Chapter 721: Heading to Tian Long Stockade

Ouyang Ming heard He Fei coughing badly and his hands that were about to reach for the door stopped. He said with a disappointed tone of voice, "Ah He, this is the end of our friendship. Since you're willing to suck up to the man who killed your father, go ahead and do so!"

Ouyang Ming's words were too hurtful. He Fei was so angry that veins stood out on his forehead.

He tried his best to suppress his cough and shouted at Ouyang Ming, "Ah Ming, what the f*ck are you talking about? If you don't believe me, you can make a call home and ask. I know you hate Second... Lu Jingye, and I don't like him either. However, he never lies and everyone in our circle knows that, isn't that right?"

"He doesn't lie...? Ha!" Ouyang Ming took out his phone and dialed a number. At the same time, he turned on the speaker and said fiercely, "Call them and ask, right? You better not get too agitated then!"

The phone rang twice before it was connected. The other party's voice sounded. "Hello, Ah Ming? How is it that you remembered to call me? Did you manage to get rich over there? When will you be coming back to treat your brothers to a drink?"

Ouyang Ming could not be bothered to exchange pleasantries and he got straight to the point. "Ah Qiang, let me ask you. Who killed He Fei's father?"

"Er... Ah Ming, why did you ask about this?" The other party suddenly covered the phone. They were currently drinking at a bar. He covered his phone and said to the rest, "Ah Ming is suddenly asking me who killed Ah He's father. Don't you find it weird?"

"So many days have passed and Second Master He has already been buried deep underground. Could it be that they don't know yet? No wonder, I was thinking why Ah He didn't even come back for his father's funeral. So it's that he didn't know?"

"Then tell him quickly."

He nodded and released his hand that was covering the phone. The first thing he asked was, "Ah Ming, is Ah He next to you right now?"

Ouyang Ming responded with a hum.

The other party said, "The situation is a little complicated, let me explain it to you."

How could Ouyang Ming be in the mood to listen to him explain things? He ended up saying, "We have something urgent to attend to, just cut it short."

"Alright then. At first, everyone knew that it was Second Brother who killed Uncle He..."

Ouyang Ming immediately pressed the end button and looked up. He Fei widened his eyes and revealed an expression of disbelief. Ouyang Ming scoffed and said, "You heard that? As to whether they lied or not, it's something that can be checked just with a call. Yet, you believed that he's not the culprit just because he said something?"

He Fei felt a strong surge of hatred gushing upwards and his body started trembling due to this. His expression was also ugly to the extreme.

Ouyang Ming got a fright when he saw He Fei's appearance. He hastily came over and said, "Ah He, take it easy. You're not fully well yet and so don't let yourself suffer from anger."

He Fei tried his best to suppress his anger and said to Ouyang Ming with a hoarse voice, "Ah Ming, aren't there prohibited drugs here that would allow one to recover immediately? Go get one for me, quickly!"

"Ah He, are you crazy?! Do you think the prohibited drugs here can be easily taken as you like?"

He Fei struggled to gasp for breath. His eyes were bloodshot and he looked like a wolf that would tear apart its prey at any time. "If I don't avenge my father, I will have let down my father!"

Ouyang Ming saw his appearance and clenched his fists. "Ah He, don't worry. I will help you."

Having said that, he turned and left.

Ouyang Ming's friend who was in the capital looked at the phone that was disconnected and said straightforwardly, "I haven't said that the real culprit was Uncle He's brother and Ah Ming has hung up the phone call already. Say, do you think I should call him back and finish my sentence?"

"What for? From what Ouyang Ming is saying, it seems like they're about to return very soon. What's more, Lu Jingye has made all our families suffer recently, we'll just let Ah He misunderstand them for a while longer. So what if he finds trouble with Lu Jingye when he returns?"

"You're right. In any case, they'll know the truth when they return."

Ouyang Ming had found out many things in City X during this period of time and he knew where he could find the prohibited drug He Fei wanted. Coupled with the fact that Long Aotian wanted to make use of him and He Fei, he was also willing to give them some convenience here. Therefore, when Ouyang Ming went to purchase the drug, the other party sold him the drug the moment Ouyang Ming mentioned Long Aotian's name.

Most importantly, the female worm had just so happened to send one of her children to take He Fei away.

When Ouyang Ming returned to where He Fei was, he took advantage of the opportunity, when both sides were fighting, to feed He Fei the drug.

He Fei felt that the pain he felt was blocked and he got up. Soon, they secretly left the hotel together.

When Zi Yi got to know of the situation there, Lu Jingye merely said, "Since they wish to leave, let them be."

There was no need to explain to someone who was unwilling to believe in him.

Since they wanted to go against him, then go ahead and do so.

It was 11 a.m right now. Lu Jingye whipped up something for Zi Yi to eat. After she was done, the both of them got in the car and headed towards Long Aotian's place.

It was still raining outside, but the rain was not as heavy as it was in the morning.

Lu Jingye was still worried and he reminded her again. "Don't wander around alone when you arrive there. If you wish to go to the washroom or go out for air, tell me."

Long Aotian was one of the most powerful bosses in the Bermuda Triangle that dealt with arms and none of his subordinates were small fry. Lu Jingye did not wish for Zi Yi to come along at all, but she had insisted.

Zi Yi was busy assuring him. "I won't go anywhere. I'm just worried that the female worm might be in possession of weapons from the future that I don't know of. If I follow you, I'll be able to make a weapon to resist hers the moment I see it."

They had eight invisible robots and Little Loli. Zi Yi got them all to carry some items along with them and if they really encountered a situation like what Zi Yi had described, she would be able to create something to block against their weapons right away.

They were heading to Long Aotian's place, called the Tian Long Stockade.

The stockades of these big bosses were all located in the mountains. Each of them occupied a place.

When the car drove out of the city, both sides of the road became lush with vegetation. Zi Yi turned on the virtual screen and quickly connected to the satellite in the sky to check the nearby situation.

She called out to Lu Jingye after checking, "Ah Jing, the terrain structure of this Tian Long Stockade is so strange. Isn't it similar to the Taiji Eight Diagrams we have in our country?"

Lu Jingye looked at the topographic map and said, "One of Long Aotian's aides is from our country. Moreover, he's an expert in this field."

"It's no wonder." Even though Zi Yi said that, she was not worried in the slightest. "The arrays and magnetic field on Earth have no influence on my robots."

Lu Jingye pointed at the east of the map. "This place is near a lake, but there are cliffs surrounding it."

"Do you think Long Aotian's arsenal is kept around here?"

"Yes. Yunxiao went around to investigate before. However, it is heavily guarded and he did not go in to take a look."

Both of them were not presently as concerned about this. What they were more concerned about was where Long Aotian would keep his arms that he was intending to use to blow them up.

Chapter 722: Dealing With the Bosses

Zi Yi and Lu Jingye did not dwell on it for too long. The car soon arrived within the vicinity of the Tian Long Stockade.

The entrance of the stockade was built like a fortress.

There were many tall and burly men armed with guns standing guard on the fort top

It was the same situation for the entrance.

There were a few cars in front of them entering the stockade and they saw a few guards using an instrument to check the surroundings of the car.

Zi Yi looked in that direction and scoffed. "Is this Long Tian Stockade afraid that people entering the place have brought along powerful weapons? Hmph, their actions are basically allowing themselves free rein to do anything, while ordinary people are even restricted from legitimate activities."

Lu Jingye was also looking at the cars in front of them. "It should be people from the Black Tiger Stockade in front of us."

"Black Tiger Stockade?"

"Yes. They deal in the firearms business, similar to Tian Long Stockade. On the surface, both sides don't seem to have much of a friction."

As to how many businesses they had snatched from each other in the dark, and how many people died from the conflict, no one knew.

"Even though that's the case, the boss of the Black Tiger Stockade still ended up coming?"

"Long Aotian called them over today mainly to deal with me."

"..."

Lu Jingye tilted his head and looked at Zi Yi.

"These people believe his bullsh*t?"

"They don't." A seemingly invisible smile curved up on his lips. Everything seemed to be in the palm of his hand. "Therefore, I agreed to the invite."

Long Aotian claimed that he wanted to unite with everyone to deal with Lu Jingye and did not mention that he wanted to kill him. Instead, he wanted to force Lu Jingye to take out what they needed. However, these bosses aren't stupid and they knew that Long Aotian was thinking of using them. When the time comes, everyone would surely do something in the dark.

As long as these people came with different intentions, Lu Jingye was confident he could make use of them.

Zi Yi knew that Lu Jingye had made plans in advance and she was not worried at all. She continued looking in front and asked, "Would those people from the Tian Long Stockade collect the weapons they brought along with them?"

"They won't. People here feel unsafe without weapons in their hands. Since Long Aotian wants to make use of them, he would not do anything to incur their wrath after inviting them over."

Zi Yi nodded her head and did not continue asking questions.

There were around six cars in front of them and one of them was a luxury car. The remaining cars were modified seven-seater SUVs.

Clearly, the person seated in the luxury car was the boss of the Black Tiger Stockade and his subordinates occupied the rest.

The six cars were only allowed inside after around five minutes of inspection.

Subsequently, their cars drove forward.

Lu Jingye had brought along some bodyguards of his and all of them occupied five cars.

Before the inspection, a man dressed in a military uniform, similar to that of Country E's general, came up to them.

Zi Yi looked at the man who had a heavy built figure and roared at him. "Even wearing such handsome military uniforms, these people are still unable to conceal their bandit-like aura. It looks so awkward... Do they think that by wearing that uniform, they are able to show their contempt for all the other countries?"

Just then, the man had walked to their car and he knocked on the back passenger window.

Lu Jingye did not lower the window.

The man seemed to insist on getting what he wanted and he continued knocking a few more times.

However, he ended up walking over to knock on the front passenger window with a dark face.

The window was rolled down and a chilly looking face appeared before the man's eyes.

When the man saw Shadow, he was obviously stunned by his aura for a moment. He recovered his senses in a second and fake coughed to clear his throat. "This is Mr. Lu's car?"

"Yes."

"For everyone's sake, we have to inspect all your cars. I'm here to inform you in advance and hope that Mr. Lu won't think much of it."

Shadow waited for a moment. He waited for Lu Jingye to nod his head before he said, "Ok."

The man outside wanted to say something else, but Shadow had rolled up the window.

Zi Yi looked at the man's facial expression and was amused. "This man was thinking of giving us a scare and has ended up failing to do so. His expression almost became deformed just then."

When Zi Yi was talking, she even shifted to the side to look at the scanning equipment in their hands.

Lu Jingye pulled her back and said, "Let them slowly check in whatever way they please."

Zi Yi said, "If they can find anything from our cars, isn't my name as the interstellar's... I mean, wouldn't my name as a technology geek be for nothing?"

Lu Jingye's lips curved up. He held her hand and nodded.

The inspection time for their cars was longer than that of the cars that went in before them.

After all, Long Aotian was trying to guard against Lu Jingye the most.

After the car drove in, there was a very long winding road.

The rain had finally stopped by then.

There were many trees and buildings on both sides of the road, and many gullies and high ridges. After the rain stopped, they sparkled in the light.

Zi Yi looked at the building and terrain outside the window for some time and came to a conclusion. "It seems like Long Aotian is very scared of dying."

The car continued driving for nearly 20 minutes before it stopped at a large, flat, open space.

There were many cars parked there. Those cars did not park together, instead, they were parked in individual groups.

It was obvious that each group belonged to different bosses.

The people who arrived first had alight alighted and headed over to the building in front of them. There were also bodyguards guarding the surroundings of every group of cars.

When Lu Jingye's cars arrived, they saw many people coming out from the building. The man in the middle had a headful of red hair and wore a navy blue coat as he played around with the two jade beads in his hands. Based on the aura he and the people around him released, it was obvious that their identities were not simple.

"That's Long Aotian."

This was the first time Zi Yi had seen Long Aotian and she was a little surprised. "On the surface, this man doesn't look like an arms lord."

He had instead, given off an iron-blooded aura.

Lu Jingye explained to her. "He used to be an international mercenary."

"...It's no wonder."

Shadow alighted from the car first and came to open the doors for Lu Jingye and Zi Yi.

Lu Jingye alighted from the car first and turned around to help Zi Yi out.

Long Aotian along with the group of people he led had already come over to where they were.

"Mr. Lu, long time no see, I hope you are doing well."

Long Aotian reached out his hand toward Lu Jingye and used another hand to pat his shoulders. There was no need to mention how enthusiastic he was.

Lu Jingye returned his handshake and withdrew his hand after a few seconds as he said with a gentle and humble expression, "Mr. Long, long time no see."

Long Aotian laughed out loud and seemed as if he was extremely welcoming of Lu Jingye. Only then did he shift his gaze to Zi Yi's face and he said in surprise, "This must be Mrs. Lu. You are indeed very beautiful."

“Thank you.” Lu Jingye pulled Zi Yi into his arms and adopted a protective posture.

The smile on Long Aotian’s face deepened considerably at the sight of this.

He then made a gesture of invitation to them. “Mr. Lu, Mrs. Lu, please. Everyone has arrived and is waiting for the both of you.”

The two of them followed Long Aotian and his group and headed towards the entrance.

While walking Long Aotian casually asked, “I wonder how much business Mr. Lu has brought along with him this time?”

Lu Jingye also answered casually, “Plenty.”

“Haha, Mr. Lu is so domineering as usual. I wonder who has the luck to be doing business with Mr. Lu this time?”

“It would depend on who has the greatest sincerity.”

Long Aotian suddenly stopped walking and revealed a strong aura. “Is that so, then does Mr. Lu think I am expressing a sufficient amount of sincerity?”

Chapter 723: You Can’t Even Complete Such a Small Task. Drag Her Out To Feed the Dogs

Lu Jingye still had that gentle and calm expression on his face. “Mr. Long has invited us for a meal and we have yet to start eating. As to whether your sincerity suffices or not, I can’t make an evaluation right now.”

Long Aotian narrowed his eyes at Lu Jingye’s words and started laughing out loud.

He made a gesture of acquiescence to Lu Jingye after he finished laughing. “Mr. Lu is right. Let’s talk slowly after we finish eating.”

Lu Jingye nodded. “Sure.”

Thus three of them stepped through the entrance together.

There was a porch upon entering and walking past the porch was the lobby.

There were already five to six individuals seated in the lobby and all of them were the bosses in the Bermuda Triangle.

The meal here was not one where everyone sat at the same table.

Instead, each guest had their own tables, and tables were placed on the left, right, and front. It was similar to banquets held by royalty in the imperial ancient times.

Long Aotian took Lu Jingye to a table below his table and stopped. “Mr. Lu, Mrs. Lu, please take a seat.”

The table was a low and long table and everyone sat cross-legged on the padded floor.

Lu Jingye led Zi Yi over and sat down.

Only Lu Jingye had brought along a female companion today and everyone would turn to look at Zi Yi both intentionally and unintentionally.

After the both of them sat down, the rest started greeting him warmly.

The boss of the Black Tiger Stockade spoke up first. "Mr. Lu, long time no see. Since everyone has gathered together today, we must have a few drinks later."

Lu Jingye revealed an appropriate smile on his face. He neither rejected nor accepted the invite.

The boss of the Cang Ying Stockade stared at Zi Yi and the words he said seemed to contain a hidden meaning, "I heard that Mr. Lu dotes on his new wife very much. Now that I've had the honor of meeting her today, sure enough..."

Another person immediately completed his sentence. "If I had such a beautiful wife, I would also be like Mr. Lu and bring her around everywhere. Hahaha."

Lu Jingye still had a smile on his face, but his eyes turned cold. He opened his mouth and said, "My wife is timid and I don't deem it wise to leave her alone at home, so I brought her along. I hope that everyone doesn't scare her."

The bosses processed the information and at the same time, they were smiling deep down inside.

For him to dare to reveal how important that woman is to him, wasn't he explicitly telling them to scheme against his woman?

Even though many of them mentioned they would not scare Mrs. Lu on the surface, all of them already started to have sinister plans deep down inside.

Long Aotian waited for everyone to finish their greetings and said, "Since my guests have all arrived, let's start the meal."

Having said that, he clapped his hands toward the door.

In the next second, crisp ringing bells were heard.

Subsequently, they saw a group of women dressed in clothes made of tulle, with veils covering their faces, walking in with the dishes in their hands.

The people here had seen all sorts of beautiful women before, so when they saw a group of women who would usually arouse normal men, they did not even spare them a glance.

Even if those women deliberately tried seducing them with their bodies as they served the dishes on the table, the bosses merely remained still as those women touched them.

When a few of the women came over to Lu Jingye's table with the dishes in their hands, they were all attracted by his appearance and wanted to take advantage by touching him. However, Zi Yi who was seated next to Lu Jingye took out a silver needle.

Seeing that the woman wanted to touch the back of Lu Jingye's hand, she moved. In the next second, she cried out in pain. "Ouch!"

Long Aotian seemed to have been blind just moments ago and he only looked over after hearing the cry. He said crossly, "What happened?"

The woman said coyly, "Boss Long, I accidentally spilled soup on my hand just now."

Zi Yi snorted.

Long Aotian's expression turned stern and he immediately shouted, "You can't even complete such a small task! Drag her away and feed her to the dogs."

The woman was instantly frightened and her expression changed greatly. Her legs went soft and she fell to the ground. "Boss Long, I didn't mean to. Please spare me this time."

Long Aotian remained unmoved. His eyes were looking at the silver needle in Zi Yi's hand and he suddenly said, "You've angered Mrs. Lu. If you can appease her, I'll let you go."

The moment she heard Long Aotian's words, she quickly scrambled over to Zi Yi's side.

However, Lu Jingye's cold voice sounded just then. "I've said before that my wife is timid. Is Mr. Long trying to frighten her on purpose?"

As soon as Lu Jingye said that, he pulled Zi Yi into his arms and covered her face by resting it against his chest.

Long Aotian revealed an apologetic expression. "Ugh, look at this memory of mine. Men, drag her out and feed her to the dogs."

"Ah... Boss Long please spare me. I really didn't mean to. Mrs. Lu, please plead on my behalf, I don't want to die."

Two thugs soon came in and dragged the woman towards the door.

The woman begged Zi Yi to save her while she was being dragged outside.

A sneer curved up on Zi Yi's lips.

Wasn't Long Aotian trying to test her by deliberately putting on this show? In that case, she'll play with him.

Zi Yi looked up from Lu Jingye's embrace and said fearfully, "Ah Jing, will they really kill that woman? I'm scared, what if they kill me too?"

Before Lu Jingye could speak, Long Aotian seated above them said, "Mrs. Lu is fond of joking. You're an esteemed guest of mine and so who would dare to do anything to you on my turf?"

Zi Yi did not bother looking at Long Aotian and continued her act. "Would Mr. Long kill me too out of a fit of anger?"

Lu Jingye raised his hand and caressed her head. His voice sounded very calm, but his body exuded a chilly and overbearing aura. "If he dares to touch a single strand of your hair, I'll destroy this stockade."

Long Aotian's expression changed several times listening to his words.

Deep down, he was thinking, *“Since you’ve said that, let’s see if you can destroy my stockade then!”*

On the surface he guaranteed to Lu Jingye. “Mr. Lu is really fond of joking. I invited you here today because I sincerely want to befriend you.”

He then raised the bowl of alcohol and said, “To show my sincerity and apologize for scaring Mrs. Lu earlier, I’ll punish myself with three bowls.”

Sure enough, he drank three bowls of alcohol.

The other bosses immediately applauded him.

On the surface, everyone was trying to speak up for Long Aotian in a friendly manner.

“Since Boss Long has expressed his sincerity, Mr. Lu shouldn’t be calculative with Boss Long. After all, that woman has been dragged out and fed to the dogs.”

“That’s right. Everyone’s here to have a drink today. Let’s not break the harmonious atmosphere due to an insignificant thing.”

...

Everyone was persuading Lu Jingye on the surface, but deep down, they were wishing for Lu Jingye and Long Aotian to fight right away.

Zi Yi looked at everyone’s expressions and went back to fully sitting in her seat.

After the ‘unpleasant’ situation, Long Aotian called his men and got them to change all the servers to men. Subsequently, the atmosphere was slightly better.

Long Aotian raised his bowl and said to everyone, “I invited everyone here to have a drink today. Come, let’s have a toast.”

The bosses all raised their bowls.

Lu Jingye had also done so. Only Zi Yi remained unmoved.

One of the bosses seated in front of them asked, “Why isn’t Mrs. Lu drinking?”

Lu Jingye said without a change in expression, “My wife can’t drink.”

Long Aotian immediately said, “My bad, my bad. Men, come serve juice for Mrs. Lu.”

Chapter 724: My Wife Is Timid and I Don’t Feel At Ease Leaving Her Here Alone

Soon, one of the staff members sent over several different types of juice and milk to Zi Yi.

Long Aotian even asked thoughtfully, “Mrs. Lu, I don’t know what you like to drink, so you can choose whatever one you like. If you don’t like anything, I’ll have someone serve you other drinks.”

Lu Jingye glanced at the juices and milk in front of Zi Yi and said, “These will do.”

He then lifted the cup of milk and put it in Zi Yi’s hand.

Zi Yi looked at the milk and said, “I don’t want to drink milk.”

Lu Jingye then took away the cup from her and grabbed a glass of juice and put it in her hands.

Everyone saw Lu Jingye's love for Zi Yi and joked around before they continued drinking.

Perhaps it was due to Lu Jingye's attitude towards Zi Yi, but everyone was rather reserved when they conversed with each other and they did not say too many uncivilized words.

However, all of them wanted to drink with Lu Jingye.

"It's rare to drink with Mr. Lu and we must have a good drink this time."

Lu Jingye said that his alcohol tolerance wasn't good and yet, Long Aotian immediately answered with a smile, "It doesn't matter, you can take a nap here before you return. I've prepared many exciting programs for everyone tonight and since I've invited everyone here as guests, I will make sure everyone has a great time."

When treating others to a meal in the Bermuda Triangle, the luncheon would usually start in the afternoon and the guests would only return at night.

However, the bosses here would rarely visit each other's stockades. After all, who knew if they would start shooting at each other in the next second.

The bosses all drank alcohol using a big bowl, while Lu Jingye continued using a glass.

After several cups were finished, the topic of the conversation shifted to what Lu Jingye was here for at the Bermuda Triangle and what he was doing in Country Em.

"I heard that Mr. Lu and Mr. Sang Bo from Country Em are working together. It seems like Mr. Lu is ready to make a big contribution to the jewelry industry!"

Lu Jingye held his glass of wine, lowered his eyes, and said some pleasantries with a calm expression. "Mr. Sang Bo and I have had continued cooperation and I am also happy to continue working together with him."

"Haha... Mr. Lu, you're being modest. If not for your capabilities, how could Mr. Sang Bo choose to work with you?"

"That's right, that's right. Don't tell me Mr. Lu is not telling us the truth because you're taking precautions against us? Haha..."

"Haha... Mr. Lu doesn't have to do that. We're just casually asking."

"However, I'm very curious. Mr. Lu is only dealing with jewelry now and so do you still need other things from outside?"

Everyone said their questions in a joking manner, but they were actually seriously trying to sound him out.

However, Lu Jingye's answers were even more perfect than theirs. Even though it seemed like he had answered all their questions, they were all dissatisfied with his answers. Quite a few bosses were upset but they could not say anything

After drinking for some time, Lu Jingye's drinking speed slowed down.

One of the bosses said with a smile, "Mr. Lu, you've only drunk a little, and so don't tell me you can't take it anymore?"

Lu Jingye held Zi Yi's hand under the table and said to everyone, "I'm indeed a little out of practice. I'll be heading to the washroom, everyone can continue without me."

Having said that, he pulled Zi Yi up.

Someone deliberately teased him. "Mr. Lu is bringing Mrs. Lu along to the washroom. How lovely their relationship is, hahaha..."

Lu Jingye said in a serious tone, "My wife is timid and I don't feel at ease leaving her here alone."

The man felt as though he was hitting soft cotton and the smile on his face eased a little, but he did not say anything else.

Long Aotian called for one of his men to lead them to the washroom.

The moment they took their leave, the topic of the bosses' conversation immediately changed.

"Say, how much money do you think Lu Jingye still has in his hands?"

"I think he's still very rich. Otherwise, he would not have fooled and toyed around with those rich bosses in Country Em."

"Have you heard of it? A black card appeared in Ange's casino the night before yesterday."

"For real?!"

"Yes. It just so happens that one of the bosses I know gambled with the black card holder. He said that there were two men and a woman. Even though their appearances were ordinary, they had given off imposing auras.

Their heart rates spiked up.

Those three people must be Lu Jingye and Mrs. Lu. The other person did not matter much.

"I've heard before that Lu Jingye is in possession of a limitless black card. Hmph, as I expected, even though he no longer has the identity of the Lu Group's President, it wouldn't affect him much with his capabilities."

"That's right. Otherwise, he would not have dared to come here again."

"If we take his black card..."

Everyone was having similar thoughts and the atmosphere became silent as their minds were actively turning around.

At the same time, they started to be wary of the others.

Just then, Long Aotian said, "In fact, the reason I called everyone over is for this matter. Why don't we... work together?"

Everyone watched him closely.

Deep down inside, they were scoffing: *"Only a fool would work together with you on your turf."*

Long Aotian seemed to have guessed everyone's thoughts and said, "I'm very interested in the robot technology in Lu Jingye's hands and I wish to invest in it. Also... I'm very interested in his woman."

Having said that, he lifted the bowl and drank the alcohol. After filling up the bowl again, he continued to speak, "I only want his woman. I will leave Lu Jingye's card to you."

The expressions of the bosses had eased a little.

Long Aotian did not want Lu Jingye's black card? That was unexpected.

It had to be known that the black card represented wealth.

Since he only wanted Lu Jingye's woman, doesn't it mean that the woman can bring them greater benefits?

All of them were not easy to fool. At the thought of this, they casually raised the bowl to drink, as if considering his offer.

But in actual fact, all their minds became increasingly active.

They knew what kind of person Long Aotian was and they had also made adequate preparations when they came. Therefore, they were not worried as to what he would do to them.

However, after hearing what Long Aotian said, why should they just settle for Lu Jingye's black card?

Isn't it better to have both the woman and the card?

"Come on, let's continue to drink."

"Haha.. let's drink, let's drink. There's still quite some time anyway."

After drinking for some time, someone stood up and said, "I can't take it. I'm going to sober up."

Subsequently, he went out while staggering from side to side.

Long Aotian said to him, "I've got my men to prepare a place and you can take a rest there."

The man waved his hand with his back facing Long Aotian and went out.

After the first one left, sometime later, there were the second and the third.

When everyone used the excuse of sobering up to leave, one of Long Aotian's men came up to him and whispered, "Boss, do you need me to send someone to monitor these people?"

"No need." Long Aotian did not regard them as a threat. "I know exactly what they are trying to do."

Wasn't it just to make arrangements to snatch both the black card and the woman?

They still don't have the ability to snatch something from him on his turf.

Long Aotian asked, "How's the preparation on Miss Yesa's end?"

His subordinate replied, "Miss Yesa is ready."

Long Aotian took a sip and asked, "Where are the two from the capital?"

Chapter 725: As Expected of a Higher-Tier Species. To Think That You Broke My Magnetic Space Field So Quickly

Long Aotian's subordinate told him about He Fei and Ouyang Ming's locations and at the same time, he mentioned He Fei consuming the prohibited drug.

Long Aotian was very satisfied. "Give them some weapons and tell them to do well. I won't treat them badly when the time comes."

"Yes."

Long Aotian's subordinate left immediately after.

...

On the other side.

Zi Yi and Lu Jingye were taken to the washroom.

Lu Jingye said to Long Aotian's man, "There's no need for you to wait here. We'll make our way back ourselves."

Thus, the person left.

Zi Yi and Lu Jingye stood outside the washroom and Lu Jingye touched his watch. "Head to the washroom first. I'll wait for you outside."

Zi Yi indeed felt like going to the washroom and so, she headed inside.

This building was clearly built to accommodate guests and so, the washroom also had a luxurious interior.

When Zi Yi walked into the washroom, she discovered that there was a rest area. Inside there were cigarettes that were not sold outside.

After she came out of the washroom, she noticed that the space around her had changed.

Zi Yi did not panic at all in such a situation. She called out to the air. "Little Loli."

"Sister."

Little Loli appeared in front of her.

"Where are we?"

The most powerful skill of the Worm Race was the twisting of space. It was obvious that this was not the place she had come in from.

Little Loli said, "We are located five kilometers from the original place you came in from."

Zi Yi nodded and asked, "Where's Ah Jing?"

“Brother-in-law is rushing over.”

As soon as Little Loli said that, Zi Yi’s watch lit up.

She tapped her watch and Lu Jingye’s image appeared.

Lu Jingye furrowed his eyebrows and there were traces of chilliness in his eyes. Clearly, he looked a little anxious.

“Yiyi, I’m coming over to bring you away.”

Zi Yi tapped a few times on the virtual screen and soon, the situation around Lu Jingye was reflected.

“Ah Jing, don’t come over. The female worm is here. Bring a few robots and gather with Yunxiao to deal with Long Aotian first. I’ll deal with the female worm.”

Lu Jingye’s frown tightened. He was worried about her.

Zi Yi thought for a moment and said, “The Worm Race can create space holes and you won’t be able to locate me even if you rush over. I’ll break her space holes first then come to look for you.”

Lu Jingye stopped and the frown on his forehead was still causing his eyebrows to be tightly knitted together. He then said in a heavy voice, “Take care of yourself.”

“Got it.”

Having said that, Zi Yi turned off the screen and quickly said to Little Loli, “Turn on the detector.”

“Alright, sister~”

Little Loli turned on the detector and the both of them headed outside together.

The moment they came out of the washroom, they were located in a courtyard and even the washroom behind them disappeared.

There were several large coconut trees in the courtyard. The season where the coconuts were ripe had long passed and yet, there were still many coconuts hanging on the trees.

Zi Yi looked at the coconuts on the tree and crossed her arms as she sneered. “You’re a small little worm and so do you think you can possibly do anything to me by creating so many tricks?”

Having said that, Zi Yi turned to Little Loli. “Burn all the coconuts.”

Little Loli’s body leaped up and she reached the height of the top of the trees. Several bundles of fire appeared in her hands and immediately afterwards, they were sent flying towards those coconut trees.

While the coconuts were burning, the space distortion happened once again.

Zi Yi called out, “Shadow.”

The moment Shadow appeared, something similar to a sword appeared in his hand.

He waved the sword in the space and the space distortion stopped.

A blonde woman walked out from the void.

“As expected of a higher-tier species. To think that you broke my magnetic space field so quickly.”

“Ha!” Zi Yi sneered. “You’re only a child worm but your tone is indeed arrogant.”

“You’ll know if I’m being arrogant or not after we fight it out.”

A gun appeared in the blond woman’s hand. She aimed the gun at Zi Yi. “We have numbers on our side and the best research laboratory. Do you think we won’t be able to handle a higher-tier species who has nothing?”

“Sure enough, you people are working for the secret base in Country A.”

“So what?” The woman was particularly arrogant. “This type of primitive planet should be ours!”

When the woman said that, she pressed the trigger.

The gun in her hands was not loaded with bullets but a type of laser. The speed of the laser was much faster than that of a bullet and the moment it came into contact with the air, the temperature of the air around it instantly reached thousands of degrees.

Seeing that the laser was about to hit Zi Yi, an invisible light shield blocked it when there was still around half a meter before it struck Zi Yi.

The blonde-haired woman was surprised. “Impossible! How could you create a shield to resist our laser so quickly?!”

The blonde woman’s expression turned fierce and she quickly fired several shots at Zi Yi.

At the same time, Zi Yi threw out a circular ball and Little Loli had also moved.

The circular ball transformed in the air into a flaming sword. Little Loli quickly grabbed the hilt and dashed towards the blonde woman.

The blonde woman looked at the flaming sword heading in her direction and made a disdainful remark. “Do you think ordinary fire has any effect on the Worm Race?”

Whoosh~

The next second, she looked at the sword that had pierced through her body and widened her eyes in disbelief. Subsequently, her expression revealed the great pain she was in.

“AH-!”

Zi Yi smiled. “Do you think I will use ordinary fire to deal with you?”

“Imp-ossible...”

The blonde-haired woman’s face was constantly distorted, while her body was constantly shrinking. Soon, she transformed into a worm that was writhing around in pain.

Her body was covered in fire as sizzling sounds could be heard. Soon, the place smelled like a barbeque.

The smell was very heavy and the space around the worm kept twisting. Subsequently, the female worm's extremely furious, shrill voice sounded. "How dare you kill another one of my children? I'm going to kill you!"

A green solution fired towards Zi Yi like a fountain.

Little Loli and Shadow were protecting Zi Yi on both sides while Shadow II, III, and IV appeared at the same time with a flaming sword in their hands and waved them around.

Several men and women of different skin tones appeared and got into a fight with Shadow II, III, and IV.

The green solution continued firing at Zi Yi.

Zi Yi looked at the solution and raised her brows with an expression of disdain.

Shadow took out a bottle and opened the cap before pouring the transparent liquid around their surroundings. The moment the green solution came into contact with the transparent liquid, it underwent a chemical reaction and turned into a pool of water.

Shadow II, Shadow III, and Shadow IV took care of the worms that appeared and watched the worms turning into a barbeque.

Zi Yi looked at the void and asked, "Do you have anything else? You had better call out all your children and let my robots barbeque them."

"AHHH-"

A shrill scream sounded and strong winds blew around the space.

Little Loli and the few Shadow robots quickly surrounded Zi Yi in the middle. The five robots formed an iron wall.

Two circular balls appeared in her hands and Zi Yi threw them out.

After several bursts of sound similar to that of thunder, the sound waves disappeared and so did the female worm. The space was restored to its original state.

Just then, a red signal was reflected on Zi Yi's wristwatch.

Chapter 726: This Is the Truth of Your Father's Death

It meant that a situation had happened on Lu Jingye's side.

Clearly, the female worm had decided to attack Lu Jingye after having found no success on her side.

Zi Yi's expression sank and she quickly gave out instructions to the Shadow robots. "Shadow I, II, III, IV, immediately go and assist Ah Jing."

"Yes, Master."

After the Shadows left, Zi Yi and Little Loli quickly headed towards the door.

Little Loli asked as they walked, "Sister, are we heading to where brother-in-law is?"

“Not yet.”

As soon as Zi Yi said that, she increased her pace.

Little Loli had also quickened her pace and followed Zi Yi.

After walking out of the house, Zi Yi found a remote corner and stopped to talk to Little Loli. “Find all the places where the explosives are buried and remove all the nitroglycerin of those explosives.”

“Yes, Sister~”

Little Loli immediately disappeared on the spot.

Zi Yi stood there and turned on her virtual screen and connected to Lu Jingye’s watch.

Soon, the situation on the other side was shown.

The female worm had Lu Jingye surrounded by a forest.

A few of his Shadows were currently fighting against its children.

Lu Jingye saw his watch flash and he tapped the watch.

Zi Yi’s projection appeared. “Ah Jing, I’ve taken care of the situation on my side. The female worm is only coming for you now and I sent my Shadow robots to assist you.”

Lu Jingye’s breathing turned sluggish and he hastily said, “You sent your Shadow robots over, what about you?”

“The female worm and her children have left my side. If I encounter Long Aotian’s men later, it’s just a matter of minutes to take care of them.”

Lu Jingye was still very worried. His voice sounded tight. “Little Loli isn’t beside you?”

“I got her to remove the nitroglycerin from the explosives Long Aotian buried.”

There were strong emotions of worry in Lu Jingye’s eyes.

“Where are you? I’ll come over right away after I’m done here?”

Zi Yi sent him her coordinates.

“Don’t leave from there and find a place to hide. Don’t confront Long Aotian’s men.”

She did not have the wariness of a pregnant woman at all and Lu Jingye was extremely worried. “Be sure to pay attention to your safety.”

1

Zi Yi nodded her head. “Got that.”

Just then, the space on Lu Jingye’s side started to distort and Zi Yi said, “The female worm has arrived at your side.”

Zi Yi’s Shadows had also appeared at the same time.

Their video call was disconnected the moment the space started distorting.

Zi Yi looked at her surroundings.

This was the back mountain of the stockade and there were many buildings and even more forests. In particular, there were tall towers spaced around her.

On top of those tall towers were heavily built men armed with weapons.

Zi Yi stood there without moving. She turned on a laptop-sized virtual screen and continuously swiped across it.

Just then, someone was approaching her from somewhere near.

Zi Yi looked up and soon, she saw He Fei running over to her side in large strides.

He Fei's expression did not seem normal. He was running around and gasping for breath. Moreover, he was looking at his surroundings while running, clearly looking for something.

Zi Yi coldly looked at him running through the door she came out from. He was in there for some time before he came running out.

After he came out, he squatted down over there.

Zi Yi looked away and when she was planning to ignore him, He Fei's panting cry sounded. "Zi Yi."

Zi Yi furrowed her eyebrows.

He Fei stood up and looked at his surroundings while shouting, "Zi Yi, if you are in the vicinity, come out. I'll take you out of here."

Zi Yi's frown tightened.

He Fei seemed to have exhausted all his strength, as his hands were hanging limply by the sides, while he muttered to himself, "Long Aotian invited you two today and he has no intentions of letting you leave. Why did you come here with him? Are you seeking death?"

Zi Yi tightened her lips.

He Fei continued to speak, "I know that you've never liked me and to be honest, I fancied you because of your looks too. Now that I've experienced so many things, I discovered that I don't like you anymore. You're a heartless and spiteful person, you..."

"Are you looking for a fight?"

When a cold voice sounded near him, He Fei suddenly jumped up.

He looked at Zi Yi and there was no need to mention how strange his expression was. "Sure enough, you're still around here."

Zi Yi did not make her way over. She merely stood beneath a tree and said indifferently, "It was impossible for you to have gotten up from the hotel bed. With how you're alive and kicking right now, it means that you ate a prohibited drug. This drug can block your pain senses for the time being and

restore your strength to its best condition. However the side effect of the drug is that you will suffer miserably in the following period of time and end up dying.”

He Fei felt his heart tighten at her words. He clenched his fists and smiled with indifference. “Anyway, I have accomplished nothing and I couldn’t even send my father off at his funeral. Isn’t it better to die? In that case, I don’t have to go back and face the accusations from my family.”

Zi Yi scoffed and helped him finish the sentence. “Before your death, you’ll bring Ah Jing and me together down with you too, right?”

He Fei’s pupils shrank and his clenched fists tightened. A smile curved up on his lips and he said, “Even if I were to drag someone down with me, I won’t pull you along with us.”

He looked at the surroundings before turning to Zi Yi. “Are you lost? I’ll take you out.”

His expression was very serious when he said that.

Zi Yi looked at him with a taut expression and did not answer him.

He Fei’s phone suddenly rang and he did not answer it as he stared at Zi Yi while repeating himself. “It’s dangerous here. You’ll hold him back if you’re here anyways. I’ll send you out first.”

“He Fei.” Zi Yi looked into his eyes. “You still don’t know the truth of your father’s death?”

He Fei’s body suddenly trembled and his eyes reddened. He gnashed his teeth and said, “I already know.”

“You think it’s Ah Jing who killed your father?”

“Isn’t that the case?!”

Since they had laid out all their cards, there was no need for He Fei to continue pretending. He said with an expression of hatred, “Even if he robbed me of the woman I like, I can tell myself that I am lacking in comparison and that it was understandable that you liked him.

“However... he killed my father and yet, he did not dare to admit doing so. Hahaha... to think that I believed in him and felt that he would never lie.”

Speaking of this, He Fei’s eyes turned even redder. His body trembled even more as he tried to suppress his anger and hatred.

“I was blind to have regarded him as an object of admiration and always aimed to accomplish something to make him look at me differently.

“He killed my father and with this grudge between us, our relationship is absolutely irreconcilable!”

Zi Yi tightened her lips and looked at him for a few seconds. She did not bother explaining and tapped on her watch. Immediately afterwards, the scene of He Fei’s father’s death was displayed. Subsequently, He Fei’s Grandfather beat up his First Uncle while his mother scratched at him.

He Fei looked at the image in front of him and he felt his head buzzing. He revealed shock and disbelief in his eyes.

Zi Yi said, "This is the truth of your father's death."

He Fei seemed as though he had not heard Zi Yi's words. He lowered his eyes and revealed a smile that was even uglier than that of a crying face.

It just so happened that his phone rang again.

Chapter 727: As Expected, It's Good To Have a Beautiful Appearance

He Fei revealed a complicated expression. He looked at Zi Yi and repeated what he said earlier, "Yiyi, I'll send you out."

Zi Yi looked at him with a frown. "You don't believe what you saw?"

He Fei shifted his eyes away and avoided looking at her. He suppressed the strong surge of emotions and said with reddened eyes, "Whether I believe it or not, my father is dead. As his son, it's a fact that I didn't return to see him off."

At the very least, I should avenge my father.

He did not say the last sentence out loud.

Zi Yi looked at He Fei's reaction and knew that he did not believe what he had just seen. Her lips unconsciously curved up and she sneered. "Forget it if you don't believe it."

She did not want to bother explaining it any further either.

He Fei's grief burst out at her words. He shouted at her with reddened eyes, "How do you expect me to believe it? Who doesn't know that your computer skills are good?"

"Pft!"

Zi Yi could not be bothered to talk to such a one-track-minded person and turned around to leave.

"Where are you going?"

He Fei quickly came over and blocked her way as he said in a heavy voice, "There are Long Aotian's men all around here. Other than him, Rick and a powerful woman are here too. You aren't their opponent at all."

Zi Yi gave him a cold stare. "I'm going to look for Ah Jing."

He Fei gritted his teeth and was extremely irritable. "I don't think you're going to look for him but to die with him instead!"

As soon as he said that, he tried to grab Zi Yi's arm. "Come with me, I'll send you out of here."

Zi Yi turned to the side and blocked his outstretched hand at the same time.

He Fei started to get anxious.

Why doesn't this woman listen to me? Does she want to die so badly?

The both of them were about to get into a fight, when the sound of footsteps were heard from one side.

Subsequently, Ouyang Ming's displeased shout sounded, "Ah He, since you found her, why didn't you call me?!"

The moment He Fei heard Ouyang Ming's voice, he cursed deep down and stopped trying to grab Zi Yi as he blocked her behind him.

Ouyang Ming was accompanied by Rick and a group of bodyguards.

Zi Yi looked at Rick approaching them and the corner of her lips turned into a scowl.

As expected, the Worm Race had occupied his body.

After Rick approached them, he looked at Zi Yi with a sinister gaze. "Capture her."

A few of his bodyguards quickly made their way towards her.

He Fei got anxious and shouted, "Don't come over."

Rick smiled. His smile was full of mockery. "As expected, it's good to have a beautiful appearance. Even at this point in time, there are men willing to step out to protect you."

Ouyang Ming who was standing next to Rick looked at He Fei and Zi Yi with gloomy eyes. He was livid and he shouted, "Ah He, are you out of your mind? I don't believe Uncle He's death is unrelated to this woman. If you really protect her, it's equivalent to protecting an enemy that killed your father! Are you planning to let your father die with remaining grievances?"

The moment He Fei heard Ouyang Ming's shout, his expression also turned ashen. He said with a taut expression, "She's a woman. I don't kill women."

"Pft... you mean that she's the woman you like and you can't bear to kill her."

Ouyang Ming crossed his arms and looked at him coldly. His eyes were full of disappointment.

Rick laughed at the sight of the scene before him happily. "How interesting."

His expression changed in the next second. "Capture her."

Seeing that the bodyguards were about to approach her, several silver needles appeared in her fingers.

He Fei stood in front of her blocking the incoming people and shouted, "Who dares to?!"

He quickly released a kick and it landed on the knee of one of the bodyguards.

Rick got angry. "Beat him up!"

The bodyguards quickly surrounded He Fei.

Ouyang Ming originally planned to watch how the show played out but when he saw that He Fei was attacked by the bodyguards, he finally put down his crossed arms and said to Rick in a heavy voice, "Rick, we are comrades and you're not really going to do anything to He Fei right?"

Rick sneered. "Someone who opposes me every time, do you think he's still my comrade?"

"You-"

Just then, one of the bodyguards landed a punch on He Fei's face.

Looking at He Fei getting hit in the face with traces of blood flying out from his mouth, Ouyang Ming became furious. "Stop!"

He subconsciously wanted to head over and help He Fei.

However, just as he took a step forward, Rick's strange voice sounded. "Haven't you been wanting to be the overlord here? Do you want me to help you?"

Ouyang Ming's footsteps stopped.

Rick's chuckle sounded in his ear. "As long as you catch that woman over there, I'll give you what you want."

Ouyang Ming suddenly turned around and looked at Rick.

Both of them made eye contact and Ouyang Ming's heartbeat sped up.

Rick added. "Lu Jingye will die, and Long Aotian along with the bosses he invited will also die due to infighting. As long as you grasp the opportunity..."

Having said that, the corner of Rick's lips curved up. "As long as you work together with me."

Ouyang Ming turned his gaze to He Fei who had been surrounded by several bodyguards.

After He Fei ate the prohibited drug, his movements were obviously much better than before. Even though he had taken a few punches, it did not affect his attack power.

Rick's bodyguards did not have a moment to even approach Zi Yi.

Looking at this, Ouyang Ming headed over in large strides.

Subsequently, Rick's mad laughter sounded from behind.

Zi Yi looked at Ouyang Ming making his way over and she made eye contact with his eyes that were full of ambition. Her gaze turned cold and she shot out a silver needle.

Ouyang Ming's body stiffened and in the next second, he felt that he could not move his body.

He looked at Zi Yi in horror.

Both of them made eye contact and he saw the emotion of indifference in her eyes.

Zi Yi looked away at this point and threw out the remaining silver needles in her hands.

A few of the bodyguards' movements stiffened and He Fei did not notice anything abnormal, as he still launched attacks towards them.

Looking at the bodyguards sent flying out by He Fei, Ouyang Ming felt as if something was stuck in his throat. He wanted to speak but was unable to do so.

Rick had also noticed Zi Yi's action. However, he did not reveal any displeasure due to a few of his bodyguards getting beaten up. Instead, he slowly took out a gun and aimed it at He Fei.

Ouyang Ming suddenly widened his eyes and he finally managed to shout, "Ah He, be careful!"

He Fei's body quickly evaded and dodged the bullet.

The next second, Rick fired another shot at Zi Yi.

At the sight of this, He Fei quickly rushed over to Zi Yi.

"Ah He!"

A circular ball quickly appeared in her hand.

The circular ball collided with the bullet and sent the bullet flying to the ground.

Before He Fei could breathe a sigh of relief, Rick's laughter sounded once again.

After he finished laughing, he threw his gun to the side and snapped his fingers in the air.

A group of armed men quickly approached.

All of them were equipped with heavy weapons.

Rick looked at Zi Yi and said with a smile, "You are outnumbered and I'd like to see if you are still able to escape without any weapons by your side."

Chapter 728: Because I'm a Pervert and I Like To Get Beaten Up By You

Looking at the group approaching them, before Zi Yi had the chance to speak, He Fei stood in front of her and said with a heavy voice, "Yiyi, I'll cover for you. Hurry up and leave."

Zi Yi looked at He Fei protecting her and asked, "He Fei, why are you helping me?"

He Fei was silent for a few seconds before he said in a low voice, "Because I'm a pervert and I like to get beaten up by you."

Zi Yi: "..."

Zi Yi looked at the back of He Fei's head with a complicated expression. Right now, her hands felt rather itchy.

She really felt like hitting him.

Seeing that they were about to become encircled, He Fei did not waste anymore time talking, grabbed Zi Yi's wrist and ran away from their opponents.

Ouyang Ming's exasperated voice shouted from behind him, "He Fei you traitor! You're not going to care how your father died for the sake of a woman?"

He Fei did not listen to Ouyang Ming and he increased his speed, while pulling Zi Yi along.

Looking at the group of men armed with heavy weapons aiming at the two who were running away, Ouyang Ming suddenly felt anxious and somehow managed to move his body.

He quickly turned around and shouted at Rick, "Rick, get your men to stop. I'll go after them and I promise that I'll definitely capture them!"

“Is that so?” Rick seemed to be interested. A mad glint flashed past his eyes. “I suddenly have a better idea. Say, if we let He Fei and that woman do something together and have Lu Jingye see that scene, wouldn’t it be very exciting?”

Ouyang Ming looked at Rick. He suddenly felt that Rick was a mad man.

He said with a wooden expression, “It’s up to you.”

In any case, he did not care about all those things, just as long as Ah He didn’t die.

“Then what are we waiting for? Let’s go after them and chase them.”

As soon as Rick said that, he ran towards He Fei and Zi Yi in large strides.

The group of people around him quickly followed up behind him.

Ouyang Ming paused for a few seconds before he followed Rick.

Zi Yi was dragged around and ran with He Fei for some time. In the end, they only stopped because she pulled out her hand from He Fei’s grip.

He Fei got anxious. “Rick will catch up to us soon. Are you trying to meet your maker by stopping now?”

“Rick and his men are unable to hurt me.”

Zi Yi looked at He Fei and slightly raised her brow. As long as she waited for Little Loli to come back, she would be able to take care of all of them. The reason why she had willingly run together with him was that she wanted to make things clear to him.

“Your father wasn’t killed by Ah Jing.”

He Fei was breathing deeply. “Examine what kind of situation we are in right now, and so is explaining even more important than keeping your life?”

He did not wish to hear her explanation at all.

The more he listened, the worse he felt.

“If you have anything to say, you can tell me after you leave this place.”

Having said that, he tried pulling Zi Yi once again.

Zi Yi looked at his livid expression and took a step back. “Forget it, it’s a waste of time to explain to a stubborn mule like you. Goodbye.”

She headed in another direction and He Fei hastily chased up to her.

He Fei called out to her, “Where are you going? Are you trying to die?”

“I won’t die.”

Zi Yi took out a circular ball and threw it on the ground.

The circular ball quickly transformed into a skateboard.

Zi Yi stood on the skateboard and said, "Go ahead and do what you like."

Having said that, she disappeared in the blink of an eye.

He Fei hastily tried chasing after her but while chasing her, he lost sight of her.

In the end, sounds of someone chasing him were heard from behind.

He Fei subconsciously looked in the other direction.

Unexpectedly, he saw Zi Yi standing there.

While he breathed a sigh of relief, he quickly caught up to her. "This place is very big and I knew that you wouldn't know where to run to. Follow me, I promise to take you out safely."

Zi Yi turned to look at him and her eyes flashed before she said softly, "Can you really take me out? He Fei, can I trust you?"

He Fei took a deep breath and clenched his fist. "You can only trust me now. Do you know how many firearms Rick and Long Aotian had planted all around the stockade just to deal with you two?"

Zi Yi looked up at him and there seemed to be a layer of mist within her beautiful eyes.

He Fei tried hard to control his beating heart and thought to himself, *"During such an inappropriate time, to think that there would be a day when this woman would show her weakness in front of me, how rare it is."*

As the footsteps chasing after them came closer, He Fei hastily grabbed her hand and quickly ran in a certain direction.

He Fei was clearly familiar with the terrain here and he soon widened the distance between them and their pursuers by a large margin.

While running, Zi Yi's footsteps slowed down.

He Fei was a little anxious. "Run faster, otherwise we won't be able to escape."

Zi Yi said, "I can't run anymore."

He Fei momentarily blanked out and said, "Women are really troublesome."

In the next second, he squatted in front of her and said, "Get on my back, I'll carry you."

There were no movements from behind him.

He Fei softly growled. "If you want to die, then you can continue dragging your feet."

When Zi Yi's soft body leaned against his back, He Fei felt his mind spin into a daze.

In particular, Zi Yi even held his neck at this moment.

His breathing lagged a little and his heart felt as if it would jump out of his chest in the next second.

He strongly warned himself not to think too much. This woman did not like him at all and he had already given up on her.

Only then did he stand up with her on his back and started running.

...

After Rick and Ouyang Ming's group chased them for some distance, they were suddenly stopped.

Little Loli stood in front of them and smiled.

"Oppas, what are you trying to do?"

Rick looked at Little Loli and his expression sank. He immediately ordered the men. "Attack."

The group of men quickly rushed over. When they were engaged in a fight, Rick had retreated to one side.

Ouyang Ming noticed his movements and followed him.

"Rick, you seem to be very scared of that girl."

"She isn't human. She's Zi Yi's robot."

Ouyang Ming's expression changed and his footsteps hastened together with Rick.

"Where are we going now?"

Rick's lips curved up. "Of course, it's to continue chasing your brother and that woman."

Ouyang Ming furrowed his brow. "We've already lost them. How do you know where they are?"

"Haha... of course, I will know." Rick made a meaningful remark and he started floating immediately afterwards.

Ouyang Ming noticed that and his eyes widened in shock. "Rick, your feet."

Rick gave him a glance and leaped up. He flew up into the skies and was about to fly somewhere else.

However, just then, whistling sounds of something cutting through the air were heard from another direction.

Before Ouyang Ming had the chance to react, he saw a circular ball striking Rick's leg. Rick's body shook and he fell to the ground.

"Rick, where are you thinking of going?" Looking at Zi Yi who suddenly appeared, Ouyang Ming's eyes were filled with shock.

Didn't this woman run away with He Fei?

He can't believe that she came back.

Zi Yi knew that Rick had other plans and so, she deliberately made a detour after running some distance together with He Fei.

She was purposely trying to keep He Fei away.

Rick looked at Zi Yi and a bloodthirsty smile curved up on his lips. "Where else could I possibly go? Of course, it's to chase and capture you. Since you appeared on your own, you've saved me from wasting my effort."

Having said that, a special gun appeared in his hands.

Ouyang Ming subconsciously retreated to the side at the sight of it.

Rick pulled the trigger and a green laser shot out from the gun.

"I don't believe that you can block this weapon that we invented!"

Chapter 729: Do You Know Why I Hate Lu Jingye So Much?

Zi Yi quickly took out a circular ball and threw it out.

The circular ball transformed into a shield protecting her and the green laser was blocked by the shield.

Zi Yi sneered. "Just this? What do you think you could possibly do to me?"

Rick also smiled. "Then you had better keep watching."

Having said that, another special gun appeared in his hand and his body quickly moved at the same time.

While Rick was moving around quickly, he fired both guns at the same time.

The red and green laser formed a net and it flew down towards Zi Yi. At the same time, the space became distorted.

Zi Yi quickly took a few steps back and threw out several circular balls at the same time.

The circular balls combined with each other in the air and transformed into a lightsaber.

Zi Yi grabbed the hilt and a powerful light shone down.

Whoosh!

The space magnetic field was slashed apart.

The tip of the lightsaber reached Rick's chest and stabbed him.

"Urgh."

Rick's body retreated back and he covered his chest, while looking at the lightsaber in Zi Yi's hand with an expression of disbelief.

"You actually managed to make this lightsaber?!"

Zi Yi pointed the lightsaber at Rick and smiled. "Don't tell me only you people are allowed to create weapons that do not exist on ancient Earth and I can't do so?"

"Impossible! You don't have those tools with you. My mother said that you are just an ordinary person without those tools."

“It seems like your mother had given you the wrong information. Go and die!”

As soon as Zi Yi said that, the light saber stabbed Rick’s chest again.

“AH-!”

After Rick’s chest was stabbed, a thick, green liquid flowed out from his body and at the same time, a worm was stripped off from his body.

The worm was convulsing on the ground painfully the moment it separated from Rick’s body.

At the same time, Rick slumped to the ground.

Zi Yi threw the lightsaber in her hands toward the worm and it accurately pierced the worm.

The worm died after struggling for a few more seconds.

Zi Yi could not take the sight of worms and so, she shifted her gaze to Rick.

Rick, who was lying on the ground, had his eyes open wide. He was so weak it was to the extent that it looked like he would die in the very next second.

His eyes were filled with unwillingness and hatred.

“How can I die first without killing Lu Jingye?”

“Hmph!”

Rick stared at Zi Yi with those vicious eyes of his and there was an eerie smile on his face. He said in a soft tone of voice, “Do you want to know why I hate Lu Jingye so much?”

Zi Yi looked at him with indifference. “Nope.”

Rick acted as if he had not heard her answer and continued smiling. “Because of Lu Jingye, my younger sister is dead.”

Zi Yi furrowed her brows.

“Isn’t it surprising? You clearly saw my younger sister the previous time. However... that isn’t her.”

Speaking of this, Rick’s emotions started to surge. He who was supposedly smiling looked as if he was crying. “My younger sister is such a nice person and yet, Lu Jingye dares to refuse her gesture of love? If not for the fact that Lu Jingye rejected Aisha, she would not be hit by a car and end up dead! Even though a clone identical to her was created later, it still wasn’t her!”

“Ah Jing has nothing to do with this.” Zi Yi was not happy that he had blamed Aisha’s death on Ah Jing.

“What do you mean it has nothing to do with him? My sister is so good, so noble and so outstanding, how is she not worthy of him? It’s him... it’s all because of him... cough cough...”

Rick covered his chest and soon, he started coughing out blood.

However, he did not care and continued talking. "If he had not rejected Aisha, she would not have crossed the street due to grief without seeing the speeding car... Do you know what ended up happening to the driver and his family?"

"I had him and his whole family run over and crushed to death. They were all crushed into minced meat. Isn't it very refreshing?"

"Ha... cough cough cough..."

Zi Yi looked at the crazy Rick and felt that he was a mad man.

Rick continued coughing for a while. When he finally held back his coughing, his complexion was deathly white, and it was the sign of a dying man.

Rick continued to say, "Even if I'm dead, I will drag Lu Jingye down with me and let him accompany my younger sister in the afterlife. Hahaha... cough cough..."

"You're crazy."

Having said that, she looked at Rick who had started convulsing and ended up having breathing difficulties.

Before Rick took his last breath, he managed to speak with great difficulty. "Even if I die, I will not let him have a good life."

He passed away after he said that.

Just then, Little Loli came over from one side.

"Sister."

After she called out to Zi Yi, she pointed at Rick and asked, "He's dead, should I take care of his corpse?"

"Deal with it."

Zi Yi said that and turned to leave.

Little Loli walked over to Rick's side and took out a bottle of liquid from her body.

Very soon, Rick's corpse had turned into ashes and disappeared in the air.

Zi Yi was tapping on her watch while she walked. She wanted to get in contact with Lu Jingye.

However, she noticed that she could not get in touch with him at all.

Zi Yi's expression stiffened and she quickly got in contact with Shadow.

"Shadow, where's Ah Jing?"

Shadow responded. "Master, your husband has left with you."

"How could that be?!" Before Zi Yi could speak, Little Loli shouted, "Sister and I have been here all along and dealing with a worm."

Zi Yi asked with a heavy voice, "Where are you right now?"

Shadow said, "We are cleaning up the remaining worms."

Zi Yi asked, "Who's protecting Ah Jing?"

Shadow replied, "His invisible robots are all protecting him."

Zi Yi quickly pressed her waist and soon, Lu Jingye's exact location could be seen.

She said to Shadow, "Take care of those worms quickly and come over."

"Yes."

Zi Yi turned around and headed in the direction of the back mountain. While walking, she took out her circular ball and changed it into a skateboard.

Little Loli quickly chased after her and said, "Sister, has brother-in-law been taken away by the worm who transformed into you?"

"Yes."

"Could the worm who took him away be the female worm?"

"Yes."

...

On the other side.

After Lu Jingye was surrounded by the group of worms led by the female worm, Zi Yi's invisible robots appeared at the same time and clashed with those worms.

Lu Jingye coldly stood by the side and watched.

However, after some period of fighting, there was a great commotion coming from behind him.

It was Long Aotian bringing along his men.

Long Aotian took the preemptive right to speak. "Mr. Lu, I invited you over to drink, and yet, you came to my turf to fight. Are you looking down on me?"

Lu Jingye coldly looked at Long Aotian and said, "Hasn't this all been arranged by you?"

Long Aotian sneered and his expression turned stern. He immediately ordered his men. "Capture him!"

Lu Jingye looked at those people surrounding him coldly and he welcomed their attacks.

At the same time, a silhouette ran over and joined in the fight the moment he reached them.

It was Lu Yunxiao.

The two brothers soon took care of Long Aotian's men.

Long Aotian was momentarily stunned at the sight of Lu Yunxiao. He quickly took out a remote controller and said, "Go to hell!"

When the explosive did not go off, it was already too late when Long Aotian realized that something was amiss.

Lu Yunxiao had already pulled the trigger of the gun and the bullet had pierced into his chest.

As soon as Long Aotian fell down, he saw Zi Yi's figure running over in his direction.

"Ah Jing."

Chapter 730: If You Want To Impersonate Yiyi, It Also Depends On If You Have That Ability

Lu Jingye was worried that Zi Yi might fall down and he hastily reminded her. "Yiyi, slow down."

Zi Yi ran to him and looked at him. Her cheeks were slightly red. "Ah Jing, are you alright? I was worried sick about you."

Lu Jingye narrowed his eyes and said, "I'm fine."

Subsequently, he asked Lu Yunxiao, "Why are you here?"

"I came over while chasing a man."

As soon as Lu Yunxiao said that, he also looked at Zi Yi.

Subsequently, he shifted his gaze away.

Zi Yi asked, "Who were you chasing?"

Lu Yunxiao did not answer her question.

Zi Yi wanted to pull Lu Jingye and she acted coyly. "Ah Jing, I encountered Rick and the rest at the back mountain. Subsequently, they ran away. Let's hurry and chase after them."

Lu Jingye said to her sternly, "No holding hands when we're outside."

Zi Yi quickly retracted her hand and said with a smile, "I forgot."

Subsequently, she said, "Let's chase after them together."

Lu Jingye and Lu Yunxiao made eye contact and Lu Jingye nodded his head. "Let's go."

1

The three of them ran in the direction of the back mountain.

After running for a few steps, Zi Yi suddenly gave a command to the Shadow robots who were engaged in battle. "Shadow, take care of the remaining people."

"Yes, Master."

Thus, Shadow and the other robots did not follow them.

The three of them continued running to the back mountain.

After running for some distance, Lu Jingye and Lu Yunxiao stopped at the same time.

Lu Jingye asked, "Who are you?"

Zi Yi looked at them with a confused expression. "Ah Jing, who are you talking to?"

"You can stop pretending."

Lu Jingye said that and quickly took out a circular ball and threw it towards Zi Yi.

Zi Yi did not bother dodging or evading and merely looked at him with a sad expression. "Ah Jing, you're doubting me?"

Lu Jingye's expression turned cold. "If you want to impersonate Yiyi, it depends whether you have that ability or not."

This person was unable to imitate his wife's habits and behavior at all.

"You're that female worm!"

"Hahahaha..."

The woman with Zi Yi's face standing in front of him suddenly started laughing. After she had her fill with laughter, her body dodged the circular ball. She licked her lips as she looked at Lu Jingye and Lu Yunxiao.

"I didn't expect to be able to capture the two Lu brothers today. I've been craving your bodies for a long time. With such a powerful body and background, it would be perfect for my children."

Lu Jingye narrowed his eyes and asked, "Was Yunxiao injured by you in the past?"

The fake Zi Yi looked at Lu Yunxiao and smiled vaguely. "It's a pity. I got my child to use a honey trap but it didn't work at all."

Her body flashed again when she said that and she disappeared.

The two brothers quickly covered each other's back and at the same time, they called out their invisible robots.

A few invisible robots appeared and they stood around the two of them.

Lu Jingye said to Lu Yunxiao, "Yunxiao, take out the circular balls your sister-in-law passed to you. It's time to use it."

"Ok."

Their surrounding space started to change and when the space became extremely distorted, they threw out the balls that Zi Yi had given them at the same time.

The balls quickly transformed into two swords in the air.

The two brothers grabbed the hilts at the same time.

"That woman does indeed have some skill. To think that she could make such weapons to deal with our race in such a short period of time.

“However... you’re merely lower-tier species of ancient Earth. Do you think you can do anything to me?”

The female worm’s voice sounded in the air, but her body was nowhere to be seen.

Lu Yunxiao quickly moved his ears and whispered to Lu Jingye, “The left direction in front, nine o’clock.”

The moment Lu Yunxiao said that, the two brothers raised their swords in that direction at the same time.

The fake Zi Yi appeared.

“Hmph, do you think you can do anything to me just by finding my body?”

As soon as the female worm said that a bottle appeared in her hand.

There was a greenish-black liquid in the bottle.

Lu Yunxiao had seen the liquid before and his expression froze. “I’ve seen this liquid in Country A’s secret lab before. It’s extremely destructive.”

Lu Jingye responded with a hum to acknowledge him.

The two of them became on high alert.

The female worm opened the bottle cap and sprinkled it on their robots.

In the next second, looking at the robots that were quickly dissolving, the expressions of the two brothers became increasingly serious.

“How is it? Isn’t this liquid beautiful?”

The female worm looked at the Lu brothers and said in a loving whisper, “As long as you follow me, I won’t dissolve you, alright?”

She then started laughing merrily. “Otherwise, I’ll dissolve you in the third space I’ve created.

“Oh that’s right, you don’t know what the third space is. This is a skill unique to our Worm Race. Even high-tier species would find it hard to escape from here.

“Moreover, you are unable to contact anyone in my space.”

Lu Jingye looked at her coldly and said to Lu Yunxiao, “There’s no need to listen to her rubbish. Kill her first.”

Having said that, he waved the sword towards the female worm.

Lu Yunxiao also attacked at the same time.

The two brother’s skills were also top-notch, not to mention Zi Yi had told them plenty of information related to the Worm Race some time back.

Lu Jingye waved the sword in his hand and told Lu Yunxiao how to deal with the female worm.

The tacit rapport between the two brothers forced the female worm to fight back seriously.

The two brothers were soon wounded in the fight, but the female worm was not in a good condition either.

She finally lost her patience and started to scream out loudly.

The powerful sonic soundwave had rampaged around the third space, causing it to shake.

...

Zi Yi and Little Loli did not manage to make it far, when Zi Yi felt her heart skip a beat.

She quickly stopped and called out to Little Loli, "Carry me and fly to Ah Jing's location."

"Okay."

Little Loli held Zi Yi's waist and both of them took off. Very soon, they arrived at a location where the magnetic field was crashing.

Zi Yi stood outside the magnetic field. She quickly tapped her watch and said to her Shadow robots, "Come over right away."

A few seconds later, four Shadow robots appeared in front of her concurrently.

Zi Yi said, "Take out all the tools you have brought."

The robots quickly took out the tools Zi Yi asked for.

She started assembling the tools right away.

A minute later, she assembled a gun and its barrell had a diameter of more than one meter.

At the same time, she said, "Shadow I, II, III, IV, combine!"

"Yes, Master."

The four robots quickly deformed and assembled together into a large robot that was more than five meters tall.

1

Zi Yi looked at the magnetic field and gave the order. "Fire in the left direction."

The robot grabbed the massive gun and fired at the place Zi Yi directed it to fire at.

BOOM!

Following a deafening sound, the third space quickly disintegrated.

Lu Jingye, Lu Yunxiao, and the female worm came out from the third space at the same time.

"Ah Jing, Yunxiao, are you alright?"

As soon as Zi Yi checked up on them, she turned around and looked at the female worm who had the same appearance as her. She got angry. "How dare you use my face to deceive Ah Jing, you're seeking death!"

Immediately afterwards, Zi Yi gave an order. "Fire!"

BOOM!

The female worm did not have time to escape. After a powerful explosion, the female worm's screaming due to extreme pain could be heard.

The screams were blocked by Zi Yi's shield. She then walked to Lu Jingye's side and took the sword from him before stabbing it at the female worm.

Puchi!

"AH-!"
