

## Chapter Five (Mature Content)

Zayn

If Eva came here I don't want to even think about what would happen with Hope. Her walls are already up and she can barely look at me. So I did what I had to keep Hope. I texted her back quickly

"As Alpha of this pack, you are not welcome here until I allow it or my Luna allows it. So don't bother coming here. I already told you I have a mate and cannot lose her. I will meet you somewhere else so we can talk."

I didn't want to hurt Hope any more than she was already hurting, and I couldn't let Eva come here. If Hope saw her she would leave me for sure, the only way to settle this would be to meet Eva somewhere soon. This was my chance of finding out what the hell is going on and put an end to all this.

Hope was in the shower and I had a ton of work to finish but I couldn't focus on anything with her mad at me. So I waited for her to finish. I had the urge to walk in on her shower and fuck her senseless. I really miss her but she is so infuriating sometimes, no most of the time, she drives me crazy.

She walks out the bathroom with a towel wrapped around her

"Why are you still here?" She asked looking away from me. Fuck.

"I can't be in my own home?" I asked as she walked by me towards her closet. I grabbed her by the arm and pulled her down onto my lap. She tried to get up but I wasn't letting her go anywhere.

"Please, let's talk" I pulled her closer into my chest and wrapped her in both my arms.

"How is any of this my fault?" I asked her running my hand through her wet hair.

She took a deep breath and looked right into my eyes "It's your fault because you haven't rejected her"

Well fuck. She was right I hadn't rejected her but I will after I talk to her.

"Baby, first of all Hunter never acknowledged her as my mate. And second if she is my mate I will reject her but I can't do it before talking to her. She was once my friend and I owe her that"

"You owe her that?" She asked and tried to get out of my grip.

"Yes, I do. She and I were friends once just like you, Jason and Gavin you gave them both a chance and you saved both of them. I'm going to reject her if she's my mate but after I talk to her and explain that I have a mate and don't need anyone else."

"I don't want you to go see her. I don't trust her." She said glaring at me. Feisty, I like it.

"I told her I'd meet her soon"

"When did you talk to her?" She tensed up again and turned away.

"No, no don't do that Hope." I turned her face towards me so she wouldn't get lost in her own thoughts

"She sent me a message that she was coming here but I don't want her presence here to upset you, so I told her we'd meet somewhere else."

"No! I saw how she was looking at you!" She raised her voice. I won't judge her I would kill anyone who tried to take her away from me.

"I'm going to meet her for a drink that's all, you have to trust me" She didn't respond

"Do you trust me?" I asked

"I trust you but I also saw the way you looked at her"

"I'm sorry I felt a slight pull towards her but that's it I don't want anyone but you. And I wouldn't do anything to risk losing you or what we have." I brought my hand up to her face "Please trust me"

"I want her to come here, you can talk to her here. In your office or wherever not here at our house"

"Of course I'd never bring her here to our house" I kissed her shoulder "Are we ok?" She looked at me apprehensively then nodded her head.

"Words baby"

"Yes, we're okay. I love you" She said. I was so fucking relieved.

"I love you too"

Finally, she wrapped her arms around my neck and hugged me tight. I stuffed my head into the crook of her neck. Heaven. I hate fighting with her.

"Did you have a good run?" I said running my hand up her leg

"Yeah I did and I met another Stark wolf"

"Really? Wow how did that happen?" I asked thinking about all ways I'm going to make her scream my name in a few minutes

"It just happened when I was out running"

"Does she have the same powers as you?" I asked tracing my fingers up her arm I love watching how my touch leaves goose bumps on her skin

"He does yeah" I immediately snapped out of the trance she had me trapped in

"He?" I glared at her. I must have misheard her

"Yeah he, I met another Star..."

"I heard you the first time, why are you out meeting other werewolves" She winced at my tone.

"I'm not out meeting other wolves, I was out jogging and he said hi that's all" She said. I was fuming. All prior thoughts of fucking her flew out the window.

"What pack is he in?" I asked then remembered what she was wearing before her shower.

She thought about it for a second, "He didn't say, why are you so angry?" She looked at me innocently, pushing every fucking one of my buttons.

"I just met a guy while jogging that's all, you have to trust me" She ironically used my words against me batting her lashes at me. I do trust my fucking enchantress.

She got off my lap to go get dressed. Not so fast Hope. I pulled her back, tearing the towel off her body and tossed her on the bed. She shrieked as I took my shirt off and got on top of her. I took both her hands in one of mine and pinned them over her head

"So what does this fucking new friend of yours do?" She laughed as my other hand roamed all over her tits and down to her stomach. I squeezed lightly at her side where she is ticklish. She broke out laughing and arching her back.

"Answer me" She kept laughing and wiggling to get free. Hearing her laugh made me smile. I wish we could stay like this forever. Minus her meeting some fucking guy and minus Eva and all the drama.

"He said he's the Beta of his pack" She said laughing because I kept tickling and torturing her

"He must have a death wish for talking to you" I took one of her tits and rubbed at the hardened nipple. She closed her eyes and arched her back up a little

"Open your eyes watch me" I ordered, my voice thick. She opened her lust filled eyes and stared at me, I latched my mouth around her nipple and sucked then licked. I was lost in her eyes but continued my assault on her tits licking, sucking and rubbing until she was making the sexiest sounds.

"Who can only make you feel like this ever?" I asked freeing her hands and moving mine slowly down to her wet pussy. I slid one finger down the middle between her swollen pussy lips.

"Tell me" I growled. She moaned then answered me

"You" She whispered and ran her hands through my hair.

Hope

His lips twitched into a smirk, he looked at me with triumph and if I didn't want him to continue what he was doing, I would have slapped that smile off his gorgeous face. His body was pressed down against mine and I could feel his huge erection against my thigh making me want him even more.

"Undress" I said. He let out a light laugh

"At your command baby" He said his voice wild with passion. He took off the rest of his clothes and came back down to me. He's mine and only mine forever.

I wrapped my arms around his neck our eyes met before I leaned up and softly bit on his bottom lip. He let out a growl in approval before cupping my face and swiftly taking over my mouth. He snaked his tongue into my mouth. My whole body was on fire, a fire that only he could put out.

I ran my arms up his muscular back, to his shoulders as he kissed my neck then my lips again before moving down to my breasts. He dug up on his knees raking his eyes over my naked body and the next thing I knew he lifted me up with his strong arms so I was on my knees right up against him. His hands roamed from my butt to my waist then slowly over my stomach and sat below my breasts, his eyes hungrily watched my hard nipples

"You're so beautiful Hope" He licked his bottom lip "I've never seen anyone close to your beauty" His eyes were burning with desire. He cupped my breasts with both hands and dove down sucking hard then licking creating a beautiful pattern. Sucking then licking until I saw stars. I reached down and took his manhood in my hand and started pumping him nice and slow. His big, hard erection made me want him to take me rough and hard. I got down on my hands and knees in front of him and quickly took him into my mouth.

"Fuck" Zayn groaned as I sucked off his big erection.

"mmm You taste so good" I told him. He wrapped his hand in my hair and watched me suck him off. I loved to see him like this, to see him lose control under my touch. I felt his balls tighten so I looked up at him licking my lips. He took me by the waist and laid me down again. My knees were bent so he settled between my legs and spread them wide open taking it all in.

"You are delicious" He said seductively before plunging in. I let out a soft moan at first then couldn't help how loud I was moaning as he sucked on my core. When I was close he used his thumb to rub against my clit in small circles I grabbed on to our sheets and pushed him out his name as I came all over his tongue. To intensify my orgasm he dove his finger inside me and started pushing in and out roughly until I couldn't take anymore.

"I can't live without you" He said as he came down to my lips for a passionate kiss. Tingles ran through my body like lightning bolts. I felt him rub himself then slide into me with one quick push. My walls accommodated his large manhood as he thrust in and out of me at a fast pace his eyes never leaving mine. When he was close he pulled out, got up on his knees, put his hands on both of my knees and pushed them up towards my stomach before pounding into me again.

"Tell me how it feels"

"It feels so good so deep like this" I managed to say because of how fast and rough he was taking me. In and out he kept pounding while he looked down at where our bodies were joined

"Zayn" I screamed "I'm ..."

"Come for me again" I threw my head back and screamed as another strong orgasm hit me hard. As if on cue, Zayn grunted out a string of curses and emptied all he's got deep inside me. I felt him twitching inside me again and again, as he gave me all he has to give.

He collapsed next to me and pulled me onto his chest. I don't know if it was the awesome sex we just had or that I was emotionally drained but I yawned and felt myself drift off to sleep. The last thing I heard was Zayn voice

"Sleep baby I love you"

Zayn

I was nally relaxed and my thoughts collected. Hunter was nally calm. I had everything I needed right here. So what if I rejected Eva from afar...No I couldn't do that. We were good friends once. Just then my phone chimed. I immediately picked it up and opened the message so Hope wouldn't wake up.

"Can we meet tonight please we need to talk"

"Okay come we can talk here" I texted her back

"I'd rather we talk somewhere else. I know you want to reject me so I'd rather you do it privately but rst we should talk"

"Okay meet me at Nick's Bar at six I won't be staying long so don't be late"

"Okay I'll see you there" She texted back

I held Hope tight. It felt so good to hold her. After a few minutes I got up, got dressed and went down to my office to try and nally get some work done.
