### Chapter 641: Ah Jing, Save Me~

The snow that was accumulated on the nearby trees fell down due to the tremor.

Zi Yi made eye contact with Lu Jingye and he tightened his grip on her. "It should be a group of wild animals heading this way. Let's get out of here first."

The wild animals in the mountains were all protected animals and it was impossible for them to kill them directly.

However, Zi Yi was a little curious about the tremor and she said, "Why don't we go up the tree and wait? Let's see what kind of wild animals it is."

Lu Jingye had no means to refuse this young lady who was curious about everything and he ended up agreeing.

Zi Yi put away the snowboard and soon, the both of them climbed up a large tree.

Not long after they climbed up the tree, the movements from afar had arrived.

When she saw a pack of wolves rushing over, just as Zi Yi was about to speak, Lu Jingye whispered in her ear, "Don't speak. There's something chasing them from behind."

Lu Jingye had done several tasks on behalf of Lu Yunxiao and so, he was now more sensitive to things like this.

Zi Yi quickly remained quiet and soon, the pack of wolves dashed past the tree they were sitting on. Not long after, the animals who were chasing behind the wolves could be seen.

When Zi Yi saw a few familiar silhouettes, she cried out in surprise. "Feihu!"

1

The military dogs who were still chasing the pack of wolves suddenly screeched to a halt and all of them stopped at the same time when they heard Zi Yi's voice.

Zi Yi was standing on the tree and waving to the military dog who had surrounded the tree. "Hi doggies, long time no see."

Having said that, she and Lu Jingye jumped down.

However, just as Lu Jingye released his hold on Zi Yi, the military dogs immediately pounced on her.

BAM!

Zi Yi, who had been pushed down, saw stars in her eyes. At the same time, she had to endure a few excited military dogs 'washing' her face with their saliva.

She felt like crying.

"Ah Jing, save me~"

Lu Jingye held back his laughter and walked over to separate the military dogs from her and pull her up.

He then patted the snow off her head and body as he asked, "Were you injured?"

It didn't hurt, but she had gotten a face wash from the military dogs. Her face current felt wet and when the cold wind blew past her face, she started doubting her life.

She looked at the military dogs, who were obviously gloating, in discontentment and said angrily, "You've gone too far!"

"Owwu~" Feihu deliberately let out a cry.

Zi Yi coldly snorted. "Do you really think I'm a pushover?"

Having said that, she took out a circular ball from her pockets and threw it towards their foreheads.

The military dogs only managed to react after they felt that the top of their heads were chilly. The next second, Zi Yi started laughing out loud.

She had shaved the heads of the several military dogs who pounced on her earlier.

1

The dogs were still a little confused as they whined and turned to look at their comrades. It was as if they were asking what happened just moments ago.

When the other military dogs saw that there was a lack of hair on the top of their companions heads, they started telling each other about it.

Following that, she saw a few military dogs turning their heads rapidly towards Zi Yi. At the same time, they bared their teeth and acted as if they were going to pounce on her again.

Zi Yi played around with the circular ball that returned to her hands and said coolly, "If you dare to pounce on me again, I'll continue shaving your heads and make you into bald dogs!"

"Aoo~"

The military dogs took a step back together.

Zi Yi scoffed at them. "I feel that you will look handsome if you become bald dogs. Do you want to give it a try?"

A few of the military dogs glanced at each other and barked twice at her before they turned and ran away.

The other military dogs had also followed along.

Looking at the group of military dogs who disappeared without a trace, Zi Yi said, "What are they doing in such a far away place?"

Lu Jingye thought about it and said, "You can try contacting Leader Zhang to ask about the situation."

Zi Yi threw out the circular ball in her hand to track those military dogs while she took out her phone and phoned Leader Zhang.

Inside the training camp.

Leader Zhang who was in the control room was pacing back and forth anxiously. "What's going on this year? This is the fifth time our training camp has been attacked by wild animals. I wonder if the military dogs can find anything after going out to chase them."

One of his subordinates said, "It's possible that because it's snowing most of the time within this mountain this year, and those wild animals have no food, they are attacking the camp."

Another subordinate added on. "Thankfully we had the robots that Zi Yi had gifted us previously, or else even our granary would have been ransacked."

At the mention of Zi Yi, the group of people turned silent at the same time.

Sometime later, Leader Zhang sighed. "Such a capable girl like this is gone just like that... Sigh..."

Speaking of this, Leader Zhang felt sad deep down and he ruffled his hair.

Just then, the phone in his pocket suddenly rang.

Leader Zhang originally thought that his subordinates had called him and he did not even bother to check the caller and answered the phone as soon as he took out his phone. "Hello!... Little Zi!"

When Leader Zhang heard her voice, he directly shouted loudly.

His shout caused everyone in the control room to turn and look in his direction.

After Leader Zhang confirmed that Zi Yi was still alive, he almost jumped around in joy.

"You two aren't dead? It's really great!"

"Good, it's good here. The robots you have sent to our training camp have been a great help during this period of time.

"Really? Those group of brats had actually chased so far?"

"Eh? Wait a minute, why are you and Little Lu in the mountains?"

"Oh, okay. Then send me the location and I'll bring some people to fetch them.

"Of course, isn't it New Year's Day today? Let's celebrate it together.

"Sure. I'll come and fetch you right away!"

Leader Zhang hung up the phone while full of smiles. He then said to his deputy. "Quick, go and gather some men. We'll immediately set off to fetch Little Lu and Little Zi."

The deputy revealed a surprised expression and asked, "Mr. Lu and Student Zi are in the mountains? What are they doing there?"

"Why are you asking so much? They must have something to attend to that's why they're there."

Leader Zhang promised Zi Yi that he would not inquire further and he was staying true to his promise.

"In any case, it's good that they are still alive."

When the time comes, he can continue looking for Zi Yi to ask for those high-tech gadgets.

1

The deputy soon gathered the men and the control room had also received the coordinates Zi Yi sent over.

After Zi Yi sent the coordinates, she asked Lu Jingye, "Do you want to call Yunxiao along?"

Lu Jingye nodded his head. "Yunxiao is acquainted with Leader Zhang too, it's fine if he tags along."

Zi Yi contacted Lu Yunxiao.

By the time Leader Zhang led his men and located Zi Yi, Lu Jingye and Lu Yunxiao, one hour had already passed.

Looking at the three people standing there and the group of military dogs who were called over by Zi Yi, Leader Zhang's expression was that of surprise and full of delight.

The first thing he did when he came over was to pat Lu Jingye on his shoulders. "It's good that you two are alright!"

He then turned to Zi Yi and said with a smile, "Little Zi, I knew that you would definitely be fine with how capable you are!"

Zi Yi also returned a smile and said, "That's right."

Leader Zhang did not ask them how they managed to fool everyone into thinking they got into an accident and why they came here instead.

He then shifted his attention to Lu Yunxiao.

When facing the expressionless Lu Yunxiao, Leader Zhang had also put away his smile and became more serious. "Third Young Master, long time no see."

Lu Yunxiao nodded in response.

Clearly, Lu Yunxiao was famous for his cold attitude and Leader Zhang did not mind it either. He then said enthusiastically, "Let's go, it's a holiday today so we can celebrate it together."

### **Chapter 642: It's Too Torturing!**

Zi Yi, Lu Jingye, and Lu Yunxiao followed Leader Zhang to the training camp.

As it was a holiday today, the training camp was more lively than usual.

Even though the interior was not as decorated as the secret base, today was a day where everyone could have their fill of meat and drinks.

Leader Zhang said, "It's rare that everyone can have a good meal and drink alcohol and relax. Other than those who are on duty, everyone can eat and drink however they like. This is all thanks to the robots Little Zi sent us."

Zi Yi had made 10 robots for the training camp. All these robots were very practical. Each robot was capable of being on duty, investigating, and combat... Overall they were capable of everything.

Right now, these robots were Leader Zhang's babies.

"Since you're here, you should stay here today. Let's have a bonfire night in the evening."

In the face of Leader Zhang's enthusiastic approach, Zi Yi only smiled and remained silent while Lu Jingye spoke up. "Apologies, but we have to rush back in the afternoon."

Leader Zhang was under the impression that the three of them had a mission on hand. Else, Zi Yi and Lu Jingye would not have faked their death. Even though he was disappointed, he did not insist and said, "Alright then, it's the same if we celebrate till the afternoon."

It was currently around 10 a.m.

Leader Zhang had led them to their canteen.

The slaughtering of pigs and sheep had already started last night within the canteen. Before they even reached the canteen, the thick scent of braised pork could be smelled from outside.

"It smells good." Zi Yi wriggled her nose as she put on a hungry expression.

Leader Zhang laughed and said, "I had people go purchase the ingredients for seasoning two days back and the braised pork we prepared is the most authentic."

While explaining, the group had arrived outside the entrance.

There were several leaders currently inside the canteen and all of them were laughing while conversing with each other as they waited for the food to be served.

There were several large canteens in the training camp and this canteen was specially catered for leaders. When Leader Zhang faced Lu Jingye, he subconsciously started to cry poverty. "There are six to seven thousand people in our training camp and after buying this meal, we can only drink porridge and eat pickles for the next following days."

Zi Yi looked at him with a scorching gaze.

Lu Yunxiao was also looking at him.

Leader Zhang was thick-skinned and he did not seem embarrassed at all. Instead, he became even more energetic. "In particular, during this time where the Lu Group distributes the resources, it is rare for it to come down to us. We have already been tightening our belts for quite some time."

Lu Jingye spoke up. "The Lu Group no longer has the ability to provide military supplies."

"Ah?!" Leader Zhang was stumped by his words. "What do you mean you no longer have the ability?"

He did not know the current situation in the Lu Group.

"Because all the overseas subsidiaries of the Lu Group have been snatched away during the economic war these days and they have suffered heavy losses."

Leader Zhang was tongue-tied. In the end, he finally said in horror, "To think that the economic war was so scary!"

"That's right." Lu Jingye nodded his head and remained silent afterward. Clearly, he did not want to say anything more.

It was not appropriate for Leader Zhang to ask either. He only asked, "Then who will be responsible for our military supplies in the future?"

"There's no need to worry about this. The higher-ups will make the appropriate arrangements."

Leader Zhang knows that the higher-ups would have their arrangement, but he was used to working with Lu Jingye. He felt that there would never be a rich and easy-going person like Lu Jingye anymore in the future.

When they walked into the kitchen, everyone who saw Lu Jingye and Zi Yi would greet them.

Following that, when they looked at Lu Yunxiao, their expressions turned stiff subconsciously, as they felt shocked deep down.

The Third Young Master Lu even came together with them.

Lu Yunxiao was a ruthless character. When everyone was training in the capital, the instructors would basically use him as an example.

They had never seen him before and now that they had finally seen him today, they felt an inexplicable sense of pressure deep down.

Lu Yunxiao expressionlessly swept his gaze across everyone and tightened his lips without saying anything.

This caused the group of people to feel even more pressurized.

The atmosphere had somehow become a little tense.

Zi Yi checked out everyone's expressions. The corner of her lips curved up and she said to Lu Jingye, "Ah Jing, I want to head over to the military dog training camp for a while."

Lu Jingye motioned for her to wait a while. He then turned to ask Leader Zhang, "Didn't you mention that there was braised pork? I'm hungry, can you give me some to eat first?"

His words caused everyone's gaze to shift to Lu Jingye.

All of them were thinking: *"Isn't Second Young Master being too straightforward?"*

Leader Zhang knew that Lu Jingye was trying to liven up the atmosphere. He was also vexed that he could not find a good reason before. Now that Lu Jingye had spoken up, he laughed and said in response, "Of course."

Shortly after, he shouted towards the kitchen, "Old Yang, bring out a bowl of marinated pork ribs."

"Coming up!"

After hearing a response from within the kitchen, they soon saw a middle-aged man coming out with a pot of pork ribs that was the size of his face.

Zi Yi looked at those pork ribs that were around the size of her arm and she unconsciously swallowed her saliva.

The chef brought the braised pork ribs to Leader Zhang and Leader Zhang turned to look at Lu Jingye.

Lu Jingye asked, "Do you have disposable gloves?"

The chef shook his head. "We don't but we have gloves that we use. Do you want them?"

"Yes please, thank you."

Lu Jingye was too polite and the chef became a little at a loss. He hastily turned around and shouted to the kitchen staff. Soon, someone rushed out with a pair of gloves.

Lu Jingye took the gloves and passed them to Zi Yi. "Have some now to fill your stomach. Don't play for too long and come back for lunch later."

Zi Yi's gaze swept across everyone who was staring at her before she grabbed the gloves, took the largest pork rib, and took a bite without any reservation. "Yummy."

She then added. "Then I'll be leaving first."

"Ok."

Zi Yi left while she bit the pork rib.

Everyone present was full of smiles.

So it turns out that Second Young Master asked for food to feed Student Zi!

This display of affection was too torturous!

However, the atmosphere inside the canteen had become much more relaxed due to this incident.

After Zi Yi left, Leader Zhang led the two brothers to take a seat at an empty table.

His subordinates brought a pot of tea. It was quite casual here and the teapot they used was an aluminum pot while the cup was the bowl used to fill rice.

Leader Zhang said, "The conditions here are average, I hope that you don't mind."

Lu Jingye took a sip of the tea and said, "There's nothing to mind. Tea can be drunk anywhere."

"Hahaha..."

Leader Zhang liked Lu Jingye's personality. After he had his laugh, he turned to look at Lu Yunxiao.

Similarly, Lu Yunxiao did not say anything but took a sip of the tea.

Leader Zhang breathed a sigh of relief.

Following that, he and Lu Jingye had a casual chat.

They first mentioned the robots Zi Yi had sent them and while chatting, Leader Zhang brought up the recent situation.

“After finishing this meal, I will be going out on a mission with the robots.”

Lu Jingye was a little surprised. “What kind of missions require you to attend them personally?”

“Quite a number of people have disappeared within the Southern borders in recent months and the higher-ups tasked me and another two training camps to lead some people in search of them.”

Lu Jingye thought of the things Zi Yi managed to pry out from the Gu Master and he unconsciously furrowed his brows.

If it was what he thought, those missing people were certainly related to Gu Masters.

“Leader Zhang, how many people do you plan to bring along?”

“I won’t be able to bring many. We are going over in secret and we might even have to leave the country’s borders. However, the higher ups informed us to bring more military dogs.”

Lu Jingye nodded his head in response.

The both of them chatted a while more before changing the topic.

After all, this was a secret operation and it was inappropriate for Leader Zhang to divulge anything else. Naturally, Lu Jingye would not ask anything more either.

However, Lu Yunxiao fell into deep thought as he heard the conversation between them.

### **Chapter 643: This Brat Had Actually Dared To Steal the Flower I Planted For My Wife To Gift Someone Else! He’s too Much!**

On the other side

Zi Yi chewed on the pork ribs while she headed to the military dogs’ training camp.

When she arrived at the iron fence outside the training camp, she saw several of the military dogs lying low in front of three trainers as they whined. From the looks of it, it seemed as if they were acting cute and it also looked like they were complaining.

Instructor Li touched the head of one of the military dogs and said with a smile, “It’s fine, Little Zi’s technique is pretty good. You look stylish despite being bald on your heads here and you all still look as handsome as usual.

Aoo...

The military dogs clearly did not have the same opinion and they all looked as if they were about to die from embarrassment.

Zi Yi laughed gloatingly at the sight of the scene.

The three instructors and a few of the military dogs turned around at the sound of her laughter.

In the next second, a few military dogs started barking at her fiercely.

Zi Yi looked over and laughed while waving the pork rib in her hands. "I also think that the shave looks handsome on you."

The response Zi Yi got in return was a furious one. Bark! Bark! Bark!

Instructor Li smiled and walked over in large strides to open the gate for Zi Yi and she entered while munching on the pork rib.

Several of the military dogs who had received a shave from her made a dash in her direction.

When the other two instructors saw them rushing towards Zi Yi, they got a fright and hastily shouted to stop them, "Overlord, Sunny, Xiaowu, Flying Tiger, Fox! Come back!"

Instructor Li also got a fright. Just as he turned around and wanted to stop them, he heard Zi Yi speak. "It seems like you wish to be fully bald dogs."

Zi Yi's voice was not loud, but the military dogs had heard her.

When they were about a meter away from Zi Yi, they stepped on the breaks and stared at her fiercely.

Zi Yi smiled with her eyes curved into crescent moons and returned their gaze.

After maintaining eye contact for a few seconds, she took another bite of the pork rib again.

The military dogs started to salivate, without an ounce of their former backbones to be seen.

The other two instructors did not know whether to laugh or cry. The three instructors made eye contact and Instructor Li hinted to them to not be anxious to talk.

Sometime later, the military dogs' gazes shifted to the pork rib in Zi Yi's hands and their saliva flowed even more.

The way Zi Yi ate it made it seem so delicious and tasty. Coupled with how the braised pork rib was so fragrant, the military dogs started whining like children.

Zi Yi waved the pork rib in front of them.

The gaze of several dogs was following the pork rib around.

Zi Yi took it back and took another large bite before she asked, "Do you want to eat it?"

Aooo...

Yes! Yes!

"Then do you think that the shave I gave you looks good?"

The military dogs remained silent.

The three instructors were amused by Zi Yi and the military dog's interactions.

Instructor Li said, "The taste of braised pork ribs is too strong and they can't eat them usually. But it's a holiday today and the higher-ups had given out some welfare. There is plenty of meat for them."

Aooo~

The military dogs jumped around excitedly like children.

Zi Yi also smiled. "Then I'll help you carry the dog food."

She then finished the last piece of meat on the bone before throwing it into the trash bin and followed Instructor Li to collect the dog food.

On the way to collect the food, Instructor Li asked, "Student Zi, why have you come here?"

He suddenly recalled that it was New Year's Day and he asked with a smile, "How long is your holiday for New Year's?"

Just as Zi Yi was pondering over how she was to answer his question. However, she then heard his subsequent question and answered that instead, "Three days."

Instructor Li nodded his head and said, "Then you can spend more time playing with them later. They have all missed you a lot ever since you left."

Military dogs were very intelligent and Instructor Li had also spent time with them often and so, he knew of their thoughts.

"In a few more days, quite a number of the military dogs will be dispatched for a mission. They must be very happy that you have come to accompany them today."

Zi Yi nodded her head and said, "Alright, I will spend more time with them."

When they made their way back to the military camp, the few military dogs who were complaining just earlier had returned to the training ground located at the back. Currently, they were all seated in line with the other military dogs as they queued. There was also a large dog bowl in front of them and they were clearly waiting for the food to be served.

After Zi Yi and the three instructors distributed the dog food, they stood by the side and watched them eat.

The three instructors told Zi Yi about some interesting things these military dogs had done during training.

Zi Yi laughed uncontrollably at their stories.

This caused the military dogs who were part of the story to feel that their food tasted bland.

1

After they finished their food, all of them had 30 minutes of free time.

Zi Yi stood there and watched them play. After spectating for some time, she saw Fox and Feihu running in her direction with one in the front and the other at the back.

Looking at the two who seemed to be sneaking around, Zi Yi somehow thought of the scene where Feihu tried to scare her with a cauliflower snake during the military training.

Zi Yi narrowed her eyes and looked at them.

After the two dogs came closer, sure enough, Fox who was blocking Feihu had moved to the side, revealing Feihu who had something in his mouth.

Feihu threw the item next to Zi Yi's feet and maintained a distance of three meters away from Zi Yi together with Fox. They squatted down and looked at her.

Zi Yi looked at the small flower next to her feet and felt touched. She bent down to pick up the flower and asked, "Where did you pluck this flower? It's really pretty!"

Feihu and Fox were both very happy and they even jumped up and down on the same spot several times.

The three instructors standing by the side had also smiled as they watched the scene fold out.

"Feihu usually looks cheeky and to think that he would know to give Student Zi a flower... but then why does that flower look so familiar?"

"Haha, isn't that the flower you said you were raising to give to your wife?"

"Ugh... it's indeed that flower. That brat actually dared to steal the flower I planted for my wife to give to someone else?! He's too much!"

"Student Zi and Feihu are comrades who have gone through a life and death situation with each other. Just turn a blind eye to it~"

"I hope that all of them will be able to return safe and sound during this mission. Perhaps one day Student Zi will be free and come over to visit them again."

Speaking of this, the three instructors turned silent.

Even though they were worried, the duty of military dogs was similar to them, where they had to defend the country. Thus, they should go on a mission whenever there was one.

Zi Yi stayed in the military dog training camp for nearly an hour and it was Lu Jingye who personally came over to fetch her.

Some of the military dogs barked at her when she was leaving.

Zi Yi waved at them and said, "I'll come to see you again when I have time during my holidays."

The military dogs were elated. All of them stood near the iron fence and sent them off.

Zi Yi ate lunch in the training camp and left afterwards.

Before they left, Lu Jingye said to Leader Zhang, "If there are no accidents, I will still be responsible for your supplies. However, I will no longer represent the Lu Group in the future."

Leader Zhang was happy to hear that Lu Jingye was still in charge, but what Lu Jingye said in the end caused him to turn silent. He patted Lu Jingye's shoulders and comforted him. "Little Lu, don't be sad. Even if you are no longer the CEO of the Lu Group, you will still earn tons of money wherever you go. You are the god of wealth in our hearts."

Zi Yi could not help but laugh at his words.

She then thought of something and said to Leader Zhang, "Do give additional portions to the dogs next time. While I was chewing on the pork rib, all of them were so hungry that their saliva was spilling out."

Leader Zhang smiled and promised her. "No problem!"

Zi Yi, Lu Jingye, and Lu Yunxiao headed back to the mountains. Looking at the three of their back views, Leader Zhang stroked his jaw and said cheerfully, "How great that they are well!"

He had been downcast for several days upon hearing the news of their car accident.

By the time they returned to the secret base, it was already around 4 p.m. in the afternoon.

The skies in the mountains turned dark early. However, as it was still snowing, the whole place was still bright.

Their return was timely and it was just right on time for dinner if they directly headed to the canteen now.

#### **Chapter 644: Semi-mechanical Monkey**

Zi Yi said while she walked, "We didn't manage to harvest any food or prey today. I wonder if Lu Yi and Tian Dongquan have found anything good?"

As soon as they were in the vicinity of the canteen, they heard Wang Biao's loud voice. "Hey, hey, hey... quick, stop it. Don't let it escape."

"It ran out, quick, give chase!"

"Quick, hurry up! Don't let it disappear from your sight."

Among the loud voices of a few men, Zi Yi saw something that resembled a monkey darting out of the canteen.

Before Zi Yi had the chance to react, she felt a flurry of wind pass by from her side and in the next second, Lu Yunxiao was holding the fur on the back of the neck of the monkey, and raising it up.

The monkey seemed to have been startled, as it struggled and squealed in Lu Jingye's hands.

Zi Yi's jaw dropped in awe. "Yunxiao's movements are so quick!"

Lu Jingye tilted his head and looked at her, while Zi Yi gave him a smile. "You're just as capable."

Lu Jingye's lips curved up and he raised his hand to touch her head.

The group of people in the canteen had all come out just then.

When they saw the Third Young Master, they hastily greeted him.

Zi Yi looked at the monkey and found some peculiarities. She asked, "Who caught the monkey?"

Tian Dongquan hastily said, "I caught the money. This monkey leaped straight onto me and it should be very hungry, as I could not get rid of it no matter how hard I tried. In the end, it followed us back."

Zi Yi furrowed her eyebrows.

Lu Jingye had seen such an expression on her face before and he asked, "Is there a problem with the monkey?"

Zi Yi did not immediately answer him but instead, she continued asking Tian Dongquan another question, "Where did you encounter this monkey?"

Tian Dongquan gave her a general estimate of the place.

Lu Jingye also furrowed his brow when he heard his response.

"This is the route where the wolves had run earlier."

"Wolves?" Tian Dongquan was a little surprised. "I didn't discover any traces of wolves."

Zi Yi and Lu Jingye made eye contact and Lu Jingye's expression became serious.

Lu Yunxiao said something at this point, "The training camp getting attacked by wild animals is a man-made incident."

Lu Jingye then looked at Zi Yi and asked, "What peculiarities are there with this monkey?"

Zi Yi pointed at the monkey.

The moment the monkey saw Zi Yi pointing her fingers at it, it stretched out its hands swiftly in an attempt to scratch her.

Lu Jingye hastily pulled Zi Yi's hand back and slapped the monkey's hand.

The monkey ground its teeth in pain.

Zi Yi said, "It's a semi-mechanical monkey."

Everyone's expression froze at the same time when they heard the news.

Zi Yi called out Shadow and said, "Test this monkey."

Shadow's eyes flashed and in the next second, Wang Biao who was looking into the monkey's eyes suddenly said in a loud voice, "The monkey's eyes seemed to have flashed for a moment."

Everyone then looked towards the monkey's eyes.

Zi Yi said to Shadow, "Connect to the data in its body."

Shadow: "Connecting."

Zi Yi brought out the virtual screen at the same time.

Strings of numbers that would cause one to go dizzy were scrolling up the screen.

Sometime later, the strings of data stopped moving.

Everyone was staring at the data reflected on the screen.

Lu Jingye asked, "Who allowed this monkey inside?"

Zi Yi mentioned a string of codes.

When everyone heard the string of codes, their expressions turned serious at the same time.

Sometime later, Lu Jingye said to her, "Yiyi, you should change the data inside."

Zi Yi nodded her hand and a virtual keyboard appeared in front of her. She quickly tapped on it and after she finished writing strings of codes, the data on the virtual screen changed.

Lu Jingye looked at the data and said in a heavy voice, "It seems like after destroying the Lu Family, their next step is to infiltrate into these places of ours."

He then made eye contact with Lu Yunxiao and the both of them headed in the direction of their office.

Before he left, Lu Jingye said to Zi Yi, "Yiyi, if you are hungry, go ahead and eat first. We'll be back shortly."

He was only a businessman now and all he had to do was to report this to the higher-ups.

Zi Yi responded with a nod and put away the virtual screen.

When she turned around, she saw Wang Biao and a few others looking at her.

Upon seeing Zi Yi looking in their direction, Tian Dongquan asked with a worried expression, "Second Young Madam, I brought this monkey into the secret base. Would it have already exposed our exact location here?"

"No," Zi Yi said. "An Eight Diagrams Array has already been set up here and coupled with the interference of my magnetic field, the other party won't be able to find this place."

With the help of the magnetic field, the coordinates the other party received would have greatly deviated from the exact location.

Tian Dongquan breathed a sigh of relief, but he was still a little vexed. "If I had known earlier, I wouldn't have brought it back. I didn't expect it to be such a scourge."

Ji Dekun did not think the same way. "If you didn't bring it in, we wouldn't have known that it was planted by some other people."

Zhang Hongliang agreed. "It's fortunate that it crashed against you."

However, Zhang Hongliang was a little puzzled. "Since it's a semi-mechanical monkey, would it still feel hungry?"

The others also revealed expressions of doubt.

Zi Yi said, "It's only a semi-mechanical monkey and it's not like its digestive system was removed. Why wouldn't it feel hungry? What's more, if it was fully transformed into a mechanical monkey, it would not have been able to enter here."

There was a detection system inside the base. It was likely that the mechanical portion in its body was turned off most of the time and it would not affect its normal survival anyways.

The few of them understood it now.

On the other side, Lu Jingye informed Lu Jianlin about this incident.

Lu Jianlin said in a serious tone of voice, "I will report this to the higher-ups, you don't have to intervene."

Lu Jingye had no intentions of interfering anyways.

He responded with a 'yes'.

Lu Jianlin looked at the monkey in Lu Yunxiao's hands and said to him, "Send this monkey over. It just so happens that the higher-ups are planning to conduct a comprehensive investigation of the training camp. This monkey should be beneficial to the search."

Lu Yunxiao nodded his head.

Lu Jianlin took a long look at his youngest son. He originally wanted to say some words of concern, but he was unable to get such mushy words out. He ended up saying, "When you come back, spend more time with your Mother. She had been upset for a long time because of your situation."

Lu Yunxiao nodded. "Ok."

Lu Jianlin opened his mouth again. He felt that it was too difficult to chat with his youngest son and so, he turned to Lu Jingye and asked, "How is Little Zi's cousin doing?"

Lu Jianlin and Mrs. Lu knew of how Dou Xiangling had been inflicted with a love parasite.

Lu Jingye said, "She has been fully cured. Yiyi said that she'll let her cousin soak in the nutrient solution for another two days. It's beneficial for her body."

Lu Jianlin nodded his head. "In that case, you'll be able to return before Little Zi's lessons start."

"Yes."

Lu Jianlin gave a satisfied nod. "This is good. Your Mother misses her, you should get her to accompany your Mother when she returns."

"Ok."

After they finished conversing about this incident, Lu Jianlin informed them of the situation with Patriarch Lu.

"Your Grandfather is awake at present, but he is no longer as... irritable as before."

In fact, it was because Patriarch Lu's cranial nerves were damaged and thus, his intellect had dropped. There were many things that he could not remember and what's more, he would have a headache whenever he got irritable.

Lu Jianlin did not elaborate on this point with the two.

He only said, "After you come back, the both of you can just live your life. If Little Zi does not wish to interact with the rest of the Lu Family, she doesn't have to."

Lu Jianlin's words aligned with Lu Jingye's thoughts and he nodded in response.

Following that, Lu Jianlin changed the topic and started talking about the Lu Group.

#### **Chapter 645: Hello Master, I Am 5241, Please Issue Your Orders**

Lu Jianlin said, "Your Eldest Uncle pushed away the work abroad with the higher-ups and he will be focusing his attention on the Lu Group during this period of time."

Eldest Master Lu's work was related to the economic sector and it was not a problem for him to manage a medium-sized company.

However, he was working for the country and he could not put all his time into managing the company.

Lu Jingye asked, "How is our elder cousin's condition?"

He did not pay any attention to his situation since they left for the secret base.

"He has already returned to the main residence and he should be returning to the company in the next month."

Lu Jianlin only casually mentioned Lu Zhiheng and Lu Jingye also merely casually listened to it and did not take the information to heart. The father and son duo were not interested in the Lu Group in the slightest.

After they chatted a while more, they hung up the phone.

Lu Jingye looked towards Lu Yunxiao.

Lu Yunxiao said, "I wish to leave this place."

It just so happens that he could personally deliver this monkey back.

Lu Jingye thought about it and did not immediately agree. "Check with your sister-in-law. If she gives the green light, you can leave first."

Lu Yunxiao was surprised for a moment but he understood his brother's intentions in the next second and nodded his head.

After they locked the monkey in the cage, they headed to the canteen.

Zi Yi was currently surrounded by the managers as they asked her about the virtual screen she showed earlier.

"I've never seen such an advanced computer. Second Young Madam, how did you manage to create it?"

Zi Yi said with a smile, "It's because I'm smart."

The two brothers just so happened to reach the door when they heard Zi Yi praising herself. Lu Jingye's lips curled up unconsciously while Lu Yunxiao subconsciously glanced in his brother's direction.

1

Just then, Zi Yi saw the two brothers and she hastily waved at Lu Jingye.

“Ah Jing, quick, come over! The kitchen is roasting a whole sheep tonight and it will be done soon.”

Lu Jingye and Lu Yunxiao made their way over.

Everyone had put together several tables tonight and placed a few jars of alcohol on them, along with some fruits.

The managers saw the two Lu brothers approaching and they dispersed while returning to their seats.

Lu Jingye walked over to Zi Yi's side and she wriggled her eyebrows while she suggested. “Why don't we go for a walk first?”

After Lu Jingye walked over to Zi Yi's side, he sat down and ignored her suggestion.

Zi Yi pointed at the alcohol and fruits on the table.

“Wang Biao has contributed all his alcohol and we shall all have some tonight... you won't say anything, will you?”

She even winked at him after she said that.

Lu Jingye looked at Wang Biao who was sitting in an upright position opposite and nodded his head. “Today is a holiday, we can all have some alcohol.”

His words caused Wang Biao to breathe a sigh of relief.

Not long after the two of them sat down, the chef had carried the whole sheep over.

The sheep was very fleshy and it was contained in a large baking tray. Beneath it was some charcoal and right now, it was dripping with hot oil. Half of it was sprinkled with cumin while the other half was sprinkled with chili powder, and the fragrance saturated the whole canteen.

Zi Yi seemed as if she was about to salivate from the fragrance.

During the meal, everyone had their fill of the food.

After dinner, Zi Yi, Lu Jingye, and Lu Yunxiao headed to their courtyard.

Lu Yunxiao informed Zi Yi about how he wanted to leave here right away.

Zi Yi thought about it for a moment and nodded. “Even though your body has yet to recover to its previous state, it's fine as long as you don't go on missions. It's okay if you wish to return, I'll give you an invisible robot, in which I will set up a detection device. If you were to encounter something like the situation before, there's no need for you to worry anymore.”

Having said that, she called out Shadow IV.

Shadow IV appeared and called out. “Master.”

Zi Yi said to Lu Yunxiao, “Stretch out your hand.”

Lu Yunxiao heeded what she said.

Zi Yi gave Shadow IV a command. “He will be your Master from now on.”

“Command received.” Shadow IV stretched out its hand and a virtual halo appeared between their palms.

“Reading the data of the new owner.”

“Data read successfully.”

“Hello Master, I am 5241, please give the order.”

Zi Yi said to Lu Yunxiao, “You can give him a new name and he will appear whenever you call him by that name.”

Lu Yunxiao thought for a moment and said, “Your name shall be Night.”

“Command received.”

Lu Yunxiao had nothing for the robot to do for the time being, so Night waited for a short while before it turned invisible.

Lu Yunxiao said to Zi Yi in a serious tone, “Thank you.”

“No need for that. I’m your sister-in-law and I’m responsible for your safety.”

After Zi Yi said that, she even gave him a smile.

Lu Yunxiao saw her smile and felt that he should return a smile too, so he tried his best to move his facial muscles.

However, he did not manage to smile in the end. What’s more, Zi Yi had turned away and looked at Lu Jingye and so, he relaxed his facial muscles.

Lu Jingye noticed that and he raised his hand to caress Zi Yi’s hand as he asked him, “When do you plan to leave?”

“I will be leaving later this evening.”

“Ok.”

The three of them walked to their courtyards and Lu Jingye said to Zi Yi, “Go in first.”

Zi Yi nodded her head and pushed open the door as she entered.

Lu Yunxiao left together with Lu Yi.

Zi Yi and Lu Jingye stayed in the base until the afternoon of the 3rd. Only then did Zi Yi get the robot to lift Dou Xiangling out from the nutrient solution.

When Dou Xiangling regained consciousness, she somehow had a feeling that she had escaped from the god of death.

Just then, Zi Yi’s crisp voice could be heard from above. “Cousin, I have already removed the parasite poison and there’s no need to worry about having heartaches in the future.”

Dou Xiangling tilted her head and looked at Zi Yi who was standing next to her. A gentle smile curved up on her lips. "Yiyi."

Zi Yi also gave her a smile in return and told her about Zhang Hanyu's ending.

Dou Xiangling was silent after hearing the story. Her expression was calm. There was no gloating nor were there any emotions of fury.

On the morning of the 4th, the three of them left the secret base and returned to the capital.

The car arrived at the villa in the afternoon.

Mrs. Lu was already waiting for their return in the yard and the moment she saw the car driving in, her lips curved up unconsciously.

Zi Yi pushed the door open and gave her a big hug. "Mom, we're back."

Mrs. Lu happily patted her back.

When the two of them separated, Mrs. Lu carefully sized up Zi Yi and nodded satisfactorily. "It seems like Yiyi has been eating well over these past few days. Your complexion looks good."

Zi Yi also smiled in return. "It's because I'm happy that I managed to treat Yunxiao and my cousin, so I ate well and slept well."

Mrs. Lu smiled at her explanation and she could not help but pinch her cheeks.

She then turned to Dou Xiangling.

The latter smiled and greeted her. "Hello, Auntie Lu."

Mrs. Lu nodded her head and said with an expression of heartache, "Child, you have suffered."

"No, I've been sleeping during this period of time and was recovered by the time I woke up."

Mrs. Lu appreciated Dou Xiangling's way of thinking. "This outlook of yours is good too."

Dou Xiangling smiled and nodded her head.

The four of them headed to the backyard.

Mrs. Lu said as they walked, "It's great that all of you have returned. I told Jianlin today that our family will get together for dinner tonight."

She did not forget to ask Dou Xiangling, "Xiangling, will you be staying today?"

Dou Xiangling shook her head. "It's fine, I'm thinking of returning home to meet my family."

Even though everyone thought that she had left to gather inspiration, Dou Xiangling's thoughts were completely different. It could be considered that she had a brush with death and she could not wait to return and see her family.

Mrs. Lu nodded her head in understanding. "Alright then. Get Jingye and Yiyi to send you back after lunch."

Dou Xiangling looked at Mrs. Lu gratefully.

#### **Chapter 646: Going Out Is All About Buying Things Because Otherwise, What's The Point?**

After the four finished their greetings, the housekeeper standing by the side greeted them.

Subsequently, he asked, "The meal has already been prepared. I wonder if Madam, Second Young Master, Second Young Madam, and Miss Dou would be having the meal now or would you like to have a rest first?"

Lu Jingye would be very busy now that he has returned, so he said, "We'll eat first."

Thus, the four of them headed to the living room in the backyard.

During the meal, Mrs. Lu asked about Dou Xiangling's situation. Only after hearing that there would be no complications in the future did she relax.

After the meal, Lu Jingye sent Zi Yi and Dou Xiangling back to the Dou Family residence and he left after going in to give his greetings.

Today was a workday and most of the Dou Family members had all gone out for work. Only the First Madam and Third Madam were at home taking care of Elder Dou.

Before Zi Yi left, she only told them that she and Lu Jingye were going out to play and so, the Dou Family thought that she went on her honeymoon.

Lu Jingye had already prepared gifts for them and Zi Yi was handing the gifts over to the three of them, while she then put aside the remaining gifts. The third Madam was happy deep down, but she purposely said, "Since you two went to enjoy yourselves, you should have gone out to play. Why prepare so many gifts?"

Zi Yi smiled and answered, "Going out to play is all about buying things because otherwise, what's the point?"

The Third Madam was amused by her words and said, "What you said is indeed the truth."

The other three also laughed in response.

Everyone chatted merrily for a while more before they mentioned the fake accident that Zi Yi and Lu Jingye had been in.

Elder Hu asked, "Has Little Lu found out the mastermind behind the car accident?"

When the car accident happened, Lu Jingye gave Dou Jingning a phone call. As it was already rather late by that time, no one informed Elder Dou. He only got to know about the incident after they had come over to visit the next morning.

They did not linger at the Dou Family residence for long and they only mentioned that they would be leaving the capital in the following days, and that they would be leaving for their honeymoon in disguise, so the Dou Family did not have to worry. There would be bodyguards to protect them and no matter who asks, they should just remain silent.

“It’s the Lu Family’s enemy.” Zi Yi only revealed that piece of information.

Elder Dou was silent and he was obviously prejudiced against the Lu Family.

He said, “I heard that Little Lu’s Grandfather had a fall during your wedding night and that he has been lying in bed ever since; is that true?”

He felt that Patriarch Lu must have done it deliberately, and was trying to make the two young people feel bad deep down inside.

The other Dou Family members had the same thoughts.

Zi Yi did not wish to discuss Patriarch Lu and so, she hugged Elder Dou’s arm and said, “Grandpa, let’s not talk about this unpleasant topic, alright? I’ll tell you some happy stories.”

Following that, she talked about how she visited the training camp and played with the military dogs.

Elder Dou and her two aunts were laughing out loud by the end.

Dou Xiangling stood there and smiled as she looked at her family members. She had felt strangely relieved.

Fortunately, no one had discovered her condition before.

Dou Xiangling had remained silent all along and just then, the Third Madam asked her, “Xiangling, how come you returned together with Yiyi? Didn’t you leave to gather inspiration?”

Dou Xiangling glanced at Zi Yi and said with a smile, “I heard that Yiyi would be coming back today, so I specially arranged it so that I would be able to rush back in time. In fact, I’m rather worried about the renovations of our art gallery.”

Zi Yi nodded her head together. “We intend to get the renovations done before Chinese New Year. It would be best if we can hold an exhibition too.”

Elder Dou was very supportive of the children in the Dou Family developing their careers. He said, “Good, good. I’ll pay a visit too when you hold the exhibition.”

“Sounds good.”

Zi Yi and Dou Xiangling were very happy to hear that.

Zi Yi had remained in the Dou Family home for the whole afternoon until Lu Jingye came to fetch her at around 4:30 p.m.

The Dou Family would obviously get them to stay for dinner.

Lu Jingye did not reject them, but he told Zi Yi in private, “Mom told us to go back home to stay tonight.”

In fact, Mrs. Lu planned for everyone to have dinner tonight, but at the thought that Zi Yi went back to visit the Dou Family, she would definitely have to stay for dinner. As a result, she got Lu Jingye to fetch Zi Yi home at night instead.

Zi Yi nodded her head.

At around 5:30 p.m., the other Dou Family members returned one after another.

All of them were seated in the living room as they waited for the food to be served.

The four adults had asked about the accident and if they had found the culprit yet. They also asked what plans they had from now on.

Zi Yi had already made arrangements for her schedule in the following days. "I will be taking my exams in the following half a month and I won't be doing anything else."

Lu Jingye said, "I am currently preparing to push Song Jewelry into the international market next year."

Everyone was confident about Zi Yi taking her exams. Dou Jingning only asked a question, "Yiyi, how many scholarships do you think you can receive?"

Zi Yi was extremely confident. "Of course, it's all the majors I am studying in."

Her words immediately caused Dou Zerui to make a comment. "Yiyi, you better not be too confident. If you fail to achieve a scholarship for two majors, it would be embarrassing."

Zi Yi gave him a snort and said, "Even if your project fails, I won't fail."

"Hey, hey, hey... are you itching for a beating? How could I fail my projects?"

"Then how could I fail to obtain the scholarships?"

"..."

Dou Zerui was speechless for a moment. Zi Yi saw his appearance and purposely said, "If you aren't convinced, we might as well have a bet."

"What shall we bet?"

"If I obtain the scholarships for all my majors, you shall give me the same amount of money I will be receiving from the scholarships. If I were to fail in getting the scholarships for even one of the majors, I'll hand over all the scholarships I receive to you."

The scholarships that M.Uni hands out were eight thousand per major and since Zi Yi was taking ten majors, it was equivalent to 80 thousand.

"Then I'll just wait for you to hand over all your scholarships to me." Dou Zerui was considered to have accepted her bet.

Dou MUYANG chimed in. "We are all witnesses and so we all have a share. No matter who wins the bet, they would have to treat us."

Zi Yi smiled and said, "Sure, I'll use the money that Zerui loses to me to treat you all to an expensive meal."

Dou Zerui scoffed and said, "Some people better not refuse the terms of the bet when they lose... If I win, I'll cover for all of this year's Chinese New Year's goods."

"Second Brother, this is what you said and we are all witnesses to that."

“Yes, no matter who wins when the time comes, you are not to default on your promises.”

...

Everyone chatted merrily as they waited for dinner to be served.

After finishing dinner, Zi Yi and Lu Jingye stayed for a short while before they left.

They drove the car back to the Lu Family’s villa.

Lu Jingye was the one driving while Zi Yi sat in the passenger seat. On the way home she took out her phone to check the news.

The moment she was checking the news, she discovered that the netizens had all exploded.

She tilted her head in Lu Jingye’s direction and said, “You had held a press conference in the afternoon?”

Moreover, he was announcing that he was alive and kicking and for those people who caused the accident to wait for their retribution.

Lu Jingye had a calm expression. “Sometimes, being high-profile is also a means of pre-emptive action.”

Zi Yi thought about it and nodded her head. “I guess so. We’ll let those people panic and become anxious, and then there will be some people who are unable to sit still.”

It just so happened that they were in the open while Lu Yunxiao was in the dark. They shall let them have a taste of being attacked on both sides.

“What shall we be doing next?” Zi Yi rubbed her hands and was especially cooperative.

“It’s just going to be me and Yunxiao, this does not include you.” Lu Jingye informed her. “You only have to pay attention to your exams.”

Zi Yi nodded reluctantly and said, “Alright then, I’ll prepare some nice items for Yunxiao.”

“Okay.”

#### **Chapter 647: Our M.Uni Has Zi Yi, She Is the Specialty of M.Uni**

When the two of them arrived at the Lu Family’s villa, Mrs. Lu and the rest were currently seated in the living room waiting for them.

“Dad, Mom, Yunxiao.”

After greeting each other, Mrs. Lu waved for Zi Yi to come over. “Yiyi, come over and sit down.”

When Zi Yi sat down next to her, she took Zi Yi’s hand and the first thing she did was to put a cup of milk tea in her other hand before she said, “I thought you would be coming back late, why are the two of you back so early?”

Zi Yi smiled and said, “It’s not early anymore. It was Grandpa and my Uncles who told us to come back earlier.”

Mrs. Lu also smiled. "We should have a meal with both families one day when they're free. It can also be considered making up for the previous time you went back home in a hurry."

"Alright, I'll check with them their available dates."

After the mother-in-law and daughter-in-law exchanged a few words, Lu Jianlin spoke up in a serious tone. "The news of your return has already spread around and there will definitely be people coming to look for trouble. Little Zi, you should pay attention to your surroundings when you return to school."

Zi Yi nodded her head. "Alright, I will pay more attention."

Having said that, she lowered her head and drank a mouthful of milk tea.

Mrs. Lu was still a little worried and she said, "Why don't we arrange more bodyguards for Yiyi?"

Zi Yi hastily shook her head. "I don't want bodyguards. I have invisible robots and if something really does happen then, my robots would be able to resolve it."

In fact, Zi Yi did not wish that it would end up as her rescuing the bodyguards.

Speaking of invisible robots, Zi Yi added. "I'll make a few more invisible robots in the following days and you should bring them along with you. It's safer this way."

Lu Jingye and Lu Jianlin had witnessed the capabilities of Zi Yi's invisible robots before and they both were in agreement with her decision.

The four of them chatted until around 10:30 p.m. Lu Jianlin checked the time and said, "Everyone has work to do tomorrow and we should head to bed early."

Having said that, he stood up, and after waiting for Mrs. Lu to get up, the both of them headed upstairs.

Lu Jingye also stood up and he helped Zi Yi up. At the same time, he said to Lu Yunxiao, "Don't leave too early tomorrow morning, I have something to discuss with you then."

Lu Yunxiao nodded his head. "Alright."

The next day.

When Zi Yi drove her ostentatious racing car into the campus of M.Uni, everyone was dumbfounded.

Someone hastily rubbed their eyes. "Did my eyes just go blurry or what? I just saw the goddess' racing car driving past earlier?"

"Could it be that what you dream about at night would cause hallucinations in the day? Even in my dreams, I was hoping that the goddess had not gotten into a car accident."

"Perhaps someone else is driving the goddess' car!"

Even if they did not believe it, the school forum and the campus grounds were filled with people who were discussing this.

The target of their discussion, Zi Yi, had headed to the Archaeology Department of the School of Liberal Arts.

As she entered the gates of the Archaeology Department, everyone seemed to have been rooted to the ground with their eyes wide open.

All the classes had already ended by then and everyone was studying for their exams. When Zi Yi walked to the door of her classroom, she heard someone shouting loudly, "Everyone, quick, take a look. Someone posted on the school forum that they saw Student Zi's racing car entering M.Uni!"

The whole classroom blew up because of this.

"How is that possible? Didn't Student Zi get into a car accident?"

"It must be fake."

"Are these people too bored or what? Why are they always using the goddess as a topic of discussion?!"

Zi Yi had walked over to the door at this moment.

The pause button seemed to have been pressed, as the sound within the classroom instantly died.

Zi Yi swept her gaze across everyone and walked over to Li Xia's side and sat down before she said indifferently, "If you continue looking, your eyes might even drop out any second now."

Li Xia heard a loud chiming sound in her head.

Subsequently, she tried to poke her finger on the back of Zi Yi's hand.

In the next second, Zi Yi impolitely slapped her finger away.

PA!

"Hahahaha... Zi Yi, you're real! You aren't dead!"

When she felt the pain in the back of her hand, Li Xia was so excited that she gave Zi Yi a bear hug. She was crying and laughing at the same time like a fool.

The others had also recovered their senses from the moment Zi Yi slapped Li Xia's finger away. Following that, all of them had also cheered excitedly.

"Ahhhhh... Zi Yi, you're really alive!"

"That's great!"

When Zi Yi was surrounded by the whole class, she was thinking deep down as to when she had such a good relationship with all of them, for them to be reacting like this.

However, they did not care about Zi Yi's thoughts as they happily jumped up and down, and screamed for joy.

Soon, the news that Zi Yi was alive had spread throughout the entirety of M.Uni.

For the entire afternoon, Zi Yi seemed to have become an object that was the purpose of everyone's visit.

In the end, she could not stand such enthusiasm anymore and simply headed to the laboratory.

However, before she managed to start working on any experiments, she had been called over by the Directors of several schools.

The news of Zi Yi's return to M.Uni had caused all the teachers and students to be excited.

However, the news that Lu Jingye was alive and kicking, and had returned to the capital was considered a bolt from the blue for many people.

"How is that possible? I've seen the video of the car accident that night. It was them inside the car and the others involved in the car accident were all dead. How is it possible that they are still alive?!"

However, some people soon reacted. "Don't forget how skilled Zi Yi is in robotics."

"Could it be that Zi Yi's skills in creating robots are already at a point where it's hard to distinguish the real from the fake?"

"That must be it. The explosion of the serial car accident blew her racing car into pieces and there were many corpses at the scene. However, the higher-ups did not release any autopsy reports and there was no way we can prove that both of them were inside."

"As soon as Lu Jingye returned, he held such a high-profile press conference and issued a warning that he would definitely retaliate. In particular, those that attacked the Song Jewelry, Zi Yi's bar, and the racing club would receive their due punishment."

The more they thought about it, the more they felt that Lu Jingye would certainly take revenge against many people.

"Ha! Other than the Song Jewelry, Zi Yi's bar and racing club, he has nothing. What's more, the Lu Group has already fallen from the global stage and if we want to step on him, isn't it something that can be done in minutes?"

"However, this person is as cunning as a fox and it's safer to start with his woman instead."

1

...

Zi Yi more or less spent her whole day under the care and sympathy of the directors of various schools and a group of professors.

When finally no more directors or professors called for her, Zi Yi was walking to the laboratory and thinking about her exam schedule. She did not pay attention to the road in front of her and she suddenly heard a sharp female voice that was obviously irritated. "I said that I would get a scholarship this year and I won't go abroad. M.Uni is not worse than those foreign universities.

"Who says there's no specialty in M.Uni? Our school has Zi Yi and she is the specialty of our school."

Zi Yi: "..."

When did she become the specialty of M.Uni?

Just as Zi Yi looked over, she just so happened to make eye contact with a female student who was wearing a black down jacket and had short hair.

The female student did not expect to see Zi Yi appearing before her so suddenly and she was a little embarrassed. She hastily said to the other person on the phone. "I'm heading to take the exam, that'll be it."

She hung up the phone after she said her piece.

Zi Yi stood there and looked at the female student.

The female student was clearly also a proud person at ordinary times. When facing Zi Yi's gaze, she felt a strange feeling deep down.

The moment she felt awkward, her expression subconsciously became taut and she seemed a little unfriendly. "Did you hear everything?"

#### **Chapter 648: Junior Sister, You Went Back On Your Words**

Zi Yi looked at her inexplicably. "So what if I heard it?"

The female student choked and her cheeks instantly turned red as she said grumpily, "I will get this year's scholarship!"

Zi Yi nodded her head. "Then good luck."

She started walking forward after she said that and when she brushed past the female student's side, she thought about it and stopped to say, "I'm not M.Uni's specialty; M.Unis specialty is confidence and unwillingness to give up. If you wish to prove yourself, you should work hard."

Zi Yi left after she said her piece.

The female student suddenly looked up at Zi Yi and with her hands clenched tightly, she shouted, "Zi Yi, I am Xia Mengqi from the Chemistry Department and I'm in Year 3. I hope that I can meet you on the scholarship bulletin board!"

Zi Yi did not even turn back and responded with an 'okay' before she walked further away.

Xia Mengqi stood there for a long time and remained still.

There were many spectating students who pointed at her and said, "Your courage is commendable. Student, you just said our thoughts out loud too."

"Say, do you think Student Zi can get all the scholarships for all majors this year?"

"She's taking so many majors at one go and she would also miss class from time to time. I feel that it's a little hard."

"Even if she does not receive the scholarships, her grades will still be good."

"That's definitely the case. I heard that she can answer the questions the teachers ask without even bringing her textbooks to class and all her answers are correct."

“Then I’ll have to work harder. I feel so pressured that I am in the same year as her.”

“Me too.”

...

The time was currently when lessons were already ending and the road was filled with people.

Along the way, there was no lack of people who issued a challenge against her, and Zi Yi had answered all of them.

She originally planned to head to the School of Liberal Arts to drive her racing car and leave. However, she did not manage to walk for a long time before she received a call from Nangong Yu.

He asked for her to make a trip to the Student Union building.

Just as Zi Yi entered the Student Union’s office building, she was surrounded by a group of people.

The first thing everyone asked was about her car accident.

Zi Yi casually thought of an excuse and fed them with it.

She finally managed to reach Nangong Yu’s office room with great difficulty.

She did not expect the first words she heard from him to be: “Junior Sister, you went back on your words.”

Zi Yi tilted her head and thought for a moment. Only then did she remember that she had promised him a program during the New Year’s Eve event.

Before she had the chance to speak, Nangong Yu said with a smile, “How about this, thinking of your special circumstances, I won’t comment on it anymore. However, there will be an international college chemistry competition tomorrow and it will be held in the capital. Why don’t you take part in it too?”

Zi Yi said with a sullen face, “I will be taking the exams from tomorrow onwards.”

Nangong Yu revealed a smile that exposed his teeth. “I know, but you can solve questions relatively quickly, and plus, you have a flying racing car. The competition will be held at the Imperial University of Technology, which is not far away, and it lasts from 9 a.m to 12 p.m. I feel that you’ll definitely be able to reach there in time.”

Zi Yi narrowed her eyes and looked at him.

Her gaze caused Nangong Yu to feel a slight pressure.

He purposely put his hands on the office table and revealed a vexed expression. “I know it’s a little inhumane to ask for your help in such a short period of time, but I have no other way. It just so happens that one of the participants got acute gastroenteritis and he was sent to the hospital for emergency treatment in the middle of the night yesterday. He will definitely be unable to participate in the competition tomorrow.

“Most importantly, our M.Uni’s Chemistry... hmm... how should I say this?”

Zi Yi thought of what the seniors had said when they were removing the snow and she said, "M.Uni's Chemistry Department has always been in second place in the international competitions."

Nangong Yu was stunned for a moment before he propped up his forehead with his hand and revealed a bitter smile. "So you know about it too."

"I had some people bringing it up to me before," Zi Yi said with a calm expression. "I heard that during every international chemistry competition, our M.Uni would be mocked."

"Yes." Nangong Yu nodded his head. "Therefore, I hope that you can participate."

Zi Yi thought about it. Two to three hours would not delay her exams and so, she nodded. "Alright."

After settling this matter, Nangong Yu breathed a sigh of relief, and only then did he stand up from his seat and walk over to Zi Yi. He said with a smile, "I'll send the details of the competition to you shortly, you can go back and take a look."

He then added. "To thank you for helping the Chemistry Department, I'll treat you to dinner tonight."

Zi Yi tilted her head and looked at him as she rejected him outright. "No need, I'll be going back home to eat."

Nangong Yu did not insist either and the both of them headed outside the office.

However, they did not expect to bump into a group of Department Heads who were still loitering outside the door.

"Zi Yi, we agreed to run for the position of the Department Head previously and you went back on your words. For the New Year's Eve event, you agreed to perform and you also went back on your words." The one who spoke was Chen Yuying.

The way she looked at Zi Yi was as if she loved and hated her at the same time. She felt that this woman had no credibility at all.

The moment Zi Yi saw Chen Yuying, she thought of the previous incident related to the recruitment for choosing Department Heads. The corner of her lips curved up and she said, "When did I say I was going to run for the position of Department Head?"

"You-" Chen Yuying suddenly recalled Zi Yi saying that if she were to run for a position, it would be for the President's position. She was suddenly speechless.

Yu Meng laughed at their interaction. "So be it that you didn't promise. In any case, we have all regarded you as a member of our Student Union. In order to celebrate your well-being, we have all had a discussion to invite you out for dinner tonight. You should at the very least, give us that level of face, right?"

"That's right. We invited you to a meal before and you kept rejecting us. Today is a special situation so you have to go."

"If you don't go, we will then follow you around."

Zi Yi: "..."

Nangong Yu, who was standing behind her, laughed at their words.

He said, “Junior Sister, it seems like you can’t get away with avoiding this meal this time.”

Tang Yue started joining the commotion. “We didn’t manage to have a single wedding candy when you got married and you should be the one treating us tonight. However, as we are all big eaters and we are scared that you might run away out of fear because of the bill, it’s best that we treat you instead.”

Zi Yi was amused by his words. She thought about it and nodded her head. “Alright then, where shall we eat?”

“I know a place.” Tang Yue spoke eagerly. “Not long ago, I got a coupon for [Hai Tian Yi Se] the seafood restaurant that is highly raved about on the internet. The seafood in that restaurant is absolutely fantastic and it’s so delicious that I guarantee you would want to visit it a second time.”

“I know of this restaurant. I heard that the boss is engaged in marine aquaculture and all the seafood is delivered from the boss’ marine ranch. It is absolutely fresh and pollution-free.”

“Then what are we waiting for, let’s go and eat some seafood.”

When Nangong Yu heard how everyone was eagerly recommending this restaurant, he slightly frowned and asked Zi Yi, “Junior Sister, are you alright with seafood?”

Zi Yi lowered her eyes and thought. Even though these people have their own thoughts, their personalities were not bad and she could sense it.

However, she would get an allergic reaction if she ate many types of seafood together. One would be able to find that out as long as they checked it.

Therefore, there must be someone who purposely guided them.

At the thought of this, the smile on Zi Yi’s lips deepened and she said, “I want to eat.”

Since Zi Yi had said so, everyone happily headed to [Hai Tian Yi Se] seafood restaurant.

The restaurant was located in the business district of the university town and it was not far from M.Uni.

The appearance of the restaurant was similar to that of other restaurants. However, the moment they stepped inside, they seemed to have entered an aquarium.

After entering, there was a long and wide corridor with huge glass aquariums on both sides, which were filled with various sea creatures.

There was also an eye-catching price list on the wall.

### **Chapter 649: Seafood Restaurant**

Some people were standing by the wall of glass choosing their choice of seafood. Standing beside those people were staff members who were holding onto a notepad and writing down whatever the customers chose.

Nangong Yu asked, “Junior Zi, you can choose whatever seafood you would like to eat here.”

“I’m fine with anything.”

Since Zi Yi said that, a few of the others stayed behind to choose while the rest followed the staff inside to their seats.

After walking past the long corridor, what appeared before them were large ornaments that were in the shapes of various sea creatures. Coupled with how the interior was surrounded by large glass tanks, it made it seem as if they were in an aquarium.

The interior design of this restaurant was clearly very popular among students and couples. In particular, there were viewing platforms all around the restaurant, and around the platforms were various plants and flowers.

There were many people currently taking photos on the viewing platforms.

“How is it? The place looks nice, right?” Tang Yue grinned happily and asked Zi Yi.

She checked out the restaurant and commented. “It’s not realistic enough.”

If it was someone else who said that, everyone would only think that they were talking big and chatting nonsense.

However, when Zi Yi was the one who said that, it became different. She was able to design such a high-tech place like [Futuristic Bar], and when compared to this place, it was indeed merely so.

However, they did not come here to enjoy the view.

The staff led them to a big round table near the wall to sit and the group immediately chatted easily with one another the moment they sat down.

“Zi Yi, the position of the Marketing Department Head is vacant, do you want to take over the position?”

The Marketing Department Head was Chu Xuan. Other than the two elders in the Chu Family, all the other family members had been arrested some time back.

When they mentioned Chu Xuan, everyone started making a few more comments.

“The Chu Family is too malicious. To think that they had actually dared to poison the medicine of your patients.”

“Fortunately you had evidence, otherwise they would have gotten away with it.”

“That’s not the only thing they did. I didn’t expect the Chu Family to have evaded so many taxes. Say, Chu Xuan and Chu Xiang usually dress so nicely but then it turned out that their family’s finances came from such underhanded channels.”

When a wall is about to collapse, everyone would then start giving it a push. Besides, some of them had the intent of showing kindness to Zi Yi and so, they stood on her side and angrily denounced the Chu Family.

Zi Yi drank the tea the staff served and casually listened to them. When everyone was agitated from talking about it, she tilted her head and asked Nangong Yu, "Chu Xuan was dismissed from the Student Union?"

"Yes." Nangong Yu was also drinking tea. "They went to be disciplined and even received a severe warning. The M.Uni's Student Union could not possibly let him resume his position. What's more..."

Speaking of this, Nangong Yu suddenly paused for a moment before he looked at Zi Yi and said, "Chu Xuan and Chu Xiang have excellent grades and have won national scholarships before. Therefore, someone bailed them out and they have both transferred to another university."

There was no change in Zi Yi's expression even after she heard the story.

The others, on the other hand, were unaware that they had been bailed out and they were all surprised.

"Why didn't we know about this?"

"Which university did they transfer to? I've never heard that there were transfer students in any universities in the university town?"

Aside from other factors, Chu Xuan and Chu Xiang's appearance were considered outstanding and the M.Uni's Student Union had connections with all the other Student Unions in the university town. If both of them really transferred over, they would certainly know of it.

"Could it be that they transferred somewhere far away?"

"Or perhaps they were transferred abroad?"

Everyone was looking at Nangong Yu

He nodded his head and said, "They went to Haicheng."

Zi Yi quirked an eyebrow. She seemed to have investigated the relatives of the Chu Family before.

Chu Xuan and Chu Xiang's grandfather's family were located there.

However, what she was interested in was who had bailed them out.

She was planning to ask Ah Jing about this when she went home.

Nangong Yu did not say anything else but instead, he changed the topic to the international chemistry competition tomorrow.

Only then did they know that Zi Yi would be participating in the competition.

The Learning Department Head, Liu Junyang pushed his glasses up his nose bridge and said happily, "That's great. If Zi Yi were to participate in the chemistry competition, our nickname of forever second place can finally be removed!"

A table not far from them had overheard their conversation and one of them suddenly snickered.

“M.Uni has really regarded Zi Yi as someone who is omniscient? I don’t believe that as a liberal arts student, she can compete in a chemistry competition. Besides, this type of international competition is not like those casual experiments you conduct in school.”

Seated at the table were two people from China and two other foreigners.

The person who spoke up was one of them.

After he said his piece, he even purposely looked at Zi Yi’s table.

The other two foreigners also turned around and looked in their direction.

Another male student who had a big forehead said, “Zi Yi is also famous in our school. Now that I’ve seen her in person today, sure enough, she’s very pretty.”

His words caused the other three at his table to laugh.

One of the male students, Jiang Donghai, teased and said, “Sunny, I believe what Zi Yi is famous for in your school isn’t her appearance, right?”

The male student named Sunny, who believed himself to be handsome, swiped his fringe out of his eyes and said, “What else could it be for?”

The other three were amused by his tone of voice.

1

When the students of M.Uni entered the restaurant, they were already the focus of attention, and not to mention, they had someone who had a natural halo within their group.

They were not the only table talking about them. There were also many other people talking and sneaking a peek at Zi Yi.

“No wonder she married into a rich family. Second Young Master Lu is surely capable. They got into a car accident and yet, they managed to deceive the whole world and appear as and when they like.”

“Sure enough, being pretty is a good thing. Now that she has married into a rich family, she would be a Madam from a rich family. If it were me, I would have already quit school and gone to do whatever I like.”

1

“If it were me, I would rely solely on my appearance to fill my belly.”

“Didn’t she rely on that face of hers to marry into a rich family?”

...

“Zi Yi, is your exam timetable different from ours?”

After the group who was responsible for ordering came back, everyone sat down and chatted as they waited for the food to be served.

Zi Yi casually answered, “Yes.”

All of them were extremely curious.

“Do tell us how your examination timetable is arranged. Don’t tell me you will be taking exams for the entirety of next month?”

“No, I only have 10 days for which I have exams.”

“Ah? Didn’t you take up 10 majors? Can you finish all the exams in 10 days?”

“Yes.”

Zi Yi did not wish to continue on this topic. She looked at the wall that was built like a fish tank and casually asked, “Is the fish tank inside connected to here? With so much water and fish, can the wall withstand it?”

“Oh, I know about this.” As the Public Relations Department Head, Tang Yue had gone around to ask for sponsors and so, he had done his research on many places around M.Uni. “Aren’t there three floors in this building? However, when we came in, there was only a single floor. It’s said that the boss is an outstanding graduate of the physics major and he used...”

The more Tang Yue talked, the more excited he got and everyone listened with relish.

After Tang Yue finished his explanation, Nangong Yu suddenly asked Zi Yi, “Junior Zi, you seem to be rather interested in the place?”

“Of course I’m interested.” Zi Yi pointed at the sea creatures behind the walls. “It’s my first time seeing a restaurant with such a large variety of fresh seafood.”

She then asked Tang Yue, “What’s behind this shop?”

“Oh, I don’t know about that.” Who would check out the back unless they had nothing better to do?

Just then, they saw two staff members carrying a large seafood platter over.

Behind the two staff members was a young man wearing tight leather pants and Dr. Marten boots. He was wearing a leopard print shirt while playing around with two walnuts in his hands. That attire of his seemed to be saying: ‘I am very rich’.

### **Chapter 650: She Is Only Allergic When She Consumes a Variety of Seafood Together**

The young man walked to the back of Zi Yi and Nangong Yu’s chairs under everyone’s gaze. One of his hands was placed on the back of Nangong Yu’s chair while his other hand played with the walnuts. The first thing he did was to say hello to Tang Yue. “Department Head Tang, why didn’t you say hello in advance before coming to my place for dinner?”

Without waiting for Tang Yue to respond, his gaze swept past everyone else and fell onto Zi Yi’s side view. The corner of his lips curved up and he asked, “Surely you must be the famous Zi Yi of the M.Uni?”

Zi Yi only slightly tilted her head to glance at him and she did not answer.

The man did not get angry either and the smirk on his face deepened. "It's rare to see so many M.Uni's Student Union Department Heads gathered together and not to mention, Zi Yi is also here. How about it, the dinner shall be on me tonight..."

He stood up straight and said to the staff members next to him, "Serve them another plate of our restaurant's signature seafood platter."

He then said to the table, "Everyone, you can slowly enjoy your food and if it's not enough, get the staff members to add to it, as it's all on me."

He gave Zi Yi a meaningful look after that and he turned around as he walked away at a natural and unrestrained pace.

Xu Qingfeng headed to one of the cabins at the back that was not open to the public. He pushed open the door and was met with an eager question. "Did that woman eat yet?"

Xu Qingfeng played around with the walnuts. He looked at that man who had an elegant appearance before him and yet, currently looked rather anxious, and he slowly made his way over without the slightest anxiousness. "What's the hurry? The food was just served and since she's here and hadn't refused those friends of hers, she will definitely eat."

"She would only get an allergic reaction when she consumes a variety of seafood together. If she only eats one type of seafood, then wouldn't our plan fail?"

"Don't worry." Xu Qingfeng went over to a single-seater sofa next to him and sat down with both hands resting on the armrest. He then put up his legs and said, "I've told the manager to serve them another platter of seafood. With so many of her classmates persuading her, I don't believe she would not eat a variety."

He Chao breathed a sigh of relief. "It had better be that she will eat them."

1

Xu Qingfeng's legs dangled and he casually asked, "The Second Young Master Lu's woman is allergic to seafood and now that you're plotting against her, do you think the Second Young Master Lu would not find that you're the mastermind if something really happened to her?"

He Chao smiled and a glint flickered in his eyes that were hidden behind his glasses. "Why would he find out that it's me? You were the one who served them the seafood."

The smile on Xu Qingfeng's face disappeared and a cold glint flashed past his eyes. The next second, his feet kicked the short table and his expression changed just like that. "You motherf\*\*king tried to set me up?"

He Chao looked at the table that had flown out at least a meter or so. He pushed his glasses up his nose bridge and with a calm expression, he said, "I was only joking with you, why take it so seriously?"

He then added. "Even if Lu Jingye were to investigate, he would not associate the incident with us. It was those students who brought that woman here and she was also the one who wanted to eat on her own accord. What does that have to do with us?"

1

Only then was Xu Qingfeng satisfied. He turned his face to face him and continued playing with the walnuts as he threatened. "The thing I hate the most is being threatened. You came here today only to have a meal and you better remember this clearly. Also, you had better do what you promised me."

"Don't worry, my mouth isn't that loose." He Chao looked at him and suddenly asked, "But I'm pretty surprised that you were willing to cooperate with me. Who isn't aware that the Third Young Master Xu has a good relationship with Second Young Master Lu?"

"You're asking too many questions." Xu Qingfeng pointed at the door. "If you're worried, you can head over to the hall to keep guard. You're not welcomed here."

He Chao glanced at Xu Qingfeng who had suddenly changed face and he did not get angry either. He stood up and headed outside.

After closing the door, Xu Qingfeng took out his phone leisurely and dialed a number.

When the other party answered the call, he slowly said, "The He Family has taken action against your woman and he came here to ask for cooperation to let her have an allergic reaction."

After a pause he then said to the other person on the phone, "With how calm your tone sounds, I guess that her allergy has been cured long ago?"

The person on the other end responded and Xu Qingfeng said, "Nothing much, I only wanted to ask who would be footing the bill for your woman and her friends?"

"Me? On what basis?"

"Alright then, don't forget what you promised me."

After hanging up the phone, Xu Qingfeng stood up with the corners of his lips curved up as he leisurely strolled into the hall.

In the hall.

After Xu Qingfeng left, Yu Meng muttered, "Why do I feel that this boss is a little strange?"

"You aren't the only one," Chen Yuying said, "This person should have specially come to see Zi Yi.

Everyone shifted their attention to Zi Yi's face.

Zi Yi gave them a glance and said indifferently, "There are many people who would find an excuse to take a look at me. It just so happens that this person is the boss of this restaurant."

Everyone present: "..."

There doesn't seem to be anything wrong with her words...

Only then did Tang Yue have the opportunity to tell everyone about the boss's name and background. "His name is Xu Qingfeng and I heard that he has a strong background. Perhaps he is acquainted with Junior Zi's husband?"

After Zi Yi got married, everyone knew that her husband was Lu Jingye from the Lu Family in the capital.

Zi Yi did not express an opinion and the others had accepted Tang Yue's guess.

"Since that's the case, Boss Xu should just be curious. He didn't do anything and even treated us to a meal." Tang Zhiyuan picked up his chopsticks and said, "Let's not waste such a good opportunity for a free meal. Come on, let's eat whatever we like."

Everyone had started salivating at the sight of the seafood platter on the table. After Tang Zhiyuan said that, all of them immediately started feasting.

Not long after they started eating, another few staff members had served them different types of seafood.

"Dear customers, these seafoods are what our boss has instructed us to serve you. The boss said that you can order whatever you like."

The manager came over and asked enthusiastically, "I wonder if you would like to order any drinks? We have low-alcohol content drinks and cocktails."

"Boss Xu is too generous!" Wu Jiang sighed. "Isn't Boss Xu worried that we would eat until he goes bankrupt?"

The manager smiled and said, "There's no need to worry. The seafood and alcohol here are only considered as side cash for the Boss."

"So rich!" A few of the female students became starry-eyed.

Zi Yi picked up the chopsticks and placed one of the shrimps into her bowl. She wore the gloves and peeled off the shell before eating it.

Subsequently, she then grabbed a red tiger crab and placed it on her plate.

Just then, Nangong Yu suddenly asked in a whisper, "Junior Zi, is it alright for you to eat like this?"

Zi Yi tilted her head and looked at him.

Nangong Yu pointed at the red tiger crab on her plate and kindly suggested. "Why don't you just eat prawns only?"

Zi Yi lowered her eyes and thought for a second before she suddenly smirked and asked, "How would you know that if I eat different types of seafood I wouldn't be fine?"

Nangong Yu paused for a moment and said, "Then it's best that you just stick to shrimps."

"It's fine."

Zi Yi opened the red tiger crab shell and looked at the crab roe and red flesh, she said, "To be able to eat such delicious seafood at Boss Xu's shop during this period of time, I will be letting my stomach down if I don't eat it."

Nangong Yu looked at her expression for a few seconds before nodding his head and turning away as he continued eating.

Zi Yi ate for some time and suddenly, she put down her chopsticks and said to everyone, "I'm going to the washroom."

She left towards the main entrance as soon as she said that and immediately went into the washroom.

Just as she entered the washroom, the voice of someone stopping other customers from entering could be heard. "Sorry, this washroom is closed, please head to the other washroom."
