression. "Have a good talk with them later. Don't try to show off or promise things you are unable to fulfill."

His words were in fact, a warning for Zi Yi.

She had been too high-profile at the Southern Ocean and he had been rather worried about her.

Lu Jingye nodded his head. "Father, don't worry. Yiyi knows her limits."

Zi Yi hastily nodded her head in agreement.

Lu Jianlin did not say anything else and the three of them walked into the office building together.

Just as they reached the entrance, they heard someone calling Lu Jianlin's name.

The three of them stopped and turned to look at the man walking over.

He had a large thermos flask in his hand while he stomped his feet in an attempt to keep warm.

“Second Master Lu, long time no see.” After the man greeted him, he turned to Zi Yi and Lu Jingye in the blink of an eye. After measuring them, he said with a smile, “You must be Lu Jingye and Zi Yi.”

Lu Jianlin introduced the man to the two. “This is the Officer of X Department.”

Lu Jingye greeted him. “Hello.”

Zi Yi had also followed suit.

Officer Chang nodded with a smile and walked inside the office building with them. He casually asked as they walked, “I heard that Little Lu and Little Zi were involved in resolving the pirates at the Southern Ocean. You two are so young, but to think that you have such capabilities. Sure enough, the Lu Family does produce talents.”

Lu Jianlin was not the type that would chit-chat and the task of conversing with Officer Chang fell onto Lu Jingye.

Officer Chang’s questions seemed casual but all of them contained a trap. It was as if he wanted to uncover the entire details of how they defeated the pirates.

On the surface, it seemed as if Lu Jingye would answer every time Officer Chang asked a question. But if one carefully paid attention, one will realize that Lu Jingye had not given a clear answer to Officer Chang’s question about the two of them making a trip down to the Southern Ocean.

When the four of them reached the second floor, Officer Chang stopped walking, as his office was located on that level.

When Lu Jianlin, Lu Jingye, and Zi Yi were about to continue going up, Officer Chang even politely said, “Little Lu and Little Zi, come over to my office to have a cup of tea when you come down later.”

Lu Jingye only gave him a nod and did not answer or confirm if he would visit his office later to have tea.

Thus, the three of them continued going up the floors.

When they arrived on the third floor, Lu Jianlin stopped and suddenly reminded them. “Only talk to whoever asks for you.”

The people here were not from the same faction and Lu Jianlin was reminding them not to get in contact with everyone and anyone.

Lu Jianlin and Zi Yi nodded their heads.

Lu Jianlin’s office was on the third floor and so, he did not continue going up with them.

Zi Yi and Lu Jingye’s destination was the fourth floor.

When they arrived at the entrance to the fourth floor, they saw someone waiting for their arrival.

“Mr. Lu, Miss Zi. I am Leader Tang’s secretary and my surname is Song. Please follow me.”

The two of them followed him and they walked towards one of the offices.

As soon as they got to the door, the door of the office opposite Leader Tang's office suddenly opened. A tall and slender middle-aged man with a pair of eyes that contained wisdom said to Lu Jingye, "Little Lu, come to my office for a moment. I have something to talk to you about."

Lu Jingye glanced at Zi Yi.

She gave him a nod for him to rest assured.

Only then did Lu Jingye head towards the other office.

When Zi Yi entered Leader Tang's office, she saw that he was currently writing something.

When Leader Tang saw Zi Yi coming in, he put down his pen and stood up with a smile. Following that, he pointed at the reception area. "Little Zi, come over and take a seat."

When Zi Yi walked over, Leader Tang said to Secretary Song, "Little Song, go and get a bottle of something to drink for Little Zi and some snacks."

As soon as Zi Yi heard that there were drinks, she was not polite in the slightest and said, "I want to drink orange-flavored soda."

Secretary Song who was about to close the door and walk away: "..."

He thought that Zi Yi would be too nervous to ask for anything.

Zi Yi and Leader Tang were seated on the sofa and the latter asked with a smile, "After Little Zi and Little Lu's wedding, exams should be starting soon?"

"More or less."

The exam month for M.Uni starts after the New Year. Zi Yi had taken up many subjects and she would mostly spend her time taking exams.

Leader Tang continued asking Zi Yi questions about her studies as if he had called her over today to have a small chat.

A few minutes later, Secretary Song returned to the room with the orange-flavored soda Zi Yi wanted and a few bags of snacks.

Ever since Zi Yi started living together with Lu Jingye, she never had the chance to drink soda anymore. She grabbed the bottle and took a large gulp.

2

Leader Tang saw how Zi Yi drank the bottle of soda and said with a smile, "Little Zi is about the same age as my daughter. She likes to drink soda too, but she hasn't had the chance to drink ever since she went to university."

Zi Yi looked at him and did not respond.

Leader Tang chatted for a while more before he finally got to the point. "We hope that Little Zi can hand over your skills in modifying missiles to the Country's Weapon Department."

Zi Yi pursed her lips and looked at him without answering.

When Leader Tang did not get a response from her, he added. "Of course, you will be compensated. As long as you hand over all your knowledge in this aspect to the country, I can meet one of your requests on behalf of the country."

Zi Yi tilted her head and thought for a moment before she asked, "Any request?"

"As long as it does not harm the interest of the country and its people, it's okay."

This type of condition was more or less equivalent to a death-free gold medal in ancient times.

If it were someone else who received the offer, they would certainly start dancing out of excitement.

However, Zi Yi was very calm.

She calmly asked, "What requests do you have of me?"

Leader Tang nodded at her response deep down. He was thinking that the young lady before him was not a simple character.

"We need you to keep everything you know about weapons confidential. Moreover, we will set up a weapons laboratory somewhere in the country and you will lead a team to do research. During this period of time, you are not to have any contact with the outside world."

"No."

Zi Yi immediately refused.

"I can give you the blueprints to make weapons, but it's impossible for me to stay there."

Leader Tang's expression turned serious.

Zi Yi was fearless. "I'm still young and I haven't enjoyed life. How could I possibly spend all my days in that kind of place?"

Leader Tang: "..."

Leader Tang was silent for some time before he said in a complicated tone, "We won't be at ease if you do not cut off all contact from the outside world."

"What's there not to trust? Are you worried that I will hand over these technologies to other countries?"

Zi Yi glanced at Leader Tang and continued to talk. "If I had the thought of giving those technologies to other countries, do you think there's a need for me to act so high-profile in front of you?"

Leader Tang felt that her gaze seemed to be holding him in contempt.

However, he has no proof.

Zi Yi muttered at this point, "If not because Ah Jing's Grandfather refuses to accept me, I can't be bothered to deal with you people."

"Then... what does Little Zi want?" Leader Tang somehow finds it hard to accept Zi Yi's reason.

Zi Yi said confidently, "For Ah Jing and I to climb to a higher position. In this case, his Grandfather wouldn't dare to oppose our relationship even if he wanted to."

Leader Tang: "..."

What's with the sudden thought that Patriarch Lu had done a huge favor for the country?

Chapter 593: Zi Yi Complaining

Halfway through their discussion, Leader Tang said that he had something to do and went out for a while.

As soon as he left the room, she grabbed the snacks on the table and started eating.

From that appearance of hers, it was obvious that she did not get to eat them normally.

A group of senior leaders were staring at a monitor.

The monitor was divided into two sides, one of which showed the room where Zi Yi was and the other showed Lu Jingye.

Zi Yi was on one side, and Lu Jingye was on the other.

One of the older middle-aged men said, "We can see a lot from one's behavior and habits. Little Lu is from the Lu Family and his loyalty to the country is indisputable. As for the other little friend, her mind is filled with Little Lu. I feel that as long as we treat Little Lu well, she will be happy to take out what she knows."

Another middle-aged female senior leader nodded and said emotionally, "One is a business genius and the other possesses advanced technology not yet achieved in the world. Even so, they are not treated well by the Lu Family. I really don't understand Patriarch Lu's train of thought."

It could be said that Patriarch Lu was used to being domineering and he had become a muddle-headed old man.

The female leader said, "I feel that it's easy to gain their trust. What they want should be the respect they ought to deserve."

The other leaders agreed with what she said.

Everyone continued watching the behavior of Zi Yi and Lu Jingye in the different rooms.

Zi Yi was just like a hamster who kept eating and drinking. She did not even bother looking around.

1

The female leaders present even had the urge to take her home and pamper her based on how she acted.

1

Lu Jingye had a good family education and his behavior had completely revealed this fact.

The leaders discussed among themselves for several minutes before Leader Tang and the other Leader, who was conversing with Lu Jingye, returned to their respective offices.

When Zi Yi and Lu Jingye came out of the two offices, two hours had already passed.

They just so happened to meet again at the door.

Zi Yi: Burp~

Lu Jingye looked at her lips and said disapprovingly, "You ate tons of junk food. You should cut down on eating these foods, eating too much is bad for your health."

As soon as he said that, he even gave Leader Tang a look.

Leader Tang, who was standing behind Zi Yi, suddenly had the illusion that he was the one being educated right now.

Zi Yi was thick-skinned. She smiled and walked over to his side, held his hand, and said in all seriousness, "I didn't eat much. I only drank too much water."

She belched again.

An orange-flavored soda scent wafted in the air.

Lu Jingye tightened his lips and looked at her.

Zi Yi could not handle his gaze and pointed at Leader Tang. "It was Leader Tang who asked me to eat."

1

Leader Tang opened his mouth and he very much wanted to make a stern-sounding retort.

However, Lu Jingye looked over in his direction with his pitch-black eyes. His gaze only lingered on Leader Tang's face for two seconds before he looked away. He then held Zi Yi's hand tightly and headed downstairs together.

When they were making their way down, Lu Jingye said, "No matter who gives you those junk foods in the future, you must resolutely refuse them. You can get the chef at home to cook you what you feel like eating."

"Got it. Wasn't I just worried that Leader Tang would feel that I don't appreciate his kindness?"

The two of them chatted as they walked downstairs.

Leader Tang who was standing by the door suddenly started 'doubting his life'. In particular, his colleague next door asked, "Comrade Tang, how much junk food did you get Little Song to buy for Little Zi?"

1

When his colleague mentioned the word junk food, he had even emphasized the word 'junk', and from his tone of voice, he was obviously stifling his laughter.

Leader Tang touched his nose and silently returned to his office.

He felt that these two young people did it on purpose.

However, he had no proof.

...

Zi Yi and Lu Jingye exited the office building. After they got in the car, Zi Yi turned on her cell phone.

As soon as it was switched back on, she saw several missed calls from the Deputy Director of the First Hospital.

Just as she was about to return the call, another phone call came in.

The Deputy Director laughed over the phone and said, "Little Zi, your doctor's license just got approved. Do come and get it when you have the time."

The location they were currently at was not too far from the First Hospital. Zi Yi said to Lu Jingye, "Ah Jing, I'll make a trip to the First Hospital first. My doctor's license has been approved."

Lu Jingye nodded and got the driver to head towards the First Hospital.

When she reached the hospital, Zi Yi directly made her way to the Deputy Director's office.

The Deputy Director had already been waiting there for her in advance. At the sight of her entering his office, he smiled and passed Zi Yi her doctor's license. "Now that you have obtained your license, Little Zi, I guess you can finally pass the prescriptions that you wrote back then to the patients, right?"

The family members of those patients would visit every day to ask and he was overwhelmed by their visits.

Fortunately, Zi Yi's license had been approved rather quickly.

Zi Yi nodded her head. She had been keeping the prescriptions in her bag and so, she took them out and passed them to the Deputy Director. "When handing the prescription to them, remind them not to consume other medicine at the same time, even if it is just a tonic."

"I am aware of this."

The Deputy Director took the prescription and got the staff to phone the patients, telling them to come to the hospital to collect their prescriptions.

He then returned to the office and said to Zi Yi, "Little Zi, since you've obtained your license, why don't you start by doing an operation today?"

"No."

Zi Yi shook her head. "I don't really know how to wield a scalpel."

She was determined to eliminate these backward technologies with advanced technology in the future.

The Deputy Director also knew that Zi Yi's hands-on abilities were rather lacking, so he did not continue to persuade her. He sent her out and while walking out, they chatted about the patients whose prescriptions were for.

Zi Yi got in the car that Lu Jingye was currently seated in while waiting for her. The both of them returned home after she was buckled in.

The patients had rushed over quickly as soon as they had received the phone call.

The Deputy Director personally brought them to the pharmacy to collect the medicine.

Those patients were all elated and they surrounded the Deputy Director as they said, "If the prescription Doctor Zi prescribed is effective, we will definitely give her an emblem when the time comes."

"It's sure to be useful. She can accurately diagnose our illnesses and so she certainly has the ability to cure our illnesses."

...

The Deputy Director would obviously wish that the prescription Zi Yi gave them could cure all their illnesses. However, nothing was absolute and the Deputy Director reminded them. "You should not treat the prescription Zi Yi prescribed as a miracle medicine where you would feel the effectiveness after drinking it once or twice."

Traditional Chinese Medicine was inherently milder than Western Medicine and it takes a long time before the effects are seen. Moreover, they still had to take some other prescriptions to regulate and nourish their body.

"Yes, yes, we know. We have suffered for all these years and we won't really be anxious about having to wait a year or half a year."

"That's right. As long as this medicine is effective, to me, it is a miracle medicine."

The Deputy Director was at ease knowing that everyone was so understanding.

He accompanied the patients and waited for the medicine to be dispensed. He only returned to the office after seeing them leave.

However, never had he imagined that someone would do something to the medicinal ingredients right under his eyes.

The culprit who added something to those medicines waited for the patients and the Deputy Director to leave. Then he went to a remote place to call Chu Jun on the pretext of going to the toilet.

"Young Master Chu, I have done what you asked. As for what you promised me, when can it be done?... Alright, I'm really thankful to you... Yes, I understand, I guarantee that no one will find out about this incident... Yes, goodbye."

Chapter 594: A Problem Arises

The majority of the people in high society were waiting for Zi Yi and Lu Jingye to get married, so that they could see the lack of participants attending their wedding. In that case, they would be able to see them make a joke of themselves.

As the 24th approached, many foreigners had already started to prepare for Christmas.

The shopping malls that were operated by foreigners started to hold all sorts of events.

Everyone was paying attention to Song Jewelry who had released their winter collection.

The theme of the new collection of jewelry was [Warm Heart] and there was a complete set. The chief designer was the well-known S Designer.

Other than [Warm Heart] they had unexpectedly launched another set, namely [Fall In Love].

As soon as the jewelry was launched, some were surprised and some were amazed.

For a period of time, the hot search position for Song Jewelry had soared into the top three on social media.

"It's unexpected that Song Jewelry had released new styles of jewelry at this time. Not to mention, there are two different themes!"

"It's so nice. Even if I'm just looking at the advertisement pictures, I feel all warm deep down inside."

"Why is it that only [Warm Heart] has an advertisement but not [Fall In Love]?"

"[Warm Heart] touches the heart, but [Fall In Love] looks so delicate and beautiful. At the same time, it is mysterious and noble. Looking at this set of jewelry, I feel that no matter who wears it, one would have the illusion that they are a Queen getting married to a King."

"Designer S deserves to be the expert in jewelry designing. Every set of designs reaches the heart."

"Eh... only the [Warm Heart] set has a price tag. The price of [Fall In Love] is not listed."

"Song Jewelry can't possibly be so careless, right?"

"Quick, go to their official website. It's said that [Fall In Love] is not for sale and there's only one set in the entire world."

"They are so domineering!"

...

There were good reviews all over the net and even if professional trolls wanted to badmouth Song Jewelry, they had been suppressed by a powerful force.

Seeing that Song Jewelry's hot search was about to soar to the first spot, the people from the eight aristocratic families could no longer hold still.

"Lu Jingye is too quick. There was not even the slightest news before and what do you think is the reason for them to release a new product at this time?"

"Could it be that he's trying to make their wedding known to everyone?"

“Ha! Only those businessmen who did not have any status would do that. To think that Lu Jingye had fallen to this degree that quickly ever since he was chased out from the Lu Family.”

“However, he has acted very quickly in this matter, not to mention that the advertisement is also now very widespread. Perhaps he would be able to accumulate a large amount of wealth very soon.”

Lu Jingye was too skilled in business. Moreover, they had heard rumors that the higher-ups had the intention of handing a few important projects for the Country to him.

At the thought of this, everything was clear to them.

“So he’s thinking of accumulating wealth to take over the projects given by those above.”

“If he were to successfully take over those projects, our companies would have to watch out for him.”

Everyone was well aware of the consequences and would certainly think of a way to stop him.

But before they managed to come up with an idea, a medical malpractice happened within the First Hospital.

When Zi Yi received the call from the First Hospital, she was currently working on her experiment.

After hearing what happened at the hospital, she calmly said, “I’ll be right over.”

She hung up the phone and went upstairs in large strides.

Just as she came out of the underground lab, she received Elder Tang’s phone call.

His tone of voice sounded anxious. “Little Zi, don’t come here. This situation is very serious right now and many reporters are here. I’ll be there right away and even if anything happens, I’ll help you block it.”

Zi Yi furrowed her brows. “Teacher, this incident has nothing to do with you. Also... as long as those people are not dead, I can cure them.”

Zi Yi walked over to the main hall. Lu Jingye was currently doing work in the living room and he looked up after hearing the sounds of her footsteps.

Zi Yi said to Elder Tang, “Teacher, don’t confront the people when you arrive, lest they act rashly towards you.”

The situation there right now must be a mess and Zi Yi was worried that with Elder Tang’s old age, something might happen to him even if it was just a slight push.

Elder Tang wanted to say something but Zi Yi had hung up the phone.

Lu Jingye placed the laptop to the side and stood up. “Go change your clothes. I’ll go drive the car and send you to the hospital.”

Clearly, he had guessed something from Zi Yi’s words.

Zi Yi nodded her head and quickly made a trip upstairs.

Lu Jingye drove a particularly low-profile car to the hospital.

By the time they rushed to the First Hospital, a large group of reporters and bystanders were already surrounded the entrance.

The crowd was furious.

Everyone clamored for the hospital to hand over the doctor who treated those patients and bring them to justice.

Lu Jingye's car passed by everyone and reached the back of the hospital.

Unexpectedly, there were also reporters there.

Lu Jingye parked the car a little further away and said, "Let's divert them away first. There's no need to directly confront them."

Zi Yi nodded her head and quickly swiped across her phone.

Soon, someone who looked similar to Zi Yi was running in another direction.

The reporters who were camping outside had started chasing her like madmen.

Zi Yi and Lu Jingye alighted from the car and swiftly headed for the back door.

After walking in, Elder Tang and the Deputy Director were already waiting for her there.

"Little Zi, I told you not to come."

Elder Tang looked at Zi Yi and was angry and anxious at the same time. "Everyone is extremely furious right now and what if they were to harm you later on?"

"Teacher, don't you worry. Since I'm here, I definitely have the ability to resolve things."

The four of them headed to another building.

The Deputy Director said, "The patients and their family members are in the outpatient department. However, it is extremely crowded there."

He glanced at Lu Jingye and could not discern his train of thoughts. He then looked at Zi Yi and explained the situation in a simple manner.

"These people took the prescription to collect the medicine yesterday and this morning, a family member of the patient called to say that the patient had a rash all over his body after taking the medicine. In the afternoon, there were more people who called to say that patients had difficulty breathing."

Zi Yi connected to the surveillance at the outpatient department with her phone and she could see the situation there.

All the patients were placed in the hall and many of the family members had screamed and cried out loud without any care for their image.

There were also many other patients and their family members pointing fingers and uniting against Zi Yi.

The reporters streamed live broadcasts of the situation and from the way they were acting, it seemed as if they were sure that something was wrong with the prescription Zi Yi had prescribed.

There was no need to mention how chaotic the situation was.

Over the internet, this had already become sensational news.

Elder Tang glanced at Zi Yi's phone and just so happened to see a comment on the internet. His expression turned livid. "These people are really capable of saying whatever they like. The situation has yet to be made clear and on what basis do they push all the blame to you?!"

1

The Deputy Director looked at Lu Jingye anxiously and asked, "Little Lu, is there any way you can suppress the online public opinion?"

Zi Yi was currently subjected to cyberbullying and is he not anxious at all?

Lu Jingye said, "Someone will come forward to solve this matter. It's more effective than me doing anything."

As soon as he said that, Zi Yi said, "The Country's Network Police have started to act."

Elder Tang and the Deputy Director were surprised.

Just then, Lu Jingye's phone rang. After he finished answering the call, he said to Zi Yi, "Someone will be coming from above. They are asking what you plan to do."

Zi Yi thought for a while and looked at the Deputy Director. "I need several kinds of testing equipment..."

Chapter 595: Everyone's Rebellious!

When fully armed special guards appeared at the First Hospital, everyone was stunned.

"Could it be that those above are already aware of this matter?"

"There are so many special guards here, don't tell me that they are here to catch that black-hearted doctor? The higher-ups really attach great importance to this."

"I heard that the one who prescribed the prescription is an M.Uni student. Her name is Zi Yi."

"This name is really familiar. Oh, I remember! She seemed to have won some prizes before."

"Who cares what grand prizes she has won. This person should be arrested and imprisoned for harming so many people!"

1

The crowd got angrier the more they talked. When the special guards entered, all of them subconsciously retreated in fear.

The special guards were grim and iron-faced. All of them carried live ammunition in their hands and gave off a strong deterrent.

Even those 'evil-tongued' reporters were silenced by them. They dared not speak loudly nor aim their cameras at them.

1

The family members of the patients were also shocked by the armed special guards' appearance. Following that, they thought that these people must be here because they knew of what had happened and had come to uphold justice for them.

Everyone held their breaths and waited for the leader to step out.

Before this, the incident of the First Hospital's medical malpractice had spread to the Lu Family.

Lu Jianlin and Mrs. Lu were called to the main residence.

Patriarch Lu had his hands on the armrest of the chair. His fingers lightly tapped and he was clearly waiting for Lu Jingye to personally call him to ask for help. As long as he was willing to apologize, he would send men to settle this matter.

1

Mrs. Lu was so anxious that she wanted to give them a call to ask what was going on. However, Patriarch Lu yelled at her, "Put down the phone!"

Mrs. Lu was so anxious that tears were about to spill out.

However, she felt her heart go cold. "Father, Jingye is your grandson, and are you really going to be so heartless?!"

Patriarch Lu snorted. "It's that woman who committed the mistake. Since she's so capable, let her resolve the problem herself. If she can't even take care of such a simple matter, what rights does she have to enter our Lu Family?"

Mrs. Lu felt disbelief at his words.

"Little Zi and Jingye have already gotten married. Father, do you truly intend to be so indifferent?"

Patriarch Lu's expression turned grim. "Are you teaching me how to do things?"

Mrs. Lu clenched her fist and her chest heaved up and down. Right now, she hates Patriarch Lu to the extreme.

She turned around and looked at Lu Jianlin. She gritted her teeth and asked, "Jianlin, do you think the same way as your Father?"

Lu Jianlin wanted to pat her arm to calm her down and have her control her emotions.

However, Mrs. Lu dodged his hands and asked coldly, "Do you think so too?"

If he dared to say yes, she felt that there was no need for them to stay together anymore.

Lu Jianlin sighed deep down. He looked at Patriarch Lu and his tone contained slight disappointment. "Father, Lingluo, and I didn't rush to the First Hospital at the very first instance but were willing to come here, just because of a phone call from you. The reason is that we wanted to see your attitude.

You clearly know that Little Zi rescued Third Brother and those from above attached great importance to her. Yet, you still have this reaction. Your actions really make our hearts go cold."

Patriarch Lu's expression darkened. His son had actually said that he made his heart go cold?

As their Father and Grandfather, wouldn't his heart go cold too when they rebel against him?

Lu Jianlin raised his hand and held Mrs. Lu's hand. While Patriarch Lu was looking at them with a livid expression, he said, "Does father think that Little Zi will be drowned by the public opinion, just because I did not step forward and that Jingye would return to how he was before, and listen to you on everything? You're mistaken. Those above would not watch on helplessly as something happens to Little Zi."

After he said his piece, he left while holding onto Mrs. Lu's hands.

Patriarch Lu got so angry that his chest heaved up and down. "Everyone's rebelling!"

Just then, the First Madam's concerned voice sounded. "Father, don't be angry. We all know that you wanted to prevent Second Brother and Second Sister-in-law from getting involved, but they do not appreciate it."

Patriarch Lu was so angry that he loudly shouted, "If you dare to walk out the door today, you can just get out of the Lu Family like your son!"

Mrs. Lu turned to look at the grim-faced Lu Jianlin.

He held her hand tighter and increased his pace.

When they walked to the yard, they could still hear the sounds of teacups falling to the ground and the First Madam asking Patriarch Lu to calm down.

After the car drove out, Mrs. Lu looked at Lu Jianlin who was particularly silent, and asked, "Jianlin, do you regret it?"

Lu Jianlin faced the front and said, "There's nothing to regret. Father is in the wrong and I can't possibly ignore my son and daughter-in-law because of filial piety."

2

Mrs. Lu felt her heart warming up.

She knew that her man would never disappoint her.

Lu Jianlin took out his phone and quickly made a call.

After making the call, he said to the driver, "Head to the First Hospital at once."

...

The First Hospital.

When the group of armed special guards surrounded the entire outpatient hall, everyone present dared not speak loudly.

Before long, two domineering-looking men walked in.

They surveyed the surroundings with their sharp and oppressive gaze. The crowd had subconsciously held their breaths.

At the sight of these two individuals, the Director hurried over and greeted them.

The two men asked, "Has Miss Zi arrived yet?"

"I'm here," Zi Yi answered the question and walked out from behind.

At the sight of Zi Yi, the family members of the patients immediately revealed a ferocious expression as if wanting to eat her whole.

"Zi Yi, you black-bellied..."

"Shut up!" Zi Yi shouted and directed slight traces of mental energy at them. The victims of her attack shivered and they subconsciously shut up.

The two leaders came up to her when Zi Yi was making her way over.

One of the leaders did a simple self-introduction. "My surname is Sun and he is Li. We are responsible for assisting you today. Please tell us if you need anything."

The crowd was all surprised at what they said.

A young lady had managed to make those from above attach such great importance to her?

What background did she have?

Some people subconsciously looked at Lu Jingye standing beside her.

Could it be that the Lu Family was behind this?

Zi Yi turned over to look at the Deputy Director.

The Deputy Director said, "Immediately bring over the equipment."

As soon as he said that, voices asking the crowd to make way could be heard.

Everyone subconsciously got out of the way.

Only to see a few male doctors coming over with several testing equipment.

Zi Yi said to Leader Sun, "Let everyone step back and make space in the middle."

Leader Sun shouted loudly, "Everyone, step back."

Immediately, the special guards had the crowd move back.

A large space was soon vacated.

Zi Yi looked at the patients who were in wheelchairs.

She did not immediately give them a checkup; instead, she asked the family members, "I've got the Deputy Director to convey to you that the patient should not consume any other medicine when taking the prescription that I prescribed. That also includes tonics."

"My Mother/Father/Uncle/Aunt had not eaten anything but the medicine you prescribed!" the family members of the patients answered loudly.

Zi Yi nodded her head and asked, "Who brought the medicinal ingredients that they ate?"

There was really someone who brought it.

"I brought it."

"Give it to me."

The patient's family member brought over the medicine residue that was stored in a plastic bag and he also had a serving of the medicine that was unused.

Chapter 596: There's an Additional Medicinal Ingredient Which Clashes With the Prescription

Zi Yi took the bags and took a whiff of the medicine residue. Elder Tang checked the medicine that was unused.

Lu Jingye looked at the group of reporters and said, "You can start your reporting and let everyone see if Little Zi is harming or saving people."

His voice was very calm, but it contained a sharpness that caused the reporters to somehow feel nervous.

Elder Tang was the first to speak. "There's an additional medicinal ingredient that's been added, which clashes with the other medicinal ingredients."

Everyone was shocked.

Zi Yi mentioned the name of the medicinal ingredient and said, "This is considered a toxic medicinal ingredient and even if its toxicity isn't strong, it can make people feel weak and feeble. When added to my prescription, it just so happens to cause a chemical reaction and causes the entirety of the medicine to turn poisonous."

Everyone was surprised at what Zi Yi said.

Some of them could not control themselves and started whispering, "Could it be that someone deliberately put in an additional ingredient?"

"Who could it be?"

"Since all eight of the patients were poisoned, it must have been someone from the pharmacy."

“How much does that person hate and resent Zi Yi to have done this and framed her? Not to mention it has harmed so many people.”

“It’s possible that Zi Yi and that person have collaborated and that she’s now saying this on purpose. We don’t recognize medicines and what they say would be deemed as the truth.”

“Perhaps that old doctor is protecting her too.”

The voices of their discussion were very soft, but their words had still reached Zi Yi’s ears.

Lu Jingye turned to ask the Director and Deputy Director, “Where’s the prescription Yiyi had written for them?”

The Director and Deputy Director made eye contact and the latter immediately shouted, “Little Wang, bring those prescriptions here.”

“Yes!”

It did not take long before someone hurried over and said anxiously, “Director, Deputy Director, the handwritten prescriptions Zi Yi wrote have disappeared. Only the soft copy in the computer remains.”

The expressions of some people darkened.

Everyone clearly knew that someone wanted to ruin Zi Yi’s reputation and they subconsciously looked in her direction.

Among the patient’s family members, some of them shouted loudly, “You must have destroyed the prescription. I would like to see how you people protect her!”

Zi Yi still appeared calm at this moment as she said, “Go and print out the prescription that was keyed into the computer.”

The staff member looked at the Director and the Deputy Director before he hastily went to print the e-copy.

During the wait, the patient’s family members and some of the onlookers were so angry that they wanted to shout curses at her.

However, they were stopped by the two leaders.

“Before the truth is revealed, whoever dares to make a random accusation can be arrested for the crime of spreading rumors and slander.”

The hospital staff came over with the printed prescription very soon.

Zi Yi took a glance and sure enough, there was an additional medicinal ingredient.

The Deputy Director, Elder Tang and a few other doctors had seen the prescription Zi Yi had prescribed previously.

“This wasn’t written in the original prescription! Who added it in?!” Elder Tang was instantly infuriated.

The family members could not take it anymore and angrily shouted, "You're still trying to quibble your way out at this time?!"

"You-"

"Teacher, there's no need to get angry, I'll handle this." Zi Yi looked at the family members who seemed as if they were about to pounce on her the very next second and said, "There was a video recording of the day on which I wrote those prescriptions. I did not include this medicinal ingredient and we can all check the video of that day."

Zi Yi had been very high profile that day and the scene was broadcasted live. The video had been easily found online.

Many netizens quickly went investigating.

...

This incident had spread into Lu Zhiheng's ears at the very first instance.

Lu Zhiheng and Chu Jun stared at the computer screen at the same time.

When Zi Yi mentioned checking the prescription, Lu Zhiheng furrowed his brow and asked Chu Jun, "Is the person you found reliable?"

1

He was worried that after they found out the names of the pharmacy staff, that person would confess immediately.

Chu Jun was very confident. "Don't worry. That person has begged me for help and even if he is exposed, he would only dare to take on the responsibility. He would not dare to expose us."

Lu Zhiheng's eyes slightly narrowed at his words.

He was still a little worried and said, "It had better be the case. If they come looking for me, not only will I be in deep sh*t. The Chu Family will also be finished."

Even though Patriarch Lu was overbearing, what he hated the most were these kinds of dirty tricks.

If he was really identified, his legs would definitely end up being broken.

Chu Jun reassured him. "You can be at ease."

...

Other than Lu Zhiheng who was paying attention to this incident, those from the other families were the same.

The First Hospital.

When everyone was checking the online video, the video of that day appeared on the big screen which showed the price list of various medicines.

The video zoomed in on the prescription Zi Yi wrote.

At the same time, the printed medicine list had been displayed next to it and everyone compared them one by one.

“The toxic medicinal ingredient is not there!”

“In that case, someone must have deliberately added it in!”

When the last prescription was compared, Elder Tang snorted loudly.

“The truth is right here. Does everyone still insist that my student is at fault?”

After the patient’s family members compared the prescription, they started crying and made a scene.

“If it wasn’t Doctor Zi’s prescription that had a problem, it must be those who packed the medicine!”

Everyone else had also thought of this.

One of the leaders said, “Bring all those who pack the medicine in the pharmacy over.”

Soon, the guards had led three individuals over.

When they stood there, it was obvious who had tampered with the medicinal ingredient.

Fang Tong had never expected that they would bring out the video of that day and compare it with the prescription list keyed into the computer. He originally planned to secretly sneak away, only to find that the whole outpatient department was surrounded and he could not get out at all.

He tried his best to calm himself down and loudly said with trembling lips, “I was instructed to do so.”

As long as he pushed the responsibility onto someone else, he would surely be fine.

The leader sternly asked, “Who ordered it?”

At the thought that as long as he caused Zi Yi’s downfall, his problem would be automatically resolved, he immediately pointed his finger at Zi Yi. “It’s her.”

The leader’s expression turned fierce and he shouted, “Who is it!”

Fang Tong had not faced such a domineering leader before and he was so frightened that he trembled in fear.

He could only grit his teeth and say, “It’s her!”

Fang Tong’s expression had made it obvious that he was lying. Not to mention the people present did not believe him, even the netizens online did not believe him.

Everyone started condemning Fang Tong.

However, Zi Yi laughed. “Are you afraid of saying it? Then let me help you.”

In fact, Zi Yi had investigated the people working in the pharmacy on the way here with Lu Jingye. At that time, Lu Jingye had even got her to check on their family members and friends.

They had already found out about Fang Tong and the reason why they had not exposed him outrightly was to make the story convincing.

Lu Jingye said expressionlessly, "Fang Tong, lives in No. 44 Wutong Road. Because his parents had been cheated out of 1.5 million in the first half of the year, he is currently being chased down for his debts. A few days ago, he killed the debtor out of anger and to avoid jail time, he went looking for the Chu Family. They promised to help him settle the matter, provided that he made Yiyi lose all her standing and reputation, and be sent behind bars."

Chapter 597: A Third Party Taking Action Against the Culprits.

The moment Lu Jingye finished, Fang Tong's expression turned pale.

The crowd, however, exploded.

In particular, the patient's family members were so angry that they started swearing at him and acted as if they wanted to skin him alive.

"What the f*ck?! You are so evil!"

Fang Tong controlled his trembling body and tried to make a last struggle. "It's not like that. He's talking nonsense."

He wanted to glare at Lu Jingye, but the moment he met his eyes, he felt a chill run down his back. He looked away in fear and the idea of making a life and death struggle flashed past his mind.

The Chu Family said that as long as Zi Yi is ruined, it does not matter even if she dies. They promised that his parents would no longer be chased for their debts and that they can even live a wealthy life.

At the thought of this, he swiftly touched his body. He wanted to take out the knife he had hidden to stab Zi Yi while everyone's attention was elsewhere.

However, as soon as he moved, he heard a rushing of the wind.

Whoosh!

Ding...

"Ugh..."

Looking at Fang Tong's hand that was bleeding, everyone subconsciously turned to look at Lu Jingye, who was standing next to Zi Yi with a cold expression, along with the two leaders and also...

"Si! Second Master Lu is here!"

Lu Jianlin and Mrs. Lu were standing behind the crowd. If not for the fact that they had taken action earlier, everyone would not have noticed their arrival.

The crowd and guards who were standing in front of them had subconsciously made way for them.

Lu Jianlin and Mrs. Lu walked over at the same time.

Lu Jianlin carried an air that was powerful and his aura was sharp. When his sharp gaze swept across the crowd, everyone subconsciously felt a cold air pressing down on top of their heads.

The two of them made their way towards Zi Yi.

Zi Yi and Lu Jingye called out at the same time. "Father, Mother."

Mrs. Lu came over and grabbed Zi Yi's hand. She then looked at Fang Tong who was holding his hand with a twisted expression due to pain. "If you want to frame my Yiyi, you should ask if we agree to it or not! Hmph!"

Lu Jianlin saluted the two leaders and said, "We will not get involved in this incident, but we also won't sit idly when someone is plotting against Little Zi."

He turned to look at Lu Jingye after he said that.

Lu Jingye nodded at him and said, "Fang Tong has had contact with Eldest Aunt's family. If my guess is right, their family promised to help him repay his debt if he successfully ruined Yiyi's reputation."

BAM!

Patriarch Lu who was watching the live broadcast smashed the teacup and his eyes turned sharply towards the First Madam.

The First Madam gripped the sides of her coat and tried her best to keep calm and revealed a shocked expression. "Father, I didn't know anything about this!"

She said eagerly, "It couldn't have been my family that did this. They have always known their place and so how could they have done such a thing?"

Patriarch Lu's sharp gaze stared at her.

The First Madam felt her heart palpitating.

Patriarch Lu said with a thunderous expression, "The evidence is all there, don't tell me it's possibly fake?"

"No... it's possible that Lu Jingye wanted to help Zi Yi minimize her responsibility and purposely pushed the blame onto us..."

BAM!

The First Madam's voice was interrupted by Patriarch Lu heavily slamming his hand down on the table.

He looked at her with a grim expression.

The First Madam's knees trembled under Patriarch Lu's glare. However, this concerned her family's safety and she started tearing up. "I don't know what's going on either. My family has always known their place and had never overstepped the boundaries. Father, please calm down. I will immediately call for my brothers to question them."

"No need for that."

The First Madam's heart skipped a beat at his words.

She very much wanted to ask what he meant by that.

Patriarch Lu called for the housekeeper and said, "Immediately arrest all the Chu Family members and send them to the relevant department. Tell the people there that no matter who is the culprit, punish them in whatever way they should be punished."

"Father!"

"If you wish to intercede for them, you may go in together with them."

The First Madam was afraid to speak any further. Her hands grabbing the sides of her clothes had tightened.

...

On the other side.

The expression of Chu Jun, who was in the President's office, had finally changed when he saw how the situation progressed. He knew that this matter was exposed and thought of asking for Lu Zhiheng's help.

However, Lu Zhiheng spoke first. "Since this matter has been exposed, someone must come out to carry the blame."

1

Chu Jun felt his heart sink. His expression was ugly as hell.

Not to mention, Lu Zhiheng's phone rang at that very moment.

The phone call was from the First Madam and she had secretly made the call. After hearing what she said, Lu Zhiheng's expression changed greatly.

He hastily said, "Mother, I understand."

After hanging up the phone, he turned to Chu Jun and said, "Grandfather already knows of this. He asked the housekeeper to send all the Chu Family members to the relevant departments."

Chu Jun's body faltered and his face was as white as ashes. "Cousin, ask Aunt to think of a way to help the Chu Family."

Lu Zhiheng furrowed his brow. "Mother said to follow the wishes of Grandfather first. She will think of something later. However, someone must step forward to take the blame."

Chu Jun knew that it could only be him.

After a struggle in his heart, he nodded his head. "Cousin, don't you worry. I know what to do."

Lu Zhiheng breathed a sigh of relief. He stood up, walked over to him, and patted him on the shoulders. "Don't worry. After this matter subsides, my Mother and I will find a way to fish you out of the troubled waters."

Chu Jun nodded his head.

The men under Patriarch Lu were quick with their actions. As soon as the truth came out on Zi Yi's side, Leader Sun received a phone call from the housekeeper in the Lu Family's main residence.

After ending the call, Leader Sun said to Second Master Lu, "Patriarch Lu had asked us to arrest and interrogate the Chu Family immediately."

His words had confirmed that the culprit was from the Chu Family.

Everyone was surprised.

For a moment, the drama of fighting for power within the wealthy families had surfaced in everyone's mind.

Since the truth was more or less laid bare, Leader Sun directly tasked his men to lead Fang Tong away.

Even though the family members of the patients no longer blamed Zi Yi, none of them were in a good mood when something like this had happened to their closest relatives.

"Then what about our Father/Mother...? They are suffering right now, don't tell me that they can't be saved?"

"Wuuuu"

For a moment, grieving cries sounded in the hall.

The spectators and reporters dared not talk, but their gazes had subconsciously looked towards Zi Yi and Elder Tang, along with the other staff members of the hospital.

Elder Tang said to Zi Yi, "Little Zi, no matter how the patients' families were before, doctors should have a benevolent heart. We have to find a way to cure them."

What Elder Tang did not say was that he also had his own selfish thoughts. It just so happens that there were so many reporters present. As long as Zi Yi cured the patients of the poison, she would certainly gain fame in the industry.

Only when she becomes well-known will no one dare to easily question her abilities in the future.

Lu Jingye, Mrs. Lu, and Elder Tang all had the same thoughts.

Zi Yi thought for a moment and nodded. "I need a tube of each of the patients' blood for testing."

Chapter 598: This Is a True Genius!

As soon as Zi Yi opened her mouth, there was no need for her to do anything as the Director and the Deputy Director had gotten the relevant department to draw blood from the eight patients.

The equipment was in the hall and it was the one that Zi Yi had modified.

In just a few minutes, the test results were out.

Subsequently, Zi Yi started eight operations live.

"Since they are all poisoned, it's because of the medicinal ingredients that clashed with each other. I'll then detoxify the poison first."

Having said that, she took out the set of silver needles she usually used and started to detoxify the patients.

Everyone was stunned by her skills.

At the same time, they were amazed deep down: *How skilled!*

The incident in the First Hospital had spread all over the medical field.

When Zi Yi started eight operations at the same time to detoxify the poison for the patients, be it local or abroad, all the schools stopped the lessons. Even in countries that had a twelve-hour time difference, many of the medical professors had got up from bed and sat in front of the computer to watch her treating the patients.

Not only did she utilize medical knowledge, she also combined it with chemical knowledge.

While she was detoxifying the patients, she also explained her actions at the request of Elder Tang.

All sorts of professional terms came out of her lips.

No matter if they understood what she said or not, everyone sighed and thought, *"This is a true genius!"*

Zi Yi spent five hours helping these patients detoxify the poison.

Within these five hours, no one left nor said a single word.

Only the camera continuously moved to various angles.

When looking at the patients, who had been suffering as if they were going to die the very next second, recovering, everyone felt joy.

"This is too amazing. Zi Yi only used five hours to detoxify eight people."

"This is a true miracle doctor!"

"She's so young and yet, she possesses such skills. She's too amazing!"

...

The previous voices of cursing and questioning had disappeared without a trace. Be it people who were at the scene or those behind the screens, all of them had praise for Zi Yi.

In half a day's time, the live broadcast of Zi Yi detoxifying the patients had occupied the top three position in the hot search ranking.

#Genius female goddess successfully saves eight patients who were deeply poisoned by using her knowledge of Chinese Medicine and Chemistry#

#This is the M.Uni's female goddess that has obtained the skills of an influential figure in Chinese Medicine#

#The country is strong when the citizens are strong#

...

"The higher-ups are definitely supporting this woman. We can't deal with her openly anymore."

The Family Heads of the remaining seven aristocratic families had gathered everyone and given them a warning not to provoke Zi Yi.

“We can’t deal with that woman for the time being. It is clear that the incident with the Chu Family is a wake-up call from the higher-ups.”

The Chu Family was in a miserable plight. They originally thought that as long as Chu Jun took on the blame, the other Chu Family members would be fine.

However, they didn’t expect the higher-ups to order a thorough investigation of the Chu Family.

None of those who attached themselves to the eight aristocratic families had hands which were clean. Soon, the investigators had uncovered all sorts of illegal behavior and dealings of the Chu Family. With the exception of the two elders, it could be said that everyone was in troubled waters.

When the First Madam learned about this news, she cried her eyes out.

“Why regret now when you knew this would happen? What are you and the Chu Family thinking about every day? Why do you insist on making things end up like this?”

“Wuuuu~ Isn’t it all for our son? Don’t tell me you want Lu Zhiheng to be suppressed by Lu Jingye forever?”

The First Madam wiped her tears and continued weeping. What has she done wrong?

“Even if I am in the wrong, I can’t implicate all of my family members. Jiancheng, please think of a way, otherwise, my maiden family will really be finished.”

Elders Master Lu glared at the First Madam and said after a long time, “You and Zhiheng better keep a low profile from now on. I will think of a way to fish them out sometime later when the situation subsides.”

“How much later? My parents have both fallen ill due to the younger generation of the family!”

“Then what else do you want?!” Elders Master Lu yelled unhappily. After he got upset, he got up and left.

The First Madam saw the departing back view of her husband and she felt anxiousness and hatred at the same time.

She gritted her teeth and tried her best to control her emotions.

Just then, knocking sounds came from the door and she saw the housekeeper coming inside.

The First Madam hastily wiped away her tears and subconsciously asked, “Housekeeper, is it that my Father is looking for me?”

“That’s not the case.” The housekeeper held onto a small food box in his hand and passed it to her. “First Madam, I saw that you did not eat and so I got the kitchen to stew some bird’s nest soup for you.”

The First Madam was warmed by his actions and her tears were about to spill out again. However, she held them back.

The housekeeper said, "First Madam, you should not blame the Eldest Master for this. No one can change what Patriarch Lu has decided."

The First Madam nodded her head and took the bird's nest soup.

The housekeeper saw her taking the bird's nest and said, "First Madam, you're making things difficult for the Eldest Master to think of a way out for your family. It's better for you to beg Patriarch Lu instead. With a single word from him, the people upstairs would more or less give him face."

1

"How should I beg him?" Patriarch Lu was currently furious and she did not even dare to appear before him.

The housekeeper made a suggestion. "Patriarch Lu did not eat much today too. Why don't you head to the kitchen to personally prepare some appetizers? It just so happens that the kitchen has imported some new ingredients."

The First Madam found the housekeeper's suggestion to be a good one. She put down her bowl and went to the kitchen with him.

"What's this?" the First Madam asked upon seeing a jelly-like ingredient.

The chef said, "This is processed peach gum. It's good for the stomach."

The First Madam carefully scrutinized the ingredient and discovered something squirming inside. She was startled and asked, "Why is it moving?"

1

"The ingredient is supposed to be like that."

Only then did the First Madam relax and she asked, "How should this be prepared?"

"You only need to boil it for two hours."

The First Madam nodded her head and started to boil the peach gum.

...

On the other side.

After Zi Yi detoxified the patients, she prescribed them a new prescription. She had become famous in an instant.

#Youngest miracle doctor#

#The most beautiful miracle doctor# #The goddess who amazed the world with her silver needles#

All sorts of labels for her were created. There were both praises and people who were in denial of her abilities. However, Zi Yi did not care about them at all.

After the medical malpractice incident was resolved, Zi Yi and Lu Jingye's wedding was fast approaching.

Zi Yi's original plans to head to M.Uni went up in smoke. In the following days, she had been cooped up in the wedding location to add some high-tech elements.

In the blink of an eye, it was soon the 22nd.

At noon, just after Zi Yi commanded the robot to make the podium, she saw Lu Jingye walking over in large strides.

"Yiyi, there's news from the base that my Second Brother is conscious."

Zi Yi's lips curved up and she followed him to the front yard. "Did you inform Dad and Mom about this news yet?"

"Mother already knows. She went to the courtyard first and Father rushed over right away."

The two of them directly drove to the courtyard.

As soon as their car stopped moving, Mrs. Lu came over with reddened eyes as she agitatedly said, "Yiyi, Jingye said that Yunxiao is conscious."

Zi Yi nodded her head and she was also delighted. "When Father arrives, we'll have a small chat with Yunxiao."

"Can we really converse with him?"

"Yes, through his brain waves."

"That's great!"

Mrs. Lu could not hold back anymore and tears started streaming down her cheeks.

Zi Yi and Lu Jingye were busy consoling her.

Mrs. Lu wiped her tears and said, "I was too happy."

Chapter 599: Conversing With Lu Yunxiao Through His Conscious

Lu Jianlin arrived very soon. Clearly, he had gotten the driver to speed up.

The expression on his face at this moment was no longer as stern as before. There was even excitement in his eyes.

"Is Yunxiao really conscious?"

"That's right."

The three of them, who were waiting for him in the living room, stood up and they headed towards the basement together.

When they arrived at the underground lab, Zi Yi connected to Lu Yunxiao's ward.

Elder Hu and Lu Yi were seen standing by the transparent container

At the sight of Lu Jianlin, they first saluted and greeted him.

Lu Jianlin nodded to the two men and asked Zi Yi, "Little Zi, how are we going to converse with Yunxiao?"

Zi Yi brought up the virtual keyboard. After her fingers tapped on the keyboard for a while, a virtual screen appeared inside the ward and it connected to the main controller next to the container.

Soon, brain waves were being displayed on the controller.

Zi Yi said to them, "I'm connecting to Yunxiao's brain waves now. You can tell him if you have anything to say. But it's best to keep the sentence short, as it would be easier on him. He shouldn't speak too much or else it will put pressure on him."

The three Lu Family members made eye contact with each other.

In the end, Lu Jianlin said to Mrs. Lu, who was somewhat shaking due to excitement, "Lingluo, what do you want to say to Yunxiao?"

"I... I don't know."

There were too many things she wanted to say but her mind was completely blank now that she had been asked to say a simple sentence.

"Jianlin, why don't you say it first? I... I can talk to Yunxiao later," Mrs. Lu said this with great distress.

Lu Jianlin held her hand and said, "We'll each say one sentence."

Mrs. Lu opened her mouth but ended up nodding her head.

Zi Yi had soon connected to Lu Yunxiao's brain waves. She got Lu Jingye to speak first.

Lu Jingye unconsciously lowered his voice and called out. "Yunxiao."

As soon as Lu Jingye spoke, Yunxiao's brain waves fluctuated.

Soon, a word was shown on the virtual screen.

Mrs. Lu gasped and covered her mouth. Her tears started spilling out again.

Lu Jianlin patted her on the shoulder and asked Zi Yi, "Little Zi, can I speak now?"

Zi Yi pressed a few keys on the keyboard and said, "Go ahead."

Lu Jianlin looked at his second son who was submerged in the nutrient solution and his voice was slightly hoarse. "Yunxiao, this is Father. I order you to get better soon."

No words were shown on the screen, but the fluctuation of the brain waves was greater.

Lu Jianlin's expression stiffened.

Mrs. Lu asked anxiously, "Is what Jianlin said too long? Will it have an impact on Yunxiao?"

Before Zi Yi got the chance to reply, two words appeared on the screen. "Yes, Father!"

Mrs. Lu nearly teared up again due to joy.

Zi Yi quickly pressed a few keys again and said to Mrs. Lu, "Mom, you can talk now."

Mrs. Lu tried her best to restrain her tears and used her gentlest voice to call out. "Yunxiao, this is Mother."

No words had immediately appeared on the screen.

Other than Zi Yi, everyone else could not help but hold back their breaths as their hearts seemed to come up to their throats.

A longer time compared to earlier passed by before the word 'Mother' appeared on the screen.

"Yunxiao finally called out me. Wuuuu..." Mrs. Lu finally lost control and threw herself into Lu Jianlin's embrace as she cried loudly.

Zi Yi quickly swiped around on the virtual screen.

Lu Jingye saw how the brainwaves on the screen became stable and breathed a sigh of relief. "Little Zi, is Yunxiao alright?"

"It's fine, he's just a little tired."

Zi Yi pressed around for some time before she stopped and turned off the virtual screen. She started discussing with Elder Hu.

"Since Yunxiao is awake, we can change his medicine." Zi Yi thought about it and said, "Ah Jing and I will come over on the 26th."

Their wedding was going to be held on the 24th and they had to make a trip to her Uncle's house on the 25th.

Elder Hu nodded his head and asked, "Do I need to make any preparations in these next few days?"

"You can..."

Zi Yi told Elder Hu many things.

Elder Hu could not remember them all and so he got Lu Yi, who was standing next to him, to record them down.

Zi Yi turned off the video call after they were done and the four of them returned to the living room.

Mrs. Lu held onto Zi Yi's hand and said, "Yiyi, since Yunxiao has regained his consciousness, when will he be able to wake up?"

"It's possible that he might wake up any time."

"Really?"

"That's right."

After getting a positive answer, Mrs. Lu suddenly hugged Zi Yi and said excitedly, "That's great."

She could not help but start crying once again.

Zi Yi patted her back. She knew that she was crying out of joy and did not try to console her.

After Mrs. Lu's emotions had recovered slightly, Lu Jianlin asked, "Little Zi, what do we need to prepare now?"

Zi Yi and Lu Jingye made eye contact.

Lu Jingye said, "There's no need for you to prepare anything. Yiyi has already informed me of whatever needs to be prepared."

Lu Jianlin nodded his head and he suddenly said to Zi Yi in a serious tone, "Thank you, Little Zi."

Zi Yi smiled and said, "Father, Yunxiao is Jingye's younger brother and so he is also my younger brother. It's only natural that I save him."

Lu Jianlin's face showed a trace of emotion and he said, "You two will be holding your wedding in a few days, you should take a good rest and make sure you don't overwork yourself."

Mrs. Lu nodded approvingly. "That's right. You do experiments until very late every day and if you get dark circles under your eyes, I'd like to see how you wear your wedding dress well."

Zi Yi nodded obediently. "Got it!"

Lu Jianlin and Mrs. Lu showed gratified expressions at the same time.

The four of them chatted for a while more but Lu Jianlin still had to go back to work, while Mrs. Lu had to go to Lu Jingye's villa to supervise the work. The two of them left together by car.

Zi Yi looked at Lu Jingye and he said, "The set of jewelry Mother designed for you will be arriving today, do you want to try it on when it comes?"

Zi Yi nodded her head. "Yes."

The both of them stood up at the same time.

Zi Yi originally planned to go to the villa, when she suddenly heard the sound of a car driving in. Following that, the voice of Ian greeting the housekeeper could be heard.

"Hello, Mr. Housekeeper. Is Lu and Zi around?"

"Yes, they are here."

Zi Yi and Lu Jingye waited in the living room for a short moment and saw Ian coming in from the courtyard with the housekeeper.

Ian looked at them with a smile. "I thought that you would be busy at this time."

Zi Yi checked him out from head to toe.

Ian was wearing his most decent and handsome white suit with a thick, gray woolen coat on the outside. His blond curly hair was even styled and most importantly, he wore a brooch and cufflinks.

"We've really been busy all day long." Zi Yi sighed and asked, "So who invited you to go and drink coffee again today?"

In fact, she very much wanted to ask: *"You've been drinking coffee these past few days; aren't you afraid of having an overdose of coffee?"*

Unexpectedly, Ian smiled while showing his teeth. "I didn't drink coffee today. Xiangling and I went to the building materials shop and the flower and bird market.

Zi Yi was surprised. "Then why are you dressed so... flowery?"

Ian disagreed with her point of view. "We were there to discuss business and obviously I have to dress formally."

Chapter 600: Heart Pain

Zi Yi was noncommittal. Have you chosen the materials and potted plants?"

"Not yet. Ian shrugged his shoulders and said, "Dou Xiangling and I did not fancy any of those materials and potted plants. We had a discussion. We'll customize the materials, while I'll take care of the potted plants problem."

"You?"

Zi Yi became interested. "What kind of potted plants do you plan to prepare for our art gallery?"

"Of course, we have to get potted plants that are worthy of the art gallery. Those available at the flower and bird market are all ordinary potted plants. For the gallery, we should at the very least buy expensive types."

Speaking of this, Ian turned around and glanced at Zi Yi's garden.

"For example, like those in your courtyard."

"..." Zi Yi declared. "These plants were gifted to me by Ah Jing. I will not take them out."

Ian gave her a look as if saying: *"You're so stingy."* He then turned to Lu Jingye. "Lu, where did you get these potted plants from? I'll go and purchase from there."

Lu Jingye gave him the details of a few places that specialized in selling these famous and expensive potted plants.

Ian recorded them all down.

Zi Yi saw that there was nothing else to stay for and was about to head outside.

Ian suddenly called out to her. "Zi."

Zi Yi stopped and turned around to look at him.

Ian said, "I feel that Xiangling is acting weird these days. You can check up on her if you have the time. Moreover, her complexion did not seem good either.

Zi Yi furrowed her brows. "She still hasn't recovered from her cold?"

"She said she's fully recovered."

Zi Yi thought about it and planned to phone Dou Xiangling shortly. "I got it."

She headed outside the front door after saying that.

Ian had something to talk to Lu Jingye about and the two of them headed to the soda and sat down to talk.

1

While Zi Yi was walking back, she took out her phone and gave Dou Xiangling a call.

Unexpectedly, she did not answer and Zi Yi felt a little worried. So, she checked up on her exact location.

Dou Xiangling was currently in M.Uni. Zi Yi thought about it and felt that she should be busy right now, so she then put away her phone.

Dou Xiangling was currently carrying an easel together with another female teacher as they headed for the office building.

Teacher Wang said with a smile, "This group of students are pretty self-aware. They have all submitted the homework given to them on time."

Dou Xiangling also smiled in response. "It's just that many of the students like staring into blank space during lessons."

"Let me guess, the students that Teacher Dou mentioned should be male students, right? Haha... they aren't staring into blank space. It's just that Teacher Dou is very pretty and that the male students are sneaking secret glances at you?"

When faced with Teacher Wang's teasing, Dou Xiangling awkwardly laughed. Teacher Wang then said with a slightly exaggerated expression, "See, especially when you smile, you look extremely elegant and lady-like. If only I had half of your demeanor."

Dou Xiangling did not respond to her.

Teacher Wang continued to speak. "Teacher Dou, your leave starts tomorrow, you should have a good time and enjoy yourself."

The news of Zi Yi's wedding was not widely spread around M.Uni. Only the deans and some professors knew of it.

Dou Xiangling would be Zi Yi's bridesmaid during the wedding and she would certainly have to apply for leave in advance.

The two of them soon arrived outside of Dou Xiangling's office.

They bade farewell to each other, and after Dou Xiangling entered the office, she put the easel down. Just as she was about to organize the painting materials, she heard her phone ringing.

She walked over to grab her phone, only to see an unfamiliar number calling.

Ever since she became a teacher in M.Uni's School of Arts, the number of calls from strangers she received was not small. They were mostly from some mischievous male students but after she started a relationship with Zhang Hanyu, those phone calls stopped.

Now that everyone in the School of Fine Arts knew that she had broken up with Zhang Hanyu, some of the male students called to give her some words of comfort.

She was not surprised to receive the call and swiped to answer.

"Hello."

Unexpectedly, there was no response from the other side.

Dou Xiangling asked curiously, "Hello, may I know who you are?"

As soon as she asked that question, panting sounds could be heard from the other end. Shortly after, Dou Xiangling felt as if her heart was being gnawed on by countless worms. It hurt so much that she released a muffled groan. One of her hands subconsciously held her chest while her complexion turned pale in an instant.

Just then, a familiar, yet unfamiliar voice sounded. "Xiangling, does your heart hurt a lot right now?"

When Zhang Hanyu was speaking, he was clearly also in pain.

He said in a certain excited tone of voice, "Because my heart hurts right now too."

Dou Xiangling was in so much pain that she gritted her teeth and cold sweat trickled down from her forehead. She tried her best to suppress the heart palpitations and asked, "Zhang Hanyu, what do you mean by that?"

"You don't know yet? Haha, our hearts are connected right now..." Zhang Hanyu panted as he said, "To be with you, I have forked out so much effort. Just because of a small mistake I committed in the past, I got chased down by that 'good cousin' of yours... Xiangling, can you feel my heart that is in pain?"

"Ugh..." Dou Xiangling was in so much pain that she groaned. Her waist was pressed against the table as she gasped for breath in hopes that it would lessen the pain in her heart.

Zhang Hanyu's gentle and chilling laughter sounded again from the other end. "Xiangling, return to my side and get married to me. This is the only way my heart will not hurt and this way you don't have to suffer together with me."

As soon as Zhang Hanyu said that, he breathed heavily, clearly showing that he was also in so much pain that he could not take it.

All of a sudden, his voice had traces of a cry. "I love you so much and you have clearly accepted me. Why did they separate us... but everything's fine now. The moment my heart hurts, you'll be able to feel it too.

"You... what do you... mean?"

Dou Xiangling was in so much pain that she was about to lose consciousness. Hearing what Zhang Hanyu said, something seemed to have exploded in her mind.

“Zhang Hanyu, what did you do to me?!”

“Take a guess.” Zhang Hanyu’s voice was as gentle as water. “Xiangling, your cousin’s wedding is the day after tomorrow. If you faint during the wedding, would she think of a way to save you and delay her wedding?”

“You-” Dou Xiangling’s hand that was holding onto her chest clenched tightly. Cold sweat had clouded her eyes and she took a deep breath, trying her best to keep calm. “Zhang Hanyu, what did you do to me?”

Zhang Hanyu did not answer but continued to groan in pain.

Dou Xiangling could not take it anymore and bit her tongue. However, even if her tongue was bleeding, it could not stop the gnawing pain coming from her heart.

She shouted at him while panting, “Zhang Hanyu, what did you do to me?!”

Zhang Hanyu started laughing out loud on the other end. However, he did not reveal anything of importance. “As long as you promise to be with me, I’ll tell you.”

“In your dreams!”

She would rather die than be together with someone like him!

“Then... we can just die in pain together.”

“Ugh...”

PA!

The moment her phone fell to the ground, Dou Xiangling finally lost consciousness due to the pain.

However, she was not unconscious for long.

By the time she woke up, the pain in her heart had already disappeared.

However, that type of heart pain had left lingering fears within her.

She looked at her phone that had dropped to the side and her complexion was as pale as paper.

Just then, her phone suddenly rang again.

Her body shivered uncontrollably.

After noticing that there were no feelings of heart pain, she reached out to pick up her phone.
