

My Disciples 1021

Chapter 1021: The news leaked, and the magic hat came!

Although it is enough to paste the talisman seal on the specified position.

But the distances between the four places are far apart.

Without the support of Yun Huan Pill, Yin Shilian and the others would probably have to turn back four times, that is, stick to one point, go out to take a breather, and then go to the second point.

With the Cloud Magic Pill.

Cooperate with their original strength.

There is no problem in supporting the periphery of the swamp for 5 days.

On the third day.

Mu Fusheng and the others have already pasted the talisman on the third point.

On the way, I also encountered several swamp monsters, most of them were at the peak of the God General Realm, and a few even reached the God King Realm!

This is just the periphery of Yunmeng Swamp.

Warcraft has already reached the God King Realm.

It is indeed the Yunmeng Swamp, which is known as one of the forbidden areas of life.

It's no wonder that the resources of Yunmeng Starfield are so precious.

"Where is the last location?" Ye Qiubai looked at Mu Fusheng.

Mu Fusheng picked up the map and looked at it, and said: "The distance is not far, and it should be able to arrive in half a day."

At this moment.

Cheng Yao was about to say something, when suddenly, the jade pendant on her chest began to flicker, and a message came into Cheng Yao's mind, causing her complexion to change suddenly!

Yan Xuan immediately noticed something was wrong with Cheng Yao, and asked with concern: "What's wrong? What happened?"

Cheng Yao's face sank, she glanced at the crowd, and finally her eyes fell on Mu Fusheng, and said word by word: "I think we should hurry up and leave."

When everyone heard the words, they all looked at Cheng Yao.

"Why?" Yin Shilian had a bad feeling in his heart.

Then Cheng Yao's words also fulfilled this bad premonition.

"In Yunmeng City, I have been searching for undercover agents for a while, but I found nothing." Cheng Yao's face became more and more ugly, and said: "But in the past few days, the undercover agents suddenly started to take risks, frantically wanting to send information to the outside world. In the end, outside Yunmeng City, an undercover agent of the Blood Wolf Sect was caught."

"Although it was caught, the information was also passed on."

"The content is... the person in the portrait, is it in Yunmeng City, and where did it go after that?"

Speaking of which.

Cheng Yao looked at Xiao Hei.

Although he didn't speak, everyone understood.

Blood Wolf faction, the person you want to find is Xiao Hei!

And the news has been passed on, which also means that the other party has sent people to Yunmeng Swamp, and may have already entered it!

Ye Qiubai's face darkened slightly, "It seems that people from the Demon King's Realm have come here."

Xiao Hei nodded: "But with the deterrence of God Lord Haotian, the people they dispatched should be able to deal with it."

"Then what should we do now, leave first?" Fang Qiong asked.

"It's too late to leave." Mu Fusheng said at this time: "After entering Yunmeng Swamp, I observed the surrounding situation. There are only two exits, and in those two directions, you have to go back, and you will always collide. superior."

"Although I erased the traces of our actions and battles along the way, I also isolated the surrounding breath."

"However, judging by the time, it should be here soon."

If it wasn't for Mu Fusheng to erase the traces.

I'm afraid that on the first day, people from the Demon King's Realm and the Blood Wolf faction had already surrounded them heavily!

"coming."

Suddenly, Mu Fusheng looked backward.

There, a series of figures landed steadily on the swamp.

Among them, the members of the Blood Wolf Sect had grinning faces and held big knives.

Among them, there are more than a dozen men in black robes.

Among them, the two leaders are also very familiar to everyone.

One is holding a golden knife, and the other is tall and powerful, wearing a black robe.

Yin Shilian's face was ugly: "The leader of the blood wolf faction, the wolf king..."

Xiao Hei looked at the man in black robe and frowned: "Magic hat..."

Mo Li smiled and looked at Xiao Hei, "Finally found you, this time I probably won't be able to escape."

Wolf King was slightly surprised, and also set his eyes on Xiao Hei: "Brother Mo Li, he is the former Demon Lord of the Demon King Domain? His current strength doesn't seem to be good."

The words of the wolf king were not hidden in the slightest.

It clearly fell into the ears of Yin Shilian and the others.

Yin Shilian, Yan Xuan, and Cheng Yao all looked at Xiao Hei with horror on their faces.

The former Demon Lord of the Demon King Domain.

Who doesn't know the high-latitude boundary, who doesn't know?

The legend of the former demon lord's amazing talent is still circulating in this high-latitude realm!

They didn't expect that this person turned out to be the devil.

No wonder, there will be such a terrifying physical strength.

At the same time, I also thought that they came from the same division...

Where is this sacred... to be able to gather so many monsters and reincarnated powers together and accept them as apprentices.

I saw Xiao Hei stepping forward, looking at Mo Li and saying: "The manpower you brought may not be enough."

"Not enough? Everyone present is at the God King Realm. Although I can't make a move, it's more than enough, right?"

God Lord Haotian restricted them at the beginning, that is, they could only go beyond one big realm.

However, how can a large realm gap be so easily bridged?

Not to mention, there are so many people.

Hearing this, Xiao Hei grinned and stepped on the swamp with both feet!

Under the magic energy, Xiao Hei's feet did not sink into the swamp.

Instead, a large amount of soil was splashed and rushed directly in front of one of the late-stage God King Realm powerhouses in the Demon King Domain.

Immediately, he punched him in the chest!

Click!

The sternum is broken inch by inch!

The five viscera and six internal organs were directly shattered!

This strong man in the late stage of the God King Realm spewed out blood!

The blood was mixed with internal organ fragments.

It flew upside down in the blink of an eye!

fell on the swamp, lost its vitality, and was gradually swallowed up by the swamp...

Everything happened so fast.

The flashlight is over.

Mo Li and the others looked at Xiao Hei in horror.

I saw Xiao Hei twisting his wrist, grinning, staring at Mo Li's trembling eyes, and said: "Do you think that after such a long time, my strength will not improve at all?"

Long?

long?

How long has it been since then?

From the physical strength of the **** general to the **** king?

A strong man in the late stage of the God King Realm was instantly killed by Xiao Hei with one punch?

The magic hat looked horrified.

Immediately, a murderous intent appeared in his eyes!

"Okay! Good! As expected of the former Lord Demon Lord, the talent is still so amazing, but do you think I will let you go if you have exposed this talent?"

Once grown up.

They will usher in the end...

In the body of the magic hat, countless dark devilish energy began to surge, wrapping around the body of the magic hat.

"Since you have already reached the mid-stage level of the God King Realm, then I can do it myself."

Magic hat, late stage of God Emperor Realm.

"This is also within the limit of the God Lord Haotian, right?"

Chapter 1022: Shocking strategy! (14)

The dark night has enveloped the sky, and the moonlight seeps through the gaps in the clouds, casting a faint, cool white light.

fell on the swamp, dotted with stars.

On this almost dark Yunmeng Swamp, Mo Li was wearing a black robe, with long hair like ink, and his strength in the late stage of the God Emperor Realm burst out suddenly!

The turbulent demonic energy crazily wrapped around the magic hat, forming ghosts that screamed silently, looming behind them, making one's heart palpitating, like a ghostly ghost, and a slight chill emerged from the bottom of his heart.

People around felt this breath, and they couldn't help stepping back three points, their faces pale!

A wide halberd suddenly appeared in the hand of the magic hat, and the demon soul was entwined on it. He looked at Xiao Hei and smiled and said, "Don't blame me, the main reason is that your talent is so amazing. If you don't die, We are troubled."

Xiao Hei's expression was indifferent.

As the blood of the demon **** erupted crazily, his breath surged wildly, and his eyes gradually became cold. Looking at the magic hat, he was quite capable of looking down on the world!

Demon God Xuanjia emerged from Xiaohei's skin and covered his body.

"It doesn't depend on you whether you live or die." Xiao Hei's expression was extremely flat, his eyes were as sharp as swords, and he was majestic.

Tit for tat.

Although Xiao Hei's realm is far worse than that of Mo Li.

But in terms of momentum, it surprised everyone from the Blood Wolf Sect including the Wolf King, as well as people from the Demon King Domain, and even Yin Shilian, Cheng Yao, and Yan Xuan.

In terms of momentum, Xiao Hei crushed the magic hat in all aspects!

Intelligence, a big difference in light is irreparable.

In this respect, the two are very different!

Immediately, Xiao Hei's eyes swept towards those people in the Demon King's Realm one by one, the blood aura burst out in an all-round way, and a phantom of a demon **** in the shape of Xiao Hei suddenly condensed behind him!

Suddenly, Xiao Hei turned his head, glanced at everyone in the Demon King's Domain, and shouted in a low voice: "Why don't you kneel when you see the Demon Lord?"

The sound roared like thunder, and it shook all directions. Just eight words, but like a thousand arrows piercing the heart, it passed through the hearts of all the powerful men in the Demon King's Domain!

Among them, most of the powerhouses in the Demon King's Realm were in a trance.

Some even struggled, their feet slightly bent.

Seeing this, Mo Li's face changed drastically, and he immediately shouted: "You are no longer the devil master!"

Under the roar of the magical hat filled with spiritual energy, those from the Demon King's Realm reacted, and immediately straightened their legs.

"I absolutely can't let you live any longer."

After Mo Li said these words with a gloomy face, his feet stepped on the ground suddenly, and under the splash of swamp mud, a sonic boom of air rushed straight towards Xiao Hei!

In less than a blink of an eye, he had already rushed in front of Xiao Hei, and punched him out!

How terrifying is the physical body in the late stage of the God Emperor Realm?

The space of Yunmeng Swamp burst into cracks one after another!

Before the fist landed on Xiao Hei's face, the skin on Xiao Hei's face began to tremble!

The bursts of punches whizzed by, like the roar of a beast, carrying the power to destroy the world!

About this.

Xiao Hei didn't dodge, nor was he timid.

The roaring blood in his body did not allow him to retreat.

His long-term background does not allow him to be timid!

With one punch, the power of the blood was condensed, and the six layers of the eternal magic body opened together, full of magic energy!

Directly met with the punch of the magic hat!

Boom!

The deafening bang, like the sky falling apart, caused violent ripples in the air!

Although the movement is huge.

But the result can be imagined.

During the fistfight, Xiao Hei flew backwards, shooting towards the rear like a cannonball!

The swamp under him was also split into two pieces under the terrifying force! A huge dent was formed!

The magic hat stopped on the spot, looked at the direction where Xiao Hei fell to the ground, and sneered: "If you let you go for a few more years, maybe you really are not your opponent, but now, your chance of surviving in my hands is zero!"

Behind, the Wolf King and the Blood Wolf Sect looked at this scene and sneered.

The gap in realm is so large, it cannot be easily made up.

This so-called former demon master must surely die!

Puzz...

In the swamp, Xiao Hei got up from it, clutching his arm, the arm that had just punched the magic hat, the bone had been shattered!

It's just that, now under the strong resilience of the blood of the demon god.

That arm had strands of hot air oozing from the Demon God Xuanjia.

At the same time, there is a clicking sound.

The broken bones are growing back together!

Breath is also rising steadily!

Everyone was shocked when they saw this scene.

Received the full blow from the magic hat.

Hasn't died yet?

The magic hat's face also sank, and the murderous intent in his eyes became stronger and stronger!

Without saying a word, he continued to rush towards Xiao Hei!

Xiao Hei was fearless, and also went up to the magic hat!

Behind, Fang Qiong looked at this scene, frowning: "Eldest brother, brother pastor, if this continues, Brother Xiao Hei may not be his opponent."

Ye Qiubai nodded: "We must find a way to get rid of them."

Several people didn't immediately think about using the bag given by the master or directly throwing out the jade pendant to let the master's Dharma body descend.

Whenever there is danger, if you blindly seek help from the master, your strength will never be improved.

Mu Fusheng swept towards the Demon King's Realm and several members of the Blood Wolf faction.

"Three mid-stage Divine Emperors, and one late Divine Emperor from Mo Li, plus several Divine Kings, the situation at this time is extremely unfavorable to us."

With so many people.

Combined with Yunmeng Swamp, even if the strength explodes, it may be difficult to block the news.

At this time, Ye Qiubai looked at Fang Qiong and said, "Junior Brother Fang, can you use the Immortal Fate Magic Array to hold them back for a while with the breath of illusion in Yunmeng Swamp?"

Fang Qiong was taken aback for a moment, then nodded his head: "You can try."

Mu Fusheng took over the conversation and said: "In this case, hold them for a few seconds, and we will flee towards the middle of Yunmeng Swamp."

Ye Qiubai looked at Mo Li and the others, and said with a smile: "Combined with the Heavenly Thunder Escape Talisman, and fighting while walking, maybe they can stay here completely."

Mu Fusheng nodded: "It is very feasible."

At the same time, I was a little moved.

At the critical moment, the elder brother can still come up with a good plan.

Yin Shilian, Cheng Yao, and Yan Xuan were stunned as they watched Mu Fusheng make plans.

In this situation of disparity in strength.

They still didn't choose to give up, or didn't choose to ask for help, but wanted to keep them here completely?

How bold is this?

"But, in the middle section, the monsters and the fog of illusion..." Cheng Yao hesitated to speak.

Ye Qiubai interrupted with a smile: "That's the best way to make use of them."

Mu Fusheng looked at Fang Qiong: "Junior Brother Fang, let's start."

At the same time, he also took out a piece of talisman seal in his hand.

Ye Qiubai transmitted their plan to Xiao Hei.

They not only want to escape from birth, but also want to completely eradicate Mo Li and the others in this Yunmeng Swamp!

Chapter 1023: Start the layout, and the magic hat noticed it! (twenty four)

It was dark night.

At night, the fog of illusion in Clouddream Swamp reaches its peak.

It is so rich that even the little bit of starlight and bright moonlight cannot penetrate the fog.

It caused darkness in the fog, and the visibility to the naked eye was almost zero!

Can only rely on perception to detect the surrounding situation.

Under the perception of everyone.

The collision between Xiao Hei and the magic hat was almost crushing.

There is no chance of resistance at all!

Every time fist meets fist, or friction between legs and feet, Xiao Hei will fly backwards with serious injuries!

If it were someone else, he would be able to receive the full attack of the late God Emperor Realm powerhouse like Xiao Hei.

The body will also collapse due to multiple serious injuries!

But what about Xiao Hei?

Relying on the heaven-defying ability of the power of the blood, every time a bone is broken, an internal organ is ruptured, and a body is seriously injured, it can be recovered in the first time.

It's just that the attack frequency of the magic hat is too high, so that the ability of the little black blood can't fully restore it.

Again.

The magic hat punched Xiao Hei and sent him flying.

During the process of flying backwards, Xiao Hei spurted blood wildly, and fragments of internal organs also spurted out along with the blood.

Seeing this, the magic hat didn't stop, his eyes froze, and the black robe on his body moved slightly, and his body disappeared in place.

The next moment he appeared, he was already in the sky above Xiao Hei, just as he was about to punch out.

Suddenly, his expression was in a trance.

In front of him, Xiao Hei disappeared, replaced by a giant swamp beast breaking out of the ground!

Opened the **** mouth like an abyss, and moved towards the magic hat's fangs and claws to bite!

The magic hat was startled, the giant swamp beast in front of him had reached the level of horror at the peak of the God Emperor Realm!

Hastily withdrew his fists and retreated backwards!

However, at the moment of violent retreat, Mo Li was startled.

not good!

Soul Surge!

Forcibly broke through the illusion, and the swamp monster in front of him disappeared instantly.

At the same time, Xiao Hei also disappeared. Looking around, Ye Qiubai and the others also disappeared in place.

Magic hat's face was ugly.

He actually fell into an illusion!

A fantasy formation around is constantly flowing.

Seeing this, the magic hat punched out, breaking the formation, and the members of the Demon King Domain and the Blood Wolf faction gradually came to their senses.

Wolf King also had a horrified expression when he knew that he had fallen into an illusion.

"How is this possible? With their strength, how could they have a phantom formation that traps us?"

The magic hat's face was gloomy and terrifying, as if it was about to drip water, "And it was arranged without anyone noticing."

Immediately, he looked in one direction, where was the escape breath of Xiao Hei and others.

"Follow me!"

After finishing speaking, Mo Li took the lead and headed towards the depths of Yunmeng Swamp!

The people from the Demon King's Realm followed immediately without hesitation.

Some strong men of the Blood Wolf Sect hesitated, looked at the Wolf King, and asked, "Wolf King, are we going to follow? There is..."

The wolf king interrupted with a roar, "Shut up!"

His complexion is also cloudy, but now that he has reached this point, there is no other way.

If you don't follow them, Demon King Domain will attack them.

And the former demon lord will kill them all after his strength improves.

The Blood Wolf faction and the Wolf King have no way out.

Wolf King knew this very well, and gritted his teeth, "We will follow too! Those below the God King Realm should respond from the outside, and don't follow."

Under the God King Realm, entering the middle section of Yunmeng Swamp, it can be said that you are looking for death.

There is no way to resist the fog of illusion!

Once you are dragged into the mist of illusion, you will be pulled into the swamp, unable to recover.

...

The middle section of Yunmeng Swamp.

Here, it is no longer a bare swamp.

Dense trees and bushes rise from the swamp, forming a green sky.

These trees are twisted together, their branches and leaves intertwined to form a gloomy canopy, and the bushes are arranged horizontally and vertically, making the otherwise bare swamp like a maze.

The strange thing is that occasionally there will be a few beams of light here, passing through the fog, through the dense shade of trees, and projected in this muddy swamp, outlining a dark and mysterious light and shadow.

Everything looks so weird.

Between these branches, there are seven figures constantly shuttling through them.

Ye Qiubai looked at Xiao Hei, and asked with concern, "Have you recovered from your injury?"

Xiao Hei shook his head, looked at the deep bone wounds all over his body, and said a little weakly: "It still takes half a stick of incense, but it's not in the way."

Under such a high-frequency attack by a late-stage God Emperor Realm powerhouse.

There are many wounds, and the injuries are serious.

Enough to kill a person.

Xiao Hei was able to escape here at such a fast speed, which already shocked Yin Shilian, Cheng Yao and Yan Xuan who were beside him.

At this time, Yin Shilian glanced at the rear, and saw the looming, approaching powerful aura, and said anxiously: "Everyone, if this continues, if there is no countermeasure, we may be overtaken."

Yin Shilian and the others took another cloud magic pill, which allowed them to be in the middle of Yunmeng Swamp like ducks in water.

However, Ye Qiubai and the others did not answer Yin Shilian's words.

Instead, the division of labor is orderly, and there is no rush or panic.

Mu Fusheng is among some hidden branches, and will bury a formation.

At the same time, Fang Qiong will also lay down the foundations in a hidden place not far from it.

Of course, Mu Fusheng would use talismans to hide his aura.

In Ye Qiubai's hands, the Silver Dragon Sword had been put away, and it was replaced by the Qingyun Sword.

Xiao Hei is concentrating on recovering from his injuries.

Suddenly, the four of them stopped at one place at the same time. Under the doubtful eyes of Yin Shilian and the other three, they changed direction and continued on their way.

And a few people are abnormal.

Gradually, the magic hat who was approaching from behind noticed the abnormality.

The auras of several people didn't seem to be moving forward in a straight line.

Instead, it is constantly changing directions.

Could it be... to prevent rapid entry into the depths of Yunmeng Swamp?

Or...is there a catch?

Mo Li is not a stupid person either.

As the right-hand man of the current Demon Lord in the Demon King Domain, he commands several large armies.

is also extremely sensitive to these things.

Although the opponent's realm is not strong, it is far from the combat power of their side.

But there is Xiao Hei, the former demon lord.

With his background, he may come up with something that threatens them.

At this time, Mo Li stopped, looked at the blood wolf sect behind him, and said: "You, stand in front of me, and on the left and right wings respectively, and investigate the traces they left. If you find any traces, clear them immediately!"

The wolf king cursed in his heart.

Isn't it just that he wants his people to play forward?

But he thought so, under the magic power of the magic hat, he was still powerless to resist, so he had to follow suit.

Chapter 1024: Use your body to control the formation, the talisman storm! (34)

The middle section of Yunmeng Swamp.

The fog of illusion has an increasing influence on ascetics.

Even in the God King Realm, the time to resist the fog of illusion is extremely limited.

The ascetics of the blood wolf faction and the early stage of the God King Realm of the Demon King Realm have begun to consume their aura rapidly.

But Mo Li didn't care about these.

For him, the most important thing now is to kill Xiao Hei!

This son can't stay anymore!

But, at this moment.

In front of everyone in the magic hat, a piece of talisman suddenly shone with the power of endless thunder among the dense branches!

At this moment, the power of thunder turned into nine pillars of thunder, surrounding the large army of magic hats!

Don't wait for them to react.

On the beam of thunder surrounding them, countless electric currents flickered like earthworms!

Continuously hitting the bodies of the peripheral ascetics!

Boom!

Thunder's powerful power completely defeated the people in the early stage of the God King Realm who had lost a lot of aura in order to resist the fog of illusion.

Their bodies instantly turned charred black, exuding a pungent burning smell.

Electricity shuttled between the muscles and bones, destroying their vitality, causing them to completely lose their breathing and heartbeat.

Weakly fell towards the swamp below.

Gradually swallowed by the swamp...

The powerhouses of the God Emperor Realm, including Mo Li, also made quick moves at this moment.

Break the talisman!

Mo Li looked at this scene with a gloomy face, gritted his teeth and said, "It seems...he wants to take us around in circles and keep us here in the process."

"However, it seems a little too small for me..."

After finishing speaking, Mo Li looked at the person in the God Emperor Realm beside him, "There must be similar traps ahead of them."

"I understand." The mid-stage God Emperor Realm powerhouse nodded, and after a burst of breath, a pair of huge black wings condensed behind him!

Slowly lifted into the sky, and between flapping fans, a strong wind swept across the land!

The body also took the lead and rushed forward.

With full consciousness, pull out all the fifty or so talismans along the way ahead!

But the magic hat and the wolf king who were advancing in the rear couldn't help twitching their brows when they saw this scene.

In this short period of time, more than fifty talisman seals were pulled out...

How deep is this family background!

The mid-stage God Emperor Realm powerhouse in front of him also returned to Mo Li at this moment, and said in a deep voice, "There should be no more within the scope of the divine sense detection."

"Next, I will use all my strength to **** the speed of your progress, and then I will leave it to you."

Magic hat nodded.

This mid-stage God Emperor Realm powerhouse shouted loudly, and the black wings behind him swelled wildly at this moment!

broke through the surrounding ancient trees and dense branches.

Surrounded everyone in it!

One time.

The ascetics in the God King Realm on the periphery all felt a burst of relief.

Not only is the body lighter, but the resistance in front is almost zero.

At the same time, the concentration of those illusion fogs also began to decrease rapidly!

It seems that this huge black wing has resisted most of the illusion fog for them.

However, such a large range of resistance.

It also accelerated the loss of spiritual energy of this middle-stage God Emperor Realm powerhouse.

Because of this.

The speed of Mo Li and his party began to increase rapidly!

The distance between Xiao Hei and his party is getting shorter and shorter.

...

Xiao Hei and his group in front also noticed this naturally.

Yin Shilian glanced back, looked at the huge black wing, and hurriedly asked: "What should we do now? Not only have most of the talisman seals under the cloth been cleared, but now it is estimated that they will catch up to us in a few minutes!"

Cheng Yao looked at Mu Fusheng with a plain face, and said softly: "There should be other ways." Sudden.

Mu Fusheng stopped, took out three Heavenly Thunder Escape Talismans, threw them to Cheng Yao and the others, and said: "When the formation is activated, you can use these three Talismans to escape directly."

"Why wait until then to escape?" Yan Xuan was a little puzzled after taking it.

Mu Fusheng glanced at Yan Xuan with a foolish expression.

"If you run away now, they will inevitably become suspicious."

The dozens of talisman seals before were specially given to them by Mu Fusheng, and they were not concealed too deliberately.

From the Thunder Prison Shock Talisman at the beginning, Mu Fusheng's purpose was to make the already skeptical Mo Li think that there was indeed an ambush ahead.

Then use those dozens of talisman seals as bait, and deliberately let them pull them out.

In this way, it may be possible to make Mo Li think that the danger has been eliminated to a greater extent.

All you need to do is catch up.

"Where are you going?!"

Suddenly, a pair of black wings has come to the sky above Xiao Hei and the others!

Countless figures flew out from the black wings, blocking the front and left and right sides of Xiao Hei and the others!

formed an airtight encirclement.

Completely surrounded!

Mo Li sneered and said: "There are some methods. It seems that you have a few more helpers around you, but it's a pity that the strength of these helpers is still not enough."

Xiao Hei looked up at the magic hat. The injuries on his body have fully recovered, and his physical strength has improved further!

This made Mo Li frowned.

Why didn't this kind of bloodline ability appear in Xiao Hei's previous life?

Could it be that there are other opportunities?

The recovery speed is so fast, and it can also be transformed into physical strength. The bloodline ability is against the sky, which has completely surpassed the cognition of the magic hat!

Even the blood power of those **** masters is definitely not so terrifying!

"Perhaps, if you take the initiative to follow me and don't resist, I can still save the lives of your brothers and sisters."

Mo Li offered to propose conditions.

Capturing Xiao Hei alive is more useful than beheading Xiao Hei directly.

However, if there is no other way, it can only be beheaded.

"Perhaps there is another option." Fang Qiong said with a sudden smile.

Mo Li looked at Fang Qiong, frowning slightly, and a sense of danger brought about by a battle-tested feeling suddenly made his heart throb!

And in a moment.

This dangerous intuition instantly turned into reality.

With them as the center, there are nine formation flags rising into the sky around them!

At the same time, Fang Qiong, like a god, rose slowly into the sky and stood in the center of the nine banners.

this moment.

Fang Qiong seems to have become the spirit of this killing formation!

Continuous pinching prints in the hands.

The aura of annihilation began to continuously expand in this space.

In an instant, this space fell into an atmosphere of destruction, which seemed to be able to annihilate everything.

Transforms into a demonic vortex, sucking everyone in its center!

Cheng Yao and the others also immediately crushed the Heavenly Thunder Escape Talisman and escaped from this place.

Use your body to control the array.

Annihilate and kill!

At this moment, Fang Qiong, under the God Emperor Realm, there is no one who can resist this killing method!

In the gloomy expression of the magic hat.

It's not just annihilation and killing array.

One after another, the Thunder Prison Shock Talisman, like a storm of talisman seals, shrouded the crowd!

"I don't know this choice, will you accept it?"

Chapter 1025: The Blood Sacrifice Magic Art is now! (44)

There are at least hundreds of talisman storms composed of Thunder Prison Talismans.

Then cooperate with the annihilation and killing array.

The aura of the two does not seem to conflict.

On the contrary, the annihilating breath and the bursts of thunder are actually complementary to each other!

Annihilation, and the destruction of Thunder, under such circumstances, the deterrent level of breath began to rise continuously!

Wolf King, members of the Blood Wolf Sect, and members of the Demon King's Realm all showed shock.

The Wolf King knew that with this level of aura, he would have to pay a huge price to resist this formation if he tried his best to deal with it!

Note, it is possible.

It is not difficult for him to annihilate and kill the formation.

But combined with these hundreds of talismans, it almost reached the power of the **** emperor!

In the combination of the two, destructiveness is not as simple as one plus one equals two!
only.

Mo Li and the person beside him in the mid-stage of the God Emperor Realm didn't seem so surprised, but showed some dignified expressions.

"I have to say, we underestimated you at first."

Mo Li looked at Xiao Hei, glanced at the few people around him, then lowered his brows, and said slowly: "I never thought that your fellow sect would have a formation mage who can control the formation with his body, and a formation mage who can control the formation at one time." A talisman master who controls so many talismans."

"However, do you think I have no other preparations for this visit?"

Mo Li looked at the person in the middle stage of the God Emperor Realm, nodded and said: "I leave it to you, the devil will definitely do what I promised you before."

The person in the middle stage of the God Emperor Realm nodded solemnly, and said, "For the sake of the Demon King's Realm, I will do whatever I want!"

Say it.

The person in the middle stage of the God Emperor Realm actually cut his finger and used the power of blood with all his strength. What came out of his finger was not ordinary blood, but a drop of extremely heavy essence blood!

When this drop of blood that seemed to contain all the energy of the person was forced out, his face turned pale instantly!

Applied it between the eyebrows.

In an instant!

Breath soared!

Countless blood energy began to inject into the huge black wings behind him!

At this moment, the black wings soared against the wind.

The ancient green trees and dense branches around them were all squeezed and destroyed at this moment!

Among them, all the ascetics of the Blood Wolf Sect except the Wolf King screamed.

Whether it is the seven orifices or the skin of the whole body, there are countless blood continuously floating out and merging into the black wings!

This is not just fresh blood, but the essence of blood in the body!

Watching his subordinates turn into shriveled corpses one by one, fall down and be swallowed by the swamp.

The wolf king's heart was bleeding, his face was extremely gloomy, and he asked loudly: "Brother Moli, what is the meaning of this?!"

Mo Li's face was flat, and he didn't turn his head to look at the Wolf King, but said lightly: "It's just some waste, and now we can squeeze their remaining value, why not?"

"Furthermore, when things are done, with the help of our Demon King Domain, it is just a blood wolf faction, and another one can be easily created."

fart!

The wolf king's face was extremely ugly.

Create another easily?

Here basically includes all the elites of the Blood Wolf faction!

Each of these elites will cost a huge price to cultivate.

This is not the most deadly.

If all the men of the Wolf King were killed, how would the outside world view the Blood Wolf faction?

Even with the help of the Demon King Domain, the Blood Wolf Faction would have no place in this Yunmeng Starfield!

No one will dare to join the Blood Wolf faction again!

From then on, the Blood Wolf faction will exist in name only.

Filled with countless blood essences, even the blood essence of the strong man in the middle stage of the God Emperor Realm.

The black wings were gradually dyed a large area of bright red.

The smell of blood spread throughout the middle of Yunmeng Swamp!

Even the sky above turned into black and red!

Mo Li looked at Xiao Hei, and said with a sneer: "You should be very aware of this method, right? In order to kill you here, although I paid a high price and lost a general in the mid-stage of the God Emperor Realm, all of this is the same. worth it."

Xiao Hei's face was slightly dignified, and he said: "The blood sacrifice magic art... not only drains the blood essence of the caster, but also drains the blood essence of the people around, so as to greatly strengthen the magic technique... This kind of magic Gong, it was already sealed by me."

the reason is simple.

It hurts Tianhe!

It can be said that it is a real evil work!

You must know that there is an essential difference between demons and evil!

The magic hat pulled the corners of its mouth and laughed ferociously: "So what? As long as you can improve your strength, why seal it?"

"Big fists are justice, and the victor defines good and evil. Why do you want to distinguish between evil and good?"

And at this time.

When the blood-black wings are formed.

Fang Qiong and the others also had solemn faces.

The wings began to flutter, and a huge wind swept towards the annihilation and killing array and the storm of Thunder Prison Shock Talisman!

Fang Qiong and Mu Fusheng no longer hesitated.

Attack at the same time!

The breath of annihilation and the beam of light from the thunder talisman complement each other, forming a sea of thunder, a black sea of thunder with the breath of annihilation!

Initiated a fierce collision with the blood-black wings!

Instantly.

The mud in the swamp is flying in all directions!

The ancient trees around were in groups, but they were also lifted up at this moment, or destroyed into dust!

Huge energy shines in this space.

The space began to break inch by inch!

The turbulent flow of space in it began to pour out continuously!

only.

With the blood-black wings blessed by the blood sacrifice magic skill, the power is too powerful.

Black Leihai retreated steadily at this moment!

The talisman seals and array flags in the air also began to have cracks!

Fang Qiong used his body to control the formation, with blood dripping from the corner of his mouth, his face turned pale, and his breath fluctuated extremely.

See this scene.

Mo Li laughed: "That's all! It's better to surrender, no..." The conversation suddenly changed, and Mo Li smiled coldly, "Since your fellow disciples also have such talents, we can't let you keep them."

After finishing speaking, he looked at the mid-stage God Emperor Realm powerhouse and shouted: "Don't procrastinate, use the greatest strength, regardless of loss, to destroy them!"

The man nodded.

With a loud roar, the essence and blood began to fly out from the seven orifices, flying towards the wings!

The wings are further expanded, covering the sky and the sun!

Completely cover the bright white moonlight above!

Darkness falls.

It seems to be heralding the end of a certain party...

At the same time, Fang Qiong's body seemed to be unable to hold on, blood spurted out wildly, and his body retreated abruptly.

Mu Fusheng's face was solemn, at least 90% of the Thunder Prison Shattering Talismans in the talisman storm had lost their effectiveness and were torn to pieces.

However, those blood-black wings seem to have begun to shrink...

See this scene.

Mu Fusheng stretched out his hands.

The good fortune charm was attached to the chest.

Surrounded by the power of four layers of thunder!

Ye Qiubai's chest was also affixed with a talisman of good fortune, his aura soared, and the Qingyun sword in his hand was being pulled out!

At the same time, Xiao Hei's blood is fully opened, and under the blessing of the fortune charm, the shackles of the physical realm are broken!

"It's now!"

Chapter 1026: Calculations from all sides, fierce collision!

For Mu Fusheng.

More often than not only one card will be hidden.

From the initial talisman bait to the current annihilation and killing array and talisman storm to suppress.

Then the killing array and the talisman storm were broken.

In fact, they were all envisioned in Mu Fusheng's mind.

The idea in my mind at the time was that if the fusion of the annihilation killing array and the talisman storm could not kill the magic hat directly, it should also be able to eliminate some strong people in the god-king realm.

Of course, if it can be killed, then the matter is over.

On the contrary, Mu Fusheng designed the current scene, using the lucky charms to strengthen Ye Qiubai, Xiao Hei, and himself.

Release "full power" to make the final blow to the magic hat.

Of course, if that's not enough...

Mu Fusheng naturally has another way.

In the eyes of Ye Qiubai, Fang Qiong and Xiao Hei, Mu Fusheng has typical persecution paranoia...

There is a set of hole cards, which can never be used up!

At the moment.

In the horrified eyes of the magic hat, the wolf king, and the strong man from the Demon King Realm in the middle stage of the God Emperor Realm.

Xiao Hei was wearing the Demon God Profound Armor behind him, and was holding the Nine Heavens Demon Halberd. There was a phantom of the Demon God entwined with strands of golden aura, and he swung the halberd in his hand suddenly!

Above the body of the halberd, a circle of black-golden energy surged, and the surrounding space seemed to feel the surge of this energy, and it instantly became cold and heavy!

The haze shrouded the entire mid-section, extremely gloomy.

The wind has stopped, everything is silent!

On the other side, Ye Qiubai was holding the Qingyun Sword, but at this moment the blade was pulled out 70%!

After stepping into the realm of the sword god, and also blessed with the fortune charm, Ye Qiubai's strength skyrocketed!

With the Qingyun sword pulled out.

A bright and fierce sword energy burst out from the sword body in an instant!

The sword energy in it, like a flying dragon, soars through the clouds and rides the fog, and the dragon chant bursts, piercing the space, and in this space, one after another cracks are cut!

The full sword intent shocked Mo Li even more!

The Realm of the Sword God?

How could this realm step into the sword **** realm?

And what grade is the Qingyun sword in his hand?

Before it was fully pulled out, there was an explosion of breath like the origin of the sword.

Even a god-level divine weapon cannot do this!

the other side.

The Wolf King was even more horrified.

Seeing the four kinds of thunder powers around Mu Fusheng, he was extremely shocked.

Once upon a time, when the wolf king successfully intercepted and killed a high-level executive of the Fuzhuan Master Alliance.

From his ring, there is an ancient book that records the power of thunder.

After all, among the talisman seals, there are also talisman masters who are good at lightning attribute talisman seals.

Among them, nine kinds of ancient **** thunders are outlined!

Mysterious Yin Purple Thunder, Heaven Punishment God Thunder, Six Nine Heaven Thunder, Tai Chi Yin Yang Righteousness God Thunder...

Isn't it exactly the same as the four kinds of thunder around Mu Fusheng?

"How could you have the ancient **** thunder! Shouldn't it be extinct?!"

Hearing the wolf king's shout, Mo Li and the others looked over in an instant.

Hearing this, Mu Fusheng's eyes flashed with murderous intent.

"Okay, okay, one more reason to keep you here forever."

Just kidding, the ancient **** Lei was recognized.

If they escape, the news will be released.

For those ascetics with thunder attributes, it is estimated to be completely crazy!

At that time, Mu Fusheng will never be at peace.

That's all for now.

The attack of the three, along with Fang Qiong's still maintaining annihilation and killing array, and the talisman storm suddenly attacked the blood-black wings! The surging breath turned into a violent wind and waves, sweeping towards the blood-black wings!

The surging breath turned into a violent wind and waves, sweeping towards the blood-black wings!

Four kinds of ancient divine thunders turned into thunder beasts, stepped on the void, and created a circle of turbulent thunder circles with every step. Around the circles of light circles, black holes were born in the space, silently, as if devouring everything !

The sword intent of the Qingyun Sword turned into a giant dragon, soaring across the universe. In this dark space shrouded in darkness, there were bursts of cold light!

Bitter to the bone, but illuminated the whole world!

The Nine Heavens Demon Halberd in Xiao Hei's hand was even more devastating, and the space trembled as he waved it.

Going towards the suppression of the wings, it is like a mountain smashing the top, and the sky is falling!

The Demon Lord Realm expert in the middle stage of the God Emperor Realm saw this scene, and couldn't help feeling stunned for a while, feeling palpitations inexplicably.

When he realized this, he became even more angry!

"But the three juniors, if I can still be defeated after performing the blood sacrifice demon art, then how can I save face in the Demon King Domain?"

Speaking of this, there was a loud roar.

The blood-black wings waved again!

As if covering the sky and covering the sun, it fell on top of the attacks of the three!

Boom!

The huge breath made the whole board tremble.

This breath and movement can be clearly felt even outside Yunmeng Swamp.

Yin Shilian, Cheng Yao, and Yan Xuan, who had come to the entrance of Yunmeng Swamp through the Heavenly Thunder Escape Talisman, already looked tense, but now that they noticed this movement, they all suddenly turned their heads and looked in that direction.

"This... Even if it is a strong man in the late stage of the God Emperor Realm, the movement caused is nothing more than this?"

"I'm afraid it was cast by people from the Demon King's Realm."

Cheng Yao's face is full of worry, although she has given up following Mu Fusheng.

But such a powerful force, can Mu Fusheng withstand it?

On the other side, in Yunmeng City.

The powerhouses of the three major forces all looked up at Yunmeng Swamp.

His face was extremely solemn.

"Where is the strong coming?"

"Our people did not go to Yunmeng Swamp from the late God Emperor Realm powerhouses. Could it be that those forces outside Yunmeng City did it?"

"No matter what, send someone to take a look. If they discover the treasure, then Yunmeng City will be in danger."

The three major forces all nodded.

Those who set off in the same way also included those forces outside Yunmeng City.

In their view, initiating such a big conflict and power, there must be something unusual happening!

...

At the moment.

A place that has attracted the attention of everyone in Yunmeng Starfield.

Four different forces are in conflict.

The aftermath burst, causing the surrounding soil to splash and trees to fly horizontally!

Wolf King is here, even if he resists the aftermath with all his strength, he still feels a sense of difficulty!

Are you kidding, he is a strong man in the mid-stage of the God Emperor Realm!

The magic hat also looked extremely ugly.

Although no party has lost yet.

But... the energy of the blood-black wings has become weaker and weaker.

The opponent is getting braver with each battle.

If this continues, the situation will be unimaginable!

Can't wait any longer.

The magic hat let out an angry roar, and against the aftermath, it forcibly attacked Mu Fusheng and the others!

When the opponent is fully attacking, you must first defeat one person, and then defeat them one by one!

But.

Just as the magic hat rushed forward.

Fang Qiong held the fortune talisman in his hand, and then made a seal with his right hand, and the flags fluttered in the air.

Fusion of Annihilation Killing Array and Immortal Fate Magic Array!

Annihilation Illusion Killing Formation!

Chapter 1027: Links tightly linked, kill the magic hat!

Fang Qiong did not leave the arena directly because the annihilation killing array was broken and was seriously injured.

On the contrary, Fang Qiong was also the one arranged by Mu Fusheng.

In this situation, the opponent has two combat powers, and the wolf king can't make a move while resisting the aftermath with all his strength, so only the magic hat can break through forcibly, so as to attack them.

Then let Fang Qiong be the one to meet the magic hat.

It's not for him to defeat the magic hat, just hold it back.

Among the four Mu Fusheng, no one can beat Fang Qiong in terms of holding back the enemy.

You must know that Fang Qiong not only has the Immortal Fate Magic Array.

In this land, the Yunmeng Swamp, is even more filled with the fog of illusion!

Under the rapid recovery of the pill.

In the blessing of the lucky charm.

Fang Qiong's strength has also skyrocketed, and he is only half a step away from the God Emperor Realm!

When the formation of annihilation phantom killing array.

The mist of the surrounding illusion began to merge into the formation.

The emergence of arrays.

Fang Qiong stood up, so Mo Li didn't expect it.

After all, didn't the killing formation be broken before and then seriously injured?

In just a moment, the magic hat rushed straight into the annihilation illusion killing array.

Everything is in Mu Fusheng's calculation.

Another expert from the Demon King's Realm also lost face when he saw this scene.

"I really think that even if it's just me, you can..."

However, the words are not finished yet.

The attacks of Mu Fusheng and the three broke out at this moment!

It's as if I didn't use my full strength before!

The blood-red wings retreated steadily amid the attacks of the three.

This strong man in the middle stage of the God Emperor Realm can clearly feel that he is getting weaker and weaker, and the essence and blood in his body are rapidly passing away!

Within two breaths.

The blood-red right wing was cut off by the sword-like silver dragon!

At the same time, Mu Fusheng's four ancient divine thunders took the opportunity to enter.

Rush into the wings from the break, from the inside to the outside, crazily penetrating and blowing!

Everywhere!

Click click click!

The huge thunder, accompanied by the screams of this middle-stage God Emperor Realm powerhouse, resounded through the world!

Xiao Hei's Nine Heavens Demon Halberd cut off the left wing.

That's it.

The strong man in the middle stage of the God Emperor Realm looks desperate, and the blood red wings are like a whale swallowing, absorbing his essence and blood, trying to replenish the broken place.

But it has no effect at all.

Until his body is drained and becomes a mummy...

Looking at this scene, the wolf king looked horrified.

Really killed?

absorbed the blood of so many people.

Among them even included a mid-stage God Emperor Realm powerhouse.

However, don't wait for him to think about it.

Mu Fusheng's figure descended in front of him like a **** of thunder.

His right hand sticks out, four different colors, but four ancient thunder powers with powerful power revolve around it.

Immediately, he suddenly pierced his heart towards the wolf king's chest!

Even if the wolf king blocked it with all his strength.

The thick layer of aura barrier, under Mu Fusheng's punch, was directly pierced through like paper!

Together with the penetrating one, there is also the heart of the wolf king, as well as the rapidly passing vitality.

I saw the wolf king looking at Mu Fusheng in disbelief: "You...your strength..."

Murdering intent flashed in Mu Fusheng's eyes, piercing through the arm of the wolf king's chest, and thunder surged!

directly smashed the wolf king's body into powder without leaving any traces!

You know too much, buddy.

Mu Fusheng thought to himself.

And just after the two were killed.

The time for three breaths has passed.

Kill these two people without any pause in between!

this moment.

The magic hat also broke free from the formation. Looking at the surrounding scene, his face was extremely ugly.

In just three breaths, the battle situation was reversed in an instant?

Don't wait for him to think about it.

The sword-qi silver dragon let out bursts of dragon chant, biting towards the magic hat!

Xiao Hei was also watching the movement of the magic hat, and also smashed away!

With the full power of the bloodline, the bloodline of the magic hat has also been suppressed to a certain extent!

this moment.

Mu Fusheng seems to be under the blessing of the lucky charm.

With the strength of the late stage of the God Emperor Realm, the four kinds of thunder powers frantically merged, and a giant thunder ball annihilated the space along the way and attacked the magic hat!

The attack of the three perfectly cut off the magic hat's dodging space, making it impossible to retreat, so they had to take it abruptly!

The magic hat let out a roar, and swept out the halberd in its hand!

One against three!

But.

Although it resisted the attacks of Xiao Hei and Ye Qiubai.

But what about Mu Fusheng, who is now showing strength in the late stage of the God Emperor Realm?

The power generated by the fusion and explosion of the four kinds of ancient thunderbolts made Mo Li unable to cope with the attack of the other two after spending all his energy!

Boom!

The huge power of thunder flashed in the entire Yunmeng Swamp!

Thunder and fire erupted from the ground, rose into the sky, penetrated the sky, and scattered the dark clouds!

Bright moonlight, come back to the world!

The magic hat roared unwillingly.

In the explosion of the thunderball, he wanted to speak, but he was completely annihilated!

The power of thunder completely covered this area!

The surrounding swamp monsters also fell directly.

The three powerhouses of Yunmeng City who are rushing over, as well as the powerhouses outside Yunmeng City, all have horrified expressions at this moment!

If it is said that the previous power has reached the late stage of the God Emperor Realm.

Then the power at this moment has at least reached its peak!

The peak of the God Emperor Realm, this is already the peak of the Yunmeng Starfield!

There will be no more than five people who can reach this level!

And when they get here.

found that there was no one there.

Although there are traces of a war.

But there is no breath of a person, or a person's body!

Clean!

Can't find any clues!

And there is no trace of cleaning.

As if everything is natural...

This made both parties dumbfounded.

When looking at each other at the same time.

They also began to suspect whether the other party did this on purpose, deliberately clearing the traces, in order not to let people find out who took away some kind of treasure...

And at this moment.

They were far away, but the four Mu Fusheng who were still in the middle of Yunmeng Swamp had already left using the Heavenly Thunder Escape Talisman.

"Find a place and finish the mission after recovering from the injury." Ye Qiubai said.

Mu Fusheng rummaged through the space ring of the Wolf King, and obtained a lot of information about Yunmeng Swamp from it.

However, it is also extremely limited.

After all, the forces outside Yunmeng City know too little about the news about Yunmeng Swamp.

Information has been monopolized by the three major forces in Yunmeng City...

"However, the death of the magic hat should be noticed by the Demon King Realm soon." Mu Fusheng said: "When the other party makes a move, I am afraid that the combat power will make it a little difficult for us to resist."

Ye Qiubai nodded: "We must make a quick decision and find one of Xiao Hei's three souls as soon as possible."

...

The conjecture of the four people is obviously correct.

In the domain of the Demon King.

When the magic hat's soul card shatters.

The current demon lord, Mo Ji, broke out with a shocking roar!

Chapter 1028: Liu Ziru: Don't cue

Mo Ji's angry roar was like thunder roaring, and quickly spread throughout the entire Demon King Domain!

The ground began to tremble, cracks criss-crossed, and rocks cracked. A series of huge ground fissures expanded to the surroundings, swallowing everything around, forming a terrifying abyss.

The storm is excited, and the wind howls.

The monsters and Moxiu all around felt the anger of the Demon Lord. The monsters poured into the forest one after another, and Moxiu immediately stayed away, enduring the shock and threat. Their body feathers stand erect, and their eyes reveal panic and anxiety.

In the end what happened?

Countless people looked up at the towering black hall.

Why is the devil so angry?

At the moment.

In the black hall, Mo Ge also rushed over, looked at Mo Ji, who had a gloomy face, and his blood was constantly leaking, and asked, "Devil Lord, what happened?"

Moji glanced at the elder who reported below with an ugly face.

The elder looked pale at this moment, trembling all over. Under Mo Ji's gaze, he tremblingly looked at Mo Ge and said: "General, General Mo Li... the soul card is broken."

General, naturally refers to Mo Ge.

And when Mo Ge heard the elder's words, his expression froze, and his pupils shrank suddenly.

"How can this be?"

Mo Ge suddenly turned his head, looked at Mo Ji, and asked loudly: "Didn't Mo Li go to Yunmeng Starfield to chase and kill that person?"

"Could it be that Haotian God Realm made a move?"

The magic hat is in the late stage of the God Emperor Realm, and at the same time, he also brought an elder who is in the middle stage of the God Emperor Realm and can use the blood sacrifice magic skill.

The power of Yunmeng Starfield, basically no one can threaten him.

If it wasn't for those people from Haotian God Realm who made the move.

How could the magic hat fall?

Moji's face was extremely ugly, and he said: "The aura displayed by the soul card at the end does not belong to the Haotian God Realm. I also asked the two god-level forces. Those who are above the late stage of the God Emperor Realm go out."

God-level powers naturally have their own eyeliners.

Although the undercover agents in Haotian Divine Realm were cleared when Lu Changsheng left.

However, based on the background of other god-level forces, if you want to rearrange the eyeliner, you still have the ability.

Mo Ge heard the words, his expression was full of disbelief.

It's not them, it's...that person?

Could it be that that person's strength has recovered?

"What should we do next?" Mo Ge gritted his teeth and said, "How about I go there?"

Mo Ji glanced at Mo Ge, and said in a deep voice, "The magic hat is already dead, so what's the use of you going?"

There is not much difference in strength between Mo Ge and Mo Li.

Finish this sentence.

Mo Ji turned around directly and disappeared into the black hall, only a few words lingered and drifted in the empty black hall for a long time.

"I'm going to the Yin-Yang Sect..."

Things have come to this point, Xiao Hei has grown to this point.

Then, it's time to let the two major god-level forces know, presumably they are also eager to capture Xiao Hei alive, and open that thing...

...

In Yunmeng City.

Mu Fusheng and the others returned to the city after completing the mission, delivered the mission, and got some clues about Yunmeng Swamp.

Beside , Cheng Yao, Yin Shilian, and Yan Xuan all looked at these four people with horror.

They knew that they were the ones who dealt with the Demon King Domain and the Blood Wolf faction.

"Time is running out, we must speed up the completion of these things." Ye Qiubai stopped suddenly, and said solemnly: "It is not enough to rely on the information given by these two missions and the information from the blood wolf faction wolf king. "

One of the three souls must be in the depths of Yunmeng Swamp.

And this information is only in the middle.

Mu Fusheng also nodded.

However, after his investigation, he found out.

"The information in the depths of Yunmeng Swamp is controlled by the three major forces. It is a top secret. It may be difficult to get it." "If you really need this information, maybe I can find a way." Suddenly, Cheng Yao said from the side .

Mu Fusheng frowned slightly.

As the daughter of City Lord Yunmeng, it is normal for Cheng Yao to have a way.

However, to be involved with Cheng Yao again, this is a bit embarrassing for a person like Mu Fusheng.

Ye Qiubai patted Mu Fusheng on the shoulder, "Time is running out, there is no way."

Mu Fusheng also smiled helplessly.

Cheng Yao seemed to see something, her eyes darkened slightly, and then she forced a smile and waved her hands and said, "Don't worry, all I can do is tell my father, after that there must be an exchange of interests."

Saying this is also telling them.

Among them, the only possible relationship now is interest.

"Then I will trouble Miss Cheng." Mu Fusheng nodded.

Yunmeng City Lord's Mansion.

Located in the center of Yunmeng City.

Outside the city lord's mansion, there are countless heavy soldiers guarding it.

It seems to be to prevent people from outside the city from making a surprise attack.

Led by Cheng Yao, several people came together to an open room.

It is inconvenient for Yin Shilian and Yan Xuan to follow at this time.

A middle-aged man came over and said with a smile: "You are the proud sons of heaven in the mouth of the little girl, right?"

This person is City Lord Yunmeng.

Ye Qiubai took a step forward, cupped his fists and said, "Senior."

City Master Yunmeng waved his hand and said, "I wanted to repay you when you saved the little girl, but..."

The conversation changed, the city lord frowned, and said seriously: "The things you need this time involve secrets and the fate of the entire Yunmeng City. What can you bring me?"

Cut to the chase!

On the way here, Ye Qiubai and the others had already discussed it. If even this cannot convince the city lord, then they have no other choice.

"It's very simple. We entered the depths. Presumably the city lord and the other two major forces have not fully understood the affairs of the depths, so we can help you play a forward role and find out the information."

The city lord nodded slightly.

But he didn't express his position, which shows that this is not enough.

Ye Qiubai continued: "At the same time, we can give you all the things we got in it. We only need one thing."

"Finally." Ye Qiubai took out a bottle of elixir, handed it to the city lord, smiled and said: "This elixir is called Yunfandan, and it can resist illusions."

Cheng Yao did not tell City Master Yunmeng about Yunhuan Pill.

After all, Mu Fusheng planted a talisman.

Nothing in it can be said.

When the city lord heard these words, his expression was taken aback for a moment, and then he suddenly got up from his chair and said loudly: "Is this true?"

Ye Qiubai nodded.

"To which stage can it be resisted?"

"There is no problem in the middle section, but the depth has not been tested yet, and there must be some effects."

Middle section!

The middle section is enough!

The city lord looked surprised and said, "How much can you provide?"

Ye Qiubai smiled and said: "We can find someone to send it over, but it's not a free gift, but a chance for you to trade with it."

Um.

Uncle Liu should be free.

Chapter 1029: Liu Zirui: I almost saw too much milk

For the forces in Yunmeng City.

Their main source of resources is the front and middle sections of Yunmeng Swamp.

For them, the price to pay in the depths is too great, and the danger is too great, so it is very rare to go to the depths.

Plan every three years.

So, Yunhuan Pill only needs to have an effect on the front and middle stages.

"duration?"

"With our strength, it can last for five days. The higher the strength, the longer the duration." Ye Qiubai said with a smile.

City Master Yunmeng laughed suddenly, then looked at Ye Qiubai and said, "If that's the case, then no other conditions are needed, as much Yunhuandan as you have, our three major forces will accept as much as you have!"

"I'm going to discuss this matter with those two old men, I'm sure I won't refuse, you guys..."

Ye Qiubai smiled and said, "I'll contact you now."

The city lord smiled and patted Ye Qiubai on the shoulder, "In this case, then wish us a happy cooperation in advance."

"Pleasant cooperation."

After being polite.

The city lord couldn't wait to rush towards the alliance of talisman masters and the alliance of formation masters.

After all, the pills like Yunhuan Pill are exactly what they urgently need!

Cheng Yao stepped forward with a smile, and said: "I said I would introduce you to father, but in fact, I know that you have the Cloud Magic Pill in your hands. With the temptation of the Cloud Magic Pill, it is impossible for father and the other two seniors to refuse."

After all, there is this elixir.

They will have access to countless resources.

The strength and background will be greatly improved.

At that time, those forces outside Yunmeng City will also become a thing of the past.

after.

Ye Qiubai and the others came to a courtyard to rest.

While Ye Qiubai saw no one around, Mu Fusheng also set up a talisman barrier.

Then he took out a jade pendant.

Pour immortal energy into it, and the jade pendant flickers.

Lu Changsheng's figure appeared in the space.

"Master."

At this moment, Lu Changsheng was taking a lunch break, but when he heard Ye Qiubai's voice, his body trembled subconsciously.

Then he quickly got up and cursed: "How long has it been since, you brat got into trouble again?"

Ye Qiubai: "..."

Mu Fusheng, Xiao Hei, and Fang Qiong covered their mouths to hold back their laughter.

My face was blushing...

Ye Qiubai glared at the three juniors, and then said helplessly to Lu Changsheng: "Master, there is no trouble, we are looking for Uncle Liu this time."

"No trouble?" Lu Changsheng stared, his face full of disbelief.

Respectful and fake? ? ?

"If you really want to get into trouble, you must tell me quickly. Don't delay the troublesome things. Once you delay, it will become more and more troublesome to deal with later!"

"Hey, tell me, I won't punish you this time as a teacher."

Looking at Lu Changsheng's serious expression.

Ye Qiubai was speechless again.

In Master's mind, is he really so unreliable?

Do you really like causing trouble so much?

"No trouble at all." Ye Qiubai smiled wryly and shook his head: "If you don't believe me, you can ask the pastor and them."

I thought Master would believe me this time.

It turned out that Master actually asked Mu Fusheng, Xiao Hei, and Fang Qiong all over again.

After confirmation. Lu Changsheng raised his head, with tears in the corners of his eyes.

"Finally, finally, it wasn't because of trouble that you came to me."

"However..." Lu Changsheng looked at Ye Qiubai again, and said impatiently: "It's okay to disturb my teacher's lunch break, do you think the punishment is too small? Why don't you clean up the entire longevity world next time?"

Ye Qiubai: "..."

Co-authoring is not okay?

"Okay, are you looking for Liu Ziru?" Lu Changsheng directly picked up the jade pendant and threw it to Liu Ziru who was beside him.

But when Ye Qiubai and the others saw Liu Ziru's figure, the four of them were dumbfounded.

I saw that Liu Ziru was paralyzed on the ground, his eyes were lifeless, and there was a crystal clear thing dripping from the corner of his mouth, as if he was about to die.

But the breath is stronger than before, and not a little bit stronger.

"This is..." Ye Qiubai and the others said.

"Oh, he's helping me test the medicine." Lu Changsheng walked over while talking, and patted Liu Ziru's face.

A wave of holy energy also entered.

Liu Ziru finally woke up.

However, his legs are still soft, like two sausages. Trying to stand up, but the result is like stepping on soft cotton. Every step I take seems to be stepping on thunder. I don't know if the next step will be a dog gnawing shit...

Ye Qiubai and the others were all distressed.

This is what I have experienced to become like this.

Liu Ziru looked at the four of Ye Qiubai among the jade pendants, showing a smile uglier than crying, and said, "What...what's the matter?"

In front of juniors, you still have to pretend to be decent.

However, in Ye Qiubai's eyes, they are already very embarrassed...

"We need Uncle Liu to run some errands."

Running errands? !

Liu Ziru's eyes lit up.

Good for running errands!

Then you can escape logically!

There is no need to try medicine anymore!

Although his strength has improved a lot from Lu Changsheng's weird pills, the process is miserable!

I almost saw too much milk several times...

This pain...

Family, who knows!

Liu Ziru nodded quickly and said, "Okay! Okay! I like running errands the most... No, no, I must try my best to meet the requirements of the younger generation!"

Huangqian on the side was speechless, and whispered: "Don't you just want to escape?"

Liu Ziru turned her head to look at Huang Qian, and shouted loudly: "What do you mean by wanting to escape? I am such a person? The elixir that Senior Lu gave me, although it is a little bit wrong, but my realm has already broken through to the half-step divine master It's gone!"

"Then you go ahead, I'll help them." Huang Qian joked.

Liu Ziru's face froze, and then he covered his mouth and coughed, "Um...uh, my realm breakthrough is too fast, so it's better to go out and stabilize."

Ye Qiubai smiled and said: "That's great, Uncle Liu, I need you to go to Wan'er Junior Sister and ask her to refine as many Yunhuan pills as possible, and then send them to Yunmeng Starfield. It is best to open up a space Teleportation array."

Liu Ziru frowned.

Mu Waner is now with Hongying and the others, sent from the mid-latitude realm to the high-latitude realm...

Want to get through the space teleportation array?

Even if Senior Lu gives him a scroll to open up the space teleportation array, it will take a lot of effort!

Ye Qiubai suddenly regretted: "Isn't it convenient for Uncle Liu? Then Sister Huangqian..."

"Don't, don't, don't!" Liu Ziru quickly waved his hand and said, "It's convenient! It's very convenient!"

Immediately, he immediately took several scrolls of the large space teleportation array from Lu Changsheng, and rushed towards the mid-latitude boundary.

He doesn't want to try medicine anymore!

Looking at Liu Ziru's back as he fled in a hurry.

Lu Changsheng turned his head to look at Huang Qian, and said with a smile, "My next pot of medicine is almost ready, Huang Qian, come and try it?"

Huang Qianliu twitched her eyebrows, turned around and left.

With Liu Ziru's lessons learned.

She doesn't do this kind of rough work.

Doesn't she want image?

Showing Liu Ziru's figure in front of Lu Changsheng, she wouldn't even want to kill her!

Chapter 1030: Mu Fusheng: Don't cue

Mid-latitude boundaries.

Hongying led the Yunhuang Empire to continuously rule the various forces in it, slowly infiltrating the Yunhuang Empire into the entire mid-latitude boundary.

Ning Chenxin, Shi Sheng, Mu Wan'er and Xiao Shitou are now helping Hongying in the Yunhuang Empire.

In a place called the Shadow Realm.

At this moment, Hongying brought a large army here.

When Liu Ziru arrived, Hongying and the others were slightly taken aback.

"Why did Uncle Liu come here?"

"Of course there are some things." Liu Ziru looked around, but did not find Mu Wan'er, so she asked, "Where's Mu Wan'er?"

Shi Sheng pointed to the back, and said, "Junior Sister Wan'er is refining pills in the alchemy room at the back."

Liu Ziru looked over.

Sure enough, there was a faint fragrance of Dan coming from there.

"It seems that it is almost over, so let's wait for her to come."

When the elixir comes out, it means that the elixir has reached the final stage.

Sure enough, Mu Wan'er walked over within a short time, and handed a space ring to Hongying at the same time.

"Senior Sister, the elixir here should be enough for people in the army."

Hongying nodded with a smile, and then said: "Thank you, Junior Sister, oh yes, Uncle Liu is looking for you."

oh?

Mu Wan'er looked over, saw Liu Ziruo walking over, and said directly: "Your elder brother asked me to tell you to refine a batch of Yunhuan Pills."

Afterwards, he told Mu Wan'er what Ye Qiubai had told him before.

People around also heard it naturally.

Mu Wan'er smiled and said: "It seems that senior brother found a business for senior sister."

Shi Sheng asked suspiciously, "What do you mean?"

Hongying explained with a smile: "It's actually not so troublesome to trade with Yunmeng Starfield with Yunhuan Pill, just hand over the pill formula over there."

"But the senior brother let the junior sister Wan'er refine it, which means that his intention is to have a long-term cooperation, and use the Yunfandan to trade with powerful forces in the high-latitude realm in exchange for resources."

"And these large quantities of resources are of little use to us personally, and are actually used to replenish the Yunhuang Empire."

Mu Wan'er took over the conversation and said: "At that time, I only need to tell the alchemists of the Yunhuang Empire the refining method and details of the Yunhuan Pill."

so.

The Yunhuang Empire will be able to continuously obtain resources in the high-latitude boundary.

This point is undoubtedly of great help to the current Yunhuang Empire.

Liu Ziruo listened from the side and said with a smile: "You brothers and sisters have a tacit understanding."

Separated by a latitude, you can still consider each other, and it's just right.

It's because of his errand...

...

Yunmeng City.

After a day.

City Master Yunmeng brought the two old men to the courtyard of Mu Fusheng and the others.

"These two are the leaders of the Alliance of Talisman Masters and the Alliance of Array Masters."

After some greetings.

The two leaders asked impatiently: "How many pills can be supplied at a time, and how often can they be supplied?"

As for the effect of Yunfandan, they have already found someone to test it.

The result was beyond their imagination!

So the three people's desire for Yunhuan Pill, it can be said that no matter how much it costs, they must get it.

Ye Qiubai smiled and said: "We don't know all of this, but it probably won't be too long."

Just wait for Uncle Liu to bring the space teleportation array here.

"As for the specific price, someone will naturally negotiate with the three seniors."

Speak, Ye Qiubai's eyes fell on City Lord Yunmeng.

Seeing this, City Lord Yunmeng naturally understood the intent of this look. "The news is all right, but for the first time to enter, our people must go in with you. After all, if something happens to you, the deal with Yunfandan will be terminated, not to mention the depths of Yunmeng Swamp, even if it can resist the In the terrifying mist of illusion, all the swamp monsters in it have reached the God Emperor Realm, and, according to records, there is a swamp master at the level of a **** lord in the core..."

Heard the words.

Ye Qiubai and the four looked at each other.

That's what I said, but I actually want to pay attention to their movements.

I'm afraid the four of them have other purposes.

"no problem."

After exchanging glances, Ye Qiubai nodded.

Seeing this, the three City Master Yunmeng breathed a sigh of relief.

Immediately, he handed over the information to Ye Qiubai.

The three of them left and agreed to leave in a day.

Open the information and take a look.

There is information about the depths of Yunmeng Swamp, but there is actually not as much information as imagined.

The range of depths is extremely small.

However, the monsters among them are also the most concentrated.

And they are all in the God Emperor Realm.

At the same time, in the deep swamp, there is also an earth-shaking difference from the previous middle section.

There is a gravitational magnetic field in it!

Once a little bit stuck in the swamp, it will be immediately pulled by the gravitational magnetic field, and then even if you want to break free, it will be extremely difficult.

Continue to look back.

Suddenly, there were two red marks that completely attracted the attention of the four people.

These two places are marked in red.

has a separate comment above.

Although there are heavy treasures, they are extremely dangerous.

Even at the peak of the God Emperor Realm, the probability of survival is extremely small.

This made Ye Qiubai and the others frown.

Not surprisingly.

One of the three souls, probably in one of the two red dots.

However, even at the peak of the God Emperor Realm, it is difficult to survive. Can they really enter it?

Ye Qiubai said at this time: "Perhaps, they are based on the fog of illusion."

Fang Qiong nodded: "What if we overcome the gravitational magnetic field?"

These two problems are the most troublesome places for the three major forces in the depths of Yunmeng Swamp, except for monsters.

After solving it, the difficulty will probably plummet.

How to overcome the gravitational magnetic field?

Xiao Hei said: "Since the gravitational magnetic field is to increase the gravity around us and our own gravity... On the contrary, we can reduce the gravity around us to offset it, isn't it good?"

Fang Qiong frowned and said: "If you want to reduce gravity, what else is there besides the principles of ventilation?"

Suddenly, Ye Qiubai looked at Mu Fusheng first.

Xiao Hei and Fang Qiong followed closely behind.

Mu Fusheng, who had been thinking beside him, felt the eyes of the three people, and suddenly his body trembled.

no.

Why are you staring at me? ? ?

It's only a day, you want me to create a talisman that reduces gravity, and it's still used to offset the gravitational magnetic field at the forbidden level of life in Yunmeng Swamp.

Are you crazy, or are you thinking too highly of me?

Ye Qiubai patted Mu Fusheng's shoulder with a smile, and said, "Those who are able should work harder."

Xiao Hei pressed Mu Fusheng's other shoulder, and said, "Who told you to hide your strength? I'm afraid you have hidden a lot."

Fang Qiong made the last cut: "So, with the hidden strength of Brother Priest, it should be easy to do."

Mu Fusheng vomited blood.
