Chapter 91: Second Young Master Lu Gets Hit On

Zi Yi looked at the two ladies walking over and felt somewhat excited.

She wondered how Lu Jingye would react?

Following that, she raised her glass, leaned against the sofa, and prepared to watch the show.

“Hey handsome, I haven’t seen you drinking despite being sat down for so long. Is the alcohol here not to your taste?”

The voice of the lady in red was extremely coy and she attempted to sit next to Lu Jingye.

“Sorry, please sit elsewhere.’

Lu Jingye spoke words of rejection with the most gentlemanly tone, and the woman unexpectedly blushed due to his calm and restrained voice.

“Sure~ I’ll sit over here then. Let’s have a drink together.”

Another lady in yellow had also taken a seat and they both looked at Lu Jingye with swooning eyes, while disregarding Zi Yi’s presence.

Zi Yi could not be bothered by them as she raised her cup to take a sip.

Little red continued to speak in a coy tone, “Handsome, what’s your name? I’ve not seen you before, and what do you do for a living?”

Little yellow could not possibly let Little red steal all the limelight. She then asked immediately after, “Handsome, you seem pretty familiar. Have we seen each other before?”

“Pft!” Zi Yi could not resist and laughed out loud. The trio looked in her direction at the same time. She then said to them, “Continue, just pretend that I don’t exist.”

Lu Jingye glanced at the young lady who was obviously watching the show and a glint flashed across his eyes. “You can ask her what I do for a living.”

After he said that, he leaned over to Zi Yi, took away the alcohol bottle when she was about to fill up her cup, and put it aside.

When the two ladies saw such an ‘intimate’ action, they glanced at each other, and traces of jealousy towards Zi Yi could be seen.

This woman is already so beautiful, and not to mention having found such a handsome man...

How unfair!

Zi Yi looked at Lu Jingye in displeasure and raised her eyebrow when her alcohol was snatched away.

However, she did not know that she appeared very flirtatious when she raised her brow.

Her action caused Little red and Little yellow to feel that she was deliberately flirting with that man.

Little yellow suddenly directed a question to Zi Yi. "Little sister, I wonder what's your name? Could you be a university student?"

If she was a university student, she must have kept a boy toy without her family's knowledge.

"No."

"Then have you stopped studying?"

As expected, a woman like her was evidently a spoiled young lady from the high-class circle. Since she could keep a boy toy, it was obvious that she belonged to the type that was ignorant and disliked studying.

With that thought in mind, the two ladies felt better inside themselves.

In fact, they were not much different.

Zi Yi looked at the expressions on their faces and curved her lips. "I'm a high-school student. I recently took the Metropolis University's independent enrollment and I've already been admitted."

"What?"

"How is this possible?"

"Haha..." Zi Yi found it fun to see how their expressions changed. It was much better compared to Lu Jingye who basically maintained one type of expression.

As she thought of this, she moved with the intention to take the alcohol bottle.

"So it turns out, you're pretty smart." Little yellow raised the tone of her voice as she said, "How can us young ladies of the high society only drink low percentage alcohol?"

Little red was also somewhat unable to suppress the jealousy on her face. "Since you came here to drink, you ought to drink something more potent."

When she said that, she deliberately leaned towards Lu Jingye and revealed her cleavage. "I bet you two are racing enthusiasts since you've come here. We are the Lightning Fast racing club's cheerleaders. What would you like to know? We basically know everything~"

In the end, she did not forget to give Lu Jingye a flirtatious look.

However, he did not even look in her direction.

Little red was so angry that she wanted to pounce in his arms right away.

However, she resisted the urge and turned to Zi Yi. With an inexplicably proud tone, she asked, "Do you know how important the cheerleading team is to a racing team?"
