### Hope

It's late and I can't sleep I've been tossing and turning. I keep thinking about what's going on. I know I have to go back sooner or later but for now I don't want to deal with this mess and with his possessive nature.

He lied about her being in his room and I found her disgusting b.ra in his bed! What else is there to consider? I guess once a player always a player. I cannot believe I slept on his bed after she was there. I get out of bed, head towards the kitchen and make myself a cup of tea. I hate feeling like this, my life was so simple before him and yet, with everything that's happened I still feel pain when I think of my life without him.

All of a sudden I hear banging on the door. Who the hell could that be? then I remember that my grandparents are very close to their neighbors so one of them probably saw the lights on and came over to check who's here since they probably know that they are out of town. I walk over to the front door and open it, my heart drops as I quickly attempt to slam it shut again but Zayn shoves the door open easily.

I turn around to run but he grabs me "Let me go!" I screamed my own voice sounding alien as I struggled in his arms, hitting and kicking him but he doesn't even flinch. He places his hand over my mouth to get me to quiet down my back is against his chest.

"ENOUGH" he yells his voice sounding deeper than usual and more animalistic. He turns me around to face him, then pins me up against the wall

"What the fvck were you thinking?" He snarls at me. I don't answer him

"You left school without telling anyone and you turned your phone off! What if something had happened to you? did you even think of that before going on your little adventure?"

"Let go of me, don't touch me!" I try to push him away but he pulls me to him.

"You can not hide or run away from me ever!" He hits the wall so hard I yelp and cover my face.

The expression on his face falls when he registers that he just scared me and he tries to wrap his arms around me, but If he thinks he can come here and intimidate me, he's got something else coming...I'm a wolf too.

I start hitting him again and again, "Get away from me!" I push him back and make a run for the door and I actually get a few steps away this time before I hear him laugh then the a.ssh0le grabs me again.

"Where are you going to go Hope, huh?" He yanks my face towards him "You're not getting away so stop trying to run!" He growls and I huff.

"Go get your things" he demands."

"No! I'm not leaving"

He runs his hand through his hair, "Hope, I said go get your things now!"

What a j.erk! "I'm not going anywhere with you" I say sounding vulnerable.

He takes a step closer "Either you go get your things and walk out the fvcking\*g door on your own or I will carry your a.ss out myself...you're coming back home with me one way or another." He tilts his head to the side, "Go get your things and while your at it get me your phone."

I fold my arms together. "I said I'm not leaving! I don't want to go anywhere with you! you have some nerve coming here after what you did! Get out."

He puts his head down and runs his hand through his hair before looking up at me again "If you would just listen to me rather than throw a fit I would have told you that nothing fvcking\*g happened." He snarls showing his teeth.

I put my hands on my h!ps and start laughing at him, "Nothing happened? Then why did you lie to me about her coming to your room? and why was there a b.ra in your bed?"

"I lied about her coming to my room because I knew you would freak out...But nothing happened!"

"Freak out?...how would you feel if I was with someone?" How would you feel if I was the one sleeping around?"

He takes fast strides towards me and takes a hold of my face by the jaw "Don't ever say that again. I'm already pissed off and barely hanging by a thread" He warned then closes his eyes and takes a deep breath. "I will kill anyone who touches you"

I'm about to shout at him but he covers my mouth shut with his hand. "Stephanie came to my room and she purposely put her b.ra there for you to find. I was in the shower I didn't see her do it, but when I got out she had on a see through shirt with no b.ra. I threw her out...I cannot stand the sight of her or any other woman when I have you."

I can't help myself as tears start rolling down my face. I take a small step and lean into him "I'm sorry", I say softly.

He holds me tight and takes a deep breath "You don't need to apologize baby" He let out a sigh then tilts my chin up "But don't ever run away like this again, I mean it."

Just then his cell phone rings, "Katherine, I'm with her and she's fine and you were right she's at her grandparents house. We won't be coming back tonight" is all I hear him say before he hands me the phone.

As I talk to mom and apologize for worrying her I walk into the guest room where I have my things. Zayn follows me in and sits down on the bed he takes my hand and pulls me to stand between his legs. I'm still talking on the phone he h.ugs me around my wa!st and put his head on my stomach. I hang up the phone and hand it to him has I run my fingers through his hair. He looks up at me.

"Do we have to leave tonight?" I ask him

"No, we don't" he stays quiet still holding me around the wa!st as I reach for my phone and turn it on. I cannot believe the number of calls and messages I have. I lean down and k!ss Zayn, who's being awfully needy right now, on the his forehead. I can tell he's tired.

"Do you want to eat something before bed?" he looks up at me and nods with a dirty smirk on his beautiful face. I laugh at him. "Are you hungry? Have you eaten today?"

"I had breakfast." I feel so bad he hasn't eaten and he looks exhausted

"Come on" I take his hand and I walk ahead of him into the kitchen. "I ordered so much food but couldn't eat."

I heat the pizza for him and he has most of it with a glass of milk. After that we lay down in bed I snuggle into his chest and fall into blissful sleep.

## My Mate Chapter 27 - Tips

### Hope

I woke up and it was already noon, Zayn was asleep still, he looked so calm and peaceful in his sleep different from the scowl that he usually wears across his handsome face. I tried to get up slowly but he tightened his grip on me and growled softly.

"I'm never letting you go again." He said pulling me against him and rubbing his nose on my neck but his eyes are still closed. Oh my! he makes me melt, I felt the intense heat growing between my legs. I reached my hand down and took his hard and not so little friend in my hand and just as I expected his lust filled eyes shot open.

He quickly took both my hands and pinned them over my head with his left hand and lifted my shirt all the way up with his other hand. His hand roaming over my breasts ever so lightly, I'm happy I took bra off last night, I can't help my moaning, I want him. He brought his soft lips to my neck all the while he was kneading my already hardened nipples.

"Your arousal is driving me insane" he whispered in my ear then nibbled on my earlobe. "Tell me what you want baby"

I pause for a second I'm not used to this "I..I want you."

His deep raspy voice and his skillful hands are too much for me this morning, I kept squirming under him. He let go of my hands and flipped me over then wrapped his hand in my hair lifting my head back

"I want you too, more than anything and when I have you, you won't know what to do with yourself."

I could feel his erection on my bottom. He lifts himself up a little and lets go of my hair as he lifts my shirt up and above my head. I felt a shiver down my

back when he started to place soft wet kisses down my spine giving me goosebumps all over my body.

“Tell me baby.....how was it so easy for you to leave me, hmm?”

That’s when I realized he’s punishing me. Oh my goddess! He brings one hand around my stomach and with the other he grips my hip and lifts me up on my arms and knees.

“Are you ever going to run away from me again?” he growled as he spanked me lightly and I giggled.

He hooked his fingers around the sides of my panties and pulled them down my legs.

“I asked you a question” he demanded. This is a whole new level of dominance and for whatever reason he’s doing this now, I don’t want him to stop.

“No” I answer him.

He opened my legs farther apart and slipped his finger inside me and I couldn’t take the burning desire and need for him any longer.

“No, what??”

Oh my..

“No, I won’t runaway from you anymore.” My words sounded more like moaning.

“You better not.” He threatened.

He lifted me up now so I’m on my knees only and he is right behind me he brought his hand to my front and started rubbing me, while he grabbed my breast with his other hand torturing me with pleasure.

“How was it so easy for you to leave me? he asked yet again,

“It wasn’t .....please” I can’t help it I’m lost in a sea of pleasure and I am so close. He’s torturing me with his fingers rubbing me so slow and his seductive voice isn’t helping either.

“Please what?” He wants me to say something that I’m not used to saying, I couldn’t get myself to say it .. So, he brought his mouth to my ear

“Tell me baby....what are you begging for?” His warm breath and seductive voice brought my walls falling down. That was it, I had to say it or he was not going to stop this torture.

“I want to come” I said as I threw my head back on his shoulder.

“Please” I could practically see the glint of seduction in his eyes and smirk on his face as he made me beg for it

“Say you’re mine forever” He says aggressively.

Oh my, I need release, “I’m yours forever.” The words came rushed out of my mouth.

“Say it slower”

Grrrr “Don’t growl at me little wolf.” He threatened and spanked my a.ss again a little harder this time.

“I’m yours forever” I said slowly.

“Good girl” He seethed “Now you can c.um”

And he started to rub me a little faster and rougher, it didn’t take long before I let out loud cry as I come all over his fingers. He held me against him and kept his fingers where they were still rubbing while he whispered dirty things in my ear. After I could finally see straight again, he let go of my breast and brought his hand up to my neck then turned my face to the side and kissed me.

If this is how he punishes me, I wouldn’t mind getting in trouble. I broke our kiss and turned myself around so I was on my knees facing him now.

“Good morning little wolf” he smiled. I hid my face in his neck and he chuckled “I told you I could punish you”.

I'll show him! two can play this game of his.....I'm a strong wolf too, I pushed him down and yanked his boxers down. His thick manh00d sprung up and I wrapped my hand around him as I took him into my mouth.

"fvck" he grunts as he looks at me and I look him right in the eyes. I kept my hand on the bottom part of his e.rection and my mouth took in what I could from the top.

"Holly fvck" He said again.

I kept moving my hand and mouth until he was close and ready to spill. It was my turn for some fun, I slowed down, "Tell me you're mine" I said and he smirked.

"I'm all yours baby." He said lifting himself up on his elbows so he could watch what I was doing.

I took him deeper in my mouth and moved a bit faster until he reached his release with a grunt of my name on his l!ps. I continued to move until he fell back cursing

He pulled me up towards him "I love you" He said.

I gave him a quick peck "I love you too"

He tilted his head down a bit looked at me with so much emotion I almost had to look away.

"I'll never get enough of hearing you say that." He ran his fingers through my hair "Say it again."

I smiled at him then took his face in my hands, "I love you Zayn Black...My Mate."

I adore the smile that spreads on his face from ear to ear. We stayed in bed wrapped in each others arms and soon I heard him snoring ever so softly. I was hungry but being wrapped in his strong arms right then felt too good to get up and leave his side so I reached for my phone and messaged my mom.

Hi mom, we are still at grandma's I love you.

Hi darling, I can't wait to see you! this Friday night is the welcome party for Matt and Kyle's mates. I love you too, dad says hi and grandma and grandpa

are happy you are at their house but they want you to visit soon with your mate when they come back.

I also replied to Emily, April, Amy, and Jason. I felt bad that I worried them all. I love my family and friends. My mind drifted off to Stephanie. That b\*\*\*h better stay away from Zayn and I. I quickly shut out thoughts of her out of my mind and started reading on my favorite reading App.

A few chapters later I felt really hungry so, I slipped away from Zayn's grip and headed to the kitchen. I started looking through the fridge and decided to make us some sandwiches. I also made Zayn some coffee. I was busy in the kitchen when I heard a weird sound coming from the guest room so I walked back and found Zayn sweating as he whimpered and sank his claws in the mattress as if he's fighting something in his sleep. I got in bed again and knelt down next to him

"Zayn, wake up" I shoo him softly, he lets go of the mattress but grabbed my arm and I cried out in pain,

"Zayn it's me, wake up!" Finally, he woke up breathing hard with drops of sweat on his forehead.

He pulled me into his hard chest, "Hope, where were you?" He asked confused

I ran my fingers through his hair calming him down "I went in the kitchen to make us something to eat."

"Please don't leave me" He said and my heart tightened and ached for him.

"You were having a nightmare...tell me" I placed soft kisses on his face to soothe him.

He hesitated a little but then said, "I dreamt that you were taken away from me" He looked like he was in pain.

"I'm right here and I'm not going anywhere." He stared at me for a few seconds,

"Hope you cannot leave me ever again. I won't allow it!" He growled.

"I'm not leaving you" I assured him

He hugged me and I melted into him, "Zayn are you ok?"

"I told you once before as long as you're okay, I'm okay"

I smiled at him and kissed his forehead. "I'm hungry lets eat please."

He kissed my forehead before he pulled away from me, "okay, I'm hungry too"

We had lunch quietly together then we got cleaned up. He tried to get me to shower with him but I didn't.

"I can't shower with you at my grandparents house!" I argued

He raises his eyebrow at me "No? ....but you can suck my..." I quickly covered his dirty mouth with my hand. He laughed then gently bit my hand.

While he showered, I cleaned up a little, packed my things and we left my grandparents house. Zayn opened the door for me and put my seat belt on before he kissed me and got in the drivers seat.

As soon as he got in he took my hand. I looked down at our fingers intertwined in each other then up at him again "Zayn, what are you going to do about Stephanie?"

He glanced at me "Don't worry about her baby"

"She crossed a line Zayn and she needs to be put in her place, I don't want her thinking she has a chance with you."

He squeezed my hand gently, "I'll take care of it I promise" He said.

I stayed quiet. He said he would take care of it and that's enough for me right now. I yawned "Your birthday is this weekend" I looked at his gorgeous face and gave him a playful smile.

"What would you like?"

"I'd like you naked on my bed, legs wrapped around me" He said shamelessly, I smacked his arm.

"Do you ever not think of sex?"

“Actually, yes when I’m not with you I don’t think about se.x but when I AM with you, I can’t help it, you’re so fvcking\*g irresistible.” He said then k!ssed my hand.

I need to go shopping tomorrow and get him something for his birthday and figure out where to take him. Maybe I’ll take him out to a fancy dinner in the city. I would invite some of his friends but I haven’t met any of his friends other than Alex and he’s a part of our pack.

I yawned again feeling sleepy. “Baby try to sleep, it’s going to be a while until we reach our territory. I’ll wake you up when I stop for dinner.”

“Ok,” I leaned close to him and k!ssed his cheek before attempting to sleep.

Zayn

She leaned her seat back a little and closed her eyes. I felt so lucky to have her. She is fvcking\*g divine. watching her with her eyes closed I felt myself get hard. fvck! she turns me into a damn beast.

In less than a couple of weeks she turns 18. I cannot wait for her to feel my mate bond. I can start mind linking her whenever I want and she will be able to shift and get in touch with her wolf. Hunter purrs in my head he is happy to have his mate. This girl is everything to me I think to myself. “To US”, Hunter growled. The closer she got to turning of age, the more her need for me will grow and not just se.xually but she will want to be close to me a lot more.

I already know where I’m taking her for her 18th birthday and she is going to love it. I wanted to take her to new places and make memories with her. Our first trip was Hawaii and even though she had been there before, our trip there remains very special. It was our first trip. I hate that I have to go away for work soon but maybe I can convince her to come with me.

I stopped at her favorite diner and woke her up. After she checked the mirror and ran her hand through her hair before we walked in hand in hand. She literally turned every head in the diner and I slid my arm around her wa!st as I glared at a few men. I took her all the way to the back, to a private booth where I can have her all to myself. I ordered for the both of us knowing what my baby likes.

The waitress tried to fl!rt with me but I didn’t even bother looking at her, how can I when Hope consumes my every thought and desire. When Hope noticed

the waitresses pathetic attempt to draw my attention she looked like she was going to pounce on her. She's so cute, I recalled the way she attacked Stephanie and smiled at my little wolf as I took her hand and kissed it front and back, in front of the waitress.

## My Mate Chapter 28 - Tips

Hope

It was late when we got to our territory, Zayn dropped me off at home and came in for a little while. A sense of relief washed over me when mom and dad didn't ask too many questions about what happened, but they both kept insisting that after I turned 18 we wouldn't fight as much because of the mate bond. Mom told me that I will be able to feel everything Zayn feels. I already knew that but I couldn't wait to experience it with him. "Have you two had dinner?" mom asks us smiling, "Yes we have, thank you", Zayn answered as he puts his arm around me. I wonder if Zayn's possessive side will ever simmer down? I thought to myself.

We were sitting in the living room when we heard loud knock and I knew who it is right away. Dad opened the front door and Emily came in and attacked me with a hug. "I was so worried about you!" She cries out Luna came in after her and she hugged me lovingly.

"Hope my dear, I missed you so much" she hugged me tight again.

"Mom your suffocating her" Zayn said and pulled me towards him. His mom rolled her eyes at him,

"I'm sorry Hope but we missed our soon to be Luna" she wore the most affectionate smile on her face.

I knew Zayn still had work to take care of tonight but I didn't want him to leave. I felt like my heart was going to break if he left tonight. I felt so clingy and needy right now and it scared me a little because I was usually very independent.

I keep holding his hand or grabbing onto his shirt every time he got up.

"Baby, I'll come back before you sleep" he said when he stood up to leave and I grabbed his shirt, he bent down and gave me a kiss on my head.

I felt so embarrassed I wasn't not used to feeling like this. He took me aside, my parents and his mom looking at us in admiration.

"You don't know how happy I am that you want me to stay but I have to see my father, it's important."

He cupped my face and gave me a quick kiss.

"Come with me, I won't be able to sleep without you." I took his hand in mine

"I probably won't be able to sleep without you either and I don't want to sleep without you, but I think I should stay here tonight."

He smiled I think he's enjoyed my sudden insatiable desire to be with him. I wanted to tell him to come back and sleep next to me but I didn't want to sound so needy. He said goodnight to my parents and left. Luna didn't stay too long after. We talked about the twin mates, school and before leaving she asked me if I'd like to meet her for breakfast before school tomorrow which of course I agreed to.

Emily and I hang out in my room, "Gavin asked me about you today"

I was a little surprised and cannot believe his audacity. "I keep telling him I'm not interested."

"He's persistent I'll give him that." Emily said and shrugged her shoulders. She mind linked April and Amy and they came over with Eric and Derek also.

"Where's Jason" I asked, I thought he would come see me.

"I don't know he's been out all day" Eric said looking down at his phone.

"I'm kind of worried about him he doesn't seem like himself recently, has anyone else noticed?" Amy asked and I couldn't help but feel like this had something to do with me.

"He's just being a sore loser" Derek laughed and looked over at me.

Before things turned into a awkward conversation I intervened "What did I miss in school?"

Derek looked at me “Nice save, but not much really and you probably have every assignment already aced.” My friends knew me way too well.

“So what do you guys think of Matt and Kyle’s Mates?” I asked

“I haven’t really had a chance to get to know them hopefully Friday night at their welcome party we can spend some time with them.” Amy replied.

“Who wants to go to the mall tomorrow I need to pick up something for the party?”

“I’ll go, let’s all go and we can have lunch there”, April said and stood up to leave, Eric stood up right after her. They are too cute together I couldn’t help but smile at them.

When they all left I start a bath and made sure to pour in a lot of bubble bath, then slipped into the lavender scented foam and felt myself relax right away, the hot water felt so good against my skin. I leaned my head back and closed my eyes. when all of a sudden I heard howling and a loud chaotic roaring then the sound of our packs alarm...oh my goddess we were under attack.

Zayn

Security called from the Northern border and I immediately notified Matt and Kyle and told them to alert all the warriors and fighters, it’s been a long time since we were attacked. Who the fvck would dare attack us unless they had a death wish. I sounded the alarm and before I left the pack house, sent Alex to get Hope and bring her to the pack house so she was safe. I can’t risk anything happening to her and her father was probably already at the borders so I didn’t want her and her mom alone at their house.

Dad and I ran out and shifted at the same time Hunter was roaring with excitement as his adrenaline shot up a thousand times a minute, he was raging today I know he loves a good battle but today he is even more furious in fear of anything happening to Hope. We couldn’t bear the thought of any breach or attack or any kind of danger now that we had our mate.

The sound of snarls and howls become closer “Zayn, Brian is outnumbered” dad mind linked me as we approached and I lunged at a group of rogues attacking Brian, gripping and ripping them apart one by one.. He was hurt but he was also strong, teeth bared and with a loud howl he continued to attack.

Hope

"Where is he?" I ask Alex my voice trembling with fear at the thought of anything happening to Zayn,

"He'll be fine, he sent me to make sure you didn't stay here alone."

Mom and I hastily walked to the pack house where several warriors stood outside guarding, they bowed as mom and I passed by.

"All borders are secured keep the women inside the pack house Hall, Alpha's orders", Alex yelled out as he ran off and shifted into his wolf form.

Mom and I joined Luna and all the other women who couldn't fight because of age. Mandy and Carrie were sitting by Luna's side when mom and I walked in. She ran towards us embracing me.

"Don't worry they will be fine" I whispered as she hugged me. I couldn't blame her for feeling scared her mate and children were all in battle.

"If the rest of the women feel your fear they will get scared and we don't want to do that." She looked up at me and smiled. Emily and Amy were there too but April was either on the battle field right now or she was helping secure one of the other open borders.

The fact is when we are under attack all wolves of age and have had enough training have to do their part. whether they fight along side the warriors or they help secure borders.

Luna composed herself as she gained her strength "Thank Goddess for you Hope." She said surprising me.

I walked over to Mandy and Carrie who were of age for sure but I they weren't fighting because they hadn't been here long enough to test their fighting skills. They look worried so I tried to help calm them down,

"We are the strongest pack known, they will be fine." I reassured them, then took a look around at the older women who also had their mates or children out their fighting to keep us safe. I felt a sense of responsibility take over me a feeling that I had to reassure them that everything would be fine.

I went around the hall talking to each and every one of them. A little boy came up to me,

“Luna will you be my mate? you’re beautiful”, I laughed and picked him up.

“I already have a mate but I wouldn’t mind giving you a k!ss.” I pinched his cheek softly and gave him a k!ss. His mom walked over smiling and he took her hand,

“She k!ssed me, the Luna k!ssed me!” I heard him say.

I walked over to Derek’s mom, I h.ugged her, “You are so precious Hope, you’re going to make a wonderful Luna.” I felt so proud when she said those words to me.

A few short hours and thankfully one of the guards came in and lets us know that the men were making their way back. I walked outside with mom and Luna,

“Please go check if the nurses and doctors need any kind assistance with the injured” I told a few guards as I walked outside, they nodded and ran towards the pack hospital. I stood outside with mom by my side and my heart leapt when I finally sp0tt ed Zayn.

I ran towards him and jumped into his arms. He was shirtless and had bl00d on his arms and c.hest, “Are you injured?”

“Nothing a k!ss from you can’t heal.” I gave him a quick peck.

“Is everyone ok? Where’s dad?” I askd looking around at the rest

“Yes, everyone is ok, we didn’t lose anyone but your dad and a few others have been taken to the hospital but he is fine.”

“Damn! I wish I got that kind of welcome” Matt said and Mandy immediately h.ugged him.

Mom, Zayn and I drove over to the pack hospital, mom sat in the passenger seat by the driver and Zayn and I in the back he had his arm around me I felt so safe with him by my side. The doctor told us that dad was fine but he just had a deep claw cut on his side. I could hear dad’s voice talking to one of the warriors, thank Goddess he was fine.

He k!ssed mom and h.ugged me tight. "Zayn forced me to come here and get cleaned up, but I'm fine." He sat up but winced in pain a little.

"Betta Brian, you should stay here tonight, I'd like to keep an eye on that wound. Tomorrow morning you can leave" One of the pack doctors said.

"Yes, of course he will stay and I'll stay with him." Mom said before dad could argue with the doctor. Dad wasn't having it he wanted to go home,

"If the doctor said you should stay then you should please listen to him." I demanded when dad tried to get up and leave again.

"Ok fine, I'll stay for your sake princess but only for the night, even though I'm sure there's no need, and tomorrow morning I will leave!" Dad finally agreed.

"Hope you're staying with Zayn right?" Zayn answersrd for me, "Yes of course don't worry." I don't want to keep Zayn here long, he needed to rest too. I k!ssed mom and dad and took Zayn's hand as we left the hospital.

Inside the pack house the Alpha was still in the hall with most of the pack members. "We're going to check on Brian" He said as Luna finished tending to a cut on his arm.

He and Luna started walking out of the hall but they both stopped and turned towards us. "Oh and Zayn, I think you should know that your mate is going to make the best Luna and she is by far ready to take on the position." Luna said surprising me again.

"I know" Zayn smiled at me as his parents walked out towards the hospital. I checked on my friends real quick while Zayn checked on the warriors.

Emily and I were with Jason and his family. April and Eric came over too. I thankd the Goddess they were all fine. Zayn walked over and took my hand. He looked around "Jason you fought well. You're very b.rave.", Zayn said to Jason with a serious look on his face.

"You too Eric, I think you both will make great warriors."

"Thank you" Jason and Eric both responded with beaming smiles. Zayn did not give out compliments often so saying that to them meant a lot to both them and their parents.

Soon the pack house was back to normal. We said good night to Matt and Kyle and their mates and headed upstairs to Zayn's room.

"I'm going to run you a bath." I told him as he walked in the bathroom started taking off his shorts.

Zayn got in the bath "Come in with me" I didn't hesitate and I started to undress while he watched. I got in the tub behind him, took a cloth and started wiping his shoulders. until he relaxed.

"Are you ok?" I asked as I kissed his shoulder

"I am now"

## My Mate Chapter 29 - Tips

Zayn

"Why were we attacked?" Hope asks me while we're still in the bath tub, she is sitting behind me and fuck I can't concentrate. She keeps rubbing my shoulders and playing with my hair. I don't know why she does that but I love it. Hunter is so calm and peaceful right now I can hear him almost purring. He's smitten by her. I can't blame him I love her so much I would give my life for this girl.

"I don't know why yet but I'll find out soon enough, we captured a few rogues before they could flee. Matt, Kyle and Alex are in the dungeon "welcoming" them right now and tomorrow I'll go down and interrogate them ...my way." She stays quiet for a few minutes.

"Zayn, I love you" She says and my heart swells.

"I know I told you, you're mine."

I get out of the bathtub first and wrap a towel around my waist then help my baby out, she takes my hands looks up at me with those fucking\*g enchanting green eyes then she stands up dripping wet. She tries to cover up from me, I smile at how she's still shy around me, she tries to hide her delicious body from my prying eyes, even though I've had my head between her legs so many times now. She's dripping in water and suds and my mouth waters watching her. She wraps a towel around her body and walks out of the bathroom and into my bedroom, my eyes glued to her luscious a.ss. I walk out

after her and lay down on the bed still watching her. This is the first time she sleeps in my bed all night. Tonight is going to be my ultimate test and t0rture. I hope she has more will power than I do.

I keep watching her every move like I'm in a trance she's just so damn naturally se.xy. She walks into my closet and comes out wearing one of my T.shirts. fvck. She stands in front of the mirror and lets her hair fall down shaking her head slowly from side to side. I can't look away from her it's like she's in slow motion.

"Baby come here" she walks over to me slowly clueless of what she is doing to my d!ck. I move over and tap the bed for her to get in. She climbs in and cuddles right up to me, pushing her leg in between mine. fvck. My fingers trail down her arm slowly

"You're so perfect Hope" She tilts her head up and I'm lost in her eyes again I couldn't look away. I can look at her eyes for hours. "This night is going to be t0rture" I admit.

She smiles "Why is that?" She knows damn well what I mean.

I take her small hand and put it on my raging boner "This is why"

She gasped and tried to hide her face in my c.hest, I grabbed her chin and tilted her face back up so she can look right into my eyes, I cupped her cheek and smashed my l!ps on to hers pushing my tongue into her sweet mouth. She tastes like heaven, I want to take my time with her enjoying the delicious sounds she's making.

Her tongue joins mine and our k!ss turns e.rotic. She m0ans into my mouth and I k!ssed her like a madman but it wasn't enough, I was hungry for more. I felt this animalistic need for her, she turned me into an animal and right now she is my prey. I pinned her under me and started s.ucking on her neck I had this primal urge to mark her, to bite into her neck and hear her scream in pleasure.

"Zayn, slow down" I barely hear her say.

I lift my T.shirt up off over her head and dive down to her full b.reast. I l!ck and s.uck on her hard n!pple and rub the other one in soft circles. She m0ans my name. fvck. I need to hear it again.

“Tell me baby, who will only ever make you feel like this?” I growled possessively. I have to hear her say it

“You” she obliges.

I lift up off her as I hook my fingers around her panties and yank them down roughly throwing them aside. I reached down and rubbed her cl!t with one hand, and her n!pple with the other hand. She threw her head back and m0aned.

“Say my name I want to hear you scream my name” I said then push two fingers inside her small p.ussy she gasped out my name.

I have her right where I want her, underneath me screaming my name. I can’t stop, I don’t want to stop. I push my fingers in and out slow at first then faster and faster. She started palpitating and I knew she was close to her org\*asm so I moved my fingers out of her and brought them up to my mouth.

“You taste so sweet baby.” I need more of her, I move in between her legs and spread them wide open and begin !cking and s.ucking on her cl!t. She loses herself and almost screams my name as I devour her p.ussy and she c.ums all over my tongue. I keep !cking until she’s completely spent under me.

I lay down next to her wanting to hold her but she sits up, moves down in between my legs, takes my c0ck in her small hand and starts s.ucking like her life depends on it. fvck.

I grab her hair, she closes her eyes as she s.ucks me off ” Open your eyes” she does what she’s told and looks up at me with those fvcking\*g mesmerizing eyes. She stops blowing me and places my d!ck between her t\*\*s and rubs up and down as she stares right into my soul.

“fvck!” That’s all I can take as I spill all over her b.reasts.

“Are you ok?” I ask her she looks up at me and k!sses me softly. Just then I get a mind link from Matt at the same time Alex calls.

“Zayn you need to come down to the dungeons now” Matt mind links me. Both Matt and Alex wouldn’t bother me if it wasn’t serious.

“What is it?” Hope asks me sleepily. I run my fingers through her hair and k!ss her shoulder

“I don’t know but I have to see what’s going on get some sleep baby I won’t be long.” I give her another quick k!ss before I leave the bed get dressed and make my way down to the dungeon.

Alex meets me outside, “What is it?”

“One of the rogues said something you’re not going to like.”

I walk past him and he follows me down the narrow stairs to where the foul - smelling rouge prisoners are being held. The guards move out of my way and bow as I walk past them. I pass by two dead rogue bodies on the cold floor. The rogue that has survived Alex and my brothers’ vengeance cowers when he sees me.

Kyle kicks him in the head “Tell him what you told us!” He sneers. The rogue doesn’t answer.

“Tell him why you attacked our pack.” Kyle barks as he also takes out his anger on the filth.

“I ..I can’t our leader will k!ll me” he cries out.

“What the fvck do you think he’ll do to you if you don’t tell him? Alex asks and points to me. I can smell the cowards fear

“You have something we want.” The rogue says looking at me while baring his yellow teeth.

“What is it?” I ask calmly as I fold my arms across my c.hest.

“A girl” The rogue answers me and my bl00d goes cold.

“Alpha, they admitted to be secretly working for another pack but he has not given us the name of the pack ...Yet.” Alex says and all I see is red.

“Tell him what girl”, Matt intervenes yanking the rogues head back roughly.

He pauses for a second, “Your Mate”

I grab the worthless piece of sh!t by the neck choking the life out of him, “What the fvck did you say?” I throw the mother fvcker against the brick wall “Why do you want my mate?” I bellow out in fury.

Alex grabs me away from the slime, “If you k!ll him now, we won’t know who he is working for!”

The rogue coughs trying to breathe again, “I don’t want your mate the Alpha does. He ordered the attack on your pack.” He keeps coughing,

“What Alpha?” I pick him up and slam his head against the wall. “I’ll murder anyone who tries to take her away from me!” I roar out in anger and pain.

“I don’t know his name or his pack our leader never told us.” Alex picks the creature up and throws him down again,

“What’s your leaders name?” I question aggressively. The miserable fvck whimpers and says “Kain.”

My father walks in, “Has he confessed why they attacked us?” Alex tells him everything.

“Why does an Alpha want her? she is the future Luna of this pack!” Dad asks the lousy mother fvcker. “She is mated to my son, the future Alpha of this pack.”

The rogue sneers at looks at me “As far as we know she hasn’t been marked or mated” How does this filth know that??

“How do you know that mother fvcker? How do you know anything about her?” My voice echoes and bounces off the walls in waves of anger.

“Please spare my life” He whimpers in fear. I still need him alive for now, I turn away from him and we head towards the exit.

“lock him up in one of the cells don’t k!ll him...yet.” I say to the guards as we all walk out.

“I’m going to find this Kain and find out the name of the Alpha he works.” I say.

“We need to strengthen security at our borders day and night twenty four hours a day.” My father says,

"I'm on it" Matt says and walks away.

"We have a snake in our pack." Kyle says

"Not necessarily, it could have been anyone from her school." Alex says.

"I want the names of all the wolves that are registered at her school and the names of their packs tomorrow.", "Ok" Alex says.

"Brian isn't going to take this well he's going to be very worried about her" My father says.

I have this sudden urge to get to her side and protect her, hold her. I start walking through the entrance of the pack house and take the stairs two steps at a time the need to see her is growing fast. I open my bedroom door and she's not in there.

"Hope" I call out for her and storm to the bathroom but she's not there either.

"Hope" I call again louder this time as I quickly make my way through the hallway and down the stairs my heart is beating so fast I can hardly breathe.

"Zayn, relax she's in the kitchen getting some water I was just there." Kyle says as he walks up the stairs to his bedroom.

I rush down and find her sitting at the kitchen table eating a muffin with a bottle of water in front of her.

I immediately feel my body relax, pick her up and hold her tight against my chest "Don't ever do that again!",

She looks at me confused "Do what?" I don't answer her question but my heartbeat has slowed down,

"Come on let's go to bed." I pick up her water bottle and get one for myself with a couple of muffins and lead her to my room.

"What's wrong?" she asks me

"Nothing I just couldn't find you when I came back."

"I just came down for some water" she smiles up at me.

I lean down k!ss her then pick her up and walk to my room. I start to und.ress, I can't take my eyes off her as she takes off her jeans and climbs into bed. I keep thinking about what the rogue said, I cannot risk losing her. I get in bed with her, pull her towards me and she cuddles into my arms.

"I'm never letting you go Hope"

"I hope you don't there's no place I'd rather be" I keep running my fingers through her hair until she falls asleep in my arms.

## My Mate Chapter 30 - Tips

Zayn

I couldn't sleep all night my body was relaxed with Hope by my side but my mind kept going back to what the rogue confessed. I held her tight in my arms all night as she slept anyone who dares threaten her safety is a dead man anyone who tries and take her away from me will suffer gravely. Who is the Alpha that wants her and why? I couldn't come up with the answers.

I have to find this mother fvcker Kain and make him talk. I hate the thought of leaving her when she's in danger but the sooner I find this Kain mother fvcker the sooner I can tear apart the Alpha that put him up to this attack in an attempt to take her away from me. I'm going to increase security at her school I know she's not going to like it but she will have to just accept it or she can stay home and I'll have someone home school her until she graduates. I am also going to increase security around pack borders and inside our pack territory.

Hope stirs in my arms and I bring my head down to her neck and place soft k!sses on her soft warm skin leaving goose bumps in my wake, she shudders cuddling into me. I brought my head down and nuzzled into her neck, I closed my eyes drowning in her scent as sleep finally took over me.

Hope

I woke up feeling well rested. I hate missing school again but there's noway any of us could go to school today after the attack last night. I wanted to go check on dad so I tried to get out of bed but Zayn's grip tightened he lifted his hand to the base of my neck to keep me where he needed me....next to him.

I remembered how terrified he looked when he was looking for me last night. Zayn is never scared of anything or anyone. Something is going on. I closed my eyes and tried to think of something else, I felt his hand relax probably as a result of him falling deeper asleep. Tomorrow is the twins welcome party and the next day is Zayn's birthday. I have to find a way to go to the mall without him knowing so I can pick up his gift. I also want to stop by a lingerie store, right now I don't want to wake him he looks so peaceful.

It's been three hours and Zayn's still snoring softly, I was finally able to move his hand a little, I tried inching away slowly and got half way across the bed but he growled and pulled me back into his chest.

"Zayn I need to get up. I have to use the bathroom and I want to go see my dad. You don't have to get up, I'll come back later."

He doesn't open his eyes "Go to the bathroom and come right back. I mean it." Jeez...I wish I could punch him sometimes. I get out of bed and make my way to the bathroom, Zayn's bathroom is very fancy, from the sleek stone floor to the granite counter tops with his and her sinks. His drop in bathtub is even bigger than mine! Zayn likes elegance, everything he owns is luxurious. I take a look in the mirror and cringe, my hair looks like a bird has taken up property in it, I comb my fingers through it, wash up and start looking around the cabinets for an extra toothbrush. After I finish up I walk back out and Zayn's still asleep. So I get dressed real quick and sneak out.

The pack house is pretty calm considering teenagers aren't at school. I walk into the private living room where Luna and the Alpha are seated.

"Good morning dear" Luna greets me and I give them each a quick hug.

"Did you sleep well?" Alpha asks me,

"Yes, I did thank you." He's looking at me carefully as he sips his coffee. I get the feeling something is not right.

"Is everything ok?"

"Yes of course dear" Luna answers me.

I smile at her, "I'm going to go home change then go see dad."

“Oh honey, your dad is on his way here he was discharged early this morning.” Wolves heal pretty fast so I wasn’t too worried about dad

“oh ok”

“Is Zayn still asleep?” Alpha asks me as he gets up to walk out.

“Yes he is”

He k!sses his mate, k!sses me on the head and walks out.

“Have you had breakfast?” Luna asks me

“No, I’ll wait for Zayn to wake up and we can have lunch together.”

I hear dad’s voice so we both get up and walk to the foyer.

“Princess” he calls out opening his arms for me and I run into them like I used to when I was little. Mom walks in behind them and I h.ug her too.

“Brian there’s something I need to discuss with you.” Alpha says, they both go into his office and close the door. Suddenly a loud growl echoes through the pack house, I roll my eyes to myself and stand at the bottom of the stairs with my hands folded across my c.hest.

Everyone scatters away when they hear the chilling sound. A very angry Alpha appears at the top of the stairs in jeans only “I said come right back!” he growls and walks down. I stand my ground smiling at him. He pulls me by arm “Do you like pissing me off?”

I giggle “maybe” he looks angry but I’m done letting him intimidate me. “Keep giving me att!tude, all the more reason to punish you later.”

I wrap my arms around his neck slowly “I can’t wait.” I whisper in his ear.

His eyes turn dark “In that case come back up to the room.” He bends down, cups my face and k!sses me with so much passion my knees feel weak.
