

## My Mate Chapter 15 - Tips

Hope

I've been to Hawaii twice, once with my parents but that was when I was 11 then when I turned 16 my parents surprised me with another trip for my friends and I. Of course I had three warriors tag along as body guards but it wasn't so bad they were just there to make sure we were safe.

That was only last year and it was the best 5 days of my life...but I have a feeling Zayn is going to change that.

"Have you ever been to Hawaii?" He asks me kissing my hand.

"I have, yes."

"I remember every time you went away Hunter was angry until you came back"

I look at him confused, "You knew we were mates back then?"

he lies down on the couch and pulls me on top of him, "I felt a pull towards you as soon as I turned 18 but you were like 7 or 8 so I ignored it...and when you would go away on trips with your family Hunter would give me a fvcking\*g headache with his bad mood.

"Oh ok, well the last time I was in Hawaii was last year with my friends." He flinches, and his expression changes.

"What friends?" he looks at me with his eye brows furrowed together,

"Friends from the pack" I say rolling my eyes at him.

"Don't roll your eyes at me little girl"

why is he getting mad?? I get up off him and fold my arms together against my chest, "Little girl?" I ask Ughhh I wish I could punch him!

He sits up and looks at me right in the eyes, "Who did you go with?" he asks again emphasizing each word.

"I said friends from the pack, you know who my friends are!" I say almost shouting.

He sits up and runs his hand through his hair "Lower your fvcking\*g voice, there's no need to yell."

"there's no need to curse or call me little", I glare at him.

"So Jason was there." he rests his elbows on his knees with his head in his hands.

"Yes, so was Derek and Eric, April, Emily and Amy." he remains silent so I continue, "This was last year and Jason is my FRIEND...why does he bother you?"

He looks up at me, "Because I know he wants what's mine"

"What's yours?? hmmm and why is it you felt a pull towards me but you still went around sleeping with every she-wolf in the pack aren't you supposed to be mine as well?"

"You were too young Hope! and I didn't know for sure you were mine, I thought Hunter was just being protective because you were Emily's friend or something....You were too young", he says again, "And don't just insinuate that I have been with every she- wolf in the pack!" he's glaring at me

I'm really getting mad now or is it jealousy.. I don't know, I just know I hate feeling this way.

"Ohhhh ok, so I can't insinuate about you sleeping around but you can about Jason!? ... news flash Zayn, I never slept with Jason or anyone else for that matter!"

He looks up at me, then stands up and tries to take me into his arms but I push him away.

He growls "Don't ever push me away" he pulls me into his arms, "I'm sorry...it's just the thought of you and that a.ssh0le drives me and Hunter both crazy" I stay quiet. "I'm sorry baby" He says again as he nuzzles his head into my neck and stays there inhaling my scent which I know calms him. "I hate fighting with you", He says

I'm still angry but I melt into him, "me too", I say then give him a quick peck.

"Let's get some rest" He looks at his watch, "we still have four hours before we land."

I do feel tired it's been a long day but there's noway I can fall asleep now but laying next to him sounds nice "ok," I sit down and start taking off my shoes, he's still standing watching me

"What?" I ask he doesn't answer he just picks me up bridal style and I yelp then wrap my arms around his neck giggling.

"Lets go to the bedroom" He says.

"I didn't see a bedroom"

He walks toward the end of the jet and slides the door open to a private luxurious bedroom "Here it is" He puts me down and I stand shocked for a minute.

The room is elegant and big, with a modern bed and it even has a bathroom with shower. "I've never seen anything so big! I have to shower in here!" I say excited.

Zayn starts to loosen his tie, "I have something big for you" He says and I almost drool at how hot he looks taking his clothes off.

He comes over and stands behind me and starts rubbing my shoulders, "We can shower now" he says seductively with his mouth pressed against my ear.

I could feel myself blush, "I said I not We"

He chuckles, "Awww come on I'll behave", The bulge in his boxers says otherwise. Wolves, that are of age, feel the mate bond right away and at full strength so I know he's having a hard time controlling himself right now.

The shower basically has glass walls so it's all see through to the bedroom. Even though I want to I won't be using that shower tonight "I don't think so", I say smiling I turn around and k!ss him. "I hope you booked me my own room at the hotel"

"Hell no", he says then picks me up and playfully throws me on the bed, I try to move back away from him laughing so hard but he's on top of me in a

second and I lose myself in his beautiful dark eyes. His aura is so dominating, he is truly an Alpha.

He pauses for a minute, then leans down and kisses me. His mouth tastes so good, his kiss is dominating but full of passion. He leans himself up on his elbow and his other hand is roaming all over my body, then he snakes his hand around my back and unzips my dress, he gets up on his knees and peels it off my body his eyes never leaving mine. When I'm left in my strapless bra and panties he moves his eyes down over my chest, "You're so beautiful Hope, and sexy.....and MINE."

His eyes are a few shades darker now. He brings his hand to my neck and trails it down to my shoulder while he slowly places soft little kisses all over my face, then he snakes his hand behind me and I know what he's going to do so I arch my back up a little and he takes my bra off easily.

"fvck" he says as he starts to suck and lick my breasts driving me crazy. With his mouth latched on to my hardened nipple he moves his hand slowly down my stomach. I swallow hard, what is he going to do? should I stop him? but it feels so good.

As if he can read my mind he says, " If you don't want this stop me now, I won't ever do anything you don't want me to do." He moves down and kisses my hipbone, then he kneels between my legs and looks at me. I lean back a little our eyes still locked together, he smiles at me then hooks both hands at the sides of my panties and pulls them down fully exposing me to his lustful eyes. He licks his bottom lip as he watches me.

A gasp escapes me when I feel his mouth on my bare skin, I can't help the sounds I'm making as he licks and sucks at my core. My whole body trembles at the foreign feeling, I hear him curse but I can't focus on anything but the pleasure he's giving me. His movements become a bit rougher and he speeds up making my body shiver. He holds me in place with one of his hands and he rubs me with the other as his tongue licks and sucks making my body shake with pleasure and a loud moan escapes me.

"Come for me" he demands and continues at me as I close my eyes and reach my first orgasm. He keeps going then slows down knowing I've reached my peak. He pulls away from me for a second giving me time to come down from my high, I've never felt this relaxed. He lays down and pulls me into his chest.

“You’re everything to me, I can’t ever lose you” He runs his fingers through my hair, I feel so shy but I can’t help but look up at him, ” I love you Hope” He confesses.
