### Chapter 611: Wedding 2

A bridesmaid brought the tea over.

The newlyweds started serving tea to Zi Yi's Uncles and Aunts.

All her Uncles had expressions of joy and yet, Zi Yi's Aunts were about to tear up. They gave their blessings to Zi Yi with a smile and passed the newlyweds a gift.

Following that, Zi Yi and Lu Jingye served tea to Second Master Lu and Mrs. Lu.

The feeling Second Master Lu gave off was rather different. Even though there was still a lack of smile on his face, other people managed to sense his joy.

In particular, when Zi Yi served him tea. "Dad, please have tea."

Second Master Lu took the teacup and took a sip. He then took out an exquisite wooden box and passed it to her.

Zi Yi was a little surprised when she opened the present to take a look.

It was unexpectedly a particularly well-made gun.

Second Master Lu said to her, "As someone from the Lu Family, not anyone and everyone can bully you. Keep this with you and protect yourself."

Zi Yi took the wooden box and said sweetly, "Thank you, Dad."

Dou Xiangling who was standing next to her helped her take the box to look after it, while Zi Yi and Lu Jingye served tea to Mrs. Lu.

"Mom, please have some tea."

Mrs. Lu looked at the two youngsters kneeling before her and her eyes were filled with tears. The next second, she smiled and responded by taking the teacup. At the same time, she handed the documents she had prepared in advance to Zi Yi.

"This is half of the Song Jewelry's shares. I have already got my lawyer to complete the procedures." She was worried that Zi Yi might have other thoughts and so she quickly said, "The other half is for Yunxiao's wife. Little Zi, do you mind?"

"I don't"

Zi Yi certainly doesn't mind. In fact, it did not matter to her whether she took the Song Jewelry's shares or not. However, this was her Mother's kind intention and she accepted it. "Thank you, Mom."

"Aye, good child."

After serving the tea, the host spoke up once again. "The wedding is complete."

"Bride, please head down and change your clothes while the friends and relatives can take a seat."

The elders went to greet the guests, while Zi Yi, who was accompanied by several bridesmaids, went to the dressing room that was specially prepared for her.

Lu Jingye had prepared dozens of sets of clothes for Zi Yi on her wedding day.

Looking at the beautiful and exquisite clothes, the bridesmaids were all envious of her.

“This is so beautiful. Looking at these dresses makes me feel like getting married.” Dou Yue’er went over and hugged a few dresses the moment she entered the room. “I want to wear them too.”

She then turned around to Zi Yi, who was currently being served by two other bridesmaids as they removed the phoenix crown, and said while licking her lips, “Cousin, can you give me some of these clothes after your wedding finishes?”

Zi Yi glanced at her through the mirror’s reflection and she said, “If you can wear them, you can take whichever set you want.”

Perhaps she might not even get to wear these clothes in the future. If her younger cousin liked them, she did not mind giving them to her.

However, these clothes were all tailored to her size and there were not many people who were able to wear them.

In particular, Dou Yue’er was only 164 centimeters tall right now. Not to mention that she was shorter than Zi Yi by 11 centimeters, there was also a big difference in their figures.

Dou Yue’er received a setback due to Zi Yi’s words.

She pouted her lips and said discontentedly, “Cousin, you’re too mean.”

Zi Yi felt very innocent.

Dou Yurui smiled and said, “See, I’ve told you to exercise and eat regularly. Now, you should finally understand the meaning behind a height gap?”

Another bridesmaid glanced at a particular area of Dou Yue’er’s body and she deliberately added. “There’s also a difference in the figure.”

Dou Yue’er: “...”

It was simply a lethal blow.

Zi Yi looked at Dou Yue’er who looked upset and she said with a smile, “If you like these clothes, I’ll gift you a dozen of them in your size when you get married.”

Dou Yue’er’s eyes instantly lit up. “Cousin, you’re the best. I love you to death!”

“Gee, it’s so mushy.”

“You are just jealous of me.”

Zi Yi spent a long time getting sorted before she managed to change into another set of clothing.

Afterwards, the bridal party went out together.

Two main tables had been prepared today. One of the tables was for Second Master Lu, Mrs. Lu, and several other important leaders, while the other table was for the Dou Family members, Elder Tang, Elder Bai, and the various school leaders in M.Uni.

The banquet had already begun at this time. When Zi Yi came out, Lu Jingye was standing there waiting for her.

Looking at the purple dress she wore, Lu Jingye's eyes deepened. He was amazed by what he saw.

The others also could not help but stare at Zi Yi.

When Zi Yi came out, Lu Jingye said, "Let's toast to the elders of the two main tables first before we make our rounds to the other tables."

The guests here today were all the school leaders, professors, and people from the First Hospital. On the Lu Family side were a few leaders, Lu Jingye's friends, and some of the important subordinates that followed him.

All of them added up to one or two hundred people.

Mrs. Lu and Zi Yi's Aunts were worried that they were unable to handle drinking on an empty stomach, so they got them to eat some food first.

"If you can get your groomsmen to drink on your behalf, let them. The two of you should refrain from drinking too much."

"Yes, we'll head to the villa near M.Uni in the evening. We have all prepared the wedding venue for such a long time and we should not waste it."

The other madams could not hold back their laughter when they heard what Mrs. Lu said.

Zi Yi was certainly willing and she said, "Mom, Aunts, don't worry. I will keep an eye on Ah Jing and prevent him from getting drunk."

Lu Jingye looked at Zi Yi whose eyes were shining brightly as she said that.

The elders were then at ease.

The two of them had some food at the main table.

Just as Zi Yi managed to eat a little, she was called over by the higher-ups of the hospital.

The Deputy Director placed a bowl and a bottle of wine in front of her the moment she arrived. He said with an expression as if he was being considerate of her, "Little Zi, you have gotten married today and you should be drinking even more on such a joyous day.

However, out of consideration that you might not be able to drink much, we'll have a discussion instead. We'll discuss how to treat some difficult diseases and whoever makes more sense will win.

The winner will eat while the loser will drink. What do you think?"

Zi Yi swept her gaze across them. She raised her chin and said with a confident expression, "So be it. Would I possibly be afraid of you?"

“It’s good that you’re confident. In that case, I won’t hold back.

All of us know that several types of situations can occur when cancer cells mutate...”

The Deputy Director immediately brought up an extremely difficult question and everyone looked at Zi Yi sympathetically.

Zi Yi’s lips curled up and she immediately answered.

The group of higher-ups from the hospital could not help but clap their hands and praise her.

After Zi Yi finished talking, she grabbed the chopsticks and placed some of her favorite dishes into the bowl before she motioned to the Deputy Director. “You can drink now.”

The Deputy Director was very upfront and he finished a cup.

Everyone waited for Zi Yi to finish her food before they continued asking her several questions.

She had managed to answer all of them correctly.

After several questions, Zi Yi noticed that she had been eating throughout and did not manage to drink even a sip. She felt a little unhappy and placed down her chopsticks. “You’ve asked me so many questions. In that case, I’ll ask you some questions too.”

“There’s something Little Zi doesn’t know?”

“Of course,” Zi Yi answered and asked, “Do you know how to remove parasites?”

“I know the answer for this.” Unexpectedly there was someone who had knowledge of parasites. It was Director Chang of the Orthopaedics Department. “I’m from Southern Xinjiang.”

Zi Yi was elated and she hastily asked, “How do you treat it?”

1

## **Chapter 612: I’m Just Worried That If You Were To Collapse, Little Lu Would Be Worried**

Director Chang said, “Of course, it is the responsibility of the person who planted the parasite to remove it. Parasites are all cultivated by the Gu Master. They alone would know the combination of poisonous insects used and when they cultivate the parasite, they would also make the antidote to the parasite.”

Zi Yi’s eyes brightened. “Really?”

“Yes, but...” Director Chang pondered for a few seconds and said, “All parasites can be treated, with the exception of a love parasite.”

Zi Yi furrowed her brows. “Why?”

“A love parasite is directly planted into one’s heart and during the first attack, the parasite would gnaw on their heart’s blood, causing both their lives to be connected... If you wish to do something to one of the love parasites, the other person will immediately feel it.”

“The person who planted the love parasite must have made up his or her mind to stay connected for the rest of their lives... the reason for the love parasite is so that two people can stay together until death.”

Zi Yi's expression turned cold at his words.

She lowered her eyes and asked, "What if one party insists on removing the love parasite? Is there any way to do so?"

"This... it's hard, but it's not impossible."

"What's the method?"

"It is to persuade the person who planted the love parasite and let them willingly resolve their connection. However... a love parasite lives in the heart and every time an attack happens, it would consume the heart's blood. Even if it is successfully removed, they would be more or less crippled."

Zi Yi tightened her fist and she released a murderous aura.

She restrained herself in the next second and disguised her emotions by lifting up the glass in front of her. "Thank you Director Chang for your answer. I have benefited a lot from your answer."

She finished the entire cup.

"Good."

Everyone applauded and they asked for her to continue.

Zi Yi thought about it and continued to ask, "Is there any equipment that can check for hundreds of poisons?"

Speaking up to here, she thought and then added. "It's not a hundred separate different types of poison, but a poison that has been combined with a hundred different types of poison."

Parasites were formed by having hundreds of different types of poisonous insects fight each other and the final surviving winner would become the parasite. At the same time, the insect's poison would have been mixed with hundreds of different types of poisons.

"This..."

Her words had stumped the group of people.

The Director of the hospital said, "Little Zi, not to mention our country, but this type of equipment is not available even throughout the entire world."

One of the directors joked. "If you are able to invent such an equipment, the level of medical equipment in our Country would advance by a big step."

Zi Yi already had plans to do so, but she did not tell everyone of her plans. She nodded her head and poured a glass for herself, before she drank it in one go.

Everyone applauded once again.

When someone was ready to continue asking questions, Lu Jingye came over at this time and said, "My apologies, but I have to bring Yiyi away."

He then raised his hand and touched her head. "There are many tables that we have yet to give a toast to. We'll be making our rounds now."

Zi Yi tilted her head and nodded at him before she said, "Everyone, go ahead and continue drinking. After you're done with the afternoon session, I'll invite you over to my place near M.Uni to continue."

The Deputy Director laughed and said, "Could it be that there will be two sessions today?"

"Of course. I'm just afraid that you won't dare to continue drinking then."

"Ho~? You're pretty confident in yourself. I'm worried that if you were to collapse, Little Lu would be worried."

"There's no need for you to worry about this. If I dare say it, it means I dare to drink."

Having said that, she stood up and headed to the other tables together with Lu Jingye.

Looking at the newlyweds walking away, the people seated around the long table could not help but sigh.

"After attending so many different wedding banquets, I'm the happiest at Little Lu and Little Zi's banquet. I must head over and continue tonight. I still wish to dig out good things from her."

The others had agreed with the Deputy Director's words. All of them also wanted to dig out more knowledge from Zi Yi.

The knowledge she knew was too vast.

They wondered where she had learned these things.

Someone made a guess. "Doesn't Elder Dou have a building with all kinds of books stored? Perhaps Little Zi had learned from there."

Everyone agreed with him.

The two newlyweds continued giving out toasts.

In the middle, Second Master Lu went out for a short while.

He called for Lu Jingye to have a quiet discussion with him after he returned.

Not long later, Dou Jingning came over and said to Zi Yi, "Little Zi, there were many people who called me earlier and expressed their interest in coming in to join the banquet."

Just as Zi Yi was about to say no, Dou Jingning said, "It's your big day today and all visitors are guests. It's not good to shut out the guests outside... Why don't we do this, didn't Little Lu book a banquet hall in a hotel? We'll send those people over."

The most important thing now was that those people refused to leave and stayed outside on the streets. When the reporters reported this, it would become Zi Yi and Lu Jingye that were being rude.

Dou Jingning was not exactly fond of those people either, but he did not wish for anyone to make an issue out of the situation.

Zi Yi thought for a while and called for Lu Jingye. She informed him of this matter.

Lu Jingye nodded his head. "Father and I just so happened to also discuss this earlier. He has sent out his men and is planning to take them to the hotel."

"You aren't planning to go out and tell them?"

"No. Since they came uninvited, they can head over to the hotel if they can take it, otherwise they are free to leave."

Zi Yi laughed at his words. "That's how things should be."

Dou Jingning thought over Lu Jingye's words and did not say anything else. He continued to roam around and attend to the guests.

On the streets.

When those from the aristocracy waiting outside had heard of Second Master Lu's decision, the majority of their expressions turned livid.

"What's there to be arrogant about? You won't let us attend the banquet? Do you think I want to attend in the first place?"

The younger generation were all agitated as they swore and spoke all sorts of insults.

Even Lu Zhiheng who was seated in the car had slapped the car seat. "Do they think I wanted to come? If not because of my Second Uncle and cousin, I wouldn't come even if they had invited me!"

The driver who was sitting in the front seat lacked tact as he asked, "Young Master, why don't I drive the car back to the company?"

Lu Zhiheng glared at him.

Just then, his phone rang.

It was a call from another young master of an aristocratic family that he had been in close contact with. The other party asked, "Brother Zhi, will you be heading to the hotel?"

Lu Zhiheng gnashed his teeth and just as he was about to speak, the other party shouted in anger, "My old man is forcing me to go. If not for that, I would've left already... Say, what are we supposed to do at the hotel? Lu Jingye won't even be coming over at all and are they trying to send away beggars? What's even more exasperating is that my old man repeatedly told me that I must go or else he will punish me."

Lu Zhiheng breathed in and he was also extremely reluctant. "I'm in the same situation as you. If not for the fact that my Father personally called me, I would've left."

"Sigh, let's go to the hotel then. I heard that the CEOs that came from abroad are also arranged in that hotel. We still have to thank Lu Jingye for his help. If not for his wedding, how could we possibly meet with so many CEOs of large international groups? If we manage to get a few large projects then, we would have earned!"

Lu Zhiheng also felt the same way.

In particular, he can head over to the hotel as the head of the Lu Family and then sow discord in front of his Grandfather when he returns home. He would make it so that Lu Jingye would lose favor from both ends. In that case, he can only obediently help him out.

1

At the thought of this Lu Zhiheng revealed a satisfied smile.

### **Chapter 613: How Can I Get These Materials?**

Not long after the wedding banquet began, Lu Jianlin received a phone call from the main residence.

The phone call was from the housekeeper.

The housekeeper said, "Second Master, the Patriarch wants you to return at once."

Lu Jianlin's expression turned grim and he said in a tight voice, "Tell my Father that I am attending to the guests and I don't have the time to come over."

The housekeeper said, "Second Master, the Patriarch is extremely angry right now and you'd better tell him this yourself. Otherwise, if he gets angrier, even I won't be able to stop him."

Lu Jianlin responded with a hum and hung up the phone.

After hanging up the phone, he stood there and thought for a moment. In the end, he did not give Patriarch Lu a call. Instead, he put away his phone and went back to entertaining the guests.

1

...

The guests did not drink too much during the afternoon session.

Since it was said that they would be moving elsewhere, everyone planned to continue drinking at night.

The wedding banquet lasted for around two hours or so.

Following that, everyone made their way to Zi Yi's villa near M.Uni.

All sorts of advanced technology were used within the villa. As soon as they arrived there, the guests either started a tea session or sat together to study the advanced technology.

Mrs. Lu found Zi Yi and Lu Jingye and said to them, "The both of you can go and rest for two hours first. You'll be drinking tonight and don't wear yourself out."

Since the guests were still around, Lu Jingye could definitely not leave. He knew that Zi Yi was concerned about Dou Xiangling's condition and he said, "Yiyi, I'll send you back to your place to rest and call for you when it's time."

"You don't plan to rest?"

"There are many guests around and it's not good for both of us to leave at the same time."

Zi Yi nodded her head and the both of them headed outside the villa.

As soon as they walked to the iron gate, Ian's voice sounded from behind. "Lu, Zi."

Ian had made his way over very quickly. He lowered his voice and asked, "Zi, are you leaving to treat Xiangling?"

Zi Yi responded with a yes.

In fact, Ian wanted to go too but Lu Jingye had seen through his thoughts and said, "You shall stay here."

Ian thought about it and nodded. He then said to Zi Yi in a solemn tone, "If there is any progress on Xiangling's side, please tell me."

Zi Yi narrowed her eyes and looked at him. "Aren't you a little too concerned about my cousin?"

Ian was momentarily taken aback. Only then did he realize that it was indeed the case.

He thought about it for a moment. His mind was filled with her smiles and serious attitude when she did things. He felt his heart brighten up. "I admire Xiangling and I want to pursue her."

1

Zi Yi looked at his expression for several seconds but ended up not saying anything. She then headed to one of the cars parked in the parking lot.

Ian saw Zi Yi's reaction and he was somewhat confused. He asked Lu Jingye, "Lu, what does Zi mean?"

Lu Jingye looked toward Zi Yi who had gotten in the car and said to him, "We'll discuss this in the future."

He left after he said that.

However, Ian was even more confused.

Zi Yi and Lu Jingye returned to Zi Yi's villa.

All the helpers had been assigned to the other villa to help out and only a few robots remained.

The two of them directly went down to the underground lab.

Dou Xiangling was currently lying down in one of the rooms.

Lu Jingye said, "My men have already left for the place you had pinpointed."

Zi Yi was a little worried. "A love parasite is connected and the person who planted it can control the other through their emotions. I'm worried that Zhang Hanyu would do something before your men locate him."

They would be in trouble if he had the thoughts of perishing together.

Lu Jingye said, "My men have brought along your invisible robots. We'll get the robots to capture him then."

Zi Yi nodded her head and walked to the bed as she looked at Dou Xiangling whose complexion was as white as paper. "Even if we capture Zhang Hanyu, we have to immediately develop a tool that can take out the parasite from my cousin's heart."

"You are unable to remove it right now?"

"I can't. As long as I move the parasite in my cousin, not only would Zhang Hanyu would sense it. Even the person who made the parasite would also sense it."

Therefore, they could only capture Zhang Hanyu first and control the worm in his body without anyone knowing.

Only then was Zi Yi able to find a way to take out the parasite in Dou Xiangling.

"The other party must have sent someone to monitor Zhang Hanyu. Get the invisible robot to observe his behavior first, then use the robot to confuse the person monitoring him."

"Alright."

The two of them talked about how they were going to capture Zhang Hanyu. Following that, Lu Jingye returned to the villa first.

Without a doubt, Zi Yi was unable to fall asleep now. She stayed in the underground lab and thought about how she could create the equipment in the shortest time available.

Fortunately, creating equipment was not considered a difficult task for her.

The hard part was that there were no materials that were used to create the equipment in this world.

She quickly brought out the virtual screen and hacked into the world's data network to search for materials she needed, only to discover that most of the materials were secretly developed by other countries.

Zi Yi propped her hand and thought about it hard. "How can I get these materials?"

Disregarding the network defense levels of other countries' secret laboratories, it would be a difficult task to enter the facilities and come out with the materials.

Zi Yi thought about it and gave up in the end. "Forget it, I'll make them myself."

After she made a decision, she quickly entered the black market and placed an order for several pieces of materials. She added money to request for delivery within two days before she exited.

Subsequently, she headed to the decocting room and selected some medicinal ingredients. As soon as she started preparing them, the sound of footsteps came from the door.

"Yiyi."

Lu Jingye came over. When he saw the medicinal ingredients she had put inside the jar, he said, "It's time."

Zi Yi nodded her head and called for one of her robots. After setting up a command for it, the both of them went up together.

While walking, Zi Yi told him about the materials she lacked. "I wish to make equipment that can detect hundreds of different types of poison in a few minute's time. However, this equipment is not available on the market, and that includes the black market.... Only Country M, Country D, Country A and Country Y's secret laboratories have them.

"In the end, I placed an order in the black market to purchase some of the slightly inferior materials. They will arrive in two days' time. When the time comes, have someone sent to the secret base."

Lu Jingye thought for a moment and said, "The Lu Group has several companies that deal with advanced technology materials. You can directly get whatever you need to be customized there. These companies are all under my Father and the others do not know of it."

Zi Yi was a little surprised.

Lu Jingye explained. "The areas the Lu Group are involved in are very wide. Some of which are companies that collaborate with the country. The Lu Group is responsible for the source of funds for these companies, but they are not registered under the Lu Group. Instead, the Lu Group would receive dividends every year."

Zi Yi nodded in understanding. "It would be best if these companies are able to create the materials I need in the shortest time possible."

Soon, the two of them came up to the courtyard. Zi Yi took his hand and said, "I'll write the list of required materials and pass it on to you first. I will also write down the elements contained in these materials. In that case, they will be able to create them quickly."

"Alright. I'll get my men to deliver the list right away once you finish writing it and make sure the order is created before we leave."

As long as they had the elements required to create the material, it would be quick to create them.

#### **Chapter 614: Second Master, the Patriarch Asks For You All To Make a Trip Back At Once**

When the two of them arrived at the other villa, the second session was about to start.

"Little Zi, where did you go in the afternoon? We were still planning to have you complete a painting!"

At the sight of Zi Yi walking over, Elder Bai called for her to come over to their table.

As soon as Elder Bai took the lead, the others had also started talking about her.

"You're too much. We have waited almost half a day for you and yet, you actually hid away somewhere."

Zi Yi laughed and said, "I was trying to recharge my batteries so that I can drink with the people who want to drink with us and make them drunk!"

"You cheeky lass. In that case, come to have a drink with us first. We'll drink while we draw. We'll take a sip then draw a few strokes and as for the completed painting, we'll give it to your art gallery."

Zi Yi was tempted by his words. "Then we'll settle with that."

Those from the Painting and Calligraphy Association immediately started painting.

Lu Jingye immediately got helpers to make space and brought a table along with some painting tools.

The others stretched their necks and looked in their direction.

While watching, everyone said with a laugh, "We'll be able to see the group of masters from the Painting and Calligraphy Association paint collectively. It can be considered that we have basked in Zi Yi's fortune."

Zi Yi and the group of masters each went to a table.

Zi Yi, who was wearing a red evening dress, stood out the most as she stood in the middle.

Elder Bai said, "We'll each paint the same rich peony and we'll divide it into 10 stages. Whoever draws the slowest shall drink."

The other masters immediately responded. "We agree."

As soon as they said that, everyone looked at Zi Yi with a meaningful gaze.

Zi Yi swept her eyes across them and thought to herself, "*You're blatantly making it so that I can't drink, right?*"

"I agree too." At the very most, she can reduce her speed.

The few of them started at once.

Zi Yi would take a look at the other masters whenever she added a stroke to the painting.

When everyone was more or less done, she continued to paint.

Unexpectedly, she still won the first stage.

The other masters raised the alcohol and took a whiff. Elder Bai revealed a happy expression as he said, "Wedding alcohol is the best."

Having said that, he finished the cup.

Zi Yi clicked her tongue and waited to continue the following stages.

The crowd increased in size as time passed. Everyone looked at how Zi Yi would walk around the other masters whenever she finished some strokes. Despite doing this, she was still faster than them and the crowd could not help but laugh out loudly.

The First Madam laughed happily. "This group of masters are too mean. Look at how Yiyi's lips are pouting."

The Second Madam said with a wide smile, "Yiyi draws too fast. Everyone slowly thinks before they move their brushes, but she just adds strokes to the painting as she wishes."

Mrs. Lu said, "Haha, that's why our Yiyi is the best."

The group of masters had used nearly an hour to paint but Zi Yi did not have the patience to wait for them and she finished the painting early. "I'll admit my defeat. You can slowly paint, I'll go and drink with the others."

Elder Bai scolded. "You lass, don't you know how to draw slowly?"

"It's such a simple painting and it's a waste of time to paint slowly."

"..."

When the leaders of the school saw that Zi Yi was done with painting, they called for her.

The Dean asked with a smile, "Little Zi, it will be the final exam next month. You won't be absent, will you?"

Zi Yi thought about it. There were still six days before the month ended and after that would be the New Year and that would be a three day holiday. Even though she had nine days, she could not guarantee that she would return by then.

In the end, she said, "I wish to answer the question paper online."

The school leaders made eye contact. This type of situation was not unfamiliar. After all, some of the outstanding students might be participating in competitions abroad during the examination month.

A few seconds later, the Dean nodded. "If you wish to answer the question online, you must find an empty room and undergo a live broadcast."

"That's not a problem."

As long as she had the will, no one would be able to pinpoint her location through the internet.

"Alright then, the various schools will send you the examination date and timing. You will have to make preparations in advance then."

"Alright."

As a result, this was how the matter was resolved and it was settled just like that.

The atmosphere at the wedding banquet was very lively. Everyone chatted about academic problems and drank some alcohol.

Unknowingly, it was already around eight in the evening.

Everyone still had work the next day and so, they took their leave.

After sending away all the guests, the Lu Family members, and Dou Family members sat together. Everyone chatted about how Zi Yi and Lu Jingye would be visiting before the Dou Family took their leave.

There were housekeepers, helpers, and her robots taking care of the clean-up aftermath, so they did not have to worry about it.

Second Master Lu and Mrs. Lu clearly had something to say to them. Lu Jingye said, "Let's head to the other villa."

A few friends of Lu Jingye were still staying in the current villa and what they were about to discuss could not be known by others.

As soon as they were about to leave, Lu Jianlin's phone suddenly rang.

He glanced at the caller id and answered with a taut expression.

The caller was the housekeeper from the main residence.

This was already the tenth phone call.

As soon as the call was connected, the housekeeper said, "Second Master, the Patriarch asks of you all to return to the main residence at once."

Lu Jianlin looked at his son and daughter-in-law before he said, "I'll come over later. Jingye and Little Zi are tired and they have already returned to rest."

The housekeeper said "This is the Patriarch's instructions, and I am only responsible for conveying the words. It's up to Second Master whether to come or not."

He hung up the phone after he said his piece.

Lu Jianlin looked at the disconnected phone call and he showed no expression.

Mrs. Lu asked, "Jianlin, is that a phone call from the main residence?"

Even though she did not hear what the other party said, Mrs. Lu had more or less guessed the contents of the call. She said discontentedly, "Don't think that Father has thought things through and decided to accept Yiyi just because he is calling us over at this time. If he really did think things through, he would not have called at this time.

I guess that the other aristocratic families might have said something in front of him that made him unhappy. He's calling us over to give us a scolding."

How could Lu Jianlin not know that his father was angry because they had stopped the Lu Family members outside the gates and caused him to lose face? Not to mention, Lu Zhiheng would certainly add fuel to the fire and say some rubbish. This was why he got the housekeeper to call him repeatedly to come back.

They would receive a scolding even if they went back.

Today was his son's wedding day and so how could he allow his son and daughter-in-law to get scolded?

Lu Jianlin said, "Head over to the other villa first. I'll return to the main residence alone."

Zi Yi and Lu Jingye did not say anything as they had more or less guessed what had happened.

When they arrived at the other villa, Lu Jianlin said to Lu Jingye with a serious tone, "No matter what happens, when you leave this time, you must find a way to let Yunxiao wake up as soon as possible."

If Lu Yunxiao did not wake up, it was just like a time bomb buried around them. They were afraid that the bomb would suddenly explode.

Lu Jingye nodded his head. "Alright."

Mrs. Lu also said with a worried tone, "Jingye, Zi Yi, why don't the two of you leave tonight? I feel a little uneasy when Father is suddenly calling the family to head over."

"No."

Lu Jianlin disapproved. "Little Zi and Jingye just got married today and they must pay a visit to the Dou Family's residence tomorrow. This is a cultural custom of our country and the Dou Family is a scholarly family. They value these types of customs more than we do and we can't make them feel that we are disrespecting them."

### **Chapter 615: You Angered Father and Don't Tell Me You Are In the Right Now?**

Lu Jingye had the same thoughts. "I agree with what Father said, Yiyi and I will head over to our Grandfather's place tomorrow morning. We'll immediately set off after we return tomorrow."

Mrs. Lu understood her husband and son's personalities. She knew that no one could stop them when they were serious and she turned to look at Zi Yi.

Zi Yi nodded her head and said, "We'll come back earlier tomorrow. It'll be fine if we leave earlier."

Mrs. Lu did not say anything else.

Lu Jianlin still had to make a trip back to the main residence and the two of them left very soon afterwards.

When they left, Zi Yi and Lu Jingye returned to their bedrooms to rest.

They were exhausted today and they fell asleep very soon.

When Lu Jianlin sent Mrs. Lu back home, he left for the main residence.

Just as he entered Patriarch Lu's courtyard, the housekeeper standing by the door said in a loud voice, "Sir, the Second Master is here."

Lu Jianlin walked in and a teacup flew in his direction.

Lu Jianlin subconsciously tilted to the side and the teacup flew past his shoulders and crashed on the door.

BAM!

PA!

While the teacup was smashed into pieces, Lu Jianlin called out without a change in expression.

"Father."

1

Patriarch Lu was engulfed in anger as he pointed at his nose. "Do you still know that I'm your Father?"

Lu Jianlin's expression was serious. "Father, not only did you stop the Lu Family members from attending Jingye's wedding today, you even wanted to make me leave halfway. I can't do it."

Lu Jianlin could heed his Father's wishes in everything, with the exception of this. "Little Zi is a good child and it is Jingye's blessing to be able to marry her. I can't possibly make things difficult for them at their wedding."

Patriarch Lu was so angry that his chest heaved up and down and his gaze turned fierce. "Our Lu Family is not to marry a useless scholar!"

"Useless? Third Brother is still recovering from the injuries he received at the Southern Ocean. Could it be that Father has forgotten that if not for Zi Yi's timely arrival, it would not be the hospital that Third Brother would be in right now."

"You-"

Patriarch Lu's breathing hastened and his expression seemed extremely frightening.

The housekeeper who was standing next to him hastily rushed over to calm him down. "Sir, calm down. It would be bad if your health worsened."

Lu Jianlin could not possibly really anger his Father to the extreme and so, he shut his mouth and remained silent.

After Patriarch Lu calmed down, he laughed in anger. "Just a little small kindness and you feel that scholars are all that great? Don't forget that I had almost died in the hands of that group of scholars back then!"

Lu Jianlin furrowed his brows. "Father, that was what happened in the past. We are now in a prosperous time of peace. The military defends the country while the scholars strengthen the country."

"Are you teaching your Father how to do things?"

"I'm just speaking the truth. We are now in an era where science and technology strengthen the country. Little Zi is extremely talented in this field and even the higher-ups acknowledge her abilities. Father, why can't you accept her?"

Patriarch Lu did not expect that his son would dare to contradict him as such.

The anger in his heart was like a wild horse without its reins. He got so furious that he yelled at him, "She's someone who has a bad reputation, and what kind of soul-bewitching soup did she feed all of you for you to side with her? I've said it before, I will never acknowledge her!"

Lu Jianlin's string of control snapped too. "Jingye and Little Zi have gotten married and received their marriage certificate. Father, it doesn't matter even if you do now agree to their marriage, as long as the country acknowledges it that will do."

"You-... you!"

"Sir!"

Looking at Patriarch Lu who was about to faint from anger, the housekeeper hastily stroked his back.

For the first time in his life, Lu Jianlin felt that his father was unreasonable. He did not wish to have a meaningless argument with him and said, "Father, if there's nothing else, I'll take my leave."

He turned around with the intention to leave.

Patriarch Lu looked at Lu Jianlin's back view and felt his anger rushing up his head. He stood up and tried grabbing onto something to throw towards Lu Jianlin. However, his eyes went black and he directly lost consciousness.

BAM!

"Sir!"

Lu Jianlin heard a frightened cry and he suddenly turned around and rushed over.

"Father!"

The Lu Family was suddenly in chaos. The moment Patriarch Lu fainted, everyone was immediately alerted.

1

During the chaos, they had called the family doctor over.

After the doctor gave Patriarch Lu a checkup, he said to everyone, "Patriarch Lu fainted due to anger and I have also discovered that his health is extremely bad. There are several organs that are rapidly failing."

At the doctor's word, the Eldest Master hastily asked. "What do you mean? Hasn't father's health always been good?"

The family doctor was silent for a few seconds before he said, "It might be because he has been angry these past few days and coupled with how he was unable to breathe properly today, it has accelerated the weakening of his physical condition."

Eldest Master Lu's expression changed and he lashed out. "Then find a way to stop the weakening!"

"This..." The family doctor's expression looked heavy. "Eldest Master, if the Patriarch is constantly in a bad mood, I have no way to deal with it either."

Eldest Master Lu suddenly turned to Lu Jianlin and he gnashed his teeth. "Second Brother, did you hear that?"

Lu Jianlin's expression was not good either.

Eldest Master Lu walked towards Lu Jianlin and raised his hand to give him a punch as he angrily said, "If not because of you who angered Father, he would not have fainted!"

Lu Jianlin wiped the blood on his lips and looked at his older brother. "What did I say? Isn't it because you and your family had gossiped in front of Father which made him so angry?"

For Patriarch Lu to know what happened today, his eldest son had indeed said something. However, he would certainly not admit what he did and he angrily shouted, "You angered Father and don't tell me you're in the right now?"

“You blocked your nephew outside the gates and do you know what the internet is saying about our Lu Family?” He had looked through numerous posts today and all of them said that it’s the Lu Family who disliked Zi Yi, thus they had blocked the Lu Family members outside the wedding banquet.

Not to mention Patriarch Lu was angry, he himself was the same.

Lu Jiancheng had never been so embarrassed in his whole life.

The Second Master Lu heard him and laughed out of spite. “Isn’t it a fact that the Lu Family dislikes Zi Yi?”

“You-” Eldest Master Lu was guilty and he showed an expression as if he did not wish to argue with him on this. “Father is already in such a state and you’re still in the mood to argue about such insignificant things? Do you know what difficulties our Lu Family will face if Father falls down?”

The eight aristocratic families were built up by the older generation. The higher-ups had given them face on the account of their parents and if the older generation of either aristocratic family were to fall sick or depart from the world, the family can only wait for their decline if no outstanding individual stood out.

Even though the Lu Family’s three siblings were capable, if their Father really passed away, coupled with the current situation in the Lu Group, their position as the top aristocratic family will certainly be replaced.

Lu Jianlin’s expression was gloomy and he did not answer.

If his Father had been tolerant and more accommodating, their family would not have ended up in such a situation.

At the thought of this, Lu Jianlin’s eyes turned red. “Do you think we are willing to see Father in such a state? Jingye merely wants to be with someone he likes. With how capable Zi Yi is, aren’t you well aware of it at the place you work?”

Eldest Master Lu remained silent.

Sometime later, he said, “Even if Little Zi is capable, it’s useless if our Father dislikes her. Don’t tell me you really wish for an accident to happen because of the two young people?”

Eldest Master Lu patted Lu Jianlin’s shoulder and said earnestly, “Second Brother, for the sake of Father, the young ones can only sacrifice what needs to be sacrificed.”

1

## **Chapter 616: Jingye and Little Zi Must Be Together**

“Impossible!”

Lu Jianlin had a livid expression on his face. “My son has already sacrificed so much. It’s impossible for me to forbid him from the happiness he wants.”

He thought of how his eldest son had to play two roles, work and do missions, ever since his second son became brain dead.

Lu Jianlin was so angry that his eyes turned red.

“Then what do you want? To see Father meet his maker due to anger?”

Lu Jianlin was also vexed right now. He could not possibly look on as something happened to his Father.

“Second Brother, don’t you know what situation the Lu Family is in right now?”

“I know...” *but isn’t everything caused by Father?!*

Lu Jianlin did not say the latter half out loud. However, he was firm in his decision. “Jingye and Little Zi must be together.”

“Then do you want to look on helplessly as Father...”

“There will be someone to rescue him!”

As soon as he said that, Lu Jianlin took out his phone to make a call.

Eldest Master Lu asked sharply, “Who are you trying to call at this conjecture? Don’t tell me you want to have Jingye and that woman escape?”

“Escape?” Second Master Lu’s expression turned stern. “There’s no reason for my son and daughter-in-law to escape.”

Having said that, he made a call.

The other party answered very quickly. Lu Jianlin told the other party about the situation here in a concise manner and hung up the phone a few seconds later.

He then swept his gaze across the housekeeper and all the helpers. “Keep your mouths shut and don’t reveal a single thing about my Father fainting.”

The housekeeper and helpers hastily responded. “Yes.”

Lu Jianlin added. “Everyone can leave. There’s no need for so many people to keep watch here.”

“Yes.”

The housekeeper left with the group of helpers, leaving behind the siblings and the family doctor.

Eldest Master Lu glared at Lu Jianlin. “Are you sure that the person you called can cure Father?”

Lu Jianlin asked him, “Then do you think we should send Father to the hospital right now?”

Eldest Master Lu’s expression turned cold and he looked towards the doctor.

The family doctor hastily said, “It’s best to send Patriarch Lu to the military doctor. There’s the most advanced medical equipment and team there.”

Lu Jianlin said, “And let everyone know that my Father got so angry that he fainted on the night of my son’s wedding because he had opposed their marriage?”

“...”

Eldest Master Lu also knew that they could not send their Father to the military doctor right now.

A few seconds later, he asked, "Can the person you called really cure Father? Who is it?"

"Little Zi."

"Lu Jianlin! Are you crazy?!"

Zi Yi's name was indeed very famous in the medical field, but Eldest Master Lu did not believe that Zi Yi would be willing to rescue this Father. Moreover... "Father doesn't like her. Are you trying to save him or do you wish for him to..."

He could not say the last word.

Lu Jianlin looked at his expression and said with certainty, "Little Zi is not so petty."

Eldest Master Lu's expression sank. He wanted to continue shouting, but he endured it.

On the other side.

After Lu Jingye received the call, he looked at the young lady who was clearly exhausted and sleeping in his embrace. He felt helpless and his heart ached at the same time.

In the end, he woke her up.

"Little Zi, Grandfather fainted and Father asked us to come over."

Zi Yi opened her eyes. She felt extremely sleepy and only managed to react to what he said a few seconds later.

Lu Jingye continued to speak with a low voice. "Our family doctor said that his body functions are weakening."

Zi Yi's mind finally cleared up. She hastily raised her head and said, "Then let's head over right now."

Lu Jingye looked into her eyes and raised his hand to touch her face. There was a trace of seriousness in his voice. "Yiyi, my Grandfather's body has always been healthy and it's impossible for him to experience weakening body functions just because of us."

Zi Yi furrowed her brows. "Do you mean to say that someone did something to Grandfather?"

"Yes... Otherwise Father would not have called you over at this time. However, if we head over right away, we might encounter dangers along the way."

Zi Yi thought about it and pulled him up out of bed with her.

After she got dressed, she said, "It's better for there to be danger. Perhaps we can even find out who the spy hidden within the main residence is."

2

The both of them got dressed and washed up.

Zi Yi said to Lu Jingye, "Ah Jing, bring my set of tools with you. I'll drive the racing car."

Lu Jingye nodded his head and headed over to grab her set of medical tools before the two of them quickly went downstairs.

After coming downstairs, Zi Yi called for two robots and gave them a command. "Transform into Ah Jing and me, and then drive towards the Lu Family's main residence."

"Roger that."

The two robots soon transformed into them and headed to the front yard.

Zi Yi and Lu Jingye followed behind them.

When the robots drove the car and left, Zi Yi and Lu Jingye headed over to another racing car.

Zi Yi said, "It just so happens that I used materials that would make the car invisible to the naked eye for this racing car. Let's drive it to test out the effectiveness tonight."

"Alright."

The both of them got into the car, and Zi Yi started the engine. The car directly flew up into the skies and turned invisible at the same time.

The car that the robot Zi Yi and Lu Jingye had driven as they headed to the Lu Family's main residence was driving at an extreme speed. When they arrived at a high-speed road, several modified heavy-duty cars suddenly appeared at one of the intersections and chased after them.

When Zi Yi's car was about to shake off the cars chasing them from behind, a few cars from in front suddenly made a u-turn.

BAM!

There was no time for her to step on the brakes at all. Within the powerful and loud crash, Zi Yi's car was hit from both the front and back. The car exploded in an instant and in the next second, all the other cars had also detonated.

The powerful explosion in the air instantly lit up a large area of the skies, as if the entire capital had turned brighter.

The loud noise and commotion soon attracted the police, reporters, and also some of the general public.

The explosion caused all the cars to be destroyed, while the people in the car were all burned beyond recognition.

The traffic police checked the surveillance quickly, only to discover that Lu Jingye and Zi Yi were seated in one of the cars.

For a moment, the news of Lu Jingye and Zi Yi encountering an accident and getting blown to pieces had trended throughout the entire capital and the internet.

Some were sad and some were happy.

It was destined that everyone would have a sleepless night today.

Lu Family's main residence.

Lu Zhiheng stood at the side while he spectated the confrontation between his Father and Uncle. He dared not utter a single word.

Just then, his phone suddenly rang.

Eldest Master Lu, who was already annoyed, was about to explode in anger.

Just then, his phone and other people's phones rang at the same time.

Everyone made eye contact and took out their phones to answer the call.

"What? Second Brother and Zi Yi had an accident and they were blown to pieces!?" Lu Zhiheng shouted in disbelief, causing the atmosphere to become weird.

Everyone subconsciously turned to look at Second Master Lu who had an extremely ugly expression on his face.

Eldest Master Lu hung up the call and opened his mouth. He wanted to say something, but he did not know what to say at this point in time.

Lu Jianlin's phone dropped onto the floor and in the very next second, he turned around and walked towards the door.

### **Chapter 617: You Two Aren't Dead?**

Everyone hastily chased after him.

However, just as he reached the door, a fiery red racing car suddenly descended from the skies.

After the racing car was parked, everyone's footsteps stopped. At the same time, with expressions of disbelief, they looked at Zi Yi and Lu Jingye who alighted from the car.

"You two aren't dead?" the First Madam asked in surprise. She felt that her question sounded weird and decided to remain quiet.

After Lu Jingye alighted from the car, the first thing he asked was, "Is this place sealed off yet?"

Lu Jianlin responded. "We have already sealed off the entire main residence."

Ever since something happened to Patriarch Lu, he had sent men to seal off the entire main compound.

Zi Yi scanned through Patriarch Lu's entire courtyard and said, "You had better check if there is anyone missing."

Lu Jianlin and Eldest Master Lu's expressions stiffened at the same time.

However, Lu Zhiheng who was standing behind the Eldest Master Lu was unhappy. He was clearly older and on what basis could Lu Jingye speak to them with a commanding tone as soon as he arrived?

He's just someone who was chased out from the Lu Family and does he think he has the right?

Lu Jingye suddenly turned to look at Lu Zhiheng before he said to Eldest Master Lu, "Eldest Uncle, why don't you get Big Brother to bring some men and check if all the helpers of the main residence are here?"

"Why should..."

"Sure." Eldest Master Lu turned to look at Lu Zhiheng.

In the end, Lu Zhiheng could only swallow his dissatisfied words back into his belly.

Eldest Master Lu said, "Immediately bring some men to check and inform us immediately when you discover a person missing."

Lu Zhiheng glared at Lu Jingye before he responded. "I understand."

Having said that, he headed outside.

Eldest Master Lu turned to Zi Yi and his eyes seemed to be doubtful of her. "Can you treat my Father's illness?"

Zi Yi asked instead of answering, "Do you wish for me to cure him?"

"What do you mean by that?" Eldest Master Lu said crossly. "As a junior, is this how you speak to your elders?"

"Since you don't acknowledge me, then don't pose as one in front of me." Zi Yi revealed a displeased expression. "If you wish for me to treat Patriarch Lu, you had better remain silent."

"You-"

"Big Brother." Before Eldest Master Lu got angry, Lu Jianlin said, "What Little Zi said is right. Since she's here to treat Father, we can only trust her."

Eldest Master Lu suddenly turned around and looked at Lu Jianlin.

The latter returned his gaze.

Both their eyes seemed to contain knives.

Lu Jianlin continued to speak. "If you have a better idea, I can get Jingye and Little Zi to leave right now... Since the day Father chased Jingye out of the family without anything, you all have not treated him as your grandson or nephew. He does not have the obligation to treat you as his elders."

The First Madam who was standing behind Eldest Master Lu was unhappy. "Second Brother, what do you mean by that? Ah Jing is the one in the wrong and caused Father to chase him out. No matter what, he's still a junior and this can't be changed no matter what."

Lu Jianlin's expression turned cold.

Just then, Lu Jingye said, "Father, it's not the time to argue about this. Let Yiyi check on Grandfather's condition first."

Lu Jianlin nodded his head and motioned for Zi Yi. "Come over and follow me."

He turned around and walked away having said that.

Lu Jingye held Zi Yi's hand and they headed inside together.

When they walked past Eldest Master Lu and the First Madam, the latter wanted to say something.

However, Lu Jingye suddenly looked in her direction, forcing her to swallow her words.

After the two of them walked over, the Third Madam immediately tagged along.

The First Madam felt angry deep down. "What's with his attitude? He's just someone who is..."

"You had better shut your mouth," the Eldest Master Lu shouted at her with an ugly expression as he turned around and followed them.

The First Madam stood there. Her anger was stuck in her chest for a long time and she thought to herself, *"Let's see how I shall teach you a lesson when you are unable to treat Father's illness!"*

Patriarch Lu was lying on the bed right now.

Looking at the elder on the bed, Zi Yi was rather calm.

He was only a patient to her right now.

She walked over and said expressionlessly, "When I start the diagnosis, I hope that those who are ignorant remain silent."

"Don't tell me that we can't even ask about what we don't understand?" the First Madam said discontentedly.

"No!" Zi Yi rudely said, "I will naturally say what's needed at the correct time."

"You-"

"Shut up!"

The Eldest Master Lu looked at his wife angrily.

The First Madam's face turned ugly.

Zi Yi did not bother looking at them and directly opened the medicine box.

She then brought up the virtual screen.

Looking at the data floating in front of her eyes, the First Madam cried out in shock. Even the Third Madam had widened her eyes in surprise.

The family doctor stared at the virtual screen and praised her. "I've heard that Little Zi is very talented in technology, but I didn't expect you to be so good."

Zi Yi turned around and looked at him.

The family doctor revealed a friendly smile. "I am acquainted with Elder Tang and my name is He. I've heard many people in the medical field talk about you."

Zi Yi nodded at him.

Doctor He breathed a sigh of relief. He thought that the young lady before him would ignore him.

Zi Yi did not speak either and waited for the data on the virtual screen to stop moving. She did not call for Shadow and instead, took out a palm-sized scanner from the medical box and passed it to Lu Jingye.

"Ah Jing, use this scanner to check Grandfather starting from the patient's foot to the head."

"Alright." Lu Jingye took the scanner and began scanning Patriarch Lu's body.

The others stared at the equipment and Eldest Master Lu ended up asking, "What is this?"

Zi Yi did not wish to answer at all.

It was Lu Jingye who replied to him, "It's similar to an X scanner."

Eldest Master Lu glanced at Zi Yi and remained silent.

When the scanner reached Patriarch Lu's waist, an anxious voice suddenly sounded from outside the door. "Eldest Master, Second Master, it is no good. The housekeeper is missing and the Eldest Young Master is injured."

Eldest Master Lu and Lu Jianlin's expressions changed at the same time.

The First Madam asked urgently, "My son is injured? Is it serious?"

As soon as she said that, she and Yang Yuelan ran out together.

Following that, the First Madam's trembling voice could be heard. "Zhiheng, what happened? Why is there so much blood on your face?"

The Eldest Master Lu had also hastily come out after hearing the commotion.

Shortly afterwards, Second Master Lu had followed out.

Lu Zhiheng's condition did not seem good. His footsteps were weak and his eyes kept rolling to the whites. He had been supported by a helper and most importantly, his nose kept bleeding and they could not stop it at all.

Yang Yuelan was trying to stop the bleeding at this time and she continued crying while doing so.

Eldest Master Lu looked at his son's appearance and immediately questioned the helper. "What happened?"

The helper said, "When we discovered that the housekeeper disappeared, Eldest Young Master brought some people around in search of him. It did not take long for us to hear fighting sounds. When we rushed over, the Eldest Young Master was already in such a state. Those who he had brought along were all unconscious too."

After hearing that the helper said, Lu Jianlin spoke in a heavy voice. "There must be something wrong with the housekeeper."

Having said that, he turned around and headed inside the room.

He came over to Zi Yi and Lu Jingye and told them about what had happened.

He then continued. "I'll bring some men to continue chasing the housekeeper."

Having said that, he headed outside and left.

Zi Yi hastily got a few invisible robots to tag along.

### **Chapter 618: Then Why Are You Talking Nonsense There?**

Eldest Master Lu and Lu Jianlin went after the housekeeper together.

The First Madam and the rest supported Lu Zhiheng inside the room and Doctor He hastily went over to check on him.

Just then, the scanner in Lu Jingye's hands had reached Patriarch Lu's head

Looking at the worm wriggling in Patriarch Lu's head, Zi Yi and Lu Jingye's expressions froze at the same time.

"What parasite is this?"

Zi Yi looked at the parasite that was squirming beside the brain marrow and she said with a serious expression, "If my guess is right, it should be a parasite that feeds on one's marrow. As long as the parasite enters the brain marrow, even an immortal can't save him anymore."

Her words caused the expressions of everyone to change.

The First Madam felt that Zi Yi was deliberately scaring them and said discontentedly, "Don't talk nonsense here. If it's really a parasite that feeds on the brain marrow, how could Father still be fine?"

Zi Yi suddenly turned around and looked at her.

Her gaze contained traces of contempt.

The First Madam was angered.

Before the First Madam exploded in anger, the Third Madam said, "Sister-in-law, let Little Zi finish her sentence."

The First Madam glared at Zi Yi discontentedly and remained silent.

The Third Madam hastily asked, "Little Zi, has the parasite entered Father's brain marrow?"

When the Third Madam asked that question, she clutched the corner of her clothes tightly, and clearly she was very worried.

"Not yet. This parasite was just planted not too long ago and it just so happens to be outside the brain marrow. It's currently being blocked by the brain membrane."

The Third Madam breathed a sigh of relief and asked, "In that case, would it be fine if we remove the parasite?"

"That's not the case. The parasite has damaged many of his brain nerves. There will definitely be many aftereffects leftover even if we remove it."

"What aftereffects would there be?" everyone asked at the same time.

"Mental retardation, and even loss of functions in certain areas."

The First Madam said loudly in horror, "What's the difference between this when compared to the parasite entering the brain marrow... Moreover, I heard that only the person who planted this parasite has the method to take it out. Do you think you can take it out with those medical skills of yours?"

Zi Yi glanced at the First Madam and coldly said, "Then your family should send people to search for the person who planted the parasite."

"How would we possibly know who the culprit is?"

"Then why are you talking nonsense here?"

Zi Yi was extremely rude. But even so, Lu Jingye acted as if he had not heard anything and had no intentions to stop her.

The First Madam turned red in anger.

"You are a--"

"First Madam. If you are to speak another word, I will not treat him anymore."

"You-... You-..." The First Madam suddenly turned to Lu Jingye and exploded. "Jingye, this is the woman you've married. Look at her, she's overstepping her elders!"

Lu Jingye finally looked at the First Madam. He said with a calm expression, "Yiyi is my wife. To her, you are merely my relative. You had not shown any kindness to her and so why should she respect you as an elder?"

"You-... you-... aren't you afraid of outsiders gossiping?!"

"My wife is doted on by the elders in her family even before she got married. There's no reason for her to be looked down on by you just because she's at the Lu Family. If I must mention who are her elders here, it would only be my parents, who are also her parents through marriage. She only has to show respect to them and who would dare to say anything?"

"You-..." The First Madam was shot back to such an extent that she could not utter a single rebuke.

Lu Jingye had shifted his gaze away and asked Zi Yi, "What should we do now?"

"I'll fix the parasite in its place first and stop it from entering the patient's brain marrow."

"Okay..."

“How are you going to fix it?!” the First Madam raised her voice and asked, “Don’t tell me you are thinking of breaking open my Father’s head?”

Zi Yi could not be bothered to answer her. She took out several silver needles, placed them in a few acupuncture points, and caused Patriarch Lu to enter into a deep coma.

The First Madam’s eyes were wide open. She felt that Zi Yi was thinking of harming Patriarch Lu and she was about to pounce over and stop her.

Just then, Yang Yuelan’s crying sounds could be heard near the door. “Why isn’t Zhiheng’s nosebleed stopping? Doctor He, think of a way to stop it. Wuuuu.... Zhiheng is bleeding so much.”

The First Madam hastily turned around to check on her son’s condition.

It just so happened that Doctor He replied at that moment, “The Eldest Young Master was not beaten up. His nosebleed seems to be flowing from his main artery.”

“AH-!”

Yang Yuelan cried out in horror and her voice trembled. “Then... then what should we do?”

The First Madam quickly made her way over and looked at her son that was about to faint. She reached out with trembling hands and held his hand. Her lips had been quivering for some time before she suddenly burst into tears. “Zhiheng, what’s the matter with you?”

She suddenly turned around and looked at Doctor He and said sternly, “Doctor He, aren’t your skills great? How could it be that you are unable to stop my son’s nosebleed? I want you to stop his nosebleed right now!”

Doctor He knew that they were anxious, but he was anxious as well. “I don’t have any medical equipment here and it’s impossible for me to check why the blood from the main artery is flowing out from his nose. I would suggest that you send him to the hospital, or perhaps...”

Doctor He suddenly turned to Zi Yi.

What he meant was for Zi Yi to help.

The First Madam and Yang Yuelan looked towards Zi Yi at the same time.

Zi Yi did not turn around at all. She was currently using the silver needles to seal Patriarch Lu’s acupuncture points.

It was as if she had sensed their incoming gaze, and she coldly answered, “Don’t look at me, I won’t rescue him.”

“You-...” The First Madam’s eyes were about to pop out of her head and she said, “Even if you are willing to save him, I don’t trust my son in your hands. Who knows if you would have any evil intentions and do something to him, so that my son would hand over the Lu Group to Jingye.”

Zi Yi and Lu Jingye turned to look at the First Madam.

Traces of disdain flashed past their eyes at the same time.

The First Madam was so angry that she almost passed out.

“Sister-in-law, no matter who you will be asking to treat Zhiheng, you had better let him receive treatment right away. Otherwise...” The Third Madam could not stand it anymore and pointed at Lu Zhiheng who was obviously losing too much blood. “Zhiheng does not have that much blood to continue draining out from his body like this.”

The First Madam paled and panicked. She hastily pushed Yang Yuelan and said, “Quick, Yuelan. Go and find your Father. We must send Zhiheng to the hospital”

Yang Yuelan was scared out of her wits at this time and due to the First Madam’s push, she nearly stumbled and fell down. She recovered her senses the next second and said, “Oh- oh- oh. I’ll go and look for Father right away.”

She ran towards the door immediately afterwards.

The First Madam hugged Lu Zhiheng’s head and wiped away his blood using a handkerchief as she wailed. When she saw that the blood continued to flow out, her tears streamed down even faster.

“Doctor He, do something about it. If this goes on, what if my son loses too much blood before he is sent to the hospital?”

“Apologies, I...”

“Who wants your apology!” The First Madam cried out in a shrill voice. “What I want for you is to find a way to stop the bleeding. Don’t you understand? You useless quack of a doctor that can’t even do such a simple thing! Wuu.... if anything happens to my son, I won’t let you off!”

### **Chapter 619: Little Zi, Please Help Stop My Son From Bleeding Out**

Doctor He took a deep breath and controlled his emotions to stop himself from getting angry. “First Madam, the Eldest Young Master’s situation is special. I...”

“Shut up. You’re a quack and that’s it.”

Doctor He really shut his mouth and went over to Zi Yi with a solemn expression. He looked at how Zi Yi controlled the parasite within Patriarch Lu.

The Third Madam shifted her gaze to Zi Yi and the group.

When the First Madam saw that everyone was ignoring her son, she cried even harder.

Not long later, Yang Yuelan and Eldest Master Lu quickly came back from the entrance.

At the sight of Lu Zhiheng about to bleed dry from his nosebleed, the Eldest Master Lu got a fright and he quickly walked over to ask, “What happened?”

He looked at the First Madam who was sobbing and was unable to give him a reply. After that, he turned to Doctor He.

Doctor He told him what he had said earlier.

Eldest Master Lu's heart tightened. He felt that his throat was stuck and a few seconds later, he struggled to ask, "If we send Zhiheng to the hospital, would it be in time?"

The First Madam could not bear to hear that right now. As soon as the Eldest Master Lu asked that question, she shouted, "It will be! How could it not be in time?!"

"You, shut up!"

Eldest Master Lu wished that he could slap this woman to death right now. Can't she just give him some peace?

Doctor He was silent for a few seconds before he answered, "I can't make any promises."

His words caused Eldest Master Lu, the First Madam, and Yang Yuelan to tremble.

The First Madam could not take this fact and her eyes rolled back; she almost fainted.

Eldest Master Lu continued to ask, "Little Zi, can you stop Zhiheng's bleeding?"

"Yes," Zi Yi answered very simply and casually.

The three of their gazes brightened up at the same time.

Zi Yi continued to speak. "But I don't wish to."

"You-"

The First Madam was so anxious that she was about to curse her.

In the next second, the Eldest Master Lu gave her a tight slap.

PA!

"Can't you just keep your mouth shut?"

The First Madam fell to one side from the slap. She was frightened and instantly became silent.

Eldest Master Lu walked over to Zi Yi and said sincerely, "Little Zi, please help to stop my son's bleeding."

Speaking of this, his eyes were about to turn red.

It was due to worry.

Zi Yi looked into his eyes and said with an indifferent expression, "I'm not a saint, and I am unable to write off what you have all done to me and Ah Jing previously."

Eldest Master Lu's expression changed.

Zi Yi sneered and said, "But I am a doctor. My teacher said that no matter what hatred there is between me and the patient, I have to save them if I see them... At the very least, I have to ensure that they are unable to die, so that I can take care of them in the future."

Eldest Master Lu's expression changed several times. He felt stifled deep down, but for the sake of his son, he could only endure it.

He said, "Then I'll have to trouble you."

Zi Yi responded with a nod. She took out a silver needle and swiftly moved. When everyone had yet to react in time, she said, "It's done, you can send him to the hospital."

"You-"

"Ah! Zhiheng's nosebleed has stopped."

Yang Yuelan's cry of surprise stopped Eldest Master Lu who was about to explode in anger.

He suddenly turned around to take a look. Sure enough, Lu Zhiheng's nosebleed had stopped.

The First Madam was ecstatic, but at the thought of how Zi Yi could easily stop her son's bleeding and yet, refused to do so, her heart was consumed in anger.

Just as she was about to glare at Zi Yi, she was met with Lu Jingye's sharp eyes.

Lu Jingye said, "Since Yiyi can stop his bleeding, she can also cause him to continue to bleed. She said it earlier. She can't stand the sight of you and you had better bring him away. Don't make her change her mind."

Eldest Master Lu felt upset at his nephew's unkind words, but he did not say anything and quickly made his way over to Lu Zhiheng. He said to Yang Yuelan, "Help Zhiheng onto my back. I'll carry him out."

Yang Yuelan followed his instructions and helped Lu Zhiheng onto his back.

Soon, the group of them left.

After they left, Lu Jingye saw that Zi Yi was more or less done and he said, "Yiyi, Stay here and look after Grandfather. I'll go help my Father."

Zi Yi nodded her head and said, "Be careful. Bring the shield I gave you, don't let them have a chance to plant a parasite on you."

"Okay."

Lu Jingye soon made his way out.

Only Zi Yi, the Third Madam, and Doctor He remained in Patriarch Lu's room.

Looking at the unconscious Patriarch Lu, the Third Madam asked in worry, "Little Zi, are you able to treat the parasite in Father?"

"I am unable to do so for the time being."

Even if she was to remove the parasite, there should be an order of closeness of kin. She had to treat her cousin first.

The Third Madam was silent for a few seconds and she got even more worried. "I wonder if it is the housekeeper who planted the parasite. If he was really the culprit, would he remove the parasite from Father if we capture him?"

Zi Yi pondered for a moment. She felt that it was not a mere trifling that the housekeeper had managed to lurk in the Lu Family for such a long time and fool everyone, and not reveal the slightest flaw. If her guess is right, the housekeeper should not be the Gu Master.

At the thought of this, Zi Yi asked, "Third Madam, can you tell me what kind of person the housekeeper is?"

"Little Zi, you are Jingye's wife and you can call me Third Aunt together with Jingye."

Even though she liked peace and quiet and she did not wish to question anything, she was well aware that Zi Yi was the savior of her husband.

"The housekeeper had already been here since I married Jianjun. I heard that when his family was destroyed back then, it was Father who helped him take revenge. Therefore, he had been the most loyal to Father."

Speaking of this, the Third Madam revealed doubt on her face. "To be honest, when I heard that the housekeeper had disappeared, I didn't believe he was the culprit at all. I feel that it is possible for any of the helpers to harm Father, but only the housekeeper..." She shook her head. "I really don't believe that he would harm Father."

Zi Yi fell into deep thought.

Sometime later, she asked, "Did the housekeeper act any differently in the past year?"

The Third Madam shook her head. "I did not have much contact with him. However, Big Brother's family does have frequent contact with him."

Zi Yi was about to continue asking, when she heard the sound of approaching footsteps coming from the door.

As soon as the three of them turned around, they saw Lu Jingye standing there.

"Ah Jing, have you captured the housekeeper?"

Lu Jingye's expression seemed a little solemn. "We captured him, but he hid poison in his mouth and has committed suicide."

"Then what should we do?" The Third Madam got anxious. "If the housekeeper is the one who planted the parasite, then how should we remove the parasite from Father?"

Lu Jingye glanced at Patriarch Lu who was lying there. His expression became even more serious.

Zi Yi walked to his side and asked, "Where's the body? Bring me to take a look."

Lu Jingye looked at her and nodded. He then turned around and led her outside.

The Third Madam hastily stopped them. "Jingye, Little Zi, what about here?"

“Third Aunt and Doctor He can look after Grandfather first. We’ll be back soon.”

The Third Madam nodded her head in response.

### **Chapter 620: Can So Many Parasites Survive In a Person’s Body?**

After Zi Yi and Lu Jingye came out of the yard, they took the left side of the path.

On the way, Lu Jingye said, “Father had sealed the entire place when he was here. However, the news still spread out. My people can only control the internet and stop this matter from spreading out via that channel, but I think that those who ought to know should have known already.

Everyone did not expect the culprit to be the housekeeper. Father said that when Grandfather lost consciousness, the housekeeper left with the other helpers. He should have leaked the information out then.”

Zi Yi looked at his cold expression and pulled his hand and asked, “What are you worried about?”

Lu Jingye noticed that her hand was slightly chilly and so, he held her hand tightly. “There will be many people coming over early in the morning to check up on my Grandfather’s condition. Father and Eldest Uncle have to make preparations tonight. Before we remove the parasite from Grandfather, we can only conceal this matter.”

Zi Yi responded with a nod and asked, “Will Third Uncle be coming back?”

“He should be arriving at around 4 a.m in the morning.”

Zi Yi nodded her head once again.

The two of them hastened their footsteps and arrived at where the housekeeper was caught.

It was in the woods near the backyard.

There were many Lu Family’s guards stationed there. Eldest Master Lu and Second Master Lu were currently standing two meters away from the housekeeper’s corpse. They were currently in a discussion and their expression looked serious.

When Zi Yi and Lu Jingye made their way over, the two of them stopped talking.

“Eldest Uncle, Father.”

Eldest Master Lu only sent Lu Zhiheng into the car and he had assigned a bodyguard to send the other three to the hospital.

He turned to look at Zi Yi and asked, “Do you have a way to find any clues from his body?”

Zi Yi took out her hand from Lu Jingye’s grip and walked a meter away from the housekeeper’s corpse. She looked at his complexion and asked, “Did he say anything or do anything when you captured him?”

Lu Jianlin answered, “His expression seemed strange, and he did not say anything. When we found him, he had directly consumed the poison and committed suicide.”

“Did you see him consume the poison? Or check the back of his mouth?”

“Yes. His mouth is full of blood...”

Zi Yi furrowed her eyebrows and continued asking, “Who was the one who checked?”

Lu Jianlin said, “I got one of your robots to check.”

Zi Yi breathed a sigh of relief and spoke to the air. “Who checked the corpse?”

Shadow II appeared out of thin air.

“Master, it’s me.”

“What did you manage to find?”

“There are worms in the back of his mouth. One of them tried to climb over to my body while I was checking his corpse but I crushed it.”

What Shadow II said sounded funny and it should have made them laugh. However, everyone’s expression changed at this moment.

Eldest Master Lu felt lingering fear. “Fortunately we did not approach him.”

Zi Yi thought about it and said to Shadow II, “There should be other worms in his mouth. Dig them out and store them.”

“Yes.”

Shadow II made its way over and took out a special bottle from its body. It then squatted down and opened the housekeeper’s mouth with one hand as his other hand placed the bottle near his mouth. Sure enough, a few worms climbed out.

When the robot used its hand to scrape the housekeeper’s mouth, all the worms entered the bottle.

“There are so many worms in the housekeeper’s mouth!”

Lu Jingye asked Zi Yi, “Can so many parasites survive in a person’s body?”

Wasn’t it said that parasites were unable to be put together?

Zi Yi was also surprised. “For the housekeeper to have so many parasites in his body, by right something should have already happened to him. However, he was living well and so there must be a reason behind this.”

As soon as Zi Yi said that, she was about to step forward to check the situation.

Lu Jingye grabbed her hand and stopped her. “His corpse is dangerous. Don’t go too close.”

Zi Yi thought about it and said, “I wish to take this corpse back to research.”

Before Lu Jingye spoke up, Lu Jianlin said, “Can you guarantee that the corpse would not hurt you?”

“Yes, I have special protective clothing.”

“Alright then.”

Lu Jianlin agreed to it. Eldest Master Lu wanted to say something, but gave up in the end.

Zi Yi got Shadow II to bring the corpse back.

Only then did Eldest Master Lu ask, "What's going on exactly? There must be something you're hiding from me, isn't it?"

The three of them turned to look at him. Zi Yi and Lu Jingye did not speak.

Lu Jianlin said after careful consideration, "Let's return to Father's room first. Third Brother is rushing back right now. We'll discuss what to do for tomorrow morning first."

The group returned to Patriarch Lu's room.

When the Third Madam and Doctor He saw their return, they breathed a sigh of relief at the same time.

The Third Madam asked, "Big Brother, Second Brother, what should we do now?"

Lu Jianlin said, "You should return to your room to take a rest first. Third Brother and Little Ming will be back in the morning."

The Third Madam unconsciously relaxed. When she heard that her husband and son were about to return, she instantly felt more confident.

She nodded her head and took her leave.

Eldest Master Lu looked at Doctor He.

He tactfully said, "Then I'll return and take a rest too. You can call me if you need my help."

Doctor He left after he said that.

After the door was closed, Eldest Master Lu asked with a stern expression, "What exactly is going on?"

Lu Jianlin told him about the matter concisely.

After Eldest Master Lu heard the story, his expression was extremely dark.

"Someone is trying to bring down our Lu Family?"

Having said that, he paced back and forth anxiously. Seemingly having thought of something, he stopped to say something. "The housekeeper feels indebted to Father and even if he was inflicted with the parasite, he would not harm Father. There must be some other reason behind this."

Speaking of this, he looked at Zi Yi. "Little Zi, are you really able to cure Yunxiao?"

Even though Zi Yi disliked him, on Lu Jingye's account, she answered him. "Yes."

Eldest Master Lu paced around again before he stopped. "This matter is not so simple. I'll call and rush Third Brother and get him to come back as soon as possible. We have to discuss this."

After he said that, he asked Zi Yi, "Are you able to get your robot to imitate Father?"

Zi Yi looked at him for a few seconds and said in all seriousness, "As long as you can tell me his characteristics, my robot will be able to imitate him."

Eldest Master Lu looked at Zi Yi's indifferent expression and knew that she was not helping willingly. He felt complicated deep down. In fact, he was also unable to accept the fact that they suddenly needed her help for everything.

However, this was not the time to be emotional. He started to list down Patriarch Lu's characteristics. Lu Jianlin would also add in some from the side.

The two of them talked for about half an hour. After Zi Yi listened to their description, she summed it up. "On the whole, he's basically a tyrant. A tyrant that has the old society ruling ideology and is extremely conceited."

Eldest Master Lu and Lu Jianlin were silent.

Even though they felt that Zi Yi's words were too straightforward, it was more or less accurate.
