

My Twins 27

Hey, My Twins Babies

CHAPTER 27 KNOW THE TRUTH

Daenerys took Leo to the tombstone of Winnie's parents. "They are Winwin's parents. You can tell if Winwin cheated you by looking at their date of death." Leo panicked, at this moment he realized that he had made a mistake. Leo squat down to look at the death date. Suddenly his brain went blank and he pulled his hair in chagrin. "I wrongly blamed Winwin, it is my fault, it is all my fault." Leo was in self-accusation and regret. He lost his favorite woman. The date Winnie's father died was the day Winnie suddenly returned to the country. When Winnie's mother died, they had broken up. So when Winnie called him, her mother was dying. Damn Penny, she knew everything about Winnie and used what she knew to set up a scam. But the most intolerable thing was that he believed it and did not doubt it. They walked out of the graveyard to the car. Leo regretted and Daenerys could do nothing about it. "Leo, do you know how difficult it was for Winwin? Her father died on the spot, and she got the news that her mother was dying every day. Vanessa was in a coma in the hospital. You were God to her at that time, but you refused to help her." Four years had past, by Daenerys's words, Leo could feel Winnie's heartache and he could not image how Winnie faced it. "I was wrong. I was so wrong." Leo regretted and wished to slap on himself. Hearing what happened to Winnie, he hated himself even more. He hated that he did not appear when Winnie needed him most. What love was that? How could he still say that he loved Winnie? "That's not the whole story. What made her desperate was the debt of more than 50 million yuan left by her father and compensation for the dead and injured. It may not mean much to you, but it almost killed her." Daenerys breathed a sigh of relief before she continued. "Fortunately, when sorting through the belongings of her father, Winwin found there were houses under the name of her sister and aunt. Her sister was under 18, so she could only sell two of them. Winwin's aunt came back and sold one of her houses, in that way, she paid off most of the money." "How much is left? I'll pay for her." Leo asked urgently. Not to mention 50 million, he could be able to pay a hundred million. But for Winnie who lost her family was hardship. "Not much. With her current ability, she'll soon be able to pay it off." "What can I do for her? I can do anything she needs." Leo said anxiously. "Don't worry, Leo. There's something I haven't told you." She was silent for a moment before she continued. "Leo, Winwin has a child. I'm afraid it's impossible for you to be together." "A child?" Leo stared his eyes wide in shock. He didn't understand. "She married and divorced. She has the child." Daenerys explained briefly and did not say much. Because the child was already his biggest obstacle. Leo was now a rich man in B City and outstanding in all aspects. Daenerys hoped he could protect Winnie. But it was not what it was four years ago. "Married? Divorced?" Leo was surprised and did not expect that. At the same time he thought of their last phone call, "I have found a man, he gave me the money that you can't afford." Was that the moment Winnie decided to choose another man? Was it because of him? Did she personally give his most loved woman to others? At the thought of this, Leo hit his car with a fist angrily. He hated himself. On the way home, Leo had been frowning and thinking about something. Daenerys did not disturb her but silently looked out of the window. "Leo, don't tell Winwin that I told you, she will break off with me if she finds it out." Daenerys suddenly reminded Leo. She did not want to be scolded by Winnie. "I won't tell her. And you don't tell her what I know. I made her so desperate and I allied with her best friend to hurt her. I am ashamed. I am not worthy to say I love her." Leo said sadly with a low

mood. "I'm not going to say anything. You can do it according to your situation." Daenerys looked back at Leo, thinking that he flinched after knowing the existence of the child. This was what she could only do. If she did not tell him about the child, it would cause harm to Winnie in the future. "You are her best friend, Daenerys. Tell her not to risk her for revenge. Penny is now Brian's wife. Winwin can't do anything to her. If she wants revenge..." After knowing the truth, Leo was sure that Winnie came back to take revenge on Penny. But this revenge was not easy, he could not watch Winnie get hurt. "Wait, revenge? Penny is Brian's wife?" Daenerys was eager to tell Winnie the news, so she was sent directly to Winnie's home. Winnie and Megan were having dinner. Daenerys had a key, so she directly opened the door to come in. "Winwin, Penny is Brian's wife?" She widened her eyes and could hardly get over the shock of it. How could they get involved again after four years, and what was revenge all about? Her heart has been on edge ever since she heard this. Winnie was stunned and then she said indifferently. "Have you had dinner? Sit down to dinner. I'll get you the cutlery." Winnie said and got up. "Winwin, you know already?" Winnie was calm, so Daenerys suspected. "Eat first and we'll talk about it after dinner." Winnie acquiesced. But it was a restless meal for Daenerys. After dinner, Winnie and Daenerys took Megan to the park in the community to play. After they put Megan in the children's area, Winnie and Daenerys began to talk. "I just found out. It was a surprise. At the beginning, when I saw Penny in the Bennete Group, I thought it was her sister. This morning, when he dropped me off, I met her in the parking lot and knew she was his wife." Winnie said calmly. They had quarreled and she had been slapped, so it was not surprised, she just felt uncomfortable in heart. "Winwin, why didn't you tell me? What should you and Brian do?" About things between Winnie and Brian, Megan had told Daenerys last night. Before she had a good talk with Winnie, there was such an incredible thing, and now she was worried about the delicate relationship between these people. "I have nothing to do with him." Winnie remained indifferent. It was just a hug, just a kiss, just sex, these should be nothing. "Nothing? You spent the whole night with him. Who's gonna believe you have nothing to do with him? Megan said Brian kissed you and you still said it was nothing?" Daenerys was excited, but more worried. She was afraid that Winnie did so to take revenge on Penny. She was worried but she could not directly ask, for fear to expose Leo. Daenerys thought quickly and spoke again. "Ok. Stay away from Brian and don't have dealings with Penny." "Don't worry, it won't be anything." Winnie felt the fear in the tone of Daenerys, so she comforted Daenerys, but she was not sure if there was anything. When they were chatting, Leo not far from the green belt was looking at Winnie, looking at the child playing in the amusement park. In any case, he did not expect the truth to make him ashamed and that Winnie had married and had a child. The presence of this child did make him hesitate, but his love for Winnie did not diminish. Winnie went to work as usual. The one-night stand with Brian had been buried deep in her heart. Seth came back from a business trip, and all the work were reported by Seth, so that she did not have to meet Brian. It was the last plenary meeting before mass production of the LK phone, and all the phone divisions would present. Winnie was no exception. Winnie thought Brian would participate, but after seeing Brian, she could not help but think of the entanglement of that day. However, when she looked at Brian, Brian was indifferent, and showed no apology for that day. Winnie showed a bitter smile. It seemed that she overthought. The meeting went well with no objection from any department. "Miss Chambers, there is no question in all departments. I want to talk more about your configuration. Come with me to the office." Brian said coldly and then left with his secretary and a few assistants. Winnie had been bending her head and listening silently. When suddenly she was called, she was surprised. She felt embarrassed when she heard that she had to go to the president's office, but it was inappropriate not to go because she had been called on. Winnie braced herself and came to Brian's office. When she looked to

Brian sitting at the desk, Brian looked to her. Winnie saw the distrust in Brian's eyes. Brian had been suspicious of her ability and did not believe that she gave the most reasonable configuration. "Mr. Bennet, my matching criteria is the most accurate, there is no need to change." Winnie said firmly and show no any resentment. "Did my wife bother you?" Brian did not answer and his eyes were insidious. Winnie did not expect Brian to ask this question, and was stunned for a moment. "No. I'm here for business. If there is nothing else, I gotta get back to work." Winnie gave an indifferent answer. She knew Brian was not worried about her, but worried his wife knew something from her. "Be my woman." Brian said in a domineering manner, and did not talk about work. Winnie did not understand why Brian said so and did not know why he insisted on it. "Mr. Bennet, I've given you the answer to that question, and I will give you the same answer. I will not be your woman." Winnie refused again. Knowing that he was Penny's husband, she could not approach him.
