

Mysterious 501

Chapter 501 Ordinary Looking Bracelet

The moment the dark fire burned, the corpse boy instantly disappeared like melting ice. Wisps of black aura entered the body of the dark chain.

The Chain of Darkness was very excited. It roared at the black-robed man who was already dumbfounded and spat out flames. The flames quickly enveloped the black-robed man and devoured his flesh and bones bit by bit.

He slapped his clothes in horror, only to find that the strange flames could not be put out.

“Ahhh...”

The black-robed man let out a miserable scream as his body was quickly burned by the black flames, turning into a wisp of green smoke that entered Qin Xi’s body. She closed her eyes and absorbed the black-robed man’s memories.

A moment later, Qin Xi found a small pagoda in the scattered black robe. This pagoda was called the Demon Suppression Pagoda. It was only the size of a palm, but there were more than a thousand souls imprisoned inside, including Feng Du’s father.

Seeing a living person disappear in front of their eyes, Gu Qing and Feng Du felt their hair stand on end. They felt like they had seen too much and were afraid that they would be silenced. The way they looked at Qin Xi changed drastically. They were afraid, nervous, and anxious.

Qin Xi did not care what they were thinking. Instead, she took the small pagoda and smiled at them. “Alright, your father’s soul is here. I’ll let him out now.”

As she spoke, she summoned Feng Du’s father’s soul. The man’s body trembled violently. He suddenly opened his eyes and looked around in confusion. Before he could speak, he sneezed loudly.

**

After returning to the clinic, Qin Xi looked at the few pots of precious herbs that had been watered with Vitality Pills. Apart from the green leaves, there were no changes at all. Even the Spirit Gathering Array was useless.

Thinking that the Yin family would definitely avenge their clansman, Qin Xi decided to increase her strength before taking the initiative to go looking for the Yin family and wiping them out. Otherwise, the Yin family would find her sooner or later.

Of course, the reason why she wanted to wipe out the Yin family was not only because of retaliation. It was because she realized that as long as she burned sinful people with the dark fire, the soul she absorbed would become purer and be of great help to her cultivation.

Therefore, she had to get rid of the Yin family as soon as possible.

After all, the Yin family had already noticed her existence. Instead of waiting for them to come knocking on her door, it was better for her to take the initiative to attack. The Yin family would never expect that she would be able to find them.

At the thought of this, she carefully dug out the herbs in the flower pots and hid upstairs to start refining pills.

Because herbs were scarce, Qin Xi was very careful when she refined them, afraid that if she made a mistake, the entire pot of herbs would be destroyed.

Time passed slowly. A few hours later, a look of surprise appeared on Qin Xi's face. "That's great. It's finally made."

There were a total of three Essence Strengthening Pills. These were pills that could increase one's cultivation level and also strengthen one's meridians. The smell of the pills filled the air, and the fragrance was rich and intoxicating.

Qin Xi put the pills in a bottle and walked downstairs to treat the patient.

In the evening, Han Shi came to pick Qin Xi up and brought her back to Breeze Villa. On the way, Qin Xi told him what had happened today.

"You want to go to Yunbei?" Han Shi frowned and objected firmly. "No, it's too dangerous. I don't agree."

"Don't worry, it's not like you don't know how powerful I am. I won't show my face this time. Everything will be done in secret. I already know the plan of the entire Yin family. You don't have to worry."

Han Shi looked at her and said seriously, "Unless we go together, I won't let you take the risk alone."

Chapter 502 The Use of the Golden Blood Toad

Under Han Shi's insistence, Qin Xi could only agree.

"I'll make arrangements when we get home tomorrow." Han Shi suddenly thought of something. "By the way, Qin Lan ran away with a human trafficker."

Qin Xi shook her head and laughed. "I've read her face. She won't die, but she'll live the rest of her life in misery."

When Han Shi heard that, he was extremely glad that he had married Qin Xi. If she was still left in the Qin family, only God knows what would happen.

He held her hand tightly and did not say anything, but Qin Xi could feel his worry and heartache.

Qin Xi patted his hand and smiled faintly. She quickly changed the topic. "By the way, how are the vegetables? I heard from Xia Tangxin that the profits are not bad."

"Not only is it not bad, but the villagers also earned more than they earned from selling tea. The villagers are all smiling from ear to ear. The villagers who didn't join us regret it so much that they cried. Now, they are starting to build greenhouses. Every family in the village is doing it."

“By the way, those retired military transport teams are also on duty now. Some time ago, a few cities sent people over, saying that they wanted to cooperate with us.”

“As for the orchard, last time, when you set up the Spirit Gathering Array, another batch of fruits had already grown out. Although the villagers are very curious about how fruits can grow in winter, they didn’t get to the bottom of it. Anyway, they can make plenty of money. Why should they care about how fruits are grown?”

“The tea leaves are also packed. A few days ago, we also received a call from the higher-ups who wanted to buy them all. However, they said they wanted to come over to inspect first. It’ll probably be in the next two days.”

Qin Xi felt a headache coming on as she listened to Han Shi telling her what happened recently. She looked at Han Shi’s handsome face and immediately felt guilty.

“Hubby, thank you. It’s been hard on you these days...”

Han Shi smiled, his handsome face filled with gentleness. “What are you talking about? I’m a man, and I’m your man. If I can’t even handle such small matters, how can I be worthy of being your man?”

“And Yao Hui Pharmaceuticals. Have you found a candidate to manage it?”

Han Shi was not familiar with pharmaceutical business at all, so he could only leave this matter to Qin Xi.

At the mention of Yao Hui pharmaceutical, Qin Xi immediately thought of something else. She said with an embarrassed expression, “I’ve been a little busy these past few days. I’ll go to the sanatorium to see if there’s a suitable candidate.”

If the dean of the sanatorium, Ma Shouhua, knew that Qin Xi was going to ask him for people again, he would probably write “Qin Xi is not allowed to enter!” on the gate of the sanatorium.

After returning to the Breeze Villa and eating dinner, Qin Xi took out the Golden Blood Toad.

Seeing this, Han Shi walked over and wrapped his arms around her waist from behind. He placed his chin on Qin Xi’s shoulder and asked curiously, “What are you doing with this?”

“I know how to use the Golden Blood Toad.”

Qin Xi broke free from his arms and turned to look at Han Shi. “Open your palm.”

Han Shi stretched out his right hand and opened his palm. He looked at Qin Xi suspiciously and did not speak.

Qin Xi released her true Qi and cut a wound on his palm. She pressed the Golden Blood Toad on the wound. Not long after, a magical scene happened.

Chapter 503 A Night Without Rest

A magical scene happened.

When the Golden Blood Toad touched the wound, it slowly melted like ice meeting fire. A pool of golden-red liquid entered Han Shi’s wound.

Han Shi felt a burning sensation spreading through his meridians and then his limbs and bones.

He gritted his teeth and endured the pain without making a sound, afraid that Qin Xi would notice he was in pain if he groaned.

Qin Xi could tell that Han Shi's face was pale and that he must be enduring the pain. She immediately said anxiously, "Stone, circulate it. Don't resist it. Absorb it like spiritual energy."

Hearing Qin Xi's reminder, Han Shi endured the pain in his body and adjusted his breathing. The golden-red color was like blood. Bit by bit, it flowed into his blood vessels and meridians.

After an unknown period of time, Han Shi felt that his entire body seemed to be filled with endless power.

He opened his eyes, and a golden-red color flashed across his eyes, making him look even more unfathomable.

"How do you feel?" Qin Xi had been watching him carefully at the side. Seeing that Han Shi's strength had increased greatly, she asked anxiously.

Han Shi pulled Qin Xi into his arms and sniffed the faint musk on her body, making Qin Xi's neck and shoulders itchy. She twisted her body and reprimanded, "Stop fooling around. I'm asking you a serious question! How do you feel? Don't you feel any reaction?"

"Yes, I'm burning with desire."

Han Shi picked her up and said with a devilish smile, "Xi, I'm about to be burned to death. You have to be responsible!"

Qin Xi was stunned for a moment before her face turned red. She punched Han Shi's chest shyly. "What nonsense are you talking about? Golden blood toad is a rare and magical treasure. Put me down quickly. I'm going to sleep."

"Yes, of course I'll let you sleep. However, there is still something to do before bed..."

Han Shi gently placed her on the bed and pressed her down. He looked at Qin Xi and licked his dry lips. He lowered his head and kissed Qin Xi on the lips.

It was a night without rest.

When Qin Xi woke up, there was no one beside her. The sunlight from outside shone through the window, illuminating the room with a golden glow.

Just as she was about to get up, she realized that her body was slightly sore. When she thought of the madness last night, Qin Xi's face burned.

She couldn't help but complain softly, "What an insatiable ghost. Hmph, if I had known earlier, I wouldn't have fused the Golden Blood Toad into his body. In the end, I still have to bear the consequences myself... I really reaped what you sowed."

After dressing up and washing up, Qin Xi went downstairs. At this moment, Dong Xiaoxuan was the only one studying fashion design in the living room.

Seeing Qin Xi come down, she immediately put down the things in her hand and went up to her. "Lady Boss, Boss made breakfast for you before he left. Do you want to eat it now?"

"He can cook?" Qin Xi was a little surprised.

Dong Xiaoxuan smiled. "Boss is very capable. He learned it very quickly. It tastes much better than what I made."

"Then serve it." They had been married for almost half a year. This was the first time Han Shi had cooked for her, so she naturally couldn't miss it.

Dong Xiaoxuan immediately brought out a bowl of porridge from the pot. There were two poached egg eggs, steamed buns, and pickled vegetables. It looked extremely appetizing and delicious.

Qin Xi smiled and felt sweet inside.

Chapter 504 Demon Suppression Pagoda

After breakfast, Qin Xi came to the house where Blood Stealer and the others were staying. She saw a group of shirtless men sweating profusely in the training field in the backyard.

Every punch they threw was fatal. It was completely different from the showy way he fought before. They had all begun the path of becoming a true master.

Qin Xi walked over casually and observed for about 15 minutes. She felt that their strength had already reached a bottleneck. If they continued to train like this, they would not progress.

At the thought of this, she clapped her hands, indicating for everyone to stop. "Let me say a few words."

Blood Stealer, Saber, Lone Wolf, Zhou Lei, Liao Ming, and the others stopped their training and quickly stood in a row, waiting for Qin Xi to continue.

"Your foundation is very stable now. If you want to improve further, you have to break through yourself. In other words, you've already reached a bottleneck. If you want to advance to the next level, you have to undergo strict training. However, I'll make it clear in advance. Actually, you're already very good now. As far as I can tell, your current ability is enough to challenge anyone. There's no need to continue."

"Lady Boss, we want to become stronger!"

"Yes, if Lady Boss has a way to make us stronger, can you tell us?"

Zhou Lei and the others did not want to give up such a good opportunity. It was only here that they understood how little they knew in the past. Although they still could not beat Blood Stealer, Saber, and Lone Wolf, their current strength was much better than before. Therefore, they had no reason to refuse the opportunity to increase their strength.

Looking at their burning gazes, Qin Xi smiled faintly.

"Very good. As expected of the elites taught by Elder Mu. Since you want to increase your strength, I'll give you an opportunity. However, this opportunity is very dangerous. It might even cause you to have a mental breakdown and feel endless despair. If you don't survive it, you might not be able to come out for the rest of your lives. If you survive it, you will be greatly rewarded. Do you want to give it a try?"

Zhou Lei and the others looked at each other before looking at Qin Xi and saying firmly, "Yes, we're willing to try. Even if we can't come out, we don't want to give up."

Qin Xi glanced at each of their faces and recalled how they looked when she first met them. They were wild and arrogant. Now, they were calm and humble. Looking at their changes, she found them much more pleasing to the eye.

A smile appeared on her face. "Very good. Since you want to become stronger, I'll fulfill your wish."

For some reason, looking at the faint smile on Qin Xi's face, Saber and Lone Wolf had a bad feeling. Although they did not know why, they felt that this matter was not that simple.

"Blood Stealer, Saber, Lone Wolf."

At this moment, Qin Xi called out the names. The three of them immediately stepped forward and said in unison, "Yes!"

"I'll leave them in your charge for the next few days. I'll give you some pills later. This can guarantee that they won't have to eat for three days."

When they heard that they did not have to eat for three days, everyone was stunned. They wondered where they were going to train and why they did not have to eat for three days.

Just as they were thinking hard, they heard Qin Xi say, "Are you ready? I'm going to start."

Start?

Start what?

Just as they were dumbfounded, Qin Xi threw the Demon Suppression Pagoda up. Zhou Lei and the others felt a suction force on their souls. While they were shocked, they actually floated into the air and were sucked into the first level of the Demon Suppression Pagoda.

Without the support of souls, the bodies collapsed on the ground.

Blood Stealer, Saber, and Lone Wolf were speechless. They suddenly felt that this world was so dangerous.

Chapter 505 Strange Experience

The pagoda spun in the air for a few times before landing steadily in Qin Xi's palm.

Qin Xi said to Zhou Lei and the others who were in the pagoda, "Train well inside and don't let this opportunity go to waste. Also, remember, if you die inside, the bodies outside will also die."

After Qin Xi put away the pagoda, Blood Stealer and the other two were stunned.

Blood Stealer wiped the cold sweat off his forehead and looked at the eight people on the ground. He mustered his courage and asked with a trembling voice.

"Lady Boss, what happened to them?"

Qin Xi raised her eyebrows and smiled harmlessly. She waved the Demon Suppression Pagoda in her hand. "Oh, I got a little thing yesterday that can suck people's souls, so I wanted to let them try. Why do you want to go in and play as well?"

"No, no, no, there's no need. I think I'm fine. I'm fine... Hehehe!"

As soon as he heard that this thing could suck souls away, Blood Stealer shook his head like a rattle-drum.

Qin Xi rolled her eyes and said, "Alright, the three of you, carry their bodies back and protect them well. Give them a pill every three days. When it's about time, I'll let them out. At that time, they won't be weaker than you."

Lone Wolf's eyes darkened and he suddenly said, "Lady Boss, can I go in?"

Saber said, "I want to go in too!"

Blood Stealer was so anxious that he quickly stopped them. "Hey, hey, hey, what are the two of you doing? It's not like you're going on a vacation. Why do you want to go in? You can train outside too, right? Why are you looking for trouble? Let me tell you, I'm not going..."

The two of them did not even look at Blood Stealer. They continued to stare at Qin Xi with seriousness and determination. "Lady Boss, as long as we can increase our strength, we want to go in to train too."

Qin Xi asked, "Are you sure you want to go in?"

Saber and Lone Wolf nodded heavily. "I'm sure!"

Then, Qin Xi waved her hand and sent the souls of the two of them in.

In the pagoda.

As soon as Zhou Lei and the others entered the first level of the pagoda, they encountered ghosts, who had been taken in by the Yin family. They had been here for decades or centuries.

The reason why Qin Xi let Zhou Lei and the others train inside was because Qin Xi had made a deal with the ghosts. As long as they stayed in there for three years and helped her train the people she sent in, she would exorcize them and let them reincarnate!

They had waited for a hundred or a thousand years, so they naturally did not care about three years.

Qin Xi sent Zhou Lei and the others to the first floor. This place was filled with weak souls, like those who had died not long after entering.

The souls that still had intact bodies like Feng Du's father were all released by Qin Xi. If nothing unexpected happened, they would probably have woken up at this point.

At this moment, countless ghosts floated in front of Zhou Lei and the others. They died in all kinds of ways. Some were hung, some fell to their deaths, and some were missing limbs.

Seeing this, their hair stood on end and their faces turned pale. If they were not careful, they would be scratched and injured by the floating ghosts. They were scared into the corner, hugging each other.

Fortunately, Saber and Lone Wolf also came in. Otherwise, they would have given up on resisting!

Chapter 506 Overseas Medical Association

Seeing Blood Stealer carry the bodies of ten people back to the house, Qin Xi reminded him.

“During this period of time, take good care of them. Don’t be lazy. If anything happens to them, you’ll be in deep trouble. When they come out, they might beat you up.”

The corners of Blood Stealer’s mouth twitched. He felt that his lady boss had deep malice towards him. He scratched the back of his head. He didn’t think he had ever offended her. Why was he targeted?

Of course, he would never know that the reason why Qin Xi targeted him like this was because he did not inform her when Han Shi was arrested...

After settling the matter in Breeze Villa, Qin Xi got into the taxi and slowly arrived at the sanatorium.

Qin Xi waved at the guard on duty and said with a smile, “Brother, can you inform Dean Ma that someone called Qin Xi is here and wants to see him?”

The guard on duty was a retired soldier. When he heard that Qin Xi was here to look for the dean and that she seemed to know him, he immediately felt a sense of respect. “Miss, wait a moment. I’ll call and ask.”

Those who could come to the sanatorium were not ordinary people. Although Qin Xi got out of the taxi, he did not look down on her. Qin Xi was very satisfied with him and wondered if she should take him with her.

When the call went through, Ma Shouhua was pleasantly surprised to know that Qin Xi was here. He left the professors and experts of an overseas medical association in his office and ran to the door to welcome Qin Xi personally. Of course, if he knew that Qin Xi was here to ask for people again, he probably wouldn’t be so enthusiastic.

Seeing him rush over, Qin Xi raised her eyebrows. “Dean Ma, did something happen?”

Before the smile on Ma Shouhua’s face could fade, he was stunned by Qin Xi’s sharp words. He smiled awkwardly and touched his old face. He asked in embarrassment, “Young divine doctor, is it that obvious?”

Qin Xi nodded. “Otherwise, you wouldn’t have come to pick me up personally.”

Ma Shouhua was speechless. “...You can even tell that. Young divine doctor, you are simply omnipotent.”

“Tell me what it is and see if I can help.”

Qin Xi was the first to speak. After all, she had an even more outrageous request to make later. If she helped now, he would owe her a favor.

“It’s like this. A group of people came from overseas. They’re top medical experts from the World Medical Association. They heard that our Chinese medicine is very magical, so they came over to learn.”

Although they said they were here to learn, they were just here to suppress Chinese medicine.

Therefore, the sanatorium that had top Chinese doctors became their primary goal. Just as Ma Shouhua was troubled, Qin Xi sent herself over to the sanatorium.

“Oh, that’s it?” Qin Xi raised her eyelids and did not think it was a difficult matter. “Don’t we have a lot of professors in the sanatorium?”

Ma Shouhua’s face darkened, “That’s the thing. The people they sent are all from the younger generation. They said that they wanted to give the young people some chance to improve. As you know, it takes more than ten years to cultivate a talent in Chinese medicine. That’s why I’m so anxious.”

Qin Xi chuckled and said mischievously, “That’s not difficult. Let’s go, Dean Ma. I’ll help you deal with them.”

Chapter 507 A Country with Five Thousand Years of History

In the dean’s office.

Previously, when Ma Shouhua received the call and ran out, the young people of the overseas medical association sneered.

“It seems like Dean Ma doesn’t dare to compete with us anymore. I heard that Chinese doctors are all nurtured from a young age. Those who are not even 40 or 50 years old are not considered knowledgeable at all. No wonder Western medicine occupies the entire Asian medical world. According to the speed at which doctors are nurtured, it’s only a matter of time before they are replaced by us.”

“According to my grandfather’s grandfather, he once came to China. At that time, Chinese medicine was very powerful. With just a few needles, patients could be cured. There was also a treatment method called cupping. It was really effective. When my father’s leg was injured, an old Chinese doctor performed cupping on him and helped him walk. It was really useful.”

Some people mocked, but there were also people who were filled with anticipation and admiration for Chinese medicine.

“Mars, what do you think of Chinese medicine?”

The person who asked the question was a handsome young man with blond hair and blue eyes. His name was Pulang, and he was considered one of the best in the Medical Association. This time, he had spent a lot of effort to obtain this spot. However, no matter how hard he tried, he could not surpass Mars.

Mars was born into a medical family. Not only was he the son of the president of the World Medical Association, but his medical ability was also very dazzling. At the age of 21, he had already performed several high-risk surgeries. Even those internationally famous old professors were full of praise for him. He was a true capable person and the best candidate to be the next president of the Medical Association.

Therefore, Pulang was very jealous of Mars and wanted to cause trouble for him from time to time.

Mars had a handsome face. His blue eyes were like spring water, and under his high nose bridge were thin lips. There was a smile on his face that was gentle and gentlemanly, making people feel very comfortable looking at him.

“China is a big country with a large population and a history of 5,000 years. Although I don’t know much about Chinese medicine, I believe that their medical skills are definitely not inferior to any other country. Also, don’t underestimate the heritage of any country. They have something magical that you can’t imagine.”

His voice was very low and sexy, but it made everyone present feel ashamed.

When Pulang saw this, he immediately said angrily, “Mars, I don’t agree with you. Although China is a big country, they are rigid and pedantic. They don’t have an advanced culture.”

As soon as he said that, many people nodded in agreement.

Mars sneered. “Culture is the tradition and symbol of a country. It’s the historical meaning of the existence of a country. Not only China, but every country has its own traditional culture. Isn’t Christmas Eve a traditional culture now?”

“What you know is superficial. Don’t judge when you don’t know anything. China is a big and mysterious country. Pulang, please use your brain before you speak. Don’t affect the image and reputation of the entire association. Remember, we’re here to communicate on friendly terms, not to bully others.”

His tone was very calm, without the slightest hint of anger, as if he was narrating something very simple. However, his sharp words frightened the people at the scene. They even felt their faces burning with embarrassment.

“Well said!” A clear voice suddenly sounded. Everyone looked at the door.

Chapter 508 Showing Off to the Experts

“Well said!”

The person who came was Qin Xi. Behind her was Ma Shouhua, who had run out just now.

“Who are you?”

After being talked back, Pulang was very angry. Now that someone came in his way again, of course he would not tolerate it.

Unfortunately, Qin Xi did not even look at him. Instead, she looked at Mars and introduced herself with a smile. “Hello, I’m Qin Xi. I’m here on behalf of Chinese doctors to discuss Chinese medicine with you.”

Mars sized up Qin Xi in surprise. Although he was a little suspicious, he still shook her hand politely and asked skeptically, “I’m Mars, the representative of the World Association. It’s a pleasure to meet you. Qin Xi, are you really a Chinese doctor?”

“Of course. Don’t I look like one?” Qin Xi asked with a smile.

Mars had a good impression of Qin Xi. Not only was she cute, but she also had a good attitude. “Indeed, you don’t look like one. I feel like you’re still a little girl. Qin, can I ask you a personal question?”

Qin Xi blinked. "Mars, are you going to ask me about my age?"

Mars was very surprised. "Oh, Qin, how did you know?"

Qin Xi touched her smooth face and said narcissistically, "Because when people see me, they treat me like a child. I'm already used to it."

Mars said awkwardly, "You're indeed very young. If you didn't introduce yourself just now, I would have thought you were Dean Ma's granddaughter! I'm really sorry."

Ma Shouhua was speechless. What did it have to do with him?

"Dean Ma, what do you mean? We're from the World Association. Not every quack can come over and be on equal footing with us. I hope you can take this meeting seriously."

Seeing that Qin Xi was ignoring him and talking to Mars, Pulang immediately vented his anger on Ma Shouhua. "We're foreigners. If you ignore us like this, I'll file a complaint against you with the embassy."

Ma Shouhua's face immediately darkened. Just as he was about to say something, he heard Qin Xi shake her head at him. She turned to look at Mars and said with a smile, "Mars, since you're here to discuss Chinese medicine, I'll show you in person. I wonder if you've heard of the Acupoint Pressure Technique?"

As Qin Xi spoke, she arrived in front of Pulang in the blink of an eye. With a tap of her finger, Pulang, who was still furious, froze. His eyes were filled with fear and shock. He realized that he could not move at all. No matter how hard he tried, his body was like a statue, unable to budge.

He wanted to open his mouth to shout, but he realized that he couldn't even speak. Apart from breathing, he could only blink.

Seeing this, Mars and the others from the Medical Association looked at each other in confusion. They did not understand what Qin Xi had just done, but Ma Shouhua's next words shocked them.

He widened his eyes in shock and circled around Pu Lilang excitedly. "Oh my god, Divine Doctor Qin, you actually know how to acupoint pressure? Is this really the legendary acupoint pressure technique? Can he really not move?"

"What? Pulang can't move? How is that possible?"

Mars and the others followed suit. They sized up Pulang and realized that he was really motionless. They tickled Pulang, but he only blinked desperately, as if he was asking for help.

Chapter 509 Are You a Demon?

"Qin, Pulang really can't move. What's going on? What's that 'Acupoint Pressure Technique' you mentioned? It's so powerful."

Mars looked at Qin Xi in disbelief. He was so shocked by the acupoint pressure technique that his jaws almost dropped to the ground.

"Mars, calm down. This is not difficult. I just used a little Qi, which is also known as internal force, to seal his acupoints. It's like locking a bicycle and making it unable to move," Qin Xi explained with a smile.

“Oh, Qin, how did you learn it? It’s really magical. Also, what is the internal force you mentioned? Can I learn it?” Mars asked with a pleading expression.

“I’m sorry, Mars, but you’re not suitable to learn this technique.”

Qin Xi shook her head. Seeing that Mars was a little disappointed, she explained, “Internal force needs to be cultivated from a young age. You’re already past the best age, so there’s no way to change your meridians. I’m sorry.”

“No, Qin, it’s fine.”

Mars seemed to know that his request was a little too much. He immediately changed the topic and asked, “Qin, can you unlock Pulang? He looks like he’s in a lot of pain.”

Qin Xi nodded. “Of course.”

As she spoke, under everyone’s gaze, she gently tapped on Pulang’s chest, and Pulang was instantly able to move.

He looked at Qin Xi viciously, hating this woman who had embarrassed him. “How dare you attack me? You pig, I...”

Before he could finish, Qin Xi tapped his neck again. In an instant, Pulang was mute. His mouth opened and closed, but he couldn’t make a sound. He was about to explode with anger.

He looked at Qin Xi as if he wanted to kill her. The fear and embarrassment made him lose his rationality. He clenched his fists with veins popped out and swung them at Qin Xi.

Everyone exclaimed in disbelief. No one expected Pulang to dare to attack directly. The moment they saw him punch, their hearts were in their throats.

Mars was shocked. “Pulang, how dare you!”

Unfortunately, before he could stop him, Pulang’s fist was already in front of Qin Xi. Just as everyone thought that his fist would smash into Qin Xi’s face, Qin Xi suddenly moved.

She casually turned her body to the side and dodged the punch. With a light tap, she crippled Pulang’s fist. He felt that below his arm, he was paralyzed.

This feeling made him terrified. He felt as if he had lost his arm.

After all, he was a medical student. His hands were more important than his life. If they were crippled, he would never be able to touch a scalpel for the rest of his life. This was no different from killing him.

“You, what did you do to me? Why can’t I move my hand? You’re a demon. Mars, catch her. She’s a demon. God will punish her.”

Feeling threatened, Pulang shouted in fear and looked at Qin Xi with a murderous gaze.

“What, Qin, what’s going on?”

Mars was also a little anxious. He was the one who brought these people over. If anything went wrong, even if his father was the president of the association, he would still be held responsible.

Qin Xi smiled. "Mars, calm down. This is just a small trick of Chinese medicine. It's not as serious as you think."

Chapter 510 Matchmaking?

In order not to scare these overseas friends, Qin Xi explained the acupoint pressure technique briefly. When her overseas friends heard this, they were stunned and became more and more interested in Chinese medicine.

Seeing that time was passing, Qin Xi said helplessly, "Everyone, didn't you say that you were here to discuss? Why does it look like I'm the one talking all the time? Shouldn't you tell me about the western medicine too?"

Everyone looked at each other, not knowing what to say.

Chinese medicine and Western medicine were not on the same page. Although they did not understand what Qin Xi meant by Chinese medicine, they were curious, especially about acupuncture techniques, Chinese herbs, and the theory of internal force and acupoints.

"Qin, I heard that martial arts is the most mysterious thing in China. I want to see it for myself. Since you're so powerful, the people you know must be powerful too. Can you introduce me to a martial arts master? Please." At this moment, the only blonde-haired beauty in the team who did not talk much suddenly asked a question that had nothing to do with the topic.

Her name was Ruth. She was a woman who yearned for Chinese martial arts. She had once thought about marrying a man who knew Chinese martial arts.

"Hahaha, Ruth, don't tell me you really want to marry a Chinese martial arts master. We're here to discuss medicine, not to select a husband for you."

Someone teased Ruth.

"Why can't I find a husband here?" Ruth said, not embarrassed at all.

Qin Xi was immediately interested. "Ruth, you want to marry a martial arts master? I know a lot of them here. If you want, I can introduce you to them in no time. Moreover, all of them are top masters."

"Really? That's great."

Ruth stood up excitedly and walked to Qin Xi's side, pushing Mars, who was still trying to get close to Qin Xi, away. She sat beside Qin Xi and told her what kind of a man she liked.

"Qin, you're really the best. I like those who are tall, have a good figure, and have explosive power. Of course, more importantly, he has to be handsome. I wonder if you know anyone like that."

"Of course. How about this? I'll get those people to come over." Qin Xi looked at the time. At this time, they were probably already on the way to transport the fruits and vegetables. Then, she picked up the landline in Ma Shouhua's office and called Xia Tangxin. "Tangxin, ask the transport team who are coming to deliver the goods to stay later."

“Alright. By the way, Xi, when are you coming to the shop? We haven’t seen each other in a long time.” Xia Tangxin asked in boredom.

Qin Xi thought for a moment and said, “I’ll go over later with a few overseas friends...”

“Really? That’s great. I’ll wait for you in the shop.”

“Okay.”

After hanging up the phone, Ma Shouhua wanted to say something but hesitated. He whispered, “Young divine doctor, is this a good time?”

“What do you mean?” Qin Xi asked.

Ma Shouhua was speechless. “Is it good to find someone from the transport team for her?”

Qin Xi immediately understood what he meant. She said with a smile, “Don’t worry, Dean Ma. The people in my transport team are not ordinary people.”

She did not explain much. Instead, she looked at Mars and the others and asked, “Mars, you haven’t had the time to walk around, right? Do you want me to show you around?”

Mars and the others indeed hadn’t had the time to check out this place. They immediately agreed.

“Alright, Qin, when are we going?”

“Now!”
