Chapter 901: What Did You Do Again To Have That Person Go to Such an Extent To Chase You Down?

Zi Yi got Qin Ze to pay more attention to the 'family' that had just moved in.

After Qin Ze finished his dinner, he made his way over under the guise of taking a stroll.

However, it wasn't long before he came back home.

"There's no one in the house."

Zi Yi thought about it for a moment and said, "Then make preparations. We'll go down to the ranch and take a look."

Qin Ze nodded his head.

It did not take long before they drove to the ranch.

The land here was vast and it was also sparsely populated. Therefore, the ranch was particularly large. However, the area was fenced off.

Qin Ze parked the car in the woods a little further away. Both of them went around the fence and stopped somewhere nearer to the building. They were planning to climb over the fence.

Qin Ze stood at the foot of the wall and asked Zi Yi, "Are you able to climb over the fence? Do you need my help?"

Zi Yi looked at him for a second before calling out Shadow and giving him a command. "Take us inside."

Shadow lifted each of them with one hand and in the next second, both of them were on the other side.

Qin Ze: "..."

After Shadow brought them inside, he turned invisible. Zi Yi headed to the building while she said, "Stop being in a daze and keep up."

Qin Ze hastily kept up with her.

The houses within the ranch were all built side by side. There were at least seven to eight buildings in one area.

There was only one building with its lights still on. The other buildings were all dark.

Both of them went around from behind. As soon as they reached one of the buildings, Zi Yi suddenly stopped.

"What's wrong?" Qin Ze asked in a whisper.

"There are people like us nearby."

As soon as Zi Yi said that, she said to Shadow, "Go and find out who they are and what they are trying to do."

Qin Ze and Zi Yi waited in the shade for some time before Shadow returned and said, "It's the two people who had just moved in. They went into the office building."

"Could it be that they have the same purpose as us?"

Zi Yi pondered for two seconds and said, "Hide here. I'll go take a look."

She did not even wait for Qin Ze to respond and walked away.

In an office on the second floor of the building.

The amount of meat ordered by the base located in the North was too much and the staff here had been working overtime every day. After he calculated how long his ranch could continue the supply, he subconsciously revealed a disappointed expression. "I can last for a week at most. If I knew earlier, I would have raised more livestock this year."

Click.

"Who?"

The sudden sound caused the rancher to turn in the direction of the door. Subsequently, he shouted out his question.

In the next second the door was pushed open. At the sight of the two men walking in, the rancher jumped up from his seat in fright. He subconsciously reached for the weapon beside him and shouted loudly, "Who are you? How did you get in? You had better not have any strange ideas. This place is connected to the town's police station and as long as I press the alarm, the police will be here immediately to arrest you."

"Louis."

As soon as the man spoke, the temperature of the room seemed to have dropped several degrees. Louis broke out in a cold sweat.

"You... who are you?"

The man did not plan to answer his question at all. He went straight to the point. "Can your men send the meat into the research lab?"

"I... I..."

"Speak!"

"Yes."

"Very well. We will follow along tomorrow morning."

Louis hastily nodded, thinking that he would expose them when he arrived at the base and have them arrest these two people and put them behind bars.

However, the man walked over to him and leaned over as he whispered in Louis' ears.

Louis' legs went soft after hearing what the man said. If not for his hand quickly grabbing the edge of his desk, he would have fallen down to the ground.

He hastily nodded his head and said, "Ok. I'll definitely wait for you tomorrow."

The man nodded his head and turned around with the intention to leave.

However, as soon as he reached the door, he suddenly shouted, "Who?"

Subsequently, he started to give chase.

By the time his subordinate chased after him, the man had already disappeared.

When the man ran out of the gate, he ran in a certain direction by intuition.

He chased all the way to the stockbreeding place. Looking at the sleeping cattle and sheep inside the fence, he took out his mobile phone and quickly dialed a number.

After the other party answered the call, he said with a heavy voice, "Surround the ranch and capture anyone who leaves."

Having said that, he looked around his surroundings. As if the other party could hear him, he spoke. "You had better hide properly. If I were to catch you, I would make you regret trying to follow me."

What answered him was the snoring sounds of the animals.

On the other side.

Just as Zi Yi and Qin Ze were about to leave the ranch, they saw a group of people silently surrounding the whole ranch.

Qin Ze clicked his tongue and asked Zi Yi. "What did you do again to have that person do so much to chase after you?"

"I did nothing."

After they walked to the car they had parked, Zi Yi suddenly stopped.

"Don't get in the car."

Qin Ze hastily stopped moving. "What's wrong?"

"We'll walk back."

As soon as she said that, she started walking on the stone path.

Qin Ze quickly chased her. "This place is more than ten kilometers away from where we stay. If we were to walk, how long would we have to walk before we reach home?"

"Our car was discovered."

"Ah? Those people discovered our car so quickly?"

"Yes."

As soon as Zi Yi said that, a car drove past the main road. The car wasn't driving at a fast speed. From the looks of it, it seemed to be looking for them.

"The other party actually knows that we came out?" Qin Ze looked at the road through the shade from the trees. He touched his chin and muttered, "I feel that the two people who moved here recently have a strong background."

Speaking of this, he asked Zi Yi, "What did you overhear earlier?"

"They are planning to sneak into the base."

"Who could they be?"

Zi Yi thought for a while and mentioned a name. "That person resembles Runge."

"Hmm? Huh! Runge?!"

Qin Ze was surprised. "He's a major of Country D and it'll be easy for him to enter the base. Why is he..."

Speaking of this, Qin Ze suddenly thought of something and paused for a few seconds. "Could it be that the King sent him here to secretly deal with the worm race after you sent him the name list?"

Both of them stopped talking as they continued walking ahead.

After walking for a distance, the car that was driving at a slow speed drove away.

Qin Ze breathed a sigh of relief.

"It seems like they've gone away. However, are we really going to walk back?"

"How is that possible?"

Following that, Zi Yi took out two circular balls and threw them on the ground.

The circular ball transformed into two skateboards.

Zi Yi stepped on it and asked him, "Do you know how to ride a skateboard?"

"Are you looking down on me?"

Since Qin Ze had said that, Zi Yi directly stepped on the skateboard and disappeared in a flash.

Qin Ze: "...!"

It took him several seconds before he returned to his senses. He wanted to call out to her, but feared that those chasing them would overhear him. In the end, he could only mutter internally, "*You didn't say it wasn't an ordinary skateboard. How am I supposed to ride on this?*"

Even though he was frightened by the speed, he still stepped on it.

The moment he stepped on the skateboard, there was no movement at all.

"Eh? What's going on? Why isn't it moving? Quick, move."

Whoosh!

“AHHH-”

BANG!

Qin Ze ended up falling and he felt that it must have resulted in a concussion.

Chapter 902: Master, That Man Is Trying To Enter From the Back Door

After Zi Yi returned to her room and was about to go to sleep, after changing into her pajamas, she heard the sounds of a car being parked outside.

There was not even a need for her to think, to know that those people had located this place after tracking the traces of her car.

“It seems like they are really starting to become doubtful of us.”

Zi Yi snorted and pretended not to know as she lay down on the bed.

Soon, there were sounds of knocking on the door.

Zi Yi covered her head with the quilt and had no intention to care about the knocking.

After the person continued knocking for some time, he suddenly stopped knocking.

Just as Zi Yi was thinking about whether Qin Ze had come back yet, Shadow’s voice sounded in her ear. “Master, that man is trying to enter through the back door.”

Before Zi Yi had the chance to explode in anger, Shadow added and said, “Second Master has stopped him.”

“Hmm?” Zi Yi flipped the quilt away and got down from the bed after hearing what Shadow said. She then ran in the direction of the back door.

After she opened the door, Zi Yi looked at the two figures who were currently engaged in a fight.

Even without any light source from the moonlight, Zi Yi could still discern who they were.

Just then, she called out to someone, “Hubby.”

Lu Jingye said to her, “Go back to the room. Don’t catch a cold.”

Zi Yi responded with a nod and returned to the room.

Lu Jingye and Runge’s fight lasted for some time. In the end, Lu Jingye landed a punch to Runge’s stomach and Runge took a few steps back. That was when the fight finally ended.

He pressed on his stomach with his hand and asked in a heavy voice, “Who are you?”

He knew the other party was using martial arts from China, but he could not identify who he was.

“It’s none of your business to know who I am.” Lu Jingye purposely lowered his voice. Coupled with the mask he was wearing, he was not worried about Runge recognizing him.

“If you dare to have designs on my wife, don’t blame me for being ruthless. I don’t think anyone will find out, even if there is an additional corpse here. And there especially won’t be any problems for us who only came out to travel.”

Runge stared into the other party’s eyes. He was trying to identify some sort of familiarity with the other party’s speech.

He was already suspecting that the woman in the room was Zi Yi.

Just then, he suddenly called out, “Lu Jingye.”

Lu Jingye did not respond to him at all. He exuded an extremely powerful aura.

“Why aren’t you getting lost?”

Runge was sure. The other party was not Lu Jingye.

However, the other party’s rude remarks made him feel upset.

“Who are you?” he asked again.

Lu Jingye did not feel like conversing with this person who tried to do something to his wife. He simply bent down to pick up a stone and threw it in Runge’s direction.

BANG!

Runge was surprised.

The other party actually dared to throw a stone at him?

He almost lost his reasoning due to rage and wanted to pull out his gun. Just then, a woman’s voice sounded from inside the room. “Hubby, why don’t you send that thief to the police station? He must be trying to steal something from our house.”

Lu Jingye responded affirmatively. “I got it. Go back to the room.”

Runge had never experienced being treated like a thief before and flames of fury were burning in his mind.

In particular, Lu Jingye continued to speak, saying, “My wife can’t take the sight of blood. You had better leave quickly.”

Having said that, he headed in the direction of the back door.

After the back door was closed, Runge’s facial features became distorted.

He clenched his fists and stood there for a moment before he turned around and walked on the road.

Inside the house.

Zi Yi, who had been standing behind the door, immediately threw herself into his arms as soon as he came in.

There was an unconcealable hint of joy in her voice. “Ah Jing, why have you come?”

“Didn’t you say there was no one here to cook for you? I’m here as your personal cook.”

Zi Yi’s lips curved up at his words. She stood up on tiptoe, hugged his neck, and kissed him on the lips.

Lu Jingye supported her waist and deepened the kiss.

The lights in the room weren’t switched on and the sounds of kissing reverberated throughout the house. Because of the darkness the ambiguous sounds were amplified.

Just when both of them were about to lose control, Lu Jingye restrained himself and pulled away from her as he asked, “Little Zi, which one is your room?”

“The one to the east.”

Lu Jingye carried her by her waist and walked to Zi Yi’s bedroom.

The bedside lamp inside the room was switched on. Lu Jingye carried her over and put her on the bed.

Zi Yi put her arm around his neck, looked at his unfamiliar face, and said with a giggle, “Hurry and take off your mask. Otherwise, I feel like I won’t be able to kiss you.”

Lu Jingye was amused by her words and was about to straighten himself up.

However, Zi Yi held onto him without letting go.

Lu Jingye gently pinched her waist and said, “Naughty girl, let go.”

Only then did Zi Yi release her hold on his neck.

Lu Jingye stood up and headed to the bathroom. While walking, he took off the mask. “I’ll go take a shower first.”

Having said that, he entered the bathroom.

Zi Yi lay down on the bed and her mind was on cloud nine. The corners of her lips unconsciously curved up.

However, just then, there were sounds of movement from outside, which were followed by knocking sounds outside her door.

“Zi Yi, are you in the room?”

“Yea.”

“Did someone come by just now? I saw some trees behind the back door that were damaged.”

“Mhmm.”

“Are you alright then?”

Zi Yi got a little annoyed and said, “Nothing’s wrong. You can go back and sleep.”

Qin Ze had yet to finish asking his questions. “Do we follow the people from the ranch to the base in the morning tomorrow?”

“No need. We’ll head there later in the day.”

“Then...”

“I’m already asleep. Don’t talk to me anymore.”

“...Alright then.”

Upon hearing Qin Ze walking away, Zi Yi clicked her tongue and craned her neck to look at the door to the bathroom.

Lu Jingye just so happened to come out.

He glanced at the door and asked, “Where did Qin Ze go?”

“We went to the ranch earlier. He just came back now.”

Having said that, she pulled the quilt open and urged him to lie down next to her.

As soon as their bodies approached each other...

Instantly, it was like dried wood thrown into a bonfire.

...

By the time Zi Yi woke up the next day, Lu Jingye had already left the room.

When she washed up and came out, she saw Lu Jingye and Qin Ze standing there with their backs facing the door while they conversed.

Qin Ze said, “I didn’t expect Major General Runge to be entering the base in this manner.”

Lu Jingye explained to him, “He’s heading there in secret and the purpose of which is to prevent anyone from knowing.”

Qin Ze laughed upon hearing this. “Zi Yi identified him last night. If we were to go in together when the time comes, I feel like we would encounter each other.”

“Mhmm.” Just then, Lu Jingye suddenly turned around and walked over to Zi Yi. He looked at her disapprovingly as she was only wearing thin outerwear. “The mornings here are rather cool. Go in and grab another thicker layer.”

“I’m not cold.” Zi Yi put her hands in his and said, “Feel it. My hands are warm.”

Lu Jingye held her hands tightly and sure enough, her hands were warm. He did not say anything else.

Qin Ze did not wish to be a lightbulb and so, he said, “I’ll go check if the porridge is ready.”

Following that, he headed in the direction of the kitchen.

Zi Yi pulled Lu Jingye away and while walking, she told him her plans. “A and Little Loli are already inside the research lab. They have also identified who are the worm race. When the time comes, we can secretly assist Runge and take care of those worms. This way, no one will notice us.”

“Mhmm.” Lu Jingye agreed to her plan.

Zi Yi added and said, "I was planning to head to the research lab today. But since Runge is also here, let him go in today and we'll go in the day after."

Just then, Lu Jingye looked in a certain direction.

Zi Yi followed his gaze and looked over. They saw that Runge had yet to leave and instead, he was making his way over.

Chapter 903: How Did He Get On Your Nerves?

Runge had sent people to do a check on the new people who had moved into the house across the way. He originally thought that there was only a father and daughter pair. He did not expect someone else to appear last night. Not to mention, the guy was very skilled in fighting.

He had pondered about it for a night and felt something was amiss.

Therefore, he changed his mind about his plans of leaving early in the morning and planned to confront the father and daughter.

He did not expect to encounter them the moment he stepped out.

Runge walked over to them. His pair of eyes were as sharp as those of an eagle.

"Who are you?"

Zi Yi laughed upon hearing what he said. Instead of answering, she asked, "Who are you?"

Runge furrowed his eyebrows in displeasure. His sharp gaze stared at Lu Jingye as if wanting to detect any hints from his eyes.

Lu Jingye met his stare head on and similarly, there was also a sharp glint in his eyes.

The question he then asked was even sharper, "Why did you head to my wife's place last night? What is your motive?"

Runge's expression paused for a second before he said in displeasure in the next second, "I'm asking you a question. Answer me."

"Pft!" Zi Yi said discontentedly, "You little thief! You dare to brazenly approach us and question us? It seems like the lesson my hubby taught you last night wasn't enough."

Speaking of this, she lowered her voice and said to Lu Jingye, "Hubby, this person needs to be taught a lesson."

Lu Jingye said, "Stand back, lest we injure you by mistake."

Zi Yi obediently took a few steps back.

Runge did not waste time talking nonsense with him.

Both of them were engaged in a fight in an instant.

The road in the countryside was only a meter wide and while they were fighting, they soon moved to the unkempt land by the side of the road.

Zi Yi didn't really get to have a clear view of their fight last night. Right now, it was like watching a fighting show and she would cheer Lu Jingye on from time to time. "Hubby! Come on! Give him a good beating and let him know the consequences of stealing from us."

Even though Runge did not quite fully understand what Zi Yi was saying, when Lu Jingye's fist greeted him to the face, he quickly blocked it with his arm. He then quickly took two steps back before launching another attack.

Runge went all out, but Lu Jingye still had the leisure to respond to Zi Yi's words from time to time.

His behavior had angered Runge even more.

He subconsciously wanted to reach out for his gun.

Just then, Zi Yi's voice sounded. "You had better not use your gun, or else don't blame us for being rude."

Her words were like magic and they reverberated in Runge's mind, causing his hand to stiffen for a second.

In the next second.

BANG!

Lu Jingye punched him in the face.

He lost sensation in half of his face. Following that, a strong dull pain spread from his gums and his mouth was filled with a bloody flavor.

Runge quickly took several steps back and while he steadied himself, he raised his hand to wipe the blood on the corner of his lips.

Subsequently, he spat out the blood and looked at Lu Jingye with a fierce expression.

Lu Jingye stood there and did not continue to attack.

Zi Yi, who was standing on the road, asked him with a smile, "Do you want to continue fighting? This time around, it's time for my hubby to hit your hands. I feel that your hands are itching for a beating. We only picked a few cherries from the tree in your courtyard and you had actually chopped it down? You're really annoying."

Runge's sharp eyes turned to look at Zi Yi.

Zi Yi purposely said, "Your gaze is so~ frightening. Don't look at me, otherwise I'll get my hubby to give you panda eyes."

Runge had always found women to be trouble. Right now, this woman in front of him had simply refreshed his dislike for women.

He shouted in a loud voice, "Shut up!"

"Am I supposed to shut up just because you tell me to?" Zi Yi snorted internally: *You're the Major General of Country D and you are respected by thousands of people. And yet, your tolerance is so weak!*

She then deliberately said, "You're shouting at me just because you can't win against my hubby. Do you think my man is here for show?"

As soon as Zi Yi said that, she looked at Lu Jingye with a sad expression. "Hubby, he shouted at me."

Lu Jingye knew that Zi Yi was being intentional and he was also willing to cooperate with her. He bent down and picked up a lump of soil in his hands as he said, "Try shouting at my wife again?"

Thousands of sheep galloped past internally in Runge's mind. Runge's expression was so gloomy that it became distorted.

However, he did not say anything else.

The three of them stood there without talking and the air seemed to be frozen.

A minute later, Zi Yi suddenly touched her tummy and said to Lu Jingye, "Hubby, I'm hungry."

Lu Jingye threw the soil in his hand aside and stepped onto the main road. Subsequently, he walked in the direction of the house together with Zi Yi.

From the start to the end, none of them could be bothered to even look at Runge.

Runge stared at their back profiles and his facial expression had finally become so distorted he didn't look recognisable.

These two people were definitely not as simple as they seemed on the surface.

However, he had more important things to attend to. He decided to thoroughly investigate these two people after he was done with his task at hand.

By the time Zi Yi and Lu Jingye returned to the vicinity of their house, they saw Qin Ze standing at the intersection and laughing.

Evidently, he had seen what had transpired earlier. When Zi Yi and Lu Jingye came closer, he crossed his arms and said, "Aren't you afraid that Runge will send a team of guards to capture you two because you have been provoking him so much?"

Zi Yi did not feel that they were provoking Runge at all. "He's the one that is provoking us alright."

If not for the fact that he chopped down the cherry tree, she wouldn't have bothered to pay him any attention.

"He's so ruthless and he ought to be educated."

"Tsk..." Qin Ze suddenly felt some sympathy for Runge, but more of it was curiosity. "How did he get on your nerves?"

He felt that based on Zi Yi's temper, she was not someone who would take the initiative to provoke someone. In particular, the other party was the Major General of Country D.

It was fine when Qin Ze hadn't brought this up. However, the moment he mentioned this, Zi Yi flared up. "There's a cherry tree next to the house they are staying at. Yesterday, Little Bell and I went to pluck a few cherries and he saw us. Do you know what he did? He chopped down the tree!"

Qin Ze: "..."

He was having mixed feelings deep down inside. He did not know whether he should be commenting that Zi Yi was narrow-minded or that Runge was really a little too unfeeling.

The fruit trees in the countryside were generally open to everyone to pluck from as and when they liked. Especially if the original owner had moved away.

To prevent other people from going there, he had cut down the tree.

Lu Jingye originally wanted to pat Zi Yi to calm her down, but there was soil on his hand. "I'll get people to plant a few cherry trees near our courtyard. You can eat them as and when you like in the future."

Zi Yi's mood turned for the better.

Both of them headed in the direction of the stream.

While Lu Jingye was washing his hands, Zi Yi stood next to him and said, "Actually, It's not that I want to eat cherries all that much. It's just that I can't stand how Runge does things. Little Bell even cried... Oh yes, you don't know who Little Bell is. I'll bring you to play with him later. He's so adorable and obedient. I think our babies will be the same as him in the future."

Lu Jingye answered gently, "Sure."

Qin Ze who was standing next to them: "..."

Second Young Master Lu, can you put on some idol baggage?

The image of the previous Second Young Master Lu in his mind seemed to have changed whenever he was in front of Zi Yi.

Can't you have some control?

Sure enough, the word femme fatale is used to describe people like Zi Yi!

Chapter 904: Why Is This Woman So Unreliable?

Qin Ze thought that Runge would continue coming to find trouble after getting beaten up.

Unexpectedly, as soon as they finished dinner, Lu Jingye said, "Runge has already left for the base."

After hearing what Lu Jingye said, Qin Ze asked them, "Then when are we going there?"

Zi Yi shot a glance at him and said, "What's the hurry? In any case, when we arrive we won't be able to enter the internal section right away. Moreover, you can't eat whatever and whenever you like there. So why should we go there so early?"

Qin Ze: "..."

Zi Yi disregarded how speechless Qin Ze was and she pulled Lu Jingye outside. "Ah Jing, I'll take you to find Little Bell."

After both of them had walked around a hundred meters or so away, Qin Ze finally could not help but mutter out loud, "Why is this woman so unreliable?"

Not to mention, another man who allowed her to act so unreliably had now come along.

When Zi Yi and Lu Jingye reached the vicinity of Sonny's house, Zi Yi called out to Bell. Little Bell, who heard her voice, quickly ran out of the house.

"Sis-"

Bell's voice came to an abrupt stop when he saw Lu Jingye standing next to Zi Yi.

Sonny's smiling voice sounded just then. "Bell, is it your Sister Yi who came?"

Bell immediately ran inside when he heard Sonny's voice.

Subsequently, Sonny came out while holding Bell. When she saw Lu Jingye standing next to Zi Yi, she was also stunned for a moment before she said with a smile, "I was wondering why Bell ran back inside. So it turns out, Yi brought someone along with her."

Zi Yi smiled at her and at the same time she introduced Lu Jingye to her. "Auntie Sonny, this is my... boyfriend. He specially came looking for me."

As soon as Zi Yi finished explaining, she sensed Lu Jingye staring intently at her.

Zi Yi tilted her head and raised her eyebrows before she spoke in Chinese. "They are under the impression that I'm 15 and I didn't explain myself at the time."

Only then did Lu Jingye turn around and greet Sonny.

"Hello. Thank you for taking care of my girlfriend for the past two days."

Lu Jingye was extremely polite and also gave off the aura of a warm-mannered person. Sonny immediately put down her vigilance and welcomed them inside enthusiastically. "Come on in and have a seat. I'll go prepare a cup of coffee for you two."

"Auntie Sonny, no need to go through so much trouble. I'm just here to visit Bell and bid farewell to you two at the same time."

"Are you leaving so soon?"

As soon as Sonny asked that question, Bell's reluctant voice sounded. "Sister."

Zi Yi walked over to Bell's side and took out a circular ball to give to him. "This is a toy for you. This toy can change into many different shapes and it can also protect you. You should take good care of it. When you grow older, you will definitely fall in love with this."

The circular ball Zi Yi gifted Bell looked rather ordinary and Sonny did not pay much heed to it as she said, "Bell, hurry and thank Sister."

On the other hand, Bell took the circular ball from Zi Yi as if it was a precious treasure before he nodded his head.

Zi Yi stroked his head and asked, "Little Bell, do you want to go out and play with me for a short while?"

Bell nodded his head again.

Sonny invited them inside again and Zi Yi said, "We'll just take a seat outside."

Having said that, she pulled Little Bell's hand and they made their way to the grass patch. Following that, she quickly used the grass to create something for him.

"I'll make a toy for you. What do you like?"

"Plane~"

"Ok."

Looking at Zi Yi squatting down in the grass and Bell smiling adorably, Sonny lamented. "Yi seems like she's such a good and adorable girl. Just how did she become depressed?"

"Depressed?" Traces of confusion flashed past Lu Jingye's eyes.

When did his wife get depressed?

However, he immediately understood in the next second.

It must be a reason they came up with randomly when they came. Moreover, Qin Ze must have been behind this.

Sonny continued to speak, "For people with this type of illness, they would look fine to others on the outside. But once their illness flares up, the consequences can be very serious."

Speaking of this, she turned around and looked at Lu Jingye as she said in a serious tone, "You guys have to pay more attention to her and don't let her experience anything that makes her unhappy."

Lu Jingye was silent for a few seconds before he nodded his head. "Thanks for your concern. After we get back from this vacation... she will recover from being depressed."

Sonny was at ease with Lu Jingye's assurance. However, she still said with a sigh, "How can such a beautiful girl like Yi become depressed?"

Just as Lu Jingye was about to reply, Sonny said, "The education in China is too strict. There's not a single child in our country that would suffer from depression because of poor grades."

Lu Jingye: "..."

Zi Yi made several airplanes for Bell before she left with Lu Jingye

When they were about to part ways, Bell started to cry again, which made Zi Yi feel reluctant to part with him.

Lu Jingye held her hand as they walked back to their house. At the sight of Zi Yi's sullen look, Qin Ze deliberately teased her. "Zi Yi, don't tell me you went pick fruit again and someone else chopped down the tree?"

Zi Yi did not even bother to give him a look and said fiercely, "If you say another word, do you believe that I won't get Ah Jing to beat you up?"

Qin Ze: "...Childish."

"So what if I'm childish?"

Lu Jingye glanced at Qin Ze and he subconsciously shut his mouth. Lu Jingye then said to Zi Yi, "When we come back, we can come and visit Bell again. But right now, we have to pack up and leave."

"Are we leaving right now?" Qin Ze thought that they would leave tomorrow.

"We'll make a trip to the ranch first." Lu Jingye said, "I have already made arrangements."

Qin Ze nodded his head and felt that as expected, Lu Jingye was more reliable. He then turned around and went to pack his belongings.

Lu Jingye got Zi Yi to sit down and wait while he went to pack.

After Qin Ze finished packing and came out of the room, he asked Zi Yi, "What should we do with the things you brought from the supermarket?"

Zi Yi was currently playing with her phone. She did not even raise her head as she said, "We'll bring them with us."

"How are you planning to do so?"

"Shadow II," Zi Yi called out and Shadow II immediately appeared. "Master."

"Go to the kitchen and bring everything inside with you."

Qin Ze followed Shadow II into the kitchen.

Soon, he came out and asked, "Zi Yi, you're getting your robot to take along the rice, flour, and oil too?"

"I said everything. He would definitely take these along too."

"Whereabouts will we cook there? Also, there are so many things. Can a single robot bring everything?"

"Of course... Also, don't ask anything further. Just assume that it's knowledge that has always existed but that you've never learned about yet."

After Zi Yi said that, she continued playing with her phone and looked as though she did not wish to talk anymore.

Qin Ze opened his mouth but ended up closing it.

This woman is extremely 'not cute'!

The three of them changed into another disguise before they went to the ranch.

After arriving at the ranch, someone arranged tasks related to the delivery.

The person who led them in said, "We usually send the meat to the base every morning. You can tag along tomorrow."

Therefore, the three of them waited until the next morning at five a.m.

The sun had yet to rise and the workers had already finished loading the slaughtered pork and beef into the truck and headed for the base. slaughtering the pork and beef

The place where the guards stopped them was heavily guarded.

When the truck drove by, several guards came over to stop the truck for inspection. One of the guards came over and saw Zi Yi, Lu Jingye, and Qin Ze. He asked sternly, "Why isn't it the usual people that are delivering today?"

The driver hastily said, "The usual person who does delivery was sent to the slaughterhouse, as there's a shortage of staff there. These are part of the clerical staff of our ranch, so the boss arranged for them to help deliver the meat."

Chapter 905: Humans Are Really the Most Gullible Beings

After the driver finished explaining, Lu Jingye showed their work passes to the guard. "These are our work passes. We have worked at Mr. Karl's ranch for more than two years."

The guard took the work passes and had a look. He did not immediately return the passes. Instead, he turned around and headed elsewhere.

Zi Yi and the rest calmly waited there expressionlessly, as if they were not worried about him doing investigations.

The guard who took their work passes only returned after three minutes or so had passed. He returned the work passes back to Lu Jingye and said, "After you go inside, you must abide by the rules inside. After you've finished unloading the goods, leave. You are not allowed to walk anywhere else except for the kitchen."

"Ok, we won't go anywhere else."

As Lu Jingye had a good attitude, the guard did not make things difficult for them and gave them the green light to enter.

The truck continued driving for another hour or so before they arrived at the kitchen in the base.

A group of the kitchen staff came out to help unload the meat.

Lu Jingye and the head chef tallied the quantity. Right now, Lu Jingye looked as though he really was someone from the accounts team and there was not the slightest sense of disharmony.

Zi Yi and Qin Ze stood by the side. There were many people here and they didn't really have to help carry the meat.

After the meat was all unloaded, the three of them sat in the truck and left.

Looking at the truck that was leaving, Qin Ze who was standing in a hidden corner could not help but sigh. "Your invisible robots are really omnipotent. I didn't expect that they could take our place and leave here."

Zi Yi did not think of it as a great feat at all.

Qin Ze asked, "What should we do now then?"

Zi Yi looked at Lu Jingye.

Lu Jingye said, "It's still a long way from here to the R&D Center. We will split up."

Having said that, he asked Qin Ze, "Can you go alone?"

Just as Qin Ze was about to answer, Zi Yi spoke up first. "He won't be able to go to the R&D Center."

Qin Ze felt that Zi Yi was belittling him. "How do you know if I can't?"

"The R&D Center here is guarded by armed guards around the clock and there are all kinds of cutting-edge detectors around here. In addition, there are also robot patrols and hidden weapons all around. If you have a level ten perception ability, you can give it a try."

Qin Ze: "..."

A human's perception ability was divided into ten levels in total. Most people would only be at level one or two. Even superhumans would find it hard to have a level ten perception.

"Then are you two able to make your way inside there?"

"We have invisible robots to protect us and it's not a problem."

Qin Ze felt a little stifled. He wanted to head to the central area to have a look at the most cutting-edge aerospace technology.

"Then what should I do?" Even though he wanted to go, he still had some self-awareness.

"You can walk around the periphery while protecting yourself. In passing, you can check and explore the terrain. Perhaps we might have a use for you when the time comes."

"Alright then."

In order to avoid being a burden, Qin Ze decided to stay.

Zi Yi and Lu Jingye directly made their way to the central area.

The highest level laboratory was located in the innermost area and the further they went in, the more heavily guarded it was.

Zi Yi and Lu Jingye acted separately when they were outside the laboratory. One of them went inside the laboratory while the other secretly went to assist Runge.

Number five research room.

After going through all sorts of verification, a few individuals strode inside.

Inside the research room, there was a bearded man seated there while doing an experiment.

After the few individuals made their way inside, none of them spoke, until the man looked up from the table. Only then, did one of the individuals report to him. "Dr. Eddin, number 1330 fuel has been loaded into the spaceship. We will conduct an experiment tonight."

Dr. Eddin furrowed his brow and said with displeasure, "There are still some flaws in this type of fuel. When the spaceship enters space, the fuel will cause the propeller to wear out even faster. I have to get this fuel to achieve the effect of protecting the propeller before we can start experiments."

"Dr. Eddin, you're being too critical. This type of fuel is the most advanced fuel developed by our Aerospace Agency. It's not a problem for the spaceship to make a return trip from the blue giant if we fill up the entire spaceship."

"What I want is not just reaching there. I want a spaceship that can survey around the blue giant!"

His words surprised the rest.

"Dr. Eddin, are you joking with us?"

"I'm not joking. I have a hunch that there are more abundant energy resources on the blue giant. The reason for starting this research on fuel is to enable the spaceship to enter the blue giant. I won't allow you guys to start the experiment before I eliminate the flaws."

"This..."

The individuals made eye contact with each other and felt an impending headache at the same time.

Just then, the door to the laboratory room opened and someone came inside.

He was one of the leaders of the laboratory, named Rael.

Rael walked over to Dr. Eddin and glanced at the experimental equipment placed in front of him. "Dr. Eddin, I can help solve your problem."

"Who are you trying to kid?" Dr. Eddin did not believe him at all. As a researcher in this field, he had not managed to identify any solution to the problem for ages. How could someone who only knows superficial things help him resolve this problem?

Rael was not in a rush to defend himself either. He said to the others, "You guys can go out first. I'll have a talk with Dr. Eddin."

The few individuals nodded their heads and went outside.

As soon as the door was closed, Dr. Eddin said in a displeased tone of voice, “Mr. Rael, even though you are a leader here, please show me some respect in terms of researching in this field. I don’t wish for a layman like you to tell me what to do.”

Rael smiled and said, “How is Dr. Eddin so sure that I don’t know the solution?”

“What do you know?”

Rael took out a piece of paper from his pocket and passed it to him. “Dr. Eddin will know if I understand or not after reading this.”

Dr. Eddin took the paper, intending to look at it with a pinch of trust. Originally, he was casually glancing through the content. However, in the next second, his eyes instantly widened.

At the sight of his reaction, the corner of Rael’s lips curved up. “Dr. Eddin, you are good at what you do, but your research method is wrong. If…”

Rael said many things to him. The more Dr. Rael listened, the brighter his eyes got. In the end, he said with surprise, “How are you knowledgeable about all these things?”

Rael said, “I have the same beliefs as you. I also believe that there are many other super energies beyond human knowledge on many other planets. After processing these energies, they will enable us to travel further. The feeling of conquering the universe will definitely feel great.”

“Yes, yes!” Dr. Eddin’s eyes revealed a strong desire to conquer the universe. “I have the same thoughts as you. I think that there must be other civilizations out there that are even more advanced than humans. Those problems for us, such as the black hole and cosmic death belt, are just minor problems for those types of advanced civilizations.”

“Yes.”

Dr. Eddin was so excited that he could not help himself. “I’ll use the formula you wrote in my research right away. I believe there will be a miracle.”

Rael nodded with a smile and said, “I’m looking forward to Dr. Eddin creating miracles.”

Dr. Eddin concentrated on his research.

Rael looked at his experiment for a short while before he walked out of the laboratory.

When he arrived in a remote corner, he suddenly revealed an evil smile. “Human beings are really the most gullible beings.”

“Is that so?”

Chapter 906: If You Want To Die, Continue Standing There

All of a sudden, the unexpected voice caused Rael’s expression to stiffen. He shouted, “Who’s there?!”

In the next second, he had a weapon in his hand and he threw it in a certain direction.

When the weapon struck the place where the voice came from, someone appeared from the shadows and while he avoided the attack from Rael's weapon, he launched an attack at the same time.

Looking at the individual coming towards him, Rael revealed a disdainful smile. "A mere killer dares to act so unbridled in front of me?"

Having said that, another weapon appeared in his hand and he opened fire at the man coming towards him.

When the bullet was shot out, the man quickly dodged to the side.

Shortly after, he also shot at Rael.

Rael looked at the incoming bullet and did not move at all.

In the next second, he quickly jumped up. After jumping to a height of about two meters high, he said with a sneer, "Die!"

Several more bullets were fired simultaneously.

The individual did not expect Rael's weapon to be capable of firing several bullets at the same time. After he recovered from his momentary daze, he was about to dodge to one side.

But at this moment, a dark green liquid attacked in the direction he was dodging.

His strong sense of crisis made him want to react right away, but his left shoulder was hit by a bullet.

Ugh...

The man looked at the blood seeping out from his left shoulder. He acted as if he could not sense any pain and wanted to continue dodging the bullets and green liquid.

However, he was unable to do so.

The closer the liquid got, the more the air around him seemed to have a burning smell. Then an extremely smelly stench that caused one's scalp to tingle came in his direction.

Whoosh~

Seeing that he was about to get attacked, a whip suddenly wrapped around his waist and subsequently, someone else blocked the incoming liquid.

"If you want to die, continue standing there in a daze!"

After the cold voice sounded, Lu Jingye quickly said to the invisible robot, "Take care of that person."

The invisible robot launched several attacks in Rael's direction.

Soon, Rael sensed something and his expression changed. "A robot! Who are you?"

Soon afterwards, he was met with the robot's incoming attacks.

Lu Jingye stood there and looked on coolly at the fight between his invisible robot and Rael.

Soon, Rael was defeated by the robot. A massive worm separated from the body and before it had the chance to struggle, it was melted by a transparent liquid.

The man standing behind Lu Jingye spoke in a tone of extreme surprise. "How are you related to Zi Yi?"

Lu Jingye turned around and looked at Runge who was holding onto his wounded shoulder. He did not answer his question. Instead, he said, "This place will be discovered very soon. You had better find an excuse for what happened here. Otherwise, you will attract the attention of other worms. When the time comes, you won't be able to deal with all of them."

After Lu Jingye said his piece, he waited for the robot to turn invisible before he turned around to leave.

"Wait."

Runge looked at Lu Jingye's back profile with a sullen look. He felt that Lu Jingye's back profile held a sense of familiarity.

"You are the man who was with the woman in the countryside... No, both of you are Lu Jingye and Zi Yi!"

Lu Jingye kept walking and he soon walked past a corner.

Runge's expression became even gloomier.

Just then, two guards walked over in large strides and called out. "Young Lord."

Runge coldly ordered them. "Clean up this place and don't let anyone realize he's been taken care of."

"Yes."

**

Even though Runge got his guards to clean up the place very soon, the others of the worm race had sensed something amiss.

For a moment, they thought that someone had broken into the laboratory and they immediately searched around everywhere vigorously.

The whole laboratory was on level one alert.

Within a secret room, several individuals were seated around the conference table with serious expressions.

One of the people said, "There's news from Hank that the king sent someone here. The person who killed Rael must be one of the king's men."

"Impossible." Another individual retorted. "No human is capable of harming us. Unless... that woman is here."

His words caused the expressions of the rest to turn serious.

"If that woman is really here, we have to speed things up here and leave Earth before she makes her appearance."

"We just have to hold on until 2:30 a.m."

“There’s still more than five hours before 2:30 a.m. There are too many variables that could happen. What if she enters the spaceship control room?”

“The best method is to capture those that came along with her and let her waste her time rescuing those people.”

“We have no idea how many people came with her.”

“This is easy. I installed a sensor inside the laboratory. It will only record if it senses someone from outside coming in. As long as we follow the sensor, we will definitely find those people.”

Having said that, the man picked up the remote control and aimed at the big display in front of him. Immediately afterwards, many red dots appeared on the screen.

“These are the people.”

Looking at the dozen or so red dots on the screen, they revealed a cold sneer.

“To think that they managed to get so many people inside. Sure enough, that woman isn’t as simple as she seems.”

“Let’s capture these people first then send them to the other side of the valley. The woman will definitely try to rescue them. Our plan would then be able to be carried out perfectly.”

After they finished the discussion, they immediately headed out to capture those people.

Zi Yi who was at the spaceship control room together with A and Little Loli soon received Qin Ze’s distress message.

Zi Yi took a glance and clicked her tongue before she said to Little Loli, “Go to the periphery area to protect Qin Ze. He’s been discovered by those worms.”

“Yes, Sister~”

Little Loli immediately turned invisible and headed to the periphery area.

After Little Loli left, Zi Yi continued checking the data of the spaceship. Some time later, A suddenly reminded her. “Master, someone is coming.”

While Zi Yi was hiding, a group of individuals quickly came in through the open door.

The person walking in front of them was unexpectedly Runge.

“Master, this man isn’t Runge. He’s Runge’s cousin Lance. His body has been taken over by the worms.”

Zi Yi was a little taken aback. She did not expect Runge’s cousin to resemble Runge so much.

“Major General Runge, I didn’t expect you to personally make a trip down here. This is the command center for the launching of the spaceship.”

Lance imitated Runge’s expression perfectly and said coldly, “Call in everyone who was involved in the development of this spaceship.”

Even though the leaders of the laboratory were surprised by his order, they dared not disobey him. Therefore, someone immediately contacted the rest of the researchers through an internal communicator.

The researchers soon arrived.

Lance said in a commanding tone, "Push the spaceship launch to two hours earlier."

One of the researchers immediately disagreed. "General Runge, the program for the time of the launch was already set in advance. We still have to undergo the final test. The earliest we can launch the spaceship is two a.m and it can't be earlier than that."

Lance gave him a sharp look and his tone of voice did not accept any refusal. "It must be moved forward by two hours. If you can't do it, you will be dealt with by the military laws."

"This..."

The group of researchers did not dare to oppose him and could only do what he ordered.

Just as they turned around and were about to return to their posts, the door was opened once again and the man standing outside had shocked everyone.

"Why is there another General Runge?!"

Chapter 907: Don't Worry, We Are Not Helping You For Free

Runge's sharp gaze swept past everyone and in the end, he stopped on Lance's face which was identical to his.

He said with a stern voice, "Lance, how dare you?!"

Right now, Lance was wearing a Major General's uniform while he was only dressed in plain black clothes.

Lance revealed a strange smile and in the next second, he spoke with the same tone and expression as Runge. "How dare you pretend to be me? Arrest him!"

A group of guards rushed in to capture Runge.

Runge moved his body and quickly dodged to the side.

Immediately afterwards, he got into a fight with those guards.

The group of leaders only recovered their senses after looking at the man who was surrounded.

They looked at Lance who was standing on one side before turning to look at Runge.

Shortly after, everyone was furious.

"A terrorist who looks identical to Major General Runge has infiltrated the laboratory. Immediately arrest him!"

“Fortunately, Major General Runge personally came down to the laboratory and he’s also with us. Otherwise, we would have been fooled by that face.”

“Shoot him!”

“No! We cannot let anything inside the control room get damaged. Take him out and kill him!”

...

Listening to everyone’s angry shouting, Lance’s lips curved up as if he was watching a good drama.

Runge had been hunted down for an entire day. He had no idea how these people were able to pinpoint his location so accurately. When he finally got rid of those people and came here, he did not expect to encounter his cousin.

Not to mention, his cousin even dared to pretend to be him.

At the thought of this, Runge released a strong murderous aura, which badly frightened those guards.

In particular, he was clearly injured right now but he was still able to fend off those guards.

“This person is very skilled. What should we do? Would he do something to Major General Runge?”

The leaders looked at the guards who could not control Runge and all of them were so worried as they shouted loudly, “Hurry and catch him! Quick, take care of him!”

Lance waited for Runge to receive a few more punches before he finally said, “Everyone, stand down.”

All the guards quickly stepped back.

Lance arranged the cap on his head and made his way over to Runge.

The others got a fright.

“Major General Runge, this man looks skilled. Don’t...”

“Don’t tell me you think I can’t control him?” Lance coldly said and everyone kept their mouths shut.

Lance walked up to Runge. Looking at his tattered clothes, injured body and blood that was splattered everywhere, he revealed a proud smile. However, his voice sounded as indifferent as Runge’s. “You don’t have the right to pretend to be me yet.”

Having said that, he quickly launched an attack.

Runge quickly retaliated.

Both of them were skilled.

However, Runge had experienced five or six hours of being chased down and he was more or less expended in energy. In addition, he was bleeding all over and so how could he possibly be Lance’s opponent at this moment in time?

When Lance landed a punch to his stomach, his body finally lost balance and he fell back unsteadily.

BANG!

After Runge fell to the ground and subconsciously tried to stand up, a gun was pressed to his temple at this moment and he heard Lance's cold voice.

"Fake, go to hell!"

Runge heard the sound of a loaded gun's safety being removed. He clenched his fist and stared at the man standing in front of him. He looked at him with a cold and prideful gaze.

"You're not Lance. Who are you?"

His voice was so hoarse that it was almost inaudible.

However, Lance heard what he said. A meaningful smile curved on his lips and he said, "You can ask Satan."

Having said that, he pulled the trigger.

Runge felt as though a string broke in his mind. His pupils suddenly constricted. He did not expect that he would die here.

However, in the next second, the gun in Lance's hand was pointed upwards and his hand also recoiled due to the shock.

Not to mention the bullet disappeared.

"Who is it?"

Lance's expression turned cold and he checked his surroundings warily.

Even Runge who had fallen into despair looked around in surprise.

Just then, the space seemed to be distorted and the surrounding objects started to blur out.

"A space magnetic field!"

Lance's voice tightened as he shouted, "Come out!"

"Hmph!"

A cold voice sounded from behind.

Lance suddenly turned around.

Runge also turned around at the same time.

When he saw the person who made their appearance, emotions of familiarity flashed past Runge's eyes.

Zi Yi only gave Runge a glance before she turned to look at Lance.

The gun in Lance's hand was aimed at her. He then asked her with a twisted expression, "Why do you know how to utilize the space magnetic field?"

"Don't tell me only worms like you deserve to know this skill?"

"You're that woman!"

Lance immediately pulled the trigger and the bullet shot in Zi Yi's direction.

"Look out!"

While Runge reminded her, Zi Yi suddenly disappeared.

Both the men had yet to have the chance to react but in the next second, Lance quickly dodged. However, he failed to avoid the punch and after a loud sound was heard, the punch landed on his stomach.

"Ugh..."

Lance held his stomach and quickly retreated.

Zi Yi appeared in front of him again and this time round, Shadow appeared together.

Zi Yi said to Shadow, "Take care of him."

"Yes."

Shadow's speed was very fast. Lance stopped trying to hide his identity. Thus, a robot and a worm started to utilize their strength and abilities which caused Runge to be shocked.

While Shadow and Lance were engaged in combat, Zi Yi walked to Runge and asked him, "How much longer can you hold on for?"

Runge tried to suppress the sharp pain he was experiencing. He stared into Zi Yi's eyes and said, "I'm fine."

Zi Yi turned around and looked at the fight before she said, "Since you've been discovered, there's no need to hide anymore. You can just reveal your identity as the Major General."

Runge furrowed his brows. "There are still a few that have yet to be found."

"Don't worry, we will take care of them for you."

Runge started at the back of Zi Yi's head. A few seconds later, he said with certainty, "You are Zi Yi. Who's the man who appeared previously?"

He had always suspected that man to be Lu Jingye. However, Lu Jingye was not skilled in martial arts. That man was too skilled.

"Is he Lu Yunxiao?"

Zi Yi tilted her head and glanced at him, but she did not respond.

Runge's frown deepened.

If that person was Lu Yunxiao, why would this woman be so intimate with him?

A sister-in-law and a brother-in-law? Wasn't she afraid of getting laughed at and being ridiculed by others?

“Put away those nasty thoughts you have in your mind. Otherwise, I will make you disappear on the spot.”

Runge looked at her with a sullen expression and asked, “Why are you two helping me?”

Zi Yi thought about this question. She decided to explain her intentions in a more artistic manner. “Because several imposters from the worm race have infiltrated here and also for world peace.”

Her reason was, in fact, a good one.

However, Runge did not believe what she said at all. He felt that she was talking nonsense.

Zi Yi continued to speak, “Don’t worry. We aren’t helping you for free.”

“What do you want?” Runge somehow breathed a sigh of relief.

Zi Yi did not answer his question. Instead, she said, “You can give us what we want, and you won’t be as greedy as these worms either.”

Chapter 908: Capturing the Worm Race’s Spaceship

When Zi Yi said that, a sudden deafening explosion was heard.

Both of them turned to look in the same direction.

They saw Shadow, can meet

who had retreated a few steps due to the recoil from the explosion.

Lance immediately took this opportunity to break through the space magnetic field and escape.

“Shadow, give chase.”

Shadow and Lance disappeared at the same time.

Zi Yi threw out a circular ball at this moment.

The magnetic space field disappeared and the circular ball returned to Zi Yi’s hands.

Zi Yi and Runge reappeared in the control room.

The group of leaders looked at the two with frightened expressions. They were obviously shocked by their sudden disappearance and reappearance.

Runge had returned to his usual cold and unfeeling demeanor. He used his sharp eyes to do a sweep across the leaders.

“You... who are you?”

The leaders saw Major General Runge getting chased down and right now, this person who had the same appearance as the general dared to blatantly stand here in front of them.

The group of leaders was fearful and started to bluff.

“You two had better not mess around. We have the most advanced defense system installed here!”

“There are also the most powerful weapons and the both of you won’t be able to walk out of this door.”

“We have already activated the first level alert. You won’t be able to escape here today.”

“Do you see the infrared around you? As long as you dare to take a single step forward, you will be shot to pieces like a practice target!”

“Hmph!” Runge coldly snorted and the group of leaders was frightened to the extent that they all kept quiet.

On the other hand, Zi Yi laughed. She looked at Runge sympathetically and said, “These people can’t recognize their owner and even thought that the fake one was you instead. You’re pretty much a failure as a Major General.”

Runge quickly released a powerful and cold aura. He stared at the group of leaders standing in front of them as he said in a stern voice, “A group of lawless terrorists has appeared here and they are best at disguising themselves as the various leaders. The person you met earlier disguised himself as my cousin, Lance.”

The group of leaders felt their hearts palpitating.

Some leaders, on the other hand, wanted to refute his words.

Runge did not give them the opportunity to do so and continued to speak, “As a Major General, I would never make a trip down here for no reason. This place is under the Ministry of Science and Technology. Even if the military department wanted to make a trip here, they have to reveal the dispatch order issued from the higher-ups.”

Having said that, he took out a dispatch order from his pocket. The person who signed off the order was the king himself.

The person who they previously assumed to be the Major General Runge did not produce anything.

At the thought of this, the group of leaders felt a cold sweat trickling down their backs.

The person in front of them was the real Major General Runge.

After knowing they believed in his words, he wasted no time and immediately started issuing orders.

“Seal off all the news in here and delay the launch of the spaceship. Immediately arrest...”

All the leaders immediately followed his orders.

However, before they even had a chance to act on it, there was a sudden beeping sound from the screen in front. Shortly afterwards, a spaceship was reflected on the screen. Other than them, all the researchers and technicians took their positions.

“It’s no good, the technicians are going to launch the spaceship ahead of time.”

“Who gave them the order?!”

Runge subconsciously looked at Zi Yi.

Zi Yi furrowed her eyebrows and quickly tapped on her wristwatch. A virtual screen and virtual keyboard appeared at the same time.

All her ten fingers were quickly tapping on the keyboard as she said, "Someone is controlling the spaceship from inside. The launch can't be stopped unless someone goes in to press the stop button."

Everyone's expression turned severe at the same time.

Runge said, "What do I need to do?"

Zi Yi was a little surprised. "You are planning to go inside?"

Runge said with a firm expression, "This spaceship is the combination of research results of Country D. I cannot let these criminals steal everyone's hard work for themselves."

Zi Yi did not say anything after hearing that.

She continued typing on the keyboard.

When the screen reflected several individuals tied up and hanging above a river, the group of leaders gasped.

"When did these people get caught?"

"Quick, rescue them! That river is filled with crocodiles and if they are thrown into the river, they won't be able to survive!"

The group of leaders was so noisy that Zi Yi's temples ached. She unhappily shouted, "Quiet!"

Everyone subconsciously quietened down. Immediately after, they realized that it was the woman who spoke earlier and they felt a little uncomfortable deep down inside.

Just then, Runge's cold gaze swept past them and they swallowed their dissatisfaction.

Runge looked at the group of people who were at the river. All of them were his subordinates. He then said to Zi Yi, "What methods do you have to send me into the spaceship?"

Zi Yi did not even bother to look up and asked him, "You don't plan to rescue your subordinates?"

"They can only rely on themselves to escape in that situation." Runge's tone of voice sounded very cold and unfeeling. However, compared to his subordinates, he felt that it was more important to prevent those people from stealing the spaceship.

It was really considered nothing to sacrifice a few people before national interests.

Even the group of leaders standing in front of them agreed with Runge's decision.

Zi Yi did not continue to say anything else.

She continued tapping on the keyboard at a fast speed.

Sometime later, she said to Runge, "You can make your way over. My robot will meet you over there. However, you better hurry up. The hatch of the spaceship will close in half an hour's time. Once the hatch is closed, it will immediately take off and you won't be able to escape."

Runge nodded his head and turned to leave.

At the same time, Zi Yi turned off the virtual screen and keyboard as she followed him outside.

The group of leaders who were inside the room finally reacted after the door closed.

After they made eye contact with each other for a split second, they started to act.

Zi Yi made her way to the kitchen's ingredient room after she came out of the control room.

Qin Ze and Little Loli were currently there waiting inside.

At the sight of Zi Yi, Qin Ze hastily asked, "Zi Yi, what's the current situation outside?"

Zi Yi did not answer him right away. Instead, she called out Shadow II and said, "Go prepare some food."

After Shadow II left, Zi Yi explained to him what happened outside with a brief rundown.

Qin Ze furrowed his eyebrows. "So you're saying that the motive of those worm races is to drive the most cutting-edge spaceship of Country D to leave Earth?"

"They are planning to look for raw materials in the Blue Giant."

"Blue Giant!"

Qin Ze was shocked. "That planet is so huge and moreover, the temperature there is hundreds of times hotter compared to the sun. Country D has already managed to achieve the feat of landing on the Blue Giant?"

"They have already found a substance that shields them from the heat source. It's not a difficult problem to travel there."

"...!"

Zi Yi glanced at Qin Ze who had been intimidated by the news he had just learned. She touched her chin and said, "I've never even considered going to the Blue Giant to search for energy resources. Even though this type of energy resource is indeed good since it can generate heat and release energy by itself, its energy consumption is too much. It's not suitable for space jumping. In particular, it would be very troublesome if the energy gets depleted when you enter a black hole."

"...!"

Qin Ze swallowed a mouthful of saliva with great difficulty. His voice trembled with excitement. "Zi Yi, then what kind of energy resource do you think can achieve the feat of allowing you to travel in space? Can spaceships really enter a blackhole and survive?"

Chapter 909: Sister, I Want To Rescue A

Zi Yi did not start explaining to him.

All of a sudden, Little Loli received A's message. "Master, the spaceship hatch was closed off by force. What should we do?"

Zi Yi and Qin Ze's expressions turned serious at the same time.

Zi Yi quickly turned on the virtual screen and connected to A.

A said to Zi Yi, "Master, the spaceship was forcefully closed off. There are still five minutes before it lifts off. Runge and I are trapped inside."

Zi Yi asked him, "Did you find the control room of the spaceship?"

A replied, "Yes. However, we only just managed to come out after getting trapped in the space magnetic field. I was then blocked by the worm race and Runge was also seriously injured."

Zi Yi only took two seconds to think before she said, "I'll connect to your eyes right now. Find a way to get to Runge."

A consented. "Yes."

Zi Yi quickly connected to A's eyes. At the sight of the environment that A was in, Little Loli quickly exclaimed, "Ah! There's an M magnetic field on the spaceship!"

"What's an M magnetic field?" Qin Ze asked.

Little Loli was so anxious that she could not stand still. "It's a magnetic field that inflicts great harm to us robots."

Zi Yi said, "It seems like the male worm has made a huge investment this time."

Clearly, the magnetic field was created to deal with her robots.

"What should we do then?" Qin Ze also started to get anxious. "Won't your robot be in danger?"

Zi Yi pursed her lips and did not answer. Qin Ze knew that Zi Yi's robot was surely in danger.

Just then, Little Loli called out, "Sister, I want to go and rescue A."

Zi Yi said with a taut expression, "You cannot go there right now."

"What if A gets killed by them?"

Little Loli started wailing after she said that. Qin Ze had never seen a robot who was so emotional as her and he started to comfort her. "Little Loli, don't cry. Zi Yi is so smart, she will definitely have a method."

Having said that, he turned to Zi Yi. "Zi Yi, am I right?"

"Of course."

Zi Yi's fingers quickly swiped across the screen and soon, she connected to Lu Jingye's side.

"Ah Jing, where are you right now?"

“I was chasing down two worms and we arrived in a warehouse storing special materials.”

Zi Yi’s eyes lit up and she hastily said, “Walk around the materials, I’ll take a look to see if there’s anything I need.”

Lu Jingye quickly made his way to where the materials were stored.

Zi Yi’s fingers continued swiping around the screen and a few seconds later, she said, “Stop. Take the ore off of the part that’s on your left-hand side.”

Lu Jingye followed what she had said and separated the ore from the part.

Soon, the screen reflected the elements of the ore.

Zi Yi continued to say, “Get your robots to activate their manufacturing mode quickly.”

“Ok.”

Lu Jingye quickly summoned all the robots. Zi Yi then said to Little Loli, “Immediately head over and assist. I will control your body.”

“Ok.”

Little Loli disappeared immediately after saying that.

Zi Yi did not say anything and turned on the virtual keyboard as she quickly tapped on it.

Little Loli arrived at the other side very quickly. Zi Yi controlled her body and at the same time, Lu Jingye’s robots transformed and a manufacturing machine appeared.

Zi Yi controlled Little Loli and said to Lu Jingye, “There’s still a worm on your end that has yet to die. Be careful. If he attacks, remember to use the circular ball I gave you.”

“Ok.”

Minutes and seconds passed by. Other than the piece of ore that Zi Yi got Lu Jingye to find, Little Loli also sucked in many more ores that were of use.

The manufacturing machine was very quick. It was to the extent that Qin Ze could only see a shadow of the operations.

He looked at the screen then at the remaining time.

When there was only two minutes left, he hastily reminded Zi Yi. “Zi Yi, there’s another two minutes left before the spaceship lifts off.”

Zi Yi only responded with a nod but there was no change in her expression.

At the sight of her reaction, Qin Ze was so anxious that he wished that he could be of help.

Just then, the door to the room they were in was pushed open and a person quickly made his way over.

At the sight of Zi Yi and Qin Ze inside the room, he revealed a sinister smile. “Sure enough, you’re here.”

Having said that, he quickly attacked in their direction.

“Zi Yi...”

Qin Ze told her to put all her attention on what she was doing and went to welcome the intruder.

The intruder was very skilled. As a technician, Qin Ze was no match for him, but he could not allow this person to approach Zi Yi at this moment.

BANG!

Ugh...

Qin Ze was hit in the chest and his body flew backward at a high speed.

The intruder headed towards Zi Yi.

“Stop there!”

Qin Ze quickly pounced on the intruder and clung to his body.

No matter how the intruder tried to shake him off, it was to no avail.

The intruder clearly started to get impatient and a knife appeared in his hand.

The sharp knife slashed against Qin Ze’s arm.

“Ugh...”

Qin Ze felt a wave of pain, but he did not release his grip on the intruder. At the same time, he shouted, “Zi Yi!”

Zi Yi looked up from the virtual screen and just so happened to see the intruder raising the knife in his hand and about to stab Qin Ze’s arm again.

“Tsk.”

Zi Yi coldly snorted and threw a circular ball in their direction.

Ding!

BANG!

The light released by the ball quickly shielded Qin Ze and at the same time, it blocked the attack.

Zi Yi threw another ball towards the intruder and it encased the man inside a barrier.

The intruder was unable to move.

“Hmph! A clone dares to be so presumptuous in front of me?”

As soon as Zi Yi said that, she inserted two needles into Qin Ze’s arm which was bleeding profusely.

“Hold on for a while. I’ll be done here very soon.”

Qin Ze looked at his arm that stopped bleeding and pretended as if it was no big deal. “Don’t mind me, I’m fine.”

Zi Yi continued with the task on hand.

A few seconds later, she said to Little Loli, "Little Loli, take the shielding equipment I made and go rescue A."

"Can Little Loli go near the spaceship?" Qin Ze was a little worried.

"Yes. I installed space traversing equipment on her."

Soon, Little Loli got onto the spaceship.

Lu Jingye's robots had also taken care of the worms on his end.

Only then did Zi Yi walk over to Qin Ze and take out a medicine bottle. "Eat two pills and find a place to hide. I'll come to find you after taking care of all the worms here."

"Ok."

Zi Yi turned around and headed to where the spaceship was.

By the time Zi Yi reached, there were still thirty seconds before the spaceship launched.

At the same time, Lu Jingye made his way over.

Both of them stood beneath the spaceship and waited.

Lu Jingye asked Zi Yi, "If we can't stop the launch of the spaceship, are you able to stop it when it's in space?"

"No. We haven't created such a spaceship." Zi Yi tilted her head and looked at him with a confident gaze. "But don't you worry, Little Loli and Shadow are my secret weapons. If she can't stop the spaceship from launching, then my reputation as a universe technician would be for naught."

Lu Jingye could not help but smile after hearing what she said.

Just as both of them were chatting, a strong airflow was discharged from the vent of the spaceship. Zi Yi nearly lost her footing but Lu Jingye pulled her into his embrace and kept her from falling.

The airflow abruptly stopped a few seconds later.

Zi Yi said to Lu Jingye, "They have successfully stopped the launch of the spaceship."

Chapter 910: The King Personally Sent an Invitation to Zi Yi and Lu Jingye

Zi Yi and Lu Jingye stood beneath the spaceship for a short period of time before the hatch of the spaceship opened up.

They saw Little Loli walking out while supporting A.

At the sight of Zi Yi standing there, Little Loli burst into tears. "Sister, please rescue A. He's about to die!"

Having said that, she did not even walk down the ladder but instead, she flew to Zi Yi while carrying A.

Many parts of A had been damaged and one of his legs was broken.

If not for Little Loli supporting him, he wouldn't have been able to stand.

Zi Yi reached for A's control panel. After configuring it for a short while, she said to Little Loli, "His main control panel is fine. I'll change his body once we return."

Only then did Little Loli stop the simulated tears from streaming down her face and she revealed a smile. "That's really great news!"

Just then, Lu Jingye asked, "Where's Runge?"

"He's still inside."

As soon as Zi Yi responded, Lu Jingye walked over to the ladder.

Zi Yi said to Little Loli, "You have a space storage device, you can store A inside."

Little Loli nodded her head and with a turn of her eyes, A disappeared.

By then, Lu Jingye was supporting Runge down from the spaceship.

He did not seem to be in a good condition either, but at least he was conscious.

He looked at Zi Yi and said, "The spaceship has been stopped."

Zi Yi nodded her head.

Just then, Lu Jingye asked him, "When will your men arrive?"

Before Runge had the chance to answer, they saw a group of individuals running over in their direction.

"Major General, we are late."

"Major General, are you alright?"

Lu Jingye and Zi Yi took several steps back and the two of them looked at the group of individuals who had Runge surrounded. They were silent for some time before they turned to leave.

**

News of what had happened in Country D's spaceship research base was blocked by the authorities and the outside world had no idea about the events that had taken place.

However, General Hank's residence had been sealed off and the authorities charged him with treason.

For a moment, this became international news and it greatly shocked the whole world.

**

Zi Yi and Lu Jingye did not immediately return to China. Instead, they went to the capital city of Country D.

In the following days, Lu Jingye was extremely busy. After the International Finance Conference ended, he still had to arrange the distribution of Song Jewelry in Europe.

Zi Yi thought that she could finally have some leisure time. However, it was not known how the news about what had happened was leaked out, but people from the Robotics Research Institute and Aviation research Institute of Country D invited her for a visit and discussion.

Qin Ze, who had been seriously injured, followed her every time to meet those inquiring, despite his injuries.

On the third day, Zi Yi suddenly received an invitation letter from Country D's king.

"The king is personally inviting you and Lu Jingye?" After reading the contents of the invitation, Qin Ze was a little worried. "You're receiving great attention from the king, do you think you'll still be able to leave this country when the time comes?"

All countries would want to possess a talent like Zi Yi. Qin Ze suddenly felt that they should take precautions, as he was worried that Zi Yi might be detained here.

Zi Yi glanced at him and said, "Why won't I be able to leave? I don't believe they are capable of retaining me here if I don't want to stay."

She was itching to return back to China right now. If they wanted to keep her here, there was no way she would agree.

At the thought of Zi Yi talking about wanting to see her babies these past few days, he laughed. "I knew it. You are just reluctant to part with your babies."

"Not only do I miss them, but there are also many more people who I miss too." In any case, no one can even dream of keeping her here.

Lu Jingye was not at home at this time, so Zi Yi took the invitation letter and gave him a call to inform him of this incident.

After both of them agreed to meet outside the palace, Zi Yi said to Shadow, "Inform the person who delivered this invitation that we will be attending the banquet tonight."

Zi Yi received Dou Xiangling's call in the afternoon. Only then did she learn that the International Painting and Calligraphy competition had ended.

China had won second place in the competition.

Over the phone, Dou Xiangling spoke with a smile. "The skills of the students we brought along this time round are pretty good. The opponents they encountered are all very skilled and it's considered a great feat to win second place."

Not everyone is capable of winning first place as and when they like. There were many skilled individuals from around the world and not to mention, those who participated in the competition from China were all students. It was really considered good to get second place.

Country F wasn't far from Country D, and so Zi Yi asked, "Since the competition has ended, do you want to go back with us?"

Unexpectedly, Dou Xiangling was silent for a few seconds before she said with some slight embarrassment, "Ian is here too and I promised I would accompany him to go to country M to play for a few days."

Zi Yi laughed upon hearing this. "Alright then. On the account of Ian's sincerity, you can go ahead and hang out with him for a few days."

Dou Xiangling was embarrassed by Zi Yi's laughter and she quickly changed the topic. "Do you want to come to Country M to hang out for a few days?"

Speaking of this, she paused for a few seconds and said, "Ian told me to tell you that the laboratory will finish being constructed soon. Do you want to go and check out the place?"

Zi Yi thought about it for a moment and said, "I'll go. It just so happens that I can leave behind a few robots there for the preliminary checking of the equipment."

Dou Xiangling was delighted at this news. "That's great. Then we can return together."

Zi Yi purposely teased her. "That might not necessarily be the case. What if Ian keeps you there and prevents you from leaving?"

Dou Xiangling replied, "Stop making fun of me."

"Hehe."

Both of them chatted for a while before hanging up the phone. After the call ended, Zi Yi contacted Zhou Shiyu who was currently in Country X.

Zhou Shiyu was currently in the smelting room and when he answered the phone, his side was rather noisy. Sometime later, his side quietened down.

Zhou Shiyu greeted her. "Boss."

Zi Yi asked, "How are the materials I asked for?"

Zhou Shiyu replied, "We just finished the building materials for the laboratory. We are currently starting on the building materials for the aviation bases."

Zi Yi was very satisfied and praised him. "You've worked hard."

Zhou Shiyu responded reverently, "It's my privilege to work for you."

What he said was the truth. If he hadn't come to this new energy company in Country X, he would not have been able to witness various cutting-edge energy sources, and materials, being manufactured in front of his eyes.

Compared to what he had done in the previous companies he had worked in, he felt that this company would allow him to showcase his real potential. In addition, this project can also contribute to the advancement of the whole human race, and every minute and second he spent was worth it.

Previously he still had the thought of starting a company on his own. However, ever since he started working here, he threw away all those thoughts and was determined and focused on managing this new energy company well.

Zi Yi seemed to have guessed Zhou Shiyu's thoughts as she said, "Work hard. In the future, we will bring back more raw materials from the universe that aren't available on Earth. Perhaps there will be a day when our factory will even be opened on other planets."

Zhou Shiyu's voice trembled with excitement. "Ok. I'll wait for that day to come."

After they continued chatting for some time, they finally talked about his brother, Zhou Shijin.

Zi Yi said, "The racing competition is scheduled for April 10th. You can start making arrangements if you want to go back to watch the competition."

Zhou Shiyu went silent. Sometime later, he said, "I'm busy here, so I'll just watch the live broadcast."

Zi Yi naturally would not interfere in his business and so she only said, "You can decide for yourself."

Following that, they ended the call.
