

Mysterious 251

Chapter 251 Elder Mu Awakens

Twenty minutes later, the poison in Elder Mu's body was completely removed. The vibrating silver needles gradually stopped. Qin Xi checked his pulse and felt that there was no problem. She gestured for the dean to take away the charcoal.

The dean nodded and took away the charcoal and the porcelain basin. This time, everyone saw the situation clearly. It turned out that all the poison was coming out of the belly button.

When they looked up again, the silver needles on Elder Mu returned to Qin Xi's hand in the blink of an eye. Everyone found it unbelievable.

At this moment, the dean called a nurse in and asked her to help clean the poison off Elder Mu's stomach and change the bedsheets. When everything was done, Elder Mu slowly opened his eyes.

Perhaps because he was not used to the bright light, he immediately closed them.

Seeing this, the four old leaders rushed over and asked softly, "Elder Mu, how do you feel? Are you feeling better?"

Mu Tianzheng was feeling better. He was better than ever. The bone pain in his body completely disappeared, and he felt as if he was relieved of a few hundred kilograms of weight. Moreover, his vision was not as blurry as before. Just now, he was dazzled by the light, so he was a little uncomfortable.

"What's going on? Who saved me?"

No one knew his body better than Mu Tianzheng himself. Not only was he poisoned a lot, but the old injuries on his body were also fatal.

"It's a young divine doctor. Her name is..." Just as Elder Gu was about to say it, he realized that he had yet to ask for the young divine doctor's name. He turned to look at Qin Xi inquiringly.

Qin Xi replied with a smile, "My name is Qin Xi. You can call me Xi or Qin Xi."

Mu Tianzheng slowly got up. The four old leaders wanted to help him up, but he refused. Although his body was not in good condition, he was not that weak as to need someone to help him up.

He leaned against the bed, his eyes calm but filled with dignity. When his gaze landed on Qin Xi, he was a little surprised. Then, he smiled faintly and praised, "Little girl, you're quite good. You have such high medical skills at such a young age. May I know who your shifu is?"

Qin Xi shook her head and said, "I'm sorry, sir. Before my shifu left, he warned me not to mention his name. I have no choice but to comply!"

"Hahaha, it's fine."

Mu Tianzheng smiled brightly. He suddenly stopped smiling and said to the people in the ward, "All of you, leave. I have something to ask Miss Qin."

Everyone looked at each other and did not think too much about it. They thought that Elder Mu wanted to ask Qin Xi about his illness in private.

Hence, they all went out, leaving Qin Xi alone.

Mu Tianzheng pointed at the chair beside him. "Sit!"

Qin Xi did not stand on ceremony and sat down. Before he could speak, Qin Xi asked, "Sir, what do you have to say? I can tell that you were slightly shocked when you saw me. Do you know me... or do you know my mother or father?"

Qin Xi was actually very nervous as she threw this bunch of questions.

The reason why she said that was firstly because she couldn't read Mu Tianzheng's face, and secondly, she did see a flash of surprise in his eyes.

The former meant that either Mu Tianzheng's fate was strange or he was related to her by blood. Through the surprise in Mu Tianzheng's eyes, she confirmed her guess.

Mu Tianzheng smiled approvingly. "Child, you're very smart. You're just like Minmin. As expected of a child of the Mu family."

What he said made the answer.

Qin Xi's heart skipped a beat. Her calm eyes finally flickered, and her voice trembled slightly. "Why? Why did you abandoned me and threw me to the Qin family?"

Chapter 252 Her Background Revealed

Mu Tianzheng sighed. "Child, you misunderstood. Your mother didn't abandon you. Someone stole you!"

Actually, he was very excited. He was so excited that he wanted to jump off the bed and hold the little girl's hand tightly. He did not expect that Minmin's child was not dead.

Back then, Minmin went to the remote areas to help the poor kids without letting her family know. She was well-educated and kind-hearted. In order not to make things difficult for her family, she left a letter and left home.

Three years had passed. They had been in contact through letters. Later on, the Chu family's son, who was engaged to Minmin, also went to the remote area. Later on, there was good news about the two of them getting married.

However, good times did not last long. A year later, they received a letter, saying that the child had died prematurely. At that time, the Mu family and the Chu family were dejected for a long time. In the end, the two families brought the two of them back.

However, to everyone's surprise, before Minmin could walk out of the pain of losing her daughter, Chu Yi, Minmin's husband, actually cheated on her and divorced her.

In just five years, the two of them broke up!

Minmin's heart was dead. She hated life and committed suicide a few times. Later on, they had no choice but to hire a fortune-teller to tell Minmin a white lie.

The fortune-teller said that only by eating vegetarian food and chanting Buddhist scriptures could the child be reincarnated into a good family. It was this belief that kept Minmin going.

Mu Tianzheng did not hide anything from Qin Xi. Qin Xi's mood became heavy. For some reason, she felt a piercing pain, hearing the experience of a woman who wasn't actually her mother.

Seeing the change in Qin Xi's eyes, Mu Tianzheng couldn't help but say with a trembling voice, "Child, I'm your grandfather, your biological grandfather!"

Qin Xi met his gaze. His eyes, which were filled with oppression previously, were sparkling with love.

Seeing his nervousness and anticipation, Qin Xi opened her mouth and suddenly changed the topic. "How can you be sure that I'm your granddaughter? If you get the wrong person, you'll be happy for nothing."

He smiled and took out a photo from his chest pocket. "This is your mother. Take a look!"

Qin Xi took the old black and white photo. At first glance, Qin Xi thought that the person inside was her. This... this was too similar, especially the baby face. They were simply twins.

No wonder Elder Mu, who usually kept a straight face, would reveal a look of surprise the moment he saw her.

Mu Tianzheng looked at Qin Xi nostalgically. "You and your mother look alike from the beginning to the end. You're simply carved from the same mold. When I see you, I think of your mother when she was young. However, I can tell that your personalities are different. Your mother is gentle, kind, and dignified, while you are sharp and decisive. Your personality is more like your father's."

"Can you give me this photo?" Qin Xi asked tentatively.

"Of course."

Mu Tianzheng said without hesitation, "I still have a photo of your uncle. Do you want it?"

Without waiting for Qin Xi to answer, he took out a family photo from his pocket and waved at Qin Xi. "Child, come here. Grandpa will introduce everyone in the Mu family to you."

"This is your grandmother. Your grandmother passed away a few years ago. It's a pity that she couldn't see you."

"This is your eldest uncle, this is your eldest aunt, and this is your eldest cousin and second cousin. These two are both very outstanding. They both joined the army."

"And this is your second uncle and aunt. However, your second aunt died in a car accident, leaving your cousin alone."

Chapter 253 Traitor

Mu Tianzheng couldn't remember how long it had been since he last smiled or how long it had been since he was so relaxed. For some reason, he felt much more relaxed when he interacted with Qin Xi.

Although Qin Xi had yet to call him 'Grandpa', it didn't stop him from calling her 'granddaughter' repeatedly.

How could Qin Xi not know the excitement and nervousness of the old man? However, this family did not belong to her to begin with. She could not bring herself to accept it. Moreover, the Host had lived that kind of miserable life for 19 years. She had never enjoyed the warmth that belonged to her, which made Qin Xi feel even worse.

Seeing the complicated look in her eyes, Mu Tianzheng gradually changed the topic. "Child, how have you been all these years? Do they... treat you well?"

Qin Xi smiled faintly and said, "They're all good people."

She then asked, "What about you? Why did you become like this? According to my understanding, although you have many old injuries, your bodily functions are much better than that of a normal person. How did you fall sick?"

Of course, after absorbing the black fog from Mu Tianzheng, Qin Xi already knew the real reason why the poison in his body erupted. The reason why she asked was to see if he knew.

When Mu Tianzheng heard this question, he fell silent for a moment. After a moment, he looked at her deeply. "Xi, do you know something?"

If she wasn't suspicious of something, she wouldn't have asked about it.

Qin Xi did not hide anything. She nodded and said seriously, "Perhaps I didn't introduce myself clearly before. I'm a mystic doctor. Not only do I know medicine, but I also know a little about physiognomy. Previously, your physiognomy was balanced. What it means is that there are two Qi condensed between your eyebrows. One is Yin, and the other is Yang. However, because of the harm done by the bad people, Yin and Yang are out of sync, causing one side to be damaged."

Mu Tianzheng did not expect his granddaughter to be so capable. He thought that she was just an amazing Chinese doctor. Who would have thought that there would be so many surprises?

However, when he understood what Qin Xi meant, his expression immediately became solemn. "Are you saying that there's a ghost by my side?"

Ghosts meant spies, traitors, and betrayers.

Just as Qin Xi had said, the eruption of his poison was too strange.

He pondered for a moment, thinking about the people around him. These people were all old teammates who had gone through thick and thin with him. It was difficult to find a traitor.

Seeing that he was silent, Qin Xi smiled and said, "Actually, it's very simple to find out who betrayed you."

Mu Tianzheng raised his eyebrows and asked with interest, "Oh? How?"

Qin Xi said seriously, "I have a kind of spice. As long as this spice is ignited, the smell it emits will react to the poison you were poisoned with previously. As long as someone shows this symptom, it means that it has something to do with them. Do you want to give it a try?"

The reason why she did not directly say the name of the traitor was that she was worried that Mu Tianzheng would suspect her. Only by letting him catch the ghost himself would he be convinced.

Just as Qin Xi thought, Mu Tianzheng was indeed a little suspicious of Qin Xi's identity. Even someone who had been through thick and thin with him for decades would betray him, let alone a granddaughter he had never met.

What if Qin Xi was the second spy sent by the enemy to destroy their headquarters? However, he still wanted to take a gamble!

At the thought of this, he nodded and said solemnly, "Alright!"

Chapter 254 The Powerful Figure

When the door of the ward opened, the people waiting anxiously came forward, especially the four old leaders, whose eyes were filled with excitement.

"Young Divine Doctor Qin, how's Elder Mu doing?" Elder She asked impatiently.

Although they saw that Mu Tianzheng had woken up, they were still worried, especially after hearing Master Gao's diagnosis that he was terminally ill.

No matter what, at least he had to survive this period of time. Otherwise, not to mention what would happen to the Mu family, even the organization would be seriously affected.

Therefore, they had to do whatever they could to help Mu Tianzheng tide it over.

Qin Xi smiled faintly. "Everyone, don't worry. Elder Mu's condition has stabilized, but his illness has been delayed for too long and he needs to recuperate for a long time, so please don't be in a hurry."

"That's good, that's good. Miss Qin is indeed a divine doctor. You're really amazing!"

"That's right, that's right. I didn't expect there to be someone like Divine Doctor Qin out there in the world. Divine Doctor Qin is really young and promising."

"Indeed, Young Divine Doctor Qin is not an ordinary person. Her future is limitless!"

At this point, not only did Qin Xi save Elder Mu, but she was also a divine doctor who was even more capable than Master Gao. Even though Qin Xi was not famous now, her superb medical skills would make people look up to her sooner or later. Moreover, knowing a divine doctor was equivalent to having a life-saving talisman. Of course, they had to spare no effort to leave a good impression on her.

If those famous people in the capital heard these old leaders bootlicking a little girl, their eyes would probably pop out!

Qin Xi's face was a little red from the praise. She was so embarrassed that she did not know what to say. Wan Shiyue could tell that she was in a difficult situation. He immediately walked up and helped her out. "I'm sorry, elders. This girl has been travel-worn and hasn't had time to rest. She also spent a lot of

energy on saving Elder Mu. She's probably a little tired now. When she is fully rested, I'll get her to come to greet you. How about that?"

The old leaders looked at Qin Xi, who was glowing with health and did not look tired at all, and their faces immediately froze.

Recalling their attitude towards Qin Xi and Wan Shiyue earlier, these old fellows knew that they were in the wrong and could only shut their mouths!

After leaving the sanatorium and getting into the car, Wan Shiyue burst out laughing. "Hahahaha, do you know who you saved today?"

Although Qin Xi knew that Mu Tianzheng was her grandfather, she really did not know his true identity. She waited curiously for Wan Shiyue to continue.

"He... he is something!"

Wan Shiyue reached out a finger and pointed upward mysteriously.

"Now that you've saved him, you'll be a VIP of the Mu family in the future. This will be very helpful to your career."

"Moreover, the students of the Mu family are all dragons and phoenixes among men. They occupy important positions in the country. It can be said that Elder Mu is the only one who can command them."

Hearing this, Qin Xi was extremely shocked. Although she could tell that this grandfather of hers was definitely a prominent figure, she did not expect the Mu family to have such a deep background as well.

However, she touched her nose in embarrassment and asked, "So Grandpa Wan, you know I want to develop my career?"

Wan Shiyue's face suddenly turned cold. He snorted and turned his face to the side, clearly throwing a tantrum.

Chapter 255 Once-in-A-Lifetime Opportunity

Because the first two times Qin Xi came to Luoping City, she did not inform Wan Shiyue, which made the old man very angry. Qin Xi finally appeased him with two big boxes of sweet dew fruits.

Before the car could leave the sanatorium, it was stopped by Meng Chang'an, who was waiting at the door. He asked his driver to go back first and got into Wan Shiyue's car.

Meng Chang'an said with a faint smile, "Master Qin, when did you come to Luoping? Why didn't you inform Elder Wan and me?"

Qin Xi touched her nose in embarrassment. "Uncle Meng, don't say that. I'm busy with something these two days and want to visit you two when I'm available. I really didn't mean to ignore you. Grandpa Wan, Uncle Meng, please don't be angry."

Wan Shiyue waved his hand with a smile and spoke up for Qin Xi, "She's indeed quite busy. Meng, you should know that our city has a new fruit shop, right?"

“Fruit shop? What fruit shop?”

Meng Chang'an was stunned for a moment before he reacted. His eyes suddenly widened as he looked at Qin Xi in surprise. Qin Xi nodded.

Seeing Meng Chang'an's incredulous gaze, Wan Shiyue laughed and teased, “Hahahaha, this girl bought a mountain and planted a batch of special fruit trees. Over the past two days, our city has been filled with talks about the Sweet Dew Fruit Store. It's all done by Qin Xi. How can she not be busy?”

After Meng Chang'an recovered from his shock, he immediately patted his thigh and said bluntly, “Everyone in my family likes to eat Sweet Dew fruits very much. Unfortunately, sometimes, it's sold out before I can buy any. Xi, you have to prepare more for me this time.”

Just like that, Qin Xi gave him two more baskets of fruits. Only then was Meng Chang'an satisfied.

“By the way, Uncle Meng, I want to ask you to get me a doctor's license. I wonder if you can pull the strings.”

Since the fruits had already been given out, it was time to ask for something in return.

Meng Chang'an nodded without hesitation. “Yes, of course. With your ability, you can even open a hospital.”

Qin Xi said shamelessly, “Look at what you're saying. I don't have the intention to open a hospital for the time being. However, I do want to open a clinic recently. What do you think, Uncle Meng?”

Meng Chang'an and Wan Shiyue looked at each other and immediately laughed out loud.

“Hahaha, this girl is really taking advantage of the situation. She doesn't stand on ceremony at all.”

“Indeed. Xi, your Uncle Meng can help you with the paper work. As for the shop, leave it to me. When the time comes, you can start seeing patients right away.”

Qin Xi shook her head. “How can I...”

Wan Shiyue waved his hand and interrupted her. “There's nothing wrong with that. However, we have a condition.”

“What condition?” Qin Xi asked curiously.

Wan Shiyue smiled and said, “It's very simple. In the future, you have to deliver fruits to me and Meng on a regular basis.”

“Yes, that's right!” Meng Chang'an quickly echoed. He was really tired of getting up so early in the morning to fight for some pieces of fruit.

Qin Xi smiled. “Of course. My factory has recently developed some products. I'll send them to you too.”

Wan Shiyue was delighted. He said meaningfully, “Work hard, Xi. This time, the higher-ups value the fruit very much. If you can really make it a brand for Luoping, not only will it be a good opportunity for you, but also for your fruit business. Fight for this once-in-a-lifetime opportunity. Don't miss it.”

Qin Xi immediately understood. Wan Jiuyang must have an idea in mind, which was why he said that.

She nodded. "I will. Thank you, Grandpa Wan!"

Chapter 256 Han Shi Arrives

Because she had to help Mu Tianzheng prepare the medicinal bath tomorrow, after parting ways with the two of them, Qin Xi went straight to the largest Chinese medicine shop in Luoping City.

What she did not know was that Han Shi had not seen his wife for two days and was, at this moment, driving with Black Ghost, speeding towards Luoping City.

Seeing that Han Shi's aura was even stronger than his, Black Ghost couldn't help but be curious. He asked tentatively, "Boss, does the lady boss know that you... are like this?"

Han Shi glanced at him indifferently. "Of course. Xi is so smart!"

"Does that mean she knows?" Black Ghost asked in confusion, "Then why are you still pretending to be a fool? Can't you just be a normal person?"

Han Shi smiled smugly. "What do you know? Xi likes me like this. If I were a normal person, Xi wouldn't be so soft-hearted towards me every time. As long as I use some tricks in front of her, she will dote on me."

The corners of Black Ghost's mouth twitched as he said, "Play trick? Dote on you? Isn't that what a girl should do?"

"Said who? I do it a lot. And it works every time."

Han Shi smiled. "As you know, Xi is a divine doctor. Actually, she already knew that I had recovered, but she pretended not to know. Do you know why?"

Black Ghost was very curious. "Why?"

"Why should I tell you?" Han Shi suddenly did not want to tell him. This was a small secret between him and Xi. He did not want to tell Black Ghost!

Black Ghost rolled his eyes. He really wanted to take a photo of that smug smile on Han Shi's face and show it to the lady boss.

Three hours later, Han Shi found a manor in the suburbs, Qingfeng Villa!

"We're here. It's here!" Looking at the address, Black Ghost confirmed.

Looking at the lavish black carved door, Black Ghost clicked his tongue and sighed. "I didn't expect Third Brother and the others to be so lucky to be able to live in such a big manor. Boss, you have to work hard to complete the task that Lady Boss gave you. You have to think about moving in here."

Han Shi couldn't be bothered with him. "Hurry up and press the doorbell."

Black Ghost grinned and rang the doorbell. After about five minutes, he saw a pretty woman jogging over and asked suspiciously, "May I know who you are?"

Just as Black Ghost was about to reply, he saw Han Shi stick his head out of the car window and shout at Dong Xiaoxuan, "I'm looking for Xi. I'm her husband."

Dong Xiaoxuan looked over in surprise. "Are you Mr. Han?"

"Yes, I'm Han Shi."

"Oh, it's you, sir. Quick, please come in." Dong Xiaoxuan quickly opened the door and welcomed him warmly.

When they arrived at the living room, Han Shi did not see Qin Xi. He frowned and asked, "Where's Xi?"

Black Ghost nodded. "That's right. Blood Stealer and the others are not around too. Where did they go?"

Dong Xiaoxuan smiled gently. "The lady boss went out. She said that she's going to the fruit shop. Mr. Blood Stealer and the others are in another building."

As she spoke, she pointed at the two-story building beside the villa and said, "The lady boss said that Mr. Blood Stealer and the others will live in that building in the future. They're at home now."

Black Ghost was extremely envious. Compared to the old house of the Qin family, this place was simply heaven.

Unable to suppress the excitement in his heart, he said to Han Shi, "Boss, I'll go over and take a look. Wait for Lady Boss here!"

With that, he ran out without waiting for Han Shi to reply.

Chapter 257 Can I Kiss You Again?

When Qin Xi returned, it was already evening. When she saw the familiar Santana at the door, she was stunned.

At this moment, Han Shi ran out of an alley and hugged Qin Xi. "Wifey, you're finally back. I waited for you for a long time and am starving."

Feeling the strong arms around her waist, Qin Xi suddenly blushed. For some reason, she instantly recalled Han Shi's passionate kiss before she left.

However, although she was shy, she was still very happy that Han Shi was here. She patted his arm and gestured for him to put her down. She asked, "Why are you here?"

Han Shi put Qin Xi down but did not let go. He hugged Qin Xi and rubbed against her. "Didn't I tell you? I miss you. I can't sleep without you!"

Even she, someone from the future, blushed when she heard such straightforward words. How could Han Shi say it without blushing?

Just as she was thinking this, she felt Han Shi's aura suddenly intensify. Qin Xi's breathing tightened and her eyelashes trembled. She understood what he was doing and subconsciously wanted to push him away, but the hand on her waist did not give her a chance.

Her cherry lips were covered by Han Shi, and overflowing passion surged out.

However, good times were always short-lived. A soft exclamation came from the door. "Ah, I didn't see anything. I didn't see anything. Continue!"

With that, Dong Xiaoxuan covered her eyes and ran into the house in a panic.

Han Shi wanted to pretend to be deaf, but Qin Xi did not have the cheek to continue the kiss. She pushed him away and quickly turned around. She patted her hot face and complained in a low voice that only she could hear, "Shameless Stone!"

"Wifey, what are you muttering about? Tell me!" Suddenly, Han Shi stood behind Qin Xi and placed his handsome face on her shoulder.

Qin Xi bit her lower lip and pushed his face away. "It's all your fault. I wonder what Sister Dong will think of me!"

"Think whatever she wants? You're my wife. I am allowed to kiss you."

"Stop it!"

"Hehehe, wifey, that's great. I can hug you to sleep again tonight!"

"Shut up!"

"Wifey, let's make a deal. I'll shut up now. Can you kiss me for a while again tonight? Just a while?"

"Stinky Stone, don't even think about it! Sleep on the floor tonight!"

The two of them returned to the hall and saw Blood Stealer, Saber, Lone Wolf, Black Ghost, and Dong Mi standing there looking at the two of them teasingly. Qin Xi's face immediately turned red all the way to her neck.

Han Shi knew that his wife was easily shy. He immediately buried her alluring face in his chest and waved at them fiercely. "Go, go, go. What are you looking at? You old bachelors."

The four of them immediately turned around and sat back at the dining table, leaving Dong Mi standing there in confusion.

The child was also curious. She blinked her big eyes and asked Blood Stealer, "Fifth Uncle, what are they doing there?"

Blood Stealer said seriously, "They are competing to see who can stand there without moving longer."

The others echoed.

Dong Mi revealed a big smile, her eyes filled with longing. "That's great. I want to compete too. I am definitely better than them."

Blood Stealer and the others looked at each other, trying their best not to burst out laughing.

Chapter 258 Can We Be A Real Couple?

The moonlight was hazy, and the afterglow of the moonlight shone on the white bedsheets.

Han Shi came out of the bathroom and saw Qin Xi sitting at the head of the bed, holding a book. However, there was a complicated sadness in her eyes, as if she was reminiscing about something.

He frowned. He did not like it when Qin Xi looked sad. He lifted the blanket and crawled into it, hugging Qin Xi.

Qin Xi exclaimed and instantly came back to her senses from the memories of her parents in her previous life. She punched his chest. "What are you doing? You scared me."

"Wifey, we agreed that you would kiss me for a while. I-I can't wait anymore." Han Shi pretended to be impatient, his eyes filled with greed.

His breathing became more and more rapid, especially when he smelled the fragrance emanating from Qin Xi's body. His heart felt like it was being scratched by a kitten, and it was itchy all over. He wished he could eat her up immediately. At the same time, his heart was pounding, as if it was about to jump out of his chest. He was nervous and it was unbearable.

Han Shi asked in a hoarse voice, "Wifey, when can we be a real couple? I-I feel so uncomfortable hugging you every day!"

His tone was filled with dissatisfaction.

Qin Xi felt like she had been struck by something. Her mind went blank. At the same time, she buried her face in the blanket shyly. She was so nervous that she wished she could find a hole to hide in.

A muffled voice came from under the blanket. "What are you talking about? I don't understand."

"I mean making babies."

Han Shi didn't stop at that. He continued to pester Qin Xi, "Wifey, don't tell me you don't want to have a baby with me?"

Qin Xi bit her lower lip and said in a huff, "Who wants to have a baby with you? Dream on!"

The corners of Han Shi's mouth curled up, and his deep eyes were filled with love. He pounced on her and whispered into her ear, "Wifey, can we make babies tonight?"

Qin Xi immediately understood what he meant. She blushed and kicked him with her feet. She said coquettishly, "If you say another word, get lost and sleep on the floor. You're being naughty every day."

"No, how am I being naughty? You're my wife. It's only right for me to hug you to sleep. Why should I sleep on the floor?"

Han Shi did not want to waste this opportunity, so he lifted the blanket and covered himself. He reached out and hugged her tightly.

Qin Xi felt her body tighten. She knew what she was going to face next. She was nervous, terrified, and slightly expectant.

She clenched her fists so tightly that they were covered in sweat.

Feeling the woman in his arms tense up, Han Shi was so nervous that he broke out in cold sweat. "Xi, don't be nervous or afraid. I'm your Stone. I won't hurt you. Believe me, okay?"

Qin Xi took a deep breath. She knew that some things were inevitable and what would come would come. She nodded slightly.

Han Shi held his breath and could not believe his ears. "Really?"

Afraid that she would go back on her word, Han Shi quickly kissed her on the lips.

It was a kiss filled with gentleness and love!

Qin Xi felt dizzy and weak all over her body. She was even intoxicated by his smell. Unknowingly, she wrapped her arms around his neck.

Han Shi seemed to be encouraged and gradually became wild. As he covered himself with the blanket, he turned off the lamp beside him.

In an instant, the bedroom was pitch-black, with only moonlight shining in. In the darkness, a hoarse voice sounded. "Xi, I love you..."

Chapter 259 Red Stain

It was not until midnight that the night of madness ended.

Han Shi carried the exhausted Qin Xi into the bathroom and adjusted the hot water to a suitable temperature. Then, he placed her in the hot bath and wiped her with a towel.

Qin Xi's skin was very fair and tender. It felt good to the touch and was as smooth as a baby's. However, at this moment, her fair skin was dyed red and purple, making Han Shi's Adam's apple bob.

After washing up, he carried Qin Xi back to bed. Han Shi hugged his wife and fell asleep in satisfaction. In his dream, he seemed to see a baby smiling at him. Without a doubt, this was a beautiful dream.

The next morning, sunlight shone into the room through the gap in the curtains, shining on the couple hugging each other on the bed.

Perhaps because of the glaring sunlight, the person lying on the bed turned over slightly. Suddenly, she felt discomfort in her body and opened her eyes.

At this moment, a low and magnetic voice entered her ears. "Wifey, are you awake?"

Qin Xi suddenly raised her head and met Han Shi's loving eyes. She instantly recalled what happened last night and her face turned red like a tomato.

Her heart was racing. She bit her lower lip and asked, not knowing what to do, but her heart was indeed filled with sweetness. "W-Why are you looking at me?"

"You're my wife. It's only right for me to look at you."

Han Shi did not intend to pretend anymore. He hugged her tighter and said excitedly, "Wifey, that's great. We're finally together and will never be separated."

Qin Xi frowned. She did not know if she was being paranoid, but she could tell that Han Shi's tone seemed to contain another meaning and a sense of relief.

Although she did not understand why he was in such a mood, she did not try to get to the bottom of it. Now that he had gotten what he wanted, there was no need for her to expose him.

She obediently snuggled into Han Shi's broad chest, feeling unprecedented peace.

Seeing that her face was red, Han Shi's heart skipped a beat. He planted a kiss on her forehead and said tentatively, "Xi, when are you free? Let's go get our marriage certificate!"

He had not forgotten about the marriage certificate. Without a marriage certificate, Qin Xi could always go back on her word.

Qin Xi almost forgot about that. She thought for a moment and nodded. "After I settle things here, we'll go to register our marriage."

She was talking about Mu Tianzheng's illness. Thinking of Mu Tianzheng, she hesitated to tell Han Shi her background.

At this moment, Han Shi pounced on Qin Xi excitedly. "Wifey, remember what you just said. Don't lie to me. If you dare to lie to me, no matter how much you beg for mercy next time, I won't stop."

Qin Xi was speechless. At the same time, she felt that Han Shi's shamelessness had been taken to another level.

She was embarrassed and angry. She flipped him over and covered him with the blanket. She patted his head. "Next time? Dream on! There is no next time."

As she spoke, she got out of bed. Feeling the discomfort in her body, she actually felt a trace of sweetness in her heart. Her gaze inadvertently landed on the red stain on the white bedsheets. Her face suddenly heated up. She patted her face and walked into the bathroom.

Han Shi removed the blanket and touched his head. He smiled so widely that his eyes narrowed into a line.

Just as he was about to get up, he saw the red stain on the bed sheet from the corner of his eye. Han Shi's dark eyes flashed and a strange smile suddenly appeared on his face.

Chapter 260 Follow-up Development

At the dining table.

When Black Ghost saw Qin Xi go downstairs, he was so excited that his face turned red and his eyes were filled with joy. "Lady Boss, thank you!"

Han Shi frowned. "What's going on?"

Black Ghost was so excited that he spoke incoherently, "Cultivation technique. Lady Boss has prepared a set of internal cultivation techniques for us. Blood Stealer and the others have been cultivating for the past two days. Moreover, I can feel that their auras are stronger than before."

Qin Xi smiled faintly and sat down at the dining table. She waved her hand. "Sit down. I've already said that you'll be my people from now on. This is what I should do. Also, the reason why Blood Stealer and

the others changed so quickly is because they ate some pills I made. I've also prepared them for you. After eating them, you can cultivate faster."

"Thank you, Lady Boss." Black Ghost did not know what to say and could only thank her continuously.

At this moment, Han Shi suddenly said solemnly, "There's no need to thank her. What you need to do now is to gather some people you can trust to join your transport team. It won't be long before we take root in Luoping City and develop further. Therefore, we need a bigger team. In the future, I'll leave all the security and transportation work to you. Can you do that?"

Black Ghost's expression turned serious and he immediately promised, "That's definitely not a problem. I have many retired brothers who I can trust. It's just that..."

He said with difficulty, "It's just that a small number of them are injured and some are disabled. However, some of them are definitely outstanding. I heard that they don't have a good job now. Why don't I ask them?"

Qin Xi more or less knew the reason why Han Shi did this and was very supportive of it. She said without hesitation, "It doesn't matter if they are disabled or not. What we want is loyalty. As long as we can trust them, we can take them in."

Han Shi pondered for a moment and instantly had a good idea.

"This time, we're going to build a factory. We'll definitely need a lot of people. How about this? If they can all come, get them to bring their families over. The women can do some easier work in the factory. Food and accommodation will be provided. They can build a house next to the factory. In the future, it will be their home."

Han Shi looked at Qin Xi with a gentle gaze. "Xi, what do you think?"

Under Han Shi's gaze, Qin Xi felt her heart racing. She quickly took a sip of milk and said, "I think it's a good idea."

"What do you plan to do with the villagers?" Qin Xi quickly changed the topic and asked Han Shi, "Back then, I promised that I would show the villagers the way to make money."

Actually, she had some plans, but she really wanted to hear Han Shi's opinion.

Han Shi smiled faintly and said confidently, "I've thought about that. Xi, I want them to grow vigorous vegetables."

The vigorous vegetables were the vegetables Qin Xi had sold previously.

Qin Xi suddenly smiled and said, "I think so too. If they want to earn money all year round, they have to build a greenhouse. When the time comes, they can specially supply the vegetables to the restaurants here. What do you think?"
