Chapter 961 A's Figure Is So Good

What the Eldest Madam was doing had refreshed Zi Yi's understanding of human nature. In fact, she had no idea what she should say. "Will someone like that not even realize their mistake even when they're on their deathbed?"

"It's possible they won't."

Lu Jingye held her hand and walked toward the sofa.

After they both sat down on the sofa, Zi Yi turned around and hugged his arm, leaned her head on his shoulders, and asked, "Ah Jing, are you going to work late again today?"

Lu Jingye looked at the small head rubbing on his shoulders. He tightly held her hand and said, "I'll come back home tonight."

Zi Yi was delighted to hear that. She raised her head and said, "Don't exhaust yourself too much. We are already very rich and there's no need for you to work so hard to earn money. If you're tired, you can stop working. It's the same even if I were to support you."

Lu Jingye smiled and he could not help but lower his head and give her a light peck on her lips, before chuckling. "I'll only be busy during this short period of time. After the babies come out, I'll accompany you and them together."

Zi Yi smiled in response. She then put her arms around his neck and spread her legs over his lap to straddle him. Her cheeks were touching his as she said, "In that case, I'll also clear out my time for the month the babies are coming out. We'll raise them together when the time comes."

"Ok."

Zi Yi rubbed her cheeks on his. She found it amusing and so, she continued rubbing. All of a sudden, she asked, "Ah Jing, when the babies come out, should I feed them personally or should I feed them with refined milk?"

Lu Jingye held his waist. His gaze lowered to a certain part of her body and his voice slightly deepened. "Can you feed them?"

Zi Yi thought for a moment and said with uncertainty, "I think so."

In the interstellar era, there was no such concept of breastfeeding. All the babies were fed with the most nutritious refined milk. She had been reading some books and watching some videos about this subject and so, she became curious.

Lu Jingye knew what her thoughts were the moment he heard the tone of her voice. His palm moved to her back and he moved forward. "You can give it a try."

"Mhmm..."

Zi Yi softly moaned and tilted her head. Both their lips touched each other.

...

After a short period of intimacy, Lu Jingye continued to work. Zi Yi then turned on the virtual screen, reduced it to the size of a tablet, and started to swipe around.

After swiping for some time, she suddenly asked, "Has everything ended on Yunxiao's side?"

While typing on the keyboard, Lu Jingye answered, "He'll be back in a few days' time."

"Country A lost quite a number of higher-ups this time. In the following period of time, they should be more down to earth."

Even if they aren't down to earth, she wasn't worried about their side at all. What she was paying attention to was the male worm's side.

Lu Jingye looked up from his screen and asked, "The higher-ups gave me a call yesterday. They mentioned some of the researchers from Country D are still in the capital. Do you want to take them in?"

Zi Yi snorted and she did not want to talk about this at all.

How could Lu Jingye not know of her temper? In the end, he did not continue talking about this topic. Instead, he changed the topic and said, "Yunxiao's side managed to rescue a few individuals who were locked up by the male worm in Country A's space station. However, many missing individuals are not there. They should have been taken to outer space by the male worm."

"Mhmm." Zi Yi nodded her head. "After Eldest Uncle and the rest come out, we'll travel to the nearby planets to search. It just so happens that we can see what good things they managed to find in the nearby galaxies."

Speaking of this, Zi Yi smiled happily and said, "The worm race has a sensitive sense of smell. Through the sense of smell, they are able to locate special materials that we can only find with the help of detectors. If they really manage to find the raw materials used for building spaceships meant for long-distance travels, we might be able to take advantage of them and steal them too."

The reason why Zi Yi had not sent out any spaceships to chase after the male worm was because of this.

She had yet to find the materials used to build the detectors that could detect special energy resources. Therefore, it was a pretty good plan to make use of the male worm and his kin.

Soon, it was noontime.

After they finished lunch, Zi Yi originally planned to continue staying in Lu Jingye's office to accompany him as he worked, so she did not expect to receive Little Loli's video call all of a sudden.

Little Loli was crying and sobbing over the call. "Wuuu... sister... A's body was repaired, but he doesn't recognize me anymore. Was his data reformatted?"

Zi Yi was a little surprised. She thought for a moment and said, "I'll come over and have a look."

Little Loli and A had been staying in her villa near M.Uni ever since they returned. A's new body was built with the new materials developed by the [Futuristic Energy Technology Company]. As there were several key parts that had complicated processes, they ended up waiting for some time.

After Zi Yi ended the call with Little Loli, she looked up at her man that was working hard.

Lu Jingye immediately sensed her gaze. He looked up from the screen and asked her what happened with his eyes.

"Ah Jing, I'm making a trip down to our house near M.Uni."

Having said that, she stood up and walked to his side. After she reached his side, she lowered her head and gave him a peck on the cheek. "Don't forget what you promised me. Come back home early tonight. I'll be waiting~"

Lu Jingye raised his hand and touched her cheeks. "Ok. I'll come back home for dinner tonight."

Zi Yi was elated and so, she kissed him on the lips before she left.

When Zi Yi arrived at the villa, Little Loli pounced toward her right away. "Sister, A doesn't recognize me anymore. Wuuu~"

Zi Yi pushed her away and asked, "A is awake?"

"En, he woke up just moments ago. I asked who he was but he's not responding. If it were in the past, he would say I'm an idiot."

"..." Zi Yi looked at Little Loli speechlessly before she headed to the basement.

Little Loli hastily followed her and explained to Zi Yi about A's reactions after he regained consciousness. "I asked him a lot of questions but he's not responding at all."

Zi Yi chose to be selective in terms of trusting what Little Loli said and she did not answer her either. Instead she walked to the laboratory A was in. After opening the door, Zi Yi and Little Loli made their way inside.

A was currently lying on the operating table and there was a virtual screen floating next to him. The screen reflected the data of his physical functions.

Zi Yi walked to A and he opened his eyes to call out, "Master."

Zi Yi nodded her head and asked him several questions in succession.

A answered all her questions in a serious manner.

In the end, Zi Yi looked at Little Loli from the corner of her eye and said to A, "All your functions have been repaired and are in their optimal state. You can get up."

A sat up from the bed right away.

His body was exactly the same as that of an adult man. Currently, he was only wearing a pair of undergarments. Little Loli screamed and used her hand to block her eyes. "Ahhh... my eyes are going to be blinded! Ahhh! A's figure is so~ good."

Zi Yi's mouth twitched and said to A, "You and Little Loli can continue managing the bar moving forward."

"I understand, Master."

Little Loli finally reacted. She put down her hands that were not blocking her sight in the slightest and looked at A with a discontented expression. "A, you didn't lose your memories. You big fat liar!"

With that, she headed in A's direction and acted as though she wanted to hit him.

A subconsciously grabbed her wrist.

Little Loli took advantage of the situation and fell on A. She then staged a fake accident and said affectionately, "Ahh~ A, you're hurting my weak hand... Wuuu."

Chapter 962 Miss Zi Yi Is Finally Going To Meet Us?

Zi Yi looked at Little Loli who was putting on a pretense and she finally understood why A pretended not to know her.

Zi Yi looked at A. She suddenly couldn't remember if she had installed an emotion system for him or not. Looking at his cold, mechanical expression, she could not discern anything.

Just then, A spoke. "Get up."

Little Loli pouted and said, "I'm not getting up. You big fat liar. I thought all your memories were reformatted. I was almost going to bawl my eyes out."

The corner of Zi Yi's lips could not help but twitch upon hearing what Little Loli said.

A still had the same ice-cold expression. He looked at Little Loli and said again, "Get up."

Little Loli simply put her arms around his waist and said, "I'm not getting up."

In the end, the two robots confronted each other just like that.

Zi Yi looked at them for some time and said, "I'll wait for you guys upstairs."

With that, she turned around and left.

Not long later, there was the sound of footsteps coming from behind her.

Zi Yi turned around to take a look and she nearly burst out laughing.

When Little Loli acted shamelessly, she was really unparalleled on this front. She had actually sat straddled across A's thighs. In the end, A carried her along the way.

When the three of them walked into the living room, the housekeeper robot had already prepared their clothes.

A wanted to get dressed, but Little Loli still refused to come down.

This time around, A forcefully pulled her off and walked away.

Little Loli pouted unhappily and sat down next to Zi Yi.

Zi Yi said, "I feel that A has been treating you alright."

"How is that treating me well!" She pointed a finger at herself and looked as if she had suffered great grievance.

Zi Yi asked, "How does A usually treat other people?"

Little Loli thought about it and said, "He's very authoritative in front of the staff. When attending to the customers, he gives off an aura of an overbearing president."

Speaking of this, she held her cheeks and looked infatuated. "A is so manly when he's working~"

Zi Yi: "..."

However, Little Loli also finally reacted again. She put her hands down and there were stars shining in her eyes. "I feel that A treats me differently than how he treats the rest. Other people dare not approach him, but I can. Moreover, A isn't particularly cold to me."

Zi Yi thought to herself, "From which aspect did you identify that he's not treating you coldly?"

Just then A came out of the room after changing into a set of new clothes. He walked towards Zi Yi and said, "Master, I'm going to work right now."

Zi Yi and Little Loli stood up at the same time.

Zi Yi said, "Let's go. I'll go and take a look too."

The three of them went to the bar together.

It was not yet time for the bar's operating hours and so, the bar street was very quiet.

"I haven't been here for a few months. Why do I feel that the bar street feels a little different from when I left?"

"How is it different?"

Zi Yi did not notice anything.

Little Loli pointed to one of the bars and said, "Sister, look there. The light sign of that bar has changed. It looks a little newer than before."

Zi Yi: "...Ok..."

When they walked into the bar, the robots inside were already in the midst of working.

A summoned for all the robots to gather together.

The three of them listened to the management robot's report.

Sometime later, a management robot said, "Recently, several individuals have been patronizing the bar every day. These people are particularly curious about this bar and they would look around every day. However, I did not detect any malicious intent from them."

"Who are they?"

The moment Zi Yi asked, the management robot waved his hand. A virtual projection of several individuals was shown.

Zi Yi furrowed her eyebrows and said, "To think it's them."

Little Loli and A also knew them.

Little Loli giggled and said, "Master, I think that Major General Runge must have used some means to get the tickets these people have been using to enter the bar."

It was impossible for them to visit the bar every day unless they had some backing behind them.

Zi Yi's expression turned taut.

A asked, "Master, if these people show up again today, should we chase them away?"

"No need." In fact, what Zi Yi disliked was just Runge's attitude. She had been leaving these people hanging for half a month. In the end, she said, "I'll meet them later."

At around 4:30 p.m., the quiet bar street started to get busy.

All the bars were open for business.

Sure enough, the researchers came in when the bar was open for business.

Today, as usual, they started to analyze the various technologies inside the bar the moment they stepped inside. However, this time around, they were stopped by a robot.

"Everyone, my boss is asking to meet you."

The moment they heard the robot using the word 'boss' they were momentarily stunned. Subsequently, they became excited.

"Miss Zi is finally willing to meet us?"

"That's fantastic."

Zi Yi was currently waiting for them in a private room.

When the researchers made their way in, she did not stand up to receive them. She merely said, "Sit."

The researchers walked over and sat down in front of her.

A researcher named Ika immediately raised a question. "Miss Zi, why did you refuse to meet us for such a long time?"

Zi Yi laughed at his question. Instead of answering, she asked, "There are many countries trying to send their people here and I refused all of them. You all came here uninvited, why should I meet you?"

Ika was speechless.

Smith continued to ask, "Zi, your aviation research center was just established, and isn't right now the time where you are in need of staff? I don't understand why you are shutting us outside."

Zi Yi said, "I am indeed in need of staff, but I dislike those who came with a motive in mind."

Smith still did not understand her. "Aren't you cooperating with our Major General Runge? I don't think we are counted as coming here with a motive in mind?"

Zi Yi sneered. "You didn't come here with a motive, but I just don't like Runge."

The researchers: "..."

Therefore, this was the reason why she refused to meet them for such a long time.

They didn't expect Zi Yi to be someone like that!

However, they certainly would not make any comment at this moment. Smith continued to speak, "I think that since Miss Zi is willing to meet us now, you must have decided to allow us into your aviation center... We are all prepared and we can make our way over anytime."

Zi Yi shook her head. "You can't go there yet. You need to wait for at least another ten days."

"Why?"

"You need to undergo a month of special training to head to my aviation center. The first batch has yet to come out, you can only join in with the second batch."

"We still need to be trained?"

The researchers were in disbelief.

What joke was that? They were all the most powerful spaceship researchers in Country D. They weren't in need of any training and it was considered the luck of others if they were the ones who provided the training!

"Miss Zi, I feel that we don't need any training."

"That's right. If there is anything we are unaware of, no one else in this world would know."

Looking at the confident researchers, Zi Yi did not contradict their statement either. She only said, "If you want to go to my aviation center, you must follow my arrangements. If you think that you are unparalleled in the world, why are you still trying to enter my aviation center?"

"Aren't we here to help you?"

"Who said that? Runge?"

"..."

No one dared to answer that. Major General Runge only sent them over and he did not make such comments.

Zi Yi snorted coldly. "You can think it over. You must undergo training to enter my aviation center. Otherwise, you can go back immediately."

Chapter 963 Encountering an Acquaintance In the Bar

Even though the researchers felt uncomfortable, they still agreed to Zi Yi's request. After all, they were sent here on orders and if they were unable to enter Zi Yi's aviation research center, they would not be able to return to the country.

"I'd like to see what she has that we aren't aware of!"

The moment Zi Yi left, the researchers started to express their dissatisfaction.

"We have been studying spaceships for so many years and made Country D the top in terms of spaceship technology. She's just a child with a little skill and she's already thinking of commanding and ordering us around. She needs to reflect on herself and whether she has the ability to do so or not."

"I wonder what Major General Runge was thinking? We are all capable of doing what Zi Yi knows. Why did he send us here?"

"That's right. We are on the verge of successfully developing the technology for humans to reach and land on several major planets. Is Major General Runge planning to hand over the technology to them?"

"Let's have a look first. Didn't she say that the first batch of trainees would be ending their training in ten days? I'd like to see what kind of training they went through."

"The technology in their country is decades behind that of ours. I feel that it's more beneficial for us to provide training to those people."

"Oh well, we can't help it. Ultimately, we're here on orders."

All of them were thinking about the same thing deep down inside. They'll just pretend and casually attend the training for a day or so.

Subsequently, they would reveal their capabilities. Wouldn't Zi Yi be then forced to allow them access to the core laboratory in the end?

...

After Zi Yi finished the conversation with the researchers, she did not linger and took her leave.

She was well aware that the researchers were feeling dissatisfied. However, she did not wish to explain too much at this point in time.

After she left the private room, the bar was already particularly crowded by this time.

Little Loli followed behind her and asked, "Sister, do you want to stay here and hang out for a short while?"

Zi Yi checked the time. It was going to be dinner time soon. "No, I'm going back home to eat."

With that, she headed towards the exit.

However, after she took a few steps, someone called her name from the side.

Zi Yi turned her head to look. She was a little surprised to see the person who called out to her. "Situ Qin, why are you here?"

Situ Qin smiled at her and said, "I came here with my friends to have fun."

Having said that, she pointed in a certain direction.

Zi Yi looked in the direction where she pointed.

Situ Qin had pointed to a booth.

Inside the booth sat four guys and a girl. They were all looking in their direction. When they saw Zi Yi looking at them, they revealed excited expressions.

Zi Yi nodded in their direction before she turned back to Situ Qin.

Situ Qin said, "They are my partners. We opened a LAN shop."

Zi Yi nodded her head. "That sounds good."

Situ Qin said with a smile, "Indeed. This kind of work is very flexible. I can basically work from home, take care of my Grandfather and earn some money too at the same time. It's much better than doing nothing."

Zi Yi thought of Situ Feng and asked, "Your Brother's salary should be good. In fact, you don't have to work."

Situ Feng was following Lu Yunxiao and Zi Yi heard from Lu Jingye before that the Lu Family's secret guard's salary and treatment were pretty good.

Situ Qin smiled shyly. "My Brother's money is earned with his life at stake. I have to save up for him so that he'll be able to marry in the future."

Zi Yi smiled after hearing that. "You can give me a call if you need anything in the future. If your LAN shop were to encounter any trouble, you can also look for me."

"No need, no need. We are only a small business, there's no need to trouble you."

Since Situ Qin had said so, Zi Yi did not insist either. She asked about her Grandfather's current condition.

"Grandfather is in good health. He likes to walk around M.Uni every day and he also got acquainted with many university teachers and professors."

"Not bad. It's also good to let him work out."

"Mhm. Then... I shall not bother you anymore."

"Ok. Have fun with your friends. I'll have your expenses waived."

"Oh, there's no need for that!"

Zi Yi did not say anything else and walked away with a smile.

However, she still waived their bill when she was making her way out.

After Zi Yi left, Situ Qin walked back to where her friends were gathered.

Her friends were looking at her with excited expressions.

“Situ Qin, I didn’t expect you to be acquainted with Boss Zi.” Zhang Ya was so excited that she pulled Situ Qin to sit down. “Tell us, how did you meet Boss Zi?”

Situ Qin gave them a brief explanation. “Miss Zi is my Grandfather’s attending doctor.”

“Wow... Situ Qin, what kind of background does your family have? You even got Boss Zi to treat your Grandfather.”

Situ Qin subconsciously felt that she cannot reveal her family situation. Her Brother was currently working under the Third Young Master Lu and he was involved with dangerous work. If she revealed it and someone with ulterior motives were to know of it, wouldn’t it cause harm to her brother?

In the end, she gave a brief explanation. “Didn’t I tell you before? I’m from the countryside. It just so happened that Miss Zi was treating patients with an incurable disease in one of the affiliated hospitals of the Medical University. We met there and we requested her to help treat my Grandfather. It could be because my Grandfather’s illness was considered a tough one to treat, so she agreed.”

“So that’s the case. Your Grandfather is so lucky.”

“That’s right. Miss Zi is the benefactor of our family.”

“Then...” Zhang Ya’s eyes flashed and she continued asking, “Since Boss Zi is treating your Grandfather, you must be in contact frequently, right?”

“Not really. Miss Zi’s medical skills are superb and she has only seen my Grandfather a few times. Right now, my Grandfather only needs to slowly recuperate.”

The others quietly made eye contact with each other.

Even though Situ Qin said that, they still felt that she must be close to Zi Yi.

If Zi Yi were to casually say something and help them, their shop would definitely be the most popular one.

When the time comes, wouldn’t money be rolling in?

At the thought of this, they started acting more enthusiastically toward Situ Qin.

...

By the time Zi Yi returned to the villa, Lu Jingye had yet to come home.

Zi Yi ended up following Mrs. Lu around and watched her prepare milk pudding for dessert in the small kitchen.

Mrs. Lu passed her the freshly made pineapple pudding and said, “I had someone make a trip down to the countryside to catch an old pigeon to make soup with. Tonight, you and Jingye should drink more. Look at you, you’ve lost so much weight in just a few months.”

Zi Yi buttered up to Mrs. Lu while she ate the pudding. “Mom, the soup you prepare is the yummiest. I want to drink two bowls tonight.”

Mrs. Lu was delighted deep down inside. She then fed a piece of pastry she had made to Zi Yi.

Lu Jingye who was standing by the kitchen door was also smiling. Just as he was prepared to head upstairs to wash up, Zi Yi turned around.

Zi Yi saw Lu Jingye standing by the door and her eyes were beaming with joy. "Ah Jing, you're home."

With that, she held the pudding and came over.

Lu Jingye nodded his head and said, "I'll go wash up first."

Zi Yi followed him. While walking, she scooped up a spoonful of pudding and fed it to him.

Lu Jingye ate it and said, "It's too sweet."

"How is it sweet? It's clearly pineapple flavored."

Zi Yi knew that he was not fond of sweet food and so, she did not continue feeding him.

Both of them made their way upstairs together.

Chapter 964 I'll Satisfy Your Wish As to How Many Little Ones You Would Like To Give Birth to

When they entered the bedroom, Lu Jingye went to wash up, while Zi Yi leaned against the door frame and ate her pudding as she looked at him.

Lu Jingye washed his hands and face, and made his way over. Zi Yi raised her chin and gave him a mischievous look. "Mom said that we lost weight after coming back from the trip. Why don't I write a prescription for Mom and get her to prepare some tonic soup for you?"

Lu Jingye propped himself against the doorframe above her head and leaned down to look at her. His voice was slightly dim. "If you wish to get pregnant again before the babies come out of the nutrient solution, I don't mind drinking more of those tonic soups."

Zi Yi was stunned for two seconds before she reacted. She laughed cheerfully, put one arm around his neck, and pulled him closer. "Previously, Ian said he and Dou want more babies than us. Say, do you think we should compete with them?"

Lu Jingye's other hand held her waist and he pulled her into his embrace. His chin rested on the top of her forehead and he released a low chuckle.

After he finished laughing, he said, "Let's wait for the babies to come out first and we'll talk after you experience taking care of them. If you can handle it, I'll definitely satisfy your wishes as to how many little ones you would like to give birth to."

Zi Yi laughed out loud happily.

Both of them hugged for some time before Lu Jingye released her and they made their way downstairs.

By the time they came down, dinner was already prepared.

Second Master Lu had come back home when they went up to their bedroom. Not only was it him but Third Master Lu was also around.

At the sight of them, Third Master Lu cheerfully laughed and said, "It's been so long since I've been able to see you two busy individuals. I didn't expect that I would meet you two today."

"Third Uncle," Zi Yi and Lu Jingye called out to him in unison.

Third Master Lu nodded his head with a smile and asked, "Little Zi has been busy these days. Are you less busy now?"

"It's manageable. I have more free time compared to the previous period of time."

"That's good."

"Time for dinner."

Mrs. Lu brought out the soup she had prepared to the dining table and she called for them.

Everyone then made their way over.

Third Master Lu started talking about the recent events in the military.

"The use of our military science combined with the warfare the previous time has allowed the whole world to know of China's prowess. In recent days, there have been several countries suggesting that we should conduct a simulation exercise. I'm here today to look for Little Zi."

Zi Yi, Lu Jingye, and Mrs. Lu turned to look at him.

Second Master Lu knew of this beforehand, so he did not say anything.

Mrs. Lu furrowed her brows. "Yiyi just returned home and she has yet to get any rest. Why are you coming here to look for her? Isn't this related to the military? It has nothing to do with her."

In fact, Mrs. Lu was a little unhappy that they would look for Zi Yi as and when they like.

Third Master Lu understood Mrs. Lu's meaning this time and he hastily explained, "Second sister-in-law, you've mistaken my intentions. I did not come here to request for Zi Yi to join the team. I was trying to invite her to take some time out to train the individuals related to this field. The simulated warfare is not entirely based on using cutting-edge technology, it also involves actual combat."

"Can't you find those people who fought together with Yiyi to defend against those from Country A?"

"They have already returned to the North West. I was thinking that since Little Zi just so happens to be in the capital, I could come and check to see what she thinks in passing. If Little Zi is really unable to spare some time, we can forget about it."

With that, Third Master Lu started to eat. After he ate a bite, he continued speaking, "I am planning to get Little Lu to participate."

Mrs. Lu disagreed with him. "Little Lu is only 20, isn't it too early?"

After all, it was normal for one to be injured or encounter an accident during this type of simulated warfare exercise. Mrs. Lu was a little worried.

“He’s not young anymore.” Third Master Lu said, “I stepped into the battlefield before my twenties. He’s already 20 years old now.”

“How can it be the same? Little Lu is studying in military school while you were in a fast-track military program.”

“He’s more educated than I am. He’ll definitely be better than I am.”

After Third Master Lu said that, Mrs. Lu did not say anything else.

Zi Yi did not immediately give an answer, as she was considering it.

Subsequently, they casually chatted about other matters while eating.

While chatting, they mentioned the first house.

“Eldest Brother went abroad during this period of time and those in his family are about to flip the heavens and earth.”

Third Master Lu said, “I heard from Yuhua (Third Madam) that Yuelan is getting bullied by Eldest sister-in-law and Zhiheng, and it’s getting overboard.”

Even though the First Madam threatened Yang Yuelan, not allowing her to mention Zhiheng’s matter in front of Eldest Master Lu, Yang Yuelan would often return to the main residence to stay.

Eldest Master Lu was preparing for the trip abroad and so, he had spent most of his time at the office. As a result, she rarely got to meet him.

Mrs. Lu also knew of what had happened in the first house. Speaking of this, her expression did not look good. “That type of person really won’t give up until they meet their maker. I wonder what Eldest Brother is thinking? I don’t believe he isn’t aware of this.”

“Who knows? Eldest Brother had previously pushed back a business trip abroad for the Lu Group in the past. So I think he has put all his energy into work this time around.”

In fact, Eldest Master Lu’s train of thought was more or less similar to Patriarch Lu’s. Old-fashioned and stubborn.

He felt that since he was the eldest in the family, he had to uphold the might as the eldest. The previous time he pushed back the trip, the higher-up called for a meeting with him. In fact, he was worried that he might get demoted.

Speaking of this, Zi Yi revealed to everyone the incident where Yang Yuelan came to the Lu Group.

Mrs. Lu’s expression turned ugly after hearing the story. “She actually dared to get you involved?”

Second Master Lu also said, “You two shouldn’t get involved in this matter. Eldest Brother will naturally take care of Eldest sister-in-law in due time.”

Zi Yi did not quite understand. “Things have escalated to such an extent, why doesn’t Eldest Uncle divorce Eldest Aunt?”

She felt that the First Madam was relying on the fact that Eldest Master Lu would not divorce her and so, she dared to go to such an extent.

Second Master Lu and Third Master Lu's expression sank at her question.

Third Master Lu said, "Eldest Brother will never divorce Eldest sister-in-law."

"Then is he going to look on helplessly and see Eldest Brother getting ruined by Eldest Aunt?"

"Zhiheng is just confused and blind."

After Third Master Lu said that, he continued eating.

Lu Jingye also grabbed some food for Zi Yi to eat.

Zi Yi did not continue asking further.

After dinner, they moved to the living room and chatted slightly about the military exercise. Third Master Lu left after that.

When Zi Yi and Lu Jingye returned to the bedroom, Zi Yi said, "When the time comes, I can give Lu Ming personal training."

Lu Jingye nodded his head and held her hand. "It's up to you. If you dislike it, you don't have to help."

"Mhmm."

...

Soon, the First Madam learned of the incident where Yang Yuelan went looking for Yang Fei in the Lu Group building.

The First Madam went looking for her and gave her a tight slap.

PA!

"Do you think by doing so, you can find someone to back you up? B*tch, I'm telling you. Even if they back you up, it's still your fault if you can't give birth to Zhiheng's child!"

Yang Yuelan covered her wounded cheek and her eyes glistened with tears and deep disappointment. She looked at the First Madam who no longer provided her any love and concern. A smile curved up on her lips. "Mother, you are Zhiheng's Mother. But just for your selfish desires, do you really intend to ignore his well-being?"

Chapter 965 Why Is Someone Like You a Lu Family Member?!

Right now, the more she looked at Yang Yuelan, the more the First Madam disliked her and felt that Yang Yuelan brought bad luck.

"If it weren't for your inability to give me a grandson, would I have done this? It's precisely because Zhiheng doesn't have a child that his Father unleashed his anger on me instead. If Zhiheng has a child, his Father will forgive me."

Yang Yuelan was stunned by how thick-skinned the First Madam was.

“Mother, even now, do you still think it’s because of me that we don’t have a child?”

Yang Yuelan respected the First Madam greatly in the past and would obey everything she said. She never contradicted her. However, after she went to the Lu Group and received a cold shoulder from Zi Yi and Lu Jingye, the last string in her heart had snapped.

She shouted with reddened eyes, “If not for you, would our family fall to its current plight?!”

“What did you say?” The First Madam simply couldn’t believe that Yang Yuelan would talk to her like this. Her facial expression distorted in anger and she raised her hand to hit her.

This time around, Yang Yuelan grabbed her wrist.

Yang Yuelan revealed a fierce expression. “Mother, can’t you see the reality? The Chu Family has fallen. If not for our Yang Family, do you think you can still do such things in front of me? I allowed you to do as you please because I care too much about Zhiheng.”

The First Madam was stunned due to Yang Yuelan’s expression. But in the next second, her heart was filled with anger and she lost all reason.

“You b*tch! So this is how you’ve viewed me! It’s no wonder you’ve been preventing Zhiheng from having children with other women. My family has indeed fallen, but who do you think the Yang Family is? Even if my family has fallen, it’s still better than yours!”

Having said that, she wanted to scratch Yang Yuelan.

Yang Yuelan also exploded. “Don’t think I don’t know your thoughts of trying to kill Zhiheng and have another child with Father. Do you think you can still live a good life after making us suffer? In your dreams!”

Both of them got into a fight just like that.

They were both attacking each other without holding back as if they wished to kill the other party.

By the time other people knew of this incident, the First Madam and Yang Yuelan were already lying in the hospital.

Second Master Lu and Third Master Lu went down to the hospital.

Second Master Lu reprimanded the ghastly-looking Lu Zhiheng who was standing next to the bed without the slightest care and concern about the two women.

“Look at you, what have you done to your family members?!”

Right now, Lu Zhiheng was basically acting like a spoiled child from a wealthy family. He radiated a depressing aura and he looked at the two women with a look of indifference. “What does this have to do with me?”

“You...”

Second Master Lu knew that it was useless to hit or scold him at this point in time. He said with a deep voice, “Do you feel that they have nothing to do with you now and that you don’t care about anything?”

“Yeah, so what do you want to do with me?”

After hearing this, Third Master Lu was infuriated and he shouted, “Since that’s the case, why are you still living in this world? Since you don’t care about anything, you might as well die. We can still save your portion of food for someone else.”

Lu Zhiheng looked at Third Master Lu and acted as though he had nothing to fear. “Why should I die? I can do what I couldn’t do in the past. She prepares many different women for me, while she also gives me tons of money to spend around.”

Firstly, he pointed at the Eldest Madam and then at Yang Yuelan. There was a proud smile on his face. “In the past, I could only be compared with Lu Jingye and think of all sorts of methods to obtain the Lu Group. I only came to realize that it’s basically a bottomless pit. However, right now, I don’t have to think of anything or do anything. These two women will take care of me and make arrangements for me. I have both money and women. What an enjoyable life this is.”

Having said that, he burst out laughing happily.

Second Master Lu and Third Master Lu were so angered by his behavior that they wanted to slap him to death. Third Master Lu could not hold back and said, “Motherf*cker, why is someone like you a Lu Family member?!”

BANG!

“Ugh...”

Third Master Lu did not control the strength behind his punch and Lu Zhiheng’s body slowly fell down after receiving the punch. If not for the fact that Third Master Lu noticed something amiss with Lu Zhiheng’s expression, he would have given him another kick.

However, this punch from Third Master Lu alone had nearly taken Lu Zhiheng’s life.

After Lu Zhiheng’s body heavily crashed on the ground, he immediately revealed an extremely painful expression. His body curled up and convulsed, and blood poured out of his mouth.

At the sight of Lu Zhiheng’s condition, Yang Yuelan who was seriously injured and lying on the bed suddenly climbed down. She disregarded the needle on the back of her hand by pulling it off roughly, and then staggered toward Lu Zhiheng. She knelt down and hugged his head while releasing a heart-wrenching scream. “Zhiheng, Zhiheng, are you alright?”

Lu Zhiheng’s body was convulsing in pain and he could not answer her at all.

Yang Yuelan’s complexion turned pale due to fright. “Zhiheng! Zhiheng! Don’t scare me, please! Where are you hurting... the doctor! Right, I’ll call the doctor for you right away! Wuuuu... I’ll call the doctor!”

Second Master Lu and Third Master Lu also realized that Lu Zhiheng’s condition seemed to be pretty serious. Second Master Lu hastily went to open the door and got someone to call for the doctor.

In the midst of the chaotic situation, Lu Zhiheng was pushed into the emergency room.

Second Master Lu and Third Master Lu were standing outside the emergency room.

Third Master Lu was also feeling a little regretful for his earlier rash actions. He covered his face with his hand and asked Second Master Lu, "Second Brother, what should I do if something bad happens to Lu Zhiheng due to my punch?"

Second Master Lu was silent for a moment before he said, "Let's wait and see what the doctor says."

No matter how angry they were with Lu Zhiheng, he was still a member of the Lu Family. If something bad really befalls him, they would feel uneasy.

Yang Yuelan was sitting in a corner and crying continuously. Her body was covered with scratches caused by the First Madam, while her hair was a bird's nest all over. Coupled with her current condition, her appearance looked terrifying.

Inside the emergency room.

Several doctors were operating on Lu Zhiheng.

Sometime later, an assistant shouted, "No good, the patient's heartbeat has stopped."

The doctor's expression changed in an instant. The attending doctor steadied himself and said to the assistant, "Quick, give Elder Tang a call. We are unable to rescue this man."

Fortunately, Elder Tang happened to be in the hospital and he quickly made his way over upon receiving the call.

When he walked out of the elevator, Second Master Lu and Third Master Lu, who were standing outside the emergency room, asked, "Elder Tang, why are you here?"

"Is Zhiheng's condition very serious?"

The assistant inside the emergency room had already opened the door and was waiting for Elder Tang to enter.

Elder Tang had no idea of the specific situation as of now and so, he said, "Don't be too anxious yet, I'll go in and have a look."

Speaking of this, he paused for a moment and said to them, "I've heard about the previous condition of this patient. I feel that there might be a full-blown explosion happening inside his body and I might not necessarily be able to rescue him. You all had best give Little Zi a call and get her to come over right now."

Having said that, he did not wait for their response and made his way inside the emergency room.

The door to the emergency room was closed after that.

Chapter 966 Zi Yi, You Must Save Zhiheng

Third Master Lu furrowed his brows and he looked at Second Master Lu.

"Second Brother..."

As soon as he opened his mouth, Yang Yuelan, who had overheard Elder Tang's conversation with them, rushed over and knelt before them.

"Second Uncle, please give second sister-in-law a call. Please save Zhiheng, I beg of you."

She then heavily kowtowed in their direction.

"Second Uncle, I beg of you. No matter what mistakes Zhiheng has committed, he's still a Lu Family member. Are you really going to watch him die without doing anything?"

Second Master Lu furrowed his brows. It was true that he disliked this nephew of his and he also hated his previous behavior, but ultimately, he was a Lu Family member and also his Eldest Brother child. Now that his Eldest Brother was overseas, he could not really watch on the sidelines and see something happen to the child.

At the thought of this, he took out his phone and gave Zi Yi a call with a gloomy expression.

Zi Yi was currently having a video call with Nangong Yu. He had encountered some problems on his side and Zi Yi was explaining another method to him.

When she received Second Master Lu's call, she was a little surprised.

She said to Nangong Yu, "Hold on, I need to go answer a call."

With that, she picked up her phone and walked away. After she was out of the living room, she answered the call.

"Father, is something the matter?"

Second Master Lu told her about the situation on their end. Zi Yi only pondered for two seconds before she said, "Ok, I'll be there right away."

With that, she hung up the phone, returned to the living room, and said to Nangong Yu, "I have some matters to attend to and I'll be going out. You can try using the solution I provided you with. If there's anything you don't understand, give me a call."

Nangong Yu said, "Ok. Junior Sister, you can go ahead and attend to your matters."

Zi Yi turned off the virtual screen, turned around, and headed outside.

When she walked to the courtyard, she said to the housekeeper robot, "Pass me the keys for one of the racing cars. I'll be going out."

The housekeeper robot took out a key and handed it to her.

Zi Yi walked over to the cars and unlocked one of them. She switched to flight mode and the car flew into the sky.

When Zi Yi's car flew across the skies of the capital, there were many people who opened their eyes in surprise.

"Heavens, there's a racing car flying in the sky?"

“Why all the fuss? The driver must be Miss Zi Yi. Only she has the ability to get that car to fly.”

“Isn’t that so awesome? Is no one going to control her when she flies in the sky like that?”

“It’s obvious that you’re not a local. Miss Zi has made so many contributions to our country and so what if she is to drive a car in the sky? What’s more, the car hasn’t affected anyone either.”

“What you said makes sense. However, it’ll be great if this type of technology is popularized.”

“It’ll definitely be promoted for sure. I heard that the Lu Group’s Technology side recently acquired several large automobile companies. When the time comes, they will definitely create such cars that are capable of flying in the sky.”

“Just the thought of it alone is so exciting. In the future, I won’t have to worry about traffic jams.”

...

Zi Yi’s car flew past the capital in a flash and it soon disappeared without a trace.

For a one-hour car journey, she only used ten minutes.

The car was directly parked on the top floor of the inpatient building.

After she alighted from the car, she headed to the floor where Lu Zhiheng was located.

When the elevator arrived and she walked out, she was met with Second Master Lu, Third Master Lu, and a few doctors who were waiting for her.

“Zi Yi, you’re finally here.”

Everyone breathed a sigh of relief.

Zi Yi nodded her head in Second Master Lu and Third Master Lu’s direction before she asked one of the doctors, “What’s the patient’s condition right now?”

“He’s in a critical situation. We have already resuscitated him twice.”

While talking, they made their way to the emergency operating room.

Yang Yuelan, who had stood up the moment Zi Yi walked out of the elevator, shouted in a loud voice and said, “Zi Yi, you must rescue Zhiheng!”

Zi Yi turned around and glanced at her. At the sight of her wounds, she knew that she must have gotten into a fight.

As to who she had fought with, there was no need for her to think to know who the other party was.

Zi Yi did not answer her. She turned around and continued talking with the doctors as she walked in.

Yang Yuelan felt a little awkward as she stood there. However, she breathed a sigh of relief.

As long as Zi Yi was willing to save Zhiheng, he would definitely be alright!

Zi Yi was brought to the disinfection room for disinfection. She put on the scrubs and entered the operating room.

Elder Tang was currently standing at the operating table, but his hands were not moving. It seems like he was already at his wits' end.

"Teacher," Zi Yi called out and Elder Tang said, "Little Zi, come over quick."

Zi Yi made her way over.

Elder Tang gave her his position.

Elder Tang said, "Many of the patient's organs have already failed. Besides, during this period of time, he should have eaten quite a number of drugs. It's useless even if an operation is done on him."

Zi Yi quickly checked the data displayed on the medical equipment. Sometime later, she said, "Normal surgery is indeed useless for him."

"Then what should we do?" Another doctor standing on one side asked, "Do we give up?"

Zi Yi thought for a moment and said to Elder Tang, "Teacher, seal the various main acupuncture points in his body. I'll take him away shortly."

"Where to?" several people asked in unison.

Zi Yi did not answer their question.

Elder Tang seemed to have thought of something. He quickly retrieved the silver needles he carried around with him and inserted them into Lu Zhiheng.

Zi Yi started heading outside the operating room.

The others had no idea what she was planning to do and so, they followed her with their gazes.

One of the more quick-witted doctors hastily followed after her.

"Zi Yi, what are you doing?"

They arrived at the door of the operating room and Zi Yi pressed the switch for the door.

After the door was opened, Zi Yi said to Second Master Lu and Third Master Lu, "Father, Third Uncle. Normal treatment methods are unable to cure him. I have to take him away at once."

Both of them did not have the chance to answer when someone else spoke up.

Yang Yuelan who heard what Zi Yi said, ran over in a stagger and questioned her, "What do you mean he's incurable? Do you mean Zhiheng is not going to make it? Why! Aren't you very skilled? Why are you unable to cure him?!"

Zi Yi did not even bother looking at her as she waited for the two seniors to speak.

Second Master Lu had already guessed what she wanted to do and so, he said, "In that case, let's bring him away at once."

Zi Yi nodded her head and turned around with the intention to go back into the operating room.

However, while she was turning around, Yang Yuelan pounced over and said, "Zi Yi, make yourself clear. Is Zhiheng dying? Are you all unable to save him?"

Zi Yi furrowed her eyebrows.

Second Master Lu and Third Master Lu grabbed onto one of Yang Yuelan's arms at the same time.

Zi Yi said, "If you continue causing trouble here, then he'll really be without a cure. If you want him to continue living, you had better shut up."

With that, she walked inside the operating room.

After Zi Yi made her way inside, she said to everyone, "I'll take him away right now."

Having said that, she called out, "Shadow III."

Everyone revealed surprised expressions at the sight of Shadow III's appearance.

"Master."

"Take him back to my laboratory."

"Yes."

Shadow III went over, lifted up Lu Zhiheng and turned invisible immediately afterwards. One man and one robot disappeared in an instant.

Chapter 967 She Killed My Son, I Want Her To Pay With Her Life!

Zi Yi turned around and left.

Elder Tang followed behind her. "Little Zi, I'll go with you."

Zi Yi stopped and said, "I'll be driving a flying car. You should go together with my Father and the rest."

When Elder Tang and the rest reached, Zi Yi had already begun operating on Lu Zhiheng.

It was not exactly considered as her operating on him. It was her robots who were operating.

Looking at Lu Zhiheng who had tubes inserted all over his body, Third Master Lu asked, "Little Zi, are you really able to save Zhiheng?"

"Yes."

Third Master Lu breathed a sigh of relief. "That's good."

This eldest nephew was in such a state because of his punch and if something were to happen to him, he would certainly feel guilty for the rest of his life.

Everyone spectated the ongoing operation for some time and Elder Tang asked Zi Yi, "Little Zi, after the operation ends, can the patient recover naturally?"

"No. He has to be submerged in the nutrient solution for a week."

Elder Tang was silent for a moment before he said with a sigh, "That nutrient solution of yours is indeed an all-cure. It would be great if it could be popularized."

Zi Yi did not continue on this topic. They had discussed this in the past and it was basically impossible to make it available on a wide scale basis for the time being.

After all, there were many medicinal ingredients that could not be mass-cultivated.

At the thought of medicinal ingredients, Elder Tang asked, "Little Zi, how's the progress of those medicinal ingredients you are growing?"

"Some have already sprouted while some are still in their experimental stage."

In order to grow these medicinal ingredients, Lu Jingye had specially found an island with a suitable climate for her. Everything there was fully managed by robots and Zi Yi would only casually check the progress through a video call. She had never been there in person before.

"Since they are in the experimental stage now, it means they will mature soon. In the future when you release this nutrient solution to the public, it will surely benefit all mankind."

Zi Yi smiled. Even if this nutrient solution was released, it was impossible for it to be adopted on a wide scale, as the cost was too high.

Everyone waited until Lu Zhiheng's operation was over and he was submerged into the nutrient solution, before they left.

While they sat in the living room, Zi Yi and Elder Tang discussed a short while about Lu Zhiheng's future treatment. Subsequently, he returned to the hospital.

After all, he was on shift today.

After Elder Tang left, the other three individuals were still seated. Third Master Lu said, "Even if Zhiheng is cured, I don't think we can allow him to go on like this. Since Eldest Brother has no time to take care of him, as Zhiheng's uncle, I can't possibly watch by the sidelines."

The Third Madam Lu had mentioned to him about Lu Zhiheng's matter before. In the past, he hated Lu Zhiheng to the extreme and could not even be bothered to listen to any information related to him. However, after today's incident, he came to his senses.

No matter how naughty the child is, he is ultimately a member of the Lu Family.

Second Master Lu asked Zi Yi, "Little Zi, are you able to cure Zhiheng's fertility?"

Zi Yi thought about it and said, "Even if I cure all the various functions of his body, if he were to continue acting as he did in the past, it's impossible for him to have kids."

Second Master Lu and Third Master Lu went silent.

Sometime later, Third Master Lu asked, "In that case, what do you think we should do?"

Zi Yi already had an idea when they came back. "Why don't we send him to the military camp. Like this, he can train his body and change those bad habits of his."

Third Master Lu's eyes brightened at her words. "That's a great idea."

Second Master Lu also nodded his head in agreement. "It's best to put him in a place with difficult conditions. Besides, there must be a strict instructor around him too. In this case, there's no need to be worried that he would disobey."

Having said that, the two brothers made eye contact with each other as they made a decision deep down inside.

It would be good to send him to the North-West's no man's island.

And so, the matter was settled.

When Second Master Lu and Third Master Lu decided on Lu Zhiheng's future the Eldest Madam started causing a ruckus.

The Eldest Madam had received a severe beating from Yang Yuelan and had remained in a coma ever since she was sent to the hospital.

When she regained consciousness, she just so happened to overhear two nurses talking about Lu Zhiheng. She only heard about how Lu Zhiheng's heart had stopped beating twice and how he was taken away by Zi Yi in the end.

She felt that Zi Yi wanted to prevent the doctors from rescuing her son and so that was why she had brought him away. Just like that, she went ballistic.

"She killed my son and I want her to pay with her life!"

The Eldest Madam had already lost her mind at this time. No matter whoever tried explaining things to her, she would not believe them. She fully believed that Zi Yi had already killed Lu Zhiheng and she rushed out of the hospital.

Even Yang Yuelan who knew of the whole situation did not stop her. She allowed the Eldest Madam to rush to Second Master Lu's house.

Mrs. Lu was at home and was still unaware of what happened outside when the Eldest Madam started yelling loudly outside the gates. She was surprised by it and she got the housekeeper to check on the situation.

The housekeeper was also unsure of the specific situation. He said that the Eldest Madam was acting like a madwoman and for fear that she would harm Mrs. Lu, he did not allow her inside. He merely stood outside and watched on for a short period of time before he made his way back and reported to Mrs. Lu.

"The Eldest Madam has been clamoring that the Second Young Madam killed the Eldest Young Master. She's asking for her to pay with her life."

Mrs. Lu burst into anger. "Why is she acting like a mad woman? How can Yiyi possibly kill Zhiheng?"

Having said that, she took out her phone and gave Zi Yi a call to ask about the situation.

When she learned of the full story, she coldly snorted. "She's really ridiculous. She doesn't even know the whole story and she's just randomly framing other people."

With that, she headed outside.

The housekeeper was afraid that the Eldest Madam might harm her and so, he also followed her outside.

Mrs. Lu walked to the iron gate and looked at the Eldest Madam who was shaking the iron gates and swearing at the top of her voice. She then yelled out, "Chu Qinglian, shut up!"

The Eldest Madam looked at Mrs. Lu and her gaze seemed as though she wanted to swallow Mrs. Lu whole. "Song Lingluo, I'm telling you. You had better hand Zi Yi over or else I will kill you!"

Mrs. Lu released a laugh and said, "Kill me? You don't have the ability to do that."

"You..."

"The Chu Family has fallen and Eldest Brother also chased you away to the countryside. Right now, all you have left is that mouth of yours."

The more Mrs. Lu said, the uglier the Eldest Madam's expression was.

Mrs. Li continued. "It is true that our family has a good temper, but do you think we would just roll over and accept your crazy antics? You ran over to my house and threatened to kill me. Who gave you the guts to do so?"

"You... you killed my son. I will sue you all."

"Then go ahead!"

Mrs. Lu could not be bothered to continue the conversation and she said to the housekeeper, "Get someone to chase her away. Someone like this should be chased away to the countryside and not allowed to return to the city."

"You dare!"

"Let's see if I dare to do so or not."

Having said that, the housekeeper called for two bodyguards and they brought the Eldest Madam away.

While the Eldest Madam was dragged away, she cursed without stopping.

Mrs. Lu was itching to go up to her and give her a tight slap or two. In the end, she said to the housekeeper, "Get someone to cover her mouth. Watch her closely before Eldest Brother returns from abroad. Don't let her step another foot near here."

"Yes, Madam."

With that, the housekeeper hastily got someone to cover the Eldest Madam's mouth.

In the evening when Zi Yi and the rest returned home, Mrs. Lu told them about the incident where the Eldest Madam came to the house.

Second Master Lu furrowed his brow after learning of this incident. He then took out his phone and called Eldest Master Lu.

Chapter 968 Stunning Country D's Researchers.

After Eldest Master Lu answered the phone call, Second Master Lu informed him about the incident that happened today in a simplified manner.

In the end, he said, "Zhiheng is in such a state right now and even if you are disappointed in him, he's still your child... And as for Eldest Sister-in-law, it's best that you handle the matter between the two of you. Right now, she's affecting my wife and child and if you still don't feel like handling this, I will send her to a mental hospital."

The Eldest Master Lu said something and Second Master Lu's expression turned for the better. He hung up the phone and said to the rest, "Big Brother said that he will take care of this."

Everyone never expected that when Eldest Master Lu said he would take care of this matter, he meant it by submitting divorce papers to the higher up's office.

All the higher ups were well aware of the matters among the Lu Family's first house. When the divorce papers were submitted, they did not say anything and approved it directly.

In less than two days, Eldest Master Lu divorced his wife before he even returned to the country.

Eldest Madam was unable to take the blow and she really went crazy.

By the time Zi Yi learned of this news, it was already a few days later.

This period of time just so happened to be when Professor Dou and the team were coming out from the one month closed door training.

Zi Yi headed to the aviation research base with several researchers from Country D.

When they walked into the base, the researchers were stunned by the cutting edge equipment that was available inside.

"Zi Yi, why do you have HER_12 material in here?"

"There's even this type of super alloy material!"

...

Everyone discussed with one another for some time, but when they realized Zi Yi was not providing any answers, they made eye contact with each other and Ika asked, "Zi Yi, all these materials are from [Future Energy Technology Company], right? Tell us, does that company belong to Mr. Lu?"

Zi Yi crossed her arms and looked at them while looking extremely arrogant. "So what if it does? So what if it doesn't?"

The expressions of the researchers did not look good.

However, they still did not accept her answer.

Anthony said, "The materials developed by [Future Energy Technology Company] are all the most cutting edge world wide. I don't believe that there is anyone in China that can complete this task alone based on the required technology that is involved in creating the material. You guys must have cooperated with other countries."

Zi Yi found them a little funny. She could not be bothered to explain to them, since they did not believe her. She just brought them to the entrance of the R&D center.

It seemed as though there was only one door to the R&D Centre.

However, when they were about ten meters away from the entrance, an invisible barrier blocked them.

"What is this?"

The researchers bumped into something and all of them used their hands to push what was in front of them, only to realize it did not budge.

Zi Yi said, "This is the first door."

With that, her palm tapped twice on the barrier and something like a control screen appeared in front of her.

"I'll enter your identification information right now. Walk through one by one; your identities will be recorded."

"How does the identification work?"

"DNA and genetic data."

"...!"

Zi Yi swiftly swiped and tapped on the control panel and the transparent barrier radiated a soft light.

"You all can go in now."

One of the researchers stepped forward first.

When he was walking through the barrier, he felt a tingle all over his body.

When the others followed along and walked through, they also experienced the same sensation.

After the researchers all passed through the barrier, they turned around to look at the invisible barrier, only to realize it had already disappeared.

There were even some who could not believe it and used their hands to wave around. However, it was really gone.

"As long as this barrier verifies your identity, it will automatically disappear."

With that, she led them to continue walking inside.

Unexpectedly, after they walked for another three meters or so, they were blocked again.

Zi Yi said, "This is the second barrier. It mainly checks if you have brought something you shouldn't bring in or something you shouldn't have brought out."

Abraham asked, "If we accidentally bring something out that we shouldn't have, what are the consequences?"

Zi Yi smiled at them. Her smile was so scary that the researchers could not help but feel afraid.

She said, "Do you want to give it a try?"

Having said that, she took out a circular ball and put it in Abraham's hands.

Abraham had yet to react when his body seemed to be pushed by something or someone. He staggered and reached the second barrier.

"AHHH-

A strong current spread through Abraham's whole body. Looking at Abraham who had collapsed on the ground and had smoke emitting from his body, the other researchers felt a shiver go down their backs.

Zi Yi walked over to Abraham who was twitching on the ground and she looked at him as she asked with a smile, "This is the lowest level of punishment and it's not fatal. Mr. Abraham, how do you feel?"

Abraham who was lying on the ground felt as though he had escaped death's door after experiencing the electricity all over his body. However, he was still unable to move or speak at this moment.

However, the other researchers took several steps back due to fright.

Just then, a robot appeared out of thin air and supported Abraham upright who was lying on the ground.

Everyone continued walking forward.

When they reached the start of the steps, Zi Yi stopped again.

She turned to look at the researchers who were looking at her warily. She revealed a particularly harmless smile.

"This is the third barrier, but there's no need to be afraid. This barrier is to deal with terrorists."

The moment she finished explaining, there was a sudden flash of red on the steps and it disappeared immediately afterwards.

Zi Yi asked the researchers with a smile, "Which one of you wants to give it a try?"

The expressions of the researchers changed greatly while they retreated at the same time.

The smile on Zi Yi's lips deepened, looking similar to that of a demon. "Since you all seem to be afraid to try, I'll use something else to try."

With that, she took out a circular ball and threw it out. The next second, several researchers watched in horror as the ball was melted by the red light and disintegrated into powder in a few seconds.

"What a pity, I wasted one circular ball."

The researchers: "..."

Zi Yi turned to look at them. "Let's go."

With that, she started walking up the stairs.

When her feet touched the steps, the researchers suddenly felt their hearts tightening.

It was only until they saw that nothing happened to her did they subconsciously breathe a sigh of relief.

After walking past the third barrier, they walked to the entrance.

This time Zi Yi did not explain what was so powerful about the door in front of them. The door automatically opened when she stood before it.

The moment she stepped inside, the researchers hastily tagged along.

However, as soon as they stepped into the laboratory, the researchers felt their vision go black and their brain seem to have disconnected.

By the time they came back to their senses, they had arrived at another place.

The researchers had yet to recover from their senses when they heard Zi Yi speak up. "This is the lounge. You can have a rest here first. The first batch of people will be coming out soon."

The researchers made eye contact with each other and someone finally could not hold back and asked her what had just happened.

"Space transfer."

"...!"

Everything here at Zi Yi's place refreshed their understanding and it trampled their original pride into pieces. At this moment, all that remained in their hearts was endless shock and disbelief.

Chapter 969 Say, Do You Think That the Girl Is Pregnant With Yunxiao's Baby?

When Professor Dou and the group of researchers came out from the closed-door training, what they saw were the shocked expressions of the various internationally renowned aerospace science and technology researchers from Country D.

A few of them even felt satisfied at the sight of their expressions.

Zi Yi walked over to them and asked with a smile on her face, "What have you all learned in this month?"

The first to speak was Qin Ze.

"My world outlook was totally shattered and reformed in this one month. I feel that the knowledge we were all equipped with was just like child's play."

As soon as Qin Ze spoke up, a few other researchers also added on.

Zhang Xuehao said, "In the past, I only knew that the universe was vast. It was only during this month that I learned that there are many different levels of civilization in the universe. Human civilization on Earth is unexpectedly at the lowest level."

Chen Xiyang chimed in. "Before, I thought that black holes and nuclear magnetic explosions are the scariest threats we could ever encounter. As it turns out, advanced civilizations don't even think of them as a threat."

Wang Yilong said, "Also, the various spaces are not as what we believed them to be where there is a distinction between levels. Instead, the spaces are parallel. If one wishes to head to an advanced civilization, we would have to jump through space."

Qin Ze also said again, "As it turns out, advanced civilizations have mechas and all kinds of different dangerous space creatures. Those cosmic fleets are huge enough to carry half of the population of Earth!"

The more they talked about it, the more excited they got.

Zi Yi did not interrupt them and waited for them to slowly express their amazement.

Country D's researchers who had been standing by the side and listening in to their conversation were all extremely curious. After China's researchers finished expressing themselves, Country D's researchers hastily walked over to Zi Yi. Yika spoke up. "Zi Yi, we wish to go in and see what they talked about right away!"

Zi Yi looked at them and said, "Have you all thought things through? The moment you step inside, you must stay there for an entire month."

Traces of hesitation surfaced on the faces of several researchers.

Smith furrowed his brows. "Why is there a need for such a long period of time? Won't a few days do?"

Abraham asked, "That's right. Based on what they're talking about, isn't the training mainly based on the knowledge of the universe? I think that my learning speed and ability to accept new knowledge is very high."

Alridge agreed with Abraham. "Same for me."

The Country D researchers were unwilling to remain inside for such a long time. Zi Yi merely smiled without saying anything.

On the other hand, the researchers from China had something to say about this.

"You guys shouldn't say this too early. When we first went in, we had the same thoughts, thinking that we can finish learning everything to be learned in a few days' time. However, after staying there for a month, we have only learned the tip of the iceberg."

"That's right, we're basically getting slapped in the face right now."

"That's because you don't know as much as we do!"

"Hahaha, then you guys can go in and give it a try."

The researchers on both sides seemed as though they were about to get into an argument at any point in time.

Only then did Zi Yi speak up. "Since you have agreed to go in, head inside right now. There are nutrient solutions inside and if you feel hungry or tired, you can voice it out. The nutrient solutions will appear before you. I'll give you a day's time to get accustomed to it. If you are unable to, you can come out. If you stay inside for more than half a day, you have to remain inside for an entire month."

The moment Zi Yi finished explaining, there was a ray of light beneath the Country D's researchers' feet. In the next second, they disappeared without a trace.

After they were sent into the training room, the China researchers were all looking at Zi Yi with a scorching gaze.

"Zi Yi, what should we do next? Are we going to create a spaceship or build a mecha?"

Zi Yi was stunned for a moment by the question and instead of answering, she asked, "There's a lack of materials here, how are you planning to build them?"

Zi Yi's words were like a bowl of cold water dousing their excitement and bringing them back to reality.

Professor Dou asked, "Little Zi, then what do you need us to do right now?"

Zi Yi said, "Next, I will divide you all into two departments. One department would be mainly responsible for research, development, and manufacturing. The other department would be searching for raw materials in space... But before that, you all have to go through special training."

Quite a few people asked in unison, "What training?"

"If you wish to travel to space, your physical specifications must be high. But as of now, there are still many potentials in your bodies that have yet to be developed. In the following week, I will mainly be developing the potential in you all."

"If I have high physical fitness, does that mean I will be able to travel to space to search for raw materials?"

After experiencing the one-month training, Qin Ze wanted to travel to space very much.

"No." Zi Yi killed all Qin Ze's hopes and said, "You all are only suitable to remain here for research, development, and manufacturing. Those people who will be traveling to space will be another group."

"Why? I feel that I am in good physical condition." Qin Ze felt somewhat unconvinced. He revealed the muscles on his arms to Zi Yi.

She looked at him and said with disgust, "If you can compare to Ah Jing or Yunxiao, I can allow you to travel to space immediately."

Qin Ze: "..."

Looking at Qin Ze's speechless expression, the other researchers could not hold back their laughter as they burst out laughing.

Professor Dou guessed. "The training Little Zi mentioned should be helpful for research and production, right?"

"Yes. After finding the raw materials, we will be creating spaceships that you've seen during training. That type of spaceship has strict technological requirements and the production process is very complicated. It will require strong skills in making judgments and what you all need to train is your ability to judge."

After Zi Yi said that she would be providing them with training, she remained there for an entire week.

One week later, when she walked out of the R&D center and glanced in a certain direction, she saw a man waiting for her by a car.

Zi Yi's lips unconsciously crept up. She quickly ran over and threw herself into Lu Jingye's embrace.

"Ah Jing, why are you here?"

Lu Jingye caught her and before he pressed her against the car, he raised his hand and lightly pinched her cheeks in dissatisfaction. "My dear wife abandoned her husband for a week without any news. To make sure that my dear wife can see me at the very first instance, I can only come over and fetch her."

Zi Yi giggled cheerfully.

After she finished laughing, she put her arm around his neck, raised her head, and kissed his jaw. "I won't be going anywhere for the following period of time, so I can come and accompany you at home. How does that sound?"

Only then was Lu Jingye satisfied.

After they got in the car, they immediately drove off.

Zi Yi explained to him about the situation on her side first before asking, "Has Yunxiao come back yet?"

"He'll be coming home tomorrow."

"That's great. It just so happens that I need manpower and he has plenty of people on his side."

Lu Jingye raised his hand and stroked her head. "Yunxiao is going to be bringing someone back home. If nothing goes wrong, he should be getting married."

"Mhmm? He said that?" Zi Yi got interested and hastily held Lu Jingye's arm as she questioned him.

"Who's the girl? I can't believe he has someone he wants to marry!"

"He didn't say that. He mentioned that he would be bringing someone along."

Zi Yi thought about it and said with a smile, "I think that many things must have happened in Country A between him and the other party. Otherwise, he wouldn't have revealed such things to you."

Speaking of this, she suddenly winked at him and revealed a gossiping expression. "Say, do you think that the girl is pregnant with Yunxiao's baby?"

Chapter 970 Boss Zi, What Do You Think About Our Skills?

Lu Jingye looked at her little expressions in an amusing manner. “Don’t make random guesses. We’ll know after they return.”

Zi Yi said with certainty, “Yunxiao has always been rather negative about getting married. For him to tell you that he’s bringing someone home, it must mean that there is a baby. Why don’t we make a bet?”

“What’s the bet about?”

Zi Yi’s eyes rolled around before she leaned closer and whispered next to his ear, “If I have guessed correctly, you’ll accompany me to play around for a day.”

Lu Jingye knew that she wanted to go out to play the moment she brought it up. He pretended to consider for a moment before nodding his head while Zi Yi looked at him expectantly. “Sure.”

Zi Yi was elated with his response and she gave him a forceful peck on his cheeks. She then leaned her head on his shoulder and took out her phone to check her email.

Only then did she learn that her inbox was about to explode.

The news of the researchers from Country D entering her aviation research base was quickly known by other countries. More than 85% of her unread emails were from those national research institutes.

Zi Yi did a quick screening and she suddenly saw the email from the International Racing Organization Committee.

The [Future Racing Club] was originally planning to hold a racing competition in April, but it had been canceled due to the epidemic. She was so busy with other matters this month that she almost forgot about it.

At the sight of this, she gave Zhou Shijin a phone call.

When Zhou Shijin answered the call, he questioned her in a tone as if saying: ‘You’ve finally remembered about us’, “Zi Yi, will our club still hold the competition?”

Zi Yi could detect a hint of nervousness in his proud tone. “Of course, it’s still going to happen. I saw the timings sent to me by the International Racing Organization Committee. The earliest time the competition can be held would be the 25th of this month. Would there be any problems on your end?”

“How could we possibly have any problems?” Zhou Shijin raised his voice. Clearly, he was unhappy that Zi Yi was doubting their abilities. “If the competition during April wasn’t canceled, we would have been able to obtain first place back then.”

“It seems like you all are very confident. I’ll come over to take a look tomorrow. I have yet to meet the other members. I can test all of your skills then.”

“Sure.”

Both of them hung up the call after that.

Zi Yi replied to the organizing committee’s email first before she told Lu Jingye about this matter.

Lu Jingye nodded his head and suggested. "Since that's the case, you can release the news of the competition in advance. Also, there's the issue of the sale of tickets. How do you intend to price them?"

Zi Yi thought about it and said, "In any case, those that will come to spectate the competition won't be lacking money. I'll set the first category seats at a higher price. How does ten thousand sound? Then following on, the second category seats would be eight thousand, the third category seats would be five thousand and the last category of seating would be two thousand."

Lu Jingye nodded his head in agreement. "Sounds good."

Zi Yi informed the club's manager robot to make the necessary arrangements.

There were still eight days before the 25th. What she did not expect was, when the news of the [Future Racing Club] competition on the 25th was released, the online ticketing platform handling the sale of the tickets was flooded.

In particular, the tickets couldn't be transferred to someone or purchased from those ticket scalpers. The moment one enters the [Future Racing Club] official ticketing website, the individual's information will be identified. In addition, one was also unable to purchase the ticket for someone else.

In an instant, the purchasing of tickets caused a bloody storm. Zi Yi soon received a few phone calls and all of them were asking for tickets to the race.

The next day, Zi Yi went down to the [Future Racing Club]. By the time she reached, Zhou Shijin and the other four racers had already been prepared and waiting for her there.

When they saw Zi Yi coming over, all of them were very excited.

Zhou Shijin had yet to introduce them to Zi Yi but the only girl in the team stepped forward first and introduced herself to Zi Yi. "Hello Boss Zi, my name is Xie Yaqi. I admire your racing skills very much and I am very happy that I can be a racer under your racing club."

Xie Yaqi was the type that was pleasing to look at. She had a braided hairstyle while her skin was bronze-colored due to the long exposure under the sun every day. Her teeth were very white and she had a bright smile. She was wearing jeans and a loose black short-sleeved T-shirt. There was also a choker around her neck and she seemed like a cool girl.

Zi Yi nodded her head at her and turned her attention to the other three racers.

The ages of racers would usually not exceed thirty-five. The three of them looked to be under thirty.

The guy named Wang Qibing gave off a cultured and gentle demeanor, but his pair of eyes radiated determination. The palms of his hands were also rather large.

The guy named Qian Ping looked at Zi Yi as though he was looking at the God of Wealth. When he was introducing himself, he had worked very hard to make a good impression.

The last guy was named Ouyang Hao. His expression was comparable to Zhou Shijin's but he was not as arrogant as he was. At the very least, Zi Yi felt that there was a difference and he seemed more pleasing to the eye.

After they finished introducing themselves, Zi Yi said, "Zhou Shijin informed me that you all are ready. Later, you can reveal your skills and show me what you can do."

The moment Zi Yi said that, Qian Ping immediately spoke up. "Boss Zi, you can be at ease. We definitely won't disappoint you."

The others looked at him in unison but they did not object to what he said.

The whole team walked to the infield runway together.

The racing cars were already parked on the track.

The racers did some warm-ups and Zi Yi stood next to them. With a tablet in her hand, she connected to the cars and checked the performance of those cars.

Just then, Xie Yaqi, who had finished her warm-up, walked to Zi Yi, revealed her brightest smile, and said, "Boss Zi, if you are satisfied with our performance later, can you treat us to a meal outside in the afternoon?"

Zi Yi looked at her and asked, "Is the food here not to your liking?"

"That's not it. We have been training in the racing club for the past few months and I haven't even gone out to take a look outside. I just thought of going outside to look around."

Xie Yaqi's request was not excessive. Zi Yi thought about it for a moment and nodded her head. "Sure."

Xie Yaqi revealed an even brighter smile.

The five racers got into their respective cars, and the referee robot stood in front of them. After it completed several countdown gestures and waved the small flag in its hands, the five cars shot out in an instant.

Zi Yi headed to the stands and spectated the five racing cars chasing each other on the race track. All those cars had been modified and the highest speed limit were all faster than that of the fastest racing cars in the world at present.

Of course, it was still a far cry compared to what she drove in the past.

While looking at the five cars racing on the track, she also checked the data displayed on the big screen.

The five cars stopped after completing a few laps.

The racers alighted from the car and headed to Zi Yi's side.

Xie Yaqi asked eagerly, "Boss Zi, what do you think of our skills?"

Zi Yi pointed at the big screen. The racing club had adopted the use of 8D suspension technology and with a tap of her finger, the screen seemed to have appeared right in front of them.

Zi Yi started to point out some minor mistakes they had made and what they should pay attention to.
