

## Multi skilled 661

### Chapter 661: It Was the Men Lu Jingye Sent Who Killed Him

Second Master He did not expect his elder brother to be so obstinate and he said, "Brother, you're sick. I have found a doctor for you."

"Who is sick? What doctor?! I'm perfectly fine!" The moment Eldest Master He heard what he said, he struggled to stand up and his eyes were filled with a bloodthirsty glint. "Brother, have you been bought over by Lu Jingye, that's why you're doing this to me?!"

"Brother, how could you think like that?"

After Second Master He said that, he turned around and called in the Gu Master he had secretly invited over from Southern Xinjiang.

He did not tell anyone about this, as he only wanted to quietly cure his eldest brother's illness.

When Eldest Master He saw that Second Master He was really going to call for a doctor, he seemed to have also guessed something and said fiercely, "Brother, if you dare to call for the person you found, don't blame me for being ruthless!"

Second Master He did not even turn back as he said, "As long as your illness can be cured, you can do whatever you want with me."

Having said that, he had reached the door.

However, a sudden whistle sound aimed for his back.

Whoosh

A sharp weapon went straight for Second Master He's heart.

His body staggered and he propped himself on the door with one hand. He struggled to turn back and look at the foreigner standing next to Eldest Master He who had terrifying paint drawn on his face. Second Master He's eyes were filled with disbelief and fear.

"Brother, you..."

Whoosh!

Second Master He did not even manage to get his words out and he collapsed.

A few seconds later, he was dead.

Eldest Master He looked at his younger brother who had died in front of him and his body could not help but tremble. He suddenly turned around and looked at the man standing next to him with red eyes. He felt as if a knife was pierced into his heart and he stared at the foreigner with widened eyes.

"It wasn't me." The man's voice was frighteningly cold. "It was the men Lu Jingye sent who killed him."

As soon as the man said that, he walked over and collected the sharp weapon lodged in Second Master He's back. He then turned to look at Eldest Master He who had an extremely ugly expression on his face.

There was an undisguised threat in his voice. "If it was not the men Lu Jingye sent who killed your brother, then you can bear the blame. After all, there are witnesses."

Elders Master He's body shivered. He stared at the man before him with red eyes, but the very next second, he was frightened by the chilliness in the foreigner's eyes and he hastily looked away.

The man added. "Don't forget that you can only listen to me now. Otherwise, I don't know who will be the next casualty in your He Family... Your grandson looks adorable..."

"No- he was killed by Lu Jingye! He was killed by Lu Jingye!" Elders Master He's brain seemed to have been hit hard by a hammer and he was so frightened that even his voice had changed.

When the news of Second Master He getting killed by the men Lu Jingye sent was released, the whole high society in the capital could not remain calm.

The He Family asked Lu Jingye to pay with his life and they had officially had a falling out with the Lu Family at the same time.

Other than the He Family, something also happened to the Lu Family.

Under Elder Hu's treatment, the parasite in Patriarch Lu was finally removed. However, as the parasite had harmed Patriarch Lu's brain nerves, it resulted in his intellect being reduced to that of a child who was only a few years old.

They originally thought that Patriarch Lu would not be too overbearing.

However, they did not expect him to be very overbearing from a young age. Moreover, he was also unreasonable when he was a child and he had tortured the First and the Third family to a miserable state.

The First Madam had been taking care of the old man and even though she did not say anything on the surface, she was becoming increasingly discontent with Patriarch Lu. Coupled with the incident with her son, she would make enigmatic remarks toward Mrs. Lu who would return home to visit Patriarch Lu from time to time.

"My second sister-in-law is surely leisurely. She only has to come back and visit when Father is sick. Right now, I still have to take care of the whole of the main residence and also care for Patriarch Lu and my son."

Speaking of this, she started wiping her tears and wept. "My son has already ended up like that and my heart aches so much when I see him every day. Besides, Father's temper is even worse than before, and often at times, I wish that I could just die."

The more she spoke, the sadder she got. Slowly, her tone of voice was filled with accusations and complaints. "Jingye and Zi Yi are too much. Their Grandfather is already in such a state and they don't even bother to return home to visit him. Second sister-in-law, I'm not trying to reprimand you, but no matter how Father had acted in the past, now that he's in such a condition, how can they still be so cruel and not come and visit? Do you know how the outside world is talking about the Lu Family?"

Mrs. Lu sneered deep down inside.

*“Weren’t you the cause of everything that has happened? What rights do you have now to make such accusations?”*

She did not make it obvious on the surface and even explained. “Jingye has come back to visit Father. Yiyi has been busy with her exams recently.”

“I don’t believe she can’t even spare a short amount of time to visit Father!” The First Madam had been unable to find a chance to get back at Zi Yi for threatening Lu Zhiheng and she was already anxious at that. “Even if she came to visit in the evening, other people would not say that our Lu Family’s daughter-in-law is unfilial!”

Her words made Mrs. Lu unhappy. “At the beginning, none of you had admitted Yiyi as the Lu Family’s daughter-in-law and so why didn’t you say that you were afraid of what the outside world would say? Now that you’re trying to push such accusations onto our Yiyi, it’s really ridiculous.”

Each and every word of Mrs. Lu was sharp like a needle. The First Madam was agitated deep down and as they exchanged words like that, they started arguing.

In the end, it was Eldest Master Lu and Second Master Lu who returned home and stopped them.

How could the First Madam feel good when she did not manage to achieve her goal? In addition, she had been angered by Mrs. Lu so much that her liver ached. Thus, she vented her anger and abandoned everything, and went straight back to her room to lie down.

When it was almost time for dinner, no one came to coax her.

The more she thought about it, the angrier she got. Just then, her door was pushed open.

The First Madam thought that it was her daughter-in-law and so, she said grumpily, “Yuelan, don’t call for me. I won’t eat tonight!”

Unexpectedly, there was no response.

The First Madam found it weird and was about to turn around to take a look.

However, her eyes went dark.

Just as she was in a panic, a soothing voice suddenly sounded in her ears. “Don’t worry, you only fell asleep.”

The First Madam found it weird and funny at the same time. Was this person treating her as a child?

Just then, the voice sounded again. “If you want Zi Yi to come over, it’s easy. All you have to do is just put this bottle of medicine into Patriarch Lu’s food. When the time comes, Lu Jingye and Zi Yi would have no choice but to return.”

The First Madam wanted to talk, but she found herself unable to speak at all.

She got a fright deep down inside.

The voice sounded once again. “This medicine can make people obey you and if you get Patriarch Lu to eat this, he can only do whatever you ask of him.”

The First Madam felt a string snapping in her mind.

Even in her dreams, she would dream of Patriarch Lu listening to her words.

At the thought of this, the First Madam shivered and she suddenly opened her eyes.

The next second, she saw the medicine that was put in front of her.

She hastily checked her surroundings to see if there was anyone.

The First Madam rolled over and took a look around. There was not a single soul in her room. She got out of bed and headed over to open the door. Even after checking the vicinity, there was still no one around.

She quickly returned to the bedroom. Looking at the bottle of medicine on her bed, her heartbeat unconsciously sped up.

“Is it really capable of making him obedient?” The First Madam walked over and held the bottle in her palm tightly and raised her lips into a smile. “If the old man takes this medicine, then wouldn’t it mean that everyone in the Lu Family would only listen to me in the future?”

#### **Chapter 662: I’ve Always Had a Question. Why Didn’t You Study At a Military and Political University?**

When the First Madam drugged the soup and brought it to Patriarch Lu, she had been exposed by Second Master Lu.

The Lu Family was in chaos.

Of course, Lu Jingye didn’t tell Zi Yi about these things.

The ten days of exams had passed by very quickly. When other M.Uni students entered into exam mode, Zi Yi had already finished the exams for all her majors.

After the exams, it could be considered the start of the holiday.

On the last afternoon of her exam, Nangong Yu gave Zi Yi a call for her to make a trip down to the Student Union.

The Student Union during this period of time was quieter than usual.

Everyone was busy revising for the exams.

Zi Yi walked to the President’s office and noticed that the door was slightly ajar, and Nangong Yu making a call on the phone could be heard.

She knocked on the door.

Nangong Yu’s voice came from inside. “Come in.”

Zi Yi pushed open the door and Nangong Yu said to the other party, “That’ll be it for this. Bye now.”

He then disconnected the call and looked at Zi Yi with a smile. First, he casually asked a question, “Junior Zi, how were your exams?”

He pointed at the seat and said, "Take a seat."

He then went away to pour a cup of water for Zi Yi.

She took the cup and said, "They were alright."

Nangong Yu believed in Zi Yi's capabilities and so, he did not continue on this topic. Instead, he suddenly said, "Junior Zi should have already managed to guess the situation in my family?"

Zi Yi tilted her head and looked at him, as she found it strange.

Nangong Yu smiled. "I called you over because I have something to discuss with you."

He then added. "It's something that is inconvenient for the higher-ups to discuss with you at present."

Nangong Yu's identity was very special and only the Dean of M.Uni knew of it. However, he somehow knew that Zi Yi must have already guessed it.

Zi Yi did not immediately speak, instead, she took a sip of water before she asked, "I've always had a question. Why didn't you study at a Military and Political University?"

"Because M.Uni's biology major is good."

Nangong Yu was clearly a Year 3 student but he had been following a special professor and doing research in this field for a while.

Zi Yi nodded her head. "You can tell me the purpose of calling me over today."

When Nangong Yu heard how frank she was, he did not continue beating around the bush and said, "There's a very important biological project the higher-ups are planning to start. I would like to invite you to join this group."

"What project?"

"It's related to biological weapons."

...

Zi Yi did not stay in Nangong Yu's office for too long. By the time she came out of the Student Union office, Dou Xiangling just so happened to call her.

Dou Xiangling was still at the art gallery and she knew that Zi Yi had finished her exams today, so she asked if Zi Yi wanted to make a trip to the art gallery to check the renovation situation there.

Zi Yi agreed to it. After telling her a time she would be heading there, she hung up the phone.

She walked to her racing car and was planning to go home.

She got in the car and turned on autopilot mode before she gave Lu Jingye a call.

He had been extremely busy these days and he would only come home at the earliest after 10 p.m. every day.

The call was soon connected and Lu Jingye's calm voice sounded. "Yiyi."

Zi Yi's lips unconsciously raised up. "Ah Jing, where are you?"

"I'm at the Song Jewelry's Head Office." Lu Jingye paused for two seconds and asked, "Do you want to come over?"

Zi Yi replied hastily, "Yes."

Lu Jingye lightly chuckled. He was clearly busy on the other end as someone called for him just then.

Zi Yi said, "Then I'll come find you right away."

After hanging up the phone Zi Yi changed the destination to the Song Jewelry Head Office.

The capital had a street that was specially designed to accommodate jewelry stores. There were hundreds of jewelry stores of big and small sizes and all of them were big local and international brands.

By the time Zi Yi headed over, the skies had already turned grey.

However, in big cities, the majority of the people are working during the day and they would visit jewelry shops at night.

Therefore, it was around the time when the street became bustling.

The Song Jewelry was a relatively famous old brand and it mainly dealt in jade and gold jewelry. The Head Office was a three-story building and it occupied a large area. It had a slight resemblance to the Ming Dynasty architecture and the interior decorations were also very imperial-like.

Compared to the modern architecture beside it, it looked particularly conspicuous.

The jewelry store was several steps higher than the road. At this time, there were cars parked around all the other jewelry stores and only the Song Jewelry store still had vacant parking lots.

After Zi Yi parked her car, she saw a familiar figure coming out of the shop.

It was Lu Jingye's secretary, Shao Hua.

He saw Zi Yi at a glance. He pushed up his spectacles and came down the stairs.

"Mrs. President."

Zi Yi turned around and looked at Shao Hua. This person was always wearing a suit and looked meticulous, giving off the aura of an elite.

Shao Hua said, "The President is a little busy right now and he told me to pick you up."

"Okay."

The two of them walked towards the steps.

After entering the jewelry shop, Zi Yi was a little surprised. "Why aren't there any customers?"

"There are many rumors floating around recently," Shao Hua briefly said, "Second Master He is dead and rumor has it that it was the President who sent someone to kill him. Thus, the He Family is currently suppressing Song Jewelry."

1

Shao Hua was Lu Jingye's assistant and he had also developed a calm expression in the face of shocking and big events. His tone of voice was rather calm when he told her the story.

Zi Yi did not say anything else and followed Shao Hua towards the third floor.

When walking into the building, all the shop's assistants had respectfully greeted her. Even though they had not personally seen Zi Yi before, they were no strangers to her online.

However, when she and Shao Hua walked past, the shop assistants could not help but marvel. "Mrs. President is so beautiful!" "Mr. President and Mrs. President are well-matched."

The first and second floor of the building was the sales area, while the third floor was an office.

After exiting the lift, what appeared before them was a large office area with two rows of rooms behind it. It was separated by a corridor in the middle.

The President's office had occupied the whole of the left area and there were several offices on the right.

Shao Hua brought Zi Yi to the President's office and knocked on the door. After pushing open the door, he said, "Mrs. President, if you need anything, feel free to call for me anytime. I'll be right outside."

Zi Yi nodded her head and opened the door fully as she made her way inside.

Lu Jingye was currently having a video conference.

At the sight of Zi Yi coming in, his voice unconsciously softened. "There is food on the table, you can have some to ease your hunger first. I'll take at most another 20 minutes here and then we'll get dinner after my meeting."

"Okay."

Zi Yi went over and sat down as she took out her phone to scroll through while she ate the cakes.

She had not been checking what was happening on the internet these days and she had only realized how hectic it was outside.

Lu Jingye did not take care of the He Family's matter and it was clearly intentional.

What surprised her was the incident with the First Madam.

When Lu Jingye said that he would take 20 minutes at the most, he had really ended the video conference in 20 minutes.

He glanced at the young lady who had taken off her shoes and was playing with her phone as she curled herself up on the sofa. He stood up and went over to her.

Zi Yi only noticed him when Lu Jingye came closer.

Lu Jingye leaned over and wiped off a cake crumb from the corner of her lips. "Are you hungry?"

Zi Yi touched her belly and realized that she had unconsciously eaten too much earlier.

Lu Jingye knew of her thoughts the moment he saw her action and he simply sat next to her.

Zi Yi fed him the half-eaten cake in her hand and leaned on his shoulders. "Ah Jing, what happened at the main residence?"

### **Chapter 663: Don't Move Your Hands On My Waist**

Lu Jingye was worried that she would fall down and so, he held her waist as he told her what had happened.

After Zi Yi finished listening to the story, she asked, "Have you caught the person who contacted the Eldest Aunt?"

"I haven't yet. But Yunxiao is currently monitoring him."

"When Eldest Aunt was exposed on the spot, what reaction did Eldest Uncle have?"

"He sent her to a house outside."

"He only did that?"

Zi Yi was a little surprised that Eldest Master Lu did that.

Lu Jingye nodded his head and said, "Eldest Aunt's desire to control is very strong and having her live outside is equivalent to depriving her of the right to take charge of the main residence. This type of punishment is better than others and also..."

Speaking of this, Lu Jingye had paused for a few seconds before he continued speaking, "Allowing her to live outside can help to fish out the big fish in the dark."

The man behind the scenes had always been aiming to bring down the Lu Family and he would definitely start with the First Madam who was the easiest to take care of.

Zi Yi nodded her head and thought for a moment. "There's also Lu Zhiheng and his wife. I feel that Eldest Aunt would definitely instigate them to do something."

"Yes."

Lu Jingye and the rest had also thought about this issue. His hand holding onto her waist moved around as he said, "We can ignore this matter. Father and Yunxiao will take care of it on their side."

Zi Yi's waist was very sensitive and when Lu Jingye's fingers moved, her body shivered and her waist went soft. She ended up falling toward Lu Jingye and he caught her.

Zi Yi held onto his neck and blushed slightly as she said, "Don't move your hands around my waist."

Traces of a smile flashed past Lu Jingye's eyes and he said without any sincerity, "Sorry."

How could Zi Yi not discern that? She tightened her grip around the back of his neck, raised her head, and kissed his Adam's apple.

In the end, she even stuck out her tongue and licked it.

The next second, Lu Jingye's grip on her waist tightened, but there was no other action.

Zi Yi increased the distance between them and looking into his eyes that seemed deeper than usual, she released a satisfied smile.

Lu Jingye's eyes stared at her lips while her Adam's apple bobbed up and down. He used his hoarse voice and said some serious words, "Do you want to go for dinner now?"

Zi Yi's lips curled up. She raised her head and approached him again. When there was about a two-centimeter distance between them, she whispered, "I don't feel like eating dinner. I want to eat--"

She did not manage to get the last word out, as Lu Jingye had pressed his lips onto her lips.

After an in-depth exchange between their tongues ended, Zi Yi sat breathlessly in Lu Jingye's arms.

His slightly hoarse voice sounded in her ear. "Do you want to eat dinner now?"

Zi Yi looked up and smiled; she reached out her hands and put them on his waist.

Subsequently, she put her hands under his clothes.

The shirt Lu Jingye was wearing underneath his suit jacket had been tucked into his pants. Zi Yi pulled out the shirt, slipped her hands inside and caressed his waist.

Lu Jingye had a narrow but strong waist and his skin was firm, which was a sharp contrast with the softness of her hands.

Zi Yi looked at him with a smile as she touched him.

Lu Jingye knew that she did it intentionally. He controlled his impulse and lowered his head to bite her lips as a punishment.

His voice was deep and hoarse and he breathed out hot air. "Naughty girl. Are you banking on the fact that I won't do anything to you outside?"

Zi Yi raised her chin and she smiled charmingly. "That's right~"

Lu Jingye's hand had also reached into her dress and his palms rubbed her waist. Just when Zi Yi was unable to take it anymore and her waist was trembling, his thumb pressed a certain spot on her waist.

Zi Yi released a moan and her body turned soft.

Lu Jingye lifted her up and put her down on the sofa before he bent down. The first thing he did was to give her a passionate french kiss before he pulled her up and arranged her messy clothes. Subsequently, he held her waist and led her towards the door.

Zi Yi's cheeks were flushed red and there was a little gleam of tears in her eyes. Her appearance was simply enchanting. When Lu Jingye arrived at the door, he suddenly stopped and spread out his coat to cover her head, thus blocking the view of her face.

He then opened the door and met with Shao Hua who had just come out from the opposite office.

Just as Shao Hua was about to speak, Lu Jingye said, "If there's anything, tell me tomorrow."

The both of them left after that.

Shao Hua looked at Zi Yi, whose face was covered and she was basically being hugged from behind as they walked away. He pushed the spectacles on the nose of his bridge and took out his phone to get someone to deliver his dinner.

After hanging up the phone, he sighed deep down inside.

Sure enough, a beautiful woman would cause one to delay his work. Boss said that he would work overtime tonight but the moment the lady boss arrived, he changed his mind.

Zi Yi and Lu Jingye originally planned to go home for dinner. As soon as their car drove out, they received Mrs. Lu's call.

Zi Yi's exams ended today and Mrs. Lu wanted them to stay over for a few days.

Thus the two of them headed to the Lu Family's residence.

It was already around 6 p.m. at that time. When the both of them went in, they saw Lu Jianlin reading the newspaper on the sofa, while Mrs. Lu was cooking milk tea.

The moment Zi Yi went in, she smelled the scent of milk tea.

"Dad, Mom."

She called out to them sweetly and Zi Yi subconsciously headed to where Mrs. Lu was.

Mrs. Lu smiled and said, "You returned just in time. The milk tea is almost done."

Zi Yi walked over and watched as Mrs. Lu prepared the milk tea. She was currently pouring cherry juice into the pot and at the same time, she moved the plate of remaining cherries to Zi Yi. "These cherries were just shipped from the other side of the peninsula. They were just picked in the morning and they're very fresh. Have a taste."

Zi Yi ate one of the cherries and said, "It's sweet."

After she finished one cherry, she took another cherry and fed Mrs. Lu.

Mrs. Lu tilted her head to the side and spit the seed into the trash bin. "You've been working so hard for your exams these past 10 days, come stay with me for the coming days? That way, I will be able to prepare some tonic soup for you to nourish your body too."

Mrs. Lu felt that Zi Yi had starved herself during this period of time.

Zi Yi was originally planning to do something before heading to Country Em with Lu Jingye. However, after hearing what Mrs. Lu said, she thought for a moment before replying, "Then I'll go back home to do my experiments during the day and at night, Ah Jing and I will come over and stay."

Mrs. Lu knew that she was busy and she was very satisfied to hear that.

Just as the milk tea was done, Mrs. Lu poured a cup for her.

Zi Yi lifted the cup and impatiently took a sip. The next second, she seemed to have scalded her tongue, as she stuck out her tongue before she continued drinking another sip.

Mrs. Lu found her little gestures adorable and lifted her hand to stroke her head. "Drink slowly, don't scald yourself."

Zi Yi looked up at her. "The milk tea Mom cooks is really delicious. It's the best that I have ever tasted."

Mrs. Lu instantly felt elated.

The father and son seated on the sofa looked away and Lu Jianlin shook the newspaper in his hands. He did not turn the page and instead, he asked Lu Jingye, "When do you plan to release the evidence related to the He Family?"

Lu Jingye had already made plans in advance. "After I leave the capital."

The He Family was insisting that Lu Jingye had killed Second Master He. Lu Jingye did not admit it, but he had not done anything else, which caused there to be more and more rumors being spread outside.

Everyone felt that Lu Jingye was admitting to it by remaining silent.

Therefore, the scene of no customers patronizing the Song Jewelry could be seen.

"Many jewelry companies are also preparing in the dark recently. It just so happens that Country Em's yearly opening of its mine is going to happen soon. I'll play with them then," Lu Jingye said.

#### **Chapter 664: You've Been Playing With These For At Least Three Hours, It's Bad For Your Eyes**

Lu Jingye had been like this since he was a child. Before he did anything, he would make a meticulous plan in advance, and not to mention, he was very resourceful. He was able to defeat the opponent without any commotion.

Lu Jianlin was not worried that the Song Jewelry would be defeated by the other companies and thus, he did not continue on this topic.

Just then, Mrs. Lu and Zi Yi each brought a cup of milk tea out and came over.

After Mrs. Lu sat down next to Lu Jianlin, she suddenly asked, "Second Master He is dead and his son, He Fei hasn't come back yet?"

Mrs. Lu had seen He Fei before in the past and even though he seemed playful, he was not bad in nature. Not to mention he was an emotional person and according to reason, he should have rushed back home the first instance something so big happened.

Lu Jingye knew the reason for this. "He and Ouyang Ming went to do business at the Golden Triangle but they have been detained."

Thus, it was possible that He Fei was completely unaware of the things that happened at home.

Perhaps he had already known of it, but it was just that he was unable to return.

Lu Jingye did not say that part out loud, but everyone managed to guess it.

Mrs. Lu only sighed and changed the topic. She said in a complaining tone of voice, "Yunxiao disappeared from our sight as soon as he returned and his body has yet to completely recover. Why did you send him out for a mission so early?"

Her last sentence was clearly complaining about Lu Jianlin.

Lu Jianlin raised his hand and patted her hand, as if trying to comfort her. "We must try to find out the person who harmed Yunxiao as soon as possible. Otherwise, it would be even more troublesome if things are delayed. It just so happens that we have Little Zi's robot disguising as him openly and it's much more convenient for him to investigate things this way."

Mrs. Lu was still worried in her heart and she asked Lu Jingye, "Jingye, will Yunxiao be going to Country Em together with you?"

"He will be heading to the Golden Triangle."

The moment Mrs. Lu heard of the Golden Triangle, she furrowed her brow. "That's where all the drug and arms bosses are gathered, right? Wouldn't it be dangerous for him to go there?"

"Little Zi has prepared invisible robots for him and so he will not be in danger. What's more, we will also be heading there afterwards."

Mrs. Lu turned to look at Zi Yi.

She nodded her head and said, "That's right, I will also prepare a few more invisible robots these days and get Yunxiao to bring them along with him when the time comes."

Only then did Mrs. Lu feel slightly at ease.

The four of them chatted for some time and the dinner was soon served.

After dinner, Zi Yi accompanied Mrs. Lu to the backyard to take a stroll.

There was no snow for the past two days, but the temperature was still low.

There were many different roses planted in the backyard and also several varieties of climbing roses. As the weather was chilly, the roses were not in bloom.

Mrs. Lu was worried about Zi Yi tagging along and kept reminding her to protect herself well. She even said that if she was unaccustomed to the food outside, she should get Lu Jingye to cook for her.

After she talked for some time, Mrs. Lu suddenly thought of something and said, "Before you leave the capital, let's have a meal together with the Dou Family.

"You can ask them when they are free. Your Grandfather has yet to completely recover and we should be the ones visiting him."

"Alright."

At 9 p.m. Zi Yi returned to Lu Jingye's bedroom.

Lu Jingye was still in the study room together with Lu Jianlin and they had yet to come out.

Zi Yi changed into her pajamas after taking a bath and she sat on the bed and scrolled through her phone.

Her energy company in Country X had been doing well recently and with the new energy source it had developed, many large international companies had expressed their interest in working together with her. It could be considered a hot commodity.

Zi Yi thought for a moment and wrote a new set of energy source data and sent it to Zhou Shiyu.

The two of them then discussed which areas this new energy source would be invested into.

After they finished their discussion, Zi Yi asked Zhou Shiyu, "How's the progress of finding new racers going on your younger brother's side?"

Ever since that proud and awkward man, Zhou Shijin went out to search for racers, he had never contacted Zi Yi again.

Since Zi Yi did not have time, she also let him be.

It just so happened that she thought of him and casually asked.

Zhou Shiyu said, "It's not going too smoothly on his side."

Zi Yi did not say anything after hearing that.

Zhou Shiyu asked another question, "If Shijin were to find some racers from abroad, would you be alright with them?"

Zi Yi thought about it and said, "The racers I want don't need to be famous, but they must be willing to work hard. Moreover, they should not have other thoughts."

Zhou Shiyu was silent for a moment before he nodded his head. "I will help him check them out when the time comes."

Zi Yi smiled and the both of them exchanged a few more words before hanging up the phone.

Following that, she contacted Ian.

It was currently morning in Country M and Ian was wearing a white suit. He already had a fair skin tone and a handsome appearance. Now that he wore a white suit, his dazzling blond hair was illuminated by the morning light, making it seem as if he was glowing.

"Hi Zi." Ian greeted her in an upbeat tone and from the looks of it, he was in a good mood.

Zi Yi had no intention to exchange pleasantries with him and she went straight to the topic. "How's the construction of my research base?"

Ian raised his eyebrows and smiled. "I just arrived there, you can have a look at it yourself."

He then turned on the camera and showed her the research base that was under construction.

The foundation had already been done and through the screen, she could see potholes everywhere with no end to the sight.

Sometime later, Ian switched the camera to his front facing camera. "I have purchased all the farms in the vicinity and your research base can expand a bit more."

Zi Yi also raised her eyebrows as she said, "Thanks."

Ian smiled and said, "No need. I have been staying here every day recently. I feel that your research base is likely to become successful and the economic benefits generated will be immeasurable."

Zi Yi looked at him speechlessly. A few seconds later, she roasted him. "Since you're staying at the construction site, why are you dressed so... ostentatiously?"

Ian did not care about Zi Yi's roasting. "I will be having a video call every day with Dou and as a gentleman, how can I dress casually in front of a woman I admire?"

Zi Yi: "..."

She was actually speechless.

Ian still had a smile on his face. "I plan to visit the capital for Chinese New Year in the following period of time."

Zi Yi rudely rebuked him. "Chinese New Year is a custom in our country and it has nothing to do with you."

"Who says so?" Ian retorted. "When Dou and I get married in the future, I would also be Chinese through marriage, and celebrating Chinese New Year definitely has something to do with me."

Zi Yi replied, "... In your dreams."

Zi Yi understood her cousin well. After experiencing the incident with Zhang Hanyu, she would not easily accept any other man.

She suddenly looked at Ian with a sympathetic gaze and soon, she disconnected the call.

1

Zi Yi continued ordering some things from abroad. After she was done with all these things, Lu Jingye had yet to return.

Zi Yi did not head to bed either. She wrote some information related to biological weapons and sent them to Nangong Yu.

At the same time, she wrote: [There's no need for thanks. I'm rejecting all phone calls and text messages.]

She did not wish to answer the phone or send any more text messages.

Nangong Yu still replied with a short message. [I still have to thank you no matter what.]

After sending that message, he did not bother her anymore.

It just so happened that she heard the sound of the door opening just then. She looked over and saw Lu Jingye coming in.

"Why haven't you gone to sleep yet?"

Lu Jingye saw how she was holding onto her tablet and phone in her hands. He walked over, leaned down, and took her tablet and phone to place them on the bedside table, before he looked at her seriously. "You've been playing with these for at least three hours. It's bad for your eyes."

### **Chapter 665: You Aren't Young and Don't Tell Me You Intend To Remain a Bachelor All Your Life?**

Zi Yi fluttered her beautiful eyelashes at him and acted cutely. "I was waiting for you."

Lu Jingye was only pretending to be serious and the moment he heard her, he could not maintain his serious expression.

He raised his hand and touched her head. "I'll go and take a shower, you can go to bed first."

Zi Yi held his neck before he could stand up straight and Lu Jingye had no choice but to support himself up with one hand on the edge of the bed.

Zi Yi came closer to his lips and narrowed her eyes as she said with a smile, similar to that of a fox, "Mom said that you have to cook for me if I can't get accustomed to the food at Country Em."

Lu Jingye softly responded with an 'ok'. He was clearly happy to take this job.

Zi Yi was happy with his response and she rewarded him with a kiss on the lips.

She then moved back and said, "Mom is the best Mother in the whole world. I love her."

There was also a smile on Lu Jingye's face and he purposely asked, "What about me?"

Zi Yi's eyes lingered on his lips and she approached him once again. However, she did not kiss him.

She then stuck out her tongue and licked his lips.

After she finished licking, she looked up to see his reaction.

Lu Jingye only narrowed his eyes and he did not have any other expressions.

Zi Yi was a little unsatisfied and she put her lips against his.

Lu Jingye remove his hand propping him up on the bed and lowered himself down.

...

Zi Yi woke up slightly later than usual the next day.

Lu Jingye just so happened to return from his morning exercise when she woke up.

She struggled to open her sleepy eyes and asked, "Ah Jing, what time is it now?"

Lu Jingye brought her clothes over and said, "7:20 a.m."

"Hmm?" Zi Yi sat up muddle-headedly and the quilt covering her body slid down, revealing a large area of white skin that had some faint traces of love all over.

Lu Jingye quickly pulled up her quilt and increased the temperature of the warm air conditioning.

Zi Yi acted spoiled. "I feel sore all over and I don't want to put on my clothes."

Lu Jingye could not help it. He ended up holding her up and helped her to wear her clothes.

Zi Yi purposely did not cooperate with him.

Her dazzling fair body was exposed in front of him and it caused his Adam's apple to bob up and down several times. His eyes deepened and his voice had even lowered several octaves. "Don't be naughty."

Zi Yi raised her hand to touch his face and refused to admit it. "I wasn't being naughty. You were the one who is bad at helping."

Lu Jingye grabbed her hand that was acting up and gave her a kiss on the corner of her lips. He then said in an unhurried tone, "Father, Mother, and Yunxiao are all waiting for us to eat breakfast downstairs. Are you sure you don't want to cooperate with me?"

The moment Zi Yi heard what he said, her expression stiffened and in the next second, her cheeks turned red in an instant.

Lu Jingye looked at the young lady who was feeling a delayed onset of embarrassment. The smile on his face deepened and he was not in a rush to help her dress either. His right hand touched her back and it slowly moved forward.

Zi Yi's body shivered and she pushed his hand away. She snatched her clothes from his hand and said, "Why didn't you tell me earlier? I'll put them on by myself."

Lu Jingye certainly would not tease her anymore, or else he would have difficulty extinguishing the fire in his own body.

While Zi Yi was getting dressed, he headed towards the bathroom and said, "There's no need to rush, they won't say anything."

The response he received was Zi Yi's dissatisfied huff.

After Zi Yi washed up and came down together with Lu Jingye, the other three family members of the Lu Family were waiting for them on the living room sofa.

Mrs. Lu saw Zi Yi walking over at Lu Jingye's side and she said, "I was just saying that we won't be waiting for you two anymore. After eating, we should do whatever we need to do."

Zi Yi was not the type of person who would be embarrassed for a prolonged period of time. After hearing what Mrs. Lu said, she nodded her head in agreement. "That's right, if I get up late in the future, there's no need to wait for me."

The five of them headed to the dining table together.

Mrs. Lu picked up a soup bun and placed it in Zi Yi's bowl. She then looked at Lu Yunxiao who was eating silently and asked, "Yunxiao, did you come back home after midnight yesterday?"

"Yes."

No matter where he was Lu Yunxiao was someone who rarely spoke.

Mrs. Lu did not find it a problem on usual days, but now that she had an eldest daughter-in-law, she suddenly felt a little dissatisfied. Looking at his current appearance made her feel unhappy. "Now should be a time where you're taking care of your body and yet, you're running all over the place for the entire day. You aren't young anymore and do you intend to remain a bachelor for all your life?"

There was not the slightest trace of animated expression on Lu Yunxiao's face. He listened in silence and did not make any comments.

Mrs. Lu was even unhappier. "I don't care, you must come back home and have dinner with us during this period of time. Yiyi, is so busy and yet, she still comes home every day to have dinner."

Lu Yunxiao still remained silent.

Mrs. Lu was not asking about his opinion at all and she continued to say, "Before you go out, get Yiyi to write a tonic prescription for you and I'll help you nourish your body instead."

Zi Yi thought that Lu Yunxiao would remain silent throughout but after Mrs. Lu finished talking, he said, "Mother, don't be angry."

He then picked up a shrimp dumpling and placed it in her bowl.

Mrs. Lu's anger had instantly dissipated.

She then compromised a little. "Even if you can't come back home for dinner every day, you should still come home earlier to rest. Your body has yet to fully recover and if something happens to you again, how do you want me to live?"

"Mother, I know my limits."

Just then, Lu Jingye timely intervened and changed the topic. The atmosphere on the table became relaxed once again.

After breakfast, Mrs. Lu sent everyone off at the yard.

Zi Yi looked at Mrs. Lu standing alone and she felt bad. She thought for a moment and asked, "Mom, I'll be heading to the art gallery today. Do you want to go with me?"

Mrs. Lu would certainly be willing. "Wait for me while I go and change my clothes."

Mrs. Lu returned to the villa to change her clothes, while Zi Yi and Lu Jingye stood there waiting for her.

Zi Yi blinked her eyes and looked at Lu Jingye. "I thought that Yunxiao had no EQ. I didn't expect that he even knows how to coax Mom."

Lu Jingye chuckled. "Yunxiao is just not that fond of talking, it's not that he doesn't have a high EQ."

Zi Yi shrugged her shoulders and suddenly felt like gossiping. "Say, the woman Yunxiao mentioned, could she be..."

Zi Yi did not finish her sentence, by Lu Jingye guessed what she was trying to say. He pressed his hand over her hand and his expression turned serious. "No matter if she is or not, they can only be enemies if Yunxiao were to meet her again."

She was someone who nearly caused his death and no matter what they had between them in the past, they would only be enemies in the future.

Zi Yi tilted her head and thought of his words.

Lu Jingye caressed her slightly cool cheeks and asked, "Did you bring a mask?"

"Hmm?" Zi Yi only managed to react after a delay and she nodded her head. "I have a mask in my bag."

She then pulled the previous topic back. "I feel that the woman Yunxiao mentioned might not be what we thought of her."

"That had better be the case." Lu Jingye held her bag and opened it. He took out a mask from inside and helped her wear it. "No matter what, if we do meet her again, I will not let her off."

"Mmh," Zi Yi said what she felt, "That woman Yunxiao mentioned must not be a simple character. In fact, I really want to go and see the secret research base he mentioned."

Zi Yi only said it in passing. She knew that no one would allow her to head to a place that dangerous.

#### **Chapter 666: Master, Someone Tried To Set This Place On Fire the Day Before Yesterday**

After Mrs. Lu changed her clothes and came down, Lu Jingye sent them to the art gallery.

There were not many people walking around this street even on usual days and now that it was still so early, it appeared even more deserted.

"It's still so early and I wonder if Xiangling is here yet?"

"She has been staying in the art gallery these past few days."

As soon as Zi Yi said that, she saw the door of the art gallery opening and Dou Xiangling walked out from inside.

Dou Xiangling saw Zi Yi and Mrs. Lu the moment she stepped out and she immediately came over.

"Auntie Lu, Yiyi, you're here."

"Where were you headed off to?"

Dou Xiangling had her bag on her shoulders and she said in response, "I was heading out to have breakfast."

She took out her phone and said, "Since you're here, I'll just call for takeout."

Mrs. Lu said, "Child, why haven't you eaten by now? If I knew this earlier, I would have brought some food for you."

Dou Xiangling made a shy smile and said, "There were many materials that arrived yesterday and so, I slept a little later than usual. Therefore, I woke up later too."

She then held both their hands and walked into the art gallery. "It's cold outside, let's go in first."

As the main layout inside was done, upon entering the art gallery, there was a difference as great as heaven and earth compared to when Zi Yi came the previous time.

Zi Yi entered and took a look around the art gallery.

Mrs. Lu and Dou Xiangling walked behind her. While walking, Mrs. Lu nodded her head. "It seems like the renovation speed of your art gallery is pretty fast. At this rate, you should be able to finish everything by the end of the month, right?"

"I'm sure we can. The materials we need have all arrived in a timely manner, together with the help of Yiyi's robots and also..." Speaking of this, Dou Xiangling paused for a moment and looked at Zi Yi before she said, "It's all thanks to brother-in-law's friend, Ian's help."

Mrs. Lu had a good impression of Ian. "That young man is really a nice chap. Even though he is a member of a Count's family, he isn't arrogant at all. Most importantly, he is a gentleman. When Lu Jingye and Zi Yi got married, he helped out a lot."

When Ian lived in the villa during that period of time, Mrs. Lu had gone to supervise the wedding venue every day. As long as Ian did not go out for the day, he would help out.

The moment they brought up Ian, they started commenting about him.

Zi Yi listened to their comments and the corner of her lips raised up. She was thinking what kind of reaction Ian would have if he knew that he was the topic of their discussion.

However, she did not pay much attention to this.

After checking out all the renovations, Zi Yi asked Dou Xiangling, "Have you met any suspicious people or were there any weird incidents that happened?"

Dou Xiangling had heard of Lu Jingye's matter and now that Zi Yi was asking her this question, she became nervous, "Is it about the He Family?"

She then furrowed her eyebrows and said affirmatively, "Second Master He's death definitely doesn't have anything to do with brother-in-law. I feel that there must be someone else behind this incident who is trying to frame him."

Mrs. Lu nodded her head. "This matter is very complicated and there is indeed someone trying to frame him. Therefore, Yiyi is worried about your place."

Zi Yi added on. "Those people are unable to deal with me and Lu Jingye and it's possible that they might try to deal with you instead. However, there's no need to worry. The robots I gave you can take care of them."

After hearing what Zi Yi said, Dou Xiangling suddenly thought of something. "There seemed to be sounds of movements coming from outside of the art gallery the night before."

With the robots by her side and how she asked Dou Yurui to accompany her that night, only then did she dare to stay there for the night.

Zi Yi called for the robots after hearing what she said.

She asked, "What happened outside the night before yesterday?"

One of the robots answered, "Master, someone tried to set this place on fire the day before yesterday."

All three of their expressions changed at once.

Dou Xiangling was furious. "To think that these people were planning to do such a thing!"

Mrs. Lu looked at Zi Yi.

Zi Yi only snorted coldly and said, "Cousin, don't worry. With the robots around, as long as there is danger approaching, they will be able to sense it."

She then turned to the robot and said, "Show me the recording of that night."

The robot's eyes flashed and soon, a virtual screen appeared before them.

The virtual screen played the recording of that night.

They saw several thugs getting down from a seven seater SUV. After they alighted, they headed to the trunk and each of them carried an oil can, before they headed towards the art gallery.

It's obvious that these people did not have any friendly intentions. Moreover, when the robots were monitoring the surroundings, they detected a group of people carrying gasoline. As such, they had been stopped at least around 10 meters away from the art gallery.

"I had set up the robots in such a way that they would take care of the other party as soon as dangerous items are in the vicinity."

Sure enough, the robots stopped those people and started beating them up without any reason.

As soon as the robots beat up the thugs who had yet to understand the situation, another group of men on patrol came over to arrest them.

The patrolling group did not cause much of a commotion either.

"From the looks of it, the higher-ups are also protecting your art gallery." After she saw the scene, Mrs. Lu was at ease.

After Dou Xiangling's takeaway arrived, she went to eat breakfast, while Zi Yi helped her count the materials she did not manage to finish counting last night.

Mrs. Lu saw that Zi Yi was busy and so, she talked about her thoughts of having a meal together with the Dou Family. Dou Xiangling was certainly going to agree to her idea. "I'll give my family a call shortly. They should be able to find time before Yiyi leaves."

It was the end-of-year examinations for university and the professors became even busier. Not only did they have to check the experimental results of the students they were taking care of, there were also many things to do at the country's research lab.

Mrs. Lu did not insist. "If they are too busy, it's the same if we get together again during Chinese New Year. Work is more important."

Dou Xiangling nodded her head. She was unable to make decisions on behalf of the family right now.

Zi Yi and Mrs. Lu remained here until the afternoon before they left.

Mrs. Lu's housekeeper came to fetch her, while Zi Yi connected to her racing car remotely and got it to fly over from the skies.

Before they separated from each other, Mrs. Lu asked Zi Yi, "Yiyi, what would you like to eat for dinner? I'll go home and prepare it for you."

Mrs. Lu liked to prepare soup and desserts when she had nothing to do and she had been very keen to prepare them for Zi Yi these days.

Zi Yi was not picky at all. "I like everything Mom makes."

Mrs. Lu was instantly delighted at her response.

After Mrs. Lu left, Zi Yi sat in her racing car and left.

As usual, she was flying in the sky.

The racing car was flying at an altitude of twenty meters away from the ground and there was not the slightest hindrance.

However, not long after she drove away, her watch flashed twice.

Zi Yi had set up an alarm device. As long as someone she cared about had encountered danger, the device would directly send a signal to her wristwatch.

She quickly tapped on the watch and a virtual screen appeared.

When she saw who was the person in danger, her heart clenched tight.

At the same time, Lu Jingye's phone call arrived. "Yiyi, are you with my Mom right now?"

There was no longer the usual calmness in his voice and instead, his tone sounded very heavy. In particular, there were the sounds of footsteps and the sound of the wind brushing past coming through the speaker.

"I'm not." Zi Yi quickly locked onto Mrs. Lu's position and said to him, "I just separated from Mom not too long ago... I have arranged an invisible robot to be next to Mom and nothing will happen to her."

### **Chapter 667: Once The Police Is Here, I Will Naturally Let You Out**

When an obviously modified car ran past the red light and crashed into the car Mrs. Lu was in, she knew that this must have been a deliberate accident.

The powerful impact caused many cars behind her to be affected and in an instant, the whole intersection was stuck.

The sounds of car alarms, loud voices, and screams could be heard.

Mrs. Lu saw the sharp weapon that was shot from the opposite car that had smashed into her car. The driver and bodyguard subconsciously blocked her head in an attempt to protect her, but the sharp

weapon had split into three parts. It first stabbed the driver and the bodyguard and both of them passed out.

When the last sharp weapon was flying in, Mrs. Lu did not have the chance to feel fear and she saw the weapon being blocked by a light wave a few centimeters away from her. Mrs. Lu tilted her head and the weapon stabbed into the back of the car seat.

She instantly recovered her senses and grabbed the circular ball that Zi Yi had given to her from her bag. She then warily looked at the people who were approaching her.

Since they dared to do something to her out in the open in such a busy area of the capital, it proves that the other party was desperate.

She was married to Lu Jianlin for nearly 30 years and she was no longer as panicky as before whenever she encountered something like this.

She knew that her husband, son and daughter-in-law would definitely receive an alert at the very first instance when something happened to her. As long as she could protect herself for a few more minutes, they would be able to reach where she was.

Just then, the hand of a seemingly enthusiastic citizen had already been placed on the handle of her door.

Mrs. Lu stared at the person and her breathing was slightly sluggish.

She then saw the person taking out something to smash the window of her car while he was talking.

Mrs. Lu leaned back and looked at what was in his hands. On the surface, it looked like a piece of iron debris, but from her point of view, she saw a sharp weapon sticking out from the base of the iron debris.

Those people standing next to him were clearly covering for him, as they blocked the line of sight of the others.

Soon, a small crack appeared on the window, and instantly, the cracks spread out like spider webs.

The glass was soon broken. Mrs. Lu made eye contact with the man who smashed the glass.

“Madam, are you alright?”

Even though the man was saying words of concern, a small hidden weapon appeared in his hands from an angle that those behind him were unable to see.

At the same time, he revealed a sinister smile at Mrs. Lu.

The hidden weapon and the circular ball in Mrs. Lu’s hand flew towards each other at the same time.

Mrs. Lu saw the man open his mouth but before he could even make a frightened scream, the strong vibration above the car roof had attracted everyone’s attention.

Zi Yi jumped down from her car under everyone’s surprised gaze and at the same time, she quickly threw out several circular balls.

The circular balls stretched out in the air and formed into a number of different reflective planes. They seemed to have absorbed all the sunlight in the surroundings and instantly, blinded the eyes of the citizens present, to the extent they could not open their eyes.

Zi Yi made use of this opportunity to take Mrs. Lu out of the car.

The circular balls then transformed at the same time, and it formed an infrared wall that could attack people and surround all the people around the car inside the area.

“Mom, are you alright?”

Zi Yi quickly checked if Mrs. Lu was injured. After she double confirmed that she did not lose a single hair, she called out Shadow.

“Protect Mom.”

“Yes, Master.”

Zi Yi headed to the car.

“Yiyi, what are you doing?”

“I’ll make those who thought of doing something to you pay the price.”

Mrs. Lu had never heard such a cold voice from Zi Yi ever before and Zi Yi was also giving off a strong murderous aura.

With a cold expression, she walked over to those citizens who had come to their senses and wanted to come out of the area surrounded by the infrared wall. However, they ended up getting attacked.

“What’s going on? What is this, why can’t we come out?”

Some people were frightened to the extent that their faces turned pale.

However, some of the others were looking at Zi Yi angrily as they shouted.

“You must have done something to us! We were kind enough to come and rescue Mrs. Lu and so how dare you treat us like this?!”

“You’re repaying kindness with evil and do you believe that all of us won’t sue you when the police arrive?”

Zi Yi looked at the person who was glaring at her and said with a cold tone, “Someone among you tried to harm my Mom. When the police arrive, I will naturally let you out.”

Her words caused a few others to overreact. They glared at Zi Yi and started scolding her.

Zi Yi tightened her lips and swept her gaze past the faces of those people. In the next second, a few silver needles appeared in her hands and they directly pierced their acupuncture points.

“Ugh...”

They crouched down in pain and their faces were distorted due to pain.

The others all shut their mouths out of fright after they saw the situation.

The group of people behind her was noisy, as they were talking about her, but the group of people in front of her were looking at her with frightened eyes.

Zi Yi coldly said, "I've said it earlier. Someone among you tried to harm my Mom. When the police arrive, I will naturally let you out. Whoever dares to continue shouting, don't blame me for being rude."

The group of people felt fear and anger at the same time.

The young lady before them had a pretty appearance but why was she so mean? They clearly came over to rescue people.

Just then, the sound of police sirens could be heard from a distance. At the same time, there was the sound of the helicopter's turning propeller in the sky.

As it was a downtown area, it was not easy for police cars to enter.

The helicopter was the first to arrive here.

Many people subconsciously looked up. They saw the door open and a tall man appeared at the door.

"Quick, take a look. Is that man Second Master Lu?"

"Yes! The helicopter is at least five meters above the ground and is he intending to jump down directly?"

"Won't he crash and break his bones?"

"Ah- he jumped!"

Among several screams, Lu Jingye directly leaped down from the helicopter.

He first jumped onto Zi Yi's car roof before he jumped down from the car.

Many people had subconsciously breathed a sigh of relief.

Before they managed to react, they saw another tall figure running here from the rooftops at a fast speed.

"It's Third Young Master Lu!"

Many people subconsciously took out their phones as they wanted to capture the scene they saw.

Lu Jingye directly headed over to Zi Yi's side.

Lu Yunxiao went to where Mrs. Lu was.

When the group of people trapped within the infrared wall saw the gentle and elegant Lu Jingye appearing, all of them subconsciously started to complain.

"Second Young Master, please be the judge. We were clearly trying to save Mrs. Lu and yet, Zi Yi dared to use this thing to trap us in here."

"This is considered illegal detention. You had better get her to release us or we will be suing her."

Lu Jingye had a stern expression on his face and his gaze swept past the group of people. In the end, his gaze landed on the people who were squatting on the ground and in obvious pain.

He said, "Someone among you tried to harm my Mother. After the police arrive, Yiyi will naturally let you go. If we had locked you up wrongly, you can sue me if you wish to."

"You--"

Just then, Lu Yunxiao walked over. He was expressionless, just like an emotionless robot.

He said, "The police are here."

### **Chapter 668: Disseminating False Rumors, Banned for Three Days**

As soon as Lu Yunxiao said that, they saw a huge commotion coming from one of the sides.

Soon, they saw an officer coming over with a group of heavily armed people.

The officers saw the group of people trapped in the infrared walls and said to the Lu Family brothers, "The surrounding areas have been surrounded and those people hiding in the dark have been caught too."

Having said that, before the group of people trapped could manage to react, the officer commanded his subordinates. "Bring them all away."

"Ah... Why are you bringing us away? We didn't do anything!"

"We were clearly committing an act of bravery in an attempt to rescue the person in the car. Don't tell us you intend to let the citizens' hearts turn cold?"

"Let's see if anyone else dares to rescue people in the future."

Everyone trapped inside became agitated and they angrily shouted.

Lu Jingye spoke up at this moment. His voice was calm and soothing.

"This is a unique situation and if we have caught innocent people, I will compensate you accordingly."

The officer added. "There are members of a terrorist organization among you and these people were aiming to harm Mrs. Lu. We have to bring all of you away."

After hearing the explanation, some of them were no longer so agitated.

However, there were also some who were unwilling to follow them.

Lu Jingye said to Zi Yi, "Yiyi, do you have a recording of the accident?"

Zi Yi nodded her head. "Yes."

After she said that, she pressed her wristwatch and a virtual screen appeared above the top of their heads.

Many people had subconsciously looked at the virtual screen. When they saw a sharp weapon breaking the glass of the car and injuring the bodyguard and driver, many of them revealed expressions of fright.

“As it turns out, there were really people who were aiming to harm Mrs. Lu!”

“Who has the courage to dare to harm her in such a public area?”

With the video as evidence, those people trapped within the infrared walls did not say anything else.

Zi Yi took her circular balls back and put them away.

After the group of people was taken away, Lu Yunxiao said to Lu Jingye, “Father will be arriving soon. I’ll go and check up on the other side.”

Lu Jingye nodded his head and Lu Yunxiao left.

Zi Yi and Lu Jingye walked over to Mrs. Lu who was currently under Shadow’s protection.

Mrs. Lu held onto Zi Yi’s hand and she asked Lu Jingye, while her heart still had lingering palpitations, “Jingye, what’s going on? How did these people dare to injure me in such an open space?”

Previously, no one had ever imagined that the other party would attack Mrs. Lu in such a bustling area.

Lu Jingye furrowed his brow and said, “We traced the attack back to the Embassy of Country A.”

1

Mrs. Lu immediately understood.

“They are trying to give you a warning.”

“Yes.”

Mrs. Lu did not say anything else.

Just then a nervous voice sounded from afar. “Lingluo, are you alright?”

It was Lu Jianlin.

Lu Jianlin was usually serious and stern, and in front of others, he had always been someone similar to a steel-faced man.

However, he was running at the moment. His hair flew around messily as his breathing was unstable. There were traces of panic on his face that no one had ever seen before.

Lu Jianlin ran over to Mrs. Lu and directly pulled her into his embrace.

Mrs. Lu knew that this incident had frightened him and she hastily stroked his back in an attempt to calm him down. “Jianlin, I’m fine. Yiyi has given me many good gadgets and those people can’t harm me.”

Only then was Lu Jianlin at ease. Subsequently, his expression returned to his normal steel-like mask.

He turned to speak to Zi Yi. “Yiyi, bring your Mom back home first. We will take care of the situation here.”

Lu Jianlin had given off an imposing aura when he said that. If one listened closely, one could even detect a slight trace of murderous intent in his voice.

Zi Yi nodded her head and said to Mrs. Lu, "Mom, let's go back first."

She took out her phone and tapped on it. The racing car floating in the sky moved towards them.

There wasn't much open space available here, so the four of them backed away and the racing car descended.

Zi Yi waited for Mrs. Lu to get in the car first and she suddenly said to Lu Jingye and Lu Jianlin, "Father, Ah Jing, I have tampered with all the electronic gadgets here."

The both of them nodded their heads. Zi Yi went around the front of the car and got in the driver's seat before the car flew away.

After all the Lu Family members left, those who had been recording the scene were planning to upload the video online. However, they discovered that there was a problem with their videos.

Many of them exited back to the home screen and when they tried viewing the video again, they found out that the video had suddenly disappeared.

"What's going on? The video I took earlier suddenly disappeared."

"Mine disappeared too."

At the same time, the country's official website uploaded a post.

[At 2:25 p.m. Imperial time, there was a car accident at the intersection of Dangui Road and Zixua Road. The cause of the accident was a car brake failure and presently, five people are injured and there are no casualties. Please wait for the follow-up reports.]

The report was so simple that it immediately caused a buzz on the internet.

"This was clearly not what happened. At that time, a car crashed directly into the Second Madam of the Lu Family's car. Second Master Lu, Second Young Master Lu, Third Young Master Lu, and Zi Yi were all present."

"That's right, all the videos we took have all disappeared. The Lu Family people must have tampered with our mobile phones and deleted the video."

"At that time..."

...

Regardless of the discussion over the internet, no one could take out any video evidence to back up their claim.

Moreover, this discussion did not last long. The accounts of the people who had discussed this were banned and at the same time, the network police sent them a reminder.

[Disseminating false rumors, means being banned for three days]

At the same time, a rumor spread around on the internet.

Country A's embassy made deals with a group of extremist organizations in order to deal with the Lu Family.

The moment the rumor spread around, the whole internet exploded in an instant.

The Ministry of Foreign Affairs went to verify this rumor at the very first instance.

The netizens were infuriated.

"What is Country A planning to do?! How dare they try to deal with our people on our land?!"

"Are they crazy? Do they think that we are easy to bully? To think that they dare to openly deal with the Lu Family."

"It must be because Second Master Lu and Third Master Lu have threatened their interests."

"The Lu Group has been hit hard and perhaps they were the mastermind."

...

The Embassy of Country A was caught off guard and they had quickly made a response. They claimed that enemy spies were lurking inside and they were deliberately trying to stir up trouble and destroy the friendship between the two countries.

In order to express their sincerity, they helped the country dig out the spies and traitors. At the same time, they expressed their sincere apology to the Lu Family.

The Lu Family had also appeared before everyone and displayed their generosity by accepting their apology.

With such an ending, it seemed as if everyone was happy on the surface.

However, the higher-ups of various countries had witnessed the prowess of Second Master Lu's family from this incident.

"When Lu Jingye and Lu Yunxiao attacked at the same time, even Country A was unable to deal with them."

"These two brothers are too terrifying."

"Not only that, there's also Lu Jingye's wife. She has a grasp on advanced technologies and many unknown things in her hands, and if we can get our hands on it, it would definitely allow our country to take a big step forward."

"China would never allow her to pass on the technologies in her hands. If my guess is right, they will definitely make some big moves in the next few years."

...

This news soon spread to the higher-ups of Country A and they had immediately issued several different orders.

**Chapter 669: Zi Yi's End of Semester Exam Results Are Out. M.Uni Exploded**

After this incident, the enemies' secret forces hidden in the dark were uprooted. At the same time, a clan in Southern Xinjiang who had endangered others with their parasites was also taken care of.

"It's a pity we have yet to find the people who harmed Yunxiao!"

The whole family sat on the sofa in the living room and Zi Yi expressed her dissatisfaction.

"I now suspect that someone among the higher-ups in Country A might have been the mastermind."

The others had the same suspicions.

Lu Jianlin said with a heavy voice, "We can only stop here for now."

For the sake of peace.

They understood the unspoken meaning deep down in their hearts.

However, Lu Jianlin added. "Even though we are unable to do anything on the surface, we can continue to investigate in the dark. If you encounter anything you are unable to handle, you can seek help from Leader Tang."

This was the largest extent of sincerity to which the higher-ups could give to the Lu Family.

On the surface, the matter seemed to be over just like that and Lu Jingye continued making preparations for his trip to Country Em.

As the Dou Family was rather busy recently, after the incident, Zi Yi's four uncles specially took off half a day's worth of time and had a meal with the Lu Family.

On the day of the meal, Mrs. Lu had prepared all sorts of gifts for the Dou Family.

Sometime back when Zi Yi and Lu Jingye got married, Mrs. Lu and the four madams of the Dou Family had already gotten themselves well acquainted. The moment Mrs. Lu arrived, she had been dragged away by the four madams to talk.

Lu Jingye and Lu Jianlin were invited to the study by the men.

Thus, only the female younger generation were left to hang out together.

Dou Yue'er looked at the direction where the older generation members were talking and she pulled Zi Yi's hand as she asked in a whisper, "Yiyi, wasn't there another son in the Lu Family? Why didn't he come?"

Before Zi Yi managed to speak, Dou Yurui teased her. "Little idiot, why are you asking about your brother-in-law's younger brother?"

Dou Yue'er giggled and said, "I heard that Third Brother Lu resembles brother-in-law a lot. Brother-in-law is so handsome and if someone as handsome as him were to stand side by side with him, wouldn't that be a visual delight?"

Dou Yurui could not take it anymore and moved to the side. "I heard that being a fangirl is contagious. I don't wish to be infected by you."

“Second Sis, you’re clearly a fangirl like I am but you’re still trying to pretend that you’re not.”

“Cough cough... Yue’er, you had better not ruin my reputation or I’ll punish you later,” Dou Yurui said and she acted as if she was threatening to punish Dou Yue’er.

Dou Yue’er hastily ran over to Zi Yi and Dou Xiangling. “Fourth Sis, Yiyi, take a look. Second Sis is turning angry due to embarrassment.” Having said that, she deliberately tried taunting Dou Yurui. “Second Sis, you can’t hit me~”

Dou Yurui glanced at Dou Yue’er. “I don’t argue with children.”

Dou Xiangling and Zi Yi were amused by their interaction.

However, Zi Yi still explained. “Yunxiao has matters to attend to and he won’t be able to come.”

Dou Yue’er held her hand behind her back and pretended to be an adult as she sighed. “Then it’s really such a pity.”

Her tone of voice and posture had caused the three women to laugh.

The atmosphere of the two families seated together and having a meal was pretty good.

After dinner, Zi Yi helped Elder Dou back to the backyard to rest.

While walking back, Zi Yi told him about how the exams went.

Elder Dou smiled and nodded repeatedly.

In the end he said, “Since you are confident, then you must have done well in the exams.”

He continued to ask, “Do you intend to continue studying in Year 1 or will you skip a grade?”

Zi Yi smiled at him. “It’s no fun to continue studying. Year 1 contents are too easy.”

In fact, what they taught in universities was considered simple for her. What she liked was the atmosphere at the university.

Elder Dou revealed a relieved smile. “Since you find it easy, you should skip a grade. However, you’re still young, and so don’t be in a rush to spend all your time doing research.”

“That’s my thoughts too.”

The both of them laughed.

A few days later, Zi Yi, Lu Jingye, and Lu Yunxiao left the capital.

At the same time, evidence that Eldest Master He had killed Second Master He and had framed Lu Jingye was spread out.

The strife between the brothers coupled with how they framed and slandered Lu Jingye caused the He Family’s stocks to plummet in an instant. The number of people scolding the He Family was ten times and a hundred times more when compared to the number of people who scolded Lu Jingye in the past.

The He Family instantly fell from grace and became a target of public criticism.

At the same time, as soon as Zi Yi left the capital, M.Uni released the results of her examinations.

She scored full marks for all her papers.

Moreover, the difficulty of her questions were equivalent to that of a Year 4 student's exam papers.

Therefore, M.Uni announced that Zi Yi would win all the scholarships for all the majors she took for both Year 1 and Year 4.

The moment this news was announced, there were people who expressed their displeasure.

M.Uni immediately gave them a response.

[Whoever is dissatisfied with this result can attempt the same test questions as Zi Yi. She has taken ten majors and you only have to take the majors you are currently enrolled in. Whoever can get full marks would be given the scholarship.]

There were some people who had excellent grades attempting the question paper Zi Yi did. Even the student who scored the best results did not manage to get full marks.

The voices of discontentment had simply disappeared after that.

Tons of ridicule had surfaced on the school's forum.

"Fortunately I'm not a Year 1 or Year 4. At the very least, I have the chance to aim for the scholarship."

"The goddess deserves to be our goddess. Even if I get on a rocket, I still can't catch up to her."

"Since the goddess has taken the questions for Year 4, what will she be studying next semester?"

...

Zi Yi scrolled through the school forum with a taut expression. At the same time, she received a barrage of messages from people she was acquainted with.

"I was too hasty. I was only aiming for a Year 1 scholarship and they actually acted without telling me. They're asking me to start taking projects next semester... I still haven't listened to your lecture and if I were to take on projects, in the event you hold a lecture, what should I do if I don't have the time? Hurhur! Even if I'm busy, I will still squeeze out the time!" Lu Jingye tilted his head and glanced at the young lady who was muttering. The corner of his lips unconsciously curved up.

1

He raised his hand and touched her silky soft hair. "If you don't wish to graduate so early, you can study for another semester."

Zi Yi heard what he said and directly showed him the emails she received as she puffed out her cheeks.

"Look, my teacher, Second Uncle, Professor Zheng from the Chemistry Department, and Professor Meng from the Biology Department have all sent me the specific duration of their research projects. The National Research Base for Robotics, Missile Center and Biochemical Center have all sent me an offer as well. I can reject the rest, but I can't reject the teacher's and Second Uncle's offer."

Speaking of which, the corner of her mouth twitched. "They are banking on the fact that I am unable to reject them."

Lu Jingye looked at his wife's aggrieved look and pulled her into his arms. "Then just accept Elder Hu and Second Uncle's project and that will do."

"But I have a promise with Leader Tang and it's not good to go back on my word."

Speaking of which, there were no traces of the previous dissatisfaction on her face. Her eyes curved into crescent moons and she said proudly, "But I've got a brilliant idea."

Lu Jingye's lips curved up. He knew that his wife had tons of strange ideas. "What do you have in mind?"

Zi Yi propped herself up and climbed on his shoulders as she whispered in his ears, "Before we come back, I'll get pregnant with a baby and in that case, I won't be able to visit many places. In that case, they would feel bad to call for me."

1

Lu Jingye caressed her waist with his hand and the curve of his smile deepened. He also tilted his head and whispered in her ear with a bewitching voice, "Since my wife has thought up such a good idea, I will definitely cooperate 100%."

## **Chapter 670: Honey Trap**

In a certain high-end bar in Country Em.

"I heard that Lu Jingye came to Country Em."

"He's finally here. I'd like to see what he can possibly use to fight with us without the Lu Group as his backing."

"Don't look down on him, he's someone who is capable of many things. I'm just afraid that he might find someone here to cooperate with."

"Since he's here to purchase a mine, he certainly would not find someone to cooperate with."

"That's right... but it was said previously that Emperor Dan Long wanted to marry Princess Ye Li'er to him. Say, now that he's come to Country Em, do you think Emperor Dan Long would..."

"Lu Jingye is married."

"So what if he's married. He can get a divorce and remarry. What's more, it's said that Princess Ye Li'er fancies Lu Jingye very much and Emperor Dan Long would certainly get him to do so."

1

"That won't do. If he marries Princess Ye Li'er, he would be able to turn the tables around in his favor... Send more people to monitor him during this period of time. If he dares to purchase a mine, I will make him go bankrupt."

...

Country Em was located in an area where they experienced a tropical climate all year round.

When Zi Yi and Lu Jingye left, they were still wearing down jackets but they had changed into short sleeved shirts the moment they arrived here.

To Zi Yi's surprise, Lu Jingye had a villa here and moreover, it was located in a big city that was surrounded by several of the major mining areas of Country Em.

There was no one inside the villa when they walked in. Zi Yi asked Lu Jingye curiously, "Ah Jing, when did you buy this villa?"

"Not too long ago."

The moment he said that, Zi Yi managed to guess why he had done so.

Sure enough, he said, "We will be staying here for at least half a month and you should be unaccustomed to living in a hotel... most importantly, it's convenient to cook here."

Zi Yi's lips curved up at his words.

The both of them headed inside the villa together.

While walking, Lu Jingye said, "Someone will be here to clean the villa during the day and we will be the only ones here at night."

Zi Yi grabbed his hand and said, "Don't let others clean the villa. We'll get the robots to do the cleaning."

Lu Jingye certainly would not have any objections.

Zi Yi called for the invisible shadows and at the same time, she took out several circular balls and transformed them into household robots.

After she was done, Zi Yi said to Lu Jingye, "That'll be all. Shadow will be the housekeeper, Shadow II will be responsible for purchasing supplies and ingredients, and Shadow III and Shadow IV will be responsible for the security of the villa. In addition, there are these household robots, so we don't have to worry about anything else."

Lu Jingye smiled in response and held her waist with one hand while his other hand pulled the luggage. "With Madam around here, there's no need for me to take care of these things at all."

Zi Yi instantly felt that she was very capable and she proudly raised her chin. "That's right."

The both of them headed to the bedroom to wash up.

After washing up, Lu Jingye called his subordinates, who had arrived a few days in advance, to come over for a meeting, while Zi Yi grabbed a tablet and checked out what fun places there were to visit in Country Em.

Just as she started browsing, Lu Jingye hung up the phone and came to sit next to her.

Zi Yi showed him a picture. "Ah Jing, take a look at this. There is a big jadeite night market in the north of the city. Why don't we check it out in the evening and see how accurate my testing equipment is in testing for jadeite?"

Jadeite is a crystalline aggregate that has reached a certain grade and is formed by its geological environment. It is mainly composed of jadeite, sodium chromite, or sodium calcareous pyroxene (omphacite), and it may also contain amphibole, feldspar, chromite, and limonite.

Even though these components had already been identified quite some time back, there is no equipment that can accurately detect the jadeite water species within the original stone.

“When the time comes, we can bet on some high quality grade jadeite to make a teapot for my Grandfather and make some sets of jewelry for Mom and my Aunts.”

Lu Jingye heard Zi Yi’s plan and after she finished talking, he asked, “What about you?”

Zi Yi shrugged her shoulders. “I don’t like to wear these stones.”

Other than her wristwatch, Zi Yi did not have any other accessories on her. It wasn’t because she was not in possession of any. It was the opposite. Lu Jingye had prepared hundreds of pieces of jewelry for her, but she was not fond of wearing them. In her words, it’s because: “Some substances in these pieces of jewelry will affect the accuracy of my experiments, and wearing them would be burdensome instead.”

It was only because of this that Lu Jingye stopped buying pieces of jewelry for her.

Lu Jingye looked at her confident expression and stroked her hand as he said with a smile, “Is it considered cheating if we bet on the stones we’ve already checked?”

“Yes,” Zi Yi said with a smile. “But when I made the equipment, I had covered it with a layer of invisible material. When other people see me holding onto the stone later on, they wouldn’t be able to guess which stones will surge in price.”

Speaking of which, Zi Yi turned around and hugged Lu Jingye’s arm as she discussed with him. “Let’s not disclose our relationship at that time. Let’s just say that I’m your gambler. Say, do you think anyone would come and poach me?”

“No way.” There was no room for negotiation on this aspect.

Zi Yi looked at his serious expression. She got an idea and suddenly propped herself up as she kissed the corner of his lips.

Lu Jingye looked at her and there was still the ‘no room for negotiation’ expression on his face.

Zi Yi blinked her eyes several times and she clicked her tongue. “You don’t love me anymore.”

Lu Jingye looked at her seriously with his lips tightened together.

Zi Yi continued to say, “It’s only a small request of mine and yet you refuse to allow it. You must not love me anymore.”

She was about to release his arm after that.

However, in the next second, her view spun around and she ended up getting pressed on to the sofa.

There was a slight trace of a dangerous aura as he said, “Do you think I don’t love you anymore? Hmm?”

He started unbuttoning her clothes.

Zi Yi looked at the man before her that was giving off a dangerous aura and she felt that he seemed even more handsome than usual.

1

Lu Jingye's expression was very heavy, and he looked as if he wanted to teach her a lesson.

However, he was very gentle when he unbuttoned her clothes.

Zi Yi wore a loose, short-sleeved bubble print T-shirt.

1

Lu Jingye had his eyelids slightly lowered and she could not see through what he was thinking at this present time.

Zi Yi thought that he would kiss her.

She was even prepared for the kiss.

However, she did not expect him to stop at that moment.

Zi Yi gave him a puzzled look.

She then reached out her hand in an attempt to hold his neck.

However, she was stopped by Lu Jingye. "Don't move." His voice sounded serious and hoarse and Zi Yi was instantly bewitched by him.

Zi Yi called out to him cutely, "Ah Jing."

"Yes."

Lu Jingye responded.

Zi Yi was the type that would not beat around the bush.

Only then did Lu Jingye look into her eyes.

He continued to ask in a bewitching voice, "Do you think I love you or not?"

Zi Yi bit her lips and remained silent.

In the next second, Lu Jingye released her hands and started unbuttoning his clothes.

Zi Yi looked at how he unbuttoned each button one by one and revealed a hard, strong chest that looked slightly muscular.

Zi Yi subconsciously swallowed her saliva.

Lu Jingye asked again, "Are you going to listen to me?"
