

## My Mate Chapter 61 - Tips

Hope

I stood at my bedroom door feeling uneasy with him in my bedroom and because he hit Kain. "Don't worry about me I won't be alone Kain is here" He looked at me from head to toe.

"Why are you standing there come on in" He said "What's wrong?" He asked as I walked in and sat on my couch

"Nothing's wrong I'm just surprised you're in my room"

"Oh I'm sorry I came looking for you and just let myself in."

"I thought you said you had to go away on business and you said it was urgent?"

He stood up and walked slowly over to my window

"Hope I've been keeping something from you" I felt my stomach turn. He walked over and sat down right next to me. I stayed quiet giving him time to collect himself.

"I have been betrayed by someone very close to me" He paused "I guess that's why I have trust issues." I stayed quiet wanting to hear more "I had a girlfriend once and we were crazy about each other. I wanted to marry her. But my best friend betrayed me and took her away." I gasped snapping my eyes open wide

"Oh my god how?"

"He came between us and started telling her lies; he told her that I was cheating on her with another woman" He put his head down

"Why would she believe him and not you?" I asked

"She believed him because Crystal, that was the other woman's name, told her that it was true. I was set up by them both and my girl left me. I found out later that she started dating my best friend"

"That was her name Crystal?" I asked. The name did ring a bell

"Yes, she set me up along with my best friend" I felt bad for him but the look he had on his face wasn't genuine. I was also shocked by how open Alex was being but why was he telling me this now? I asked myself silently

"When Crystal finally agreed to tell my girl the truth he was outraged so he k!lled her." I was shocked Alex had been hurt by his own best friend.

"Killed her?" I repeated and he nodded his head

"Yeah and he got away with it because he's a leader of a very dangerous pack"

"Pack?"

"Gang I meant gang" He swallowed and looked away for a minute "But I never gave up on my girl."

"So what happened?"

"When she saw what he did to Crystal she wanted to leave him but he k!lled her parents and threatened to k!ll her if she left him." I felt a chill down my spine

"What was your best friend's name?" I asked. He paused for a second

"Zayn" He said looking right at me. Oh my god Kain told me that Zayn was the leader of the cult who k!lled my parents. I was Alex's girlfriend.

"She tried to get away from him and ended up in a horrible accident...and I saved her" I couldn't believe what he was saying. This man had been through so much. Betrayed by his best friend and lost the girl he loved....loves

"Umm.." I struggled to say something.... Anything. He took my hand in his

"Hope we were once lovers but he took you away from me. I used to pray that you'd forget all about him because he was nothing but trouble. I still pray that you fall in love with me again and we can continue our lives together." I gasped feeling so confused

"I took out my frustration on Kain this morning. He said you'll never love me the way you loved him. I couldn't help myself the thought of you leaving me for someone so vile breaks my heart so when Kain said that I attacked him." He sighs and he puts his head down

"I shouldn't have done that. But he just made me so angry when he said that."

I felt bad this is Alex the person who saved me. He's never been anything but kind to me and he's always been the perfect gentleman never forced me into anything. I remained quiet taking all this new information in.

"Some best friend you had" I laughed

"Yeah I know"

"I couldn't leave you here. I want you to come with me. I care about you and I don't want to be without you." I don't know what to say you I have no feelings for Alex he's very handsome but I did love him once, I thought to myself.

"I want to make sure you don't miss a dose of your medication if you do your nightmares will never go away" He sounded so sincere but I can't help but I feel uneasy.

"I'm not a little girl I won't forget to take my medication." I said trying to make him smile. As I was looking at his face his eyes changed colors I could have sworn they turned a shade darker. I jumped out of my seat "Alex your eyes"

He rubbed them "What's wrong with them?" I took a closer look and they appeared normal, oh great now I'm seeing things.

"Hope come with me I'm going to an island near Tahiti you'd love it." I have a meeting with a realtor I'm thinking of buying some property out there."

I thought about it for a minute "I don't want to lead you on I know you said we were a couple once and maybe we can get there again but right now I'm not ready for anything like that and going with you might ..." He cuts me off

"Hope I promised you that I would wait and I'm keeping my promise. You'll have fun I promise"

"Okay I'll come with you can Kain come?"

"He's not here" He got up and walked to the door "He had to leave for a few days he misses his family I guess"

"He left without saying anything to me?"

“He was in a rush” Alex said plainly. I was utterly speechless thinking the worse but then snapped myself out of my own thoughts.

“Do you think it’s safe for me to travel?” I asked

“Don’t worry I got you a fake passport your real name won’t show up. Can you be ready in thirty minutes?”

Zayn

Axel, my father and five other alphas flew over to Maine in my jet. Emily wouldn’t let Axel come without her so she came along as well. Even though I was this much closer to finding Hope and murdering the snake Alex, I was on edge the whole 5 hour flight until I sat in my bedroom and thought of her. I remembered the first time we were in here. She was so shy so fvcking\*g sweet. The first time she told me she loved me was on this jet. I still remember the dress she was wearing and how I peeled it off her on this bed. I remembered eating her little p.ussy out until she came and then held her in my arms n.aked. Alex the cunning snake better not have laid a finger on her. fvck if I stayed in here alone I’d drive myself crazy again. I got up and joined the rest back in the lounge.

As we walked through Portland International Jetport I could feel Hunter going mad. Mate Mate he screamed wanting to come out and take over me. Hope was here at the airport.

“Lock the airport down now” I yelled out to my father. He and our allies all spread out in search as they caught on to what was happening. I ran through the crowd of people like a fvcking\*g madman suddenly her fvcking\*g mouth watering scent hit me and I finally sp0tted her. The scene before me almost brought me to my knees as my fvcking\*g nightmare was happening right in front of me, I saw Alex with one hand on Hope’s face as he k!ssed her. Hope was k!ssing Alex. A terror filled growl escaped me as I ran up to the mother fvcking\*g snake and tore him away from what’s mine.

I threw him down on the ground people screaming and running away as I stepped on his throat. “You dare touch her you coward you fvcking\*g disgusting traitor ” I snarled at him.

“Stop you’re going to k!ll him” Hope shouted at me and pushed me off Alex. I stopped stone cold when her small hand grabbed mine pushing me off the fvcker. I felt her electric tingles run through me giving me life. But her touch

couldn't calm me down this time. Hope actually stopped me from hurting Alex. fvck me. Axel picked up the filth off the floor "Take him to the jet quickly" Dad ordered as the other alphas who accompanied us talked to the security and police officers. I couldn't tear my eyes away from Hope. I wanted to grab her and pull her into my chest and at the same time I wanted to fvcking\*g k!ll her.

I stood there in a daze as a crying Emily jumped on Hope h.ugged her. Hope stared back at me but her gaze was lost confused and a little scared.

"Zayn we found her" Emily cried

"You're Zayn" She asked me ..what the fvck.

"Yeah I'm Zayn" I growled out at her still fvcking\*g livid that she was k!ssing Alex.

"Hi Zayn" She tilted her head to the side with a sly smile on her perfect lips "nice to finally meet you" She growled at me as she lunged forward and attacked me. Holy fvck. I'm going to fvcking\*g peel the skin off the mother fvcker. I instantly blocked her attack without hurting her. I grabbed her and pulled her arms down.

"Heaven"

"Get your hands off me" She fought to get out of my tight hold

"You're not going anywhere" I yelled and dragged her out the airport and carried her over my shoulder inside my jet. I walked straight to the bedroom and put her down to stand on her own two feet.

"Hope" My voice came out panicked she threw herself at me again and punched straight in the jaw. fvck she's gotten stronger. She has no recollection of who I am or who we are together.

"Baby what happened to you?"

"You happened to me, I hate you!" She growled at me making me equally heart broken and horny.

I turned around and walked out the bedroom leaving her alone for a minute. I needed to back off before I did something I'll regret later. His mouth on hers was all I could see. Emily walked in with Axel

"Watch her" I barked out at them as I walked out the bedroom looking over my shoulder at her. She was glaring right back at me.

"Where is the fvcking\*g cunt of a snake we have on board?" I asked as I stomped over to Alex and grabbed him by the neck

"What did you do to her you fvck" I seethed as I squeezed his neck digging my claws into his flesh.

"A lot" He smirked at me

I saw red as I lifted him up by the neck and threw him all the way back. I lunged at him picked him up off the floor and punched him right across his jaw. He spit bl00d out of his mouth.

"I treated you like a brother you spineless traitor"

"I won't let you hurt her" The cunt screamed out making sure Hope would hear him.

I hit him again this time he fell unconscious to the floor. I looked up from my rage and saw Hope looking at me eyes wide open she looked terrified. As soon as her eyes landed on mine she turned around and ran back into the bedroom closing the door behind her. Hunter growled out in agony he still couldn't feel Jenna's presence at all.

What did the a.ssh0le mean by a lot? I'm going to make sure to tear his arms off one by one then his legs ...

"Alpha ready for take off?" The pilot asked me snapping me out of my thoughts.

"No I want to search the location where he was keeping her."

"We'll go you stay here with her" My father said as he walked "Alpha Axel you and Emily please stay here with him"

I opened the door and walked in she stood up right away. I stayed quiet watching her. She is so fvcking\*g beautiful but she's looking at me like she wants to decapitate my d!ck.

"I don't know what he's told you about me" I walked over slowly very slowly  
"But I'm sure whatever he said was a lie" I stood in front of her looking into her eyes. I reached out to hold her but she flinched and pushed me away. fvck.

## My Mate Chapter 62 - Tips

Zayn

Alex the son of a b\*\*\*h is still unconscious Axel chained the fvcker down in the back of the jet. Emily is still overwhelmed and crying trying to cope with what's happened to her friend because Hope is definitely not herself she looks the same but she doesn't know anyone around her right now except for Alex.

"Did you k!!! him?" fvcking\*g hell I bit my bottom !!p trying hard to hold all the sh!t about to explode out at her.

"Not. Yet." I sneered glaring at her

"We'll see about that" She challenged me. I wanted to go out there and end his miserable life right then but I still need the traitor for now

"Hope" I took a step towards her as she took one back. I ran my hand through my hair then down my face trying to calm myself down then pinned my eyes on hers "I'm trying to hold myself together because you're not yourself but stop defending that a.ssh0le or you won't like what I do" I spoke harshly

"fvck you"

"Later, right now I have something to do"

"You're going to lock me in here? Where are you taking me?"

"I'm not locking you in here you are free to go anywhere you want on this jet" I said calmly. I tore my eyes away from her and took a few steps back slid the bedroom door open and looked at her again. "As long as you stop trying to fight me."

"Where are you taking me?"

"Home"

She glared at me "I was at home" that's it

“No you weren’t home you were at the fvcking\*g airport k!ssing Alex” I shouted and slammed my hand against the wall. She flinched and took a step back.

I left her alone in the bedroom because honestly seeing her k!ss Alex has put me in a very fvckingd up mood. The reason I haven’t strangled him yet is because I need the snake to find out what happened to her.

I sat down across from Axel “I want to go see where he kept her” I whispered mostly to myself

“Go ahead Emily and I will stay with her.” I leaned back thinking about it.

“If I take her with me she will try to run”

Just then the snake woke up. Axel got up and hit him in the face with his boot.

“Hope” He yelled out for her help I rushed over to him

“You know Alex I never took you for a fvcking\*g p.ussy” He kept his mouth shut

Axel chained his arms behind his back then blind folded him

“Sweetheart can you get me a towel from the kitchen area” He asked Em

“Of course love” She said and went away for a minute then came back with a small towel. Axel stuffed the towel in the mother fvckers mouth

“This will keep your fvcking\*g mouth shut”

“Alex” I came down to his level “I’m going to love k!lling you I’m going to tear you apart piece by piece. Then. I’m going to feed you to the dogs” I meant every fvcking\*g word. I heard a slow gasp and knew Hope had heard every word I’d said. I turned sideways and she immediately went back into the room and shut the door locking it. Cute attempt but I had a spare key.

“I want to talk to her” Emily said I handed her the spare key that I kept in the kitchen cabinet.

“Emily stay with her I have to go see where he was keeping her” My cellphone rang

“Zayn we’re on our way back he had someone in his dungeon so we bought him with us he’s in bad shape”

I knew this was the person who sent Jason the picture and I also knew who he was. Thirty minutes later my father and the other alphas returned. Dad was right Gavin the fvck was in bad shape. What the hell happened to him? He looked like he was dead I thought to myself

“Put him over there I pointed to a large seat. Alex tried throwing a b\*\*\*h fit so Axel plodded over to him punched him out cold again.

Hope

I cannot believe how cruel one person can be! I felt so bad for Alex

Someone unlocked the door I stood up instantly but relaxed a little when I saw a girl my age walk in. Her face was so inviting I remembered how she hugged me crying at the airport

“Hi. Can I come in?” She asked carefully

“Yeah I guess it’s not my room” She walked over and sat on the couch

“Hope...what happened to your memory...because this isn’t you” I looked at her blankly

“What do you mean what happened to me and who are you?”

“I’m Emily your best friend and Zayn’s sister” How could his sister be my best friend?

“His sister could never be my friend let alone best friend”

“Hope” She tried taking my hand but I shoved her away. I swear I heard her growl before leaving the room. Like brother like sister I guess.

A few minutes later the bully walked in with an older man “Hope, I can’t imagine what you’ve been through everything will be okay from now on” The older man spoke. His whole aura demanded attention just like the creep next to him. I looked at them both they resemble each other.

“Who are you and how are you related to him?” I asked pointing to the bully. He looked down then back up at me “I’m Alpha Philip Black and he’s my son Alpha Zayn” He answered me calmly

“What are you guys both the gang leaders? How did you get the title as Alpha?” my voice was sarcastic “By how many people you kill?”

“Hope” The bully warned his father walked out leaving us alone.

“Have you eaten?” He asked me I didn’t answer him. He walked out and I was able to breathe again his presence had me on edge. There’s something about him I couldn’t figure out. He came back in with a tray of food. “Come sit down and eat”

“I’m not hungry”

“Fine then rest a little you’ve had a long day” he gestured to the bed

“Is this your jet?” I asked him as I folded my arms against my chest

“Yes it is” He answered

“So this is your bedroom?”

“Yes this is my bedroom when I’m traveling” The asshole is so full of himself. The expression on my face was full of hate

“So I’ll never eat here or sleep on your bed” I looked at him in all seriousness

“Hmm you never seemed to mind the thousand other times you slept in my bed” What an asshole! I glared at him

“I want my bag”

“I’ll get you your bag when you eat” What an asshole I felt like punching his lights out again.

“Fine I’ll get it myself” I walked out passed him into a lounge area and screamed at the sight in front of me “Kain” I exclaimed coming to his side

“What the fuck did you call him?” I heard Zayn growl

## My Mate Chapter 63 - Tips

Zayn

“Kain that’s what I called him” Hope sassed back I looked at my father. Things were starting to make a little more sense now but I couldn’t think straight she was pushing every one of my fvcking\*g b.uttons but damn if I didn’t love her and want her.

As soon as we get home I’m taking her .....I’m dragging her to the hospital to try and find out what happened to her memory and how to get it back. Then I’m going to find out more about Kain / Gavin mother fvcker.

Gavin was in bad shape someone really did a number on him. “Kain” she knelt down beside him trying to see if he was conscious at all.

“You guys did this to him” She accused standing up to face me.

“No we didn’t do this to him they found him like this” My mood already foul enough

“Where?” She looked at my father in disbelief.

“We found him where Alex was keeping you in the dungeon” My father said his voice was calm and assuring but I knew she didn’t trust him or any one of us.

“Dungeon?” She laughed

“Yes in the dungeon and Alex was most probably the one who attacked him”

She stayed quiet I could tell she was thinking about what my father had just said then she turned back to face Kain and reached out to take his hand jealousy seethed through my pores I tore her hand away. Hunter was raging I’ve been trying really hard not to let him loose since I saw her k!ssing the bastard and now she was reaching to take another man’s hand that made my gut twist and the protective and possessive instincts I have for her suddenly took over

“Don’t touch him” I warned. She looked me straight in the eyes but didn’t say anything I felt as though her composure faltered for a second. Then she knelt down beside him

“Kain” She called out her voice was warm and calm. I clenched my teeth. With me it’s like she wants to kick my a.ss with him and Alex she’s calm and quiet. They had brainwashed my baby and filled her head with vile things about me that’s why she was so cold to me. I needed Jenna back Hunter sighed. He was relieved to have his mate back but he wanted all of her back, her other half included. I could only imagine the things they told her about me. But Gavin did send the picture which was a clear call for help on his part but what took him so long? If he wanted to help her why did he wait so long? I thought to myself then heard the pilot shut the door

“Alpha we are ready for take off” Hope looked up at him

“Yes go ahead we’re ready” I grumbled my father and the rest of the alphas all took a seat

“We can’t take off he needs a hospital!” Hope exclaimed

“As soon as we land I’ll make sure he gets the best care. I’ll take him to our hospital we can treat him better than anyone else” I told her.

Emily walked over with a first aid kit and some towels. Her and Axel attended to Gavin

“Hope sit down just until we’re up in the air ...please”

She turns away from me then takes a seat. Did she actually just do what I asked?

Hope

I sat down feeling a little intimidated by him. I sat alone and leaned my head down. I couldn’t see Alex and honestly right now I felt a little lost he told me that Kain had gone away. Then these people find him in a dungeon? I ask myself. Alex lied to me about Kain. He had not gone away unless maybe he had then these people found him. While deep in thought I feel a pair of eyes burning into me I look up and find myself entranced in Zayn’s dark eyes. Something within me was pulling me towards him and I heard a faint sound of a female voice inside my head that said “Mate”

I remembered I hadn't taken my medicine thankfully I always kept a few extra pills in my pockets. I stood up to go find some water

"Where are you going?"

"I need some water "

"I'll get you some" He walked away and came back with a bottle of cold water. I took the pill out to swallow it

"What is that?" He asked

"Medication"

"Medication for what you never needed medicine" I rolled my eyes at him

"Not that it's any of your concern but I bumped my head in the accident and now have to take these so I don't hear voices in my head " He looks at me shocked

"When were you in an accident?"

"After you killed my parents" I sneered at him. He stood speechless

"So this is what Alex told you? That I killed your parents?" He tried to take my hand but I pushed him away.

"Hope your parents are alive and they have been worried sick about you I have been worried sick about you. He gets closer and puts his hand on my face

"Baby he's brainwashed you and he's lied to you. I could never hurt you, you were never in a car accident and your parents are alive" My heart clenched at the raw need I saw in his eyes.

"I have parents who are alive?"

"Yes and your parents and my parents are very close they have been all their lives. If you want we can video call your parents right now, you're the spitting image of your mother and your strong as hell like your father"

I love you Hope remember that

I gasped and my lips parted I suddenly remembered. He was the gorgeous man I would have visions about and it was his voice in my head. How did I not notice before?

I could feel my eyes water “Zayn”

“Yes baby”

I heard your voice in my head you asked about a girl called Jenna and...” Before I could continue he finished what I was going to say

“And I said I love you Hope remember that”

“How?” He took the pills from my hand

“Alex abducted you he took you away from your home, he took you away from your family he took you away from me.” He runs his hand through this hair “He was my best friend he betrayed me and took you away from me” He paused looking at me

“Baby these aren’t medication these are drugs. There is nothing wrong with you other than the fvck somehow erased your memory. I’m going to find out how and you will get better but you have to stop taking these pills. You will understand everything once we get home”

“My parents are home?” He looked at me and cracked a smile then took out his phone. He scrolled fast through his pictures which were all of me until he got to one with an older man, beautiful woman and me in it ..my parents. I felt like crying so I got up and walked all the way back into the bedroom. Zayn followed but this time I didn’t mind. I sat down on the bed my emotions were all over the place.

He picked me up and sat down with me on his lap I tried to get off but his grip was firm around my waist.

“I’m going to make sure he tells you the truth himself. I never hurt you or your parents Hope. Alex did”

## My Mate Chapter 64 - Tips

Hope

I sat on Zayn's lap, a man who until a few minutes ago was someone I loathed and considered my enemy. Everything he said was surreal but on the other hand sitting here on his lap right now I had never felt so safe.

He brought his hand to my neck and ran his fingers across my birthmark. He made me feel things I don't ever remember feeling.

"Do you remember what this is?"

"My birthmark?" I asked in a low voice.

He pursed his lips together "It's not a birthmark. It is a mark though. My mark."

His eyes turned a few shades darker as he locked them on mine I felt a bit anxious. I bit down on my lip as he looked deeply into my soul. How in the world is he doing this? I mentally asked myself

"Your mark?" I repeated trying to break away from his hypnotic eyes and the spell he had me under.

"Yes and this is your mark" He moved the collar of his shirt to the side.

Oh my god he had the same birthmark....mark on his neck. My eyes moved slowly from his neck back up to his eyes. His masculine aura took me under drowning me in a sea of emotions. My breathing became softer and felt my pensive look melt away into a small smile.

"When you mark someone you are showing the world that he or she belongs to you." He continued to explain a concept I couldn't fathom. Voices in my head, hearing him speak to me in my head, marks and alphas are all fictional details out of a book or movie. I tried to get up again but he pulled me down again

"This is too much all at once" I said looking everywhere but not at his eyes. His deep Husky voice was enough to make me melt into him. I had to break away from the physical and emotional grip that he had on me. But he wasn't having it. He was definitely someone who was used to getting what he wants.

"I know" He gently gripped my chin and turned my face towards his "but I promise once we are back home everything will fall into place and everything I told you will make more sense" There I was spellbound again. He is just so handsome I mean nobody else could compare to him. But now that I was

studying his features intently he looked tired almost worn out like he hadn't slept in a while. His scruffy beard gives him a rough looking appearance. I wonder if that's just his look or if he hasn't shaved in a long time. In the visions I had of him he had a light stubble. Regardless he is simply gorgeous. Like a Greek God ..okay I need to stop staring at him.

My body squirmed just a bit before my muscles relaxed. There was something about his gaze and the way he spoke, I was sure I would never find myself bewitched by another man's voice or stare. A sudden knock at the door makes me jump off his lap. He sighs and stands up

"Yes come in"

"Hey I thought you both might like a drink" His sister handed him two glasses of wine. She looked happy like she was happy her brother and I were in here. But I didn't want them getting the wrong idea so I walked towards the door

"No, I'm fine I need to check on Kain" I said and walked out.

"Actually his name is Gavin" His sister said. I looked back at her then continued when I passed by Zayn's father and his friends one of them around Zayn's age stood up "Luna it's so nice to see you after all this time. I'm so happy for your safe return" I wanted to ask him why he called me Luna but I didn't. I managed to smile at him.

"Hope" Zayn's dad took me aside Zayn walked up to my side "I called your parents and I cannot tell you how overwhelmed and happy they were when I told them we found you. Your mother was in tears" I couldn't find the words I wanted to say. I had parents that I didn't remember.

"How long until we get there?" Is all I managed to utter.

"About two hours." Zayn answered after looking at his watch. His watch caught my attention for a few seconds

"Hope" His father called my attention back to him "Whatever Alex did to you he will pay for I assure you. He took you away from your loved ones and has obviously brainwashed you but nothing is ever lost. I have never witnessed a stronger bond as you two had and I'm sure your love for each other will withstand this dilemma" he motioned his hand between Zayn and I.

Once again I was at a loss for words. He walked away and I hurried off to Kain's side he was still unconscious.

"Kain you have to be okay. Who else am I going to train with from now on?" I asked in a small whisper and laughed silently to myself

"Baby come eat please" I was famished so I just nodded my head

"I want to see Alex" He looked at me with pursed lips.

"I have to see him" I said. He pinched the bridge of his nose then ran his hand through his hair. He walked before me to where Alex was. He had his eyes wide open I had never seen such a sinister look before. He glared at me then at Zayn but he couldn't say anything because his mouth was stuffed with a towel of some sort. As soon as Zayn took the towel out of his mouth he took a deep breath.

Zayn

"So asshole you told her I killed her parents you are so pathetic" He was looking straight at me "She's going to see her parents in a little bit"

"Alex you said Zayn took me away from you"

"It was the other way around wasn't it?" She asked. I was so relieved to hear her say that but the mother fvcker remained quiet. I wanted to bang his head against the wall until he bled to death but not right now. He looked away from her knowing he had lost.

"I have been in love with you ever since you were little but he was always in the way" then like a fvcking\*g lunatic he starts shouting "Hope don't believe a word he says he's trying to take you away from me again" Hope jumped at the tone of his voice. I grabbed his neck

"I took her away from you? You lousy piece of sh!t. You think she would give you the time of day? I treated you like family and what did you do? ...tell her" I sneered at him and clawed at his neck drawing out blood.

My father came over and mind linked me so Alex wouldn't hear We need him to figure out how he erased her memory

“Alex you will be punished for your treason as soon as we land. Brian is going to tear your head off” My father growled at him the fvck cowered back in his seat.

“Alpha please forgive me” He pleaded

“Forgive you? For what ...tell her” I ordered him. Axel came over and stood by me.

“Tell her now” I snarled

“I kidnapped you. I lied”

I heard Hope gasp. I let go of him and smirked at him in victory

“It was always him huh Hope? even though I erased your memory he was always in the way” He screamed at her.

“Lower your voice when speaking to her” I growled before Axel hit him for what seemed like the hundredth time.

“I want my bag” Hope said as she walked away with her head down. fvck. I followed her got her bag and took it into the bedroom where she was sitting. Emily was with her.

“I’m sorry for all this Hope” Em said “You don’t deserve this nobody does but you’ve always been strong and you’ll make it through this” She leaned in carefully and hugged her. I smiled when I saw my baby hug her back.

When we were left alone she got up opened her bag and took out one bottle after the other of her “medication” the cunning bastard had gotten her a sh!t load.

“Can you please dispose of them” She asked so calmly

“My pleasure” I emptied all the bottles in the toilet except for one. The doctor will need to study it’s composition to figure out a quick way to get her memory back.

I came back into the bedroom and walked over to her. Her eyes met mine

“I’m tired is it okay if I lay down here”

“Baby this is our jet. Our bedroom. you can do whatever you want”

I came in closer to her fvcking\*g mouthwatering body and pulled her into my arms. She was hesitant and unsure but as soon as I put her head against my chest she melted into me like she had done every other time before. I brought my head into the crook of her neck and stayed there for a few seconds letting her scent calm me. I missed her so much. I pulled back and took her face in my hands.

“Sleep you look tired” I told her

“So do you” She said. I k!ssed her forehead for not wanting to go for more because I wouldn’t be able to stop myself then put her in bed and tucked her in but not before I made sure she had a sandwich and piece of fruit. I got in bed and lied down next to her she tried to inch away so I pulled her into my arms and ran my hand through her long hair.

“Don’t push me away. I won’t ever hurt you. I love you” I whispered to her. I had her head on my left arm that wrapped around to her shoulder and my other arm was around her waist. I felt myself relax when her breath evened out she had fallen asleep. I looked down at her beautiful face and placed a single k!ss on her nose. This is heaven. This is where I ever want to be.

All the sleep deprivation finally caught up with me and I fell asleep listening to the beating of her heart.

## My Mate Chapter 65 - Tips

Hope

I woke up to the sound of someone knocking at the door I felt a bit confused at first not knowing where I was until I found myself snuggled up in Zayn’s strong arms. He had me in a possessive hold his arms both wrapped around me somehow this felt like déjà vu.

“Coming” I said as I tried to get out of his grip.

“We’re going to be landing soon” Emily said through the door

“Okay thank you” I said back trying to keep my voice down

Zayn looked peaceful and gorgeous in his sleep. My face was so close to his I felt this sudden urge to k!ss him. Why did he have this effect on me? I wasn't even sure everything he said was true. I lifted my hand slowly and traced his bottom lip he suddenly opened his eyes and locked them on mine. I felt like I was trapped in his web. He was a lion and I his prey. Before I could move my hand away he grabbed it and slipped my finger into his mouth seductively as he bit ever so lightly. My lips parted at the feeling of his tongue on my finger it made me want him but there was no way I was letting this happen. My body squirmed with need but I moved my hand away and pushed at his hard chest trying but failed miserably to get out of his clutches. He quickly turned so I was under him

"Baby don't fight it, we were made for each other"

Oh my God. This is bad I need to get up from under him and off this bed "Your sister knocked on the door"

"My sister is the least of my concern right now" He leaned down closer

"I have missed you so fvcking\*g much" His voice was so raw and primal. He closes the space between us, I felt my whole body blossom and come to life as his warm mouth came down on mine in an instant urgent k!ss. He slid his tongue into my mouth so hungrily and possessively while his fingers remained soft as they trailed up my arm to the base of my neck and moved up a little to cup my face deepening the k!ss. I felt tingles everywhere our skin touched. This cannot be normal it's just a k!ss.

I felt my whole body go weak as his tongue slid across mine I couldn't help the faint moan that escaped me. He settles in between my legs and I can feel his erection through his jeans on my lower stomach. He was a God for sure all muscular and beautiful. He snaked his hand down to my breasts and squeezed softly...Oh my god his k!ss alone is enough for me to lose control and now he was driving me crazy with need as he fondled my breasts through my shirt.

He is making me feel things that I don't understand. The intensity and desire between us was indescribable but this cannot happen. I pushed against his chest with both my hands

"Zayn stop" I said with little conviction in my voice He took both of my hands in his and held them tight against his chest then lifted them over my head. He

moved down to my jaw then to my neck making me shiver as he licks and kisses all the way up to my ear.

"You are mine and mine alone." He let out a growl an actual animalistic growl but I wasn't scared. It only made me want him to rip my clothes off and have his way with me. Where are these thoughts coming from all of a sudden? I thought to myself.

"I know you can feel it. You don't want anyone else to kiss you but me. It's my voice that's always in your head" His voice is so possessive and alluring. He pulls back and looks into my eyes. "Right?"

A tap at the door makes me jump "Hey guys we just landed" Emily calls her voice full of amusement

"Zayn let me up" I whispered

"Not a chance not until you answer me" He says as he nuzzles into my neck. Oh my.

"Tell me" I try to break free but he is too strong "You're not going anywhere not until you tell me"

"Tell you what?" I answered frustrated but loving his feel and all the weird yet arousing electric tingles shooting down my spine of his touch alone

"That you only want me" Oh my god there is no way I can say that to him.

"No get off me before I punch you again" I tried to wiggle my way out from under him. He chuckled

"Say it baby or you're not going anywhere" He moves down a little and bites my nipple through my shirt making me arch my back.

"I only want you" I tell him what he wants to hear wishing circumstances were different so I could tear his shirt off him and we could finish what he started. But this is too fast

"Good girl" He smiles "Now you can get up"

I jumped off the bed and straightened out my clothes keeping my eyes off him. I cannot believe I let this happen.

Zayn

I walked over to her as she ran her hands through her hair

“Baby your parents and some of your friends are waiting outside for you.” I told her as I cupped her face. I wanted her to look at me so I could decipher how she felt.

“My parents are here?” she looked a bit nervous

“Yes, your parents and friends are here but so am I” I kissed her forehead “So anytime you feel overwhelmed I will tell them all to back off” She stayed quiet thinking about what I said.

“Okay” She whispered

Hope went into the bathroom to freshen up while I went out to talk to my father. Axel has Alex in a deathly grip. I looked into his eyes once more

“Welcome back, the dungeon will be your new home for the rest of your miserable life. Oh but don’t worry that shouldn’t be too long”

“Please forgive me and I’ll tell you where Edward is because this isn’t over even if you kill me” I grabbed him by the neck and lifted him off the floor

“I know how to get you to talk you pathetic fvck” I threw him down hard “I’m going to teach you to fvck with me” Hope came out of the bedroom and stopped when she saw the fvcker then walked over to us. I put my arm around her waist and lead her over to where my Father was talking to the pilot.

“Are you ready?” My father asked her

“Yes” My baby answered confidently. I couldn’t help but stare at her. She was finally home.

Our allies all welcomed her back before we made our way off the jet. I was surprised but happy that she didn’t ask about Gavin. Then again when Alex admitted to her what he had done she must have figured that Gavin had a part in her abduction as well. When the time comes I will teach them both to violate her again. Right now I was fvcking\*g happy she was by my side. I don’t give a

fvck about anything but my woman's safety and happiness. As long as I have her back that's all that matters to me.

The medics I had called on to be ready when we land had Gavin on a stretcher but he was still unconscious. Hope looked at them drag him away as they bowed to her. "Take him straight to the hospital don't wait for us" I ordered

"Yes, Alpha"

Axel and Emily walked in front of Hope and I while my father and our allies walked behind us.

"Axel make sure he gets to the car without a fvcking\*g word" I said "We don't need any more attention"

"Don't worry he'll keep his mouth shut"

I put my hand around her waist when we neared where everyone was waiting for her she flinched a little but hey at least she wasn't trying to run or kick my a.ss. I held her by the elbow and she stopped walking looking up at me with those beautiful eyes. I stood frozen lost in her exquisite orbs. fvck.

"Are you ready baby?" I asked finally finding my voice. I took her chin between my fingers. She stayed quiet at first then nodded her head "Yes"

As soon as we stepped foot out of the airport loud clapping, whistles, pack members calling out her name, and cries filled the air. I wasn't shocked that almost all of the pack was here to welcome her home Hope is very much loved within our pack. She looked a little flustered so I put my arm around her waist and brought her into me

"Who are they all?" She asked me

"Friends and family baby" I kissed her forehead

Hope

There was a crowd of people all clapping and cheering when we walked out my eyes searched around for an older woman who might resemble me because that's the only way I would be able to acknowledge her. My heart was beating faster by the minute until Zayn pulled me into his warm embrace

and I saw her. She had emerald green eyes and blond hair I knew right away she was the one. She was so beautiful, tall and lean like a goddess. My mom. She came running and crying towards me, I stopped and looked up at Zayn. He nodded and smiled at me.

“That’s your mother baby” He whispered right before I felt her wrap her arms around me tight. My heart clenched for her she must have been through a lot. A tall handsome man was right behind her and I knew who he was.

“Princess” His voice broke just before he hugged both my mother and I. Everything was in slow motion for a minute I couldn’t believe what was happening. She cupped my face and kept kissing me on my cheeks, forehead, head. I stood there looking at them in wonder and disbelief! I had parents who were well and alive but I couldn’t remember them.

“Are you okay honey?” She asked I stayed quiet for a moment unsure how to answer her but the look on her face made me feel bad.

“Yes, I’m fine” I reassured her

“Baby I’m going to take you bag to the car” I heard Zayn say to me. I looked at him wanting him to stay close to me I didn’t say anything though and I watched him walk away with my bag.

“Let’s go home” My father said as he held me tight and walked me over to a black Hummer where Zayn was standing.

So many people my age and older people all bowed and hugged me even though I could not recognize anyone I felt like I was home in my father’s arms and my mother’s warm embrace.
