

Mysterious 541

Chapter 541 Skull

Han Shi was silent.

He knew that his strength was inferior to Qin Xi's. He couldn't help at all. He felt a deep sense of loss and defeat. However, at the same time, Qin Xi was right. If he really wanted to help Xi, he could only try his best not to hinder her.

Han Shi took a deep breath and restrained his bad mood. He pulled her into his arms. "Xi, promise me that if you're no match for him, you'll retreat immediately. I don't want anything to happen to you."

Qin Xi leaned against Han Shi's firm chest and sniffed his familiar scent. The corners of her mouth curled up slightly. "Yes, I know. I cherish my life very much!"

Han Shi looked at the cave entrance. For some reason, his right eyelid kept twitching. He had a bad feeling. He tightened his grip on the woman in his arms and lowered his head to plant a kiss on her forehead.

"I believe you. Let's go in!"

Qin Xi nodded. The two of them entered the cave hand in hand. It was not as dark as they had imagined. From time to time, a light source would shine in. The light was very gentle, allowing them to clearly observe the environment in the cave.

There was a strange silence here. Apart from the two of them, there were no other signs of life.

However, Qin Xi knew that the Patriarch in seclusion was inside.

Indeed, not long after, a stone door appeared in front of them. The stone door was closed.

There was a skull carved on the stone door, the eyes of which were burning with flames.

Qin Xi suddenly became vigilant. She squeezed Han Shi's palm and said, "Be careful. This is not a decoration. It's his guardian corpse."

Han Shi's expression immediately became solemn. Today, he had seen more than ten corpse children, all of whom were killed by the dark fire.

At that time, he only felt that the corpse children were strange, but he did not feel much pressure or threat. However, the one in front of him made him feel threatened, as if its burning eyes could devour everything. It was even more terrifying than the previous ten combined.

"Who are you?"

At this moment, the skull on the stone door suddenly spoke. Its voice was filled with sinisterness, making Qin Xi and Han Shi shudder at the same time.

Qin Xi pretended to be frightened. She glanced at Han Shi, indicating for him not to act rashly. Then, she hurriedly cupped her fists and bowed respectfully to the skull. She lowered her head slightly, as if she did not dare to look him in the eye.

Her voice was slightly hoarse as she said with a choked voice, "I'm Muxue, Yin Yongtai is my grandfather. Please inform my great-grandfather that the Yin family has been destroyed!"

The skull on the stone door clearly did not expect to receive such shocking news. In an instant, black fog surrounded the skull, and a corpse child appeared.

The corpse child in front of her looked very different from the other corpse child, its entire face was covered in dense wrinkles.

In particular, it was emitting a strong aura of death. The dense aura of death emitted a smell of corrosion. In fact, wherever the black fog touched, even the stone wall would be corroded.

Chapter 542 White Bones

"What did you say? The Yin family was annihilated?"

The corpse child's voice was deafening, echoing back and forth in the cave like thunder.

"Yes, the enemy is very despicable. They put poison in the well. If not for the fact that we were away, we would probably be dead by now."

"However, Grandpa was lucky enough to survive. He is injured and can't come to see Great-grandfather. Please help me pass the message."

Qin Xi spoke with extreme sincerity, and tears welled up in her eyes. In order to make the corpse child believe that she was telling the truth, she took out a few jade tokens from her pocket.

The corpse child was called White Bones. It was actually the twin brother of the person inside the stone room. However, it died not long after it was born. In order to keep him, the Yin family had no choice but to make him into a corpse child to accompany its twin brother.

Because they were twins, they were telepathically connected.

Initially, White Bones did not believe this little girl who suddenly appeared. After all, they had been in seclusion in the forbidden area for more than twenty years and knew nothing about the outside world. Who knew if she was really a descendant of the Yin family?

However, when White Bones saw the broken jade tokens in Qin Xi's hand, he did not care about Qin Xi's true identity at all. The ghost flames in his eyes suddenly shot out with terrifying intensity.

A wisp of black fog swept up the jade tokens in Qin Xi's hand. Although the black fog did not touch Qin Xi's palm, it still corroded her skin.

Han Shi's expression changed drastically. Just as he was about to take a step forward, Qin Xi pretended to be in pain and gasped. She fell into Han Shi's arms and pinched him gently, indicating for him not to act rashly.

White Bones glanced at Qin Xi disdainfully. He had always treated ordinary people as ants that did not deserve his attention. Just as his gaze landed on the broken jade token, a chain the size of a ring suddenly lit up with a strange black flame.

Qin Xi knew White Bones' strength very well, so she could only hide the Chain of Darkness at the bottom of the jade token.

Actually, she was taking a gamble.

If White Bones was not interested in the jade token, she could only think of another way. However, if White Bones was interested in the jade token, she could use the power of the Chain of Darkness to pull him into her trap.

As expected, she made the right bet.

The black flames on the chain quickly and suddenly ignited. White Bones was caught off guard and was wrapped tightly in the dark chain. Even his ability to transform into black fog was restricted.

Qin Xi reacted extremely quickly. She activated the Chain of Darkness to wrap around White Bones bit by bit. Along the Chain of Darkness, the dark flames quickly spread.

This way, she could accelerate the refinement speed as much as possible.

The dark fire kept devouring the black aura of White Bones. The black aura was refined into wisps of pure spiritual energy that floated into Qin Xi's body.

When White Bones saw this, he roared angrily and tried to break free from the chain. He struggled crazily, but the chains of darkness tightened around him even more.

Han Shi's pupils constricted. Afraid that the commotion here would alert the person inside, he immediately walked to the stone door and was prepared to strike.

Chapter 543 Yin Batian

In the stone room, the old man sitting cross-legged suddenly opened his eyes. His aura soared, and a monstrous pressure surged out.

The old man was the Patriarch of the Yin family, Yin Batian.

Sensing that something had happened to White Bones, he forcefully pulled himself out of the cultivating state. His face was livid and filled with killing intent.

White Bones was not only his family, but also an inseparable part of him. He did not dare to delay and immediately opened the stone door.

Yin Batian narrowed his eyes, and the bad feeling in his heart intensified. He felt like he was about to lose something important.

His face darkened, and his eyes flickered with a cold light. An extremely powerful aura violently attacked the stone door, causing it to shake.

Yin Batian clenched his fists tightly, and a terrifying aura surged out of his body, causing the entire stone room to tremble.

Outside the door, Qin Xi was devouring White Bones anxiously. In order not to let White Bones make a sound, the dark chain wrapped around White Bones tightly like a cocoon. The black fire burned brighter and brighter, and more and more spiritual energy floated out.

Seeing this, Han Shi wiped the blood from the corner of his mouth. He gritted his teeth and stood in front of the stone door, trying to buy more time for Qin Xi.

With a loud bang, Han Shi was almost sent flying. Fortunately, he stabilized himself in time and did not get injured.

It had to be noted that Han Shi had already reached the late-stage Earth-rank and his strength was impressive. Even so, it was still very difficult for him to withstand Yin Batian's heavy blow.

When Qin Xi saw that Han Shi couldn't buy more time for her, she accelerated the circulation of the Mystic True Qi in her body.

Just as Han Shi was about to collapse, Qin Xi finally burned White Bones to ashes. The cocoon formed by the dark chain diminished in size.

Although there was not much Mystic True Qi left in her body, after absorbing all the spiritual energy from White Bones, her realm showed signs of advancing.

Qin Xi heaved a long sigh of relief. With a thought, she restored the Chain of Darkness to the size of a ring. Then, she lay on the ground and picked up a broken jade token. She gave Han Shi a look. The latter understood and lay beside her.

Now, the couple looked as miserable as they could be. Qin Xi was in a better state. Apart from her pale face, she looked weak and pitiful.

Han Shi was in a sorry state.

Not only was he injured internally, but blood was also flowing from the corner of his mouth. His face was so pale that he looked like he was about to die at any moment. His body was also convulsing slightly, as if he was in pain.

At this moment, the stone door was kicked open by Yin Batian with a loud bang. The gravel scattered to the sides like a storm and smashed into Han Shi and Qin Xi.

"White Bones, where are you?"

Yin Batian rushed out crazily, his eyes red as he searched for White Bones. His voice was filled with endless anger and killing intent.

He couldn't contact White Bones anymore. At that moment, he seemed to have lost the entire world!

An endless sense of desolation and loneliness overwhelmed him.

Chapter 544 Calm and Collected

“Ahem, ahem, ahem, ahem, Great-grandfather I’m Muxue. Yin Yongtai is is my grandfather”

At this moment, Qin Xi opened her eyes weakly and looked at Yin Batian. She said weakly, “The Yin family is gone. This this”

She raised her hand with difficulty. In her hand were the jade tokens. Qin Xi’s eyes were filled with tears as she said in a choked voice, “Great-grandfather Grandpa, they”

Even someone as powerful as Yin Batian could not help but cry. His eyes were red as he let out terrifying roars.

“Ahhh, who is it? Who did this to my family?”

“No, White Bones, where is he?”

He shouted crazily, his voice echoing throughout the entire mountain.

His eyes were red like a trapped beast as he searched for White Bones crazily, but he could not find any trace of him.

Yin Batian had already completely lost his mind. His eyes were red and his body emitted a strong killing intent as he looked at Qin Xi.

“Tell me, where is White Bones?”

Although the Yin family was very important to him, White Bones was the only one who was closely related to him. As for the Yin family, as long as he did not die, the Yin family could still make a comeback.

Therefore, to him, the most important person was White Bones.

Yin Batian looked at Qin Xi fiendishly as he grabbed her neck.

At this moment, Qin Xi’s face was filled with fear. Her throat was tightly grabbed by Yin Batian, and it was getting harder and harder to breathe. However, her eyes flickered with a strange light.

Seeing Qin Xi being treated like this, Han Shi was about to fight to death, but Qin Xi stopped him with a hand gesture.

He clenched his fists tightly, his heart filled with hatred and sadness. However, he knew that even if he fought to death, he might not be able to hurt Yin Batian at all. Instead, he would put Qin Xi in an even more dangerous situation.

He was filled with grief and indignation, but there was nothing he could do. Moreover, he was weak at this moment.

At this moment, Han Shi was blaming himself for not being strong enough. If he was stronger, Qin Xi wouldn’t have to suffer like this

Qin Xi’s neck was held tightly by Yin Batian, and her face gradually turned pale. Her feet left the ground and she floated in the air. She slapped Yin Batian’s arm with both hands, trying to break free.

“Tell me where is White Bones!”

Yin Batian was furious and roared at Qin Xi. His eyes were red, like a volcano that could explode at any moment. At this moment, his emotions had already reached their limit. When he thought of how his connection with White Bones had disappeared, he wished he could destroy the world.

Seeing that the time was right, Qin Xi flipped her hand and with a thought, the Chain of Darkness burned with dark fire. She instantly took it out and wrapped it around Yin Batian's neck like a black fire dragon.

It was getting tighter and tighter.

"Ah"

Yin Batian was caught off guard and was immediately burned by the dark fire. He let go of Qin Xi and reached out to pull away the dark chain around his neck.

However, when he touched the dark fire, he felt a piercing pain spreading from his neck to his entire body. It was so painful that he couldn't help but scream.

When he looked at his hand, it was already burned to the point that not even the bones were left. He gasped and quickly released the aura in his body to shake off the dark chain.

Before Qin Xi could take a deep breath, she immediately formed hand seals with both hands. The dark chain wrapped around Yin Batian like a rope, turning him into a mummy.

Chapter 545 Soul Possession

Seeing that his life was in danger, Yin Batian opened his mouth and spat out balls of black smoke.

His voice was like that of a ghost as he cursed resentfully, "I'm going to kill you. I'm going to skin you alive and pull out your tendons. I'm going to turn you into a puppet and make you die a horrible death."

The black smoke was extremely corrosive as it charged straight at Qin Xi. At this moment, Qin Xi was unable to do anything. She formed hand seals with both hands and circulated the Mystic True Qi in her body crazily. Facing the attack of the black smoke, she could not do anything.

Seeing that the black smoke was about to enter her mind, Qin Xi panicked. This was

Soul Possession!

This was a forbidden technique of the Yin family. The reason why it was a forbidden technique was because it was immoral. The consequences of using a forbidden technique were very serious. After death, one's soul would be destroyed.

Qin Xi was suddenly nervous, and an unprecedented sense of panic flashed across her eyes. She couldn't help but blame herself.

She was too conceited and willful. She did not understand the situation and thought that she could use some tricks to deal with the old monster who had lived for more than a hundred years. However, she put herself and Han Shi in danger.

At this moment, all kinds of memories from her previous life kept appearing in her mind. She realized that those memories were gradually blurry and were replaced by happy memories with Han Shi.

At the thought of Han Shi, Qin Xi's heart tightened, as if it was being held tightly by someone. A strong suffocating feeling made her unable to breathe.

Her face gradually turned pale, and sweat broke out on her forehead.

Qin Xi knew that she was doomed.

At this critical moment, Han Shi suddenly pounced over and used his body to block the black aura that was heading straight to Qin Xi.

Qin Xi's heart suddenly felt like it was being pricked by thousands of needles. The intense pain made her vision darken and her body tremble uncontrollably.

Her eyes widened in disbelief as she watched the black aura enter Han Shi's body. Tears unknowingly flowed down her face

Han Shi groaned and looked pained for a moment. Then, he turned around and stared at Qin Xi tenderly. There was a faint smile on his face as his body fell to the ground.

A heart-wrenching shout echoed in the cave.

"No"

Before Han Shi fell, Qin Xi quickly rushed to him and hugged him to stop his body from hitting the ground.

"No, Stone, you'll be fine. Listen to me, don't be bewitched by him. Don't be suppressed by him. Do you hear me? Refine him. You can definitely refine him"

Seeing Han Shi on his last breath, Qin Xi couldn't help but cry. Although she knew that Han Shi was no match for Yin Batian, she couldn't give up.

Similarly, she did not allow Han Shi to give up.

He quickly took Han Shi's pulse and felt that the True Qi in Han Shi's body was in chaos. Not only did he suffer serious internal injuries, but he was also on the verge of Qi Deviation.

Qin Xi quickly injected True Qi into Han Shi's body to stabilize him.

However, the black smoke left behind by Yin Batian dispersed the true Qi, causing it to spread out.

Chapter 546 Let My Child Acknowledge You as His Godfather

Qin Xi could only continue to inject her true Qi to suppress the black smoke again and again, but it was to no avail.

She was so anxious that her forehead was covered in sweat, and her face was pale. Tears streamed down her face like pearls. "Stone, don't give up. You can do it. Do you hear me? You're not allowed to give up"

Qin Xi shook her head desperately, her eyes filled with sadness. "No, no. Stone, I won't allow you to die. Do you hear me? If you die, I'll remarry"

The Mystic True Qi in her body quickly flowed out. Fortunately, the dark fire was still burning Yin Batian's body. Wisps of spiritual energy entered Qin Xi's body, preventing her from exhaustion.

Han Shi gritted his teeth and endured the splitting headache. He said weakly, "Don't, don't waste your energy. Kill me. Use. Dark Fire"

Now that Yin Batian's soul had entered his consciousness, he could clearly sense what danger he was facing. Not only would he die, but he might also be replaced by Yin Batian.

Therefore, at this moment, the last thing he should do was to be soft-hearted.

Of course, he couldn't bear to part with Qin Xi, but now, he only had one choice. He stared at Qin Xi, as if he wanted to engrave her into his memory. "Xi, you're still young. No, don't ruin your life Besides, we, we haven't registered our marriage yet. You're still considered single"

His voice was trembling. It was unknown if it was because of pain or something else, but his tone was filled with regret.

Register their marriage?

Qin Xi was stunned.

She had indeed forgotten about registering their marriage. Back then, the reason why she did not register their marriage was because she was afraid that Han Shi would not be willing to be with her after he became a normal person.

After that, they finally got together and she forgot about it.

Qin Xi checked his pulse again. A moment later, she was overjoyed and looked a little excited.

However, Han Shi did not notice it. Although he did not feel the tearing pain in his body any more, he was still dizzy.

Thinking that he was about to die, Han Shi said, "Xi, I really want to have a child with you. No, not one. It's best if we have two, one like you and the other like me."

Qin Xi smiled as she wiped the tears from the corners of her eyes. "As long as you can survive this crisis, we'll go and register our marriage, okay? Also, don't push me away. Do you really want to see me get married and have children with another man? If you are really ok with it, I'll take the child I had with another man to your grave to visit you. At the same time, I'll let the child acknowledge you as his godfather. Stone, if you are still willing to die, I won't stop you"

Chapter 547 Going Back to Register Marriage

Han Shi couldn't remain indifferent anymore. He wanted to sit up, but he really didn't have much strength left. His head was dizzy and he couldn't get up no matter what. He was so anxious that his face turned pale and he looked at Qin Xi pitifully.

"Wifey, don't you think you're being too cruel? I'm already about to die. How can you bear to say these hurtful words to me? You actually want your child to acknowledge me as his godfather. Do you want me to come back and haunt you after my death?"

Qin Xi could feel that Han Shi seemed to have recovered a little after such a stimulation.

He seemed to have been motivated to hold on to his life.

It was just that he did not notice it!

In that case, Qin Xi thought that she might as well stimulate him even more.

“Didn’t you ask me to find someone else? I think there’s no reason for me not to listen to your last words.”

“By the way, what do you think of Gu Qing? He’s the dean of Qingyun Hospital. Not only is he young and promising, but he’s also knowledgeable and comes from a good family. He’s also a gentleman. Most importantly, he’s good-looking and likes me. Stone, before you die, can you give me some opinions about this man?”

Han Shi was speechless.

Even if he wasn’t killed by Yin Batian, he would be angered to death by Qin Xi.

He choked and looked at her with wide eyes. His originally weak voice became fierce. “You can’t. I won’t allow you to be with him!”

Qin Xi pretended not to notice his sad tone and asked in confusion, “Why? I think he’s quite good. He’s also a medical student. Don’t you think we are compatible?”

Miraculously, Han Shi got the strength to sit up. Although he still swayed a few times, he looked much better than before.

“Then, how is that man as good-looking as me? One look and I can tell that he’s a weak man. This kind of man is usually not suitable for marriage. Besides, he, he’s not worthy of you. Xi, you, you can’t like him. I won’t allow”

Seeing that the stimulation was effective, Qin Xi continued.

“Other than Gu Qing, I also met two men in Yangshan City. They’re brothers. One of them is reserved, and the other is arrogant. They’re about the same age as me and are quite capable. Their looks are not inferior to Gu Qing’s. I heard that Gu Qing was classmates with the two of them.”

She was naturally talking about Xu Linyuan and Xu Linfeng.

Han Shi felt like he had suffered three consecutive blows. Previously, he was already jealous of Gu Qing. Now, there were two more. He felt that his breathing became a little irregular.

The fact that his wife was so popular made him feel insecure.

His face turned paler and paler. At this moment, he ignored the fact that the pain in his body had reduced a lot. He wondered if Qin Xi would forget about him after knowing so many outstanding men

The more he thought about it, the more aggrieved he felt. Just as he was about to cry, Qin Xi pressed her lips against his.

A minute later, the kiss ended.

Seeing his dazed eyes, Qin Xi said without changing her expression, "If you don't want me to be with someone else, get better quickly. We still have to go back and register our marriage!"

Chapter 548 Taking Over the Yin Family's Businesses

"Register marriage? Xi, do you really mean it?"

Han Shi was so shocked that his lips trembled slightly. His voice was slightly raised, and he was no longer as weak as before. He stared at Qin Xi with his dark eyes, as if he was trying to tell if she was telling the truth.

Qin Xi smiled. "Alright, don't you realize that you are in a better situation than before?"

Han Shi was stunned for a moment before he realized it. He shook his head and did not feel the tearing pain. Apart from feeling a little dizzy, he really did not seem to feel much pain. "What's going on? I clearly feel that something wants to tear me apart"

"You are right about that. However, Yin Batian didn't know that you have the Golden Blood Toad in your body. The Golden Blood Toad has the effect of strengthening the soul. Therefore, when there's an invasion, the Golden Blood Toad will automatically 'cleanse' the foul aura in your body."

"I see"

"Stone, you've benefited from a disaster this time. Feel what realm you've reached now."

Han Shi circulated the true Qi in his body. Waves of majestic true Qi surged out, circulating in his meridians before gathering in his dantian.

He gasped, his heart beating violently, and his face was filled with excitement and ecstasy. "Wifey, I, I actually advanced an entire realm to the late-stage Heaven-rank."

"That's right. Your cultivation level is one level higher than mine now. It seems like I have to rely on you to protect me in the future!"

Qin Xi smiled happily.

She knew that her man was definitely the chosen one!

"Sit cross-legged now and speed up the refinement of Yin Batian's soul to consolidate your cultivation."

As Qin Xi spoke, she sat beside him and formed hand seals with both hands. She began to activate the dark fire to burn brighter.

Qin Xi couldn't help but say, "I didn't expect this old man to be so valuable!"

Yes, she had also advanced. Not only did she advance in cultivation, but the Dark Fire also advanced. This time, the Dark Fire was at the third level

This trip could be said to be a blessing in disguise. Although they almost died here, they also obtained a lot. Not only did their cultivation increase, but they also obtained the Yin family's businesses.

In Yin Yongtai's memory, the Yin family had businesses all over the country. After all, it was a family that had existed for thousands of years. Even though it had declined, it was still a big piece of cake.

Qin Xi smiled until her eyes curved into crescents, revealing her canine teeth. "Stone, you're going to be busy this time"

**

In the Yin family's stronghold.

Qin Xi looked at the thick stack of documents on the table. She and Han Shi chose the businesses there that were legal to be transferred to their names.

There were also some illegal businesses that could be sold. In total, it was more than a few billion yuan.

The Yin family was indeed powerful. No wonder they had been standing strong for thousands of years.

After Qin Xi finished going through the documents, she couldn't help but sigh. "This is an astronomical figure. It seems that we made the right decision to come here. At this rate, we can quickly become rich."

Han Shi said with lingering fears, "We're lucky this time, but not necessarily next time."

Chapter 549 Giant Space

"Yes, that's true. By the way, this is not all the wealth the Yin family has. Come with me..."

Qin Xi remembered that the Yin family still had a treasure vault. Only the family head and heir of each generation were qualified to enter this treasure vault.

The two of them arrived at the Yin family's ancestral hall, where the memorial tablet and life token were placed. Not only was there a protective array formation here, but there was also a fatal trap. It was the most important place in the entire Yin family.

Actually, the real purpose of guarding the ancestral hall was to protect the treasures inside.

The two of them arrived at the ancestral hall. After adjusting the memorial tablet, the mechanism was activated. With a crack, the ground began to move, and a secret passage immediately appeared on the ground.

This was the Yin family's secret treasure vault.

The two of them did not think too much about it and entered with flashlights. It was very dark and the space was very narrow. There was no place to hide at all, so they did not have to worry about being ambushed.

After taking more than 30 steps, everything suddenly became clear. What greeted their eyes were night pearls that were glowing. The soft light emitted by the night pearls lit up the entire space and also illuminated Qin Xi and Han Shi's faces.

Then, their gazes landed on the three unique boxes. Qin Xi walked to one of the long red sandalwood boxes and looked at Han Shi with a smile. She waved her hand. "Stone, come here. Open the box."

Han Shi raised his eyebrows and walked over to lay his chin on Qin Xi's shoulder. When he spoke, his warm breath landed on her earlobe and neck, causing her skin to immediately turn pink.

"What surprise did you prepare for me?"

Qin Xi nudged him and said angrily, "Cut it out. Open it and you'll know."

Han Shi reluctantly looked away from her pink skin. He glanced at the square box in front of him and opened it casually.

Inside was a black ring made of a meteorite. There were some patterns on the surface of the ring, making it look very mysterious.

He frowned and looked at Qin Xi suspiciously. He rejected decisively, "A ring? It's so ugly. I don't want it!"

The corners of Qin Xi's mouth twitched. "If the Yin family finds out that you despise their supreme treasure, they'll probably kill you."

"This?"

"Treasure?"

"You'll know how extraordinary it is when you put it on."

Qin Xi rolled her eyes and put the ring on his hand. She smiled at him mysteriously. "Now, sense it."

"This..." He swallowed his saliva and suppressed his excitement.

Qin Xi smiled brightly. "Yes, the ring is a giant space. It's convenient to wear this when you're out. I remember there's something else inside. What is it?"

Han Shi suppressed his pounding heart and took off the ring to give to Qin Xi. "This is for you. I don't need it."

Qin Xi pretended to be angry and glared at him. "How dare you take off the ring I put on your finger? Do you not want to register our marriage anymore?"

Han Shi was stunned and a little helpless. "What does this have to do with registering our marriage? I-I just want to give the good things to you."

Qin Xi continued to glare at him. "Why are you giving me such an ugly thing? Do you want to make me embarrassed?"

Chapter 550 Destruction

"This is a man's finger. Looking at the size, it can almost fit my toe."

Han Shi knew that Qin Xi wanted to give this ring to him. He rubbed the top of her head. "I can make it a necklace for you to wear. Speaking of which, I don't think I've ever bought you a necklace!"

"A necklace?"

Qin Xi waved her hands in disdain. "I don't want it. My treasures are much better than this ring."

As she spoke, with a thought, the Chain of Darkness immediately transformed into a black necklace.

"How is it? Isn't it beautiful?"

Qin Xi raised her fair neck and asked proudly.

Han Shi's gaze landed on her slender neck and gradually moved down. His gaze was burning, as if it wanted to penetrate the skin on her body. His breathing quickened and his voice was slightly hoarse.

"Yes, very beautiful!"

Qin Xi could tell that something was wrong with his aura. She looked up and caught the strange glint in his eyes. She blushed and quickly turned her body to avoid his gaze.

She glared at him and said angrily, "What are you looking at? If you are not behaving yourself outside, I'll ignore you."

Han Shi touched his nose in embarrassment and said sweetly, "I'm looking at my wife, not anyone else. You are simply too good-looking. I just can't control myself!"

Qin Xi was rendered speechless by his shameless words. She stepped on his foot. "Don't even think about it. Take the treasures with you. We'll study them when we go back."

Han Shi pretended to be aggrieved. "Wifey, can you be gentler to me? I just survived a calamity!"

"Then stop being naughty. Hmph!" Qin Xi snorted and turned her head, but the corners of her mouth curled up into a beautiful smile.

Qin Xi taught him how to use the giant space. Han Shi quickly put all the valuable things into the space before leaving the secret room.

**

In the hall, Qin Xi and Han Shi sat at the head of the table.

"This is what I promised you previously. If you want to leave, you just have to burn this talisman. In addition, I'll leave the matters here to you. When you all leave, destroy this place!"

Zhao Di, Sun Dong, and the others immediately bowed respectfully to Qin Xi and Han Shi. Their eyes were red and their voices were trembling with excitement.

"Thank you for your kindness. If you need me, feel free to come and find me. I will definitely do my best."

Sun Dong nodded in agreement. "Yes, me too!"

"I've already done what I wanted to do. I won't come here again. You can do whatever you want to do in the future."

"However, it's best if you don't leave this place. You probably know that the Yin family has made many enemies outside. With your ability, you definitely won't be able to deal with them. If you want to continue living, stay here safely."

"We understand. Thank you for your reminder, Master."

Qin Xi and Han Shi returned with bountiful treasures. They stayed here for the night before leaving. Their departure officially announced the destruction of the Yin family.

As she watched Qin Xi and Han Shi leave, Zhao Di's eyes darkened and she looked at Sun Dong.

"I'll go back first and make them suffer the pain I've suffered for the past 20 years."

Sun Dong nodded. "What a coincidence. I have the same intention. We have plenty of time. Let's torture them slow!"

Zhao Di's eyes lit up. "Then what are we waiting for? Let's go!"
