

## **Mysterious 231**

### **Chapter 231: Here Comes Trouble**

The Sweet Dew Fruit Store went viral!

Even though Qin Xi had expected this outcome, she was still shocked by the morning's sales.

Xia Tangxin said excitedly that there were groups of people queuing up at the entrance of the fruit shop all day. As long as the door was opened, all the fruits would be looted in less than half an hour.

Even so, more than half of the people could not get it.

It could be said that in just three days, the Sweet Dew Fruit Store had become famous at the speed of a rocket. It resounded throughout Luoping City and occupied the headlines of the Luoping Daily.

Of course, what came with the rapid increase in sales was trouble.

After Qin Xi received the call, she brought Lone Wolf, Saber, and Blood Stealer to Luoping City and handed everything in Shangwan Village to Han Shi.

At Sweet Dew Fruit Store.

Seeing Qin Xi, Xia Tangxin's eyes lit up. "Xi, you're finally here!"

Seeing that there were dark circles under her eyes and she looked tired, Qin Xi asked, "You look tired. Why don't you rest well?"

"Don't mention it. Let's talk inside!" Xia Tangxin said gloomily. She greeted Lone Wolf and the other two before walking upstairs with Qin Xi.

Seeing the worried look on her face, Qin Xi asked curiously, "What exactly happened? Who are those people?"

Logically speaking, with Xia Tangxin's father's status, Xia Tangxin shouldn't have encountered too much trouble in Luoping City. How could the store be forced to the point of closing down?

When the two of them arrived at the office, Xia Tangxin sighed and said worriedly, "Xi, we're in big trouble."

Qin Xi did not speak and waited for her to finish.

"Yesterday, Master Qi's men came and wanted to acquire our store. When I said no, he sent people to cause trouble here."

Qin Xi frowned and asked suspiciously, "Master Qi? Who is that?"

"Master Qi is not to be trifled with. He has two department stores. He saw the future of our fruit store and wants to cooperate with us."

Xia Tangxin sighed worriedly and said, "Actually, he has a lot of connections and resources, so it won't hurt to work together with him. However, he's sinister and cunning, and his methods are extreme and ruthless. I don't want to have anything to do with him, so I rejected him tactfully."

"I thought he wouldn't go overboard on account of my father. I didn't expect that he would get a group of people to come to the store and pretend to be customers. After that, they deliberately quarreled with the other customers and caused chaos. Wave after wave, the customers are now too scared to come."

"When my father found out, he specially called Master Qi, but he didn't pick up at all. It gave me a headache."

Xia Tangxin said dejectedly, "My father asked me to try my best not to provoke him. He said that Master Qi's identity is very special. Not only does he have a lot of connections, but he also has a mysterious background. Moreover, he's narrow-minded and very difficult to deal with. As long as he likes something, he will try all he can to get it."

"Therefore, as long as this matter is not resolved, the Sweet Dew Fruit Store might really have to stop operating. Sigh, I'm really angry. Xi, what should we do?"

Qin Xi's eyes were slightly cold. Seeing that Xia Tangxin was still listless and dejected, she said with a smile, "Alright, don't think too much. Go back and rest well. Leave this matter to me. Just focus on business tomorrow."

Xia Tangxin was confused. "What do you plan to do?"

"You don't have to worry about that. I'll make the arrangements." Qin Xi looked at the time and stood up. "It's getting late. Let's go. Remember, the store will be open for business as usual. Leave the rest to me."

Seeing how confident she was, Xia Tangxin nodded. "Alright."

## **Chapter 232: Let's Go and Wait**

In a manor villa in the suburbs.

This manor was given to Qin Xi by Meng Chang'an as a reward after she helped Elder Meng last time. This was the first time she came.

"Lady Boss, whose house is this?" Looking at the solemn and luxurious manor, Blood Stealer asked in confusion.

Qin Xi smiled and took out her key. She opened the black door and said, "This used to be a haunted house. Later on, I dispersed the things inside, so the owner of the villa gave this place to me."

Blood Stealer was shocked. "Lady Boss, you know how to catch ghosts?"

Even Saber and Lone Wolf were shocked. Although they knew that Qin Xi had no reason to lie to them, they found it unbelievable.

Saber suddenly asked curiously, "Are there really ghosts in this world? What do they look like?"

Qin Xi said ambiguously, "There are some things that can't be explained by science. If you believe it, it exists. If you don't, then it doesn't."

After entering the manor, Qin Xi pointed at the independent two-story western-style building on the other side. "In the future, that building will be where you live. See what you need or how you want to renovate it. Use your free time to fix it yourself."

Blood Stealer smiled happily and rubbed his hands eagerly. "That's great. In the past, I always wanted to have a place of my own that I could sleep in and work out in, but there were too many missions and I didn't have a stable place to stay. Now, all my dreams have come true."

Saber was also quite excited. It had to be noted that people like them lived a life of constant danger. Every time they carried out a different mission, they would fly all over the world and stay for months, half a year, or even a year. They were unfamiliar with the word 'home'.

Moreover, for the sake of the organization, they had sacrificed everything, their youth as well as their lives.

It could be said that as long as they became a member of the assault team, they would have to give up their lives and family to become invisible warriors who protected the country and the people.

Even so, they never held a grudge. Many warriors tried their best to join but weren't accepted.

Therefore, this team was a great honor and responsibility to them.

It was not until they were forced to leave the organization and met Qin Xi that they truly felt the importance of home.

Not to mention them, even Lone Wolf, who had always been taciturn and expressionless, had a trace of joy in his eyes.

Seeing their excitement, Qin Xi was also very touched.

After all, in her previous life, she had been hunted down for the rest of her life. Every time she was in a desperate situation, she would fantasize about the warmth and protection her family gave her. Now that she had met Lone Wolf and the others, although their previous experiences were different, their goals were the same.

Putting aside these sad memories, Qin Xi said seriously, "Pack up. We'll go and meet Master Qi later."

Lone Wolf and the other two did not show serious expressions. They had not fought for a long time and were eager for a battle. Perhaps only they knew that if they did not find something to do, their bodies might very well rust.

Not long after, she obtained all the information about Master Qi from the Xia family. Although it wasn't in detail, it was enough for Qin Xi.

From the information, Master Qi was indeed very arrogant. He relied on his background to do whatever he wanted, but no one dared to challenge him.

However, Qin Xi could tell something was wrong. Master Qi would disappear for a day every 15 days. No one knew where he went, and he had been doing so for three years.

Qin Xi pondered for a moment. Her strong intuition told her that something was wrong. She looked at the time and saw that it was the 15th day today. At the thought of this, she stood up and said to Lone Wolf, "Let's go and wait."

### **Chapter 233: Internal Martial Arts**

With the help of the information, Qin Xi and Lone Wolf quickly found Master Qi's residence.

About 100 meters away from Master Qi's villa, behind a lush bush, the two of them wanted an opportunity to make a move.

It was almost the end of September. During the day, it was quite hot, but at night, the temperature would gradually become cooler.

Looking at Lone Wolf staring in the direction of the villa, Qin Xi suddenly smiled. She took out two large pieces of cherries from her bag and threw them to him. "Relax, there's no one around now. You don't have to keep staring. Come, eat a piece of cherries and wait."

Lone Wolf subconsciously grabbed the cherry and said coldly, "When carrying out a mission, any movement might expose our whereabouts."

He was stating a fact, but at the same time, he seemed to be warning Qin Xi.

Qin Xi sat down and took a bite of the cherries. She said casually, "We're not on a mission. You're being too tense. Besides, it's just Master Qi. There's no need to be so nervous. At most, we'll just catch him and poison him. Wouldn't that solve the problem?"

Lone Wolf was stunned. So missions could be done like this?

He thought for a moment and sat down like Qin Xi.

Although Lone Wolf did not agree with Qin Xi's way of doing, he knew that there was indeed no need to be so serious about a character like Master Qi. Just as Qin Xi said, at most, they could catch him and get rid of him.

At 10 p.m., in the dead of the night, only the dim street lamps illuminated the ground.

After waiting for three hours, the two of them finally saw a black car drive out of the villa.

Qin Xi narrowed her eyes and could tell that the person driving was Master Qi. She wrote something in the air and a tracking talisman that ordinary people could not see attached to the car and instantly disappeared.

Although Lone Wolf could not see the talisman, he acutely sensed something and looked at Qin Xi.

Qin Xi stood up with a smile and explained, "I left a tracking talisman on his car. This way, we won't lose him easily."

Lone Wolf asked suspiciously, "Lady Boss, are you from the Mystic Sect?"

Qin Xi did not hide it. After all, Lone Wolf and the others would be her companions in the future. They would find out sooner or later, so there was no need to keep it a secret.

"I guess so. I specialize in mystic medicine and know some ancient martial arts. Over the past few days, I've been sorting out a few internal cultivation techniques that are suitable for you guys to cultivate. As long as you can master it, it won't be a problem for you to deal with your previous enemies."

There was no doubt about the capability of the assault team, but against martial artists who specialized in Internal Martial Arts, they were just ordinary people. If they also cultivated Internal Martial Arts, she firmly believed that no one could defeat them in actual combat.

Lone Wolf's pupils constricted and his facial muscles trembled. He said in shock, "Lady Boss, you mean... we can cultivate Internal Martial Arts?"

Qin Xi walked back to the front of her car and sat in the front passenger seat. She said, "Why not? You're my people now. I naturally have to do my best to make you stronger. Only by becoming stronger can you protect yourselves and the people I want to protect."

Hearing her answer, Lone Wolf was very excited. He clenched his fists and got into the car. He said gratefully, "Lady Boss, thank you!"

He was not only thanking Qin Xi for giving them a chance to take revenge, but also giving them a new life and a home.

Qin Xi smiled. "You're welcome. Like I said, you're my people. I'll never be stingy with my own people."

### **Chapter 234: A Desperate Woman**

Master Qi's car was parked in front of a garage.

When he came out of the garage, his meticulously styled slicked-back hair was styled into short hair, making him look ten years younger.

Of course, not only had his hairstyle changed, but even his fierce and domineering aura had become gentle and elegant. If someone did not know his status, they might think that he was a teacher.

Seeing him enter an old corridor, Qin Xi got out of the car and said to Lone Wolf, "I'll go up and take a look. Wait in the car."

Lone Wolf nodded. He knew that Qin Xi was an ancient martial artist. Dealing with an ordinary person was a piece of cake for her.

Therefore, he was not worried about letting her do it alone.

As for Master Qi, he looked at his clothes and hairstyle. Feeling that there was nothing wrong, he walked into the corridor.

The corridor was very narrow and dilapidated. The lights were flickering, as if they would be extinguished in the next moment.

When he arrived at the fourth floor, Master Qi took a deep breath and knocked on the door.

After a while, the door opened and a pretty face appeared in front of him. When he saw Master Qi, his expression was calm. "You're here!"

When Master Qi saw the woman, his expression softened. Before he could close the door, he pulled the woman into his arms and lowered his head to kiss her.

Qin Xi raised her eyebrows and smirked. From the window of the corridor, she realized that there were terraces in this building. Although it was not big, it was enough to fit a person.

At the thought of this, she jumped from the window of the corridor to the terrace. Fortunately, it was night and no one noticed her.

Hiding on the terrace on the fourth floor, Qin Xi saw the two bodies on the bed through the small gap in the curtains.

From her angle, she could not see Master Qi's expression, but she could clearly see the numbness and hatred in the woman's eyes, as well as the deep helplessness and despair.

Dead silence.

Qin Xi looked at the woman's face and frowned.

From the looks of it, this woman had never been married, but she had a child. Moreover, there was an aura of death gathered between her eyebrows, which meant that before long, her life would end.

From the information Qin Xi gathered about Master Qi, it was said that he had married his godfather's daughter, his current wife, to achieve his current status. It was said that Master Qi loved his wife very much. Because his wife was injured and could not get pregnant, he had a vasectomy. Therefore, this woman's child was definitely not Master Qi's.

Then, there was only one possibility. This woman was controlled by Master Qi, because her child was in his hands.

At the thought of this, Qin Xi quickly thought of a solution.

Looking at Master Qi's back, Qin Xi sneered, thinking to herself, "Don't you want to cause trouble for me? That's good. Let's see who's better at causing trouble."

After returning to the car, Qin Xi asked Lone Wolf to drive and look for a phone booth nearby. In the end, she found a phone booth near a hospital and called the landline at Master Qi's house.

"Hello, who is this?" This was a middle-aged woman's voice. From her tone, she should be a nanny.

Qin Xi lowered her voice and changed the fluctuation of her vocal cords. She said in a completely different voice, "I'm looking for Madam Qi."

"May I know who you are?" the nanny asked in confusion.

Qin Xi said calmly, "Something happened to Master Qi. He asked me to pass a message to Madam Qi."

#### Chapter 235: Missing the Mark

When she returned to the old building, Qin Xi picked up a stone and played with it in her hand. She looked at the window on the fourth floor.

Just as Lone Wolf was puzzled, Qin Xi took out the note she had written down and pulled off the rubber band that could tie half of her hair. She tied the note to the stone, aimed at the window, and tossed it out.

With a whoosh, the stone shattered the glass on the fourth floor. Then, she hid in the next door. Seeing this, Lone Wolf followed suit.

Master Qi was in the middle of doing his business. At the sudden sound, he immediately stopped.

He was so angry that his face turned green. He picked up the clothes beside him and walked to the window. He looked down, thinking that it was a prank by a naughty child. He shouted, "Damn it, who is it? Who dares to smash my window? Don't let me catch you, or I'll skin you alive."

"Damn it, how dare you smash my window? Do you want to die?"

The more he cursed, the fiercer he became. At this moment, the woman on the bed was also dressed. She noticed a note tied to a rock and walked over to pick it up. She said calmly, "There's a note here."

Master Qi's eyes narrowed and his heart skipped a beat. For some reason, he had a very bad feeling. He quickly took the note and unfolded it. There were only a few words written on it: "Your whereabouts have been exposed. Retreat quickly!"

He was shocked, his pupils constricted, and his grip on the note tightened. He quickly put on his clothes and warned the woman solemnly, "I have to get going. If anyone asks me, you know what to say. Remember, no matter what, you can't tell them our relationship. Otherwise, you can forget about seeing your daughter."

Seeing that he was flustered and nervous, the woman had some guesses. However, she did not want to miss this opportunity. She bit her lower lip and said with a trembling voice, "I, I haven't seen my daughter in a long time. Can you?"

Master Qi was dressed neatly and interrupted her. "We'll talk about it next time. Be good. I promise I can reunite you with your daughter."

With that, he left in a hurry.

As she watched him leave, the woman sat on the ground in despair. Tears streamed down her face.

She looked at the glass shards on the ground with blurry eyes. Suddenly, a terrifying thought echoed in her mind. She reached out and picked up a sharp glass piece with trembling hands. She looked at her wrist in a daze.

Just as she made up her mind to cut her wrist, there was a sudden knock on the door.

The woman instantly came back to her senses. Her eyes suddenly turned vicious. She threw down the glass in her hand and staggered to the kitchen. She picked up the kitchen knife and took a deep breath at the door. With the thought of perishing together, she quickly opened the door. With her eyes closed, she raised the kitchen knife above her head and slashed down.

Before Qin Xi could speak, she felt her hair stand on end and a strong sense of threat engulfed her.

She did not have time to think and instinctively took a step back. A cold light brushed past the tip of her nose and she broke out in a cold sweat. When she saw what it was, she immediately heaved a sigh of relief.

Realizing that she had missed the mark, the woman subconsciously opened her eyes and saw a beautiful girl opposite her. Her face was pale. With a bang, the kitchen knife fell from her hand and dropped to the ground. She asked in an extremely terrified voice, "Who, who are you?"

Chapter 236: Catching the Adulterer

"Hello!" Qin Xi forced a smile.

The woman was in no mood to joke with her. She looked at her blankly and numbly. "You, why are you looking for me?"

Seeing that she looked like she had nothing to live for, Qin Xi went straight to the point. "I was the one who threw the stone. I know you have your difficulties, so I'm here to help you."

"Help me?"

The woman stared at her with dark eyes and slowly shook her head. "I don't need help! You can't help me much. Young lady, leave. What happened just now... I'm sorry. I didn't mean to scare you on purpose."

Qin Xi raised her eyebrows. "Don't you want to save your daughter anymore?"

Just now, in the corridor on the fifth floor, she heard Master Qi's threat before he left. She knew that this woman was controlled by Master Qi, but she did not expect him to use such a despicable method.

The woman asked excitedly, "You, what did you say? How did you know that he has my daughter?"

"Don't ask so many questions. Just tell me if you want to save your daughter."

Actually, Qin Xi originally wanted to ignore this matter, but she suddenly remembered the scene in her previous life where she yearned for someone to help her in a desperate situation.

Now that God had given her the extraordinary ability, if she turned a blind eye to people who needed help, she would be no different from those people in her previous life who refused to help when help was most needed.

Besides, helping the mother and daughter escape would cause a lot of trouble for Master Qi, so why not?

The woman was so excited that her lips trembled. She promised firmly, "Yes, as long as you can save my daughter, my life is yours. I'll do whatever you ask me to do and never go back on my word!"

“Very good. Remember your promise.” Qin Xi nodded in satisfaction. “Follow me. We can’t stay here any longer. Master Qi’s wife is on her way.”

The woman’s eyes narrowed and she nodded with difficulty. “Alright.”

Just as the three of them drove away, three cars stopped in front of the old building. A few bodyguards quickly got out of the car and opened the door carefully and respectfully. A well-rounded woman got out.

This person was Master Qi’s wife, Liang Bing.

Liang Bing’s appearance was ordinary, but the ruthlessness she exuded made people not dare to underestimate her.

She looked at the fourth floor angrily. Seeing that the lights were on, she gritted her teeth and shouted, “All of you, go up. I want to see what kind of woman can make him so obsessed.”

The bodyguards said respectfully, “Yes!”

With a whoosh, seven or eight bodyguards entered the building. When they reached the fourth floor and knocked on the door, they frowned when they heard no movement inside.

Liang Bing stepped on her high heels and shouted angrily, “What are you waiting for? Kick it open.”

The bodyguards stopped hesitating and kicked the door. This building was old to begin with, and the locks were all rusted. It could not withstand their kicks and was quickly knocked open.

After looking around, they couldn’t find anyone. The bodyguards shook their heads. “Ma’am, no one. They must have run away.”

Liang Bing looked around the room and did not see any photos of the owner or anything related to Master Qi. She more or less suspected the person who called her anonymously.

However, when she walked to the bedroom and saw a pool of white viscous liquid on the bed, her eyes turned cold. She pointed at the liquid and said to the bodyguard, “Take it and go to the hospital to check who it belongs to.”

The bodyguard’s lips twitched. He really wanted to say that there was no need to be so serious. However, he opened his mouth but nodded seriously. “Yes!”

Chapter 237: Locked on

On the other side, Qin Xi learned from Dong Xiaoxuan that her daughter was hidden by Master Qi. As for where, she did not know.

After returning to the manor, Qin Xi gathered Saber and Blood Stealer. “I’ll give you a mission. Find out the whereabouts of the child from Master Qi and bring her back.”

Lone Wolf said calmly, “I alone am enough.”

There was no need to use a musket to kill a butterfly.

Qin Xi naturally knew what he meant. She said with a smile, "Of course I know your strength. The reason why I asked you to take on the mission together is not only to ensure that nothing goes wrong. Next, I'm going to teach you some torture methods. Of course, I want you to find a lab rat to test it out."

She said it casually, her recognizable baby face filled with an innocent smile. However, it made everyone present, including Dong Xiaoxuan, feel a chill down their spines.

Blood Stealer, on the other hand, was abnormally excited. He asked eagerly, "Lady Boss, what kind of torture method is it? Hurry up and teach me!"

Qin Xi smiled and said, "Then listen carefully..."

\*\*

It was dark and windy at night.

At midnight, because of the tracking talisman, Lone Wolf, Blood Stealer, and Saber quickly locked onto Master Qi's location.

After Master Qi ran out of the old building in a sorry state, he did not go straight home. Instead, he visited her parents' grave. After that, he found a nearby bar and pretended to drink to drown his sorrows.

The reason he did this was fabricate some alibis.

However, what he did not know was that Liang Bing had collected his liquid for testing. If he knew, he would probably panic and rush to the hospital.

In the private room, Master Qi called over two subordinates he trusted and drank wine absent-mindedly. He was wondering who the person who wrote the note was and what that person's motive was. How did Liang Bing know?

All kinds of questions lingered in his mind, making his head buzz.

At this moment, one of his subordinates beside him poured a glass of wine and asked, "Master Qi, you look like you have a lot on your mind. Did something happen? Do you want to tell me and Dong Zi so that we can help you solve it."

Master Qi did not want to say it at first, but his mind was in a mess now. He really could not think of a way to deal with the situation. After thinking for a moment, he said, "If my wife suspects me of having an affair, how should I deal with it?"

He did not make a comparison or mention the note. He just succinctly explained his anxiety.

Now, he couldn't care less about the note. He just wanted to dispel Liang Bing's suspicion of him.

Dong Zi and Pang Dao looked at each other, and an imperceptible dark glint flashed across their eyes. Pang Dao said hesitantly, "Master Qi, you..."

Master Qi's expression immediately changed. "Cut the crap. Don't you know what kind of a person I am? When did I ever have a woman by my side? It's Bing... Sigh, women are like this. They always suspect men of cheating on them. I'm trying to think of a way to express my loyalty and make her happy."

Dong Zi and Pang Dao heaved a sigh of relief.

It had to be noted that the reason why Master Qi could be where he was today was all because of Old Master Liang. Although Old Master Liang was not in charge anymore, he still held a lot of power. If he could make Master Qi who he was today, he had the ability to bring Master Qi down as well. As a father, he wouldn't forgive someone cheating on her daughter.

Dong Zi grinned and snapped his fingers. "Master Qi, that's easy. Women know women the best. Why don't we get some women over to ask them about it?"

Master Qi's eyes lit up and he slapped his thigh excitedly. "That's right. Why didn't I think of that?"

Chapter 238: Arrogant Blood Stealer

In the private room, just as Master Qi was almost calm, there was a light knock on the door.

Thinking that the women he had just called were here, Dong Zi took the initiative to open the door. As soon as he did it, he was kicked hard. Dong Zi was caught off guard and flew out, smashing into Pang Zi.

All of this happened in a flash. Before Pang Zi and Dong Zi could react, the room went black.

Master Qi was also shocked. He suddenly stood up and asked warily, "Who are you? How dare you touch my men? Don't you know who I am?"

Saber and Lone Wolf ignored him. Blood Stealer, on the other hand, chuckled. "I hit your people. What are you going to do about it?"

Master Qi felt that the fierce and bloodthirsty aura emanating from them was extraordinary, and his heart inexplicably thumped.

He was no match for them. If he acted rashly, he would most likely end up being even more miserable than Pang Zi and Dong Zi.

Besides, these people were aggressive and knocked out his two men in one move. It was clear that they were here for him.

After thinking for a while, he couldn't recall who he had offended recently. Why were they looking for him?

Could there be a mistake?

Now, without his lackeys, it would be a one against three situation. He had no chance of winning at all.

At the thought of this, Master Qi calmed down and asked with a frown, "Who are you? Why are you looking for me? Could it be... that there's a misunderstanding between us?"

"Misunderstanding your stupid moron. I'm here to beat you up today. There's no misunderstanding." Seeing that he was afraid, Blood Stealer felt very satisfied. He raised his hand and slapped Master Qi, stunning him.

For so many years, although he was not an overlord in Luoping City, he was still a famous figure and had never been treated like this.

He glared at Blood Stealer, his eyes filled with malice and coldness. He clenched his fists and punched Blood Stealer back. He said angrily, "Do you know who I am? How dare you hit me? I'll kill you!"

Unfortunately, in Blood Stealer's eyes, Master Qi's fists were as soft as a child's. He grabbed his wrist and recalled the methods Qin Xi had taught them. He smiled. "Since you came knocking on my door, I won't stand on ceremony."

With that, he exerted strength in his hand and twisted Master Qi's wrist. The sound of bones dislocating could be heard.

Just as Master Qi was about to scream, Saber immediately covered his mouth. Master Qi's eyes widened in pain as he stared at Saber. He broke out in cold sweat and his face was filled with pain. The fear in his heart surged and his body trembled.

In the past few years, his life had been smooth sailing. With a wave of his hand, he could get rid of anyone he wanted. It was as if he had already forgotten what pain felt like.

Now that his arm was broken, he was powerless to fight back.

Blood Stealer muttered with a frown, "Sigh, did I do it wrong? Why do I feel... it doesn't feel like what Lady Boss described? Should I give it another try?"

He shook Master Qi's crippled arm curiously. The arm seemed to be devoid of strength and swayed left and right. Master Qi was in so much pain that his eyes rolled back. It was obvious that he was in extreme pain. When he heard Blood Stealer's last sentence, he almost fainted.

"My turn!"

Chapter 239: Torture

As Saber spoke, he grabbed Master Qi's other arm.

Crack, crack, crack!

This time, Master Qi's face was pale, as if one of his arms had been torn off. He could not feel his arm at all.

Blood Stealer pointed at the dislocated arm excitedly and said, "Hey, yes, yes, yes, this is the feeling! I indeed did it wrong just now. Let me try it again."

However, when he saw that Master Qi's arms were both crippled, he was a little disappointed. He urged Saber, "Put his arms back. I wanna try again."

Saber rolled his eyes and pointed at Pang Zi and Dong Zi on the sofa. "experimenting on them. This person is still useful."

Blood Stealer's eyes lit up and he walked up to Dong Zi excitedly. Without looking at him, he picked him up like he was carrying a sack and placed him on the ground. "Anyway, they're all bad people. It's a waste not to experiment on them. Hey, Sixth Brother, do you want to give it a try?"

In the end, he even asked Lone Wolf to join him.

Sixth Brother was Lone Wolf. The Assault Team was ranked according to age. Lone Wolf was younger than Blood Stealer, so he was ranked sixth in the team.

Lone Wolf thought for a moment and nodded. "One for each of us."

Then, Pang Zi and Dong Zi, who had fainted, were forcefully woken up by the pain. They screamed and fainted from the pain.

Blood Stealer and Lone Wolf dislocated the arms and then put them back. They repeated it three times and only stopped when they had enough fun.

Master Qi gritted his teeth, his face pale. "Who exactly are you?"

"Where's Dong Mi?" Saber asked coldly.

Master Qi's pupils constricted and he blurted out, "You're Dong Xiaoxuan's people?"

Then, he thought of what he had suffered and was furious. "That b\*tch, so she's the one behind this. Who are you to her? Why do you have to listen to her? I think you're all very skilled. Work for me. I guarantee that you'll be able to live a good life and earn a lot more money. Also, if you want that b\*tch, you can do whatever you want. How about that?"

Until now, Master Qi still did not understand the situation. He only thought that Saber and the other two were hired by Dong Xiaoxuan. Otherwise, this would not make sense!

Saber's eyes were filled with disdain. "Cut the crap. Where's Dong Mi?"

"Third Brother, why are you wasting your breath on him? It's good that he doesn't want to tell us. The methods Lady Boss taught us haven't been used yet. Why are you in a hurry?" Blood Stealer took out three thin silver needles from his pocket and approached Master Qi with an evil smile.

Saber nodded and threw Master Qi to Blood Stealer. When Master Qi saw the silver needles, his heart skipped a beat and he had a bad feeling.

Master Qi retreated step by step, his voice filled with fear. "You, don't come over. What do you want to do? Don't come over. I'll tell you, I'll tell you, okay?"

"Now you want to tell me?" Blood Stealer kicked him to the ground. "It's too late!"

As he spoke, he inserted a needle into the acupoints below Master Qi's lower abdomen. As for the other two needles, Master Qi, who was struggling with all his might, did not feel anything.

He finally understood that the three people in front of him were stubborn and did not intend to negotiate with him. "What exactly do you want to do? I can tell you where Dong Mi is, but you have to let me go."

However, as soon as he finished speaking, he suddenly felt a reaction in his lower body. Then, he let out a low grunt uncontrollably, and his face immediately turned red.

Seeing this, Blood Stealer shouted happily, "It worked!"

Chapter 240: Euphoria Needle

“W-What did you do to me?”

Master Qi felt unprecedented horror, but facing three fierce men, he couldn't help but feel terrified.

“Don't worry, I won't do anything to you.”

Blood Stealer grinned and patted his shoulder. “This is called the Euphoria Needle. It can make you feel euphoric! Enjoy it!”

If Master Qi did not know what the Euphoria Needle was before, then now he knew it by heart after ejaculating one time after another. If it happened two more times, he would probably die.

Master Qi widened his eyes and opened his mouth to beg for mercy. “Let, let me go. Please... I'll promise you anything...”

This was the sixth time. If this happened again, he would die. He would really die.

Blood Stealer also felt that it was about time. He pulled out the silver needles. Master Qi panted heavily, his body drenched in sweat. He said in a hoarse voice, “She's... she's on Yellow River Street, basement 76...”

“That's right. You should have said so earlier. You wouldn't have to suffer so much.”

Blood Stealer patted his face with a smile. He stood up and warned, “Don't try to take revenge on Dong Xiaoxuan and her daughter. If I find out, you know the consequences!”

Before he left, he suddenly said, “Be a good person. If I find out that you're bullying good people, I'll chop off one of your hands.”

“I mean what I say.”

With that, the three of them left without looking back.

Qin Xi asked Saber to say that. What Qin Xi wanted was very simple. She did not want Xia Tangxin to be exposed. She just wanted to warn Master Qi. If he dared to bully others again, she would definitely fulfill her promise.

\*\*

In Breeze villa in the suburbs, Qin Xi was on the phone with Han Shi.

Han Shi said pitifully, “Wifey, I miss you so much. I'm going to sleep alone today. The bed is empty and I'm a little cold.”

Qin Xi rolled her eyes. “It's not October yet. How can it be cold?”

“It's cold because I miss you...”

“Stop it.”

Han Shi said nervously, “I chased the Qin family out of Shangwan Village. I was afraid that they would cause you trouble in the future, so... so I used some tricks to chase them away. Wifey, are you angry with me?”

Initially, he did not want to say anything about it. Anyway, Xi had already gone to Luoping City and was far away. When she returned, the matter would be a done deal.

Moreover, Jiu Yuan had said that Qin Xi actually already knew. There was no need to hide it.

Therefore, Han Shi made up his mind to say it. No matter how Xi scolded him, he would accept it.

Unexpectedly, Qin Xi praised calmly, "Stone, you did the right thing. They're indeed not suitable to stay in Shangwan Village. Even if you don't chase them away, I'll do it myself."

Han Shi's heavy mood immediately improved. He smiled foolishly. In the next moment, he said something especially shameless. "Then, are you going to give me a reward?"

Qin Xi chuckled. "What reward do you want?"

Han Shi coughed awkwardly and asked tentatively, "Anything?"

"Just say it."

Han Shi still couldn't bring himself to say it, especially with Jiu Yuan beside him. He covered the microphone and winked at Jiu Yuan. He said silently, "Leave. You're not allowed to eavesdrop."

Jiu Yuan rolled his eyes and turned to walk through the wall. "Don't think I don't know what you're going to say!"

Han Shi bared his teeth, wishing he could bite him.
