

## Multi skilled 951

Chapter 951 Runge Said: Let's Have a Talk

Runge came even faster than Lu Jingye expected. When Justin learned the news of his arrival and informed Lu Jingye about this, Runge's call had already arrived.

Runge said to Lu Jingye over the phone, "Let's have a talk."

Lu Jingye only considered for two seconds before he personally went out to fetch Runge.

When both the men walked back into the winery, Zi Yi was standing at the door waiting for them.

Runge gave Zi Yi a brief nod. His expression was still as cold as usual.

Similarly, Zi Yi returned his brief nod with one of her own, but she suddenly then asked, "Have you eaten?"

Runge was stunned and subconsciously responded. "Not yet."

Zi Yi turned around and said, "It just so happens that we are going to have a meal. Come on in."

Runge walked in together with Lu Jingye with a taut expression.

Lunch was filled with Chinese dishes. Runge had some difficulty with the chopsticks, so he ended up eating with a spoon.

With the aura he had developed after staying in the military for a long time and coupled with the spoon in his hand, Dou Xiangling and Dou Zerui who were on alert against him could not help but take several peeks in his direction.

In fact, Runge knew that they were sneaking glances at him. However, there was no change in his expression, and neither did he speak. He merely held the spoon in a serious manner and ate.

Zi Yi and Lu Jingye did not have the intention to speak either. Lu Jingye would occasionally grab some food for Zi Yi or perhaps scoop a bowl of soup for her.

That type of intimacy was simply a silent display of affection.

The atmosphere at the dining table was a little weird.

After lunch, Dou Zerui and Dou Xiangling left.

After walking out of the house, Dou Zerui patted his chest and asked Dou Xiangling, "Sis, do you feel that Major General Runge is a little weird?"

"What's weird about him?" Dou Xiangling said, "I feel that the aura Major General Runge gives off is so strong that I felt a little restrained when I was eating."

"I don't mean that... don't you girls have strong sixth senses? Why didn't you feel anything?"

"What should I have felt?"

“It’s... urgh! Forget it... Say, what do you think Major General Runge meant by coming in alone? Could it be that he’s intending to persuade Little Lu and get him to leave with him willingly?”

“Do you think that’s possible?” Did he just base it on Runge’s cold, expressionless face that made him unable to even manage to squeeze out a single word?

“It’s precisely because I think that it’s impossible, that’s why I’m curious. Could it be that Major General Runge is on Little Lu’s side and he’s here to help him?”

...

When there were only three people remaining in the living room, Runge cut to the chase. “My previous proposal still stands. As long as you cooperate with me, I will help you resolve your current difficulties.”

Zi Yi could not help but sneer. “Runge, aren’t you being too confident? Right now, Ah Jing is facing the combined anger from the whole of Europe. How do you think you can help? Can you convince everyone else?”

Runge furrowed his eyebrows and he stared sharply at Zi Yi. “I believe that Lu Jingye was not behind this virus. Instead, someone is trying to set him up. If my guess is right, it should be those disgusting bugs that are behind this.”

Runge had encountered the worm race twice. Now that he was bringing them up, it was as though he was talking about normal terrorists. “The ultimate goal of those worms is to deal with you, am I right?”

“That’s right.” Zi Yi did not deny it either. “Even if you know the truth; so what? The current situation is that the virus is rapidly spreading around the whole of Europe. It may not be long before the situation in Europe ends up similar to those movies where zombies occupy the whole area.”

Runge’s expression turned colder at her words. However, his gaze was even more determined. “I trust that you have a way to control this virus.”

Having said that, he asked, “What do you need me to do?”

Zi Yi tilted her head and looked at Lu Jingye.

He was currently looking at her.

Both of them made eye contact and Lu Jingye gave her a nod.

Only then did Zi Yi speak out. “I need some things from the polar ice meteorite belt. Can you help me get them?”

“Yes.” Runge did not even think about it and responded. “If I manage to get what you want, we will cooperate.”

Lu Jingye said, “Deal.”

Runge looked at him for a second and took out his phone to make a call. After the other party answered, he directly said what he needed, “Launch the rocket immediately... this is an order.”

With that, he hung up the call and said to them, “This will require some time.”

Both of them nodded their heads.

Lu Jingye said, "Yiyi still requires some materials on Earth. It just so happens that I will personally lead my men to search for them."

Runge was surprised to learn of this. "You're going in person?"

"Yes."

Runge did not say anything else but instead, he asked, "Are you able to find evidence that you weren't the ones who planted the virus?"

"I'm currently looking for it."

Since they were now allies, Lu Jingye did not hide anything from him. "Country A had built a top-secret underground laboratory when the worm race invaded. What the laboratory researched is precisely this virus that is harmful to the whole human race. My younger brother is currently there searching for the evidence. Other than this, the worm race also built a laboratory in the space station. They are mainly developing spaceships that can cross the cosmic polar ice meteorite belt..."

Lu Jingye told Runge whatever he should know.

The more Runge listened, the colder his expression got. He thought about it for a few seconds and said, "Since that's the case, it means that Lu Yunxiao has already found the secret laboratory, is that right?"

"Yes."

"Where is it located?"

Zi Yi turned on the virtual screen. The screen reflected a map and there was a red dot flashing.

"It's where the red dot is flashing at. The laboratory is located in the sea. Yunxiao has already been there for a few days, but there has been no news from his end."

Runge stared at the map and sometime later, he said, "If I go there too and cause some trouble, then release some news and help you buy some time, will you be able to create the antidote ahead of time?"

"As long as your aerospace department is capable enough."

"Can you modify the spaceship from a distance?"

"Yes."

Runge nodded his head and took out his phone again to make a call.

Only then did Zi Yi and Lu Jingye learn that Runge had thoroughly grabbed the reins of the National Space Agency in his country after they left. Right now, everyone has to listen to him.

...

At the borders of Country M.

Ever since Runge went after Lu Jingye, the other countries' representatives were no longer that anxious. They planned to wait until Runge came back with Lu Jingye.

Country A's representative arrived at the borders at around one in the afternoon. When he learned that Runge had gone to Lu Jingye's place, he immediately urged everyone. "Zi Yi's robots are extremely powerful. Do you think Major General Runge is really able to arrest them? What we should be doing right now is heading over there and providing help. Otherwise, Major General Runge will be completely unable to deal with Lu Jingye."

Everyone thought that what he said made sense.

When the group of representatives was planning to enter Country M by force, Prince Justin came to the border in person to meet them.

Prince Justin said to them in a sincere tone, "Distinguished guests, we have all thought things through. Lu Jingye is a sinner of the whole of Europe and he should receive the most severe sanction. Therefore, I will personally lead you to the place where Lu Jingye and the rest are. Everyone, please."

Chapter 952 Mr. Alex, There's Smoke Coming From Your Body

The virus spreading around Europe worsened each day. In the beginning, the noble ladies felt their bodies slowly stiffening and many people who came in contact with them also had the same symptoms.

The whole continent of Europe was shrouded in a dark cloud of fear.

Everyone's hatred for Lu Jingye deepened.

The group of representatives was invited to the palace by Prince Justin.

Prince Justin said, "Everyone who has come here are distinguished guests of our country. On behalf of Country M's royal family, I would like to extend my sincerest welcome to all of you."

Everyone was well aware that Prince Justin stood on Lu Jingye's side before. Now that he was not leading them directly to Lu Jingye's place, everyone was somewhat displeased. In particular, some of the representatives did not intend to give him any face at all.

"Justin, since you brought us here to arrest them, don't play such tricks. Otherwise, we will feel that you are deliberately stalling for time to allow Lu Jingye to escape."

Justin's expression immediately changed at hearing these words. "Everyone, you're mistaken. I was thinking that since it was already past dinner time, all of you have yet to eat. Only after filling your stomachs and recovering your energy would you have the strength to arrest Lu Jingye."

What he said made sense too. It took everyone more than seven hours to travel from the borders to the royal palace. Along the way, they did not stop to eat in order to save time and they were indeed rather hungry right now.

Everyone started discussing among themselves.

Justin then said, "Distinguished guests, don't worry. I've already sent men to surround the area Lu Jingye is located in. If you are still worried, you can also send some of your men to surround that area first. In this case, Lu Jingye won't be able to escape and you'll also be able to eat with peace of mind."

Everyone agreed with this.

Thus, they sent their own men to surround the place. Only after making such arrangements did they accept the dinner banquet Justin prepared for them.

In order to show his sincerity, Justin not only prepared the most extravagant and expensive food and alcohol, he even called for the most beautiful dancers in Country M to dance.

It was basically a banquet filled with good food and beautiful ladies.

The group of representatives was so entertained that they forgot about their duties. They stuffed themselves with the meat and wine and at the same time, they went up to take advantage of the dancers due to their intoxicated state.

The dancers were frightened and started to scream while trying to hide.

Justin sat there and drank while he looked at the representatives revealing their unsightly behavior. The corner of his lips curved up.

The alcohol was drugged with a slight stimulant and as long as they drank one glass, they would subconsciously reach for the second.

Just then, a gloomy gaze landed on Justin.

Justin stiffened and he tilted his head over to meet the other party's gaze.

He ended up making eye contact with Country A's representative.

Country A's representative did not seem to be affected at all and Justin was surprised by that. Just then, Little Loli's voice sounded in his ears. "He's a clone and the stimulant won't be able to influence him."

Justin got a little anxious. He covered his lips by pretending to take a drink and softly asked, "Then what should I do?"

"Don't worry. I'll take care of him later."

Justin breathed a sigh of relief at her words.

He lifted his glass and walked over to Country A's representative. When Justin arrived in front of him, he stopped and asked, "Mr. Alex, why aren't you drinking? Could it be that the alcohol here isn't to your liking?"

Alex looked at him with his pair of gloomy eyes and said, "Prince Justin, everyone will be heading out to arrest Lu Jingye shortly. Yet, you're getting everyone drunk right now. What do you mean by this?"

Justin revealed an expression as if he had been wronged. "Mr. Alex, I didn't mean to get everyone drunk. I was only offering the highest level of hospitality on behalf of the royal family. If you are unwilling to drink I won't force you."

"Hmph! Justin, don't think that I don't know what plans you have. If you dare to cover for Lu Jingye, everyone will have your country perish together with Lu Jingye!"

Fear could be seen on Justin's face. The wine glass in his hands trembled ever so slightly and the alcohol swayed around back and forth. The current appearance of Justin made him seem timid and frightened.

He calmed himself down and said, "How about this? The other distinguished guests will require a rest later, before they can head to where Lu Jingye is located. Since Mr. Alex isn't fond of the alcohol here, you can make your way there first. With you keeping Lu Jingye under your watch, I believe everyone will feel more at ease."

Alex thought about it and agreed.

He stood up and said in a loud voice, "Everyone, do not forget your purpose for coming here. I'm going to head to where Lu Jingye is and keep watch. You had better finish your meal quickly and make your way over."

With that, he led his own group of men and left in advance.

If one drove in Country M, the current time would be exactly when the traffic was the most severe. In order to express his sincerity, Justin had specially ordered that all cars are not allowed to drive on the road today.

Therefore, Alex's cars did not encounter traffic jams along the way.

However, when the car drove out of the city and reached the suburbs, they were stopped by several heavy trucks.

"What's going on?"

"Report! Mr. Alex, the road ahead is blocked by the trucks. There is no one inside them."

"Sh\*t!" There was no need for him to think to know who the culprit was. He immediately ordered with a solemn voice. "Move those cars away."

"Yes."

The group of guards alighted from the car and went to move the trucks away. However, when they were approaching the trucks, a powerful electric current attacked them.

"Owww-"

"AHHH-"

The remaining guards behind those being electrocuted got a fright and they hastily retreated.

Alex saw the situation and he alighted from the car and made his way over.

His face was as dark as storm clouds. He then commanded in a loud voice. "Everyone, move back."

The group of guards quickly made their retreat.

He continued walking forward. When he came to the guards who had been electrocuted, he reached out to grab them.

He did not get electrocuted when he touched those guards.

It was as though the electric current had no effect on him.

After he pulled away the guards, he rolled up his sleeves and was planning to move the trucks away.

Alex crouched next to a heavy truck, and grabbed the safety bar with both hands. With that, he shouted and lifted the heavy truck.

The group of guards was shocked by Alex's great strength. All of them looked at him with their mouths wide open.

In particular, there were waves of electricity passing through Alex. The sight of him caused their scalp to tingle.

"Heavens, Mr. Alex is too powerful. He's not even afraid of electricity."

"As expected of someone valued by the general. Does he possess superpowers?"

The group of guards worshiped him.

However, at this moment, they noticed that there was a thick smoke being emitted from Alex.

The group of guards was frightened and they shouted in alarm, "Mr. Alex, there's smoke coming from your body!"

Alex was also feeling the discomfort. He wanted to release his grip on the truck, but he realized that his hands were stuck to the truck and he could not release his hold.

His expression changed and he loudly shouted, "Hurry and come and help me!"

The group of guards subconsciously ran toward him. But when they came into close proximity to him, a powerful electric current struck them.

"AHHH-"

"Owww-"

Chapter 953 Finish Her Off

"Tee-hee, how fun."

Alex's expression changed at the sudden voice. He quickly checked his surroundings. At the sight of Little Loli standing next to him, a cold glint flashed past his eyes.

"Robot."

The moment he said that, Little Loli immediately replied, "Clone."

Alex snorted coldly. "Since you know, do you think this can trap me?"

With that, two robots appeared next to him.

The two robots transferred away the electricity and at the same time, they pulled Alex out.

Little Loli looked at the two invisible robots next to him and replied with the same tone he used, "Do you think two random robots can do anything to me?"

"Then give it a try."

As soon as Alex said that, he immediately ordered the two robots. "Take care of her."

The two robots suddenly disappeared.

Little Loli snorted in disdain and turned invisible.

Subsequently, the three robots were nowhere to be seen. However, there would be bursts of gunfire and crackling sounds from time to time.

Alex looked at the air and disdain flashed past his eyes

...

While there was an intense fight ongoing there, the group of representatives in the royal palace were already drunk.

Even if that was the case, they did not forget their mission. All of them wanted to head to the suburb where Lu Jingye was.

Justin did not stop them either. He even took them there himself.

The route they took was another one and so, they did not encounter Alex and his group.

When the group of representatives arrived at the suburb, they looked at the empty space. Even if they were drunk, they still knew that they had been played with. They angrily questioned Justin, "Are you toying with us? Why is it so empty here?"

There were even some who were so intoxicated that they gave Justin a kick.

While kicking him to the ground, they threatened him. "Justin, consider yourself dead."

Justin looked scared and he hastily said, "This is indeed where Lu Jingye and the others are. Didn't I mention they had set up something like a barrier in the radius of a hundred miles and that we are unable to see anything inside?"

The group of representatives thought what he said made sense and so, they ordered some of their guards to step forward to check out the place.

Unexpectedly, the guards disappeared after they stepped forward.

Due to the scene they had just witnessed, everyone's heads suggested up due to fright.

"What's going on?"

"Why did they disappear?"

"Could this be the space magnetic field?"

"That must be the case."

While they were talking, they subconsciously retreated.

Someone suddenly thought of Alex and asked eagerly, "Didn't Mr. Alex arrive here before us? Where is he?"

"Could it be that he also entered the space magnetic field and didn't manage to come out?"

The group of representatives was even more fearful and they continued to move back.

“I feel that we should wait a little longer. Alex had brought along professionals skilled in this field and they must be planning to break the space magnetic field from the inside.”

“That must be the case.”

After finding a reason that could convince themselves and others, everyone continued retreating.

They only stopped when they were around a hundred-meter distance away. Everyone waited together.

And so, they continued waiting until the next morning.

The representatives and their men unconsciously took a nap. They were awakened by the dazzling sunlight shining down from above.

“It’s dawn!”

“Why hasn’t Mr. Alex come out yet?”

“Could it be that something went wrong?”

“Quick, give Mr. Alex a call. See if you can get through to his phone.”

“I can’t get through. My phone doesn’t have any signal.”

“Mine is the same.”

“It’s the same with mine.”

Their expressions changed greatly and they turned to look at Justin.

Justin’s expression also changed greatly. He held his phone with trembling hands and said, “My phone doesn’t have a signal either.”

An ominous feeling surged from within.

“There must be something wrong here!”

“Let’s get out of here quickly!”

...

“Hahaha... these people were brought into the space magnetic field Yiyi set up by Prince Justin and they are still oblivious to it.”

Looking at the group of representatives who were frightened at their current plight, Dou Zerui finally breathed a sigh of relief and burst out laughing.

He turned to look at Zi Yi who was swiping on the tablet. “Yiyi, can you keep them in there until Little Lu and Major General Runge return?”

“I can, but... as long as contact here is cut off, the other countries would immediately send other people here.”

“Then what should we do?” Dou Xiangling looked at Zi Yi anxiously.

Zi Yi still had a calm expression as she said, “It doesn’t matter. No one can break my space magnetic field.”

...

The outside world waited for two days. The group of representatives did not return with any news after entering Country M. Only then did everyone realize that something must have gone wrong.

At this time, the situation in Europe had intensified. In particular, those noble ladies who were infected by the virus. After a few days, the virus mutated and there were already many who had lost their reason and started to attack people indiscriminately.

Other than Europe, this situation has also appeared in other countries.

The whole world was in a panic.

Even though all the countries were itching to tear Lu Jingye apart, it was hard for them to send out people. They had to suppress those infected people who were going around attacking everyone.

When faced with such a severe situation even though they were unable to do anything to Lu Jingye, everyone started to point their fingers at China.

China was being questioned by the whole world.

“Little Zi, is there any news from the Lu Brothers?”

At this moment, even Mr. Qin was looking anxious.

The Ministry of Foreign Affairs was unable to withstand it anymore.

Zi Yi was also aware of the present situation. “Ah Jing is about to gather everything we need. There is still no news on Yunxiao’s end.”

Mr. Qin turned silent at her words. Sometime later, he asked, “Our side can only hold out for another two days at max. Zi Yi, to what extent can you solve the situation within these two days?”

Zi Yi tilted her head and thought about it. “I can create the antidote in two days.”

After her long-distance guidance, the rocket of Country D managed to enter space ten times faster than before. Right now, it has already arrived at the polar ice meteorite belt and it should be back in two days’ time.

Mr. Qin naturally believed in Zi Yi. “Ok, we’ll give you another two more days. I hope you don’t let us down.”

However, no one expected that on the fifth day of the month, Country A would send out two aircraft carriers toward China.

Even if Country A’s aircraft carrier was blatantly flying over their skies, other countries turned a blind eye to it. No one stood out and said anything.

In China's highest-level conference room.

"The aircraft carriers of Country A will be around a thousand kilometers away tonight. At that time, they would be able to launch their guided missile."

This made everyone feel a chill down their backs.

"If Country A really launches a guided missile, what should the coastal cities do? At this point in time, everyone is already on high alert and in extreme panic. If they were to suffer from such damage, it would lead to chaos."

Third Master Lu snorted. "In that case, we'll face their attack. If they dare to launch the missile, we will intercept them!"

Chapter 954 Shocking the Whole World

Everyone turned to Third Master Lu.

Third Master Lu was puzzled by their gazes. "Did I say anything wrong? If we don't display our strength in front of them, they would think that we are afraid of them."

Second Master Lu furrowed his brow and said, "Don't continue speaking."

"Why should I stop speaking? Did I say anything wrong?"

"Country A dispatched their warships. We are indeed able to intercept one or two guided missiles, but what if they fire multiple shots in one go? How are you planning to intercept them?"

Third Master Lu opened his mouth. He wanted to say that since the intercepting device Zi Yi had previously built was so powerful, he did not believe that they were incapable of intercepting dozens or more missiles.

Just then, he sensed the Marshal's disapproving gaze in his direction.

He could only swallow his unfinished words and ask, "If we don't intercept the missiles, are we going to let them attack us as they please?"

"We won't let them attack us as they please, that's for sure." One of the leaders thought for a moment and said to the Marshal, "Why don't we take out our secret weapon too and stall them first? Once a fight really breaks out, there would be severe consequences. I believe Country A wouldn't really launch an attack on us for real unless they don't plan on living on Earth in the future."

What he said was indeed true.

Everyone agreed with his point of view.

"Even though they would not really engage in a serious fight with us, what if they do some underhanded tricks to taunt us? If we don't retaliate, wouldn't it reflect badly on us, as others would think that we are afraid?" Third Master Lu still had differing views.

Mr. Qin agreed on this point. "It's definitely impossible that this will escalate to a real fight, but they will certainly come and taunt us. Moreover, the military in Country A is equipped with cutting-edge

technology equipment. We won't react to their superficial taunting, but they will definitely do some underhanded tricks.

The group of leaders in the conference room fell into deep thought.

A few seconds later, the Marshal finally spoke out. "In that case, we shall send our men who excel in this field to confront them. We must buy time for Little Zi."

Everyone nodded their heads in agreement. However, a question came along.

"Who should we send out as the commander?"

Since the opponent will be using cutting-edge military equipment, they had to find a talent that excelled in this field.

China did not have many talents in this field.

"Immediately call for the talents from the northwest military base and get Li Cheng to assume the position of the commander."

The order was passed down.

Three hours later, five individuals came from the northwest military base.

The five individuals were called over by the Marshal and after a thirty minute discussion, they set off right away.

This time round, Second Master Lu and Third Master Lu also headed to Haicheng together.

"I didn't expect the Marshal to call along Nangong Yu too." Third Master Lu looked at the five individuals who were currently in a discussion and he lamented. "Sure enough, the Nangong Family produces talents. I believe Nangong Yu is only 23, right? To think that he's already so capable."

Second Master Lu glanced in his direction. He knew that Third Master Lu had thought of Lu Ming and so, he said, "Little Ming is pretty good too. You shouldn't constantly compare your child with someone else's."

Third Master Lu felt his heart sink. "I rather you had not tried to comfort me. I feel even worse now."

Second Master Lu shut his mouth and kept quiet.

Third Master Lu was not the type of person who would constantly harp on a topic either. He did not feel that his child was unable to compare to someone else's. In the end, the topic ended just like that and he said, "China has never fought in a high-tech war before. Second Brother, do you think we will be able to win against Country A?"

In fact, Second Master Lu was rather worried about this.

...

Similar to what the higher ups of China had discussed, Country A did not really attack them on the surface. They only parked their aircraft carrier outside their borders.

Precisely because of this, it made other people feel their provocation.

On the other hand, a technology war was underway.

Powerful sonic waves were being used to disrupt the enemy carrier's main control program.

In addition, they were also hacking the other party's program to tamper with the data.

Another seven to eight hours passed by from the start of the confrontation.

Second Master Lu and Third Master Lu saw that the five individuals were all seated in the control room without eating or drinking anything. They started to feel worried.

"Second Brother. Say, what's the current situation? I went to take a look earlier and their expressions don't seem to be good. Are they going to fail in defending?"

"Don't talk nonsense."

Second Master Lu was itching to sew Third Master Lu's mouth shut right now. He did not wish to listen to such inauspicious words.

Third Master Lu felt anxious deep down inside. The more he was not allowed to speak out, the more anxious he got. In the end, he said, "If we fail to defend their attacks, what would be the most severe consequence?"

Second Master Lu finally got angry and yelled at him, "The worst case scenario is that our fleet would get blown up. Can you stop talking about this? You should stop mentioning such inauspicious words."

Third Master Lu was frightened at the thought of the fleet getting blown up.

He swallowed his saliva with great difficulty and subconsciously said, "Can Li Cheng and the rest really defend against their attacks?"

PA!

"Ouch! Why did you hit me?" Third Master Lu had his head slapped and he looked at Second Master Lu in confusion.

Second Master Lu pointed at his nose and scolded him. "Are you a pig? Do you not understand me when I said to stop bringing up such an inauspicious topic?"

Third Master Lu saw that Second Master Lu was really furious and he hastily kept his mouth shut.

...

When Nangong Yu and the other four individuals had defended against Country A's attack for ten hours, they had finally reached their limit.

"What should we do? We are unable to hold on any longer."

"We must defend even if we are unable to. The higher ups gave us a time limit of 24 hours."

"Country A is too strong in this area."

Li Cheng turned to look at Nangong Yu and asked, "Nangong, can you hold on?"

Nangong Yu was the youngest among them and this was also his first time experiencing such a battle. Li Cheng was worried that he was unable to hold on.

"I'm fine." From the start when Nangong Yu sat here together with the rest, he felt that he was walking on a tightrope. Whenever Country A launched an attack, he felt that he would fall.

However, at the thought of the consequences if he failed to defend against their attack, he would grit his teeth and continue defending.

BOOM!

A powerful explosion sounded from outside. The control room trembled from the aftereffects of the explosion and the expressions of the five individuals changed at the same time.

Just then, Second Master Lu staggered as he ran inside and he said to them, "One of our fleets was breached and it blew up by itself!"

"What's going on? Quick! Hurry and defend!"

"We can't hold on anymore. The other party has already successfully invaded our main controls and we are unable to control many of the programs."

"Activate the standby program!"

Just as everyone was panicking, all the programs suddenly reverted back to normal. Subsequently, a crisp voice sounded.

"Don't panic. They only destroyed one-third of the programs.

This sentence alone cheered everyone up.

"Who's talking?"

"Zi Yi!"

Nangong Yu and Second Master Lu called out Zi Yi's name at the same time.

Zi Yi continued to speak. "Listen to me. I'll tell you all what to do."

Nangong Yu hastily said to the other four individuals who were in a daze, "Hurry and sit down. Listen to Zi Yi's commands."

The four of them subconsciously sat down.

With that, Zi Yi's commands could be heard in the control room from time to time.

When everyone thought that China would have their defenses breached by Country A, the two aircraft carriers dispatched by Country A started to fail one after the other. The fighter jets on the aircraft carrier exploded and everyone jumped into the sea in an attempt to survive.

...

China's actions this time round had shocked the whole world.

Chapter 955 Zi Yi Said, "With Me Around They Won't Dare To"

When the technology war ended, the five of them who were seated in front of the computer smiled while gasping for breath.

Some time later, Li Cheng said, "This is the first time I've completed such a thrilling battle. What I thought was impossible in the past has all become reality just moments ago. I feel that our country is really about to take off."

"You're wrong. We have already taken off. As long as Zi Yi is here, China will only fly higher than before. In the future, no other countries would dare to come and provoke us."

Speaking of this, their eyes were filled with excitement and joy at the same time.

All of a sudden, someone burst into tears due to joy.

Nangong Yu stood up and walked to where Second Master Lu was. Both of them left the control room silently.

When they walked to the railing of the battleship, Nangong Yu held the railing with both hands and said, "I feel that there's nothing my junior sister is incapable of."

Second Master Lu tilted his head and looked at the young man standing next to him who had a calm and steady demeanor. "You're also very outstanding."

Nangong Yu shook his head. "I am much worse off compared to my junior sister. However..."

Nangong Yu was not the type of person who would drown himself in sorrow. With that, he looked at the seabirds flying over the sea. It just so happened that a fish leaped out of the waters at that moment and quickly returned to the sea. Only then did he continue to speak with a proud tone. "It's really good that my junior sister is from China."

Second Master Lu also smiled at his words. "Yes, it is good that Little Zi is a Chinese citizen."

Second Master Lu could not help but add on deep in his heart: She's also my daughter-in-law.

Nangong Yu asked, "How far along is junior sister in developing the antidote?"

"Right now, we are waiting for the materials to be brought back from space."

"Space? Our country hasn't launched any rockets during this period of time of the virus outbreak."

Speaking of this, Nangong Yu seemed to have thought of something and he asked, "Junior sister and the others are cooperating with Country D, right?"

"Yes."

Nangong Yu was the Marshal's grandson and Second Master Lu felt that there was nothing to hide from him. "They have established a cooperation with Major General Runge."

"Major General Runge."

Nangong Yu recalled his knowledge about this person and his expression suddenly turned complicated. "This person is very ambitious. Previously, I thought that his ambitions were only restricted to Earth. If he were to cooperate with junior sister, then I believe his ambitions also include outer space."

Second Master Lu had always admired Nangong Yu. He felt that other than his eldest son, he was the one who could see through the situation clearly.

"Yes. Jingye said that he wishes to cooperate with Little Zi on the parts of space that we have little knowledge on."

"Do you mean outer space?"

"Yes."

Nangong Yu was silent. However, he felt an indescribable surge of excitement. Some time later, he asked, "Second Master Lu, I would like to ask you a personal question. You can choose not to answer."

"Ask away."

"I believe... junior sister isn't someone from Earth, right?"

Second Master Lu chose not to answer.

Nangong Yu did not continue to ask anything.

Both of them changed the topic and started talking about the situation that would follow after the pandemic and infectious disease was brought under control.

...

On the seventh day of the virus outbreak, Country D's National Space Agency brought back what Zi Yi needed from the polar ice meteorite belt.

At the same time, Lu Yunxiao and Runge found evidence that the secret laboratory of Country A had developed the virus.

When the evidence was revealed to the public, several rockets belonging to Country A were launched.

The whole world exploded.

All the attention shifted to Country A and the masses started a crusade against them.

Half a month later, Zi Yi developed the antidote.

Around a week or so later afterwards, the virus was finally brought under control.

"We were still one step late."

When Lu Yunxiao and Runge breached the National Space Agency of Country A and were having a video call with Zi Yi and the rest, Lu Yunxiao said, "Runge and I have closed down the laboratory. We have also joined forces with the royals in Country A who were not controlled by the worm race to eliminate those clones. However, we did not find the male bugs and his offspring."

The higher ups who had their bodies occupied would lose all their vitality when the worm leaves.

“They have already escaped Earth.”

Zi Yi had guessed it when Country A sent out several rockets one after another that day.

“If my guess is right, the male race and his offsprings are already on another planet.”

“Then what should we do? Do we give chase right now?”

“No need. The male worm is unable to leave the female worm. If a male worm is unable to locate a female worm even after a long period of time, their mentality would collapse. There are no raw materials on Earth that would allow them to leave the inner space. They will stay on some random planet for quite a while.”

Zi Yi then said, “Right now, all we have to do is to develop a spaceship and give chase to stop them from leaving inner space.”

“Will the worm race attack Earth?”

“With me around, they would not dare to do so.”

Lu Yunxiao breathed a sigh of relief and said to Lu Jingye, “I still need some time here before everything is finished. I will also get in touch with Mother and Father.”

Lu Jingye said, “Ok.”

With that, Zi Yi and Lu Jingye remained in Country M for nearly one month.

Zi Yi’s laboratory officially started to operate during this month.

At the same time, the King abdicated from his throne and handed over the authority to Justin.

Ian also inherited the title of the Count.

Half a month later, when Runge returned, he even specially made a trip to visit Zi Yi.

He said, “You’re always welcome at our Country’s National Space Agency. If you don’t have the time, we can move the facilities to China.”

Zi Yi did not feel anything, but the others were all stunned by his words.

Qin Ze whispered to Dou Zerui and asked, “Has Runge gone crazy?”

Dou Zerui nodded in agreement. “I have the same thoughts as you.”

Lu Jingye looked at Runge with a cold gaze and said, “We have a Space Agency in our country and we don’t need yours. In the future, if your side requires anything, you can have a video call with Yiyi. She will be very busy in the following period of time and she won’t have the time to visit Country D.”

Runge narrowed his eyes and they revealed a sharp glint.

He turned to look at Zi Yi.

What he meant by that was: he was asking her and not him.

Zi Yi nodded her head and said, "What Ah Jing said is right. I will be very busy by then and I won't have the spare time to visit your Country."

With that, she did not hesitate to chase him away. "You can go back to your country. We will also be going back after packing up our stuff."

No one could discern what Runge was thinking about based on his expression. But a few seconds later, he turned around and left.

Runge left just like that. Looking at the departing car, the others turned to look at Lu Jingye and Zi Yi.

Zi Yi pretended not to see their expressions. She held Lu Jingye's hand and went upstairs. "Let's go and pack up. I want to go home right away. I want to see my babies in close proximity."

"Mhmm."

Zi Yi and the group would be leaving but Ian was unable to do so. He pulled Dou Xiangling's hand and refused to let go.

"Xiangling, why don't you stay a few more days? After I am done dealing with everything here, we can go back to China together and hold our wedding."

Before Dou Xiangling had the chance to speak, Dou Zerui said, "Xiangling still has lessons to attend to. You will be so busy in the following period of time, if she stays here, what are you expecting her to do?"

Ian said, "Of course it would be to accompany me."

"Accompany you to deal with those matters in your family?"

...

When Zi Yi and Lu Jingye returned to their rooms, Zi Yi turned around and pressed him against the door. She held his neck and said with a smile, "Ah Jing, are you jealous?"

Lu Jingye held her waist with one hand and looked at her with those deep eyes of his. He did not answer her.

Zi Yi stood on tiptoe and kissed him on the lips before she giggled. "What are you jealous of? Runge is only being ambitious for a higher civilization and it just so happens that I can realize his wish. Therefore, he's paying special attention to me."

"I don't like that he's paying special attention to you."

Zi Yi was a little surprised to hear him say such words out loud. While she was in a daze, her lips were sealed.

Chapter 956 Whose Smart Babies Are These

When Zi Yi and the rest left China, it was mid-March. By the time they returned, it was already mid-June.

Mrs. Lu's eyes turned moist at the sight of the two of them alighting from the car.

Zi Yi walked over and hugged her as she said with a smile, "Mom, we're back."

Mrs. Lu finally could not control her tears as they spilled down her face. She patted Zi Yi on her back and even until now, she was still feeling lingering fear over the crisis. "Bad child. You guys left for three whole months! Do you know how worried I was at home?"

"Mom, don't cry anymore. Didn't I leave behind two little babies to accompany you?"

Mrs. Lu smiled while tears were streaming down her cheeks. "How is that the same? I just hope that you all can live a life that is safe and sound."

"We returned safe and sound, didn't we?" Zi Yi stopped hugging Mrs. Lu, grabbed her hand and headed inside the villa. While walking, she said, "Mom, let's go and take a look at the babies first."

"The two babies have grown up now and they are pretty naughty. They would kick around here and there inside the nutrient solution. Fortunately, they did not grow in your belly. Otherwise, you would have been suffering at around this time."

"Hehe, isn't this more interesting and fun?"

Both of them made their way upstairs, leaving behind Lu Jingye and Second Master Lu who were standing in the courtyard.

Second Master Lu patted Lu Jingye on his shoulders and said, "It's been hard on the both of you this time around. Especially Zi Yi. She gained honor for the country."

Lu Jingye nodded his head.

The pair of father and son walked to the living room together. While they walked, they talked about what had transpired during the recent period of time.

Zi Yi and Mrs. Lu arrived at the nursery and Zi Yi saw the two sleeping babies at the very first instance.

By this time, the two babies were already fully developed. Zi Yi stood there and looked at them for some time before she said to Mrs. Lu, "In fact, they can be taken out now, if you wish for them to come out."

"Didn't you say it's healthier for them to stay in the nutrient solution until they are full term? We should let them remain in there and take them out when the time is right."

"That works too."

Zi Yi put her hand on the wall of the nutrient solution container. The two babies seemed to have sensed her presence as they opened their eyes at the same time.

"Wow! Isn't this the so-called mother and child connection? They are actually looking at you."

Zi Yi was also looking at them. She smiled and greeted them "Babies, I'm back."

The two babies closed their eyes, but they kicked their legs in her direction and leaned on the wall of the container. They looked as though they were trying to act spoiled before Zi Yi.

Their adorableness instantly caused Mrs. Lu's heart to melt.

"Oh my! Our two little babies are so smart!"

Zi Yi's lips unconsciously curled up.

Her hands remained on the wall of the container. She released some mental energy toward the brain tissues of the two babies.

The mental energy transformed into an extremely warm current and spread around their brain tissues. Subsequently, Zi Yi was surprised to find out that the two babies were born with mental energy. Right now, they were unconsciously responding to her.

After she discovered this point, her smile widened and she said, "You'll be able to come out in another two months."

The two babies responded to her by moving their heads.

Mrs. Lu stood by the side and watched Zi Yi spend time with the babies. The smile on her face did not disappear throughout the whole time. She slowly told Zi Yi about the various changes in the babies during the past three months.

Both of them remained in the nursery for more than an hour, until Lu Jingye came in and called for them, "Mother, Yiyi, Eldest Uncle called earlier and invited us over to have dinner."

"Oh my! How could we let our in-laws invite us over? We were supposed to invite them over for dinner tonight."

"It doesn't matter who invites who."

Zi Yi held Mrs. Lu's arm and said, "Mom, let's go. It doesn't matter where we eat. Everything is good as long as the whole family sits down together."

"Haha, you're right."

Mrs. Lu did not oppose the idea. The madams from the Dou Family would come over and visit the babies twice every week. Mrs. Lu would also bring some tonics over for Elder Dou on behalf of Zi Yi. Over time, it was inevitable that the two families became close.

When the family of four arrived, the Dou Family members were already waiting for them in the courtyard.

"Grandfather, Uncles, and Aunts, we've returned."

"Grandfather, Uncles, and Aunts, good evening."

Zi Yi and Lu Jingye greeted the group.

The elders had smiles on their faces and at the same time, the rim of their eyes turned wet.

Elder Dou held Zi Yi's hand and checked her from head to toe. Only then was he relieved. "Dear child, everything's good as long as you return home safe and sound."

The incidents that happened these few months were too huge. In particular, everyone was extremely worried during the outbreak of the infectious disease. They were so worried that they could not have a good night's sleep.

Zi Yi smiled and said, "I promised that I'll accompany Grandfather to walk around M.Uni. How could I not come back safe and sound?"

Everyone burst into laughter at her words.

"Let's not keep standing here. Let's go inside the house and take a seat."

The moment the First Madam said that, everyone headed inside the living room.

After dinner, everyone sat in the living room and discussed what happened during the past few months.

Dou Zerui sighed and said, "Even though I wasn't of much help during that period of time, I was present in the nervous atmosphere. To be honest, I felt that I was going to have a heart attack during that time."

The Third Madam nudged him. "What nonsense are you sprouting?"

"I mean it. If you don't believe me, ask Xiangling. There was nothing we could help with at that time and we could only check what was happening on the internet. Every day, there was a crusade against Little Lu. I even registered a few new accounts to argue back with those extreme comments."

"Me too."

"Me too."

Unexpectedly, Dou Yurui and Dou Yue'er had the same response as him.

Dou Yurui said, "I didn't only open several accounts. I even mobilized all my classmates. All those people are simply jokers. How could brother-in-law be the one who spread the virus? Clearly, there was someone who wanted to frame him."

Lu Jingye smiled and said to them, "Thank you."

When they received his thanks, they somehow felt embarrassed.

Zi Yi suddenly thought of something and she asked Dou Yue'er, "Yue'er, how are your results?"

Dou Yue'er had already taken her university entrance examination.

Dou Yue'er was very confident. "It's not a problem for me to get into M.Uni."

Zi Yi smiled and said, "If that's the case, the promise I mentioned previously still stands. How about I help you arrange your travel plans?"

Dou Yue'er's eyes brightened and she said, "Yes, please!"

"Yiyi, don't spoil her too much. If she wants to travel, she should earn her own money. Yue'er is an adult now."

When the Fourth Madam said that, Dou Yue'er disagreed with her. "How am I an adult now? I'm the youngest in the family and I'm forever going to be a child."

"Aren't you embarrassed by saying that? Speaking of children, Yiyi's two babies are the youngest."

"Hehe, they aren't born yet and before that happens, I'm still the youngest."

“Haha...”

Chapter 957 Little Zi, Is It Really Alright To Lock All of Them In There For a Month?

When Zi Yi and Lu Jingye returned, their schedules were packed.

Lu Jingye had accumulated a lot of work. Coupled with the incident related to the diamonds, he needed to redo the planning for Song Jewelry. It was not too much to describe him as a workaholic right now.

The aviation center Zi Yi was building was about to finish being constructed and now was the time where she needed a large number of talents. Therefore, she started recruiting people.

At this time, she would obviously ask her Eldest Uncle for help.

Dou Jingning looked at the tail following behind him and revealed a bitter smile. “Lass, you’ve more or less poached away everyone here, what else are you planning?”

Zi Yi giggled and said, “Eldest Uncle, I still need some management staff there. I want to invite you over to help with the management.”

“The contract I have with the country has yet to expire. I can’t go.” Dou Jingning felt helpless.

Zi Yi’s eyes brightened at his words. She took out her phone and made a call. While calling, she said, “Why didn’t you tell me earlier? This is easy to solve.”

Dou Jingning was amused and he looked at Zi Yi. She would always act upon whatever came to her mind. “Are you planning to poach all the talents in China?”

“No, I left some for them.”

Speaking of this, the other party then answered the call. She went straight to the point. “I want my Eldest Uncle to join my company. Is it ok on your end?”

The other party was even more straightforward. “No, unless you allow us to buy the company shares.”

Zi Yi: “...”

Dou Jingning who was standing there did not hear what the other party said. He saw Zi Yi turning silent and he asked, “Did Mr. Peng refuse?”

Zi Yi gave him an expression as if it was hard to explain in a few words. Only then did she say to Mr. Peng, “You can invest, but I have conditions on my end too.”

Mr. Peng smiled and said, “Do tell.”

Zi Yi, “You can only invest. I will hold the decision-making power. No matter if you have any conflicting opinions, you cannot interfere without my consent.”

Mr. Peng replied right away, “Sure.”

He continued speaking and asked, “Do we need to sign a contract?”

“That’s a must.”

“Ok, I’ll get someone to draft a contract.”

“No need, I have the contract with me.”

“It seems like Little Zi has already made preparations in advance?”

“Same to you.”

Having said that, both of them laughed.

After she hung up the phone, Zi Yi raised her eyebrows and said, “Uncle, you are now [Futuristic Aviation Technology]’s manager.”

Dou Jingning shrugged his shoulders and purposely revealed a helpless expression. “It seems like I’ve jumped out from one pit into another.”

“Hehe, I guarantee that you won’t ever regret jumping into this pit of mine.”

Having said that, she enthusiastically asked, “When do you think you can head over?”

“Anytime.”

“Great. We’ll set off tomorrow.”

Zi Yi’s aviation base was two hours away from China by plane.

The next day, she and a group of individuals made their way over.

When the group of people walked into the base and saw the robots and high-tech, fully operated base, they were all deeply shocked.

“Zi Yi, I feel that we are not needed here. You can just use robots instead.” Qin Ze said emotionally, “After coming here, I feel that I am of no use.”

“How could that be?”

Zi Yi led them to the R&D area.

Looking at the R&D area that seemed to be endless, Zi Yi said, “Here will be your workplace in the future. I’ll give you a month to get familiar with all the equipment. The most important thing for you now is to break your conventional ways of thinking. Start imagining how our spaceship can travel to a further galaxy, what principles to use to avoid a nuclear magnetic explosion in the universe, and how to prevent freezing in the polar ice space.”

The group of individuals was too stunned to speak. Sometime later, a few of them expressed their disbelief. “Zi Yi, are you joking with us? We can’t even leave the Milky Way as of now.”

“Joking?” Zi Yi laughed. “I never make jokes.”

Having said that, she quickly retreated. While retreating, she said, “There are nutrient solutions here that can enable your body to reach and maintain its best condition. If you’re hungry or tired, take a dose. Everyone, see you in a month.”

With that, she left the place.

The group of researchers, on the other hand, was trapped inside.

In the beginning, everyone was unhappy with Zi Yi's methods. If it weren't for Professor Dou and Qin Ze, a few of them were prepared to quit.

But very soon, there was a change in the place they were trapped in.

Soon afterwards, it was as though they had stepped into the vast universe. There was even an explanation to go with the situation change.

They were scientists who were the cream of the crop. However, when they arrived here, all their knowledge and beliefs were overturned. Their train of thoughts started to experience a dramatic change.

...

"Little Zi, is it really alright to lock all of them in there for a month?"

Mr. Peng who followed them here was also stunned by Zi Yi's actions.

On the other hand, Mr. Qin who was standing on the other side was a little excited. "Little Zi, why don't you lock up my men for a month too? If a higher civilization really exists, does it mean that something like Mecha armors exists too?"

"Yes."

Zi Yi looked at the two leaders and said, "They need to slowly accept these changes on their own accord."

Subsequently, she said to Mr. Qin, "I need your men too, but now's not the time."

Mr. Qin was not disappointed and he nodded his head. "As long as you need them, I can send them over anytime."

"Ok."

The three of them did not remain in the base. After they sent the group of researchers here, they returned to the capital.

The aviation base Zi Yi built was soon known by several other large countries.

Subsequently, she received a call from these countries, indicating their interest to send their people over.

After finishing dinner in the evening, Zi Yi, Second Master Lu and Mrs. Lu were seated on the sofa and chatting casually.

Zi Yi told Second Master Lu about this matter.

Second Master Lu thought for some time and said, "Clearly, these countries have their own plans. The people they send here may not necessarily be willing to receive your orders. However, many hands provide great strength. In particular, the people they would be sending over would be their elites. Therefore, there are pros and cons."

Since the country mentioned they would not interfere, naturally, Second Master Lu would not interfere either. He only provided her with some of his advice.

While those countries were still offering to send their people over, Country D had already sent them.

After those scientists arrived in China, Runge gave her a call.

He said, "They have arrived in the country. If you don't accept them, you can let them remain in China."

Zi Yi had never seen a person who would be so arrogant even after acting first and reporting later. "Let them stay then."

With that, she hung up the phone.

By the time Zi Yi was less busy, it was already half a month later.

During this time, Lu Jingye's company had moved to the CBD area (Central Business District) in the capital. The 99-story high Lu Group's commercial building made its appearance once again. However, the name of the company was no longer the same. There was an addition of several more words. [Lu Group Futuristic Private Limited]

Zi Yi never had the time to make a trip down to take a look. When she finally had some time on her hands today, she decided to check the place out.

She did not give Lu Jingye a call before she went over, as she planned to give him a surprise.

#### Chapter 958 Shameless

The car stopped in front of the Lu Group's building. Zi Yi put on a pair of sunglasses and a mask and made her way toward the gate.

There were quite a number of people going in and out of the building. When Zi Yi made her way over, she just so happened to hear someone saying, "I wonder if I can successfully negotiate for a project with the Lu Group. Their requirements are really too high."

Someone else said, "They are indeed high, but as long as we can cooperate with the Lu Group, it would be equivalent to reaching the heavens with a single step."

"That's right. I hope that everything will go smoothly today."

There were several similar conversations going on around her. Evidently, they were all newcomers with dreams.

After entering the main entrance, there was a spacious hall inside and around the hall were various resting and waiting areas.

There were teahouses, coffee shops, bookshops, and etcetera. The receptionist was also very polite and looked very professional.

Zi Yi checked the surroundings and headed in the direction of the elevator.

There were dozens of elevators here and Zi Yi walked to the No. 1 elevator. It just so happened that there were a few people standing around there. Some of them revealed nervous expressions while some were secretly looking in the direction of the No. 1 elevator.

Some people were discussing in a soft voice. "I heard that the No. 1 elevator is President Lu's dedicated elevator. I wonder who else other than the President has the right to take the elevator."

"Of course, it's the Goddess Zi Yi. She's the President's wife. If not her, who else could possibly ride on that elevator?"

Zi Yi, who overheard their conversation, stopped walking. She decided not to take the No. 1 elevator.

She squeezed in between the crowd who were waiting for the other elevators and listened to their various praises for the Lu Group. She felt overjoyed at their compliments and felt that her husband was awesome.

Just then, there was quite a huge commotion outside the elevator.

Soon, they saw a group of bodyguards separating the crowd into two.

"What are you doing? Why are you pushing us?"

"It's possible that some bigshot is here to meet President Lu. It's best that we don't talk."

After the bodyguard separated them, they all saw a tall woman wearing a silver sequined dress that had a tube top design. Her long, wavy hair flowed down her back and she was currently wearing sunglasses while being surrounded by several assistants.

At the same time, there was someone kissing up to her on the side. "Sister Feifei, you look so gorgeous today. You'll definitely defeat all the other interviewees and clinch the endorsement of Song Jewelry."

Zi Yi had never chased after celebrities before, but she managed to discern that the woman before her was a celebrity based on their conversation. However, she did not know who she was.

Quite a few people standing next to her got excited.

"Heavens! The Diva, Miss Yang Fei is actually here at the Lu Group! I'm so excited to see her!"

"Her recent movie with the international celebrity is really interesting! I've watched it five times now."

"Me too."

"As expected of a diva. Look at that demeanor of hers!"

Yang Fei was most likely accustomed to the excitement of the crowd around her. She directly made her way to the No. 3 elevator and she did not even spare a glance at other people.

Generally speaking, this was normal. When a celebrity showed up, they would be protected by a group of bodyguards and get chased after by fans. However, just then, another woman stepped into the elevator with large strides.

The woman directly made her way to where Yang Fei was.

“Yang Fei, you shameless b\*tch! How dare you seduce my man? I’m going to kill you!”

“AHH-”

“Bodyguards!”

The elevator instantly became chaotic.

There were sounds of both screams and shouting.

Zi Yi furrowed her eyebrows and squeezed her way through.

She was surprised when she learned the identity of the woman who dashed into the elevator. It was Yang Yuelan.

Just then, the security guards from Lu Group dashed in.

Soon, they separated the crowd and the lobby manager said with a frown, “Ladies, if you have any bad grudges against each other, go out and resolve it. Please do not affect other people in the building.”

Yang Yuelan looked at Yang Fei who was well protected with a fierce gaze. She angrily pointed at Yang Fei. “I am the eldest sister-in-law of President Lu. This woman shamelessly seduced my husband and as a lobby manager, how could you possibly allow a woman like this into the building?”

Yang Yuelan was indeed Lu Jingye’s eldest sister-in-law. However, apart from Eldest Master Lu, everyone knows of how the remaining family members in the first house offended Lu Jingye and Zi Yi. Therefore, when Yang Yuelan came here, the lobby manager did not plan to give her any special treatment at all. Instead, his frown deepened.

“Eldest Young Madam, this is your family affair. I suggest that you call the Eldest Madam or the Eldest Young Master. If there are any problems, you can slowly resolve them amongst yourselves. Please do not discredit the Lu Group.”

Yang Fei, who was protected by the bodyguards said gloatingly, “Miss Yang, don’t pour dirty water on me whenever you please. Your family affairs have nothing to do with me.”

“I personally saw you and Zhiheng checking into a hotel!” Yang Yuelan raised her voice. “You’re still trying to quibble your way out?”

Yang Fei’s expression sank. “Please show evidence when you are making your claims. If you don’t have any evidence, I will sue you for defamation.”

“That’s right, many fans know of Sister Feifei’s schedule. Eldest Mrs. Lu, you’ve caused trouble for our Sister Feifei, just wait to receive a lawyer’s letter!”

“We can also testify. Goddess Feifei has never been in contact with Eldest Young Master Lu. Don’t think that just because you’re from a wealthy family, you can throw dirty water on Goddess Feifei anyhow you like.”

“That’s right. It’s not like we don’t know how the first family previously treated President Lu and his wife. From how you’re here today, I think you’re purposely trying to attract President Lu’s attention.”

“Sure enough, scheming people are always scheming every second of their lives! How dare they try to have ideas on our Goddess Feifei?!”

“You... you...”

The impression the first family gave off was too bad. It could be said that the public had a negative impression of them. Even though Yang Yuelan was still the Eldest Young Madam Lu, no one would care about her no matter where she went.

Looking at Yang Yuelan who had lost her former brilliance and resembled a shrew right now, Zi Yi shook her head deep down inside.

Zi Yi originally did not plan to step forward and do anything. But just then, someone next to Yang Fei said, “Sure enough, it’s true that those who offended President Lu and his wife are simply shameless. I think that it’s because the first family is unable to gain any more benefits from them and so, you’re deliberately trying to use Sister Feifei’s popularity to gain some attention, right?”

Upon hearing this, Zi Yi turned to look at Yang Fei who revealed a proud, mocking smile and she narrowed her eyes.

She took out her phone and sent a message.

In the past few recent months, Yang Yuelan had been pushed to the edge by the Eldest Madam and Lu Zhiheng. Both of them came up with all kinds of methods to get her to sign the divorce papers. When she refused, Lu Zhiheng even relied on the fact that she still loved him and deliberately slept with many other women. Most importantly, the niece of the Eldest Madam’s sister-in-law did not care either. All of them were forcing her.

The more she thought about it the more unwilling she was and she was not willing to divorce just like that. Moreover, she decided to cause a ruckus in front of whoever slept with Lu Zhiheng and see who shall be the last one standing.

Therefore, it led to the present situation.

Yang Yuelan was also a young lady from an aristocratic family. After she was satirized, she finally regained some sense and said with a sneer, “Don’t be too proud. I recorded the evidence of the day when you checked into the hotel. Believe it or not, I’ll release the video right now!”

Chapter 959 Zi Yi Said: I Just Dislike Others Bullying The Lu Family Members.

Yang Fei relied on the fact that she had backing, was a diva, and that Yang Yuelan was being forced to sign the divorce papers. She was not scared at all. “Your video must be a composite video. If you want to release it, go ahead. Let’s just see who would be in a worse situation then, you or me.”

“You...”

Just then, the elevator door opened and a man wearing a suit and tie came out.

When he came out, he looked at the surroundings and ended up making eye contact with Zi Yi.

He got a fright and was about to make his way over.

Zi Yi shook her head. The man's expression turned stern and he stopped walking, he then asked the crowd near the elevator. "Why are you all making a ruckus here?"

The lobby manager hastily stepped forward to explain the situation to the man. In the end, he said, "Director Wang, I was just about to persuade them to leave. If you're busy, you can go ahead first."

Director Wang was the director of the security department and one of the old staff members who followed Lu Jingye. He knew of Zi Yi and also had her phone number. The situation right now was that Zi Yi had called him down and he certainly wouldn't leave just like that.

When he was making his way down, he also tried guessing the intention behind why Zi Yi called for him. After he listened to the explanation of the situation, he more or less knew why.

"Manager Zhang." Director Wang said, "The Eldest Young Madam Lu is a Lu Family member and yet, she's being bullied on her own turf? Even if you aren't siding with her, how could you possibly chase her out?"

"This..."

Manager Zhang was not the only one surprised. The others also revealed expressions of disbelief.

Yang Fei's expression was almost distorted due to anger. Yang Yuelan was only a woman who was about to get divorced soon and so how could she possibly compare with her, a diva?!

She immediately revealed an appearance as if she was enduring humiliation.

There were some of her fans here and when they saw her expression, they immediately defended her against the injustice.

"Why is the Lu Group so incapable of distinguishing right from wrong? Clearly, it was she who ran in and accused our Goddess Feifei. You all..."

"Lady, are you her fan?" Director Wang suddenly interrupted her.

The woman had a spirit as if she would disregard all external factors just to protect her idol. "Yes."

Director Wang said, "Since you are a fan, don't come into the Lu Group anymore in the future. You don't even know what kind of person you should idolize in the Lu Group. No matter whether you are here for an interview or to collaborate, there won't be a chance for you in the future."

The woman's face turned pale. Only then did she finally realize that she was in the Lu Group's building.

Those who originally wanted to speak up for Yang Fei immediately kept their mouths shut.

Yang Fei's complexion turned pale.

In particular, Director Wang said to Yang Fei, "Miss Yang, please leave. The Lu Group doesn't welcome someone like you here."

"Why?" Yang Fei became anxious and her voice also became especially sharp. "She was the one who came over and accused me of something I didn't do. I don't believe that the Lu Group would be that indiscriminate."

Speaking of this, she acted rashly and said, "If that's really the case, don't blame me for exposing you."

Director Wang revealed a cold expression. "Go ahead. Only if Miss Yang can bear the consequences."

Yang Fei's legs went soft. She was unable to bear the consequences. She only wanted to threaten them.

Director Wang said, "Please invite Miss Yang and her team to leave."

The security guards stepped forward and asked them to leave.

Yang Fei knew what she would be facing if she really left. She cried and said in a loud voice, "I feel this is unfair. Clearly, she was the one who accused me and the Lu Group cannot be indiscriminate like that."

"Show the video you took that day for everyone to have a look."

All of a sudden, a crisp voice sounded and everyone subconsciously turned to look in that direction.

When they saw Zi Yi who was standing there wearing sunglasses and a mask, they found her very familiar.

Yang Yuelan was familiar with Zi Yi's voice. Her eyes brightened and she hastily took out her phone.

Zi Yi walked to Yang Yuelan's side and looked at the video she took.

Yang Fei did not know who Zi Yi was and her gaze, as she looked at Zi Yi, was similar to that of one looking at their enemy.

After Zi Yi finished watching the video, she looked up at Yang Fei. "The video is real. Therefore, you did indeed check into a hotel with Lu Zhiheng."

The incident was unceremoniously laid out to the public. Yang Fei immediately turned red and she became even more furious. "Who knows if the both of you are in cahoots? I've never met Eldest Young Master Lu before."

"Hmph!"

Zi Yi coldly snorted and Yang Fei was instantly frightened.

Zi Yi said, "Since you refuse to admit it, then we'll get your company to step forward and admit it."

Her tone of voice sounded very overbearing. However, for an individual to say such an overbearing statement, Yang Fei had also guessed that she might have offended someone she could not afford to offend. Her complexion turned deathly pale.

At the thought of her future, her mind suddenly cleared up. She tried her best to stop herself from trembling and said, "Even if that's the case, I was forced into it. As a celebrity, be it that I'm a diva or not, how could I possibly check into a hotel with Eldest Young Master Lu? He was the one who forced me."

Speaking of this, Yang Fei covered her face and burst into tears.

When everyone looked at Yang Fei, there were those who felt their hearts go out for her and those who despised her actions. However, no one dared to speak out.

Zi Yi snorted again and said to Director Wang, "Go investigate if she was forced. If it's true, shut down their company. If it was her own choice, get her company to take care of it."

Yang Fei felt her brain turning hazy and she blurted out. "Who are you and what rights do you have to do all these things?"

Zi Yi took off her sunglasses and gave her a sharp look. "I just can't stand you bullying the Lu Family members."

"You are Zi Yi!" Yang Fei knew that her future was gone and all of a sudden, she had nothing to fear and so she said in a mocking voice, "Their family treated you like that in the past and yet, you're still helping her? You deserve to be the national goddess, to think that you're such a saint."

Director Wang and Manager Zhang's expressions changed and Director Wang was about to speak out.

Zi Yi said with a sneer, "If you have anything else to say, it's best that you say it right now. Otherwise, you won't be able to say it after you leave here. One more thing, no matter how rotten the Lu Family members are, these are all our internal affairs. There's no place for an outsider to point fingers."

After Zi Yi said her piece, the group of security guards invited all of Yang Fei's group out.

Soon, the incident of the Goddess Yang Fei and Lu Zhiheng entering a hotel was exposed on the internet.

What happened was described in detail.

One wanted to climb up the status ladder, while the other wanted to relieve their urges.

In any case, none of the parties were kind souls.

Of course, this was what happened in the future.

After the group of people was sent out of the building, Zi Yi turned to look at Yang Yuelan.

Yang Yuelan was also looking at Zi Yi. She was feeling somewhat touched as she thought to herself, "Was sister-in-law helping me earlier? Has she forgiven me for what I had done to her in the past?"

Yang Yuelan was about to speak when Zi Yi spoke out before she could.

"Follow me."

With that, they headed to the lobby and both of them entered a lounge.

After they took their seats, Zi Yi removed her mask and asked coldly, "Why did you come to the Lu Group to cause a ruckus?"

"I..."

"You had better tell the truth. You should know that I was not helping you earlier. I'm someone who holds grudges and it's impossible that I will forget what you did in the past just because you're in a pitiful state right now."

Chapter 960 Yang Yuelan Kneeling Before Zi Yi

Zi Yi was simply too cold and heartless when she said that. Yang Yuelan who was originally planning to act miserable in front of Zi Yi immediately dismissed that thought.

At the thought of everything she had suffered during this period of time, she started crying bitterly.

Zi Yi was a little annoyed. She simply ordered two cups of tea and some snacks to wait for Yang Yuelan to finish crying. That way she could enjoy her tea and snacks.

Just then, the phone in her pocket rang. She took out her phone and unlocked it. It was a message from Lu Jingye.

Lu Jingye: [Why haven't you come up yet?]

Evidently, he was already aware that she was in the building and was currently waiting for her.

Zi Yi's lips curved up and she typed: [I met eldest sister-in-law. I'm currently having a chat with her and drinking afternoon tea. You can go ahead and work first, we'll have lunch together later.]

Lu Jingye: [You don't have to bother with their family affairs.]

Zi Yi: [I'm not interfering, I'll just listen to the gossip.]

Lu Jingye was helpless with this special hobby of hers. Sometime later, his message arrived: [If you have nothing to do, you can come up and spend more time with me.]

When Zi Yi read this message, she somehow sensed traces of bitterness. She thought of how both of them basically would not see each other during the day time and how by the time he returned home from work, she had already fallen asleep. Also, when she woke up in the morning, he had already left for work. In summary, apart from sharing a bed, it seemed like it had been quite some time since they stayed together properly.

Zi Yi was suddenly not so interested in slowly waiting for Yang Yuelan to finish crying so she could listen to the gossip.

She drank a sip of tea and said, "I'll only give you ten minutes to say your story. If you can't finish it in ten minutes, you can leave now."

"Ugh..."

Yang Yuelan's sobbing sounds abruptly stopped. She raised her head and looked at Zi Yi with tear streaks on her cheeks. Deep down, she complained about how Zi Yi could be so heartless.

However, she clearly would not reveal her complaints at this moment. At the thought that only Zi Yi was able to help her in the Lu Family, she quickly explained. "Mother has always thought that it was my fault that we couldn't have a baby. At first, she found all sorts of folk remedies for both Zhiheng and me to consume. However, they were all useless."

Zi Yi interrupted Yang Yuelan. There was undisguised mocking in her tone of voice. "Lu Zhiheng hurt his roots the previous time and he can't have a baby. Doesn't she know of this?"

This situation was clearly caused by First Madam herself. How could she not know of this? She merely did not wish to admit it.

Yang Yuelan pretended that she did not detect Zi Yi's mocking tone. "We consumed tons of folk remedies. Zhiheng's body wasn't good from the beginning. After he consumed those medicines, right now... he can't even... he can't even get it to stand up... Mother always claims that it's because I'm old and have lost my appeal. Therefore, she sent her sister-in-law's niece to Zhiheng. I don't know how they did it, but Zhiheng really managed to have intercourse with that woman.

"Therefore, Mother's maternal family is asking Zhiheng to divorce me in order to marry that woman. Wuuu..."

Zi Yi looked at Yang Yuelan who suddenly started crying again. The mocking on her face was even more evident. If her guess was right, they must have given Zhiheng strong medicine.

Sure enough...

"Later, I found out that they fed Zhiheng with a strong vitality drug from abroad. That type of drug... it can only allow his body to be full of vitality for a short period of time. After the effects disappear, he would feel as though all vitality has been sucked out of his body. In order to get him to impregnate other women, she no longer cares for his health anymore."

After saying all these things, Yang Yuelan really started sobbing this time.

Zi Yi finally understood the situation. The reason why Yang Yuelan had disregarded her image as an aristocratic lady and caused a scene like a b\*tch was in fact, because of Lu Zhiheng.

Lu Zhiheng was a man with insufficient abilities but he had great ambition. Moreover, he was not someone with a particularly good personality either. Zi Yi really could not understand why Yang Yuelan was so devoted to him.

This time round, Yang Yuelan cried for nearly three minutes before she stopped and said, "I know we have done many bad things to you in the past. However, we've received our punishment! Zi Yi, I'm begging you. Please save Zhiheng. If he continues like this, he will really be a goner."

Having said that, she stood up and walked to Zi Yi's side before she knelt down with a bang.

Zi Yi furrowed her eyebrows and said crossly, "Stand up."

Yang Yuelan cried and shook her head. "Zi Yi, I'm begging you."

Zi Yi's frown deepened.

Just then, the door to the lounge was pushed open.

Zi Yi and Yang Yuelan turned to look over at the same time.

They saw Lu Jingye looking at Yang Yuelan with a stern expression.

Yang Yuelan was shocked by Lu Jingye's overbearing aura and fierce momentum. She controlled her body so that it didn't tremble, but she found it hard to stand up.

Lu Jingye made his way over.

When he entered the room, the bodyguards behind him closed the door.

“Eldest sister-in-law.”

Yang Yuelan had never heard Lu Jingye’s voice sound so cold and deep. She lowered her head with a pale complexion and dared not make eye contact with him.

Lu Jingye walked over to Zi Yi’s side, lifted her up to her feet, and pulled her as he made his way to the door.

While walking, he said, “Yiyi will not interfere in this matter. Go find Eldest Uncle if you need anything.”

“But I am unable to meet Father!” Yang Yuelan panicked and said in a loud voice, “Mother threatened me saying that if I went to look for Father, she would kill my whole family. Zhiheng also prevented me from looking for Father.”

“That’s your own business. If you really want to save Eldest Brother, you should know what to do. Don’t think of coming to us, this has nothing to do with us.”

“Second Brother, Zi Yi, are you really going to be so heartless? Are you going to just watch on as Zhiheng gets ruined by his Mother?”

Zi Yi and Lu Jingye had already reached the door by then. With one hand, he held Zi Yi’s hand while his other hand was placed on the doorknob. He turned around and said in an extremely cold tone of voice, “What does this have to do with us?”

With that, he opened the door and left the room with Zi Yi.

Yang Yuelan looked at the door that was closed shut and collapsed on the ground in despair.

“I didn’t expect Eldest sister-in-law to find her way here.”

While they were in the elevator, Zi Yi furrowed her brow and said, “I really don’t know if I should say that she’s smart or stupid. She doesn’t dare to look for Eldest Uncle and instead, she came looking for us. HA!”

Lu Jingye was holding onto her hand all the way and he said with a serious expression, “You don’t have to care about these matters. If you encounter her again in the future, get the others to chase her out.”

Zi Yi nodded her head, but she still asked, “Say, do you think Eldest Aunt is mentally ill? She clearly knows that Lu Zhiheng’s body can’t take it anymore and yet she’s still treating him like that.”

“She wants Eldest Brother to have an offspring so that she would be able to return to the Lu Family.”

Zi Yi was simply stunned on the spot.

“In order to return to the Lu Family, she doesn’t even want her own son?”

Lu Jingye said with a frown, “You won’t be able to imagine what she is planning to do.”

“What?”

The elevator reached the top floor and both of them stepped out.

There was no one in the corridor at this time. Everyone was clearly very busy.

Lu Jingye led Zi Yi into his office. After closing the door, he said, "Eldest Aunt has been trying to condition her body recently."

"Why does she need to condition her body? Don't tell me she's planning to return to the Lu Family and have another child with Eldest Uncle?"

"Yes."

"..."
