Chapter 94: How Are You Feeling Now?

While Lu Jingye gave orders to his bodyguards, Zi Yi probed the surroundings with her mental powers. She discovered a large group of people on both sides and it was evident that they had encountered each other.

She then turned to Lu Jingye and said in a complicated tone, "There are many people who want your life."

"I'm sorry."

"What's there to apologize for? If you weren't such a busybody and stayed in a safe place, I believe they would not dare to attack your house either."

Lu Jingye pursed his lips and did not answer.

Zi Yi snorted in discontentment and muttered, "If I wasn't aware of your disinterest in women, I would have believed you like me."

Her eyes flickered and she suddenly approached him and softly called out, "Lu Jingye."

When he turned around to look at her, she tip-toed and kissed his cheek while he was caught off guard.

"..."

Lu Jingye's expression froze.

"Hehe..." Zi Yi's eyes turned into a crescent shape from her smile and she asked him, "How are you feeling now?"

Lu Jingye looked back at her with his pitch-black eyes and said in a stern voice, "As a lady, you should not test a normal adult man in such a way."

"..."

Was this man still normal?

What should she do? The more he acted like that, the more she felt like teasing him.

He seemed to have seen through her intentions and turned away while he said, "Keep up, let's go back first."

Zi Yi looked at his back profile and smiled as she followed him.

Lu Jingye enquired about the possible safe areas as he walked with Zi Yi tagging along.

After they walked for about four to five minutes, the housekeeper brought along a group of bodyguards and met up with them.

"Second Young Master."

Lu Jingye responded and said, "Take her back."

Zi Yi looked at him and he said to her, "Go back and rest early. I'll pick you up in the morning tomorrow."

Zi Yi was shocked. "You're still going to continue?"

Lu Jingye nodded. "Yes."

Having said that, he led half of the bodyguards away.

The housekeeper then said to Zi Yi, "Miss Zi, the car is parked in front. Please."

The area they were in was not far from Zi Yi's residence.

Zi Yi said in response, "I'll walk."

After which, she started walking and quickly checked out who were the ones who planned the attack tonight.

The housekeeper led a few bodyguards and followed her.

It was only until Zi Yi reached her residence, did the housekeeper along with the bodyguards stop following her.

Zi Yi turned around and said, "You can go back. Thanks for sending me home."

She ordered the robot to close the door shortly.

She headed towards the backyard and listened to the robot's reports as she walked.

"Master, at 9.05 pm, someone was wandering outside but they did not enter."

"Got it, look after the house well tonight."

"Noted."

Zi Yi first went to the computer room to find the person who requested tonight's attack. After she sent the information to Lu Jingye, she started to list out the racing car parts she needed.

The next morning, Lu Jingye did not come to pick her up.

However, he had informed his housekeeper to make a trip in person. "Miss Zi, Second Young Master Lu has something important to deal with today and he is unable to pick you up. This is a book he prepared. Please read it when you're free."

Zi Yi looked at the book title: Girls Should Learn How to Protect Themselves, and her lips twitched.

In fact, she knew what he had to deal with. She took the book from the housekeeper and happily went on the internet to earn money.

However, she did not expect Ouyang Ming's call at ten o'clock in the morning.

"Zi Yi, make a trip down to my racing club this afternoon. I'll introduce the manager and team members to you."
