

## **Mysterious 421**

### Chapter 421 Call

Looking at the few people fighting, Qin Xi did not go forward to disturb them. Instead, she went back the way she came.

As soon as she returned home and entered the courtyard, she heard the landline in the house ring.

Han Dazhu and Blackie went out, and Luo Xiujuan was busy in the greenhouse and did not hear the landline. Qin Xi took a few steps forward and looked at the unfamiliar number on the screen. She frowned and picked it up.

“Hello, this is Xia Tangxin. Is Qin Xi at home?” A familiar gentle voice came from the phone.

Qin Xi raised her eyebrows and said with a smile, “Yes, I am. Why did you call me with this landline number?”

“Xi, you’re too much. You didn’t even tell me you were going home. If I hadn’t called Sister Xuan, I wouldn’t have known that you went back home!” Xia Tangxin pouted and said sulkily.

Qin Xi was speechless. “I’m taking a trip back home for a few days. Is there a need to be so angry?”

Xia Tangxin explained, “Of course there is. If you told me, I would have bought something and asked you to give it to Grandpa Han and Auntie Han. I don’t want them to think I’m a rude girl.”

“Alright, I’ll tell you next time.” Qin Xi asked with a smile, “Is that why you called?”

Xia Tangxin quickly said, “My father asked me to tell you that something seems to have happened to Yao Hui Pharmaceuticals. They were targeted by the Commerce Bureau and the Health Bureau. It looks like it has been closed down. Even the Director was imprisoned for investigation.”

“They’ve done so many bad things. Of course they have to be investigated,” Qin Xi said matter-of-factly.

After all, with the help of those cuties, the evidence was naturally easy to obtain. After sorting out the evidence, Han Shi handed it to Meng Chang’an. Qin Xi just did not expect Uncle Meng to take action so quickly.

Xia Tangxin asked in shock, “Does that mean you really did this?”

“Not really me, but it’s about the same.” It was done by Stone.

“My father was right.” Xia Tangxin admired Qin Xi from the bottom of her heart. “You’re the best. You destroyed such a big company without doing anything.”

“Is that why you called me?”

“Not entirely.”

Xia Tangxin asked, “Do you still remember that woman called Qiu Juan on Grandma’s birthday? Her family is on par with my family. One of the daughters of the Qiu family is the lover of the young master of the Wen family, the number one family in Zhejiang Province. It’s said that she’s very cunning. Even Young Master Wen’s wife can’t do anything to her.”

“Are you trying to say that the Wen family will make a move on me next?”

“You have to be careful. The Wen family is the number one family in the entire Zhehai Province. In front of the Wen family, my family is like an ant that can be easily crushed. My father wants you to be careful.”

“Alright, got it.” Qin Xi was not afraid of the Wen family. It could be said that with her current strength, she was not afraid of anyone.

However, she was not alone now. If she wanted to protect the people around her, she could only strengthen her power and... take the initiative to attack.

After thinking about it, she immediately had an idea. Taking the initiative to attack first would make her appear like the bad guy. If the other party attacked first, her attack could be justified.

Of course, she would not kill the innocent, nor would she vent her anger on them. She only hoped that this young master of the Wen family would not be stupid enough to attack her family for his lover.

After her family was destroyed in her previous life, Qin Xi valued her family as much as her life. If anyone threatened her family members, she would kill them without hesitation.

#### Chapter 422 Plan

Qin Xi stayed in Shangwan Village for three days. On the fourth day, Xia Tangxin called, saying that the Sweet Dew Store was forced to close down. Wen Chen did it.

Wen Chen was the young master of the Wen family. His lover was Qiu Li, the daughter of the Qiu family. Not only did he abuse his power to close down the Sweet Dew Fruit Store, but he also closed down the Sweet Dew Food Supermarket.

A dark glint flashed across Qin Xi's eyes as she said calmly, “Got it. I've been quite busy recently. Give the employees a break.”

“How do you plan to settle this matter?” Xia Tangxin was not in a hurry. She knew Qin Xi's ability and just asked out of curiosity..

However, Qin Xi really replied, “Since he blocked my source of income, I'll give him a taste of his own medicine. Coincidentally, I took a fancy to his clothing factory. Why don't I snatch it from him?”

Xia Tangxin's eyes lit up. “Then I'll wait for your good news.”

After hanging up the phone, Han Shi blinked and said innocently, “Wifey, did you deliberately wait to let the other party make a move first?”

Qin Xi asked, “Why do you say that?”

“Only then will we have a legitimate reason to fight back. Otherwise, with your personality, you will definitely choose to strike first.”

Han Shi pulled Qin Xi into his arms and asked, “Why do you need a clothing factory? Isn't it enough to have a winery and a pharmaceutical factory?”

“Of course not.”

Qin Xi knew very well the importance of wealth and strength. If she wanted to be respected, she had to have enough wealth.

It was not easy to be above others. Even though she had the mystic medicine technique, in the eyes of the true powerhouses, she was no different from a witch.. If you were the business tycoon that everyone respected and controlled abundant financial and material resources, even the powerhouses would bow down to you.

Therefore, she had to pave a way for Han Shi quickly. This way, when they went to the capital in the future, no one would look down on him and even treat him with respect.

\*\*

That afternoon, Qin Xi returned to Luoping City. She did not go to look for Wen Chen directly. Instead, she went to the Wan family's residence.

“Xi, what brings you here?” Wan Shiyue naturally knew why Qin Xi was here. He just wanted to tease her.

Qin Xi smiled and took out a jar of tea leaves and placed it on the table.

This was the high-grade tea that she had painstakingly nurtured. The taste was definitely top-notch and rich.

Wan Shiyue raised his eyebrows and picked up the jar. As he opened it, he asked, “Huh? What is this?”

Before he could finish asking, a strong fragrance of tea entered his nose. He couldn't help but close his eyes and take a deep breath. After a while, he actually felt comfortable.

He suddenly opened his eyes and asked excitedly, “Xi, what tea is this? Why do I feel like my mind is clear and my fatigue is gone after smelling this tea? Am I hallucinating?”

He knew that nothing from Qin Xi was ordinary.

Qin Xi smiled faintly. “Of course you are not hallucinating. This is my newly cultivated tea. When one smells it, one will feel energetic and comfortable. It's also good for health, especially for old people. Taking it all year round can also strengthen the body.”

“Really? That's great.” As Wan Shiyue spoke, he called the servant beside him. “Make me a cup.”

He then looked at Qin Xi. “Is there a special way to make this tea?”

“It's very simple. Take three to five leaves and boil them with 90 degrees hot water. Also, the fragrance and texture of the tea will change according to the cup. In other words, the porcelain has the taste of porcelain and the purple sand has the taste of purple sand. If you like, you can try both.”

Chapter 423 Special Supply

The servant carefully picked up five leaves with tweezers and placed them in the porcelain bowl and purple sand. The water was quickly boiled to 90 degrees.

When the 90-degree hot water was poured into the porcelain bowl, the tea fragrance instantly spread out. The green leaves were like dazzling and luxurious jade, beautiful and pleasing to the eye.

At this moment, the tea was steaming and fragrant. It was intoxicating.

Wan Shiyue picked up a small cup excitedly and took a small sip. It was sweet and smooth, and the taste was rich and refreshing. There was also a trace of coldness coming out of his mouth, like taking a sip of mint in the middle of summer. That feeling lingered in his mouth for a long time.

Having lived for most of his life, he had tasted all kinds of good tea, but nothing was mildly comparable to this.

“Xi, how many jars do you have left?” He looked at Qin Xi and asked with a smile.

Qin Xi couldn’t help but smile. “Grandpa Wan, I only have five jars here for the time being. I planned to use them as gifts. When the winter tea comes, I’ll take a few more jars for you. How about that?”

Although Wan Shiyue was disappointed, he knew that Qin Xi knew too many people. It was already not easy for her to give him a jar. Anyway, one jar was enough to last him a long time.

“Deal. When winter tea comes, you must give me a few more jars.”

“Of course.” Qin Xi nodded.

“Great.”

Wan Shiyue took another sip of tea and smacked his lips. Then, he returned to the topic and asked, “Xi, why are you here today? I heard that your fruit store has been shut down. Do you need help?”

Qin Xi shook her head and explained her reason for coming. “Grandpa Wan, I’ll handle this matter. However, I’m here to ask your help for something else.”

“Oh? What is it?” Wan Shiyue was interested.

“Grandpa Wan, do you think my tea is good enough to be a special supply?”

Qin Xi asked with a smile. Her eyes were deep and confident, and there was a faint smile on her face, making it impossible to tell what she was thinking.

“Special supply?”

Wan Shiyue was stunned for a moment before he quickly reacted. He patted his thigh and said with a bright smile, “That’s right, hahaha, why didn’t I think of that? Your tea can definitely be a special supply.”

“When your Uncle Wan comes back and tastes it, we’ll make a decision. However, don’t worry, he’s also a tea lover. In order to drink more tea, he’ll definitely agree.”

The old man made a promise. After thinking for a moment, he asked, “By the way, do you want your fruits to be a special supply too?”

In his opinion, if Zhejiang Province could really produce two special supplies, it would be quite helpful to Wan Jiuyang’s political career.

“There’s no need for my fruits. After all, the sales of fruits are already high. If they all become a special supply, ordinary people won’t be able to eat them.”

Qin Xi suddenly changed the topic. “However, when Stone builds the winery, I’ll make some medicinal wine. When the time comes, help me see if it’s suitable to become a special supply.”

Wan Shiyue’s eyes lit up, and his face was beaming with smiles.

“Really? That’s good. It’s best to make some wine that you can drink as much as you want. As you know, the thing I like the most in my life is wine.”

When Qin Xi thought of how the first time she met Wan Shiyue was because he sneaked out to drink, the corners of her mouth twitched.

Chapter 424 Jade Ruyi

After leaving the Wan family, Qin Xi returned to the clinic.

The clinic was overcrowded today. Qin Xi walked in in confusion and saw Old Master Qi, Old Master Huang, Old Master Jin, and Old Madam Jin in the resting area.

She raised her eyebrows slightly and saw that Old Master Qi was no longer in a wheelchair. Old Master Huang had recovered and Old Madam Jin looked energetic. Qin Xi smiled faintly. “Why are you all here?”

Seeing Qin Xi return, the elders immediately stood up. The first to speak was Old Master Qi. “Divine Doctor Qin, you’re finally back. We’ve been waiting for you for three days.”

“That’s right. We’ve all recovered and wanted to come over to thank you personally. We didn’t expect you to have gone home. We could only wait here.” A smile flashed across Old Master Huang’s dignified face.

Old Master Jin and Old Madam Jin also stood up. The old lady was holding a basket filled with eggs. She said hesitantly, “Young divine doctor, Jin and I don’t have anything valuable. We can only afford some eggs.”

Qin Xi quickly reached out to take it with a smile. “Thank you, Grandma Jin. I’ll take this gift.”

She handed the eggs to Pan Lingling and turned to ask Old Madam Jin, “Grandma Jin, you look very healthy. It seems that you’re recovering well. Since you’re here, let me take your pulse!”

Old Madam Jin immediately reached out her wrist. “Thank you, young divine doctor.”

After taking her pulse, Qin Xi immediately revealed a satisfied smile. “Don’t worry, you’ve completely recovered. You don’t have to take medicine in the future. You’re in very good condition. Keep it up.”

When Old Madam Jin heard that, she was so happy that she almost cried. She thanked Qin Xi profusely.

Seeing that Qin Xi still had guests, Old Master Jin did not stay long. He helped Old Madam Jin away.

After they left, Huang Bo looked at Old Master Qi and asked, “Brother Qi, do you want to go first or should I?”

Old Master Qi said with a smile, "Brother Huang, I'm not in a hurry! You go first."

Huang Bo cupped his hands and looked at Qin Xi to thank her sincerely. "Thank you for saving my life, Divine Doctor Qin."

Qin Xi waved her hand. "Old Master Huang, you're welcome. As a doctor, my duty is to treat illnesses and save people. Besides, I was asked by someone to help you, so there's no need to thank me."

Of course, Huang Bo knew what Qin Xi meant. At the thought of his lover leaving just like that, he felt bitter in his heart and said, "I'm here to give you some gifts. Shuxuan, bring the things over."

Huang Shuxuan brought over a wooden box that was more than half a meter long and gently placed it on the table.

When the patients in line saw this, they craned their necks to look over, very curious about what was inside.

Qin Xi was also very curious. Huang Bo did not keep her in suspense and opened it.

Inside was a pair of jade ruyi. It was a rare white jade. It was snow-white and crystal clear and was very beautiful. One could tell at a glance that it was expensive.

Everyone gasped. They could not believe their eyes. The patients who came here to get treated were all from ordinary families. They had never seen white jade before. Now that they could see such a beautiful white jade with their own eyes, they could not help but feel excited.

Old Master Qi was very surprised.

He was knowledgeable and immediately recognized that this was a pair of jade ruyi that Old Master Huang had bought for more than five million yuan at the auction house.

#### Chapter 425 Sorcery

"Yo, isn't this the jade ruyi that was auctioned for five million a few years ago?"

Gao Huiren also came over. When he saw the jade ruyi, he immediately recognized it.

"Five million yuan?" Other than those who knew the price, everyone was shocked by the astronomical figure and came over to take a closer look.

Jade was something rich people liked to play with. They would never come into contact with it in their lives. It was not easy for them to have the chance to see it.

"Old Master Huang, I can't take this. It's too expensive. I don't deserve it. Take it back!" Qin Xi shook her head. She could tell that the pair of jade ruyi contained faint spiritual energy. She knew that this thing was expensive and rejected it without hesitation.

Huang Bo pushed the box to Qin Xi. "Divine Doctor Qin, you have to accept this gift. Otherwise, I will feel bad. Just take it as I'm doing this for someone else."

Qin Xi immediately understood that Huang Bo was thanking her on behalf of Liu Yun.

However, what Huang Bo did not know was that Liu Yun had already given her a pair of Heavenly Fragrance Cardamom. That kind of spiritual item was something that could only be chanced upon by luck and not sought after. It was not something a pair of jade ruyi could compare to.

However, she couldn't explain this to Huang Bo. After thinking for a moment, she accepted it.

Huang Bo was relieved that Qin Xi took it. "Since Old Master Qi still has something to say, I'll take my leave first. Divine Doctor Qin, Master Gao, Old Master Qi, I'll leave first. Let's meet again when we have time."

After sending Huang Bo and Huang Shuxuan off, Qin Xi looked at Old Master Qi, wondering why he was looking for her.

Old Master Qi immediately looked serious. "Divine Doctor Qin, can we talk in private?"

Seeing his solemn expression, Qin Xi nodded. "Come upstairs with me!"

The two of them went upstairs. Pan Lingling made two cups of tea and left.

"You can tell me now."

Old Master Qi sighed deeply. "Divine Doctor Qin, you said that you wanted that piece of land in the old district. It seems to be a little difficult to get it now."

Qin Xi frowned. She didn't think that Old Master Qi would go back on his word and didn't want to give that piece of land to her. She asked calmly, "What happened?"

"You're right. Something did happen."

Old Master Qi nodded and said in a heavy voice, "Divine Doctor Qin, you should know that the old district is divided into the western and eastern parts. There's a stone arch bridge in the middle as the dividing line. Now that the old district is about to be demolished, this stone arch bridge has become the biggest problem."

"Why is it a problem? Isn't it just a bridge?" Qin Xi asked suspiciously.

"Back then, the reason why I put the old district development plan on hold was also because of that bridge."

Old Master Qi began to explain. "It's said that people used to sacrifice living people to block floods on that bridge. Moreover, that bridge is very strange. If it's destroyed forcefully, there will be a disaster. Back then, someone stole the materials on that bridge and later his entire family died."

"At that time, I didn't believe in such a superstitious thing, so I got someone to try it. Later on..."

"Burying living people" Qin Xi's pupils constricted.

Old Master Qi nodded

"I understand what you are saying." Qin Xi said, "Don't touch this bridge for now. I have a way to deal with it."

Old Master Qi wanted to ask, but seeing that Qin Xi did not seem to want to say too much, he could only shut his mouth and sit for a while longer before leaving.

Qin Xi did not expect to encounter such an evil technique. It seemed like she should go and take a look when she had time.

#### Chapter 426 Burying Living People

Burying living people was an ancient evil technique in feng shui.

This was a secret construction technique. The process was terrifying and evil. It was said that it was first invented by a Feng Shui master.

It was said that when an official was given the task to build a bridge, he encountered a situation where he could not drive a pile into the ground. At that time, he found a Feng Shui master. The Feng Shui master claimed that he had disturbed and angered the god of soil. If he wanted to solve the problem, there was only one way.

That was to sacrifice living people.

According to the Feng Shui master, it was believed that there was vitality in the soil. Every time the soil was dug up, it would destroy the feng shui of the place and attract bad luck. When the building was built on the bones of the dead, it would disturb their rest and anger them. Therefore, accidents often happen during the construction process.

One had to be afraid of the dead. At the same time, one had to sincerely pray for peace so that his wealth, luck, and fate would not be affected by feng shui.

Under such circumstances, the official tried to use living people as sacrifices.

This was also a form of showing respect to the god of the soil. Otherwise, if the god of the soil was offended, not only would the official's life be in danger, but he might also bring disaster to his family and descendants.

Therefore, until now, there were still some places where poultry and livestock were used as sacrificial offerings in place of humans. This was intended to show respect to the god of soil without breaking the law.

It was strange that after the sacrificial ritual, the pillars that could not be driven into the ground previously magically and easily stuck into the ground. It was said that after the living were sacrificed, this building would not collapse because of natural disasters.

Those who were buried alive were called guardians by the people.

Therefore, it was very likely that the guardians in that bridge had existed for hundreds of years. The bridge that no one had dared to touch for hundreds of years was even more difficult to move.

\*\*

In the Breeze Villa.

During dinner, Qin Xi told Han Shi about this.

“It sounds very dangerous. I’ll go with you,” Han Shi said firmly with a frown.

Qin Xi didn’t refuse. “You have to be prepared. that thing is not human.”

Han Shi looked at her strangely. “I know. It’s not like I don’t have non-human things around me...”

Qin Xi couldn’t help but laugh. She teased, “I forgot about Jiu Yuan. Alright, we’ll go tomorrow night. By the way, call that guy over. Perhaps he’s from the same dynasty. Perhaps that thing will surrender without us doing anything!”

Han Shi looked at her dotingly. “That’s a good idea. Although I don’t think it’s possible that they’re from the same dynasty, Jiu Yuan can at least help us light the way...”

Qin Xi said, “... You are right.”

The two of them spoke as if no one was around, making Blood Stealer confused. However, he was too embarrassed to ask and could only give Dong Mi a meaningful look.

Dong Mi was actually also very curious. Without thinking, she asked in confusion, “Sister Xi, what are you talking about? Why don’t I understand?”

Blood Stealer nodded and also asked, “Lady Boss, what do you mean by not human? What do you mean they’re from the same dynasty/ Are they from Shangwan Village?”

Saber had seen Qin Xi use a mystic technique. She said that it was a tracking talisman. At that time, he knew that Qin Xi was not a simple divine doctor.

Chapter 427 Leave This Small Fry to Me!

The next morning.

Qin Xi received a call from Xia Tangxin. “Wen Chen has a message for you. If you want to do business, you have to show your sincerity.”

“Sincerity? What sincerity?” Qin Xi asked curiously.

Xia Tangxin said in a huff, “What else can it be? He wants shares of our Sweet Dew Store, but he won’t fork out the money. I think this person’s head must have been smashed or he doesn’t have a brain.”

“Indeed, this person must be a retard.” It was rare for Qin Xi to curse.

“So, Xi, when are you going to turn him into a real retard? He’s too shameless. If he’s still alive, he’ll definitely harm people. Why don’t you put him into some kind of container and suppress him for decades?”

Xia Tangxin said jokingly.

“Good idea. I’ll consider it,” Qin Xi said with a smile. “Can you find his current address?”

Xia Tangxin’s eyes lit up and she said enthusiastically, “Don’t worry, I’ve already investigated it. They live in Luoping City now. The address is District XXX, No. XX. Are you going to make a move?”

“I’ll see what kind of person he is first. If he’s as evil as Tang He, I’ll deal with him the way I dealt with Tang He. If he hasn’t done anything evil, I can only fight him as a businessman.”

“Do you think a person who wants to snatch our store can be a good person?”

Xia Tangxin rolled her eyes. “However, you have to be careful. The Wen family is not to be trifled with. If they go against you for the sake of the family’s reputation, we might not be able to run our store in the future.”

“Can’t run our store? Do you think that’s possible?”

Qin Xi smiled coldly. “In a few days, someone will report it to the higher-ups that our store is forced to close down. Do you think the higher-ups can still eat ordinary fruits after eating Sweet Dew fruits?”

Xia Tangxin was stunned. “I don’t think so. I’m used to eating Sweet Dew fruits now. It’s very difficult to eat anything else.”

This was the truth. Sweet Dew fruits had all kinds of miraculous effects. Although it was a little expensive, it did not affect its popularity.

Moreover, most of the people who bought Sweet Dew fruits were rich and powerful. If they knew that they would never be able to eat Sweet Dew fruits in the future, what would they do?

The answer was self-evident.

“As expected of you, Xi. You’re really smart. I finally understand why you’re not in a hurry.” Xia Tangxin was sincerely impressed.

“Don’t worry, the people on his side must be under more pressure than me. The brand of Sweet Dew has already been launched, and the fruits have become one of the local specialties. If the store is closed just like that, it will undoubtedly be a huge slap to the entire Luoping City. The government said that it’s a local specialty, but it’s closed down. Isn’t it a slap to the face?” Qin Xi explained with a smile.

“You’re really wise.”

The two of them chatted for a while more before Qin Xi asked Saber to drive her to Wen Chen’s residence.

The scenery in that area was very good. Even if Wen Chen was a collateral relative of the Wen family, the huge Wen family would not treat the younger generation badly.

Therefore, Wen Chen’s life was also very extravagant. He bought a house wherever he went. In order to show his status, he wanted every house in the city center.

Seeing that Qin Xi was about to get out of the car, Saber quickly said, “Lady Boss, leave this small fry to me!”

Chapter 428 Swapping Identities

In a two-story western-style building.

Qin Xi swaggered in and pushed open the carved iron gate. She came to the door and gently pulled the handle. With a crack, the door opened without warning.

When she walked into the living room on the first floor, the smell of alcohol assaulted her nose. When her gaze landed on the wine bottles and clothes on the ground, as well as the high heels that were thrown everywhere, her eyes darkened.

Looking upstairs, she walked lightly to a bedroom that was wide open. When she walked in, she saw a man and three women sleeping in each other's arms. Their bodies were naked, and their sleeping posture was extremely unseemly.

Perhaps because they had drunk too much last night, no one noticed Qin Xi standing at the door.

She walked to the bed and looked at Wen Chen's face carefully. The more she looked at him, the more she found it strange. His face showed that his father had passed away and he would live a life in poverty. How could he have become a son of the Wen family? Moreover, as far as she knew, Wen Chen's father was still alive. Why would his face show that his father had died?

Unless ... He swapped his identity with someone else.

Qin Xi was speechless. She did not expect to discover this. It was a pleasant surprise.

Since she was here, she might as well help the person whose identity was taken away.

At the thought of this, Qin Xi took out a silver needle and pricked Wen Chen's fingertip. She took out his blood and used the blood technique to find Wen Chen's biological mother.

Wen Chen, who was still sleeping, did not expect that his fate would return to normal. From then on, he would live in poverty.

Of course, that happened later.

Qin Xi used a technique to sense the whereabouts of Wen Chen's biological mother and left without alerting anyone.

Saber was surprised that Qin Xi solved it so quickly, but he did not ask.

After getting into the car, Qin Xi smiled. "Let's go back to the clinic."

Ji Ding Hall.

Qin Xi sent Saber away and came to the clinic alone. There were not many people today, only a few of them, and they were all here to get the medicine.

At this moment, Gao Hui ren and Liu Dequan were discussing something seriously.

"The lady boss is here!"

Hu Jingyun was cleaning the clinic when she saw Qin Xi walk in. She immediately smiled and greeted her.

Qin Xi nodded. "Have you had breakfast?"

"I ate steamed buns and drank porridge. Lady Boss, have you eaten? If not, I'll go next door and buy it for you," Hu Jingyun asked shyly.

"Don't worry about me. I've eaten."

With that, Qin Xi walked up to Gao Huiren and Liu Dequan. "Is there anything you can't solve?"

When Liu Dequan saw her, he was delighted. He pulled Qin Xi to sit down. "Xi, you're finally here. Tell us the second step of the Five Elements Acupuncture Technique. Here, between me and Brother Gao, who has a better understanding of the acupoints and meridians of the human body?"

Gao Huiren also looked at Qin Xi expectantly, waiting for her reply.

Although his medical skills were better than Liu Dequan's, he had not studied the Five Elements Acupuncture Technique as long as Liu Dequan did.

Seeing this, Qin Xi smiled and looked for Pan Lingling and Hu Jingyun. "The two of you, come over too. Although you haven't learned the Five Elements Acupuncture Technique yet, you have to listen to it. When you start learning it in the future, you'll be able to grasp it."

Pan Lingling and Hu Jingyun were stunned and said in unison.

"Can we learn it too?"

Qin Xi raised her eyebrows with a smile on her fair face. "Of course. Are you going to be herb girls for the rest of your lives?"

Pan Lingling and Hu Jingyun immediately ran over excitedly and listened to Qin Xi's explanation.

In the middle of the lecture, the door was suddenly kicked open.

Chapter 429 Twins

"Doctor, is the doctor here? Come and save her!"

The door was kicked open and seven or eight people rushed in, crying and shouting. The passers-by stuck their heads in curiously, wanting to see what was going on.

Especially when they saw the river of blood along the way, they were even more shocked.

Qin Xi and the others saw two men carrying a pregnant woman with sweat all over their foreheads. Behind them were men and women. There were six or seven of them, clearly a family.

"Doctor, look at my wife. She seems to be in difficult labor." The two men placed the pregnant woman on the ground and looked anxiously at Liu Dequan and Gao Huiren, who were wearing white coats.

Qin Xi was the fastest. She went forward and grabbed the pregnant woman's wrist to take her pulse.

When they came in, she saw that the pregnant woman was unconscious and her face was abnormal. This was not a symptom of difficult labor, but poisoning.

However, before she could touch the pregnant woman, she was pushed by an old lady. The old lady protected the pregnant woman tightly like a mother hen protecting her chick and glared at Qin Xi fiercely.

“What are you doing? Who asked you to touch my grandson? Get lost. My grandson is very precious. If you hurt my grandson, you have to pay with your life.”

Qin Xi was caught off guard and was pushed to the ground by the fierce old lady. She frowned and slowly stood up. She brushed the dust off her body and did not look at the old lady. Instead, she said to the pregnant woman’s husband with pity, “The pregnant woman is poisoned by oleander. The pregnant woman is unconscious now. In a while, she will go into shock. Also, with so much blood, the child will definitely be lost. Even if the child is saved, the child will not be healthy. So, should we take the child out now?”

With every word Qin Xi said, the man’s face turned paler. When she mentioned that the child could not be saved, his body swayed and he almost lost his balance. Fortunately, the man beside him quickly helped him up.

He glanced at the woman in red standing behind the old lady as well as the old lady. There was gloating written across the face of the woman in red and guilt on the face of the old lady.

The corners of Qin Xi’s mouth curled up sinisterly as she added, “The pregnant woman is pregnant with two boys.”

The old lady’s turbid eyes widened, and her face was filled with disbelief. Her heart felt like it had been stabbed by a knife. Her heart ached so much that she almost fainted. Her face, which was as mean as Li Guihua’s, was filled with frustration and regret.

Behind her, the woman in red quickly held the old lady and whispered something into her ear.

The old lady’s heart skipped a beat. Her eyes darted around before she pointed at Qin Xi and scolded angrily, “You b\*tch, what nonsense are you talking about? My daughter-in-law wasn’t poisoned at all. Besides, are you a doctor? Hurry up and call the doctors over. If anything happens to my daughter-in-law, I’ll tear down your clinic.”

When the others heard that, they frowned. One of the men reprimanded, “Mom, what are you talking about? Can you stop fooling around at a time like this?”

“Third Brother, how can you talk to Mother like that? Mother is also anxious for Sister-in-law. This woman is obviously a herb girl. What does she know?” The woman in red was very displeased with her third brother’s attitude and reprimanded him domineeringly.

The third brother couldn’t be bothered to talk to his sixth sister. Instead, he looked at his eldest brother worriedly and said, “Eldest Brother, don’t think too much. It’s more important to save Sister-in-law. Hurry up and say something!”

#### Chapter 430 Unconscious Woman

“What are you waiting for? The pregnant woman is already severely deprived of oxygen. If we don’t treat her now, she’ll go into shock.”

Seeing that the pregnant woman was already poisoned and unconscious, Gao Huiren couldn't sit still anymore and pushed the pregnant woman's husband.

"Hey, why are you hitting people? We're here to get treated. How dare you hit people when you can't treat the patient?" The woman in red shouted at Gao Huiren.

Gao Huiren wouldn't lower himself to the level of a street shrew. He said to the pregnant woman's husband, "If you want to save your wife, chase these people out. If you don't want to save your wife, just leave. Don't blame us when you regret it."

"Save, save my wife. Doctor, please save my wife." The man finally reacted and quickly held Gao Huiren's hand, pleading with a trembling voice.

"I've said it before. If you want to save her, sure. Hurry up and chase all the people out." Gao Huiren looked at the woman in red and the old lady. Even a blind person could tell what he meant.

The old lady was immediately displeased. She placed her hands on her hips and spat at Gao Huiren. Every word she said was filled with sarcasm and disgust.

"Who do you think you are? Why should I go out? What are you going to do to my daughter-in-law? My son, you have to protect your wife. Don't let anyone take advantage of the situation and do something to your wife."

"Mom, Sixth Sister, go out. Third Brother, take the two of them out." The eldest brother's eyes were filled with endless pain as he instructed his third brother.

"I'm not going out. Why should I go out? I'm your mother, you unfilial son. You even dare to chase away the mother who gave birth to and raised you for a woman. You are heartless."

"Mom, can you stop kicking up a fuss? Sister-in-law is already like this. Why are you making things more difficult for her?" Third Brother was also very angry. He felt that his mother was acting abnormally today, as if she was trying her best to hide something.

However, now was not the time to argue. After being dragged out, the old lady spat at the door of Ji Ding Hall and started cursing.

"They're all quacks. A bunch of quacks. Everyone, come and take a look. This clinic is filled with quacks. My daughter-in-law is just in normal labor, but this doctor actually spouted nonsense, saying that she's having a difficult labor, and urged my son to abandon the children."

"They're really vicious. Everyone, come and take a look. This doctor is abusing lives. Show some pity on my unborn grandson..."

The third brother was about to explode with anger. He reprimanded fiercely, "Mom, can you not distort the truth? The doctor said that Sister-in-law lost too much blood and couldn't keep the children. Don't you know how much blood she lost? How can you slander the doctor?"

The woman in red was also very embarrassed to be chased out. She said unreasonably, "Third Brother, how can you say that? She is our mother. She said so because she is worried about Sister-in-law. Sister-in-law is also to blame. She ended up like this for no reason and even lost her children. Sigh!"

Third Brother shouted angrily, "Shut up!"

In the clinic.

Qin Xi got Pan Lingling and Hu Jingyun to carry the pregnant woman to the isolation room at the back.

The eldest brother looked at Liu Dequan and Gao Hui ren with a worried expression. "Doctor, why don't the two of you treat my wife? The three of them..."

Gao Hui ren patted his shoulder and comforted, "Don't worry. That woman just now is the boss of the clinic. Her medical skills are very good. She can even treat cancer and stroke. Your wife will definitely be fine. Just wait patiently."
