

## **Mysterious 271**

### Chapter 271 Her Real Identity

In the Sweet Dew Orchard.

Looking at the trees full of fruits, Qi Xiong was very shocked. "She... cultivated these?"

"Yes." Han Shi nodded.

Qi Xiong turned to look at him, a trace of imperceptible vigilance flashing across his sharp eyes. "Do you know who I'm talking about? Or did you already know her identity?"

"I don't know Xi's identity, but she once said that she's not the biological daughter of the Qin family. This is enough to prove everything."

Han Shi's eyes were calm as he continued calmly, "No matter who she is, she's still my wife. This is an undeniable fact."

Qi Xiong smiled. "Young man, I admit that you're very brave. You can even confront my gaze calmly. However, it's not enough. Some things are not as simple as you think. In front of the peak of power, your courage and facts are useless. You're just a fly. How can you compete with an eagle?"

"I'm not afraid to tell you that the wife you're talking about is very noble now. She's so noble that she's comparable to a princess. As long as she goes back, there will be endless wealth and glory waiting for her. What do you think a village child like you can bring her?"

Han Shi asked calmly, "What do you want to tell me?"

Qi Xiong shook his head and laughed.

"You're very smart and should know what I mean. The purpose of my visit is to remind you that if you want to be on the same level as her, you have to work hard. The old man is kind-hearted and will give you five years. When the time is up, if you're still like this, she will have to leave you. Be prepared."

"Five years?" Han Shi's natural aura suddenly spread out as he stood there composedly. "I don't need five years. Give me three years."

Qi Xiong was slightly shocked. He narrowed his eyes and smiled mysteriously. "Then we'll see."

Qi Xiong did not stay for long and left quickly. Before he left, Luo Xiujian prepared a lot of fruits and vegetables for him. Watching his car gradually drive away, Han Shi's eyes were filled with determination.

\*\*

In a hotel In Luoping City.

Blood Stealer and the other two rubbed their fists and stared at a certain room. They grinned. "Hehe, this thing is really useful. It's much more useful than those advanced tracking devices. If we had this thing when we were going on missions back then, our efficiency would definitely be several times higher."

"It's indeed very useful." Lone Wolf nodded in agreement.

Blood Stealer said with a smile, "Right? When we go back, ask Lady Boss if she has any more. It'll definitely come in handy."

He looked at the time. It had been half an hour since the woman went in. It was probably about time. He immediately said excitedly, "It's about time. Let's go in. Let's make it clear first. I'll be the first to try this time. Don't fight with me."

Saber and Lone Wolf ignored him and rolled their eyes.

Dong dong dong!

There was a knock on the door and a man's lazy voice came from inside. "Who is it?"

No one answered, but there was another knock on the door. Qiu Shengli asked sternly, "Who is it?"

What answered him was an even stronger knock on the door. He immediately stood up and walked towards the door with a towel wrapped around him. When he opened the door, he scolded, "Knock, knock, knock, what the heck are you knocking for? Do you..."

Before he could finish, he was kicked away and the door closed with a bang.

How could Qiu Shengli withstand such a kick? He covered his chest in pain and looked at Blood Stealer and the other two with a sinister gaze. "Who are you?"

Chapter 272 The Aggrieved Master Qi

"You, go to the bathroom and don't come out."

Blood Stealer tilted his head and pointed at the trembling woman on the bed.

The woman's face was pale as she wrapped herself in the blanket and went into the bathroom. She closed the door and locked it.

"You're Qiu Shengli?" Blood Stealer looked down at him and asked.

Qiu Shengli rubbed his aching chest. He was extremely flustered, but he still had to pretend to be calm. "Who are you? I have not offended you. Why did you attack me?"

"Not offended me?"

Blood Stealer squatted down and quickly grabbed his neck with one hand. He grinned. "Yes, you're right. You have not offended me, but... I just don't like you. What can you do to me?"

"You..."

"Cut the crap. I'm here today to practice on you. Consider yourself lucky to become my lab rat."

After Blood Stealer finished speaking, he did not give Qiu Shengli a chance to ask for mercy. He could not wait to use all the methods Qin Xi had taught him on Qiu Shengli.

Hearing the miserable screams outside, the woman hiding in the bathroom was so frightened that her face turned pale and her body trembled. She was afraid that the three people outside would pull her out and practice on her...

In the end, she fainted from fear.

“Hey, speak!”

After kicking Qiu Shengli, who was like a dead person, Blood Stealer asked, “Who instructed you to cause trouble at the Sweet Dew Fruit Store? Tell me your goal. Otherwise, I’ll use those methods on you again.”

When Qiu Shengli heard that, he used all his strength and said weakly, “Master... Master Qi...”

Blood Stealer raised his eyebrows. “It’s him again. Looks like that guy didn’t learn his lesson last time. He’s courting death!”

Saber’s eyes narrowed. “Let’s go and meet him again.”

The car stopped in front of Master Qi’s villa. Looking at the brightly lit villa, Blood Stealer took out a cigarette and began to smoke. “Let’s wait. We’ll go in after the lights are off.”

How did Master Qi escape Liang Bing’s interrogation? It was all thanks to the Euphoria Needle.

Last time, in order to save Dong Xiaoxuan, Qin Xi lured Liang Bing to Dong Xiaoxuan’s residence and found the evidence on the bed.

Liang Bing ordered someone to go to the hospital for a checkup on the liquid found on the bed, and the liquid matched Master Qi’s DNA. When she returned, she quarreled with Master Qi and almost cut off his willy with scissors!

In a moment of desperation, Master Qi lied that he was going there to see a doctor who claimed to be able to fix his erectile problem. Otherwise, every time, he had to rely on medicine to maintain his endurance.

At this moment, in the bathroom, Master Qi tried a few more times and finally gave up.

He was like a ghost that had crawled out of hell, emitting killing intent. He gritted his teeth and said, “No matter who you are, I’ll tear you into pieces.”

There was a sudden knock on the bathroom door and Liang Bing’s voice was heard. “Hubby, what are you doing showering for so long? Come out quickly. I hired an expert to take a look at you. Hurry up.”

Master Qi’s face was gloomy. He felt so furious that he wanted to kill someone.

Chapter 273 Atrophied!

When he came to the living room, the experts Liang Bing mentioned had been waiting for a long time. When they saw him coming down from upstairs, they were still sitting there like old monks.

It was obvious that they had a powerful background and were not afraid of Master Qi.

This was indeed the case. They were all top-notch experts in the field of andrology. They had seen all kinds of scenes and people. They did not care about the gang leader of a small city.

Moreover, they were already very displeased with Master Qi. After waiting for him for so long, their patience had long been exhausted. If not for the generous reward Liang Bing gave them, they would have left long ago.

“Hubby, they are the experts I hired. I believe they can definitely solve your problem this time.”

To be honest, Liang Bing was really anxious. If not for the fact that she really liked this man, she would have divorced him long ago. She couldn’t even remember when they had it last time.

Therefore, for so long, she had spared no effort in finding a doctor for Master Qi. As long as there was a trace of hope, he would not refuse.

She made a simple introduction of these experts.

“This is Professor Ma, this is Professor Tang, and this is Professor Wang. They’re all experts I spent a lot of money to hire. They’re extraordinary.”

“Professors, this is my lover, Ye Qi. I’ll have to trouble you to treat his illness.”

Professor Tang was the first to speak. He was the most experienced professor among the three of them. “Mr. Ye, tell us what symptoms you have first!”

Liang Bing had already sent the servants away. Now that there were only the five of them, Master Qi explained his symptoms in a low voice.

Hearing that, Professor Ma frowned and looked at the other two professors. “You can’t get up at all? That shouldn’t be the case. At the very least, you should have a slight reaction!”

Master Qi’s face darkened. He suppressed his anger to not hit him.

Professor Tang pondered and said, “There are many factors that can cause the complete loss of that function. For example, the first is overdosing on medicine. The second is nervousness or anxiety, lack of sleep, and high work pressure. The third is a hidden illness caused by other illnesses. The last is caused by frequent sex life!”

He looked at Master Qi. “Mr. Ye, what do you think?”

Master Qi’s face twitched. He felt extremely humiliated. Although he wanted to say that it was caused by the last one, if he said so, Liang Bing would definitely be suspicious. At the thought of this, he could only bite the bullet and shake his head. He said in a low voice, “I don’t think it’s any of these.”

“None of them?” The three professors frowned and their expressions began to become solemn. “Could it be because of external injuries?”

Master Qi gritted his teeth and suppressed his anger. He squeezed out a word. “No.”

“Neither? That’s strange.”

“How about this, Mr. Ye? Take it off and let us check it so that we can understand the cause of the problem.”

Professor Ma suggested.

Liang Bing knew that he had been in a bad mood recently and didn't want to make things difficult for him, but she had no choice. For the sake of her future happiness, she had to seize the chance. She said, "Hubby, hurry up and let them check. Don't delay the treatment time!"

In any case, he had been checked by a few doctors already. It wouldn't make much of a difference to be checked again.

Therefore, Master Qi was examined by the three men again. They even used a flashlight. The degree of scrutiny amazed Liang Bing.

When the examination ended, the three experts looked at each other and gave an answer that struck them like lightning. It was atrophied.

#### Chapter 274 Mysterious Disappearance

"What?"

"What do you mean by it's atrophied?" Liang Bing's expression changed drastically, and she felt the world spin when she heard this.

Professor Ma said with a solemn expression, "Mr. Ye's problem is very strange. It's non-physiological atrophy and non-pathological atrophy. The details still have to be studied further. However, if it continues to worsen, Mr. Ye... Sigh, I'm afraid he will completely lose that function, eventually affecting the urinary system."

Master Qi felt as if he had been struck by lightning. He felt his entire body go cold, and his limbs went weak. Everything in front of him spun rapidly. Then, his vision darkened and he fainted.

Seeing that he had fainted, Liang Bing's expression turned serious and she suddenly asked, "Professors, are there any possibilities of recovery?"

The three professors shook their heads at the same time. "His problem is very rare. We... We can't do anything about it. Mrs. Liang, you'd better find someone else!"

After sending the three professors away, Liang Bing silently sat on the sofa with the unconscious Master Qi. She had already made up her mind. She stood up, picked up her coat and car keys, and left.

Blood Stealer and the other two watched the cars leave one by one. They looked at the time. "Let's go!"

Without another word, the three of them climbed over the wall. Even a two-meter high wall was nothing to them.

Blood Stealer climbed to the second floor nimbly, while Saber sneaked into the first floor. Lone Wolf was guarding outside. The three of them cooperated well and moved extremely quickly, making almost no sound.

However, when Blood Stealer and Saber realized that Master Qi was the only one left in the villa, they immediately let down their guard.

"Third Brother, what should we do? Do we do it here or take him away?" Blood Stealer asked.

"Take him away!" Saber said without thinking. He was still thinking about cutting off Master Qi's arm!

Blood Stealer grinned. "Alright!"

Hence, the two of them carried him away. Seeing this, Lone Wolf, who was watching from outside, did not ask. The three of them left quietly.

Ever since then, no one had seen Master Qi, and the mysterious disappearance of Master Qi did not leave Liang Bing in pain. Although she had feelings for Master Qi, those feelings were nothing compared to wanting a good sex life.

\*\*

For seven days in a row, Mu Tianzheng's old injuries had mostly healed. All that was left was thoracotomy. After all, there were still a few pieces of shrapnel embedded in his body.

In the sanatorium, Mu Tianzheng sent away everyone close to him, including his sons and grandsons, and looked at Qin Xi solemnly.

"Girl, do you know the exact background of the people around you?"

Clearly, Mu Tianzheng had already investigated Qin Xi thoroughly. It was not that he did not trust Qin Xi, but after hearing Wan Shiyue's words, he could not wait to know how Qin Xi had been all these years.

Therefore, he sent someone to capture the Qin family and asked them to tell him everything about how they had bullied Qin Xi all these years.

However, when he heard all the atrocities the Qin family had done, his eyes turned red, which was extremely rare for him who never shed a tear. It could be said that it was a miracle that Qin Xi could survive until now.

When Qin Xi asked him why he left her with the Qin family, he still did not understand what she meant. Now, he finally understood why she was so upset.

This child... had endured humiliation and torture that ordinary people could not withstand.

At this point, he could not do anything for the past, but at least he could do something for the present and future.

However, when he found out that Qin Xi had taken in the assault team, he was shocked and wanted to ask.

Qin Xi heard the seriousness in his voice and said with a smile. "Of course I know about the people in the assault team!"

Chapter 275 Ancient Martial Arts Family

"They told you that?"

Mu Tianzheng frowned, clearly very suspicious that Qin Xi knew about this mysterious assault team.

"No, I guessed it myself!" Qin Xi shook her head. "They didn't say anything, but I know everything about them, including the woman behind the scenes who framed them."

Mu Tianzheng was slightly shocked. "You know?"

“Don’t worry, I have my reasons for taking them in. Moreover, even if I have to face that woman, I’m confident enough to fight her.” Qin Xi’s casual attitude explained a lot.

Unexpectedly, Mu Tianzheng shook his head and sighed. “Girl, you’re too over-confident. Even if you have the ability to protect them, it’s only for a moment. The Su family is not an ordinary family. They’re a true ancient martial arts family. Even though ancient martial arts have declined, the Su family is still stronger than the Mu family.”

“Moreover, the Su family has been expanding in recent years and their connections are enormous. It’s almost impossible to challenge them. Even if the higher-ups want to do something, they have to pay a huge price. Now, the younger generation of the Su family are all in important positions and have done many outrageous things in private. Even so, it’s still extremely difficult to deal with them. Moreover, there’s no legitimate reason.”

Qin Xi gasped. She knew that that woman’s identity was not simple. Otherwise, the organization would not have chosen to give up on the assault team despite knowing that they were innocent. However, she did not expect this woman’s family background to be so complicated.

However, now that the assault team was hers, she wasn’t going to give up on them that easily.

“Is there no other way?” Everyone had a weakness, let alone a big family.

Mu Tianzheng thought for a moment and said, “Although the higher-ups have been dissatisfied with them for so many years, they still have to depend on the Su family. It’s also because of this that the Su family’s status is extremely special. If you really want to destroy the Su family... you have to strip them of their ancient martial arts. That way, they won’t have the ability to fight back.”

“Strip them of their ancient martial arts?” Qin Xi thought to herself. “I’ll think about this matter carefully.”

Mu Tianzheng was a little shocked. “You have a way?”

“Not yet.” Qin Xi did not want to reveal too much. However, she changed the topic and said, “As you know, I’m actually an ancient martial artist too.”

Mu Tianzheng nodded. After all, he knew something about ancient martial arts. He could feel the powerful aura on Qin Xi.

“The aura on your body is very strong. I’ve sensed a similar aura from Su Mingzhe. Su Mingzhe is the representative of the younger generation of the Su family. He’s considered one of the top figures in the capital and is also respected as the leading figure by the younger generation.” He briefly introduced Su Mingzhe to Qin Xi.

Qin Xi smiled. “I have the confidence to nurture more ancient martial artists to counter the Su family.”

Mu Tianzheng was stunned for a moment before he was overjoyed. His voice was trembling as he said, “Is what you said true? Can you really...”

“That’s not difficult,” Qin Xi said truthfully. “It won’t be long before the Assault Team is reborn. At that time, they will have the ability to fight against the Su family.”

Mu Tianzheng couldn't believe his ears. "They also..."

Qin Xi nodded and said solemnly, "Yes. If you trust me, you can give me some of your trusted aides. I'll help you nurture them into ancient martial artists. After this is done, they can go back and teach what they learned to others."

Chapter 276 Han Shi Is Very Busy

After Qin Xi left, Mu Tianzheng couldn't calm down for a long time.

After thinking for a long time, he picked up the phone and made a call. His voice was low and solemn. "Pick a few reliable people to come to Luoping City."

"Yes, Old Chief."

After hanging up the phone, there was a knock on the ward door. Mu Tianzheng calmed himself down and said in a dignified voice, "Come in!"

Qi Xiong pushed open the door and entered. He said respectfully, "Old Chief, the matter has been settled. The Qin family has been sent away and will never appear again. However, there's still Qin Lan."

Before he could finish, Mu Tianzheng waved his hand. "She's nothing to worry about. How's Mu Sheng doing?"

Qi Xiong told him the news he had received. "Although it didn't go well in the beginning, it has already entered a critical moment. If he can get through this, he will take office in the middle of October."

"Alright, go back and give this to Mu Sheng. Tell him that he has to wear it at all times. He can't take it off even during a shower, understand?"

Mu Tianzheng solemnly took out a soft-colored jade Buddha. The quality of the jade was not superb, but there were talismans specially augmented by Qin Xi on it. As long as one kept it on their body, they would be protected.

He was quite experienced and knew a lot about mystic arts. However, when he saw Qin Xi drawing talismans through the air, he was still shocked.

Previously, he thought that Qin Xi was bragging about wanting to bring down the Su family, but now, he completely believed her.

Who would have thought that their Mu family would have such a capable child? It was really the Mu family's fortune!

Although Qi Xiong was puzzled as to why the old man would give such an ordinary jade Buddha to his son, he knew it wasn't his place to ask.

He quietly took the jade and put it in his pocket. He bowed and said, "Understood. Is there anything else?"

Mu Tianzheng slowly closed his eyes and waved his hand, indicating that he could leave.

\*\*

On the third day of the opening of the Sweet Dew Food Supermarket, Qin Xi and Xia Tangxin came. Qin Xi was very happy to see that it was as popular as the Sweet Dew Fruit Store.

How could she not be happy since money was flowing into her bank account?

Although she was not short of money now, who would complain about having too much money?

Looking at the crowd in the shop, Qin Xi and Xia Tangxin did not go in to disturb Zhao Dan and the others. Instead, they chose to sit opposite the dessert shop and look through the window.

“Xi, you’ve been in Luoping for so long. Aren’t you going back to take a look? Doesn’t your Stone miss you? I remember very clearly that every time he held your hand, he would glare at me vigilantly. Won’t he be worried sick about you staying here alone?”

Xia Tangxin scooped a spoonful of cake and put it into her mouth. She narrowed her eyes and teased.

“He’s been very busy.”

Qin Xi was telling the truth. Han Shi had been really busy recently. He was busy building the factory, helping the villagers grow the vegetables, planting tea, and taking care of the orchard.

He was so busy that he even forgot to sleep. Luo Xiujuan even called to ask Qin Xi to persuade Stone not to work so hard, but after she did, he would still dive into work and sleep no more than five hours a day.

He looked like he was desperate to grow up and be stronger.

However, even so, he still took the time to drive to Luoping to see Qin Xi and drove back in a hurry the next morning.

Although her heart ached, Han Shi had to face these things because she knew that if Han Shi did not unleash his potential, he might very well become a pushover.

Therefore, Qin Xi respected him and gave him room to grow.

Chapter 277 Tragic Car Accident

“You really handed all of this to him? Don’t you know that once a man has money, he will turn bad? Even if he is honest now, can you guarantee that he won’t run away with the money?”

From Qin Xi’s attitude, it seemed that she really did not care about the business she started anymore.

However, Xia Tangxin was born into a rich family and knew very well what men were like. That was why she said that. She did not mean anything else and just said what she was thinking.

Qin Xi smiled and stirred the milk tea in her cup. “I believe him. He won’t.”

Since Qin Xi had already said so, Xia Tangxin didn’t intend to continue asking. The two of them avoided the topic and started to talk about other things.

“By the way, November 15th is my grandmother’s 60th birthday. She has invited many guests. You have to come. She’s been thinking about you!”

“Of course. Tell me what kind of gifts she likes. I have to be well-prepared.”

“Hehe, my grandmother specially instructed me to say that as long as you come, she’ll already be happy.”

“Forget it, I won’t ask you anymore. I’ll think of a way myself!”

Just as the two of them were chatting, there was suddenly an ear-piercing screech of tires outside the door, followed by a loud bang. Looking in the direction of the sound, they saw a big car colliding with a bus, followed by two small cars.

There were already people standing around. Some were helping, some were crying, and some were just watching coldly.

Xia Tangxin was facing the street, so she saw this scene clearly. She was so frightened that her face turned pale, especially when she saw the passerby who was sent flying and covered in blood after falling heavily. Her mind went blank.

Qin Xi was different. Be it as a doctor or from the experience of her previous life, she was not frightened by this situation. She quickly stood up and said to Xia Tangxin with a solemn expression, “Stay here and don’t move. I’ll go and help them.”

As she spoke, she quickly ran out.

This street was not considered a bustling street. It was precisely because of this that big trucks loaded with sand were allowed to be on this street. The primary reason for the car accident was fatigue driving.

After the accident, the traffic police arrived shortly. They quickly set up a cordon around the scene.

Looking at the chaotic scene, the traffic police began to rescue the injured from the cars.

Some of the cars were almost covered in sand, some were beyond saving, and some people were still crying for help. The people on the buses were the most injured. The buses were overloaded to begin with. Some were trapped and could not come out, while some were sent flying out of the window by the huge impact and smashed into the wall.

In short, the scene was extremely chaotic and tragic.

Qin Xi ran over to save them, but she was stopped by the police officer. He scolded angrily, “Hey, back away. It’s not a place to mess around.”

Qin Xi took out her doctor’s license and said very seriously, “Sir, this is my doctor’s license. I’m not here to mess around. I’m here to save people. Lives are at stake. Let me in.”

Seeing that she was really a doctor, the police officer did not hesitate and quickly let her in. In this situation, having another doctor meant more lives could be saved.

Chapter 278 The Young and Handsome Dean

Qin Xi quickly blended into the rescue team. Her goal was very simple. She deliberately chose the most seriously injured and dying patients.

In the beginning, a few nurses wanted to stop her, but when Qin Xi showed what she was capable of, they all shut up. They even took the initiative to help her bandage the wound and do some simple support work.

“Doctor Qin, over here. There’s an old lady bleeding non-stop. She’s about to die. Come and take a look.” A nurse was so anxious that she was sweating profusely. She pointed at the old lady who was twitching in the pool of blood.

The old lady was surrounded by a few attending physicians who had just rushed over from the People’s Hospital.

Hearing the nurse’s shout, Qin Xi quickly instructed the few nurses beside her, “Don’t remove the silver needles from his body until I come back. Remember, don’t remove them, or his life might be in danger. Do you understand?”

The three young nurses nodded solemnly. “Don’t worry, Doctor Qin. We’ll remember it.”

Only then did Qin Xi stand up and quickly come to the old lady. Just as she was about to bend down to check on the old lady, she was stopped by an old attending doctor. “How ridiculous. Who are you? This is not a place for you to fool around. Get out quickly.”

The nurse was stunned. Just as she was about to explain, Qin Xi showed the doctor’s license hanging on her neck with a serious expression.

“This is my license. Now, if you can stop the bleeding and ensure that her life is safe, I have nothing to say and will leave immediately. However, if you can’t stop the bleeding, please move aside and don’t disturb me.”

Her words were merciless, but she couldn’t care less. Saving the patient was more important. If she continued to argue here and delayed the treatment time, it would be useless no matter what she said.

“You...”

The old attending physician did not expect this young girl to really have a doctor’s license. However, when he saw the word ‘Chinese Doctor’ written on it, his expression changed again.

“No, you’re a Chinese doctor. You can’t save her. Go somewhere else!”

His tone was filled with distrust for Chinese medicine. Of course, he was more suspicious of Qin Xi.

“I don’t have time to waste with you. I’ll only say one thing. Do you have the ability to stop the bleeding and ensure that her life is safe? If so, I’ll leave immediately.”

Qin Xi looked at him sharply and said firmly, “I’ll only tell you that I can.”

The old attending physician wanted to say something, but he was stopped by a young male doctor in a white coat beside him. He said in a low voice, “Doctor Li, we can’t stop the bleeding. Leave it to her! Saving people is more important.”

Hearing his words, Qin Xi looked at him. The man had handsome facial features and a cold temperament. He exuded a noble aura that was unapproachable. His deep eyes were cold and distant, as if he had seen the vicissitude of life.

“Yes, Dean.” Although the older doctor was indignant, he did not say anything in the end.

Qin Xi did not expect the young and handsome man in front of her to be the dean. However, she did not have time to dwell on it. She quickly took out a silver needle and was about to perform acupuncture on the old lady to stop the bleeding.

“Hey, hey, hey, what’s wrong with you? How dare you perform acupuncture without checking the patient first? Do you even know Chinese medicine at all?”

Just as Qin Xi was about to insert the needle, the older doctor interrupted again and reprimanded with a dark expression.

Qin Xi frowned and looked at him unhappily. “Please remember that I’m a Chinese doctor, and I have my own way of treating patients.”

Chapter 279 Don’t Forget Your Roots!

“What do you mean?”

“What do you mean? Explain yourself.” The older attending physician was so angry that his face turned red. He glared at Qin Xi, looking like he was not going to let Qin Xi treat the patient if she didn’t explain herself.

Qin Xi did not even look at the old attending physician. Instead, she looked at the young man and asked, “Are you the dean?”

The man nodded. “Yes, my name is Gu Qing!”

“If you consider yourself a righteous person, fire him.”

After Qin Xi finished speaking, she took out her silver needles and stopped the old lady’s bleeding at an unbelievable speed.

The attending physician was about to curse when he saw Qin Xi’s superb acupuncture technique. He immediately swallowed the words he was about to say and his face turned red.

“The bleeding has stopped. It really stopped!”

“That’s right. It’s really magical. She doesn’t even need to check her pulse. This technique is simply masterful.”

“I didn’t expect her to be so good at Chinese medicine at such a young age.”

“Look, the old lady’s breathing has calmed down. It’s really magical. I’ve never seen anyone save people like this. I feel that the risk is much lower than surgery.”

The surrounding people were all deeply shocked by Qin Xi’s medical skills.

Li Deshan opened his mouth, but in the end, he could only choose to retreat to the side and mutter under his breath, "What's so great about having good medical skills? She has no respect for the patients and won't go far. Hmph."

Unexpectedly, Gu Qing said, "Li Deshan, pack your stuff and leave the hospital immediately."

Li Deshan looked at Gu Qing in shock. He couldn't believe what he had just heard. He asked anxiously, "Dean, what do you mean? Are you going to fire me, an attending physician who has contributed a lot to the hospital, just because of an outsider? Why? Just because of her words?"

He pointed at Qin Xi, looking like he wanted to swallow her alive on the spot.

Gu Qing shook his head in disappointment. "Do you still not know what you did wrong?"

Li Deshan's eyes widened. "Is it because I can't stop the bleeding?"

"You're a doctor, but you obstruct others from treating the patient when you don't have the ability to do so. When others were treating the patient, you even threatened them and delayed the treatment of the injured. As a doctor, you should be ashamed of yourself. So, leave!"

Hearing this, Qin Xi looked at the dean in admiration.

Meeting Qin Xi's gaze, Gu Qing nodded faintly.

Just as Gu Qing was about to open his mouth to say something, a nurse ran over from behind. Her eyes were red from anxiety, and her voice was choked and trembling. "Doctor Qin, go and take a look. Just now, a few doctors removed the silver needles from the patient's body. Now, the patient is... about to die... What should we do?"

The nurse was so anxious that she cried. It was not only because she did not do what Qin Xi asked her to do, but also because she did not stop those doctors from doing it.

Chapter 280 It's Dirty!

"What's going on? Didn't I tell you not to remove the needle? Who did it?"

Qin Xi was really annoyed by the doctors who couldn't treat the patients and even caused a mess. Therefore, when she saw a group of doctors in white coats surrounding the patient and shaking their heads in pity, she reprimanded them mercilessly.

"Who are you? Which hospital are you from? Also, is this how you save people? Not only are you not with the patient, but you also left so many needles on him. Are you trying to kill him?"

A doctor in a white coat jumped out and started to accuse Qin Xi. He shamelessly pushed all the blame to Qin Xi.

"Heh, I've never seen such a shameless doctor."

Qin Xi exuded a terrifying aura. She said sharply, "You didn't listen to me and pulled out the needles without permission. Have you thought about the consequences? The patient's blood pressure has already stabilized, but now, his blood pressure is soaring, his heart is beating faster, his breathing is

obviously blocked, and blood is coming out of his mouth. Can't you see this with your own eyes? Who is actually killing him?"

"The silver needles I inserted were meant to keep him alive, but when you saw that the patient was already on the verge of death. Instead of trying to save him, you push the blame to me."

"What a disgrace to your white coat."

The doctors' faces turned red from the reprimand, but they couldn't say anything. Everyone around them had already seen the truth. They were indeed the ones who insisted on removing the needles. Now that things had become like this, they were helpless. They only wanted to push the blame away first. They didn't expect Qin Xi to be so eloquent.

Although Qin Xi was angry, she still had to save the patient.

Just now, she had already checked the patient. His legs were broken, his internal organs were dislocated, and two of his ribs were shattered. She only needed to use the Five Elements Acupuncture Technique and apply the Mystic True Qi to close the wounds. This was also the reason why she did not remove the needles.

She took a deep breath and injected the Mystic True Qi into the silver needles. Her hands danced like playing the piano. In the blink of an eye, 28 silver needles were inserted into the acupoints on the patient's chest.

As the silver needles pierced into the patient, the bleeding slowly stopped. The patient's breathing gradually calmed down and his blood pressure decreased.

This miraculous scene stunned everyone. Seeing that Qin Xi finally stopped, the people around her began to applaud.

For the entire afternoon, Qin Xi's success rate reached a terrifying 100%. It was simply a miracle.

As for Gu Qing, he had unknowingly become Qin Xi's assistant. He probably knew some Chinese medicine. When Qin Xi was busy, Gu Qing would help her with inserting the silver needles. This made Qin Xi look at him in a different light.

Although the two of them were only strangers, during the treatment process, the two of them had a tacit understanding, as if they had been partners for many years.

In this car accident, other than the people who died on the spot, everyone was saved. Most of the credit obviously went to Qin Xi.

When everything was over, Gu Qing took out a clean white handkerchief and handed it to Qin Xi. With a faint smile, he asked, "I haven't asked your name yet."

"Qin Xi." Qin Xi took the handkerchief and wiped her face.

Looking at the blood and sweat on the clean handkerchief, Qin Xi smiled awkwardly. "It's dirty!"

A faint smile flashed across Gu Qing's eyes. "Since it's dirty, keep it."

Qin Xi thought about it and agreed. She would throw it away later. Anyway, she didn't need it.
