

## Chapter Two (Mature Content)

Zayn

Do you think we'll ever have a pup of our own?

I couldn't stop thinking about what Hope asked me. None of this was her fault. All the agony she had been through in the past was because of me, the rogue attack by Crystal, the bracelet by Stephanie, her kidnapping, I even trusted Alex to pick her up from school and take her places when I should have been the one to do it, but I trusted the bastard. I can still feel my skin crawl when I think of the times he was alone with her.

Not only did the people around me hurt her but I did too. I constantly tried to tie her down, it was the only way I could think of to keep her safe. But in the end I couldn't keep her safe, she was taken by my so called best friend from right under my nose. Now, more than a year later and I'm still paying the price and unfortunately so is she.

I honestly don't want or need anyone but her. Pups or no pups she's mine forever. But I know she wants to start a family and because she is a pure soul I know the Moon Goddess will grant her whatever her heart desires. Hope's wolf is also a descendant of the Moon Goddess so I hope that she hears my prayers and doesn't let Hope suffer.

A few months ago my curiosity too me back to Main with Hope, Kyle and his mate. I looked around the estate room for room in search of any clue as to how Edward and his son knew that Hope's wolf was extraordinary. My only conclusion was that the same way the witch sensed Hope was pregnant she must have sensed that her wolf was powerful. They put her through hell and even though she didn't feel the pain they did take away her rest pup.

Hope refused to bring anything back from the room the mother fucker had her in. She piled up all her belongings and lit them on re in the courtyard. What pissed me off the most was the estate was in Hope's name. The mother fucker had put the estate in her name as a gift to her from him. Kyle found the deed to the property in one of the bedrooms which Hope identified as Alex's bedroom.

I tried as hard as I could to stop the vile thoughts going through my head as to how many times had Hope been in his room. I knew nothing happened between them. The fucker tried and tried but she always told him she wasn't ready for any kind of relationship with him.

My baby is determined to sell the property and donate the money to charity. But Kyle said the location of the estate was strategic especially since the property borders the Atlantic Ocean. Since that day no further plans were discussed and Hope had not decided what she wanted to do. One thing was for sure though she never wanted to step foot in that f\*\*\*\*g forsaken place again.

Today is Mother's Day and Hope has a big picnic lunch planned for all the moms and soon to be moms in our pack. We also have plans to take out her mom and my mom for dinner tonight. I actually think dad and Brian enjoyed the thought they started making plans of their own.

I was in my oce discussing our latest innovations in security technology with my Beta and pain in the f\*\*\*\*g ass brother Kyle, when Hope walked in.

"Hey" She smiles at Kyle and walks over to me

"Hey baby" I lean back in my seat and tap my leg for her. She sits down and kisses my cheek.

"You wanted to see me?"

"Yeah how's your Mother's Day picnic coming along are they having a good time?" I asked her while moving her hair over to one side so I could kiss her neck.

"Yeah they're having a nice time I gifted each one of them a gift card too"

"Oh you're so sweet" Kyle said to her a little too excited for my liking. I pull Hope into my chest. She looks at me and kisses my jaw

"Baby have you decided what you want to do with the property in Maine?"

"You guys can do whatever you want with it as long as I don't have to go there. And if you don't have any use for it then I'll sell it, donate some the money and use the rest of it to buy more land around our territory for agriculture. It's about time we start planting our own crops rather than buying it."

I smiled at her

"Damn!" Kyle says making her shrug her shoulders.

"It only makes sense. We are a huge pack, do you know what it costs to feed the whole pack every day?"

"Sounds like a plan baby. Whatever you want" I kissed her on her shoulder. She got up but I pulled her down

"I want to get back to the picnic, Maddox is there with Mandy"

"Okay what time are we leaving tonight?"

"I made reservations at seven so let's be ready by six" She said getting off my lap and heading towards the door"

"okay"

"Have you guys eaten or should I bring lunch in here for you?"

"No, I promised Carrie we'd have lunch together today thanks though"

"I'm not hungry right now, I'll see you at home okay" I said watching her leave. She nodded as she left then turned around and blew me a kiss.

"I like her idea a lot" Kyle said

"Me too" I paused still in awe of smart my baby is "Make the calls needed and make sure to get the best deal"

After Kyle left I walked up home to relax a little before dinner. I lay down on the couch in the library when my phone chimed with a text message.

Hi Zayn, long time no see, or should I say Alpha Zayn? It's Eva I'm back in town and hope we can meet up soon xoxo

Eva was a close friend of mine and pack member who moved to another pack abroad ve years ago.

Hi Eva, it's good to hear from you what brings you back to town?

Oh you know me I get bored in one place. Let's meet for dinner and I'll ll you in.

Sorry I can't tonight I have plans with my mate.

Oh you have a mate? Wow that's great congratulations! When was this and do I know her?

I found her a year and six months ago and I've never been happier. She was born and raised in our pack. I'm sure you know her or at least you know her parents.

When Eva left the pack, Hope was about thirteen years old so with Eva being my age I don't know if she would recall Hope. But she denitely would remember Brian and Katherine.

Well I hope we can still meet soon. Maybe you can bring her with you. I'd like to see who nally tied you down.

I smile to myself only Hope could change me. Only she could make me only want her for the rest of my life.

Okay why not I look forward to it. I'll set something up soon. Bye

I put my phone down and rested my head back when Hope walked in. She was glowing.

"Hi" She said lying down next to me.

"Hey baby" I pulled her on to my chest.

"I missed you" She said in a low voice wrapping her arm around my waist. She literally has me in constant erection mode when she's around.

"Me too" I gripped her chin up and brought my mouth to hers. I kissed her slow savoring the taste of her warm mouth and her wet tongue against mine. f\*\*k. I wrapped my arms around her and sat up, she was now straddling me. I ran both my hands through her hair admiring how beautiful my baby is. She's always breathtaking but today she had a sparkle in her eyes and her natural sun kissed skin was glowing.

She was looking right back at me with so much love in her eyes. She latched her mouth on my neck and kissed then started sucking on her f\*\*\*\*g mark making my raging boner hurt for her p\*\*\*y.

"Stand up baby" She looked at me then stood up. She knows what I want.

"Take your clothes off nice and slow. Give me a show"

She brings her hands to the hen of her shirt and lifts it over her head leaving her in a sexy as f\*\*\*\*g hell black lacy push up bra. This woman wears the sexiest lingerie just to tease my c\*\*k. She throws the shirt at me and giggles making me so f\*\*\*\*g hard. I stare at her almost drooling as she starts moving her hips in the most erotic and erotic way and gradually undresses until she's left in her skimpy panties. f\*\*k. I let my eyes scan her from top to bottom lingering around her breasts a bit. I rub my aching d\*\*k. f\*\*k I can't take this much longer.

I gesture for her to come closer with my index nger. She obliges swaying her hips and straddles me again. I moved my temptress's hair off her shoulder and come down to her neck. She moans as I suck and lick her neck making sure to leave light pinkish marks in my wake. Then cup her face and suck on her lower lip enjoying the sounds she's making. I take both her lips into my mouth slip my tongue back into her mouth.

My body is on re with tingles and I can tell she's enjoying the electric feeling also. Our kiss is so slow yet so lthy, she starts grinding down on my boner and starts unbuttoning my shirt. She's in such an erotic rush to get me naked that she fumbles with the buttons. Anxious little horny thing.

She growls lightly forcing a chuckle out of me at how f\*\*\*\*g cute she is. "Shhh baby I got it" I comfort her and unbutton my shirt while she hungrily watches. I let her take it off me, her eyes a very dark shade of green now as she licks her lips watching my chest. I lean back on the couch watching her for a while longer enjoying the view in front of me. She rubs her hand over my erection trying to grip me through my pants. f\*\*\*\*g hell. I wrap my arms around her, she leans into me and bites my lower lip. A loud growl rips through me, I need to f\*\*k her now.

She starts undoing my belt I lift up a little and slip down my pants and bring her lips back to mine again. Our tongues start gliding against each other while tasting each other. I grab one of her t\*\*s rub her hard pinkish n\*\*\*\*e. While the other hand moves down her tight stomach to her panties moving them to the side and nger inside her. She lets out a horny cry as she jerks back and starts riding my f\*\*\*\*g ngers. She turns me into an animal.

I remove my ngers and lift her off me abruptly. In seconds I have her bent over the couch my d\*\*k pounding into her again and again. I grabbed her hips tight slipped out only to slam back into her tight p\*\*\*y. I pound hard and fast telling her all the lthy things I'm going to do to her. Her cries and moans have me in the most primal state as I ght Hunter for control. When I feel her walls tighten around me I start to f\*\*k her faster and grip her hair lifting her head up a little

"Come for me and scream my name" I growl out I reached around her and pinched her n\*\*\*\*e then rubbed that she has in a while. I eager torturing her from behind and slap her ass lightly wanting to hear more of my favorite sounds. She stands up lazily and faces me. She slides down my boxers then takes my c\*\*k and starts pumping me

"I want to f\*\*k you" I tell her

She pushes me down on the couch and kneels between my legs staring at me like I'm her last meal. She licks her lips then takes my c\*\*k in the palm of her hands pumps a few times then lls her mouth. She's a vixen and I love it! She uses both her hand and mouth bringing me closer to the edge. Just as I feel my balls tighten and my back is on re. I lift her chin up so she looks into my eyes.

"Stop sucking my d\*\*k I want to f\*\*k you" She grins but does what she's told I'm going to f\*\*k her brains out just because she's a f\*\*\*\*g vixen. I lay her down on the couch and get in between her legs grabbing her by the hips towards me so her ass is suspended in the air a little and I slam into her again letting out a erce growl. Her walls stretch to take in my d\*\*k once more and I beat into her tight p\*\*\*y over and over until my spine was on re. I move my eyes away from where our bodies are connected and stare at her mesmerizing eyes as I f\*\*k deep into her. In and out in and out harder and faster until I grunt out her name and spill into her tight p\*\*\*y. Ropes and ropes of c\*\*m emptied deep inside her,

"f\*\*\*\*g hell baby you're amazing" I praised her. My orgasm wouldn't stop, my c\*\*m kept rolling out deep into the gorgeous woman who was soaking it all up.
