Chapter 861: I Will Never Dare To Provoke Her Again In the Future

Dou Xiangling heard Zi Yi's voice before she even entered.

She was wondering who Zi Yi was talking to and specially walked out of her office to take a look outside.

At the sight of the scene in front of her, she did not know whether to laugh or cry.

"Cousin," Zi Yi called out to her.

Qin Ze, who was following behind her like a tail, also stopped and called out, "Teacher Dou."

Dou Xiangling looked at Qin Ze and asked, "Which school are you from? How did you meet my cousin, Yiyi?"

This was the first time she had seen a student who could manage to make Zi Yi have a frown on her face. In particular, this student was not following her out of admiration but instead, because he had questions to ask.

She had overheard two sentences just moments ago. Even though she did not quite understand most of the conversation, she still managed to decipher that they were talking about math and physics.

"He's not from our school."

Zi Yi looked at Qin Ze who was like a sticky plaster and said, without the slightest hint of politeness, "I have something to do with my cousin. You can leave now."

Unexpectedly, Qin Ze grinned at her and leaned against the wall as he said, "I'll wait for you outside. I won't interrupt your conversation."

Zi Yi: "..."

"Pft-"

Dou Xiangling could not hold back and burst out laughing.

She then pulled Zi Yi into her office and closed the door at the same time.

After closing the door, they made their way to Dou Xiangling's desk and she asked, "Cousin Yiyi, I didn't expect there would be a day where you'd get involved with someone that even you can't get rid of. Who's this person?"

"He's Mr. Qin's son."

With what Zi Yi said, Dou Xiangling suddenly paused and turned to look at her.

"It's that Mr. Qin?"

"Yes. Isn't it surprising? An amicable man like Mr. Qin had actually given birth to a son with such thick skin."

“Pft- Yiyi, if Mr. Qin were to hear what you said, I wonder what kind of reaction he would have.”

“Mr. Qin said that after his child turns into an adult, he’s no longer his child and he allowed me to do as I deem fit.”

“...” Dou Xiangling was silent for a few seconds before she said with a sigh, “The way Mr. Qin raises his children is really weird.”

Zi Yi clearly did not wish to continue on this topic and so, she asked, “Cousin, what specialties did you buy for me?”

Dou Xiangling walked over to the cupboard to take out several large bags. There was food, handmade products, and some strange stones inside.

Zi Yi took out a stone and checked it out. “Why did you bring these stones back?”

Dou Xiangling moved her head to look over and said with a smile, “Don’t you find these stones really pretty? I feel that they’ll look nice if you put them on the rim of the pond in your backyard.”

Zi Yi nodded her head. “They’re indeed nice.”

After Dou Xiangling finished taking out all the bags, she came over to Zi Yi’s side and pointed at each of the bags as she explained, “Those over there are candied fruit, this is...”

By the time Dou Xiangling finished introducing everything, Zi Yi had already taken out a can of candied fruit to start eating it.

“Mhmm. It’s indeed not bad. It’s delicious.”

Dou Xiangling grabbed two stools and they sat down. Zi Yi ate the candied fruit while Dou Xiangling looked at her belly. “Yiyi, can I touch your tummy?”

Zi Yi nodded her head.

Dou Xiangling put her hand on her belly and said in surprise, “Your tummy is so big already?”

“That’s right.”

“The weather will turn warm soon and you won’t be able to hide your protruding tummy anymore.”

After Dou Xiangling said that, she suddenly recalled the plan Zi Yi had thought of in advance. She was still a little worried and so, she asked, “The babies are already so big; can you really take them out? Will it cause any damage to your body?”

Zi Yi asked instead of answering, “If I were to keep the babies inside me for ten months and give birth to them, in terms of the degree of damage, would taking them out now or ten months later be worse?”

Dou Xiangling did not have anything to say.

Zi Yi smiled at her.

Dou Xiangling could not help but return a smile. Following that, she started telling her about the competition.

“There are a few competitions in the first half of the year for the School of Fine Arts. I may have to lead a team to Country F to participate in the competitions in the near future.”

“Why are you the one leading the team?”

“Because I’m familiar with the place there.”

Dou Xiangling said helplessly, but the corner of her lips was curved up, “I won’t be participating in the competition this time. It’s my students who will be competing. I realized that I am even more nervous when my students are the ones competing compared to when I’m the one who is competing.

Zi Yi raised her hand and patted Dou Xiangling’s shoulder. “You have to have faith in the skills of M.Uni’s students.”

“Mhmm.”

Zi Yi looked at Dou Xiangling and suddenly spoke in a mischievous tone. “But then again, Country X is near Country F. When you arrive at Country F, you can contact Ian.”

Sure enough, Dou Xiangling’s face turned red.

Both of them stayed in the office for forty minutes and they had finished just in time for them to go and eat.

Just then, Dou Xiangling said jokingly, “I wonder if Qin Ze is still outside.”

When they opened the door, Qin Ze was standing right in front of them.

He revealed a grin and said, “I can continue asking you the questions now, right?”

Zi Yi said rudely, “We are going to eat now.”

Unexpectedly, Qin Ze put away the paper in his hand and said, “In that case, I’ll treat you two to a meal. Let’s go to the restaurant in the school. There’s a private room there.”

Zi Yi looked at Qin Ze for a few seconds before she suddenly asked, “Qin Ze, are you Mr. Qin’s biological son?”

“Before I reached the age of eighteen, I was his son. After reaching adulthood, I am now one of his soldiers.” Qin Ze pretended to be sad as he said, “You don’t know how ruthless my father is. The moment I reached eighteen, he left me stranded in the Northwest area for a year. I only managed to come back for university a year later.”

“Why did he throw you there?” Zi Yi did not believe that he had the ability to enter the research laboratory.

“Of course it’s to do odd jobs. At that time, I was doing odd jobs in various departments outside the laboratory for a year.”

Qin Ze looked as though he had suffered miserably, but his tone of voice did not contain the slightest hint of complaint. If one paid attention, they could even discern a slight gratitude toward Mr. Qin.

The three of them made their way to a restaurant inside the school.

When they were eating, none of them conversed with each other.

Qin Ze's eating speed was very fast. After he finished, he sat there and waited for the other two.

The moment Zi Yi finished eating, he took out a pen and paper from his pocket once again.

"Zi Yi, I believe we can continue the conversation from earlier now, right?"

Zi Yi did not continue making things difficult for him and started discussing it with him.

Dou Xiangling could not get any words in and so, she said to Zi Yi, "Yiyi. You can get someone to collect the bags later. I'll make a move first."

Zi Yi said, "Ok."

By the time Zi Yi and Qin Ze came out of the restaurant, an hour had already passed.

Qin Ze seemed as though he still had unfinished business and asked, "Zi Yi, when's the next time you will be free?"

"I'm not free at all."

"...You little brat. You really do love to hold grudges."

Zi Yi scoffed at him. "So what if I love holding grudges?"

Having said that, she walked away.

Qin Ze followed her and said along the way, "I'm an exchange student in the Physics Department of M.Uni. After the construction of your building is completed, I'll tag along with you over there. In the meantime, you can order me around anytime you like."

Zi Yi looked at him and said nothing as she continued walking.

Qin Ze did not take it to heart either. He followed her until he sent her off into the car.

The moment Zi Yi left, Qin Ze took out his phone and dialed a number.

After the other party answered the phone, he grinned and said, "Dad, this idea you suggested is really good. Zi Yi is finally willing to talk to me."

Mr. Qin said something to him over the phone and Qin Ze scratched his head. "I will never dare to provoke her again in the future. Her professional knowledge is really amazing. It's something I can't even compare to."

Chapter 862: News From Lu Yunxiao's Side

When Zi Yi returned home, Lu Jingye was not working. Instead, he was standing there and giving the housekeeper some orders.

At the sight of Zi Yi coming in, the housekeeper quickly took his leave.

Lu Jingye walked over to her, moved the strands of hair that were resting on her cheeks behind her ears, and asked, "Are you tired?"

"Nope." Zi Yi held his hand and told him about how she encountered Qin Ze today. In the end, she said, "I've never seen someone so thick-skinned. If not for the fact that he's Mr. Qin's son, I would have gotten Shadow to beat him up to the extent that he can't follow me anymore."

Lu Jingye could not hold back his laughter. "It's precisely because he's Mr. Qin's son that he knows you will not really make things too difficult for him."

"I've heard of Qin Ze previously. He's similar to Mr. Qin, in the sense that he's also patriotic. Before he turned eighteen, he nearly went down the wrong path and Mr. Qin ended up leaving him stranded in the Northwest Satellite Base for a year. There are two bases there and he has been in both bases before. Therefore, he has a strong interest in weapons and space technology.

"Following that, he went to schools which specialized in these areas and spent seven years to complete his double-major PhD degree."

Zi Yi nodded her head. "I discussed the topics of weapons with him today and his foundation is really good. However, he's restricted by the technology in this era."

"Mhmm."

Speaking only up to here, both of them then changed the topic.

Lu Jingye said, "There's news from Yunxiao's side."

"What happened?"

"It's about the place where the secret research base in Country A was transferred to, Yunxiao suspects that it should have been moved to the space station or a nearby planet."

When she heard that, Zi Yi was silent for a second before she said, "If my guess is right, the male worm must have been behind this. Many of the higher-ups in Country A have their bodies controlled by the male worm's children."

"Yes." Lu Jingye had the same train of thought. "However, where will they hide Yunxiao's men? You mentioned before that for the worm race to enter a host body, it can only be in a situation where the host's mental energy is weaker than the worm race. Those in the secret guards have all undergone harsh training and their mental energy would not be lacking."

Zi Yi thought about it and made a guess. "If their research base was really moved to space or other planets, the male worm most likely has the intention of going back to the interstellar era as well as to conquer the Earth... He might be using those people as pioneers."

"The universe is far wider than what humans are aware of. Moreover, there are numerous parallel planes. The technology at present is too backward and when creating spaceships, pioneers are definitely needed.

When Lu Jingye heard Zi Yi's analysis, his expression turned serious.

Both of them walked to the living room together and Zi Yi brought out the virtual screen.

“I’ll hack into their place to see where they have moved their research base to.”

When she was saying that, rows of text were quickly rolling across the screen.

After the code finished executing, the screen turned white and a few minutes later, an image was shown.

Zi Yi said, “They have bases at the space stations and also on Uranus.”

Lu Jingye’s expression turned even more serious and he asked, “Can you hack into these two bases?”

Zi Yi brought out the virtual keyboard and quickly tapped around.

Sometime later, she said, “These two bases are built according to the 18 storeys of hell. I can only enter up to the 16th floor. There’s a special material on the 17th floor which can block out all the materials and technology I have created at present... However, I have found the people. They are all locked up on the 5th floor.”

“How many people are there?”

“Many.”

When Zi Yi said that, she exited and put away the virtual screen. “It seems like we have to speed up the progress of your space company. The male worm may have already obtained the management rights of the space departments of Country A and Country D.”

These two countries’ aerospace technology was in the lead globally and the materials they have collected from space are sure to surpass that of Zi Yi or the capital.

Lu Jingye nodded his head. “We can have a discussion with Mr. Qin about this.”

Zi Yi did not find that to be a problem. After sitting for some time, she stood up and went to her lab.

When they were having dinner at night, Lu Jingye said to Zi Yi, “I sent the robot Ranran over in the afternoon.”

“Hmm? Is that Sister Luo’s idea?”

“Yes. She said that she plans to hide this from Auntie Luo for the time being.”

Zi Yi nodded her head. She could also understand Luo Qian’s feelings. She only said, “I hope that she can think things through.”

“Mhmm.”

After dinner, Zi Yi returned to her lab.

Lu Jingye sat in the living room and received the report from his subordinate.

At around nine in the evening, there was a huge explosion not far away from the villa they were living at. Following that, there was a huge burst of flames.

Lu Jingye stood at the front yard and looked in the direction of the explosion as he furrowed his eyebrows.

It was strange for an explosion to happen in this area and it was obviously man-made.

If his guess is correct, the explosion was to lure them out.

The housekeeper was standing next to him and he asked, "Second Young Master, do you want me to check it out?"

"No need. The higher-ups will send people over very soon."

Lu Jingye was right. The men sent by the higher-ups arrived very soon.

Sometime later, the entrance of the courtyard was knocked on.

The housekeeper walked over and asked, "Who is it?"

Someone said, "I'm from Bureau X. A huge explosion happened nearby and there must be terrorists hiding nearby. Please open the door and let us in for inspection."

The housekeeper turned around and looked at Lu Jingye standing in the courtyard.

Lu Jingye looked at the door and took out his phone to make a call. After the other party answered, he asked, "The people from Bureau X are knocking from door to door?"

The other party said, "They aren't from the same faction. Try to stall them first and I'll send someone over right away."

Lu Jingye responded affirmatively. After hanging up, he motioned for the housekeeper to open the door.

Standing outside the door was a man in a uniform that had strong facial features. Looking at the epaulets on his shoulders, he was at the very least above the rank of a general.

"Hello. I'm Xiang Shaoqing from Bureau X. Please cooperate with our inspection."

Xiang Shaoqing was actually surprised when he saw Lu Jingye standing by the door. They were aware that Second Young Master Lu and Zi Yi would occasionally stay here, but he did not expect to encounter the real person today.

Lu Jingye said with a gentle expression, "Come on in."

Having said that, he turned around and headed inside.

Xiang Shaoqing ordered his subordinates. "Go in and search. Pay attention not to break anything."

"Yes."

"Hold on." Lu Jingye stopped the group of people who were about to head inside and he looked at Xiang Shaoqing. "Please show me the search warrant first."

As Xiang Shaoqing came in a hurry, he did not have time to get a search warrant at all. Traces of awkwardness flashed past his face but more of it was displeasure. He felt that Lu Jingye was deliberately making things difficult for him. In such a situation, shouldn't the citizens cooperate unconditionally?

“Second Young Master Lu, it is a special situation right now. If we were to return back to get a search warrant, the terrorist might have escaped. As someone from the Lu Family, you should know this better than I do.”

“Mhmm.” Lu Jingye nodded his head as if he agreed with him. However, he said, “This is my house. Do you think terrorists can get inside?”

Lu Jingye’s bodyguards were as famous as the Lu Family’s secret guards. Normally, people would assume that those people would not dare to infiltrate inside.

However, Xiang Shaoqing did not like Lu Jingye’s attitude and said with a serious expression, “No matter if they can get in or not, I have to conduct this check.”

Chapter 863: Sudden Explosion

Xiang Shaoqing released a powerful aura with the intention of using it to suppress Lu Jingye.

However, he did not expect that Lu Jingye, who always appeared gentle and polite, would possess an even stronger aura than him.

Lu Jingye’s aura was so powerful that Xiang Shaoqing’s men did not dare to make a move at all.

In particular, Lu Jingye’s bodyguards just so happened to make their appearance.

“Second Young Master Lu, you’re being so uncooperative. Could it be that there’s really something strange in your courtyard?”

“Whether there is anything strange or not, you can act as you please after taking out a search warrant.”

“You are obstructing our work. In the event that the terrorist escapes because of your uncooperative behavior, can you afford to bear the responsibility?”

“How is Mr. Xiang so sure that the terrorist is in my house? Did you see them coming inside?”

“...”

How could Xiang Shaoqing possibly win against Lu Jingye in a battle of words?

Lu Jingye added and said, “If Mr. Xiang is worried, you can have my house surrounded first, then have someone deliver the search warrant... Mr. Xiang should have forgotten, but the Marshal has said before that those who have made contributions to the country must be respected.

“Also, we are from the Lu Family. Do you think you have the ability to search my house with your level of authority?”

Lu Jingye’s tone of voice sounded serious, but every single point he mentioned was full of reason. Mr. Xiang’s subordinates who came in together with him could not help but start getting worried.

When Xiang Shaoqing came over to search, how could he have thought of so many things in advance? Now that Lu Jingye had brought them up, he could not help but stiffen for a second. The higher-ups had ordered him to search through Lu Jingye’s house and he had done what he had been ordered to do.

For a moment, he was put on the spot.

Lu Jingye looked at Xiang Shaoqing's expression and his lips were in a straight line.

Both of them continued this stalemate.

In the end, it was Xiang Shaoqing who looked away first as he took out his phone and headed outside.

Xiang Shaoqing's subordinates saw that their boss had walked away and they looked at each other, not knowing if they should follow him out.

Xiang Shaoqing's loud voice soon sounded from the outside. He informed the situation here to the party over the phone and replied, "Yes."

Following that, he hung up the phone and came back in.

After making his way inside, he looked at Lu Jingye and said, "The search warrant will be sent over right away."

Following that, he pointed to a few of his subordinates. "You shall stay here and keep guard."

Subsequently, he led the other half of this group of his subordinates away and left.

When Xiang Shaoqing came back, his expression looked even worse. Evidently, he did not manage to find any suspicious individuals.

He took out the search warrant and passed it to Lu Jingye. Just as he was about to speak, several cars suddenly parked outside.

Lu Jingye and Xiang Shaoqing looked over at the same time.

In the next second, Xiang Shaoqing stiffened and he hastily saluted the two individuals making their way over.

"Mr. Huang, Mr. Lu."

Lu Jianlin took a glance at Xiang Shaoqing and asked, "You're planning to search through here?"

Xiang Shaoqing straightened his back and answered loudly, "Yes. A big explosion went off in the vicinity and the preliminary judgment is that it was caused by terrorists. I am responsible for searching all the nearby residences."

Lu Jianlin nodded his head and asked, "Have you searched through the other residences?"

"Yes. We did not find any suspicious individuals."

Lu Jianlin and Mr. Huang made eye contact and Mr. Huang asked, "You suspect that those terrorists have entered Little Lu's house?"

"We cannot rule out this possibility." Xiang Shaoqing looked at Lu Jingye with a sharp gaze. "However, Second Young Master Lu is not cooperating with our search."

"Did you bring a search warrant when you came to search?"

“...”

“Little Lu and his wife have contributed to the country and even if your boss came, they are not allowed to search at random either.”

After Mr. Huang said that, he reached out his hand. “Give me the search warrant.”

Xiang Shaoqing hastily handed the search warrant to him.

After Mr. Huang took a look, he spoke to the adjutant behind him. “Bring some men to watch over Little Xiang’s men searching the place. I heard that there are many collections of Little Zi’s and all of them are extremely valuable. If there are any damages, compensate them accordingly to the price.”

“Yes.”

Following that, Xiang Shaoqing led his subordinates to search through the courtyard while enduring his anger.

Lu Jianlin looked at the group of people working from the front yard to the back yard and whispered to Lu Jingye, “Where’s Little Zi?”

“In the research lab.”

Lu Jianlin furrowed his brows.

The lab here cannot be known by other people. He wanted to head over but Lu Jingye stopped him.

“Father, don’t worry. They won’t be able to find the entrance.”

Only then did Lu Jianlin breathe a sigh of relief.

Just then, Lu Jingye turned around and walked away. These people could search for all they like, but they are not allowed to go into their bedroom.

Lu Jianlin and Mr. Huang also followed behind.

Sure enough, after Xiang Shaoqing led his subordinates to search through the backyard and the first floor, he was about to bring his men up to the second floor.

“Hold on.”

Lu Jingye said, “You can only search upstairs alone.”

Xiang Shaoqing thought for a moment and nodded his head.

Even though he had a search warrant, with Second Master Lu and Mr. Huang around, obviously he did not dare go too far.

Lu Jingye brought him upstairs.

The villa was originally a copy of ancient designs and the furniture inside was so expensive that ordinary people were unable to afford it.

After they went upstairs, the floor was covered in cashmere carpet and famous paintings were hung on the walls.

Xiang Shaoqing knew that Lu Jingye was good at making money. To him, money was only a number. However, when he came up to the second floor, he was still shocked by the low-key splendor.

If it was an ordinary person, they would definitely start hating on the rich.

Lu Jingye opened the rooms one by one for him to search.

When they arrived at the door to the study room, Lu Jingye said, "This is my office where I usually work. Mr. Xiang can go ahead and search, but you had better not take a look at the documents and data inside."

Xiang Shaoqing looked at him with a taut expression and said, "Rest assured. I won't reveal anything that does not belong to terrorists."

"That had better be the case."

Lu Jingye opened the door and went in after saying that.

Xiang Shaoqing followed him inside and searched around. There were indeed many documents and files. Xiang Shaoqing only glanced through them and looked away.

After he finished checking, only the last room was left.

When they stood outside the room, he motioned to Lu Jingye. "Second Young Master Lu, go ahead and open the door."

"This is mine and my wife's bedroom." Lu Jingye narrowed his eyes, but his tone of voice sounded very peaceful. "Yiyi is sleeping right now and if Mr. Xiang dares to even take a peek, you had better be prepared to get carried out."

Xiang Shaoqing clenched his fists. He originally wanted to say that he must look through everything, but his reasoning told him that he would not be able to bear the consequences if he did that.

Just as Xiang Shaoqing's complexion was alternating between red and green, the room to the bedroom was opened and Zi Yi's head popped out.

She looked at the man standing outside and she widened her eyes. "Ah Jing, who is he? Why did he come upstairs?"

"There was an explosion nearby earlier. He came to our house to do a search."

"What is he searching for?"

"Terrorists."

"Hmph!" Zi Yi's expression turned cold and she opened the door as she came out.

Xiang Shaoqing stared at Zi Yi.

Zi Yi tapped on her wrist watch and a virtual screen appeared in front of her. Tons of images were flashing past the screen rapidly.

Following that, she said, "This is the surveillance near our house. There wasn't anyone approaching before or after the explosion. You had better take a look."

Xiang Shaoqing hastily looked at the virtual screen.

Chapter 864: Miss Zi, Please Do Not Make Random Accusations

An overview of dozens of surveillance camera footage was reflected on the virtual screen and the three of them looked at it together.

After looking at it for some time, they saw several individuals appearing near the backyard around ten minutes or so after the explosion.

At the sight of these individuals Xiang Shaoqing could not help but breathe a sigh of relief deep down inside.

As long as someone did indeed come over, it's good.

However, a second after he relaxed, he saw the group of people who wanted to climb over the wall suddenly convulse at the same time as soon as they approached the wall. Following that, they fled rapidly as though they had seen a ghost.

Just then, Zi Yi's voice sounded. "These people haven't even escaped more than a kilometer away at most and you haven't found them even after such a long time? Are you just here for a show?"

Xiang Shaoqing's expression alternated between black and red. He looked at Zi Yi grimly. "What do you mean by that?"

"I meant what I said, literally." Zi Yi quickly tapped on the virtual screen several times and soon, the escape route of those people surfaced. "These people wanted to sneak into our house after the explosion and since you've brought so many people along for the search, why weren't you able to find them? Most importantly, you have been targeting my place. Aren't you being intentional?"

Xiang Shaoqing angrily said, "Miss Zi, please do not make random accusations!"

Zi Yi sneered and chased him away. "We are going to sleep now. Please leave."

Xiang Shaoqing glared at her for a few seconds before he turned around and was about to head outside.

Lu Jingye's voice sounded from behind. "If the data found in my study room were to be leaked out, Xiang Shaoqing, I will make you regret it."

Xiang Shaoqing clenched his hand into a fist and headed downstairs without saying a single thing.

After he left, Zi Yi put away the virtual screen and said to Lu Jingye, "Those people must be trying to take the clone away."

“Mhmm.” Lu Jingye had also guessed that it was the case. “Xiang Shaoqing belongs to the other faction and he’s being made use of.”

The both of them walked down the stairs as they conversed.

Second Master Lu and Mr. Huang were still waiting downstairs.

Zi Yi called out to Second Master Lu, “Father.”

Second Master Lu asked, “Did someone come in?”

“Yes.” Zi Yi said, “They wanted to enter through the courtyard but they were frightened away by the defense system outside.”

Mr. Huang was a little surprised. “Since that’s the case, why didn’t you tell that to Xiang Shaoqing earlier? That person is a little hard headed and he won’t leave unless he sees the evidence.”

“If someone tries to enter from outside, we would not sense anything when the defense system takes care of them. It was only because I checked the surveillance earlier, that is how we knew.”

Mr. Huang praised her. “Not bad. In that case, if someone tries to sneak inside in the middle of the night, you won’t have to wake up to take care of those people.”

Zi Yi nodded her head.

Second Master Lu asked, “Where did those people go?”

Lu Jingye mentioned a direction.

Second Master Lu said to Mr. Huang, “Let’s go and have a look. Those people came here right after the explosion and this must have been premeditated in advance.”

Mr. Huang’s expression instantly turned grim and he nodded. “Let’s go.”

Having said that, both of them left.

The next morning, Second Master Lu called Lu Jingye to tell him about what happened last night.

Lu Jingye conveyed this to Zi Yi.

“They are indeed people who wanted to bring the clone away. They wanted to sneak into our house by creating chaos.”

“Therefore that Xiang Shaoqing who came over last night is suspicious?”

“He’s not involved. It’s the guards under his command.” Lu Jingye said, “The higher ups have already found out through an investigation. It’s related to the embassy of Country A. There’s no need for us to interfere anymore. Father and the rest will take care of this.”

Zi Yi nodded her head. She thought for a moment and said to Lu Jingye, “Let’s go and visit Auntie Luo this morning.”

“Ok.”

Luo Qingning had a serious fall that day and she was lying on the bed without being able to move at all. She had also seemed to have lost some weight.

Luo Qian and Luo Ran were accompanying right next to her.

When both of them saw Lu Jingye and Zi Yi walking in, they were a little surprised.

“Jingye, Yiyi, why have you come?”

Zi Yi looked at Luo Qian and saw that her dark circles were rather deep, and her complexion was also pale. It was obvious that she had suffered greatly these few days.

The little robot obediently stood next to Luo Qian and Luo Qian subconsciously stroked her head.

Lu Jingye said, “We are here to visit Auntie Luo.”

Following that, he asked Luo Qingning, “Auntie Luo, how are you feeling right now?”

Luo Qingning said with a smile, “I feel better.”

Lu Jingye nodded his head and said a few more words of concern before asking Luo Qian to go outside.

Both of them headed to the end of the corridor where Luo Qian’s tightly stretched nerves finally loosened as she revealed a sad expression.

Lu Jingye said, “You have to stay strong. Auntie Luo still needs you.”

Luo Qian nodded her head and tried to keep her tears from spilling out. She asked, “Jingye, you guys should know more than I do. The lab that Borean works at, what do they use the clones for? Why do they kill the original person after creating the clones?”

Lu Jingye only told her briefly. “Every country has a secret laboratory. Some countries are trying to make themselves stronger, while some countries do so to conquer the whole world.”

Luo Qian was not an idiot. After she heard that, she immediately understood the nature of the laboratory. She said with a sneer, “Those people from Country A have always been ambitious. No wonder they are doing this.”

Speaking of this, traces of hatred flashed past her eyes.

She continued asking, “Do people in the laboratory have holidays?”

“Yes, but it cannot really be considered as a holiday.” Lu Jingye said, “When they come out, they will have various types of missions on hand.”

What Lu Jingye did not tell her was, Country A has been trying to destroy the Lu Family. It was normal for them to have made plans around her as early as a few years ago.

After all, they were his Mother’s friends and there would be a day where they would come in handy.

The hatred in Luo Qian’s eyes intensified after hearing Lu Jingye’s affirmative answer.

She then whispered in a low voice, “Boren’s mission was to get married and have a child. Following that, he had to clone his child and then kill them afterwards?”

“Sort of.”

Luo Qian clenched her fists and made a decision deep down inside.

Inside the ward.

Luo Qingning looked at Luo Ran who was standing there obediently without making a ruckus and said to Zi Yi with a smile, “Our Ranran has suddenly become obedient after seeing me in the hospital. She still loves and cares for her grandma very much.”

Luo Ran walked to Luo Qingning’s side and pulled her hand as she acted spoiled. “Granny.”

The smile on Luo Qingning’s face deepened. “Yes, Granny’s little darling~”

Zi Yi looked at Luo Qingning’s expression and said with a smile, “Therefore, Auntie Luo you have to get well soon so that you can take Ranran around to play. After you arrived in the capital, you guys haven’t gone sightseeing or out to play.”

Luo Qingning nodded her head. “That’s right. We originally came here to bring Ranran around to check out the scenery here. After I’ve recovered, we’ll bring her around to sightsee.”

After they chatted for a short while, Lu Jingye and Luo Qian came in.

Lu Jingye asked Luo Qingning, “Auntie Luo, do you wish to stay at the hospital or have a doctor and some nurses go back home with you instead?”

“Can I leave the hospital?”

“Yes.”

“That’s great. It’s fine for an adult like me to stay in the hospital, but Ranran is still young and it’s not good for her to stay here for a prolonged period of time. If I can go home, I will definitely want to do so.”

Since Luo Qingning had said so, Lu Jingye got his men to help her with the discharge formalities. At the same time, he invited professional doctors and nurses to go home with them.

Chapter 865: Taking Out the Two Babies

Time passed by very fast. In the blink of an eye, it was the 10th of March.

Zi Yi had been staying in the laboratory at home during this period of time. While checking the clone’s data, she also developed some special building materials to be used for the aerospace base.

Unknowingly, her tummy became larger.

On the evening of the 19th, all the family members of the Lu Family and Dou Family came over.

Zi Yi planned to take the two babies out tonight.

“Yiyi, what do you want to eat? I’ll prepare it for you at once... When the babies are taken out, will you have to sleep for two days? Do you have to eat during these two days? Also...”

Mrs. Lu was worried and became a chatterbox. But she was not the only one, A few of Zi Yi's Aunts were also seated on pins and needles.

First Madam said, "Yiyi, is this procedure really harmless to your health?"

Second Madam also asked, "After the babies are taken out, will they be constantly kept in the nutrient solution you mentioned?"

Third Madam said, "Oh my, I feel so nervous. The Heavens must protect Yiyi and her baby!"

Fourth Madam asked, "I brought along a hundred-year-old ginseng. Yiyi, why don't you keep it in your mouth later?"

The men in the family also had slightly agitated expressions as they heard the women in the family chatter on and on.

Elder Dou in particular. He tightly held onto his walking cane and said to Zi Yi, "I'm still waiting for you to accompany me around M.Uni for a walk. No mishaps should happen."

Zi Yi sat next to Elder Dou and held his hand while she said with a smile, "Grandpa, you are all too nervous. Taking the babies out is really a trivial matter and nothing serious will happen."

"How could it be a trivial matter?" Elder Dou tapped the walking cane and said. He was still worried and so, he asked, "Have you invited your teacher and Elder Hu? With them around, they would be able to help even if something unexpected were to happen."

Zi Yi wrinkled her nose. "They are watching the live stream of the operation at home. I feel that there's no need for them to make a trip down here specially."

Elder Dou made a fierce expression. "Why is there no need? Even if they are here, they won't cause trouble for you anyways."

"But... they would only be able to watch even if they came."

There was already a huge crowd here and she barely managed to get them to promise not to come after wasting her saliva.

After Elder Dou heard that, he looked at her with a fierce expression.

Zi Yi hastily smiled and tried to flatter him. "I'll give them a call right away."

Having said that, she took out her phone and gave her teacher and Elder Hu a call.

After she finished making the call, Zi Yi said to him, "Grandpa, why don't I read you a book?"

With that, she went to pick up a book she had borrowed from the professors from the Archaeology Department. She opened the book and started reciting.

This was a book covering speculations about the royal cemetery of a dynasty that did not exist in history. Stories of some incidents that happened in this dynasty were mixed inside.

When reading until the part where people in that dynasty made use of astronomical knowledge, Zi Yi paused and asked Elder Dou, "Grandpa, don't you find that this dynasty is somewhat similar to the Sanxingdui dynasty?"

"There are indeed some similarities. This particular dynasty..."

The group of people who were nervous about the upcoming operation looked at the elder and the young woman who had started discussing historical knowledge. There was no need to mention how complicated their expressions were.

Dou Zerui breathed out and muttered, "I suddenly believe what Yiyi said. Taking the babies out is only a small operation."

Having said that, he turned to look at Lu Jingye. He did not know if he should pity him or be envious instead. "Having such a smart wife must put you under a lot of pressure."

Lu Jingye pursed his lips and glanced at Dou Zerui, but he did not say anything.

Dou Xiangling tugged Dou Zerui's sleeves and reminded him not to talk.

Everyone could discern whether Lu Jingye was worried or not. Her brother's EQ was too lacking. To think that he would say things like that at this moment.

Dou Zerui felt that he was relaxing everyone and he started talking again, "Since Cousin Yiyi is so relaxed, we should have the same attitude too. Otherwise, maybe we would be the ones being not ok while she's totally fine."

This time around, the Third Madam gave him a slap. "If you don't speak, no one will think you're mute."

Only then did Dou Zerui keep his mouth shut.

Elder Tang and Elder Hu rushed over very soon and greeted everyone.

Elder Tang started lecturing Zi Yi. "You little lass, I did tell you to let us be here, didn't I? You still said that it's not needed."

"That's right. With us around, everyone would be slightly more at ease too."

Both of them had seen a simulated version of the baby retrieval experiment. Compared to the other family member's concerns and fears, they were more excited and looking forward to the new field of knowledge.

With these two doctors around, sure enough, everyone was less worried than before.

When Zi Yi entered the operating room, everyone was standing outside with the exception of Lu Jingye, Elder Tang, and Elder Hu.

When the operation started, everyone was shocked by how high-tech the baby operation was.

The main surgeon was a robot. The assistants were also robots.

Zi Yi was not put into a coma. She leaned on the chair and even started explaining to Elder Tang and Elder Hu about the steps of taking out the babies and the recovery procedures.

When the two newly developed babies were placed into the nutrient solution, and a complete set of systems that simulated the maternal placenta was connected, the group of people standing outside was stunned.

After the babies were taken out, Zi Yi looked at Lu Jingye who had been holding her hand as she said with a smile. "You can put me in the nutrient solution now. I'm only going to sleep for two days."

Having said that, she closed her eyes.

Lu Jingye's expression instantly changed.

Elder Tang and Elder Hu immediately sensed something different about him and hastily came over to check up on Zi Yi. Elder Tang said, "Little Lu, don't worry. There's a structural change in Little Zi's body which made her body unable to adapt right away. It's similar to how women who just gave birth are extremely exhausted. Hurry and put her inside the nutrient solution."

Lu Jingye suddenly recovered his senses and hastily carried Zi Yi to put her inside the nutrient solution.

...

When Zi Yi was soaking in the nutrient solution, Professor Dou Xiaoyong brought the robot team to Country D.

The competition was on the 15th of March and Country D had expended quite the effort to publicize this event. In the end, almost everyone worldwide knew about it.

In addition, Country D would be holding the World Economic Forum after the robot competition. For a moment, all eyes were on Country D.

...

When Zi Yi opened her eyes again, it was already two days later.

She subconsciously tilted her head and made eye contact with Lu Jingye's deep eyes.

Lu Jingye's eyes were slightly red. Obviously, he was sleep deprived, but he did not have any stubbles on his chin, which Zi Yi was pleased about.

"I thought that I would see an Uncle's face the moment I opened my eyes."

All the worries Lu Jingye was feeling had dissipated due to Zi Yi's words and he finally revealed a smile. He then raised his hand and pinched her cheeks. His voice sounded deep and hoarse due to the long duration of not talking. "Naughty girl."

Zi Yi smiled at him and asked, "Where are the babies?"

Lu Jingye made way and Zi Yi could see two little babies soaking in the nutrient solution.

Zi Yi said with a smile, "They've only started developing now. When they have finished developing, they will start moving, as though they are moving in a mother's womb... perhaps they might even fight with each other."

Lu Jingye thought of the scene and somehow started to look forward to it.

After Zi Yi regained consciousness, it meant that everything was fine.

These two days, Second Master Lu and Mrs. Lu were also staying here. When Mrs. Lu saw Zi Yi coming out, she was extremely relieved.

“Great. You had worried us to death these two days.” Mrs. Lu grabbed her hand and checked her from head to toe. When she saw that Zi Yi looked radiant, she said with a smile, “Have you seen the two babies?”

“I saw them. They are very lovely.”

“That’s right. Well, they’re my babies after all.”

“Haha...”

Chapter 866: The Higher Ups Invited Both Zi Yi and Lu Jingye At the Same Time

The next day after Zi Yi regained consciousness, she went down to the Dou Family’s residence.

When they saw that she was really perfectly fine, all of them were relieved.

“Grandpa, see, I told you that nothing would happen to me.”

Elder Dou looked at her with a kind smile and said, “It’s good that you’re ok.”

Everyone sat down together and talked about the subsequent development of the babies.

The madams felt intrigued and expressed their intention to find time to visit the two babies.

“The babies will be staying together at my parent’s place. You can head over to their place to visit the babies.”

When they heard what she said, the Third Madam asked, “Yiyi, are you really planning to head to Country D?”

Zi Yi originally did not have plans to go, but right now, she had no choice but to do so.

She nodded her head. “Yes. I’ll go and check out the development of robots in other countries.”

“You’re not going together with your Third Uncle?”

“Nope.”

It should be said that not only would she not be tagging along with Professor Dou to the competition, but she also would not even be going with Lu Jingye.

However, she obviously would not say that to the Dou Family as she was afraid they would be worried about her safety.

At around noon, Zi Yi suddenly received Mr. Qin’s phone call. He was asking if she had time in the afternoon for her to come and look for him at the Supreme Administration Building, but only if she was available.

Zi Yi did not think much of it and agreed.

After lunch, a car with a special license plate stopped outside the Dou Family's residence.

Following that, a man wearing outerwear with an epaulet on his shoulders knocked on the door

After the Dou Family members invited him inside, the first thing he did was to greet Elder Dou.

"Headmaster Dou, good afternoon. The authorities sent me here to fetch Miss Zi and my surname is He. You can call me Little He."

Even though the Dou Family members were slightly surprised, they still enthusiastically invited him inside for a seat.

Little He rejected their invitation and said, "A few higher-ups are currently waiting for Miss Zi and I am acting on orders to come and fetch her over."

Having said that, he turned to look at Zi Yi. "Miss Zi, please."

Zi Yi stood up and said to Elder Dou, "Grandpa, I'll be off then."

Elder Dou nodded his head and said to her, "You're still young, there's no need for you to take on everything by yourself."

"Grandpa, I understand."

Following that, Zi Yi followed Officer He and walked outside.

The car drove directly to the entrance of the Supreme Administration Building before stopping.

At the same time when their car was parked, another car did the same thing.

Zi Yi tilted her head and took a look. She just so happened to see Lu Jingye alighting from the car. She was immediately delighted and hastily alighted to walk over to the man who was headed in her direction.

"Ah Jing, you're also here?"

"Mhmm."

After Lu Jingye made his way over, both of them headed to the entrance.

As soon as they reached the entrance, someone came out to greet them.

"Mr. Lu, Miss Zi. Please follow me."

Both of them followed the person who came out to fetch them and headed upstairs.

The building was very spacious, with a total of five floors. On each floor, there were many different offices.

The three of them headed up to the fifth floor.

The fifth floor was somewhat different as compared to the other four floors. There were noticeably fewer offices and the names on the nameplates outside each office were all capable of shocking anyone in the country.

If it were someone else in this situation, they would start having feelings of fear deep down when walking to this point.

The person who was leading them originally wanted to show some concern so that they would not be too nervous. However, when he turned around, he noticed that both Lu Jingye and Zi Yi had calm expressions. They did not look as though they were nervous and he could not help but nodding approvingly in his heart.

Sure enough, they were individuals who were capable of achieving great things.

The three of them continued walking until they reached the door with the words, 'Conference Room' written on it.

The person leading them knocked on the door before he opened it and said to Lu Jingye and Zi Yi, "The leaders are waiting for you in the conference room. Please head inside."

Just then, Lu Jingye raised his hand and held Zi Yi's hand for a second before he quickly let her go.

After that, both of them made their way inside.

What they were faced with was an oval conference table that could seat more than a dozen people.

There were currently only four people seated there.

The man seated at the top was roughly in his sixties and had strong facial features. His eyes were deep and sharp while giving off a natural aura of someone of high authority. It made people unconsciously feel a sense of awe toward him."

On his left side was Mr. Qin while two other people were on his right.

When Lu Jingye and Zi Yi made their way inside, Mr. Qin waved at them with a smile. "Little Lu, Little Zi, come over and have a seat."

Following that, he pointed to the two seats next to him.

Both of them made their way over and Mr. Qin introduced the people to Zi Yi. (Lu Jingye knew who the people present were.)

The first person he introduced was the man seated in the middle seat. "This is Marshal Nangong."

Lu Jingye said, "Hello, Marshal Nangong."

Zi Yi followed him and greeted them.

Marshal Nangong nodded at the two of them and the first thing he asked was, "How is Old Lu's health in recent days?"

Lu Jingye replied, "Grandfather's body is much better as compared to some time back. He's currently recuperating well."

Marshal Nangong nodded his head and shifted his gaze to Zi Yi.

He thought that such a young lady like Zi Yi would feel fear at the sight of him. However, he did not expect Zi Yi to smile at him after they made eye contact. "Nangong Yu resembles you a little."

Marshal Nangong was momentarily stunned before he curved his lips and said, "That kid mentioned you a few times before. He has always hoped that you could join his experimental project."

Zi Yi smiled in response and did not answer.

Marshal Nangong did not get angry either.

Mr. Qin then introduced the other two individuals to Zi Yi.

"This is Mr. Song, and this is Mr. Yuan. They are responsible for weapons and finance respectively."

Both of them sized up Zi Yi. Even though they had heard about her often in the past and seen her photos on the internet, they still got a shock when they saw Zi Yi in person today.

The three of them exchanged greetings.

Mr. Qin said, "We invited you two here today to discuss with you about..."

...

By the time Zi Yi and Lu Jingye came out of the office building, it was already two hours later.

Mr. Qin was walking next to them.

When they were walking down the stairs, Mr. Qin suddenly asked, "What does Little Zi think of Qin Ze?"

He then added and said, "Little Zi, there's no need for you to hold back, just telling me the truth will do."

Zi Yi never even had the thought of holding back and said straightforwardly, "Your son has very thick skin."

Mr Qin chuckled. "...Pft! What else?"

"He is knowledgeable in the professional field and is pretty good, but he has been subjected to plenty of limitations."

"Yes, he's still too..." Mr. Qin originally wanted to say that Qin Ze was still too young. However, at the thought that Zi Yi was even younger than his son, he could not get himself to say it out loud. He skipped the topic and said, "Then do you think he is qualified to be your assistant?"

Zi Yi looked at Mr. Qin with an intense look.

Mr. Qin looked at her and smiled gently. "You can actually bring him around for the following period of time. Even though he's a little... thick-skinned, he's resistant to beatings. If you're in a bad mood, you can beat him up as and when you like. Or perhaps if you encounter a dangerous situation, you can get him to step forward. He's quite smart during certain situations."

Zi Yi: "..."

Was Mr. Qin digging a hole for his son or was he trying to praise his son?

“Dad, Zi Yi, Mr. Lu.”

Speaking of trouble, trouble came.

Chapter 867: The Showing Off of a Grandchildren Maniac

Looking at Qin Ze who drove over, Zi Yi muttered to Lu Jingye, “He’s here again.”

Lu Jingye looked at his wife who wrinkled her nose with a slight smile on his face and stroked her head without saying anything.

After Qin Ze parked the car in front of them, he revealed a grin and said to Zi Yi, “What a coincidence.”

Zi Yi crossed her arms and looked at him.

Just then, Mr. Qin immediately explained, “Little Zi, this brat’s arrival is absolutely by accident. I didn’t tell him you were here.”

After Qin Ze heard that, he smiled even more widely. “Isn’t it a coincidence? I came here at my Mother’s command to fetch Old Qin and just so happened to bump into you.”

Speaking of this, he alighted and quickly came over to ask her, “Zi Yi, where have you been the past few days?”

“Who says I must go to M.Uni every day?”

Zi Yi looked at Mr. Qin after she said that.

Mr. Qin said to Qin Ze, “Aren’t you here to take me home? Let’s go.”

“Wait!” Qin Ze quickly took out a palm-sized notepad from his pocket and started asking Zi Yi as though he was a fanboy, “Zi Yi, I have a question to ask you. I’ll go after I finish asking.”

Zi Yi and Mr. Qin revealed speechless expressions at the same time.

Lu Jingye made a suggestion. “If Mr. Qin and Little Mr. Qin aren’t in a rush to go home, why don’t we sit down for tea?”

“No rush. We aren’t in a rush at all.”

Qin Ze looked at Mr. Qin and revealed a begging expression.

Mr. Qin could only say, “I have time for a cup of tea.”

Thus, the four of them headed to a relatively quiet teahouse.

After they took their seats, Qin Ze immediately took out his notepad and opened it to show it to Zi Yi as he started asking his questions.

Mr. Qin who was seated next to him did not know whether to laugh or cry, and said to Lu Jingye, “This boy has been enchanted ever since he came into contact with his field. In particular, these two years. He

even went behind my back to the space station for half a year. By the time he came back, I almost couldn't recognize him."

Qin Ze had gone to the space station and stayed there for half a year. He did not only look like a beggar but also a madman. He was simply a maniac.

Even though Mr. Qin was saying things as though he disdained this son of his, his tone of voice was full of pride.

"I didn't expect him to be so interested in aviation technology, but it's good this way. Young people should spend some time in their lives pursuing the field of futuristic technology."

Lu Jingye looked at his wife who was discussing with Qin Ze with an expression of disdain and the corner of his lips curved up.

Just then, Mr. Qin said, "You two are headed for Country D and I believe Zi Yi would definitely be visiting the Aviation Research Institution there, right?"

Lu Jingye tilted his head and looked at him.

Mr. Qin knew of his and Zi Yi's plans because they had briefly mentioned it during the meeting today.

Mr. Qin said, "In fact, my son is somewhat reliable at times. Perhaps he might be able to be of help during some instances?"

Parents always tend to worry about their children. Based on Mr. Qin's high position, as long as he gave the order, Zi Yi would have no choice but to bring Qin Ze along with her. However, he did not force them to do so. Every single time, he had brought up the request from the standpoint of a father.

Lu Jingye did not answer him immediately and only said, "This has to be decided by Yiyi."

Mr. Qin nodded his head.

The four of them sat in the teahouse for over an hour. Seeing that it was about to be dinner time, Lu Jingye had no choice but to remind them. "Yiyi, Mother is still waiting for us at home."

Zi Yi immediately cut off the discussion with Qin Ze and said, "That's it for today."

Qin Ze was not the type of person who had no tact. He immediately put away his notebook and grinned. "Thank you, Zi Yi. What you said today is much more useful than what I've learned."

Zi Yi nodded her head and stood up with the intention to head outside together with Lu Jingye.

Qin Ze hastily asked, "Zi Yi, when's the next time you will be free?"

Zi Yi thought about it and said, "I'm heading abroad the day after tomorrow. If you want to tag along, come to my house at half past seven in the morning."

"Which house?"

Qin Ze knew that Zi Yi had several places of residence which led to this question of his.

However, Zi Yi did not answer him. After she said her piece, she left the teahouse together with Lu Jingye.

Qin Ze got anxious and wanted to follow them outside when Mr. Qin called out to him. "No need to chase them. Little Zi is referring to Second Master Lu's place."

When Qin Ze heard that, he stopped his movement and scratched his head while smiling at Mr. Qin.

Mr. Qin said helplessly, "If you can be just as proactive when you meet a girl you like, your Mother and I won't be so worried about your future anymore."

Qin Ze smiled ingratiatingly at Mr. Qin. "Old Qin, don't talk nonsense in front of Mom. I still haven't accomplished anything yet and I won't be finding a girlfriend until I'm at least thirty-five."

Mr. Qin originally wanted to lecture him. However, he knew that one should work hard in this field when they were young. When they were older, their health and condition might not be able to catch up even if they had the will. In the end, he did not say anything else.

...

By the time Zi Yi and Lu Jingye returned to the Lu Family's villa, Eldest Master Lu, Second Master Lu and Third Master Lu were all at home. They were all seated in the living room and chatting.

Both of them came over and greeted them.

Second Master Lu said to Zi Yi, "Your Mom and your Third Aunt are in the nursery. Go and call them down for dinner."

"Ok." Zi Yi nodded her head and went upstairs.

"How is it? My two grandchildren are pretty, aren't they?"

"Yes. I've never seen such pretty babies."

"Haha, in another two months' time when their facial features become more defined, they'll definitely look even better."

"When can the two babies come out from here?"

"They can come out after the full term of pregnancy is met."

"That'll be August then. I'll go back and make them some clothes to wear. It's always more reassuring to wear what we make than to buy them outside."

"Haha, I'll thank Third Sister in advance then."

"What's there to thank me for? They are also my grandchildren."

"Hahahaha..."

Zi Yi pushed open the door and heard their cheerful laughter. The corner of her lips could not help but curve up too.

"Mom, Third Aunt."

“Yiyi has come back.”

Zi Yi walked to the container filled with nutrient solution and looked at the two babies inside. They were currently fast asleep and the umbilical cord inside the solution was making a small ripple. She could see their shallow breathing.

Zi Yi looked at them both and said, “Mom, Third Aunt, it’s time to go down for dinner.”

Only then did Mrs. Lu and the Third Madam reluctantly walk to the door.

While walking, the Third Madam asked Zi Yi, “Yiyi, since you are able to extract the babies and put them in the nutrient solution after just a few months, can you directly culture the sperm and egg?”

“Yes.”

Mrs. Lu asked the Third Madam, “Third Sister, why are you asking about this?”

“It’s nothing, I’m just asking out of curiosity.”

Mrs. Lu said with a smile, “There’s already such technology available outside.”

Third Madam smiled and said, “The technology outside is still not safe enough. I feel that Zi Yi’s method is the safest out of them all.”

After the three of them went downstairs, everyone started to have dinner.

After dinner, Mrs. Lu and the Third Madam headed back to the nursery.

Mrs. Lu seemed to be enchanted. As long as she does not see her grandchildren for a second, she would feel uneasy.

The other five sat in the living room and started talking about the upcoming Global Economic Forum.

Chapter 868: Zi Yi: Since You Are Reluctant To Part With Me, Look At Me More Often

“This time, Country D had made such a huge move and it’s obvious that their motives are not as simple. Jingye, when you arrive there, you must be careful.”

No matter what, Eldest Master Lu had also managed the Lu Group for a period of time and he also worked in higher management. Therefore, he was clear on this aspect. He had specially made a trip here today to remind him.

Lu Jingye nodded his head. “Eldest Uncle, don’t worry. I have made plans in advance.”

Lu Jingye would be leaving one day earlier than Zi Yi but he would not be going alone on this trip. Those from the Ministry of Economic Affairs would also be tagging along.

Eldest Master Lu was not someone who would show excessive concern either. Since Lu Jingye had said that, he did not continue to say anything else.

Just then, Third Master Lu said, “Little Lu, you should bring a few more secret guards with you. I’ll get Little Ming to tag along. If something does happen, he can also be of help.”

Lu Jingye immediately rejected his offer. "Third Uncle, Little Ming is still a student and it's not suitable for him to follow me."

Lu Ming was a cadet and was still studying and so, he seldom came home.

Third Master Lu, however, did not think the same. "He's studying in a military school to do these things in the future. Tagging along with you can be considered as expanding his outlook. Otherwise, his personality will remain too soft and it will not be good for him in the future."

Third Master Lu had always disliked his son's personality.

In the eyes of others, Lu Ming was a sunny boy. However, in Third Master Lu's eyes, he was a sheep that was not domineering enough. He had long wanted his son to go out and see the world and there just so happens to be a chance right now.

Lu Jingye still had a frown on his face.

Second Master Lu said, "Even if you wish for Little Ming to grow up quickly, you shouldn't hasten his growth that rapidly. Jingye is going to participate in the World Economic Forum and so what do you want him to do by bringing along Little Ming?"

"I..." Third Master Lu touched his hair that had been shaved, only leaving behind a slight stubble. "Aren't I just worried that he hasn't had the chance to hone himself and would get stage fright in the event he's directly dragged to the battlefield?"

In fact, what Third Master Lu said was not groundless. Ordinary people might not be aware, but how could someone in the Lu Family not know the direction where the wind is blowing? There would definitely be a world war in the future, the only uncertainty is in what form it would happen.

Elders Master Lu said, "Third Brother, what are you worried about? Technology would be the main player in the future and right now, you should all the more get Little Ming to study technology. Only then would he not suffer when he steps on the battlefield in the future."

Third Master Lu thought for a moment and felt what they said made sense and so, he did not continue on this topic.

Elders Master Lu and Third Master Lu remained at Second Master Lu's place until 10 in the evening before they left.

Before Lu Jingye returned to his bedroom, he specially made a trip to the nursery and stayed there for a long time. It was Zi Yi who dragged him back to the bedroom.

"You can check the surveillance anytime you like when you go out. Right now, you should spend more time looking at me."

While Zi Yi said that, she pulled him toward the bathroom and said, "You'll be leaving tomorrow while I'll leave the day after. Don't tell me you aren't feeling reluctant to part with me?"

Lu Jingye looked at his wife who was walking in front of him and the corner of his lips curved up. "I'll miss you."

The both of them made their way into the bedroom and Zi Yi closed the door. She then turned around and pressed him against the wall. "Since you're going to miss me, then look at me more."

Following that, she raised her hand and touched his cheeks. As she quirked her brow, she hinted at him. "Ah Jing, my body has already recovered."

Lu Jingye looked at her deep red lips and his Adam's apple bobbed up and down.

Her playful fingers reached for his Adam's apple and gently brushed past it, as though they were a feather gliding past. It caused Lu Jingye's eyes to deepen with lust.

The next second, he reached out one of his hands and pulled her into his embrace. He then whispered with a hot breath in her ear and threateningly said, "Naughty girl, don't regret it later."

Zi Yi smiled at him and her eyes seemed to be saying: "*Who's afraid of who?*"

In the next second, her lips were sealed and soon, there were movements and sounds that would make one turn red.

...

By the time Zi Yi woke up, Lu Jingye had already left. She glanced at the time. It was half past nine in the morning.

She was feeling a little sore and her throat was also dry. She tilted her head and looked at the bedside table. Sure enough, she saw a thermos bottle on it.

She vaguely remembered that Lu Jingye had told her before he left that there was honey water in the bottle, and for her to have some when she woke up.

She got up from the bed and drank from the thermos bottle before she washed up and went downstairs.

Only Mrs. Lu was downstairs and she was clearly waiting for her.

"Yiyi, you're awake."

Zi Yi smiled at her and said, "Mom, are you going out today?"

"Nope. I'll stay at home in the future and safeguard my grandchildren without going anywhere."

Even though the Lu Family villa's security system was very good, Mrs. Lu still felt uneasy. She was afraid that her two grandchildren might get stolen so she wanted to stay at home constantly to keep guard.

Zi Yi knew her thoughts and said, "Mom, don't worry. I've arranged for several invisible robots to protect this place and no one can enter."

Mrs. Lu still insisted. "I feel more at ease if I look over them myself."

In the end, Zi Yi did not say anything else.

Zi Yi did not go out today and stayed at home together with Mrs. Lu to accompany the babies.

In the evening, Lu Jingye sent Zi Yi a video call. He had already arrived in Country D.

The next day, Zi Yi got up at six in the morning. She went to check on the babies first before going downstairs.

Mrs. Lu, Qin Ze, Little Loli, and A were seated in the living room.

“Sister, we’re here.”

Little Loli happily greeted Zi Yi.

Mrs. Lu smiled and said to Zi Yi. “Qin Ze came very early and has been waiting for you.”

Zi Yi glanced at Qin Ze who was grinning and said, “Didn’t I tell you to come at half past seven?”

Qin Ze shrugged his shoulders. “I couldn’t sleep anyways and so I came early.”

Zi Yi said to Mrs. Lu, “Mom, I’m hungry.”

Mrs. Lu hastily got the housekeeper to serve breakfast and at the same time, she said to Qin Ze, “Little Qin, have breakfast with us.”

“Thank you Auntie Lu, but I’ve already eaten.”

When Qin Ze was not asking questions, he was in fact, a very polite young man.

In addition, he was the type of handsome guy that made people feel comfortable when looking at him. Therefore, Little Loli started fangirling over him the moment she arrived.

Little Loli held her cheeks and said to Qin Ze, “Brother Qin, why did you eat so early? You’ll definitely be hungry later. The breakfast at Auntie Lu’s is very yummy, why don’t you have some?”

Zi Yi looked at Little Loli with a burning gaze. Toward her extreme enthusiasm, she had nothing to say.

Qin Ze knew that Little Loli was a robot and so, he laughed and asked, “How do you know what Auntie Lu’s breakfast is delicious? Have you eaten it before?”

Little Loli revealed a serious expression. “Even though I haven’t eaten it, I can smell whether it’s delicious or not~”

Having said that, she took a deep breath. “It smells so good~”

Everyone laughed at her reaction.

After breakfast, Zi Yi got A and Qin Ze to wait for her downstairs. She, Mrs. Lu, and Little Loli went to the nursery.

“Wow! Are these the two babies that were in Sister’s belly? They’re so pretty.”

Mrs. Lu liked Little Loli’s sweet-mouthed personality and said with a smile, “After you all come back from Country D, the two babies will have grown more and they’ll look even more beautiful.”

“Yes. With my sister and brother-in-law’s genes, the two babies must be the most beautiful and adorable babies in the world. When they can come out from the nutrient solution, I must come by every day and build familiarity with them.”

Chapter 869: Little Loli, You Can Even Give Birth to Babies?

At around half past seven in the morning, Zi Yi's group took a helicopter and left.

After the helicopter took off, Qin Ze originally planned to discuss with Zi Yi the topic of satellite research and development. However, he did not expect Zi Yi to open a virtual screen and start discussing Country D's aviation research base together with A and Little Loli.

He could understand each and every word Zi Yi mentioned, but when the words formed into a sentence, it was a little confusing for him.

There were terms such as space hiding, signal intrusion...

They continued discussing for several hours when Zi Yi finally stopped and glanced at Qin Ze who had been in a state of confusion.

Qin Ze suddenly recovered his senses and straightened his back. "Zi Yi, don't tell me you were thinking of getting Little Loli to invade Country D's aviation research base after we arrive?"

"Is there a problem with that?" Zi Yi felt that he was making a fuss out of nothing. "If I don't get someone to explore the surroundings first, we won't even know which way to go when we go in."

"...No, what I meant to ask is, can Little Loli even make her way in? The robots in Country D are extremely developed and there must be numerous cutting-edge detection equipment in the aviation research base. What if Little Loli gets discovered?"

Zi Yi's tone of voice was too relaxed and Qin Ze was a little worried.

He felt that it was a pity for such a cute robot like Little Loli to get captured after she went in.

Little Loli seemed to have sensed Qin Ze's thoughts and she giggled while asking with a smile, "Brother Qin, are you worried about me? I'm so touched~"

Qin Ze felt goosebumps covering his body with Little Loli's cutesy voice. He smiled awkwardly and said, "I'm just telling the truth."

"However, if you doubt my ability that much, I will get angry.

"I'm so powerful and you don't even have faith in me. Wuuu..."

Little Loli pouted and turned around, wanting to pounce on A who was seated near her.

Just as Qin Ze was feeling a little guilty, he saw A pushing her away without the slightest hesitation and saying sternly, "Sit properly. Don't pretend."

Little Loli used her finger to poke his chest and said discontentedly, "You idiot. You don't even know to show concern for the fairer sex. Be careful that I won't like you anymore."

"Please do."

"...Wuuu... Sister, A doesn't like me anymore."

Qin Ze looked at Zi Yi with a confused expression. He just so happened to see the corner of her mouth twitching.

Zi Yi said, "Weren't you the one who said you won't like A anymore?"

"I didn't." Little Loli refused to admit it. "How could I have said that? I like A the most and I want to give birth to a baby for him in the future."

Zi Yi looked at her with a speechless expression.

However, Qin Ze was surprised by the shocking words Little Loli said. He subconsciously widened his eyes and asked, "Little Loli, you can have a baby?"

"Pft-!" Zi Yi was amused by Qin Ze's words.

Little Loli giggled and said with a smile, "I'll get Sister to make a small robot for me and A and we'll treat the robot as our child."

Qin Ze also realized that he was a little stupid for asking that question and so, he touched his nose in embarrassment.

While the atmosphere here was good, the atmosphere in General Hank's residence at Country D was on the opposite extreme end.

Hank was seated behind his desk while he looked sharply at his subordinates standing in front of him. "How are the arrangements?"

"Sir, everything has been arranged," one of the men answered.

Hank nodded his head.

Just then, someone else stepped forward and said, "Sir, Lu Jingye has already arrived in Country D. He's staying at the X International Hotel."

Hank's eyes turned cold when he heard Lu Jingye's name and he said, "Send more people to take care of him."

Even if they could not kill him, it would relieve some of his anger by teaching him a lesson.

"Yes."

Hank asked, "Did his woman come with him?"

"She didn't."

Hank was a little surprised by that. He snorted and said, "The robot competition is the day after tomorrow. I don't believe she won't come if we find a way to keep her country's team here."

"Yes."

"Go out."

The group of subordinates left one after another. As soon as the door was closed, a figure appeared out of thin air.

Hank looked at the black-robed man whose face cannot be seen and there was undisguised vigilance in his eyes.

The black-robed man released a burst of wild laughter, similar to a beast that was teasing his prey. "General Hank seems to be rather afraid of me?"

Hank's expression turned stern and his face was about to turn thunderous.

The black-robed man said, "Mr. Hank can rest assured that I won't do anything to my partner."

Hank clearly knew that he could not see the black-robed man's face, but he knew that he was staring at him right now.

Even if he was wary of the black-robed man, being in a high position for such a long period of time made him conceal his emotions.

"What kind of cooperation are you thinking of?"

The black-robed man did not answer him. Instead, he reminded Hank. "Your enemy who killed your grandson is here."

Hank released a powerful murderous aura at the mention of that.

"General Hank, don't be in such a rush," the black-robed man said with a smile, "If you send someone to deal with him at this moment, it is bound to fail. It's better to use other methods."

"What other methods?" Hank clenched his fists and tried to control his internal fury.

The black-robed man seemed to like the strong emotions of anger and wrath that Hank was releasing and he walked over to his desk, placed his hand on the study table, and leaned toward Hank. He then purposely lowered his voice as he said, "Why don't you hold a dinner party and lure him to your residence? As long as he steps into your territory, don't tell me it's difficult for you to have someone go missing?"

Upon hearing those words, the vigilance in Hank's eyes lessened instantly and he fell into deep thought.

The black-robed man continued leaning and looking at him without saying anything.

Hank thought for a moment and looked at him. There was a sharp glint flickering in his eyes. "Ok."

Only then did the black-robed man straighten his back.

Hank said, "Lu Jingye must have brought the Lu Family's secret guards with him. My men might not necessarily be able to control him."

"General Hank doesn't have to worry about this. As long as you can lure him here, I will help you capture him."

"Ok!" Hank slammed the table and stood up. "We'll do that then. I'll immediately get someone to write the invitation letter."

Since he wanted to lure Lu Jingye here, he must hold a banquet. Only then would he get to invite everyone from different countries and when the time comes, Lu Jingye will have no excuse for not coming.

At the thought of this, Hank was about to head out of the study room.

“General, why are you in such a rush? Other than dealing with Lu Jingye, you can also find trouble for his woman’s Uncle.”

Hank nodded his head and headed outside.

The black-robed man looked at the door closing automatically and cracked up. After he finished laughing, he pressed his wrist watch and a virtual screen appeared.

Soon, a figure appeared on the virtual screen. The person was dressed in clothes from the aviation base and he seemed to be a researcher there.

The black-robed man asked, “How’s it going over there?”

The man said, “I’ve already entered the highest level of the R&D department.”

The black-robed man smiled in satisfaction. After that, he said, “Get ready on your end. Father will be sending some brothers and sisters over. When the time comes, find a way to change all the management people.”

The other party said, “Ok.”

The black-robed man reminded him. “Pay attention to your surroundings from now on. That woman must have sent her robots over and so don’t let them sneak inside. Also, the moment you discover anything strange, immediately cause a commotion, okay?”

The other party agreed again. “Ok.”

Chapter 870: Do You Know How To Get Out of the Milky Way?”

The helicopter they took did not directly land in Country D. Instead, they landed in Country S, a neighboring country.

After they alighted from the helicopter, Little Loli and A took their leave first.

Zi Yi and Qin Ze were left behind together.

Both of them took a train towards a small town near the border of both countries. Zi Yi was planning to rest for a night first.

When they were in the hotel, Qin Ze could not hold himself back and ask, “Are you really planning to have Little Loli and A go just like that?”

Zi Yi glanced at him. Instead of answering his question, she said, “Then how do you want them to get there? Should I send them to the entrance of Country D’s aviation R&D base?”

Qin Ze: "..."

She was really impossible to talk with!

Both of them stayed in a homestay hotel in the town.

Tourists were rare during this season and they were the only guests in the whole hotel.

The countryside in central Europe was sparsely populated and the design of the buildings was also very localized. Both of them sat next to a wooden table in the courtyard and above them was a starry sky.

Qin Ze lay down on the wooden bench and looked at the stars. He pointed at the constellations and said to Zi Yi, "My wish is to visit five planets before I turn thirty-five."

Zi Yi looked at him before turning around to look at the sky. "Then your wish is really small."

"Hey..." Qin Ze sat up and stared at Zi Yi. "Little brat, you're just a small kid! How do you manage to be so arrogant every time you open your mouth?"

Zi Yi gave him an unpleasant look and said, "Do you know how to get out of the Milky Way?"

"Tsk, you're looking down on me. At present, human exploration satellites have long been able to get out of the Milky Way. You'll know about this as long as you read the secret of the universe series."

Zi Yi: "..."

"Did I say anything wrong?"

"I'm talking about humans going out of the Milky Way."

"Err..." Qin Ze paused for a moment before he had an expression as if she was making a huge joke. "I've done research about this before. Even if it is Country D and Country A, it would still take them hundreds of years before they can travel out of the Milky Way. In addition, we have to ensure that we can find materials to build manned spaceships during this period of time."

"Then when do you think our country can get out of the Milky Way?"

Qin Ze stopped talking. It wasn't that he wanted to discredit his country, but their country had only started researching in this area for a short time and many things were still incomplete. Most importantly... "We have too few scientists in this particular field."

Zi Yi shook her head.

"What do you mean when you shake your head?" Qin Ze was a little unhappy with her reaction.

Zi Yi curved her lips. "You don't even dare to imagine? If I say that we can travel freely to other galaxies in at most two years, do you believe me?"

Qin Ze's heartbeat quickened when he heard this. He looked at Zi Yi for a few seconds before lying back down on the bench. He placed both hands behind his head and said, "I want to believe what you said, but you should at the very least show me some things that will make me believe in what you've said."

Even though he said that he still revealed a grin. “If we really manage to accomplish this feat, I will definitely join to become a pioneer.”

At the same time, he silently added deep down inside: *“Even if I were to be sacrificed in the vast universe, it’ll be worth it.”*

Zi Yi looked away from his face and took out her phone to send Lu Jingye a message.

Lu Jingye had already returned to the hotel at this time so he replied to her message rather quickly.

Zi Yi: [Qin Ze doesn’t believe that I can allow us to travel freely in the universe within two years. When I mentioned two years, I said it out of consideration that he was unable to accept such a quick development. If I were to tell him that there’s parallel space time and Outerspace outside the space that he knows, would I frighten him to death?]

Lu Jingye: [It doesn’t matter if he doesn’t believe you. I believe you.]

Zi Yi was delighted with his response and sent him a kissing emoji.

Lu Jingye was not someone who would reply with emojis. He merely sent a reply: [Have you taken a look at our babies today?]

Zi Yi: [I haven’t had time yet. I’ll slowly look at them after I return to the room.]

The moment he returned to the hotel, Lu Jingye had turned on his laptop and connected it to the camera in the nursery. He would check on the babies as and when he had time. In actual fact, what he wanted to see the most was his wife.

Lu Jingye: [Tell me when you have returned to your room.]

At the sight of this message, how could Zi Yi still be in the mood to linger outside? [I’ll go back right away. Do you want to have a video call with me?]

Lu Jingye: [Mhmm.]

Zi Yi put away her phone and looked at Qin Ze who was lying on the bench. “I’m going back to rest. You can slowly enjoy the view.”

Having said that, she stood up and headed back inside.

“Hey!” Qin Ze asked, “When are we leaving tomorrow?”

“Eight or nine in the morning is fine.”

Qin Ze sat up from the bench and asked, “Why are we leaving so late?”

“Why should we go there so early? There’s still two days before the robot competition and it’s not too late for us to arrive on the last day before it starts.”

Having said that, Zi Yi returned to her room, leaving behind Qin Ze muttering to himself, “I really doubt that we are here to do serious business. Instead, we’re here for a vacation!”

Following that, he continued staring at the starry skies and started his research.

After Zi Yi returned to her room, she immediately turned on the virtual screen.

Lu Jingye did the same and both of their videos were connected at the same time.

Zi Yi smiled at him. "Ah Jing."

Lu Jingye turned his laptop to face her so that both of them could see their babies.

After looking at them for some time, Zi Yi said, "I feel like going home."

Lu Jingye raised his hand and made the action of touching her head. "We'll go back after everything is over. We won't go anywhere after we return and just stay home to accompany our babies."

"Mhmm."

Both of them looked at the babies for a short while before they talked about other things.

Lu Jingye said to her, "General Hank's residence sent out invitations to all the embassies today. He's inviting us to attend a banquet at his place the night after tomorrow."

Zi Yi snorted lightly and said, "When the fox preaches, take care of your geese. He clearly wants to deal with you and even invited everyone over as a cover."

On the other hand, Lu Jingye was rather calm about it. "It's better this way. If he only invited me along, it'll be hard for my men to take action."

However, now that he has invited a crowd, as long as he does not give them the opportunity to strike, they won't be able to do anything to him.

Zi Yi was still a little worried. "There must be people from the Worm Race in Hank's place. You must pay attention to your safety. If you really encounter any of them, get the invisible robots to deal with them."

"I know, don't worry about it too much."

Zi Yi thought for a moment and said, "The cloned Aisha is still around. I don't trust her."

Speaking of this, Zi Yi was even more worried. "The cloned Aisha will definitely try to do something to you. You have to be careful."

Lu Jingye looked at her and the corner of his lips curved up. "Don't worry, I won't accommodate anyone else but you in my heart. No matter how powerful she is, she can't do anything to me."

Zi Yi nodded her head and only then did her worry lessen a little. Following that, she started telling him about her plan. "I plan to take a look at the robot competition with Qin Ze first. After that, we'll try to sneak into the Aviation R&D Base."

"Mhmm."

Both of them conversed for a while more before disconnecting the call.

After they disconnected from the call, Zi Yi connected to Little Loli's eyes.

Little Loli and A had already arrived outside of Country D's Aviation R&D Base.

The Aviation R&D Base in Country D was even larger than that of China's. The peripheral security facilities were also not to be belittled.
